DORIC NIMROD AIR THREE LIMITED

COMPANY OVERVIEW

Doric Nimrod Air Three Limited (LSE Ticker: DNA3) ("**DNA3**" or the "**Company**") is a Guernsey company incorporated on 29 March 2012.

Pursuant to the Company's Prospectus dated 20 June 2013, the Company on 2 July 2013, offered its shares for issue by means of a placing and raised approximately £211 million by the issue of ordinary preference shares (the "**Shares**") at an issue price of 100 pence each (the "**Placing**"). The Company's Shares were admitted to trading on the Specialist Fund Segment ("**SFS**") of the London Stock Exchange's Main Market on 2 July 2013.

As at 3 July 2019, the last practicable date prior to the publication of this report, the Company's total issued share capital consisted of 220,000,000 Shares and these Shares were trading at 86.00 pence per Share.

Investment Objectives and Policy

The Company's investment objective is to obtain income returns and a capital return for its shareholders (the "**Shareholders**") by acquiring, leasing and then selling aircraft (each an "**Asset**" or "**Assets**" and together the "**Assets**" or "**Aircraft**"). To pursue its investment objective, the Company has used the net proceeds of placings and other equity capital raisings, together with debt facilities (or instruments), to initially acquire four Airbus A380 Aircraft which are leased to Emirate Airlines ("**Emirates**"), the national carrier owned by The Investment Corporation of Dubai based in Dubai, United Arab Emirates.

DNA Alpha

The Company has one wholly-owned subsidiary, DNA Alpha Limited ("**DNA Alpha**") which holds the Assets for the Company (together the Company and DNA Alpha are known as the "**Group**").

The first Asset was acquired by DNA Alpha on 29 August 2013 for a purchase price of \$245 million. Upon delivery, DNA Alpha entered into an operating lease with Emirates, pursuant to which the first Asset has been leased to Emirates for an expected initial term of twelve years, with fixed lease rentals for the duration.

The second Asset was acquired by DNA Alpha on 29 October 2013 for a purchase price of \$245 million. Upon delivery, DNA Alpha entered into an operating lease with Emirates, pursuant to which the second Asset has been leased to Emirates for an expected initial term of twelve years, with fixed lease rentals for the duration.

The third Asset was acquired by DNA Alpha on 14 November 2013 for a purchase price of \$245 million. Upon delivery, DNA Alpha entered into an operating lease with Emirates, pursuant to which the third Asset has been leased to Emirates for an expected initial term of twelve years, with fixed lease rentals for the duration.

The fourth Asset was acquired by DNA Alpha on 27 November 2013 for a purchase price of \$245 million. Upon delivery, DNA Alpha entered into an operating lease with Emirates, pursuant to which the fourth Asset has been leased to Emirates for an expected initial term of twelve years, with fixed lease rentals for the duration.

DNA Alpha acquired the Assets, using a combination of a portion of the proceeds of the issue of the Ordinary Shares by the Company together with the proceeds of the sale of Equipment Notes issued by DNA Alpha (the "**Equipment Notes**") and the initial rent payment pursuant to the relevant operating leases. The Equipment Notes were acquired by two separate pass through trusts using the proceeds of their issue of enhanced equipment trust certificates (the "**Certificates**" or "**EETC**") as detailed within the Offering Circular issued by DNA Alpha dated 10 July 2013.

DORIC NIMROD AIR THREE LIMITED

The Certificates, with an aggregate face amount of approximately \$630 million, are admitted to the official list of the Euronext Dublin and to trading on the Main Securities market thereof and will mature on 30 May 2025.

Further information about the construction of these leases is available in Note 3 to the financial statements.

Distribution Policy

The Company aims to provide its Shareholders with an attractive total return comprising income from distributions through the period of the Company's ownership of the Assets and capital upon the sale of the Assets.

The Group receives income from the lease rentals paid by Emirates pursuant to the relevant leases. It is anticipated that income distributions will be made quarterly, subject to compliance with applicable laws and regulations. The Company currently targets a distribution of 2.0625 pence per Share per quarter. Emirates bears all costs (including maintenance, repair and insurance) relating to the Assets during the lifetime of the leases.

There can be no guarantee that dividends will be paid to Shareholders and, if dividends are paid, as to the timing and amount of any such dividend. There can also be no guarantee that the Company will, at all times, satisfy the solvency test required to be satisfied pursuant to section 304 of The Companies (Guernsey) Law, 2008, as amended (the "**Law**") enabling the Directors to effect the payment of dividends.

Performance Overview

All payments by Emirates have, to date, been made in accordance with the terms of the respective leases.

During the financial year under review and in accordance with the Distribution Policy the Company declared four interim dividends of 2.0625 pence per Share. One interim dividend of 2.0625 pence per Share was declared after the reporting period. Further details of dividend payments can be found on page 17.

Return of Capital

The Company intends to return to Shareholders the net capital proceeds if and when the Company is wound up (pursuant to a Shareholder resolution, including the Liquidation Resolution below), subject to compliance with the Company's Articles of Incorporation (the "**Articles**") and the applicable laws (including any applicable requirements of the solvency test contained therein).

Liquidation Resolution

Although the Company does not have a fixed life, the Articles require that the Directors convene a general meeting of the Company in November 2026 where an ordinary resolution will be proposed that the Company proceed to an orderly wind-up at the end of the term of the leases (the "**Liquidation Resolution**"). In the event that the Liquidation Resolution is not passed, the Directors will consider alternatives for the future of the Company, including releasing the Assets, or selling the Assets and reinvesting the capital received from the sale of the Assets in other aircraft.

DORIC NIMROD AIR THREE LIMITED

CHAIRMAN'S STATEMENT

I am pleased to present Shareholders with the Company's annual financial report, covering the period from 1 April 2018 until 31 March 2019 (the "**Period**").

I am happy to report that during the Period the Company has performed as anticipated and has declared and paid four quarterly dividends of 2.0625 pence per share, as expected, equivalent to 8.25 pence per share per annum.

The Company's investment objective is to obtain income returns and a capital return for its Shareholders by acquiring, leasing and then selling aircraft. The Group owns four Assets. Upon the purchase of each Aircraft, the 'Company's subsidiary entered into a 12 year lease with Emirates with fixed lease rentals for the duration. The debt portion of the funding will be fully amortised over the term of each lease, which will leave the Aircraft unencumbered on the conclusion of the lease. Emirates bears all costs (including maintenance, repair and insurance) relating to the aircraft during the lifetime of the leases and all payments thus far by Emirates have been made in accordance with the terms of the leases.

The key development during the period was the announcement on 14 February 2019 that Airbus will close production of the A380 in 2021. This development means that the total production run for the aircraft will be around 250 units, almost half of which will be operated by Emirates. The A380 remains a unique double-decker aircraft in that it has the capability to carry over 500 passengers on two floors and this can help facilitate growth at slot-constrained airports around the world. It remains the case that a secondary market for the A380 has yet to develop and uncertainty over future residual values remain. Notwithstanding this, at the time of the announcement by Airbus, His Highness Sheikh Ahmed bin Saeed Al Maktoum, Chairman and Chief Executive, Emirates Airline and Group stated, "For us, the A380 is a wonderful aircraft loved by our customers and our crew. It is a differentiator for Emirates. The A380 will remain a pillar of our fleet well into the 2030s." More recently, the Emirates Annual Financial Report highlighted: "We are strong believers in the A380 programme, despite Airbus' decision to stop production in 2021." The announcement by Airbus has no direct impact on the Group's leases nor its ability to pay targeted distributions. The Group's lease expiries do not begin to fall due until August 2025. Furthermore, the Group's debt structure is such that all debt liabilities will be fully paid off at the end of the ultimate lease (subject only to the continued solvency of Emirates) at which point the aircraft will be unencumbered.

Nonetheless, the Directors note that following the 14 February 2019 announcement by Airbus regarding the cessation of the A380 programme in 2021, there has been a broadening of opinion between the Group's three independent appraisers with regard to the asset appraisal values as they each continue to assess the consequences, positive and negative, of the Airbus decision.

The Group's share price fell sharply on the day of the announcement, having demonstrated relatively little volatility since launch in 2013, and at the time of writing the share price has stabilised somewhat, at around 86 pence. Further details on the cessation of the A380 programme and Emirates can be found in the Asset Manager's report. The Group's Asset Manager, Amedeo Management Limited ("**Amedeo**") has been and will continue to be in regular dialogue with Emirates, and the A380 remains intensely popular with passengers.

Amedeo continues to monitor the leases, reports regularly to the Board and prepares the

DORIC NIMROD AIR THREE LIMITED

quarterly fact sheets. Nimrod Capital LLP (“**Nimrod**”), the Group’s Corporate and Shareholder Adviser, continues to liaise between the Board and Shareholders, and also communicates with Shareholders regularly regarding relevant news flow and the Group’s financial statements.

In economic reality and in cash flow terms, the Group has performed well, and as expected. However, the financial statements do not, in the Board’s view, properly convey this economic reality due to the accounting treatments for foreign exchange, rental income and finance costs, as required by International Financial Reporting Standards (“**IFRS**”).

IFRS, with which the Group is fully compliant, requires that transactions denominated in currencies other than the presentation currency, (including, most importantly, the cost of the aircraft) are translated into the presentation currency at the exchange rate ruling at the date of the transaction whilst monetary items (principally the outstanding borrowings) are translated at the rate prevailing on the reporting date. The result is that the figures sometimes show very large mismatches which are reported as unrealised foreign exchange differences.

On an on-going basis and assuming the lease and debt payments are made as anticipated, such exchange differences do not reflect the commercial substance of the situation in the sense that the key transactions denominated in US dollars are in fact closely matched. Rental income received in US dollars is used to make debt repayments due which are likewise denominated in US dollars. Furthermore, the US dollar lease rentals and debt repayments are fixed at the outset of the Group’s life and are very similar in amount and timing.

In addition to this, lease rental income receivable is credited evenly to the Statement of Comprehensive Income over the planned life of each lease. Conversely, the methodology for accounting for interest cost means that the proportion of the debt repayments which is treated as interest, and is debited to the Statement of Comprehensive Income, varies over the course of each debt instrument with a higher proportion of interest expense recognised in earlier periods, so that the differential between rental income and interest cost (as reported in the Statement of Comprehensive Income) reduces. In reality however, the amount of rental income is fixed so as to closely match the interest and principal components of each debt repayment instalment and allow for payments of operating costs and dividends.

The Board encourages Shareholders to read the Group’s quarterly fact sheets which we believe provide a great deal of interesting information and we hope these regular reports, in addition to the communication you receive from Nimrod, are useful and informative. We welcome Shareholder engagement and feedback, including on the topic referenced above, and encourage you to contact Nimrod to request a meeting or relay your feedback.

On behalf of the Board, I would like to thank our service providers for all their help and Shareholders for their continuing support of the Group. I look forward to keeping all Shareholders up to date with further progress.

Charles Wilkinson
Chairman
4 July 2019

DORIC NIMROD AIR THREE LIMITED

ASSET MANAGER'S REPORT

At the request of the Directors of the Company, this commentary has been provided by the Asset Manager of the Company.

1. The Assets

The Company acquired four Airbus A380 aircraft by the end of November 2013. Since delivery, each of the four aircraft has been leased to Emirates Airline ("Emirates") – the national carrier owned by the Investment Corporation of Dubai, based in Dubai, United Arab Emirates – for an initial term of 12 years with fixed lease rentals for the duration. In order to complete the purchase of the aircraft, DNA Alpha Ltd ("DNA Alpha"), a wholly owned subsidiary of the Company, issued two tranches of enhanced equipment trust certificates ("the Certificates" or "EETC") – a form of debt security – in July 2013 in the aggregate face amount of USD 630 million. DNA Alpha used the proceeds from both the Equity and the Certificates to finance the acquisition of the four new Airbus A380 aircraft.

The four Airbus A380 aircraft bearing manufacturer's serial numbers (MSN) 132, 133, 134 and 136 recently visited Christchurch, Houston, Los Angeles, Melbourne, Milan, Munich, Sydney, and Toronto.

Aircraft utilisation for the period from delivery of each Airbus A380 until the end of March 2019 was as follows:

MSN	Delivery Date	Flight Hours	Flight Cycles	Average Flight Duration
132	29/08/2013	28,278	3,279	8 h 35 min
133	27/11/2013	27,133	2,883	9 h 25 min
134	14/11/2013	26,112	2,799	9 h 20 min
136	29/10/2013	27,405	2,927	9 h 20 min

Maintenance Status

Emirates maintains its A380 aircraft fleet based on a maintenance programme according to which minor maintenance checks are performed every 1,500 flight hours, and more significant maintenance checks (C checks) at 36-month or 18,000-flight hour intervals, whichever occurs first.

Emirates bears all costs relating to the aircraft during the lifetime of the leases (including for maintenance, repairs and insurance).

Inspections

The asset manager conducted physical inspection of the aircraft with MSNs 133 and 136 in August 2018, MSN 134 in September 2018 and MSN 132 in November 2018. Physical condition of the aircraft were in compliance with the provisions of the respective lease agreements. Furthermore, a records audit was conducted for MSN 132 in November 2018. The documents were in compliance with the lease agreement.

In January 2019, the asset manager conducted records audits and physical inspections for the aircraft with MSNs 133, 134, and 136. The records and physical condition of the aircraft were in compliance with the provisions of the respective lease agreements. The lessee was again very helpful in the responses given to the asset manager's technical staff.

2. Market Overview

Following a moderation over the second half of 2018, industry-wide passenger traffic, measured in global revenue passenger kilometres (RPKs), ended the calendar year with an

DORIC NIMROD AIR THREE LIMITED

average growth rate of 6.6%. According to the International Air Transport Association (IATA), the slowdown in RPK growth corresponds to ongoing concerns about future global economic expansion. However, RPKs in January grew by the fastest pace since mid-2018 (6.5%). This result lies between the average RPK growth rate seen over the past decade (6.1%) and five-year historical average (7.1%). IATA states that recent developments remain consistent with its forecast passenger growth rate of 6.0% for 2019. Industry-wide capacity, measured in available seat kilometres (ASKs), increased by 6.1% in 2018. This resulted in a 0.3 percentage point increase in worldwide passenger load factors (PLFs) to 81.9%. With the PLF at 79.6% in January, the load factor was essentially unchanged from the same month the year before.

Passenger traffic in the Middle East grew by 4.0% in 2018. This was outpaced by a 4.9% increase in capacity, leading to a 0.6 percentage point decrease in PLF to 74.8%. However, following the adverse impact of a number of policy measures and geopolitical tensions in recent years, IATA notes that a healthy recovery in RPK growth commenced early in 2019 with passenger traffic up 1.5% in January compared to the same month in the year before, after flat growth was observed toward the end of 2018.

Asia/Pacific-based operators remained the top performers in overall market demand in 2018 as RPKs increased by 8.6% compared to the previous year. Europe ranked second with 6.7% followed by Latin America with 6.2%. North America saw an increase of 5.0% while Africa had the slowest growth rate at 2.3%.

