

PROHIBITION OF SALES TO EEA RETAIL INVESTORS – The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area (EEA). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, MiFID II); or (ii) a customer within the meaning of Directive 2016/97(EU), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in Regulation (EU) 2017/1129 (as amended, the Prospectus Regulation). Consequently no key information document required by Regulation (EU) No 1286/2014 (as amended, the PRIIPs Regulation) for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been or will be prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA or may be unlawful under the PRIIPs Regulation.

UK MIFIR PRODUCT GOVERNANCE /RETAIL INVESTORS, PROFESSIONAL INVESTORS AND ELIGIBLE COUNTERPARTIES ONLY TARGET MARKET – Solely for the purposes of the manufacturer’s product approval process, the target market assessment in respect of the Notes, taking into account the five categories referred to in item 18 of the Guidelines published by the European Securities and Markets Authority on 5 February 2018 (in accordance with the FCA’s policy statement entitled “Brexit our approach to EU non-legislative materials”), has led to the conclusion that: (i) the target market for the Notes is retail clients, as defined in point 8 of article 2 of Regulation (EU) No 2017/565 as it forms part of the domestic law of the United Kingdom by virtue of the European Union (Withdrawal) Act 2018 (EUWA), and eligible counterparties, as defined in the FCA Handbook Conduct of Business Sourcebook (“COBS”), and professional clients, as defined in Regulation (EU) No 600/2014 as it forms part of the domestic law of the United Kingdom by virtue of the European Union (Withdrawal) Act 2018 (“UK MiFIR”); (ii) all channels for distribution to eligible counterparties and professional clients are appropriate; and (iii) the following channels for distribution of the Notes to retail clients are appropriate - investment advice, subject to the distributor's suitability and appropriateness obligations under COBS, as applicable. The product is incompatible for any client outside the positive target market and/or sales contemplated outside of the channels for distribution of the Notes as identified above. Any person subsequently offering, selling or recommending the Notes (a distributor) should take into consideration the manufacturer's target market assessment; however, a distributor subject to the FCA Handbook Product Intervention and Product Governance Sourcebook (the UK MiFIR Product Governance Rules) is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturer's target market assessment) and determining appropriate distribution channels, subject to the distributor's suitability and appropriateness obligations under COBS, as applicable.

Rights attached to the Securities

Governing law – The Notes are governed by English law.

Interest and Redemption -

Interest and redemption amounts are determined in accordance with the following formula: **Phoenix**

The **Phoenix** may pay a conditional or guaranteed interest amount on each Payment Date. If applicable, Noteholders may benefit from the Memory Effect, which triggers payment of any previously unpaid interest amounts. Automatic early redemption may occur during the term of the Notes. On each Valuation Date indexed "t", an interest amount, paid on the Payment Date indexed "t", unless this Valuation Date falls after the occurrence of an automatic early redemption event, is calculated in accordance with the following formula:

$$\text{PhoenixCoupon}(t) = \text{Calculation Amount} \times [\text{Coupon}_1(t) + (\text{Coupon}_2(t) - \text{MemoryCoupon}(t)) \times \text{UpsideCondition}(t)]$$

$$\text{UpsideCondition}(t) = 1 \text{ if } \text{BasketPerf}_1(t) \geq H(t)$$

$$= 0 \text{ if not}$$

Where:

“**Calculation Amount**” means GBP 1.00. “**Coupon₁(t)**” means 0.00% for all Valuation Dates. “**Coupon₂(t)**” means 1.50% for each Valuation Date indexed “t”, “t” ranging from 1 to 40. “**H(t)**” means 85.00% for each Valuation Date indexed “t”, “t” ranging from 1 to 40. “**MemoryCoupon(t)**” means 0 (zero). “**Memory Effect**” is Not Applicable

“**BasketPerf₁(t)**” means for each Valuation Date “t”, “t” ranging from 1 to 40, the performance of the Selection. Its value is determined by the Calculation Agent in accordance with the Local Performance formula and equals to BasketPerf(t) of such formula:

“**Local Performance**” formula means: $\text{BasketPerf}(t) = \text{LocalBasketPerf}(t)$

“**LocalBasketPerf(t)**” is calculated on the Valuation Date “t” in accordance with the **Weighted** formula. **Weighted** formula means the weighted average of the individual performances of each Underlying in the Selection, as calculated by the Calculation Agent in accordance with the following formula: $\text{LocalBasketPerf}(t) = \sum_{i=1}^m \omega^i \times \text{IndivPerf}(i, t)$ where: “ ω^i ” means the weighting of the Underlying “i” as specified in the table “Selection” below.

