## REPORT ON REVIEW OF INTERIM FINANCIAL INFORMATION

To the Board of Directors of  
Abu Dhabi Commercial Bank P.J.S.C.  
Abu Dhabi, U.A.E.

### *Introduction*

We have reviewed the accompanying condensed consolidated interim statement of financial position of Abu Dhabi Commercial Bank P.J.S.C. and its subsidiaries (together referred to as "the Bank") as of September 30, 2013 and the related condensed consolidated interim statements of income, comprehensive income, changes in equity and cash flows for the nine month period then ended. Management is responsible for the preparation and presentation of this interim financial information in accordance with International Accounting Standard 34, "Interim Financial Reporting ("IAS 34")". Our responsibility is to express a conclusion on this interim financial information based on our review.

### *Scope of review*

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity." A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

### *Conclusion*

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed consolidated interim financial information is not prepared, in all material respects, in accordance with IAS 34.

PricewaterhouseCoopers

Jacques Fakhoury  
Registration Auditor Number 379  
October 23, 2013

**Notes to the condensed consolidated interim financial information  
for the nine month period ended September 30, 2013****1 Activities and areas of operations**

Abu Dhabi Commercial Bank P.J.S.C. ("ADCB" or the "Bank") is a public joint stock company with limited liability incorporated in the Emirate of Abu Dhabi, United Arab Emirates (U.A.E.). ADCB is principally engaged in the business of retail banking, commercial banking and Islamic banking and provision of other financial services through its network of fifty branches and three pay offices in the U.A.E., two branches in India, one offshore branch in Jersey and its subsidiaries.

The registered head office of ADCB is at Abu Dhabi Commercial Bank Head Office Building, Salam Street, plot C-33, Sector E-11, P. O. Box 939, Abu Dhabi, U.A.E.

ADCB is registered as a public joint stock company in accordance with the U.A.E. Federal Commercial Companies Law No. (8) of 1984 (as amended).

**2 Summary of significant accounting policies****2.1 Basis of preparation**

This condensed consolidated interim financial information has been prepared in accordance with IAS 34 "Interim Financial Reporting". It does not include all of the information required for full annual financial statements and should be read in conjunction with the consolidated financial statements of the Bank for the year ended December 31, 2012, which were prepared in accordance with International Financial Reporting Standards (IFRS) and International Financial Reporting Interpretation Committee (IFRIC) Interpretations.

The same accounting policies, presentation and methods of computation have been followed in this condensed consolidated interim financial information as were applied in the preparation and presentation of the Bank's consolidated financial statements for the year ended December 31, 2012.

For details of related party balances and transactions, refer to Note 36 in the consolidated financial statements for the year ended December 31, 2012. The related party balances and transactions for the quarter ended September 30, 2013 are similar in nature and magnitude. Note 8 provide the details of lending exposure to Government entities.

The results for the three and nine month periods ended September 30, 2013 are not necessarily indicative of the results that may be expected for the financial year ending December 31, 2013.

This condensed consolidated interim financial information is prepared and presented in United Arab Emirates Dirhams (AED) which is the Bank's functional and presentation currency and are rounded off to the nearest thousand ("000") unless otherwise indicated.

As required by the Securities and Commodities Authority of the U.A.E. ("SCA") Notification No. 2624/2008 dated October 12, 2008, accounting policies relating to investment securities and investment properties have been disclosed in the condensed consolidated interim financial information.

The preparation of the condensed consolidated interim financial information in conformity with IFRSs requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

The main areas of judgments, estimates and assumptions applied in the condensed consolidated interim financial information, including the key sources of estimation uncertainty were the same as those applied in the Bank's consolidated financial statements for the year ended December 31, 2012.