3. Lessee – Emirates Key Financials

The 2018/19 financial year, ending on 31 March 2019, marked the 31st consecutive year of profit for the airline. With a net profit of AED 871 million (USD 237 million), the bottom line was down by 69% compared to the previous financial year. This decline in net profit came despite an increase of 6% in revenue to AED 97.9 billion (USD 26.7 billion). Due to a combination of high fuel prices, intensified competition in the lessee's key markets, and an unfavourable currency impact, the airline saw its profit margin decrease to 0.9%, down from 3.0% in the previous year. The past financial year "has been tough, and our performance was not as strong as we would have liked", said His Highness Sheikh Ahmed bin Saeed Al Maktoum, Chairman and Chief Executive of Emirates Airline, commenting on the latest results. He further noted that Emirates' regional competitors "one-point business plan" was "to always undercut Emirates' fares at all costs". The lessee tried to avoid engaging in price wars and was focused "to improve yield, even if it meant conceding market share".

During the 2018/19 financial year, operating costs increased by 8% compared to the previous year. Fuel represented the largest of the airline's expenses, accounting for 32% of all operating costs. The average price of jet fuel increased 22% plus a 3% higher uplift in line with capacity increases, which resulted in the fuel bill increasing 25% compared to the 2017/18 period, to an amount of AED 30.8 billion (USD 8.4 billion). Additionally, the relative strengthening of the US dollar against currencies in many of the airline's key markets had an AED 572 million (USD 156 million) negative impact compared to the positive currency impact of AED 661 million (USD 180 million) the year before. The number of employees decreased by 3%, a continuation of the development already visible in the previous year. However, productivity measured in revenue per airline employee, increased by 11%.

As of 31 March 2019, Emirates' balance sheet totalled AED 127.4 billion (USD 34.7 billion), largely flat compared with the previous year. Total equity increased to AED 37.7 billion (USD 10.3 billion), resulting in an equity ratio of 29.6%. In the year before, the airline's equity ratio stood at 29.0%. The current ratio stood at 0.83, meaning the airline would be able to meet 83% of its current liabilities by liquidating all its current assets.

DORIC NIMROD AIR THREE LIMITED

Emirates raised AED 14.2 billion (USD 3.9 billion) in the 2018/19 financial year in order to fund fleet replacement and growth, using a combination of term loans, finance and operating leases. This included a Japanese Operating Lease with a Call Option (JOLCO) raising funding of more than USD 1 billion for the financing of its final six Boeing 777-300ER aircraft. Emirates' cash balance amounted to AED 17.0 billion (USD 4.6 billion) at the end of the financial year, down 17% compared to the beginning of the financial year, primarily due to the reduction in profits, payment for the outright purchase of two A380s and the payment of last year's dividend (AED 1 billion or USD 272 million) to the owner of Emirates.

Emirates' overall passenger number remained flat during the 2018/19 financial year with the airline carrying 58.6 million passengers, with a share of 41% flying on an A380. Passenger traffic, measured in RPKs, increased by 2.7%, while capacity, measured in ASKs, grew by 3.6%. This resulted in a passenger load factor of 76.8% compared to last year's 77.5%. The high seat factor on the A380 fleet continues to demonstrate the customer preference for the A380, according to the annual report.

During the 2018/19 financial year, Emirates added 13 new aircraft to its fleet: seven Airbus A380s and six Boeing 777-300ERs, including its last of the 777-300ER type before the first Boeing 777X is scheduled to arrive in 2020. Only one of the aircraft, which joined the fleet, was on an operating lease. The carrier also withdrew 11 aircraft from its fleet, leaving the fleet count (including 12 freighters) at 270 as of 31 March 2019. This fleet roll-over resulted in an average fleet age of 6.1 years, an increase of five months compared to the end of the previous financial year.

Emirates launched three new passenger destinations during the year: London Stansted (UK), Santiago (Chile) and Edinburgh (Scotland, UK), and also reinstated services to Sabiha Gokcen (Turkey). The operator has a proven track record in introducing new routes with the Boeing 777-300ER, generating opportunities for A380 services once the demand has been increased. Furthermore, it added flight capacity to 14 existing destinations and upgraded capacity to six cities by offering a higher frequency with more onward connections. At the end of the 2018/19 financial year Emirates serviced 158 destinations, one more than 12 months before, in 85 countries.

Due to the closure of Dubai International's southern runway for refurbishment work between 16 April and 30 May 2019, Emirates has temporarily grounded 48 aircraft and cut its flight schedule by 25%. Some services have been cancelled, others re-timed or operated with different aircraft to reduce the impact on customers. However, a negative impact on the current year's financial results is expected. Emirates also intends to make other changes to its network later in the year, including deploying the Airbus A380 on services to Boston and Glasgow in the summer.

Emirates entered into a memorandum of understanding with China Southern Airlines (China Southern) to begin codesharing on 18 routes in China, the Middle East and Africa. Subject to government approval, Emirates will place its code on China Southern services to Fuzhou, Chongqing, Kunming, Qingdao, Xiamen, Chengdu, Nanjing and Xian. China Southern will place its code on Emirates' services to Cairo, Dammam, Lagos and Riyadh. The airlines have not yet disclosed a start date for the codesharing.

Emirates has also continued to develop its partnership with flydubai, optimising flight schedules and offering new city-pair connections through Dubai. The codeshare and network optimisation scheme is set to cover 240 destinations by 2022, of which 67 were already available as of 31 March. The two airlines have also combined their loyalty programmes under Emirates Skywards.

In February 2019, Emirates provided an update on its fleet planning: Months of discussions with Airbus and engine manufacturer Rolls-Royce resulted in an agreement to reduce the

DORIC NIMROD AIR THREE LIMITED

number of unfilled A380 orders from 53 to 14. The remaining deliveries shall take place by 2021. In parallel the lessee signed a heads of agreement to order 40 Airbus A330-900 and 30 A350-900 with deliveries starting from 2021 and 2024 respectively. Notwithstanding the new order, His Highness Sheikh Ahmed bin Saeed Al Maktoum emphasized that “the A380 will remain a pillar of our fleet well into the 2030s” and that the operator continues to invest in this product.

Emirates Airline’s decision to adjust the number of A380s still up for delivery should encourage the operator to keep already delivered A380 aircraft longer in its fleet. A number of aircraft from the original order was earmarked to replace aircraft leaving the fleet after 12 or more years in service. In order to keep its A380 capacity at least flat, Emirates might be inclined – from an operational as well as from an economic point of view - to extend otherwise expiring lease contracts.

Source: Cirium, Emirates

4. Aircraft – A380

As of mid-March 2019, Emirates operated a fleet of 109 A380s, which currently serve 50 destinations within its global network via its hub in Dubai. A380 destinations include: Amsterdam, Athens, Auckland, Bangkok, Barcelona, Beijing, Birmingham, Brisbane, Casablanca, Christchurch, Copenhagen, Dusseldorf, Frankfurt, Guangzhou, Hamburg, Hong Kong, Houston, Johannesburg, Kuala Lumpur, Kuwait, London Gatwick, London Heathrow, Los Angeles, Madrid, Manchester, Mauritius, Melbourne, Milan, Moscow, Mumbai, Munich, New York JFK, Nice, Osaka, Paris, Perth, Prague, Rome, San Francisco, Sao Paulo, Seoul, Shanghai, Singapore, Sydney, Taipei, Tokyo Narita, Toronto, Vienna, Washington, and Zurich.

As of mid-March 2019, the global A380 fleet consisted of 230 commercially operated planes in service. The fourteen operators are Emirates (109), Singapore Airlines (19), Deutsche Lufthansa (14), Qantas (12), British Airways (12), Korean Air Lines (10), Etihad Airways (10), Air France (10), Qatar Airways (10), Malaysia Airlines (6), Thai Airways (6), Asiana Airlines (6), China Southern Airlines (5) and Hi Fly (1). Another two are listed as in storage. In addition, two A380s are earmarked for part-out after the owners of the aircraft voted for such a solution.

In February 2019, Airbus announced that it will discontinue its A380 programme in 2021, following a revised agreement with Emirates under which the airline is cutting its A380 order total from 162 to 123 aircraft – leaving just 14 to be delivered to the airline. Another two aircraft will be delivered to All Nippon Airways (ANA) with the airline having taken delivery of its first A380 on 21 March. Therefore, a total of 251 A380s will now ever be manufactured. According to its departing CEO Tom Enders, Airbus no longer has a “substantial A380 backlog and hence no basis to sustain production”. Enders added that – notwithstanding the upcoming production end – Airbus will “continue to fully support the A380 operators”.

Qantas has stated that it remains committed to the 12 superjumbos already in its fleet over the long-term with cabin refurbishments scheduled to commence mid-year.

Air France intends to return three A380s upon expiry of their leases in 2020-2021 and is currently reviewing the status of another two leased A380s. The move comes as part of a fleet optimisation programme and will reduce the number of Airbus A380s from the 10 it currently operates. The remaining A380s will begin retrofitting from 2020 onwards.

Qatar Airways CEO Akbar al-Baker announced that the airline intends to phase out its A380 fleet from 2024. The start of the phase-out coincides with the 10-year anniversary of the A380 at Qatar Airways, which received its first superjumbo in 2014.

Lufthansa disclosed that it will sell six of its 14 A380 jets back to Airbus in 2022 and 2023.

DORIC NIMROD AIR THREE LIMITED

The buyback is reportedly part of an agreement between Airbus and Lufthansa Group to order another 20 Airbus A350-900s.

It remains undisputed that the Airbus A380 is a niche asset in a class of its own from its inception. Due to the young age of the fleet the secondary market is yet to develop with the first second-hand A380 making its way to a new operator only a year ago. At this early stage and with only one transaction fully completed, the secondary market is still in its infancy. Whether or not all of the announced A380 returns from Air France, Lufthansa and Qatar will materialize, remains to be seen. In the meantime, potential operators have the chance to test the A380 via a wet lease arrangement over a limited period of time and without making any long-term commitments. This opportunity allows airlines interested in the A380 to explore the full potential of the aircraft and can create additional demand for second hand equipment, once it becomes available.

Hi Fly, a Portuguese wet lease operator, stated that its A380 continues to attract significant commercial interest and has a “busy season ahead” this summer. A decision on acquiring more planes will be taken after the completion of a full financial study, it said.

In February 2019, Malaysia Airlines launched a new brand called Amal that will run Malaysia A380 flights from South East Asia to Saudi Arabia for Islamic pilgrimage.

ANA received its first A380 and will deploy it thrice weekly on the Tokyo Narita-Honolulu route from May this year with 11 other services flown by Boeing 787-9s. From July, the second A380 will also join the route as A380 services increase to 10 per week with four 787-9s services. As of yet, ANA has not indicated whether its third A380, due in September, will be used on the Hawaiian route.

DIRECTORS

Charles Edmund Wilkinson - Chairman (Age 76) (Independent non-executive director)

Charles Wilkinson is a solicitor who retired from Lawrence Graham LLP in March 2005. While at Lawrence Graham he specialised in corporate finance and commercial law, latterly concentrating on investment trust and fund work.

Charles is currently Chairman of Doric Nimrod Air One Limited and of Doric Nimrod Air Three Limited and is a Director of Doric Nimrod Air Two Limited. Charles is also a director of Landore Resources Ltd, a Guernsey based mining exploration company. He is resident in Guernsey.

Geoffrey Alan Hall (Age 70) (Independent non-executive director)

Geoffrey Hall has extensive experience in asset management, having previously been Chief Investment Officer of Allianz Insurance plc, a major UK general insurance company and an investment manager at HSBC Asset Management, County Investment Management, and British Railways Pension Funds. Geoffrey is also currently a director of Doric Nimrod Air One Limited and Chairman of Doric Nimrod Air Two Limited.

Geoffrey earned his masters degree in Geography at the University of London. He is an associate of the CFA Society of the UK.

John Le Prevost (Age 67) (Independent non-executive director)

John Le Prevost is the Chief Executive Officer of Anson Group Limited and Chairman of Anson Registrars Limited (the Company's Registrar). He has spent 30 years working in offshore trusts and investment business during which time he was Managing Director of County NatWest Investment Management (Channel Islands) Limited, Royal Bank of Canada's mutual fund company in Guernsey and Republic National Bank of New York's international trust company. He is a director of a number of other companies associated with Anson Group's business as well as being a trustee of the Guernsey Sailing Trust.

John is also currently a director of Doric Nimrod Air One Limited, Doric Nimrod Air Two Limited and Amedeo Air Four Plus Limited. He is resident in Guernsey.

DORIC NIMROD AIR THREE LIMITED

SERVICE PROVIDERS

Management and the Delegation of Functions

The Directors, whose details are set out on page 11 are responsible for reviewing the business affairs of the Group in accordance with the Articles and have overall responsibility for the Group's activities including all business decisions, review of performance and authorisation of distributions. All of the Directors are independent and non-executive. The Group has delegated management of the Company's Aircraft to Amedeo, which is a company incorporated in Ireland. Further details are outlined below under the heading Asset Manager. The Directors delegate secretarial and administrative functions to JTC Fund Solutions (Guernsey) Limited ("**JTC**" or the "**Secretary**" or the "**Administrator**") which is a Company incorporated in Guernsey and licenced by the Guernsey Financial Services Commission (the "**GFSC**") for the provision of administration services. The registrar function is delegated to Anson Registrars Limited ("**Anson**") which is licensed and regulated by the GFSC.

Asset Manager and Lease and Debt Arranger

Amedeo has been appointed by the Company to provide asset management services to the Group. Pursuant to the Asset Management Agreement, Amedeo will: (i) monitor Emirates' and any subsequent lessees' performance of its obligations under the respective operating leases and any subsequent lease respectively (which shall include the obligations relating to the maintenance of insurance cover); (ii) provide the Group with information regarding alternatives with respect to any potential sale or re-lease of the Assets; (iii) carry out mid-lease inspections of the Assets; (iv) provide the Group with asset monitoring reports describing the state and any material changes to the state of the Assets; and (v) liaise, as and when necessary, with lenders, on all matters relating to the loans, as required. Amedeo has further undertaken that it will dedicate sufficient time and resources as it reasonably believes is required from time to time to fulfil any contractual arrangements it enters into with the Company.

Amedeo has also been appointed by the Company, pursuant to the Agency Agreement, to assist the Group, and act as the Group's agent, in relation to the arrangement, negotiation, review, approval, execution and management on behalf of the Group of the acquisition of the Assets, the borrowings of the Group relating to the acquisition of the Assets, and the operating leases. Amedeo is a subsidiary of Amedeo Capital Limited, a Cayman company engaged in the business of aircraft operating leasing and management.

Amedeo Services (UK) Limited has been appointed by the Group, pursuant to the Liaison Services Agreement, to: (i) coordinate the provision of services by Amedeo Management Limited to the Group under the Asset Management Agreement and the Agency Agreement, as relevant; and (ii) facilitate communication between the Group and Amedeo. Amedeo Services (UK) Limited is authorised by the Financial Conduct Authority and is part of the Amedeo group of companies.