“**m**” means the number of the Underlyings in the Selection.

In the **Weighted** formula, **IndivPerf(i,t)** is, for each Valuation Date “t” and each Underlying indexed “i”, “i” ranging from 1 to 1, a term calculated in accordance with the **European Individual Performance formula**.

“**European Individual Performance**” formula means: $\text{IndivPerf}(i,t) = \frac{\text{Price}(i,t)}{\text{Reference Price}(i)}$

Where:

Price(i, t) means, for the Valuation Date “t” the Price of the Underlying indexed “i”. **Price** means the level of the Underlying indexed “i” as determined by the Calculation Agent as of the scheduled closing time on the relevant exchange.

Reference Price (i) means for the Underlying indexed “i”, the level of such Underlying indexed “i”, as determined by the Calculation Agent as of the scheduled closing time on 5 November 2021.

The automatic early redemption event of the Note shall occur on any Valuation Date indexed "t" where: **AutoCallCondition(t) = 1** with:

$$\text{AutoCallCondition}(t) = 1 \text{ if } \text{BasketPerf}_2(t) \geq R(t)$$

$$= 0 \text{ if not}$$

Where “**R(t)**” means:

- for each Valuation Date indexed “t” with “t” ranging from 1 to 7 and for “t” = 40 : Not Applicable and;
- for each Valuation Date indexed “t” with “t” ranging from 8 to 39: 100.00%

If “R(t)” is specified as being Not Applicable, then $\text{AutoCallCondition}(t) = 0$ in any event.

“**BasketPerf₂(t)**” means $\text{BasketPerf}_1(t)$, for all Valuation Dates.

In this case, the automatic early redemption amount per Note payable on the Payment Date immediately following the Valuation Date "t" is equal to:

$$\text{Calculation Amount} \times (100\% + \text{Coupon}_3(t) \times \text{UpsideCondition}_2(t)),$$

$$\text{UpsideCondition}_2(t) = 1 \text{ if } \text{BasketPerf}_3(t) \geq H_2(t)$$

= 0 if not, where:

“**Coupon₃(t)**” means:

- Not Applicable, for the Valuation Dates indexed “t”, with “t” ranging from 1 to 7 and for “t” = 40;
- 0.00%, for each Valuation Date indexed “t”, “t” ranging from 8 to 39.

“**H₂(t)**” is Not Applicable for all Valuation Dates. If “H₂(t)” is specified as being Not Applicable, then UpsideCondition₂(t) = 0 in any event.

“**BasketPerf₃(t)**” = BasketPerf₁(t), for all Valuation Dates.

If the Note has never been subject to an automatic early redemption, then the Final Redemption Amount per Note is equal to:

$$\text{Calculation Amount} \times [100\% + \text{FinalCoupon} - \text{Vanilla} \times \text{DownsideCondition} \times (1 - \text{UpsideCondition}_3)],$$

where:

$$\text{Vanilla} = G \times \text{Min}(\text{Cap}, \text{Max}((K - \text{BasketPerf}_4(T)), \text{Floor}))$$

$$\text{DownsideCondition} = 1 \text{ if } \text{BasketPerf}_5(T) < B$$

= 0 if not and

$$\text{FinalCoupon} = (\text{Coupon}_4 \times (1 - \text{DownsideCondition})) + (\text{Vanilla}_5 \times \text{UpsideCondition}_3)$$

$$\text{Vanilla}_5 = \text{Coupon}_5 + G_5 \times \text{Min}(\text{Cap}_5, \text{Max}((\text{BasketPerf}_6(T) - K_5), \text{Floor}_5))$$

$$\text{UpsideCondition}_3 = 1 \text{ if } \text{BasketPerf}_7(T) \geq H_3$$

= 0 if not, where:

“**Coupon₄**” means 0.00%. “**Coupons**” means 0.0000%. “**H₃**” means 100.00%. “**G**” means 100.00%. “**G₅**” means 0.00%. “**Cap**” is Not Applicable. “**Caps**” is Not Applicable. “**Floor**” means 0.00%. “**Floors**” means 0.00%. “**K**” means 100.00%. “**K₅**” means 100%. “**B**” means 65.0000%. “**BasketPerf₄(T)**” = BasketPerf₁(t = 40). “**BasketPerf₅(T)**” = BasketPerf₁(t = 40). “**BasketPerf₆(T)**” = BasketPerf₁(t = 40). “**BasketPerf₇(T)**” = BasketPerf₁(t = 40).