**Notes to the condensed consolidated interim financial information  
for the nine month period ended September 30, 2013 (continued)****2 Summary of significant accounting policies (continued)****2.1 Basis of preparation (continued)****Change in accounting policy**

As stated in note 3.1 to the consolidated financial statements for the year ended December 31, 2012, the Bank early adopted IFRS 10 Consolidated Financial Statements, IFRS 11 Joint Arrangements and IFRS 12 Disclosure of Interests in Other Entities, as well as the consequential amendments to IAS 28 Investments in Associates and to IAS 31 Joint Ventures (2011), with a date of initial application of January 1, 2012. Accordingly, the comparative information for the nine and three month periods ended September 30, 2012 have been restated in this condensed interim financial information – see below.

**Subsidiaries**

As a result of the adoption of IFRS 10, the Bank changed its accounting policy with respect to determining whether it has control over and consequently whether it consolidates its investees. IFRS 10 introduces a new control model that is applicable to all investees; among other things, it requires the consolidation of an investee if the Bank controls the investee on the basis of de facto circumstances.

In accordance with the transitional provisions of IFRS 10, the Bank re-assessed the control conclusion for its investees at 1 January 2012. As a consequence, the Bank has changed its control conclusion in respect of its investments in Al Nokhitha Fund, ADCB MSCI UAE Index Fund and Arabian Index Fund (the “Funds”).

Although the Bank owns less than half of the units of these Funds, the management has determined that the Bank has de facto control over the Funds because it is exposed to significant variable returns from its involvement with the Funds and has power and rights given by the prospectus of the Funds to affect the amount of its returns. Accordingly, the Bank applied acquisition accounting to the investment at January 1, 2012, as if the investee had been consolidated from that date. Previously, two of the investments in the Funds were accounted for as associates using the equity method and one of the investments was accounted for as an available for sale investment using fair value accounting.

The following table summarises the adjustments made to the relevant line items of the Bank’s condensed consolidated interim statement of financial position as at September 30, 2012 and its condensed consolidated interim statements of income and cash flows and earnings per share for the nine month period ended September 30, 2012 as a result of the consolidation of the Funds.

**Impact on Earnings per share (EPS)**

The Funds consolidation had an immaterial impact on EPS for the nine month period ended September 30, 2012.

**2.2 Application of new and revised International Financial Reporting Standards (IFRSs)**

**2.2.1 New and revised IFRSs effective for accounting periods beginning January 1, 2013**

IFRS 10 Consolidated Financial Statements and the other related Standards and amendments effective from January 1, 2013 were early adopted with a date of initial application of January 1, 2012. The impact of early adoption is set out in Note 2.1.

With effect from January 1, 2013, the Bank has adopted IFRS 13, Fair value Measurement which aims to improve consistency and reduce complexity by providing a precise definition of fair value and improving disclosure requirements for use across IFRSs. It applies to both financial and non-financial instruments carried at fair value and requires additional disclosures in the financial statements. The disclosure note requirements are set out in Note 30.

Other than the above, there are no other IFRSs or IFRIC interpretations that were effective for the first time for the financial year beginning January 1, 2013 that have had a material impact on Bank's condensed consolidated interim financial information.

**Notes to the condensed consolidated interim financial information  
for the nine month period ended September 30, 2013 (continued)**

**2 Summary of significant accounting policies (continued)**

**2.2 Application of new and revised International Financial Reporting Standards (IFRSs)  
(continued)**

**2.2.2 Standards and Interpretations in issue not yet effective**

The Bank has not early adopted new and revised IFRSs that have been issued but are not yet effective.