The Amedeo group is primarily involved in the operating lease and management of widebody aircraft. The aircraft portfolio currently managed by the Amedeo group, includes forty two aircraft under management and an additional 8 aircraft under oversight. The volume of assets under management is c. \$7.5 billion, which include commercial aircraft including A380, A350, A330, A321 and Boeing 777 and 747-F. Amedeo is a member of the International Society of Transport Aircraft Trading ("**ISTAT**") and is a Strategic Partner of the International Air Transport Association ("**IATA**").

DORIC NIMROD AIR THREE LIMITED

Corporate and Shareholder Adviser

Nimrod, which is authorised by the Financial Conduct Authority, has been appointed as the Corporate and Shareholder Adviser by the Company.

Nimrod was founded in 2008 as an entirely independent organisation which specialises in generating and sourcing interesting investment funds, themes and solutions managed by experts in their fields for the professional investor marketplace. It has launched nine listed investment companies since its formation and it also provides investment, marketing, distribution and advisory services to investment companies and their Board and managers.

Secretary & Administrator

JTC is an independent provider of institutional and private client services to clients in numerous jurisdictions and is a member of the JTC Group. For further information about the JTC Group, please visit www.jtcgroup.com.

JTC is a Guernsey incorporated company and provides administration and secretarial services to the Group pursuant to an Administration and Secretarial Agreement. In such capacity, JTC is responsible for the general secretarial functions required by the Law and assists the Group in its compliance with its continuing legal and regulatory obligations, as well as providing advice on good corporate governance and best practice for a publicly traded company.

JTC is also responsible for the Group's general administrative functions and for the preparation of unaudited half-yearly and audited annual financial reports, subject to the direction and oversight of the Company's Board of directors.

Registrar

Anson is the Company's CREST compliant registrar. The Company's registrar is responsible for the maintenance of the Company's share register and for the processing of dividend payments and stock transfers. Anson is licensed and regulated by the Guernsey Financial Services Commission and further information about Anson may be found at www.anson-group.com.

Review

The Board keeps under review the performance of the Asset Manager, Corporate and Shareholder Adviser, Secretary, Administrator and the Registrar and the powers delegated to each service provider. In the opinion of the Board, the continuing appointments of the service providers on the terms agreed is in the interest of the Company's shareholders as a whole.

A full list of the Company's service providers is set out on page 68.

DORIC NIMROD AIR THREE LIMITED

MANAGEMENT REPORT

A description of important events which have occurred during the financial year under review, their impact on the performance of the Group as shown in the consolidated financial statements and a description of the principal risks and uncertainties facing the Group is given in the Chairman's Statement, Asset Manager's Report, Statement of Principal Risks and the notes to the consolidated financial statements contained on pages 42 to 67 and are incorporated here by reference.

Principal Risks and Uncertainties

The Board has undertaken a robust assessment of the principal risks facing the Group and have undertaken a detailed review of the effectiveness of the risk management and internal control systems. The Board is comfortable that the risks are being appropriately monitored on a regular basis.

The risks set out below are those which are considered to be the material risks relating to an investment in the Shares but are not the only risks relating to the Shares or the Group. Additional risks and uncertainties of which the Group is presently unaware or that the Group currently believes are immaterial may also adversely affect its business, financial condition, results of operations or the value of the Shares.

The principal risks associated with the Group are:

- **Operational risk:** the Board is ultimately responsible for all operational facets of performance including cash management, asset management, regulatory and listing obligations. The Group has no employees and so enters into a series of contracts/legal agreements with a series of service providers to ensure both operational performance and the regulatory obligations are met. This risk has been mitigated by the Group using well established, reputable and experienced service providers and assessing service providers' continued appointment on at least an annual basis.
- **Investment risk:** there are a number of risks associated with the Group's Assets in relation to the occurrence of technical faults with the Assets or actions by third parties causing both damage to the Assets and also damaging the demand for global air travel. This risk has been mitigated by the lessee's contractual responsibility to insure, repair and maintain the aircraft for the duration of the leases between the Group and Emirates (the "Leases").
- **Borrowings and financing risk:** there is a risk that the Group is exposed to fluctuations in market interest rates and foreign exchange rates. This risk has been mitigated by ensuring that debt repayments are made from lease rental revenues received in the matching currency and by fixing the interest rates on debt and lease rentals.

Emirates is the sole lessee of the Assets and is headquartered in the Middle East. Should Emirates default on the rental payments due to domestic events, events in the wider airline industry or other reasons it is unlikely the Company will be able to meet its targeted dividends or, in the case of ongoing default, continue as a going concern. The risk of default is mitigated by the ability of the Company to sell or re-lease the Asset in the event of a single default.

- **Secondary market risk:** there is a risk that the Group would not be able to achieve the projected resale value of the Assets due to changes in demand for second hand aircraft of the type owned by the Group. The Board monitors and revises the residual value of the Aircraft on an annual basis.

DORIC NIMROD AIR THREE LIMITED

- **Regulatory risk:** the Group is required to comply with the disclosure guidance and transparency rules of the Financial Conduct Authority and the requirements imposed by the Law and the Guernsey Financial Services Commission. Any failure to comply could lead to criminal or civil proceedings. Although responsibility ultimately lies with the Board, the Secretary also monitors compliance with regulatory requirements.

Data Protection

The Company has implemented measures designed to ensure its compliance with the EU General Data Protection Regulation (EU) 2016/679 and associated legislation in Guernsey. The Company has also issued a privacy notice explaining the data it holds, how the data is processed and its procedures for processing this data. This notice is available for review and download at the Company's website.

Going Concern

The Group's principal activities are set out within the Company Overview on pages 2 to 3. The financial position of the Group is set out on page 39. In addition, note 19 to the consolidated financial statements includes the Group's objectives, policies and processes for managing its capital, its financial risk management objectives and its exposures to credit risk and liquidity risk.

The Equipment Note payments are fixed and the fixed rental income under the relevant operating leases means that the rents should be sufficient to repay the debt and provide surplus income to pay for the Group's expenses and permit payment of dividends.

After making reasonable enquiries, and taking into account the cash flow characteristics as described above, the Directors have a reasonable expectation that the Group has adequate resources to continue in its operational existence for the foreseeable future. Accordingly, they continue to adopt the going concern basis of accounting in preparing the annual consolidated financial statements.

Viability Statement

In accordance with provision C.2.2 of The UK Corporate Governance Code, the Directors of the Company have considered the prospects of the Group over the period from present until the liquidation resolution is put to Shareholders six months before the last lease is due to terminate in 2024, a period of six years. In choosing the period of viability for the Group the Board has considered the prospect of Emirates performing their obligations to the end of their leases.

The Board, in assessing the viability of the Group, has paid particular attention to the principal risks faced by the Company as disclosed in the Asset Manager's Report and the notes to the consolidated financial statements, reviewing on an annual basis the risks faced and ensuring that any mitigation measures in place are functioning correctly.

In addition, the Board has considered a detailed cash flow projection for the running costs of the Group and has assumed that Emirates is a going concern. The Group retains sufficient cash to cover the forecast operating costs of the Group until the termination date of the Leases in 2025, assuming receipt of planned rental income.

The Directors believe that their assessment of the viability of the Company over the period chosen was sufficiently robust and encompassed the risks which would threaten the business model, future performance, solvency or liquidity of the Company.

DORIC NIMROD AIR THREE LIMITED

As a result of their review, the Directors of the Group have a reasonable expectation that the Group will be able to continue in operation and meet its liabilities as they fall due until the leases are due to terminate in 2025.

Responsibility Statement

The Directors jointly and severally confirm that to the best of their knowledge:

- (a) the financial statements, prepared in accordance with IFRS give a true and fair view of the assets, liabilities, financial position and profits of the Group and performance of the Group;
- (b) this Management Report includes or incorporates by reference a fair review of the development and performance of the business and the position of the Group, together with a description of the principal risks and uncertainties that it faces;
- (c) the annual report taken as a whole is fair, balanced and understandable and provides the information necessary for Shareholders to assess the Group's position, performance, business model and strategy; and
- (d) the annual report and financial statements include information required by the London Stock Exchange and for ensuring the Company complies with the relevant provisions of the Disclosure Guidance and Transparency Rules (the "**DGTRs**") of the UK's Financial Conduct Authority.

Charles Wilkinson
Chairman

Geoffrey Hall
Director

4 July 2019

DORIC NIMROD AIR THREE LIMITED

DIRECTORS' REPORT

The Directors present their report and financial statements of the Group for the financial year ended 31 March 2019.

Principal Activities and Business Review

The principal activity of the Group is to acquire, lease and then sell aircraft. The Directors do not envisage any change in these activities for the foreseeable future. A description of the activities of the Group in the year under review is given in the Chairman's Statement and the Asset Manager's Report respectively on pages 4 to 5 and 6 to 10.

Status

The Company is a Guernsey domiciled company the Shares of which are admitted to trading on the SFS. Its registered number is 54908. The Company operates in accordance with the Law.

Results and Dividends

The results of the Group for the financial year are set out on page 38.

The Company declared dividends during the financial year under review as follows:

Quarter End	Announcement Date	Payment Date	Dividend per Share (pence)
31 March 2018	12 April 2018	30 April 2018	2.0625
30 June 2018	11 July 2018	31 July 2018	2.0625
30 September 2018	10 October 2018	31 October 2018	2.0625
31 December 2018	17 January 2019	31 January 2019	2.0625

The Company aims to continue to pay quarterly dividends of 2.0625 pence per Share, in line with the Distribution Policy. There is no guarantee that any future dividends will be paid.

Directors

The Directors in office are shown on page 11 and all Directors remain in office as at the date of signing of these financial statements. Further details of the Directors' responsibilities are given on page 16.

Anson is the Company's Registrar, Transfer Agent and Paying Agent. John Le Prevost is a director and controlling shareholder of Anson Group Limited, the holding company of Anson.

Other than the non executive director appointments disclosed above, no Director has a contract of service with the Company, nor are any such contracts proposed.

The following interests in Shares of the Company are held by persons discharging managerial responsibility and their persons closely associated:

	Number of Shares held as at 31 March 2019	Number of Shares held as at 4 July 2019
Charles Wilkinson	150,000	150,000
Geoffrey Hall	90,000	90,000

DORIC NIMROD AIR THREE LIMITED

At the financial year end and as at the date of this report, there are no outstanding loans or guarantees between the Company and any Director.

There were no material related party transactions which took place in the financial period, other than those disclosed in the Directors' Report and at note 22 to the financial statements.

Substantial Controllers of Voting Rights

The Company has identified the following substantial controlling interests in voting rights attached to the Company's issued share capital in accordance with Chapter 5 of the DGTRs. These are based on notifications made to the Company since inception and may differ substantially from positions recorded on the Company's share register.

There have been no material changes in the below list of substantial controlling interests between the end of the year under review and 4 July 2019, being the latest practicable date prior to the date of approval of this report.

Registered Holder	% of Total Voting Rights	Number of Shares
Nortrust Nominees Limited	12.87%	28,305,000
State Street Nominees Limited	9.11%	20,040,008
Quilter Cheviot Limited	5.09%	11,207,020
Legal and General Group plc	5.00%	11,000,000

Corporate Governance

Statement of Compliance with The UK Corporate Governance Code April 2016, as published in June 2016 (the "Code")

As a Guernsey incorporated company and under the DGTRs, the Company was not, for the year under review, required to comply with the Code. The Company has, however, voluntarily committed to comply with the Code or explain any departure. A copy of the Code is available for download from the UK Financial Reporting Council's web-site (www.frc.org.uk).

Having reviewed the Code, the Board considers that it has maintained procedures during the year to ensure that it has complied with the Code, other than the following exceptions:

- (i) there is no chief executive (since the Company does not have any executive directors);
- (ii) there is no senior independent director (since the Company considers that each director who is not Chairman can effectively fulfil this function);
- (iii) there is no remuneration committee (given the small size of the exclusively non-executive and independent Board);
- (iv) there is no nomination committee (given the small size of the exclusively non-executive and independent Board);
- (v) the Directors have not been appointed for a fixed term given the terms of the Leases between the Group and Emirates are each twelve years, the Board considers that the defined life of the Company means that the Directors should be appointed to serve until the Leases end and the Company is liquidated, subject to the Company's Articles which provide that directors are subject to re-election three yearly save that once a director has held office for nine years they will be eligible for re-election each year); and
- (vi) there is no internal audit function (as the Company has no executives or employees of its own).

DORIC NIMROD AIR THREE LIMITED

Board Evaluation

The Board has conducted a performance evaluation of itself, its committees and each of the Directors, as required by provision B.6.1 of the Code. This process was led by an external facilitator, Platinum Compliance Guernsey Limited (“**Platinum**”), which has no other connection with the Group. As part of this process Platinum requested each Director to complete a questionnaire, interviewed each Director and the Administrator separately, performed a review of the papers provided to the Directors. At the conclusion of its evaluation, Platinum provided the Directors with a report on Board effectiveness and made minor suggestions for improvements thereon, which are being considered by the Directors.

Board Responsibilities

The Board comprised three Directors, and their biographies appear on page 11 demonstrating the wide range of skills and experience they each bring to the Board. All the Directors are non-executive and independent, with Charles Wilkinson acting as Chairman.

The Board regularly reviews the balance, knowledge and effectiveness of the Board, to identify if any additional experience or skills are needed and to ensure that the current Directors have sufficient available time to undertake the tasks required and remain independent. The Directors are able and encouraged to provide statements to the Board of their concerns and ensure that any items of concern are recorded in the Board minutes. When undertaking a search for a new director the Board would be mindful of diversity and meritocracy.

The other significant commitments of the current Chairman are detailed in his biography on page 11. The Board was satisfied during the year and remains satisfied that the Chairman’s other commitments do not interfere with his day-to-day performance of his duties to the Company and that he has the commitment and time to make himself available at short notice should the need arise.

In accordance with the Company’s Articles the Directors shall determine the Directors fees payable provided that the aggregate amount of such fees paid in respect of services rendered to the Company shall not exceed £150,000 per annum. All Directors receive an annual fee and there are no share options or other performance related benefits available to them. All Directors are currently paid a fee of £23,000 per annum and the Chairman is paid an additional fee of £6,000 per annum. The chairman of the Audit Committee is entitled to be paid an additional £4,000 per annum. The terms and conditions of appointment of non-executive directors are available for inspection at the Company’s registered office by prior arrangement with the Company’s Secretary.

The Board meets in Guernsey at least twice per year to consider the business and affairs of the Company, at which meetings the Directors review the Group’s assets and all other important issues to ensure control is maintained. The Directors hold either a Board meeting or Dividend Committee meeting in Guernsey each quarter to consider and if thought suitable, approve the payment of a dividend in accordance with the Company’s Distribution Policy.

Between these regular meetings the Board keeps in contact by email and telephone as well as meeting to consider specific matters of a transactional nature. Additionally the Directors may hold strategy meetings with its relevant advisors as appropriate.

The Directors are kept fully informed by the Asset Manager and Secretary of all matters that are relevant to the business of the Group and should be brought to the attention of the

DORIC NIMROD AIR THREE LIMITED

Directors and/or the Company's Shareholders. All Directors have direct access to the Secretary who is responsible for ensuring that Board procedures are followed and that there are effective information flows both within the Board and between the Committees and the Board.