Most material risk factors pertaining to the Guarantor

The key risks with regard to NATIXIS' structure and operations are set out below:

1. NATIXIS is exposed to the credit risk of its counterparties in its activities. Due to the inability of one or more of its counterparties to comply with its contractual obligations and in a context of increasing defaults by its counterparties, NATIXIS could suffer financial losses of a greater or lesser magnitude depending on the concentration of its exposure to those defaulting counterparties;
2. Financial markets' fluctuations and high volatility may expose NATIXIS to the risk of losses in relation to its trading and investment operations;
3. If NATIXIS fails to comply with applicable laws and regulations, NATIXIS could be exposed to heavy fines and other administrative and criminal sanctions likely to have a material adverse impact on its financial position, business and reputation;
4. NATIXIS is exposed to risks related to the environment in which it operates, and the COVID-19 pandemic may have a materially unfavourable impact on NATIXIS' business, its financial environment, operating results, outlook, capital and financial ratings (including possible changes to its outlook or ratings); and
5. In the context of its insurance activities, NATIXIS is exposed mainly to asset impairment risk (fall in the equity or real estate market, widening spreads, interest rate hikes) as well as the risk of lower interest rates which would generate insufficient income to meet its guaranteed principal and returns.

What are the key risks that are specific to the securities?

There are also risks that are significant for the assessment of the Notes including:

General risks

Risk of volatility of the Notes: Noteholders face a risk of volatility, which refers to the risk of changes in the value of a Note, as well as any difference between the valuation level and the sale price of the Notes on the secondary market. Events in France, Europe or elsewhere could cause volatility in the secondary market of the Notes, which could result in a negative impact on the trading or sale price of the Notes.

Risk relating to the NATIXIS Guarantee (which includes reference to resolution or insolvency risk of the Guarantor): The Noteholders may suffer losses should NATIXIS (as Guarantor) undergo resolution proceedings pursuant to European regulation and French transposition rules establishing a framework for the recovery and resolution of credit institutions and investment firms. In case of resolution proceedings, the Noteholders could face non-redemption or redemption at an amount lower than the amount expected.

Risk of early redemption in the event of illegality, changes in taxation, force majeure: In the event of an early redemption of the Notes in the event of illegality or changes in rules on withholding taxes or if the performance of the Issuer's obligations under the Notes is impossible or insurmountable due to the occurrence of force majeure event, the Noteholders will receive an amount equal to the fair market value of the Notes. The fair market value of the Notes payable upon early redemption may be lower than the amount that Noteholders initially anticipated.

Risk of loss of capital for Notes whose redemption amount is determined by reference to a calculation formula and/or linked to an underlying asset: The amounts payable by the Issuer are linked to or make reference to the performance of one underlying asset (the "Underlying"). Such amounts may be determined by the application of a calculation formula and one or more observations or the occurrence of certain events in relation to the Underlying(s). If there is an adverse change in the performance of the Underlying(s), exacerbated, if relevant, by the terms of the formula or indexation provisions, Noteholders may suffer a significantly decreased redemption amount on the Notes or even a total loss of its investment.

Risk of low or no returns: The amounts of interest payable by the Issuer are linked to or make reference to changes in one Underlying. Such amounts may be determined by the application of a calculation formula and one or more observations or the occurrence of certain events in relation with the Underlying. If there is an adverse change in the price, value or level of the Underlying(s), exacerbated, if relevant, by the terms of the formula or indexation provisions, Noteholders may suffer a significantly decreased rate of return on the Notes or even no return whatsoever.

Underlying dedicated risk factors

Risks relating to the occurrence of an Administrator/Benchmark Event: There is a risk that, upon the determination by the Calculation Agent, an event with respect to the Underlying as a benchmark or the administrator of such benchmark occurs with the effect that certain fallbacks provisions shall apply (an "Administrator/Benchmark Event").