	<b>Effective for annual periods beginning on or after</b>
<b>New Standards and amendments to Standards:</b>	
Amendments to IAS 32 Financial Instruments requires presentation to clarify certain aspects because of diversity in application of the requirements on offsetting, focused on four main areas: <ul style="list-style-type: none"> <li>• the meaning of 'currently has a legally enforceable right of set-off'</li> <li>• the application of simultaneous realisation and settlement</li> <li>• the offsetting of collateral amounts</li> <li>• the unit of account for applying the offsetting requirements</li> </ul>	January 1, 2014
These amendments will not have a material impact on the Bank's condensed consolidated interim financial information.	
Amendments to IFRS 10 Consolidated Financial Statements, IFRS 12 Disclosure of Interests in Other Entities and IAS 27 Separate Financial Statements relate only to investment entities, therefore will not apply to the Bank.	January 1, 2014
Amendment to IAS 36 Impairment of Assets to reduce the circumstances in which the recoverable amount of assets or cash-generating units is required to be disclosed, clarify the disclosures required, and to introduce an explicit requirement to disclose the discount rate used in determining impairment (or reversals) where recoverable amount (based on fair value less costs of disposal) is determined using a present value technique.	January 1, 2014
Amendment to IAS 39 Financial Instruments: Recognition and Measurement make it clear that there is no need to discontinue hedge accounting if a hedging derivative is novated, provided certain criteria are met.	January 1, 2014
IFRS 9, Financial Instruments: Classification and Measurement (intended as complete replacement for IAS 39).	January 1, 2015

Key requirements of IFRS 9 are described as follows:

IFRS 9 requires all recognised financial assets that are within the scope of IAS 39 Financial Instruments: Recognition and Measurement to be subsequently measured at amortised cost or fair value. Specifically, debt investments that are held within a business model whose objective is to collect the contractual cash flows, and that have contractual cash flows that are solely payments of principal and interest on the principal outstanding are generally measured at amortised cost at the end of subsequent accounting periods. All other debt investments and equity investments are measured at their fair values at the end of subsequent accounting periods.

Management anticipates that these IFRSs and amendments will be adopted in the consolidated financial statements in the initial period when they become mandatorily effective. The Bank is yet to assess IFRS 9's full impact because the hedging and impairment aspects of IFRS 9 are still outstanding, and intends to adopt IFRS 9 in the initial period when it becomes mandatorily effective.

**Notes to the condensed consolidated interim financial information  
for the nine month period ended September 30, 2013 (continued)****2 Summary of significant accounting policies (continued)****2.3 Basis of consolidation**

This condensed consolidated interim financial information incorporates the financial statements of Abu Dhabi Commercial Bank P.J.S.C. and its subsidiaries (collectively referred to as “ADCB” or the “Bank”).

**Subsidiaries**

Subsidiaries are entities controlled by the Bank. The Bank controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The financial statements of subsidiaries are included in the condensed consolidated interim financial information from the date that control commences until the date that control ceases.

**Special Purpose Entities**

Special Purpose Entities (SPEs) are entities that are created to accomplish a narrow and well-defined objective such as the securitisation of particular assets, or the execution of a specific borrowing or lending transaction. An SPE is consolidated if, based on an evaluation of the substance of its relationship with the Bank, the Bank’s power over the SPE, exposures or rights to variable returns from its involvement with the SPE and its ability to use its power over the SPE at inception and subsequently to affect the amount of its return, the Bank concludes that it controls the SPE.

The assessment of whether the Bank has control over an SPE is carried out at inception and normally no further reassessment of control is carried out in the absence of changes in the structure or terms of the SPE, or additional transactions between the Bank and the SPE except whenever there is a change in the substance of the relationship between the Bank and an SPE.

**Funds under management**

The Bank manages and administers assets held in unit trusts on behalf of investors. The financial statements of these entities are not included in the condensed consolidated interim financial information except when the Bank controls the entity, as referred to above, or is the principal investor.

**Loss of control**

Upon the loss of control, the Bank derecognises the assets and liabilities of the subsidiary, any non-controlling interests and the other components of equity related to the subsidiary. Any surplus or deficit arising on the loss of control is recognised in profit or loss. If the Bank retains any interest in the previous subsidiary, then such interest is measured at fair value at the date that control is lost. Subsequently, it is accounted for as an equity-accounted investee or in accordance with the Bank’s accounting policy for financial instruments depending on the level of influence retained.

**Transactions eliminated on consolidation**

Intra-group balances, and income and expenses (except for foreign currency transaction gains or losses) arising from intra-group transactions, are eliminated in preparing the condensed consolidated interim financial information. Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment.