The Directors also have access to the advice and services of the Asset Manager and Corporate and Shareholder Adviser and may also, in the furtherance of their duties, take independent professional advice at the Company's expense.

During the year the number of full Board meetings and committee meetings attended by the Directors was as follows:

Director	Board Meetings	Audit Committee Meetings	Dividend Committee Meetings
Charles Wilkinson	3 of 3	3 of 3	1 of 4
Geoffrey Hall	3 of 3	3 of 3	1 of 4
John Le Prevost	3 of 3	3 of 3	4 of 4

Audit Committee

The Directors are all members of the Audit Committee. The Audit Committee has regard to the Guidance on Audit Committees published by the Financial Reporting Council in September 2012 and most recently updated in April 2016. The Audit Committee examines the effectiveness of the Group's and its service providers' internal control systems as appropriate, the annual and half-yearly reports and financial statements, the auditor's remuneration and engagement, as well as the auditor's independence and any non-audit services provided by them.

The Audit Committee considers the nature, scope and results of the auditor's work and reviews annually prior to providing a recommendation to the Board on the re-appointment or removal of the auditor. When evaluating the external auditor the Audit Committee has regard to a variety of criteria including industry experience, independence, reasonableness of audit plan, ability to deliver constructive criticism, effectiveness of communication with Board and the Group's service providers, quality control procedures, effectiveness of audit process and added value beyond assurance in audit opinion.

Auditor independence is maintained through limiting non-audit services to specific audit-related work that falls within defined categories; for example, the provision of advice on the application of IFRS or formal reports for any stock exchange purposes. All engagements with the auditor are subject to pre-approval from the Audit Committee and fully disclosed within the annual financial report for the relevant period. A new lead audit partner is appointed every five years and the Audit Committee ensures the auditor has appropriate internal mechanisms in place to ensure its independence.

The Audit Committee has recommended to the Board that the re-appointment of Deloitte LLP as the Group's external auditor be proposed to Shareholders at the 2019 annual general meeting. The Audit Committee will consider arranging for the external audit to be tendered in 2023 (being ten years from the initial appointment) with the aim of ensuring a high quality and effective audit.

The Audit Committee meets in Guernsey at least twice per year, shortly before the Board meets to consider the Group's half-yearly and annual financial reports, and reports to the Board with its deliberations and recommendations and also holds an annual planning

DORIC NIMROD AIR THREE LIMITED

meeting with the auditor. The Audit Committee operates within clearly defined terms of reference based on the Institute of Chartered Secretaries and Administrators recommended terms and provides a forum through which the Group's external auditor report to the Board.

The Audit Committee can request information from the Group's service providers with the majority of information being directly sourced from the Asset Manager, the Secretary, the Administrator and the external auditor. The terms of reference of the Audit Committee are available on the Company's website and on request from the Secretary.

Each year the Board examines the Audit Committee's performance and effectiveness, and ensures that its tasks and processes remain appropriate. Key areas covered included the clarity of the committee's role and responsibilities, the balance of skills among its members and the effectiveness of reporting its work to the Board. The Board is satisfied that all members of the Audit Committee have relevant financial experience and knowledge and ensure that such knowledge remains up to date. Overall the Board considers that the Audit Committee has the right composition in terms of expertise and has effectively undertaken its activities and reported them to the Board during the year under review.

During the financial year the Audit Committee met to consider the annual financial report for the year ended 31 March 2018 and the half-yearly financial report for the period ended 30 September 2018. The Audit Committee also met in January 2019, with the auditor in attendance, to approve the 2019 audit plan.

Dividend Committee

The Dividend Committee consists of any one Director, who has been given full power and authority to consider and, if thought suitable, declare and approve the payment of a dividend in accordance with the Company's Distribution Policy, provided all Directors had been provided with prior notice of the proposal to declare each dividend and no Director had raised any objection. to the declaration of each dividend.

Internal Control and Financial Reporting

The Board is responsible for the Group's system of internal control and for reviewing its effectiveness. The Board confirms that there is an on-going process for identifying, evaluating and monitoring the significant risks faced by the Group.

The internal control systems are designed to meet the Group's particular needs and the risks to which it is exposed. Accordingly, the internal control systems are designed to manage rather than eliminate the risk of failure to achieve business objectives and by their nature can only provide reasonable and not absolute assurance against misstatement and loss.

The Board on an annual basis conducts a full review of the Group's risk management systems including consideration of a risk matrix which covers various areas of risk including corporate strategy, accuracy of published information, compliance with laws and regulations, relationships with service providers and business activities.

Asset Management services are provided to the Company by Amedeo. Corporate and shareholder advisory services are provided to the Company by Nimrod. Administration and secretarial duties for the Group are performed by JTC.

DORIC NIMROD AIR THREE LIMITED

The Directors of the Group clearly define the duties and responsibilities of their agents and advisors. The appointment of agents and advisors is conducted by the Board after consideration of the quality of the parties involved and the Board monitors their on-going performance and contractual arrangements. The Board also specifies which matters are reserved for a decision by the Board and which matters may be delegated to its agents and advisors.

Anti Bribery Policy

The Directors have undertaken to operate the business in an honest and ethical manner and accordingly take a zero-tolerance approach to bribery and corruption. The key components of this approach are implemented as follows:

- The Board is committed to acting professionally, fairly and with integrity in all its business dealings and relationships.
- The Group will implement and enforce effective procedures to counter bribery.
- The Group requires all its service providers and advisors to adopt equivalent or similar principles.

Dialogue with Shareholders

All holders of Shares in the Company have the right to receive notice of, and attend, the general meetings of the Company, during which members of the Board will be available to discuss issues affecting the Company.

The primary responsibility for Shareholder relations lies with the Company's Corporate and Shareholder Adviser. In addition the Directors are always available to enter into dialogue with Shareholders and the Chairman is always willing to meet Shareholders as the Company believes such communication to be important. The Company's Directors can be contacted at the Company's registered office or via the Secretary.

Climate change

Whilst the Group has a limited carbon footprint in respect of its day to day activities, the Group leases its aircraft to Emirates and notes the actions by Emirates in relation to climate change via publications issued by Emirates. The Board notes that Emirates Group recognises that environmental responsibility is core to their long-term business success. The Emirates environmental policy is available on their website.

Statement of Directors' Responsibilities

The Directors are responsible for preparing the annual report and the financial statements in accordance with applicable Guernsey law and regulations.

Under the Law the Directors are required to prepare financial statements for each financial year. The Directors have chosen to prepare the group financial statements in accordance with IFRS.

Under the Law the Directors must not approve the accounts unless they are satisfied that they give a true and fair view of the state of affairs of the Group and of the profit or loss of the Group for that period.

In preparing these financial statements, International Accounting Standard 1 requires that Directors:

DORIC NIMROD AIR THREE LIMITED

- properly select and apply accounting policies;
- present information, including accounting policies, in a manner that provides relevant, reliable, comparable and understandable information;
- provide additional disclosures when compliance with the specific requirements in IFRSs are insufficient to enable users to understand the impact of particular transactions, other events and conditions on the entity's financial position and financial performance; and
- make an assessment of the Group's ability to continue as a going concern.

The Directors are responsible for keeping proper accounting records that are sufficient to show and explain the Group's transactions and disclose with reasonable accuracy at any time the financial position of the Group and enable them to ensure that the financial statements comply with the Law. They are also responsible for safeguarding the assets of the Group and for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The Directors are responsible for the maintenance and integrity of the corporate and financial information included on the Company's website. Legislation in Guernsey governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

Disclosure of Information to the Auditor

The Directors who held office at the date of approval of this Directors' Report confirm in accordance with the provisions of Section 249 of the Law that, so far as they are each aware, there is no relevant audit information of which the Group's auditor is unaware; and each Director has taken all the steps that he ought to have taken as a Director to make himself aware of any relevant audit information and to establish that the Group's auditor is aware of that information.

Auditor

Deloitte LLP have expressed their willingness to continue in office as auditor and the Audit Committee has recommended their reappointment. A resolution proposing their reappointment will be submitted at the forthcoming annual general meeting to be held pursuant to section 199 of the Law.

Charles Wilkinson
Chairman of the Board

Geoffrey Hall
Director

Signed on behalf of the Board on 4 July 2019

DORIC NIMROD AIR THREE LIMITED

AUDIT COMMITTEE REPORT

Membership

Geoffrey Hall – Chairman of the Audit Committee
Charles Wilkinson – Chairman of the Board
John Le Prevost – Non-executive Director

Key Objective

The provision of effective governance over (i) the appropriateness of the Group's financial reporting including the adequacy of related disclosures, (ii) the performance of the Company's external auditor, (iii) monitoring of the systems of internal controls operated by the Company and (iv) the Company's principal service providers and the management of the Company's regulatory compliance activities.

Responsibilities

The key duties of the Audit Committee (the "**Committee**") are as follows:

- reviewing the Company's financial results announcements and financial statements and monitoring compliance with relevant statutory and listing requirements;
- reporting to the Board on the appropriateness of the Company's accounting policies and practices including critical accounting policies and practices;
- advising the Board on whether the annual report and accounts, taken as a whole, is fair, balanced and understandable and provides the information necessary for shareholders to assess the Company's position, performance, business model and strategy;
- overseeing the relationship with the external auditor and reviewing the effectiveness of the external audit process; and
- Monitoring the systems of internal controls operated by the Company and by the Company's principal service providers.

Committee Meetings

The Committee meet in Guernsey at least twice a year. The Committee reports to the Board as part of a separate agenda item, on its activities and on matters of particular relevance to the Board in the conduct of its work. During the financial year under review the Committee formally reported to the Board on two occasions.

Main Activities of the Committee during the financial year

The Committee assisted the Board in carrying out its responsibilities in relation to financial reporting requirements, compliance and the assessment of internal controls. The Committee also managed the Group's relationship with the external auditor.

Fair, Balanced and Understandable

In order to comply with The UK Corporate Governance Code, the Board requested that the Committee advises them on whether it believes the annual report and accounts, taken as a whole, is fair, balanced and understandable and provides the information necessary for Shareholders to assess the Group's performance, business model and strategy.

The Committee engaged with the Group's auditor and the Group's administrator in order to ensure that the financial statements were fair, balanced and understandable.

DORIC NIMROD AIR THREE LIMITED

Financial Reporting and Significant Issues

The Committee's primary role in relation to financial reporting is to review, with its service providers and the external auditor, the appropriateness of the half-year and annual financial statements, the significant financial reporting issues and accounting policies and disclosures in the financial statements. The Committee has considered the key risks identified as being significant to these accounts and the most appropriate treatment and disclosure of any new significant issues identified during the audit and half-year reviews as well as any recommendations or observations made by the external auditor, Deloitte LLP ("**Deloitte**"). To aid its review the Committee considered reports prepared by external service providers, including Amedeo and Nimrod, and reports from Deloitte on the outcome of their annual audit. The significant issues considered by the Committee in relation to the 2019 accounts and how these were addressed are detailed below:

Significant issues for the Period	How the Committee addressed these significant issues
<p>Residual value of aircraft assets</p> <p>The non-current assets of the Group comprise of four Airbus A380 aircraft (the "Assets"). An annual review is required of the residual value of the Assets as per IAS 16 <i>Property, Plant and Equipment</i>, which defines residual value as "<i>the estimated amount that an entity would currently obtain from disposal of the asset, after deducting the estimated costs of disposal, if the asset were already of an age and in the condition expected at the end of its useful life.</i>"</p> <p>The Company's estimation technique is to make reference to the most recently produced forecast value (excluding inflation), not an estimate of the amount that would currently be achieved, and so this is not a direct application of the IAS 16 definition. This approach has been taken because a current market value in today's prices for a twelve year old A380 does not exist at the reporting date.</p>	<p>The Group has engaged three internationally recognised expert appraisers to provide the Group with third party consultancy valuation services. In the absence of sales data for similar used assets, appraisers are heavily reliant on databases containing historical data points of aircraft sales relating to large commercial aircraft. Interpretation of historical data is the basis for the current market value and provides, together with the expected developments in the future, the foundation for their opinions on future values. Furthermore, the appraisers' valuations take into account specific technical and economic developments as well as general future trends in the aviation industry and the macro-economic outlook. The Group has used the average forecast base values of the three independent appraisers, excluding inflation as a guide to determine the residual value as required by IAS 16 Property, Plant and Equipment.</p> <p>The Company believes that the use of forecast base values excluding inflation best approximates residual value as required per IAS 16 Property, Plant and Equipment. An increase in USD terms in the residual value of the aircraft from the prior year, has resulted in an adjustment made to depreciation in the current year, details of which have been disclosed in Note 9.</p> <p>The Asset Manager has confirmed that in the year ending 31 March 2019 there were no changes to the methodology used to determine the residual values.</p> <p>As updated investment valuations of all Assets as at the year end were commissioned and received from third party professional valuers and analysed by the Asset Manager and the directors, the Committee believes that those valuations are appropriate for use in preparing the financial statements. Therefore, the average residual value excluding inflation used in the accounts are based on these appraisals.</p> <p>Upon review of the advice they have received from</p>

DORIC NIMROD AIR THREE LIMITED

Significant issues for the Period	How the Committee addressed these significant issues
	<p>Amedeo and the appraisers, the Committee is of the opinion that, the current estimate of the residual values excluding inflation of the Assets is a reasonable approximation of the residual value of the aircraft within the IAS 16 definition.</p>
<p>Recording foreign exchange gains/losses</p> <p>IFRS require that certain transactions denominated in currencies other than the presentation currency (including, most importantly, the cost of the Assets) be translated into presentation currency at the exchange rate ruling at transaction date, whilst monetary balances (principally the outstanding borrowings) are translated at the rate prevailing on the reporting date. The resultant figures sometimes show very large mismatches which are reported as unrealised foreign exchange differences.</p> <p>During the year the Group recorded a significant foreign exchange rate loss due to the depreciation of Sterling against the US dollar and the consequent increase in the Sterling value of the US dollar denominated debt.</p>	<p>In assessing foreign exchange, the Committee has considered the issue at length and is of the opinion that, on an on-going basis and assuming the lease and loan payments are made as anticipated, such exchange differences do not reflect the commercial substance of the situation in the sense that the key transactions denominated in US dollars are in fact closely matched. Rental income received in US dollars is used to pay loan repayments due which are likewise denominated in US dollars. US dollar lease rentals and loan repayments are furthermore fixed at the outset of the Group's life and are very similar in amount and timing.</p> <p>The Committee concluded that the matching of the lease rentals to settle loan repayments therefore mitigates risks of foreign exchange fluctuations.</p> <p>The Committee carefully considered the disclosure in Note 19 (b) to the Consolidated Financial Statements to ensure that the reality of the Group's foreign exchange risk exposure is properly explained.</p>
<p>Risk of default by the Lessee on lease rentals receivable</p> <p>Emirates are the sole lessee of the Assets. Should Emirates default on the rental payments, it is unlikely the Group will be able to meet its targeted dividends or, in the case of ongoing default, continue as a going concern.</p>	<p>The Committee received quarterly reports from Amedeo during the year which comment on the performance of Emirates. Amedeo has advised that Emirates has continued to perform well. Passenger load factors remain high.</p> <p>The Committee concluded that it would continue to receive quarterly reports from Amedeo on the performance of Emirates and would continue to monitor Emirates' overall performance.</p> <p>The Committee carefully considered the disclosure in note 19(c) to the financial statements to ensure that this concentration of credit risk is properly reflected.</p>

DORIC NIMROD AIR THREE LIMITED

Significant issues for the Period	How the Committee addressed these significant issues
Consideration of any triggers for impairment IAS 36 Impairment of Assets requires that a review for impairment be carried out by the Group when there is an indication of impairment of an asset and if events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. The review will compare the carrying amount of the asset with its recoverable amount, which is the higher of its value if sold (if known) and its value in use.	The Committee has considered the issue at length and accordingly an impairment review has been undertaken as at 31 March 2019. Refer to Note 3 for further detail on the factors triggering the review and the sensitivity analysis performed on the discount rates and residual value inputs.