Any adjustment decided by the Calculation Agent further to the occurrence of an Administrator/Benchmark Event may not be effective in reducing or eliminating the loss of investors resulting from the replacement of the Underlying and could affect the performance of the Notes. Investors should also note that no consent from Noteholders shall be required before the application of any adjustment.

If, consequently to the occurrence of an Administrator/Benchmark Event, the Notes are early redeemed at their fair market value, the interest amounts and/or redemption amounts due in respect of the Notes may be less than the amount initially set out in the Final Terms.

The above described elements may affect the Issuer's ability to perform its obligations under the Notes and/or may have a negative impact on the value or liquidity of the Notes.

Risks associated with Notes whose interest amounts and/or redemption amounts are linked to or make reference to an Underlying index: The determination of the interest amounts and/or redemption amounts due in respect of the Notes requires observation of the Underlying's value(s). Certain events may affect the administrator of the Underlying or the Underlying, such as modification of the Underlying formula, cancellation of the Underlying or failure to calculate and announce the Underlying.

In these cases, the Calculation Agent may, at its discretion, either (i) adjust certain terms of the Notes, (ii) replace the Underlying, or (iii) require the Issuer to redeem the Notes at the early redemption amount equal to the fair market value as determined by and at the sole discretion of the Calculation Agent. The adjustment of the terms of the Notes or the replacement of the Underlying may affect Natixis' ability to perform its obligations of the Notes and/or may have a negative impact on the value and the interest amounts and/or redemption amounts or liquidity of the Notes. Moreover, the fair market value calculated in case of early redemption may be less than the redemption amount initially set out in the terms of the Notes and consequently investors may lose all or some of their investment.

Risk relating to change in law or the inability to hold hedging position: The Issuer enters into hedging agreements to cover the risks related to such Notes and in particular changes in the value of the relevant Underlying(s). In the event of a change in law or a hedging disruption, it may become unlawful or impracticable for the Issuer to hold, acquire, exercise or dispose of such hedging agreements. In these cases, the Issuer may elect to (i) request the Calculation Agent to adjust the terms of redemption and payment of, or (ii) redeem all (but not some only) of the Notes at the early redemption amount equal to the fair market value as determined by and at the sole discretion of the Calculation Agent. The adjustment of the terms of the Notes may have a material impact on the interest amounts and/or redemption amounts due in respect of the Note and on the value of the Notes. Moreover, such fair market value may be less than the redemption amount initially set out in the terms of the Notes and consequently investors may lose all or some of their investment.

Risks relating to inability to observe the price, value or level of the Underlying(s) in the event of market disruption: Determination of the interest amounts and/or redemption amounts due in respect of the Notes requires observation of the level

of the Underlying(s) in the relevant market(s) or from a particular source of information. Market disruption events related to these markets may occur and prevent the Calculation Agent from making such determinations. In such cases, the Calculation Agent shall defer the observation of the level of the Underlying(s). If the market disruption event continues, the Calculation Agent shall determine in good faith the level of the affected Underlying(s) which could have a material impact on the interest amounts and/or redemption amounts due in respect of the Note and on the value of the Notes. The deferral of the observation of the level of the Underlying(s) affected or the disregarding of the day on which a market disruption event occurred may reduce some or all of amounts due in respect of the Notes and the market value of the Notes.

The dealer and its affiliates may also have engaged, and may in the future engage, in investment banking and/or commercial banking transactions with, and may perform other services for, the Issuer and the Guarantor and their respective affiliates in the ordinary course of business.

Various entities within the BPCE group (including the Issuer and the Guarantor) and affiliates undertake different roles in connection with the Notes, including Issuer of the Notes and may also engage in trading activities (including hedging activities) relating to the Underlying and other instruments or derivative products based on or relating to the Underlying which may give rise to potential conflicts of interest.

NATIXIS, which acts as arranger, permanent dealer and Calculation Agent is an affiliate of the Issuer and the Guarantor and potential conflicts of interest may exist between it and Noteholders, including with respect to certain determinations and judgments that the Calculation Agent must make. The economic interests of the Issuer and of NATIXIS as arranger and permanent dealer are potentially adverse to a Noteholder's interests as an investor in the Notes.