**Notes to the condensed consolidated interim financial information  
for the nine month period ended September 30, 2013 (continued)****2 Summary of significant accounting policies (continued)****2.3 Basis of consolidation (continued)****Joint arrangements**

Joint arrangements are arrangements of which the Bank has joint control, established by contracts requiring unanimous consent for decisions about the activities that significantly affect the arrangements' returns. They are classified and accounted for as follows:

Joint operation – when the Bank has rights to the assets, and obligations for the liabilities, relating to an arrangement, it accounts for each of its assets, liabilities and transactions, including its share of those held or incurred jointly, in relation to the joint operation.

Joint venture – when the Bank has rights only to the net assets of the arrangements, it accounts for its interest using the equity method, as for associates.

**2.4 Investment securities**

Investment securities are initially measured at fair value plus, in the case of investment securities not at fair value through profit or loss, incremental direct transaction costs, and subsequently accounted for depending on their classification as either held to maturity, fair value through profit or loss or available for sale.

Investment securities are classified into the following categories depending on the nature and purpose of the investment:

- i) Investments at fair value through profit or loss;
- ii) Available for sale and
- iii) Held-to-maturity investments.

**Financial assets and liabilities designated at fair value through profit or loss (FVTPL)**

Financial assets and liabilities are classified as at FVTPL when either held for trading or when designated as at FVTPL.

A financial asset or liability is classified as held for trading if:

- It has been acquired principally for the purpose of selling it in the near term; or
- On initial recognition it is part of a portfolio of identified financial instruments that the Bank manages together and has a recent actual pattern of short-term profit-taking; or
- It is a derivative that is not designated and effective as a hedging instrument.

A financial asset or liability other than held for trading may be designated as at FVTPL upon initial recognition if:

- Such designation eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise arise for measuring assets or liabilities on a different basis; or
- It forms part of a group of financial assets or financial liabilities or both, which is managed and its performance is evaluated on a fair value basis, in accordance with the Bank's documented risk management or investment strategy, and information about the grouping is provided internally on that basis; or
- It forms part of a contract containing one or more embedded derivatives, and IAS 39 Financial Instruments: Recognition and Measurement permits the entire combined contract (asset or liability) to be designated as at FVTPL.

Financial assets and liabilities at FVTPL are stated at fair value, with any gains or losses arising on re-measurement recognised in condensed consolidated interim income statement.

**Notes to the condensed consolidated interim financial information  
for the nine month period ended September 30, 2013 (continued)****2 Summary of significant accounting policies (continued)****2.4 Investment securities (continued)****Held-to-maturity**

Investments which have fixed or determinable payments with fixed maturities which the Bank has the positive intention and ability to hold to maturity, are classified as held to maturity investments.

Held-to-maturity investments are initially recognised at fair value plus any directly attributable transaction costs and are subsequently measured at amortised cost using the effective interest rate method, less any impairment losses, with revenue recognised on an effective yield basis.

Amortised cost is calculated by taking into account any discount or premium on acquisition using an effective interest rate method.

If there is objective evidence that an impairment on held to maturity investments carried at amortised cost has been incurred, the amount of impairment loss recognised in the condensed consolidated interim income statement is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the investments' original effective interest rate.

Investments classified as held to maturity and not close to their maturity, cannot ordinarily be sold or reclassified without impacting the Bank's ability to use this classification and cannot be designated as a hedged item with respect to interest rate or prepayment risk, reflecting the longer-term nature of these investments.

**Available for sale**

Investments not classified as either "fair value through profit or loss" or "held to maturity" are classified as "available for sale". Available for sale assets are intended to be held for an indefinite period of time and may be sold in response to liquidity requirements or changes in interest rates, commodity prices or equity prices.

Available for sale investments are initially recognised at fair value plus any directly attributable transaction costs and are subsequently measured at fair value. The fair values of quoted financial assets in active markets are based on current prices. If the market for a financial asset is not active, and for unquoted securities, the Bank establishes fair value by using valuation techniques (e.g. recent arms length transactions, discounted cash flow analysis and other valuation techniques). Only in very rare cases where fair value cannot be measured reliably, investments are carried at cost and tested for impairment, if any.