We note that the auditor also considers the recognition of rental income and the accounting for debt within their key audit matters. These items have been considered by the Committee in the current year, but, as there have been no changes in respect of these risks they have not been a primary area of focus of the Committee in the current year.

Going Concern

After making enquiries, the Committee has a reasonable expectation that the Group has adequate resources to continue in operational existence for the foreseeable future. The Committee believes the Group is well placed to manage its business risks successfully as the interest on the Group's loan has been fixed and the fixed rental income under the operating lease means that the rentals should be sufficient to repay the loan and provide surplus income to pay for the Group's expenses and permit payment of dividends. Accordingly, the Committee has adopted the going concern basis in preparing the financial information.

Internal Controls

The Committee has made due enquiry of the internal controls of the Administrator. The Committee is satisfied with the controls currently implemented by the Administrator. However it has requested that the Administrator keeps the Committee informed of any developments and improved internal control procedures.

The most recent report on the internal control of JTC's administration services, prepared in accordance with the International Standard on Assurance Engagement 3402 ("**ISAE 3402**") for the period from 1 February 2018 to 31 March 2019, supported by a bridging letter for the period from 1 April 2019 to 20 May 2019 has been provided to the Committee.

Internal Audit

The Group has no employees and operates no systems of its own, relying instead on the employees and systems of its external service providers. Following a recommendation from the Committee, the Board has therefore taken the decision that it would be of insufficient benefit for the Group to engage an internal auditor.

DORIC NIMROD AIR THREE LIMITED

External Audit

The effectiveness of the external audit process is dependent on appropriate audit risk identification at the start of the audit cycle. The Committee receives from Deloitte a detailed audit plan identifying their assessment of the key risks. For the financial year under review, the primary risks identified were in respect of valuation and ownership of the Group's Assets, the recording of lease rental income and accounting for fixed rate debt using the effective interest rate method.

Using its collective skills the Committee evaluates the effectiveness of the audit process in addressing the matters raised through the reporting it received from Deloitte at the conclusion of the audit. In particular the Committee formally appraise Deloitte against the following criteria:

- Independence
- Ethics and conflicts
- Knowledge and experience
- Challenge
- Promptness
- Cost
- Overall quality of service

In addition the Committee also seek feedback from the Administrator on the effectiveness of the audit process.

For the financial year under review, the Committee was satisfied that there had been appropriate focus on the primary areas of audit risk and assessed the quality of the audit process to be good. The Committee discussed their findings with Deloitte and agreed how future external audits could be improved.

The Committee holds meetings with the external auditor to provide additional opportunity for open dialogue and feedback from the auditor. Should it be necessary, Committee members meet with the external auditor without the Administrator and Asset Manager being present. Matters typically discussed include the auditor's assessment of business risks and management activity thereon, the transparency and openness of interactions with the Administrator, confirmation that there has been no restriction in scope placed on them by the Administrator on the independence of their audit and how they have exercised professional scepticism.

Appointment and Independence

The Committee considers the reappointment of the external auditor, including the rotation of the audit partner, each year and also evaluates their independence on an on-going basis.

The external auditor is required to rotate the audit partner responsible for the audit every five years. The current lead audit partner has been in place since August 2016 with her first audit reporting period being the year to 31 March 2017. This is her third year of involvement.

Deloitte has been the Group's external auditor since June 2013. The Committee has provided the Board with its recommendation to the Company's Shareholders on the reappointment of Deloitte as external auditor for the year ending 31 March 2020. Accordingly a resolution proposing the reappointment of Deloitte as the Company's auditor will be put to the Company's Shareholders at the 2019 annual general meeting.

DORIC NIMROD AIR THREE LIMITED

There are no contractual obligations restricting the Committee's choice of external auditor. The Committee continues to consider the audit tendering provisions outlined in the revised Code, of which it is very supportive. The Committee will consider arranging for the external audit contract to be tendered in 2024 (being ten years from the date of initial appointment of Deloitte) with the aim of ensuring a high quality and effective audit.

Non-Audit Services

To further safeguard the objectivity and independence of the external auditor from becoming compromised, the Committee has a formal policy governing the engagement of the external auditor to provide non-audit services. No changes have been made to this policy during the year. This policy specifies that Deloitte should only be engaged for non-audit services where there is considered to be a very low threat to auditor independence.

Deloitte is prohibited from providing any other services without the Committee's prior approval. In reaching such a determination the Committee will take into consideration whether it is in the best interests of the Group that such services should be supplied by the Group's external auditor (rather than another service provider) and, if so whether any safeguards regarding auditor objectivity and independence in the conduct of the audit should be put in place, whether these would be effective and how such safeguards should be disclosed.

Committee Evaluation

The Committee's activities formed part of the review of Board effectiveness performed in the year under review.

An internal evaluation of our effectiveness will be carried out in 2019.

Geoffrey Hall
Chairman of the Audit Committee
4 July 2019

DORIC NIMROD AIR THREE LIMITED

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF DORIC NIMROD AIR THREE LIMITED

Report on the audit of the financial statements

Opinion

In our opinion the financial statements of Doric Nimrod Air Three Limited the parent company and its subsidiaries (the 'group'):

- **give a true and fair view of the state of the group's affairs as at 31 March 2019 and of the group's profit for the year then ended;**
- **have been properly prepared in accordance with International Financial Reporting Standards (IFRSs) as adopted by the European Union; and**
- **have been prepared in accordance with the requirements of the Companies (Guernsey) Law, 2008.**

We have audited the financial statements which comprise:

- the consolidated statement of comprehensive income;
- the consolidated statement of financial position;
- the consolidated statement of changes in equity;
- the consolidated cash flow statement; and
- the related notes 1 to 23.

The financial reporting framework that has been applied in their preparation is applicable law and IFRSs as adopted by the European Union.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the auditor's responsibilities for the audit of the financial statements section of our report.

We are independent of the group in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the Financial Reporting Council's (the 'FRC's') Ethical Standard as applied to listed entities, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Summary of our audit approach

Key audit matters	<p>The key audit matters that we identified in the current year were:</p> <ul style="list-style-type: none">• Valuation and ownership of aircraft;• Recognition of lease rental income; and• Accounting for debt using the effective interest method. <p>All key audit matters are consistent with the prior year.</p>
Materiality	<p>The materiality that we used for the group financial statements in the current year was £3,242,000 which was determined on the basis of forecasted shareholders' equity.</p>
Scoping	<p>The consolidated financial statements of the Group incorporate its special purpose subsidiaries through which aircraft are held and through which debt finance has been obtained. Whilst statutory audits of the financial statements of each of these subsidiaries are not required, they are included within the scope of our audit of the consolidated financial statements. Audit work to respond to the risks of material misstatement was performed by the same audit engagement team.</p>
Significant changes in our approach	<p>There have been no significant changes in our approach from prior year.</p>

Conclusions relating to going concern, principal risks and viability statement

Going concern

We have reviewed the directors' statement in note 2(k) to the financial statements about whether they considered it appropriate to adopt the going concern basis of accounting in preparing them and their identification of any material uncertainties to the group's ability to continue to do so over a period of at least twelve months from the date of approval of the financial statements.

We confirm that we have nothing material to report, add or draw attention to in respect of these matters.

Principal risks and viability statement

Based solely on reading the directors' statements and considering whether they were consistent with the knowledge we obtained in the course of the audit, including the knowledge obtained in the evaluation of the directors' assessment of the group's ability to continue as a going concern, we are required to state whether we have anything material to add or draw attention to in relation to:

- the disclosures on pages 14-15 that describe the principal risks and explain how they are being managed or mitigated;
- the directors' confirmation on page 15 that they have carried out a robust assessment of the principal risks facing the group, including those that would threaten its business model, future performance, solvency or liquidity; or
- the directors' explanation on page 15 as to how they have assessed the prospects of the group, over what period they have done so and why they consider that period to be appropriate, and their statement as to whether they have a reasonable expectation that the group will be able to continue in operation and meet its liabilities as they fall due over the period of their assessment, including any related disclosures drawing attention to any necessary qualifications or assumptions.

We confirm that we have nothing material to report, add or draw attention to in respect of these matters.

We state whether we have anything material to add or draw attention to in relation to that statement that would be required by Listing Rule 9.8.6R(3) if the company had a premium listing and report if the statement is materially inconsistent with our knowledge obtained in the audit.

Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements of the current period and include the most significant assessed risks of material misstatement (whether or not due to fraud) that we identified. These matters included those which had the greatest effect on: the overall audit strategy, the allocation of resources in the audit; and directing the efforts of the engagement team.

These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Valuation and ownership of aircraft

Key audit matter description

Included on the Group's statement of financial position as at 31 March 2019 are aircraft assets amounting to £489.5 million (2018: £514.5 million) as disclosed in Note 9 to the financial statements. As explained in Note 2(m), the Group's accounting policy is to measure its aircraft assets at depreciated historic cost less impairment. The assets are being depreciated on a straight-line basis over terms of the leases to an estimated residual value at the end of that period. As stated in Note 3, estimation of aircraft residual value is a source of uncertainty and is a key determinant in preparing the financial statements. A number of factors, including but not limited to, Airbus' decision to discontinue the delivery of new A380s, prompted management to perform an impairment review in current year. Refer to the considerations by the audit committee on residual value and impairment as discussed on pages 25 to 27.

The valuation and ownership of aircraft was deemed to be a key audit matters as:

- the selected useful life or residual values used in determining depreciation might not be appropriate as the estimation of aircraft useful life and residual value is a key judgement area;
- an indicator of impairment of the assets might arise in which case an impairment review should be performed and the value of the assets written down to recoverable amount if less than carrying value. Judgement is required in assessing whether an indicator of impairment exists and estimation is required on key inputs of the impairment review model such as the terminal value, discount rate, future cash flows and fair value less costs to sell; and
- the economic substance of the original aircraft acquisition transactions might not have been fully considered, such that assets that do not belong to the Group might be recognised in the financial statements. In addition, aircraft assets might be recognised when the Group does not have proper legal title.

How the scope of our audit responded to the key audit matter

Our procedures included:

- critically assessing the conclusions reached by the Board of Directors ("Board") on the appropriateness of the selected residual values and evaluating their consistency with available market information, including forecast valuations obtained by the Group from expert aircraft valuers and the terms of the aircraft lease agreements. We considered the qualifications and experience of the valuers engaged by management. We also considered the adequacy of disclosure related to this estimation uncertainty set out in Note 3;
- engaging our internal aircraft valuation specialists in reviewing the Board and asset manager's conclusions on the assessments made on residual values used at year end;
- engaging our internal aircraft valuation specialists in assessing the reasonableness of assumptions and methodology used by a sample of expert appraisers, in their estimation of forecast residual values and current market value estimates;
- reviewing and challenging the reasonableness of key inputs noted above, assumptions and methodology used in the assessment of impairment. This was achieved through our inspection of supporting evidence and through our consideration of internal and external factors which affect the impairment review process on the group's aircraft;
- engaging our valuation specialists to assess the reasonableness of the discount rate used in the determination of value in use considered as part of the impairment review process; and
- reviewing the original purchase agreements for consistency with the assets owned and obtaining certificate of registration directly from 'The International Registry for International Interests in Mobile Equipment' to confirm ownership. In addition, we reassessed our evaluation of the economic substance of the original purchase transactions in order to identify any instances in which

the assets might have inappropriately been recognised.

Key observations

Having carried out the mentioned procedures, we concluded that the useful life selected and residual values used are appropriate. In addition, the Board’s assessment that recoverable amount of the aircraft was more than carrying value and thus no impairment write down was required as at 31 March 2019 was considered to be appropriate and reasonable.

Having considered both the economic substance of transactions and the legal form, we concluded that assets recorded in the financial statements are owned by the Group.

Recognition of lease rental income

Key audit matter description

The Group’s leases have been classified as operating leases and as such rental income which amounts to £74.3 million (2018: £73.9 million) should be recognised on a straight-line basis over the lease term, which differs from the profile of actual rental payments. As set out in Note 4 of the financial statements, a significant portion of these lease rentals are receivable in US Dollars and must be appropriately translated into the Sterling functional and presentation currency. The recognition of revenue also requires consideration of all terms of the signed lease contracts. As stated in Note 3, classification of leases as operating leases is a key source of uncertainty in preparing the financial statements. The recognition of revenue is a key audit matter as:

- revenue might not be properly recorded in accordance with requirements of lease contracts and in accordance with the straight-line basis;
- related deferred or accrued income might not be recognised appropriately; and
- revenue transactions and related amortisation of deferred income are significant to the Group’s financial performance, hence any material misstatements in revenue will have a direct impact on reported comprehensive income.

How the scope of our audit responded to the key audit matter

Our procedures included:

- consideration on whether the classification of the leases as operating is appropriate with reference to the lease terms and the nature of the asset and the requirements of IAS 17: Leases;
- developing independent expectations of lease income for the year based on total lease rentals receivable, the lease term and the applicable foreign exchange rates during the year. We also traced a sample of rental income receipts to bank statements;
- recalculating deferred and accrued rental income recognised in the Consolidated Statement of Financial Position and testing accuracy of related translation differences; and
- tracing all rental income receipts to bank statements.

Key observations

Having performed the procedures above, we concluded that classification of the leases is appropriate and that revenue recognition is in line with the terms of the signed lease contract and is in line with IAS17:Leases.

We also concluded that deferred and accrued income balances recorded were appropriate as they were not materially different from results of our recalculations.

DORIC NIMROD AIR THREE LIMITED

Accounting for debt using the effective interest method

Key audit matter description

In order to part-finance the acquisition of assets the Group obtained fixed rate debt. As at 31 March 2019 the value of the total debt held by the Group was £210.5 million (2018: £251.1 million) as disclosed in Note 14 to the financial statements. The debt is amortising over the lease term. As set out in Note 2(n) to the financial statements, the debt instruments are carried at amortised cost with interest expense recognised at the effective interest rate. The debt might not be properly accounted for using the effective interest rate method or adequate disclosures might not be made in the financial statements.

How the scope of our audit responded to the key audit matter

Our procedures included:

- reviewing the debt amortisation schedules prepared by management to recalculate the effective interest rates on the loans and checked whether they are consistent with the repayment schedules;
- obtaining direct confirmation of the principal balances outstanding and recalculating accrued interest using the effective interest rate; and
- developing an expectation of the interest charges for the period using the average outstanding principal balances during the period and the effective interest rates.

Key observations

Having carried out the procedures, we concluded that the debt was appropriately valued in line with the effective interest rate method and related interest calculations were within our expectation.

Our application of materiality

We define materiality as the magnitude of misstatement in the financial statements that makes it probable that the economic decisions of a reasonably knowledgeable person would be changed or influenced. We use materiality both in planning the scope of our audit work and in evaluating the results of our work.

Based on our professional judgement, we determined materiality for the financial statements as a whole as follows:

Group materiality	£3,242,000 (2018: £3,744,000)
Basis for determining materiality	2% (2018: 2%) of forecasted shareholders' equity. The determined materiality represents 1.94% of the shareholder's equity at 31 March 2019.
Rationale for the benchmark applied	Our materiality is based on forecast shareholders' equity of the Group. Comprehensive income is significantly influenced by fluctuations in exchange rates, hence it will not be a stable benchmark to use in our determination of materiality. We consider shareholders' equity to be the most important balance on which the shareholders would judge the performance of the Company.

DORIC NIMROD AIR THREE LIMITED

We agreed with the Audit Committee that we would report to the Committee all audit differences in excess of £0.16m (2018: £0.19m), as well as differences below that threshold that, in our view, warranted reporting on qualitative grounds. We also report to the Audit Committee on disclosure matters that we identified when assessing the overall presentation of the financial statements.

An overview of the scope of our audit

Our audit was scoped by obtaining an understanding of the Group and its environment, including internal control, and assessing the risks of material misstatement. Audit work to respond to the risks of material misstatement was performed directly by the audit engagement team.

The Group is administered by a third party Guernsey regulated service provider, as part of our audit we assessed the design, implementation and operating effectiveness of controls established at the service provider for the purposes of our audit.

The consolidated financial statements of the Group incorporate its special purpose subsidiary through which aircraft are held and through which debt finance has been obtained. Whilst a statutory audit of the financial statements of the subsidiary is not required, the subsidiary has been included within the scope of our audit of the consolidated financial statements conducted using the Group materiality set out above. Audit work on each entity within the Group was performed by the same audit team. The Group is treated as a single entity for financial reporting purposes hence component materiality was not used.

Other information

The directors are responsible for the other information. The other information comprises the information included in the annual report, other than the financial statements and our auditor's report thereon.

We have nothing to report in respect of these matters.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

DORIC NIMROD AIR THREE LIMITED

In this context, matters that we are specifically required to report to you as uncorrected material misstatements of the other information include where we conclude that:

Fair, balanced and understandable – the statement given by the directors that they consider the annual report and financial statements taken as a whole is fair, balanced and understandable and provides the information necessary for shareholders to assess the Group’s position and performance, business model and strategy, is materially inconsistent with our knowledge obtained in the audit; or

Audit committee reporting – the section describing the work of the audit committee does not appropriately address matters communicated by us to the audit committee[; or

Directors’ statement of compliance with the UK Corporate Governance Code – the parts of the directors’ statement that would be required if the company had a premium listing relating to the company’s compliance with the UK Corporate Governance Code containing provisions specified for review by the auditor in accordance with Listing Rule 9.8.10R(2) do not properly disclose a departure from a relevant provision of the UK Corporate Governance Code.

Responsibilities of directors

As explained more fully in the directors’ responsibilities statement, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the group’s ability to continue as a going concern, disclosing as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the group or to cease operations, or have no realistic alternative but to do so.

Auditor’s responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor’s report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the FRC’s website at: www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditor’s report.

DORIC NIMROD AIR THREE LIMITED

Report on other legal and regulatory requirements

Matters on which we are required to report by exception

Adequacy of explanations received and accounting records

Under the Companies (Guernsey) Law, 2008 we are required to report to you if, in our opinion:

- we have not received all the information and explanations we require for our audit; or
- proper accounting records have not been kept by the parent company; or
- the financial statements are not in agreement with the accounting records.

We have nothing to report in respect of these matters.

Use of our report

This report is made solely to the company's members, as a body, in accordance with Section 262 of the Companies (Guernsey) Law, 2008. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

DORIC NIMROD AIR THREE LIMITED

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 March 2019

1 GENERAL INFORMATION

The consolidated financial statements incorporate the results of Doric Nimrod Air Three Limited (the "**Company**") and DNA Alpha Limited (the "**Subsidiary**") (together known as the "**Group**").

The Company was incorporated in Guernsey on 29 March 2012 with registered number 54908. The address of the registered office is given on page 68. Its share capital consists of one class of Ordinary Preference Shares ("**Shares**") and one class of Subordinated Administrative Shares ("**Administrative Shares**"). The Company's Shares have been admitted to trading on the Specialist Fund Segment of the London Stock Exchange's Main Market (the "**SFS**").

The Company's investment objective is to obtain income returns and a capital return for its Shareholders by acquiring, leasing and then selling aircraft. The principal activities of the Company are set out in the Chairman's Statement and Management Report on pages 4 to 5 and 14 to 16 respectively.

2 ACCOUNTING POLICIES

The significant accounting policies adopted by the Group are as follows:

(a) Basis of Preparation

The consolidated financial statements have been prepared in conformity with IFRS as adopted by the European Union ("**EU**"), which comprise standards and interpretations approved by the International Accounting Standards Board ("**IASB**") and International Financial Reporting Interpretations Committee ("**IFRIC**") as adopted by the EU and applicable Guernsey law. The consolidated financial statements have been prepared on a historical cost basis.

The accounting policies adopted are consistent with those of the previous financial year, except for the adoption of the new and amended standards set out below:

(b) Adoption of new and revised Standards

New and amended IFRS Standards that are effective for current year

The following Standards or Interpretations have been adopted in the current period. Their adoption has not had any impact on the amounts reported in these consolidated financial statements and is not expected to have any impact on future financial periods, except where stated otherwise:

- IFRS 9, 'Financial Instruments - Classification and Measurement, Impairment of Financial Assets, Hedge Accounting'. Effective for accounting periods commencing on or after 1 January 2018 and is endorsed by the EU.
- IFRS 15 and amendments to IFRS 15 Revenue from contracts with customers - The standard and amendments are effective for annual periods beginning on or after 1 January 2018 and is endorsed by the EU.

DORIC NIMROD AIR THREE LIMITED

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

For the year ended 31 March 2018

2 ACCOUNTING POLICIES (continued)

(b) Adoption of new and revised Standards (continued)

(i) Impact of initial application of IFRS 9 Financial Instruments

IFRS 9 replaces the provisions of IAS 39 that relate to the recognition, classification and measurement of financial assets and financial liabilities, derecognition of financial instruments, impairment of financial assets and hedge accounting.

The adoption of IFRS 9 'Financial Instruments' from 1 April 2018 did not result in any adjustments to the amounts recognised in the financial statements and accordingly there was no impact on the retained earnings as at 1 April 2018. The new accounting policies reflecting the new IFRS 9 terminology are set out in Note 2 (n).

Classification Financial Assets and of Financial Liabilities

IFRS 9 contains three principal classification categories for financial assets and liabilities: measured at amortised cost, fair value through other comprehensive income ("**FVOCI**") and fair value through profit or loss ("**FVTPL**"). IFRS 9 classification is generally based on the business model in which a financial asset is managed and its contractual cash flows.

Based on the Group's assessment, this standard does not have a material impact on the classification of financial assets and financial liabilities of the Group. This is because:

- financial instruments currently measured at amortised cost are accrued income, short-term investments, cash and cash equivalents, receivables, borrowings, deferred income and payables. These instruments meet the solely principal and interest criterion and are held in a held-to-collect business model. Accordingly, they will continue to be measured at amortised cost under IFRS 9.

Impairment of Financial Assets

IFRS 9 replaces the 'incurred loss' model in IAS 39 with an 'expected credit loss' model. The new impairment model also applies to certain loan commitments and financial guarantee contracts but not to equity investments. Under IFRS 9, credit losses are recognised earlier than under IAS 39.

The Group assesses on a forward looking basis the expected credit losses associated with its debt instruments carried at amortised cost. The impairment methodology applied depends on whether there has been a significant increase in credit risk. The Group has chosen to apply the simplified approach to measuring expected credit losses which uses a lifetime expected loss allowance for all trade receivables.

Based on the Group's assessment, changes to the impairment model do not have a material impact on the financial assets of the Group. This is because:

- the accrued income and receivables at amortised cost are short-term (i. e. no longer than 12 months) and considered to be of high credit quality as the Group selected a lessee with a strong balance sheet and financial outlook which has no history of defaulting on any rental payments.

DORIC NIMROD AIR THREE LIMITED

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

For the year ended 31 March 2018

2 ACCOUNTING POLICIES (continued)

(b) Adoption of new and revised Standards (continued)

(i) Impact of initial application of IFRS 9 Financial Instruments (continued)

Impairment of Financial Assets (continued)

- while cash and cash equivalents are also subject to the impairment requirements of IFRS 9, the identified impairment loss is expected to be small as the instruments are held with regulated entities subject to prudential supervision, or with high credit ratings assigned by international credit rating agencies.

(ii) Impact of application of IFRS 15 Revenue from Contracts with Customers

IFRS 15 deals with revenue recognition and establishes principles for reporting useful information to users of financial statements about the nature, amount, timing and uncertainty of revenue and cash flows arising from an entity's contracts with customers. Revenue is recognised when a customer obtains control of a good or service and thus has the ability to direct the use and obtain the benefits from the good or service. The standard replaces IAS 18 'Revenue' and IAS 11 'Construction contracts', related interpretations. The only contractual receipts which the Group currently has are rental income from Emirates leasing its Aircraft. Rental income is currently recognised in accordance with IAS 17 (which will be replaced by IFRS 16 which is specifically excluded from IFRS 15. The adoption of IFRS 15 'Revenue from Contracts with Customers' from 1 April 2018 does thus not materially impact the financial statements.

(iii) Impact of adoption of IFRIC 22: Foreign Currency transactions and advance consideration

- IFRIC 22 'Foreign currency transactions and advance consideration' - this IFRIC addresses foreign currency transactions or parts of transactions where there is consideration that is denominated or priced in a foreign currency. The interpretation provides guidance for when a single payment/receipt is made as well as for situations where multiple payments/receipts are made. The guidance aims to reduce diversity in practice and is effective for annual periods beginning on or after 1 January 2018 and is endorsed by the EU. The adoption of this standard did not have an impact as the Group did not participate in any foreign currency transactions involving an advance payment or receipt in current year.

New and Revised Standards in issue but not yet effective

The following Standards or Interpretations that are expected to affect the Group have been issued but not yet adopted by the Group. Other Standards or Interpretations issued by the International Accounting Standards Board ("**IASB**") and International Financial Reporting Interpretations Committee ("**IFRIC**") are not expected to affect the Group.

- IFRS 16 Leases - specifies how an IFRS reporter will recognise, measure, present and disclose leases. The standard provides a single lessee accounting model, requiring lessees to recognise assets and liabilities for all leases unless the lease term is 12 months or less or the underlying asset has a low value. Lessors continue to classify leases as operating or finance, with IFRS 16's approach to lessor accounting substantially unchanged from its predecessor, IAS 17. This standard is effective for annual periods beginning on or after 1 January 2019 and is endorsed by the EU.

DORIC NIMROD AIR THREE LIMITED

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

For the year ended 31 March 2018

2 ACCOUNTING POLICIES (continued)

(b) Adoption of new and revised Standards (continued)

New and Revised Standards in issue but not yet effective (continued)

The Directors have considered the above and are of the opinion that the above Standards and Interpretations are not expected to have an impact on the Group's financial statements except for the presentation of additional disclosures and changes to the presentation of components of the financial statements. These items will be applied in the first financial period for which they are required.

(c) Basis of Consolidation

The consolidated financial statements incorporate the results of the Company and its Subsidiary. The Company owns 100 percent of all the shares in the Subsidiary and has the power to govern the financial and operating policies of the Subsidiary so as to obtain benefits from its activities. Intra-group balances and transactions, and any unrealised income and expenses arising from intra-group transactions, are eliminated in preparing the consolidated financial statements.

(d) Taxation

The Company and its Subsidiary have been assessed for tax at the Guernsey standard rate of 0 percent.

(e) Share Capital

Shares are classified as equity. Incremental costs directly attributable to the issue of Ordinary Shares are recognised as a deduction from equity.

(f) Expenses

All expenses are accounted for on an accruals basis.

(g) Interest Income

Interest income is accounted for on an accruals basis.

(h) Foreign Currency Translation

The currency of the primary economic environment in which the Group operates (the functional currency) is Pounds Sterling ("£" or "**Sterling**"), which is also the presentation currency.

Transactions denominated in foreign currencies are translated into Sterling at the rate of exchange ruling at the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies at the reporting date are translated into the functional currency at the foreign exchange rate ruling at that date. Foreign exchange differences arising on translation are recognised in the Consolidated Statement of Comprehensive Income.

DORIC NIMROD AIR THREE LIMITED

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

For the year ended 31 March 2019

2 ACCOUNTING POLICIES (continued)

(i) Cash and Cash Equivalents

Cash at bank and short term deposits which are held to maturity are carried at cost. Cash and cash equivalents are defined as call deposits, short term deposits with a term of no more than three months from the start of the deposit and highly liquid investments readily convertible to known amounts of cash and subject to insignificant risk of changes in value.

(j) Segmental Reporting

The Directors are of the opinion that the Group is engaged in a single segment of business, being acquiring, leasing and selling various Airbus A380-861 aircraft (together the "Assets" and each an "Asset").

(k) Going Concern

After making enquiries, the Directors have a reasonable expectation that the Group has adequate resources to continue in operational existence for the foreseeable future. The Directors believe the Group is well placed to manage its business risks successfully despite the current economic climate as the loans and Equipment Notes interest has been fixed and the fixed rental income under the operating leases means that the rents should be sufficient to repay the debt and provide surplus income to pay for the Group's expenses and permit payment of dividends. Accordingly, the Directors have adopted the going concern basis in preparing the consolidated financial statements. Management is not aware of any material uncertainty that may cast significant doubt upon the Group's ability to continue as a going concern.

(l) Leasing and Rental Income

The leases relating to the Assets have been classified as operating leases as the terms of the leases do not transfer substantially all the risks and rewards of ownership to the lessee. The Assets are shown as non-current assets in the Consolidated Statement of Financial Position. Further details of the leases are given in Note 11.

Rental income and advance lease payments from operating leases are recognised on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased Asset and amortised on a straight-line basis over the lease term.

(m) Property, Plant and Equipment - Aircraft

In line with IAS 16 Property Plant and Equipment, each Asset is initially recorded at the fair value of the consideration paid. The cost of the Asset is made up of the purchase price of the Assets plus any costs directly attributable to bringing it into working condition for its intended use. Costs incurred by the lessee in maintaining, repairing or enhancing the aircraft are not recognised as they do not form part of the costs to the Company. Accumulated depreciation and any recognised impairment losses are deducted from cost to calculate the carrying amount of the Assets.