Gains and losses arising from changes in fair value are recognised in the condensed consolidated interim statement of comprehensive income and recorded in cumulative changes in fair value with the exception of impairment losses, interest calculated using the effective interest method and foreign exchange gains and losses on monetary assets, which are recognised directly in the condensed consolidated interim income statement. Where the investment is disposed of or is determined to be impaired, the cumulative gain or loss previously recognised in equity in the cumulative changes in fair value is included in the condensed consolidated interim income statement for the period.

If an available for sale investment is impaired, the difference between the acquisition cost (net of any principal repayments and amortisation) and the current fair value, less any previous impairment loss recognised in the condensed consolidated interim income statement is removed from equity and recognised in the condensed consolidated interim income statement. Once an impairment loss has been recognised on an available-for-sale financial asset, the subsequent accounting treatment for changes in the fair value of that asset differs depending on the nature of the available-for-sale financial asset concerned.

**Notes to the condensed consolidated interim financial information  
for the nine month period ended September 30, 2013 (continued)****2 Summary of significant accounting policies (continued)****2.4 Investment securities (continued)****Available for sale (continued)**

For an available-for-sale debt security, a subsequent decline in the fair value of the instrument is recognised in the condensed consolidated interim income statement when there is further objective evidence of impairment as a result of further decreases in the estimated future cash flows of the financial asset.

For an available-for-sale equity security, a subsequent decline in the fair value of the instrument is recognised in the condensed consolidated interim income statement, to the extent that further cumulative impairment losses have been incurred in relation to the acquisition cost of the equity security.

Where there is no further objective evidence of impairment, the decline in the fair value of the financial asset is recognised in the condensed consolidated interim statement of comprehensive income.

- If the fair value of a debt security increases in a subsequent period, and the increase can be objectively related to an event occurring after the impairment loss was recognised in the condensed consolidated interim income statement, the impairment loss is reversed through the condensed consolidated interim income statement to the extent of the increase in fair value;
- For an available-for-sale equity security, all subsequent increases in the fair value of the instrument are treated as a revaluation and are recognised in condensed consolidated interim statement of comprehensive income, accumulating in equity.

**2.5 Investment properties**

Investment property is property held either to earn rental income or for capital appreciation or both, but not for sale in the ordinary course of business, use in the production or supply of goods or services or for administrative purposes. Investment property is reflected at valuation based on fair value at the statement of financial position date. The fair values are the estimated amounts for which a property could be exchanged on the date of valuation between a willing buyer and a willing seller in an arm's length transaction. The fair value is determined on periodic basis by independent professional valuers. Fair value adjustments on investment property are included in the condensed consolidated interim income statement in the period in which these gains or losses arise.

Investment properties under development that are being constructed or developed for future use as investment property are measured initially at cost including all direct costs attributable to the design and construction of the property including related staff costs. Subsequent to initial recognition, investment properties under development are measured at fair value. Gains and losses arising from changes in the fair value of investment properties under development are included in the condensed consolidated interim income statement in the period in which they arise. Upon completion of construction or development, such properties are transferred to investment properties.

**Notes to the condensed consolidated interim financial information  
for the nine month period ended September 30, 2013 (continued)**

**3 Cash and balances with Central Banks**

	<b>As at September 30 2013 (unaudited) AED'000</b>	<b>As at December 31 2012 (audited) AED'000</b>

The Bank hedges interest rate risk on certain fixed rate investments through interest rate swaps and designates these as fair value hedges. The net negative fair value of these interest rate swaps at September 30, 2013 was AED 249,952 thousand (December 31, 2012 – net negative fair value AED 384,649 thousand). The hedge ineffectiveness gains and losses relating to these hedges were included in the condensed consolidated interim income statement.