DORIC NIMROD AIR THREE LIMITED

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

For the year ended 31 March 2019

2 ACCOUNTING POLICIES (continued)

(m) Property, Plant and Equipment – Aircraft (continued)

Depreciation is recognised so as to write off the cost of each Asset less the estimated residual value over the estimated useful life of the Asset of 12 years, using the straight line method. As at 31 March 2019, the estimated residual value of the four aircraft range from £80.6 million to £81.7 million (2018: £71.5 million to £72.4 million). Residual values have been arrived at by taking the average amount of three independent external valuers and after taking into account disposition fees. The Directors consider that the use of forecast base values excluding inflation best approximates residual value as required by IAS 16 Property, Plant and Equipment.

The depreciation method reflects the pattern of benefit consumption. The residual value is reviewed annually and is an estimate of the amount the entity would receive today if the Asset were already of the age and condition expected at the end of its useful life. Useful life is also reviewed annually and for the purposes of the financial statements represents the likely period of the Group's ownership of these Assets. Due to a change in estimate of residual value for the aircraft in the current year, there has been a £4,843,842 decrease in the annual depreciation for the current year as a result. Depreciation starts when the Assets are available for use.

At each Consolidated Statement of Financial Position date, the Group reviews the carrying amounts of its Aircraft to determine whether there is any indication that those Assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the Assets is estimated to determine the extent of the impairment loss (if any). Further details are given in Note 3.

Recoverable amount is the higher of fair value less costs to sell and the value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the Assets for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an Asset is estimated to be less than its carrying amount, the carrying amount of the Asset is reduced to its recoverable amount. An impairment loss is recognised immediately in profit or loss.

Where an impairment loss subsequently reverses, the carrying amount of the Asset is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the Asset in prior years. A reversal of an impairment loss is recognised immediately in profit or loss.

DORIC NIMROD AIR THREE LIMITED

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued) For the year ended 31 March 2019

2 ACCOUNTING POLICIES (continued)

(n) Financial instruments

A financial instrument is recognised when the Group becomes a party to the contractual provisions of the instrument. Financial liabilities are derecognised if the Group's obligations, specified in the contract, expire or are discharged or cancelled. Financial assets are derecognised if the Group's contractual rights to the cash flows from the financial assets expire, are extinguished, or if the Group transfers the financial assets to a third party and transfers all the risks and rewards of ownership of the asset, or if the Group does not retain control of the asset and transfers substantially all the risk and rewards of ownership of the asset.

Under IFRS 9, on initial recognition, a financial asset is classified as measured at:

- Amortised cost;
- Fair value through other comprehensive income ("FVOCI"); or
- Fair value through profit or loss ("FVTPL").

The classification of financial assets under IFRS 9 is generally based on the business model in which a financial asset is managed and its contractual cash flow characteristics. The Group only has financial assets that are classified as amortised cost.

i) Financial assets held at amortised cost

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. These assets are subsequently measured at amortised cost using the effective interest method. The effective interest method calculates the amortised cost of financial instruments and allocates the interest over the period of the instrument.

The Group's financial assets held at amortised cost include trade and other receivables and cash and cash equivalents.

The Group assesses on a forward looking basis the expected credit losses associated with its financial assets held at amortised cost. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

ii) Financial liabilities held at amortised cost

Financial liabilities consist of payables and borrowings. The classification of financial liabilities at initial recognition depends on the purpose for which the financial liability was issued and its characteristics. All financial liabilities are initially measured at fair value, net of transaction costs. All financial liabilities are recorded on the date on which the Group becomes party to the contractual requirements of the financial liability.

DORIC NIMROD AIR THREE LIMITED

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

For the year ended 31 March 2019

2 ACCOUNTING POLICIES (continued)

(n) Financial instruments (continued)

ii) Financial liabilities held at amortised cost (continued)

Financial liabilities are subsequently measured at amortised cost using the effective interest method, with interest expense recognised on an effective yield basis. The effective interest method is a method of calculating the amortised cost of the financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments through the expected life of the financial liability, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or they expire.

The impact of the adoption of the above standard are disclosed in Note 2 (b).

3 SIGNIFICANT JUDGEMENTS AND ESTIMATES

In the application of the Group's accounting policies, which are described in Note 2, the Directors are required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

The following are the critical judgements and estimates that the Directors have made in the process of applying the Group's accounting policies and that have the most significant effect on the amounts recognised in the consolidated financial statements.

Estimates

Residual Value and Useful Life of Aircraft

As described in Note 2 (m), the Group depreciates the Assets on a straight line basis over the estimated useful life of the Assets after taking into consideration the estimated residual value. IAS 16 Property, Plant and Equipment requires residual value to be determined as an estimate of the amount that the Group would currently obtain from the disposal of the Asset, after deducting the estimated costs of disposal, if the Asset were of the age and condition expected at the end of its useful life. However, there are currently no aircraft of a similar type of sufficient age for the Directors to make a direct market comparison in making this estimation. After consulting with the Company's Advisors, the Directors have concluded that forecast base values, excluding inflationary effects (determined annually) for the Aircraft at the end of its useful life best represents residual value, as required by a strict interpretation of relevant accounting standards.

DORIC NIMROD AIR THREE LIMITED

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

For the year ended 31 March 2019

3 SIGNIFICANT JUDGEMENTS AND ESTIMATES (continued)

Estimates (continued)

Residual Value and Useful Life of Aircraft (continued)

In estimating residual value for the year, the Directors referred to forecast base values (excluding inflationary effects) for the Asset obtained from three independent expert aircraft valuers.

The estimation of residual value remains subject to inherent uncertainty. If the estimate of residual value had been decreased by 20 percent with effect from the beginning of this year, the net profit for the year and closing shareholders' equity would have been decreased by approximately £8.6 million (31 March 2018: £6.7 million). An increase in residual value by 20 percent would have had an equal but opposite effect. This reflects the range of estimates of residual value that the Directors believe would be reasonable at this time. The useful life of each Asset, for the purpose of depreciation of the asset under IAS 16, is estimated based on the expected period for which the Group will own and lease the Aircraft. The Board of Directors expects that the Aircraft will have a working life far in excess of this period.

Judgements

Operating Lease Commitments - Group as Lessor

The Group has entered into operating leases on four (31 Mar 2018: four) Assets. The Group has determined, based on an evaluation of the terms and conditions of the arrangements, that it retains all the significant risks and rewards of ownership of these Assets and accounts for the contracts as operating leases.

The Group has determined that the operating leases on the Assets are for 12 years based on an initial term of 10 years followed by an extension term of 2 years. Should the lessee choose to exit a lease at the end of the initial term of 10 years a penalty equal to the present value of the remaining 2 years would be due.

Impairment

As described in Note 2(m), an impairment loss exists when the carrying value of an asset or cash generating unit exceeds its recoverable amount, which is the higher of its fair value less costs to sell and its value-in-use. The Directors review the carrying amount of its Assets at each audited Statement of Financial Position date and monitor the Assets for any indications of impairment as required by IAS 16 Property, Plant and Equipment and IAS 36 Impairment of Assets.

In assessing value-in-use, the estimated future cash flows expected to be generated by the assets (ie the income streams associated with the lease and the expected future market value of the Aircraft at the end of the lease) are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the Assets.

In determining fair value less costs of disposal, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used. Such valuation reflects the highest and best use of the Assets given the fact that the Aircraft are held for use in a leasing business.

DORIC NIMROD AIR THREE LIMITED

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

For the year ended 31 March 2019

3 SIGNIFICANT JUDGEMENTS AND ESTIMATES (continued)

Judgements (continued)

Impairment (continued)

Factors that are considered important which could trigger an impairment review include, but are not limited to, significant decline in the market value beyond that which would be expected from the passage of time or normal use, significant changes in the technology and regulatory environments, evidence from internal reporting which indicates that the economic performance of the Assets are, or will be, worse than expected.

The Board together with the Asset Manager believes that it would be prudent to conduct an impairment test in the current year as the below items may result in pricing changes for the current portfolio of Aircraft:

- As further Airbus A380 aircraft reach comparable 12 year ages and exit their first lease agreements further market data is available to Amedeo and the asset valuers
- Lack of publicly available secondary market data for the specific aircraft.
- Changing technologies, market innovation and changes to key production programs as well as the success and / or failure as well as the timing of new aircraft model launches.
- Information regarding airbus cancellation of the A380 programme, creating uncertainty as to the liquidity of the future market for sale or re-lease.

The assessment was performed by comparing the net book value of the Aircraft to the higher of its respective fair value less costs to sell and value-in-use. In determining the value-in-use, the gross value of future contractual cash flows including a residual value assumption was discounted to present value, using the Group's discount rate, as the cash flows are contractual. Any assumptions with regards to issues in counterparty credit risk would be reflected in the discount rate used to calculate the net present value of future contractual cash flows. There are no indications at this time that Emirates will default or that any of the Aircraft will not be marketable post lease. In determining the fair value less costs to sell, the current market value of the Aircraft was used, less estimated costs to dispose of the Aircraft.

The Asset Manager considers that 6.5% is the most appropriate discount rate for the following reasons;

- The discount rate should be a rate commensurate with what a normal market participant would consider to be the risk inherent in the assets; and
- As the Aircraft is with Emirates, who is considered to have a low credit risk profile.

Based on the impairment review performed, the Directors are of the opinion that no impairment loss is required to be recognised in the current year.

In addition, these values have been tested for their sensitivity to the discount rate and the residual value, the following being the two largest inputs into the calculation:

- Discount rates at -1% and +1% intervals have been tested on either side of the Group discount rate (6.5%); and
- A reduction of the residual value used in the calculation by 10% and 20% respectively.

The sensitivity test exhibited that the recoverable amount is greater than the net book value at financial year end for the Aircraft, except when using an 8.5% or higher discount rate and a 20% or higher reduction in residual value, a situation the Asset Manager considers highly unlikely. As such, no impairment is identified.

Revenue earned but not received or due	25,764,467	24,515,824
Amortisation of advance rental income	3,177,923	3,182,333
Deduction of rebate monies	(289,648)	(279,864)
	<u>53,856,708</u>	<u>53,485,471</u>
B rent income	20,472,385	20,472,382
Revenue received but not yet earned	(98,079)	(97,925)
Revenue earned but not yet received	55,935	84,133
	<u>20,430,241</u>	<u>20,458,590</u>
Total rental income	<u>74,286,949</u>	<u>73,944,061</u>

Rental income is derived from the leasing of the Assets. Rent is split into A rent, which is received in US dollars ("\$\$") and B rent, which is received in Sterling ("£" or "GBP"). Rental income received in US dollars is translated into the functional currency (Sterling) at the date of the transaction.

A and B rental income receivable will decrease / increase respectively, 10 years from the start of each lease. An adjustment has been made to spread the actual total income receivable over the term of the lease on an annual basis. In addition, advance rentals received have also been spread over the full term of the leases.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

For the year ended 31 March 2019

9 PROPERTY, PLANT AND EQUIPMENT - AIRCRAFT

	Aircraft GBP
COST	
As at 1 Apr 2018	<u>618,050,915</u>
As at 31 Mar 2019	<u>618,050,915</u>
ACCUMULATED DEPRECIATION	
As at 1 Apr 2018	103,511,216
Depreciation charge based on previous residual values	29,864,840
Adjustment due to change in US dollar residual values	(1,828,811)
Adjustment due to FX movements on residual values	(3,015,031)
Net depreciation charge for the year	<u>25,020,998</u>
As at 31 Mar 2019	<u>128,532,214</u>
CARRYING AMOUNT	
As at 31 Mar 2019	<u>489,518,701</u>
As at 31 Mar 2018	<u>514,539,699</u>

The Company believes that the use of forecast base values excluding inflation best approximates residual value as required per IAS 16 Property, Plant and Equipment (refer to note 3). The combined effect of translating residual values at the Sterling / US Dollar exchange rate prevailing at 31 March 2019 of 1.3035 (31 March 2018: 1.4018) and a 4.8 per cent. increase in average appraised residual values in US Dollar terms, resulted in a £4,843,842 decrease in the annual depreciation charge for the current year.

The Company may dispose of the Asset during the term of the Lease, but is required to meet certain conditions and needs Emirates' consent (such consent not be unreasonably withheld). If at the end of the Lease the Company makes the choice to sell the Asset rather than leasing it out again, Emirates will be given first refusal to purchase the Asset at an independently appraised value.

Under IAS 17 the direct costs attributed in negotiating and arranging the operating leases have been added to the carrying amount of the leased asset and therefore will be recognised as an expense over the lease term. The costs have been allocated to each Aircraft based on the proportional cost of the Asset.

Refer to Note 3 for details on the impairment review and sensitivities conducted.

	<u>93,680,215</u>	<u>245,718,418</u>	<u>30,717,960</u>	<u>370,116,593</u>
31 Mar 2018	Next 12 months GBP	1 to 5 years GBP	After 5 years GBP	Total GBP
Aircraft - A rental receipts	68,570,215	198,922,639	21,492,082	288,984,936
Aircraft - B rental receipts	20,472,384	81,889,536	51,190,344	153,552,264
	<u>89,042,599</u>	<u>280,812,175</u>	<u>72,682,426</u>	<u>442,537,200</u>

The operating leases are for four Airbus A380-861 aircraft. The terms of the leases are as follows:

MSN132 Limited - term of the lease is for 12 years ending August 2025. The initial lease is for 10 years ending August 2023, with an extension period of two years ending August 2025, in which rental payments reduce. The present value of the remaining rentals in the extension period at the end of the initial 10 year lease must be paid even if the option is not taken.

DORIC NIMROD AIR THREE LIMITED

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

For the year ended 31 March 2019

11 OPERATING LEASES (continued)

The operating leases are for four Airbus A380-861 aircraft. The terms of the leases are as follows: (continued)

MSN133 Limited - term of the lease is for 12 years ending November 2025. The initial lease is for 10 years ending November 2023, with an extension period of two years ending November 2025, in which rental payments reduce. The present value of the remaining rentals in the extension period at the end of the initial 10 year lease term must be paid even if the option is not taken.

MSN134 Limited - term of the lease is for 12 years ending November 2025. The initial lease is for 10 years ending November 2023, with an extension period of two years ending November 2025, in which rental payments reduce. The present value of the remaining rentals in the extension period at the end of the initial 10 year lease term must be paid even if the option is not taken.

MSN136 Limited - term of the lease is for 12 years ending October 2025. The initial lease is for 10 years ending October 2023, with an extension period of two years ending October 2025, in which rental payments reduce. The present value of the remaining rentals in the extension period at the end of the initial 10 year lease term must be paid even if the option is not taken.

At the end of each lease the lessee has the right to exercise an option to purchase the Asset if the Group chooses to sell the Asset. If a purchase option event occurs the Group and the lessee will be required to arrange for a current market value appraisal of the Asset to be carried out by three independent appraisers. The purchase price will be equal to the average valuation of those three appraisals.

12 RECEIVABLES

	31 Mar 2019	31 Mar 2018
	GBP	GBP
Prepayments	58,000	56,726
Sundry debtors	40	39
	<u>58,040</u>	<u>56,765</u>

The above carrying value of receivables is equivalent to fair value.

13 PAYABLES (amounts falling due within one year)

	31 Mar 2019	31 Mar 2018
	GBP	GBP
Accrued administration fees	11,785	23,108
Accrued audit fee	20,160	19,020
Accrued registrar fees (Note 22)	1,390	985
Other accrued expenses	29,850	22,666
	<u>63,185</u>	<u>65,779</u>

The above carrying value of payables is equivalent to the fair value.

DORIC NIMROD AIR THREE LIMITED

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

For the year ended 31 March 2019

14 BORROWINGS

	31 Mar 2019	31 Mar 2018
	GBP	GBP
Equipment Notes	213,048,544	254,060,656
Associated costs	(2,543,695)	(2,931,033)
	<u>210,504,849</u>	<u>251,129,623</u>
Current portion	<u>63,341,248</u>	<u>55,951,956</u>
Non-current portion	<u>147,163,601</u>	<u>195,177,667</u>

Notwithstanding the fact that £60.2 million (31 March 2018: £56.9 million) capital was repaid during the year, as per the Cash Flow Statement, the value of the borrowings has only decreased by a further £40.6 million due to the 7.54 percent decrease in the Sterling / US dollar exchange rate for the year ended 31 March 2019. See note 20.

The amounts below detail the future contractual undiscounted cash flows in respect of the loans, including both the principal and interest payments, and will not agree directly to the amounts recognised in the Consolidated Statement of Financial Position:

	31 Mar 2019	31 Mar 2018
	GBP	GBP
Amount due for settlement within 12 months	<u>73,198,230</u>	<u>68,561,289</u>
Amount due for settlement after 12 months	<u>163,790,499</u>	<u>220,370,102</u>

In order to finance the acquisition of the Assets, the Subsidiary used the proceeds of the August 2013 offering of Pass Through Certificates (the "**Certificates**"). The Certificates have an aggregate face amount of approximately \$630 million, made up of "Class A" certificates and "Class B" certificates. The Class A certificates in aggregate have a face amount of \$462 million with an interest rate of 5.250 percent and a final expected distribution date of 30 May 2023. The Class B certificates in aggregate have a face amount of \$168 million with an interest rate of 6.125 percent and a final expected distribution date of 30 November 2019. There is a separate trust for each class of Certificate. The trusts used the funds from the Certificates to acquire equipment notes. The equipment notes were issued to Wilmington Trust, National Association as pass through trustee in exchange of the consideration paid by the purchasers of the Certificates. The equipment notes were issued by the Subsidiary and the proceeds from the sale of the equipment notes financed a portion of the purchase price of the four airbus A380- 861 Aircraft, with the remaining portion being financed through contribution from the Group of the Share issue proceeds. The holders of the equipment notes issued for each aircraft have the benefit of a security interest in such aircraft.

In the Directors' opinion, the carrying values of the equipment notes are approximate to their fair value.

DORIC NIMROD AIR THREE LIMITED

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

For the year ended 31 March 2019

15 REBATES

Upon entering into the leases it was agreed that the lessee would pay to the Group such amount as estimated to be necessary to fund the payment by the Group of certain costs, fees and expenses associated with the transactions arising from the leases. Following payment of the costs, fees and expenses, it was agreed that such amount paid by the lessee exceeded the amount actually necessary. It was agreed that the Group would return the excess to the lessee over the remaining life of the leases in May and November of each year. Upon any termination of a lease prior to its end the Group shall pay the entire remaining unpaid excess relating to such Aircraft to such account as is directed by the lessee, but without any interest accrued thereon.

16 SHARE CAPITAL

The Share Capital of the Company is represented by an unlimited number of shares issued or reclassified by the Company as Shares or Administrative Shares.

Issued	Administrative		Shares
	Shares		
Issued shares as at 31 Mar 2019 and 31 Mar 2018	2		220,000,000

Issued	Administrative	Shares	Total
	Shares	Shares	Total
	GBP	GBP	GBP
Shares			
Share Capital as at 31 Mar 2019 and 31 Mar 2018	-	208,953,833	208,953,833

Members holding Shares are entitled to receive and participate in any dividends out of income attributable to the Shares; other distributions of the Group available for such purposes and resolved to be distributed in respect of any accounting period; or other income or right to participate therein.

Upon winding up, Shareholders are entitled to the surplus assets attributable to the Share class remaining after payment of all the creditors of the Group. Members have the right to receive notice of and to attend, speak and vote at general meetings of the Group.

The holders of Administrative Shares are not entitled to receive, and participate in, any dividends out of income; other distributions of the Group available for such purposes and resolved to be distributed in respect of any accounting period; or other income or right to participate therein. On a winding up, holders are entitled to a return of capital paid up on them after the Shares have received a return of their capital paid up but ahead of the return of all additional capital to the holders of Shares.

DORIC NIMROD AIR THREE LIMITED

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

For the year ended 31 March 2019

16 SHARE CAPITAL (continued)

The holders of Administrative Shares shall not have the right to receive notice of and no right to attend, speak and vote at general meetings of the Group, except for the Liquidation Proposal Meeting (general meeting convened six months before the end term of the Lease where the Liquidation Resolution will be proposed) or if there are no Shares in existence.

17 CASH AND CASH EQUIVALENTS

	31 Mar 2019	31 Mar 2018
	GBP	GBP
Cash at bank	13,113,247	7,893,384
Cash deposits	<u>2</u>	<u>4,515,394</u>
	<u>13,113,249</u>	<u>12,408,778</u>

Cash and cash equivalents are highly liquid, readily convertible and are subject to insignificant risk of changes in value.

18 FINANCIAL INSTRUMENTS

The Group's main financial instruments comprise:

- (a) Cash and cash equivalents that arise directly from the Group's operations; and
- (b) Debt secured on non-current assets.

DORIC NIMROD AIR THREE LIMITED

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

For the year ended 31 March 2019

19 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group's objective is to obtain income and returns and a capital return for its Shareholders by acquiring, leasing and then selling aircraft.

The following table details the categories of financial assets and liabilities held by the Group at the reporting date:

	31 Mar 2019	31 Mar 2018
	GBP	GBP
Financial assets		
Cash and cash equivalents	13,113,249	12,408,778
Receivables (excluding prepayments)	40	39
	<u>13,113,289</u>	<u>12,408,817</u>
Financial assets measured at amortised cost		
	<u>13,113,289</u>	<u>12,408,817</u>
Financial liabilities		
Payables	63,185	65,779
Debt payable	210,504,849	251,129,623
	<u>210,568,034</u>	<u>251,195,402</u>
Financial liabilities measured at amortised cost		
	<u>210,568,034</u>	<u>251,195,402</u>

The main risks arising from the Group's financial instruments are capital management risk, foreign currency risk, credit risk, liquidity risk and interest rate risk. The Board regularly review and agrees policies for managing each of these risks and these are summarised below:

(a) Capital Management

The Group manages its capital to ensure that the Group will be able to continue as a going concern while maximising the return to Shareholders through the optimisation of the debt and equity balance.

The capital structure of the Group consists of debt, which includes the borrowings disclosed in Note 14, cash and cash equivalents and equity attributable to equity holders, comprising issued capital and retained earnings.

The Group's Board reviews the capital structure on a bi-annual basis.

Equity includes all capital and reserves of the Group that are managed as capital.

No changes were made in the objectives, policies or processes for managing capital during the years ended 31 March 2019 and 2018.

DORIC NIMROD AIR THREE LIMITED

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

For the year ended 31 March 2019

19 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (continued)

(b) Foreign Currency Risk

The Group's accounting policy under IFRS requires the use of a Sterling historic cost of the Assets and the value of the US dollar debt as translated at the spot exchange rate on every reporting date. In addition US dollar operating lease receivables are not immediately recognised in the statement of financial position and are accrued over the period of the leases. The Directors consider that this introduces an artificial variance due to the movement over time of foreign exchange rates. In actuality, the US dollar operating lease should offset the US dollar payables on amortising debt. The foreign exchange exposure in relation to the Equipment Notes is thus almost entirely hedged.

Lease rentals (as detailed in Notes 4 and 11) are received in US dollars and Sterling. Those lease rentals received in US dollars are used to pay the equipment note repayments due, also in US dollars (as detailed in Note 14). Both US dollar lease rentals and equipment note repayments are fixed and are for similar sums and similar timings. The matching of lease rentals to settle equipment note repayments therefore minimise risks caused by foreign exchange fluctuations.

The carrying amounts of the Group's foreign currency denominated monetary assets and liabilities at the reporting date are as follows:

	31 Mar 2019	31 Mar 2018
	GBP	GBP
Debt (US dollar) - Liabilities	(213,048,544)	(254,060,656)
Cash and cash equivalents (US dollar) - Asset	<u>2,080,256</u>	<u>2,225,652</u>

The following table details the Group's sensitivity to a 25 percent (31 March 2018: 25 percent) appreciation and depreciation in Sterling against US dollar. 25 percent (31 March 2018: 25 percent) represents the Directors' assessment of the reasonably possible change in foreign exchange rates. The sensitivity analysis includes only outstanding foreign currency denominated monetary items and adjusts their translation at the period end for a 25 percent (31 March 2018: 25 percent) change in foreign currency rates. A positive number below indicates an increase in profit and other equity where Sterling strengthens 25 percent (31 March 2018: 25 percent) against the US dollar. For a 25 percent (31 March 2018: 25 percent) weakening of Sterling against the US dollar, there would be a comparable but opposite impact on the profit and other equity:

	31 Mar 2019	31 Mar 2018
	US dollar	US dollar
	Impact	Impact
	GBP	GBP
Profit or loss	42,193,658	50,367,001
Assets	(416,051)	(445,130)
Liabilities	<u>42,609,709</u>	<u>50,812,131</u>

DORIC NIMROD AIR THREE LIMITED

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

For the year ended 31 March 2019

19 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (continued)

(b) Foreign Currency Risk (continued)

On the eventual sale of the Assets, the Group may be subject to foreign currency risk if the sale was made in a currency other than Sterling. Transactions in similar assets are typically priced in US dollars.

(c) Credit Risk

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the Group.

The credit risk on cash transactions are mitigated by transacting with counterparties that are regulated entities subject to prudential supervision, or with high credit ratings assigned by international credit rating agencies.

The Group's financial assets exposed to credit risk are as follows:

	31 Mar 2019	31 Mar 2018
	GBP	GBP
Receivables (excluding prepayments)	40	39
Cash and cash equivalents	13,113,249	12,408,778
	<u>13,113,289</u>	<u>12,408,817</u>

Surplus cash in the Company is held with RBSI and in various Certificates of Deposit managed by RLAM. Surplus cash in the Subsidiary is held in accounts with RBSI and Wilmington Trust. The banks have credit rating given by Moody's of Baa2 (stable) and Aa3 (stable) respectively. The banks are shown as having a stable rating.

There is a contractual credit risk arising from the possibility that the lessee may default on the lease payments. This risk is mitigated, as under the terms of the lease agreements between the lessee and the Group, any non payment of the lease rentals constitutes a Special Termination Event, under which the lease terminates and the Group may either choose to sell the asset or lease the Assets to another party.

At the inception of each lease, the Group selected a lessee with a strong balance sheet and financial outlook. The financial strength of Emirates is regularly reviewed by the Board and the Asset Manager.

DORIC NIMROD AIR THREE LIMITED

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

For the year ended 31 March 2019

19 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (continued)

(d) Liquidity Risk

Liquidity risk is the risk that the Group will encounter difficulty in realising assets or otherwise raising funds to meet financial commitments. The Group's main financial commitments are its ongoing operating expenses and payments on equipment notes.

Ultimate responsibility for liquidity risk management rests with the Board, which established an appropriate liquidity management framework at the incorporation of the Group, through the timings of lease rentals and debt repayments. The Group manages liquidity risk by maintaining adequate reserves, banking facilities and borrowing facilities, by monitoring forecast and actual cash flows, and by matching profiles of financial assets and liabilities.

The table below details the residual contractual maturities of financial liabilities. The amounts below are contractual undiscounted cash flows, including both the principal and interest payments, and will not agree directly to the amounts recognised in the statement of financial position:

	1-3 months GBP	3-12 months GBP	1-2 years GBP	2-5 years GBP	Over 5 years GBP
31 Mar 2019					
Financial liabilities					
Payables - due within one year	63,185	-	-	-	-
Equipment Notes	36,667,361	36,530,869	47,275,570	116,514,929	-
	<u>36,730,546</u>	<u>36,530,869</u>	<u>47,275,570</u>	<u>116,514,929</u>	<u>-</u>
31 Mar 2018					
Financial liabilities					
Payables - due within one year	65,779	-	-	-	-
Equipment Notes	34,341,206	34,220,083	68,065,268	130,821,671	21,483,162
	<u>34,406,985</u>	<u>34,220,083</u>	<u>68,065,268</u>	<u>130,821,671</u>	<u>21,483,162</u>

(e) Interest Rate Risk

Interest rate risk arises from the possibility that changes in interest rates will affect future cash flows. It is the risk that fluctuations in market interest rates will result in a reduction in deposit interest earned on bank deposits held by the Group.

The Group mitigates interest rate risk by fixing the interest rate on the equipment notes debt and the lease rentals.

DORIC NIMROD AIR THREE LIMITED

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

For the year ended 31 March 2019

19 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (continued)

(e) Interest Rate Risk (continued)

If interest rates had been 50 basis points higher throughout the year and all other variables were held constant, the Group's net assets attributable to Shareholders as at 31 March 2019 would have been £65,566 (31 March 2018: £62,044) greater due to an increase in the amount of interest receivable on the bank balances.

If interest rates had been 50 basis points lower throughout the year and all other variables were held constant, the Group's net assets attributable to Shareholders as at 31 March 2018 would have been £65,566 (31 March 2018: £62,044) lower due to a decrease in the amount of interest receivable on the bank balances.

20 CHANGES IN LIABILITIES ARISING FROM FINANCING ACTIVITIES

The following table discloses the effects of the amendments to IAS 7 Statement of Cash Flows which requires additional disclosures that enable users of financial statements to evaluate changes in liabilities arising from financing activities, including both changes arising from cash flows and non-cash flows. This table below excludes non-cash flows arising from the amortisation of associated costs (see note 14).

	31 Mar 2019	31 Mar 2018
	GBP	GBP
Opening Balance	254,060,656	343,142,786
Cash flows paid - capital	(60,179,618)	(56,871,877)
Cash flows paid - interest	(13,464,345)	(17,026,641)
Non-cash flows		
- Interest accrued	13,595,573	16,558,361
- Rebates movement	220,726	588,137
- Effects of foreign exchange – Rebates	139,055	(233,321)
- Effects of foreign exchange - Loans	18,676,497	(32,096,789)
Closing Balance	<u>213,048,544</u>	<u>254,060,656</u>

21 ULTIMATE CONTROLLING PARTY

In the opinion of the Directors, the Group has no ultimate controlling party.