**Notes to the condensed consolidated interim financial information  
for the nine month period ended September 30, 2013 (continued)**

**7 Investment securities (continued)**

The Bank entered into repurchase agreements and total return swap agreements whereby bonds were pledged and held by counterparties as collateral. The risks and rewards relating to the investments pledged remain with the Bank. The following table reflects the carrying value of these bonds and the associated financial liabilities:

	<b>As at September 30, 2013 (unaudited)</b>		<b>As at December 31, 2012 (audited)</b>	
	<b>Fair value of pledged assets AED'000</b>	<b>Carrying value of associated liabilities AED'000</b>	<b>Fair value of pledged assets AED'000</b>	<b>Carrying value of associated liabilities AED'000</b>
Repurchase financing	<b>753,753</b>	<b>620,737</b>	1,220,647	1,063,133

Further, the Bank pledged investment securities with fair value amounting to AED 1,587,729 thousand (December 31, 2012 – AED 1,651,988 thousand) as collateral against margin calls. The risks and rewards relating to the investments pledged remain with the Bank.

The fair value of the Bank's investment properties is estimated by reference to current market prices for similar properties, adjusted as necessary for condition and location, or by reference to recent transactions updated to reflect current economic conditions. Valuations are carried out by registered independent appraisers having an appropriate recognised professional qualification and recent experience in the location and category of the property being valued. Discounted cash flow techniques may be used to calculate fair value in certain situations where there have been no recent transactions using current external market inputs such as market rents and interest rates. The date of the last valuation was December 31, 2012 and the next valuation will be done during the last quarter of 2013.

The valuation methodologies considered by external valuers include

- Direct Comparable method: This method seeks to determine the value of the property from transactions of comparable properties.
- Residual method: This method is used to assess the value of the property with a development potential where there is inadequate comparable evidence. This method is commonly used in the valuation of the site under development in the local market.

All investment properties of the Bank are located within the U.A.E.

**Notes to the condensed consolidated interim financial information  
for the nine month period ended September 30, 2013 (continued)**

<b>10 Other assets</b>	<b>As at September 30 2013 (unaudited) AED'000</b>	<b>As at December 31 2012 (audited) AED'000</b>
Interest receivable	1,164,424	845,442
Withholding tax	79,891	45,880
Prepayments	63,293	59,766
Clearing receivables	1,651	1,148
Acceptances	1,929,588	4,738,044
Others	399,225	235,682
	<b>3,638,072</b>	<b>5,925,962</b>

Acceptances arise when the Bank is under an obligation to make payments against documents drawn under letters of credit. Acceptances specify the amount of money, the date, and the person to which the payment is due. After acceptance, the instrument becomes an unconditional liability (time draft) of the bank and is therefore recognised as a financial liability (Note 15) in the consolidated statement of financial position with a corresponding contractual right of reimbursement from the customer recognised as a financial asset. The Bank generally receives cash collateral against these acceptances.

**11 Due to banks**

	<b>As at September 30 2013 (unaudited) AED'000</b>	<b>As at December 31 2012 (audited) AED'000</b>

Wakala deposits	<b>1,458,985</b>	2,982,114
	<b>7,936,048</b>	8,265,306

The Bank hedges its foreign currency risk on certain foreign currency time deposits using foreign exchange swap contracts and designates these as cash flow hedges. The net positive fair value of these contracts at September 30, 2013 was AED 84,649 thousand (December 31, 2012 – net positive fair value of AED 13,257 thousand).

**13 Euro commercial paper**

The Bank established a USD 4 billion Euro commercial paper programme (the ECP Programme) for the issuance of Euro commercial paper under the agreement dated September 5, 2007 with Banc of America Securities Limited.

The Bank hedges ECP for foreign currency exchange risk through foreign exchange swap contracts and designates these instruments as cash flow hedges. The net positive fair value of these hedge contracts at September 30, 2013 was AED 116,677 thousand (December 31, 2012: net positive fair value of AED 98,024 thousand).

**Notes to the condensed consolidated interim financial information  
for the nine month period ended September 30, 2013 (continued)**
**14 Borrowings (continued)**

Interest on Global Medium Term Notes is payable quarterly, semi annually and annually in arrears and the contractual coupon rates as at September 30, 2013 (unaudited) are as follows:

<u>Currency</u>	<u>Within 1 year</u>	<u>1-3 years</u>	<u>3-5 years</u>	<u>Over 5 years</u>
CNH	-	-	Fixed rate of 3.7% p.a. & 4.125% p. a	-
MYR	-	Fixed rate of 5.2%p.a	Fixed rate 4.3% & 5.35% p.a.	-
CHF	-	Fixed rate of 3.01% p.a.	Quarterly coupons with 110 basis point over CHF LIBOR	-
TRY	-	Fixed rate of 12.75% p.a.	-	-
AED	Fixed rate of 6% p.a.	-	Fixed rate of 6% p.a.	-
US\$	Fixed rate of 0.905% p.a.	Fixed rate of 4.75% p.a.	Fixed rate of 2.5% p.a.	Fixed rate from 4.7% to 5.1% p.a.

**Sukuk financing notes**

The Sukuk carries an expected profit rate of 4.07% per annum payable semi annually.

**Bilateral loans**

US\$: Quarterly coupons with 58 to 78 basis points plus LIBOR.

**Subordinated notes**
**Subordinated floating rate notes:**

Interest on the subordinated floating rate notes is payable quarterly in arrears at a coupon rate of 110 basis points over 3 months LIBOR. The subordinated floating rate notes were obtained from financial institutions outside the U.A.E. and qualified as Tier 2 subordinated loan capital for the first 5 year period till 2011 and thereafter are amortised at the rate of 20% per annum until 2016 for capital adequacy calculation (Note 29). This has been approved by the Central Bank of the U.A.E.

**Subordinated fixed rate notes:**

Interest on the subordinated fixed rate notes is payable half yearly in arrears and the contractual coupon rates as at September 30, 2013 (unaudited) are as follows:

<u>Currency</u>	<u>Over 5 years</u>
USD	Fixed rate 3.125% to 4.5%
CHF	Fixed rate 1.875% with 1 basis point over coupon

The subordinated fixed rate notes were obtained from financial institutions outside the U.A.E. and qualified as Tier 2 subordinated loan capital for the first 5 year period till 2018 and thereafter are amortised at the rate of 20% per annum until 2023 for capital adequacy calculation (Note 29). This has been approved by the Central Bank of the U.A.E. Subordinated notes of AED 1,476,572 thousand mature in 2023 but are callable after 5 years from the issuance date at the option of the Bank.

**Notes to the condensed consolidated interim financial information  
for the nine month period ended September 30, 2013 (continued)**

**14 Borrowings (continued)**

**Tier 2 loan**

In March 2009, the Bank converted AED 6,617,456 thousand government deposits into Tier 2 qualifying loans. The Tier 2 qualifying loans were to mature seven years from the date of the issue and interest was payable on a quarterly basis at a fixed rate of 4 percent per annum commencing March 31, 2009 for the first two years, 4.5 percent per annum for the third year, 5 percent per annum for the fourth year and 5.25 percent per annum for the remaining period. The terms also provided that the Bank had a call option to repay the loans partially or fully at the end of five years from the date of issue. For regulatory purposes, the loans qualified as Tier 2 capital and were being amortised, starting 2012, at the rate of 20% per annum until maturity for capital adequacy calculation (Note 29).

The Bank repaid the entire amount of the Tier 2 loan in the first half of 2013.

**Borrowings through repurchase agreements**

US\$: Quarterly coupons in arrears with 300 basis points plus LIBOR.  
Half yearly coupons in arrears with 86 to 300 basis points plus LIBOR.

The Bank has undrawn borrowing floating rate facilities of AED 1,469,200 thousand (December 31, 2012 – AED Nil).

**15 Other liabilities**

**Notes to the condensed consolidated interim financial information  
for the nine month period ended September 30, 2013 (continued)**
**18 Capital notes**

In February 2009, the Department of Finance, Government of Abu Dhabi subscribed to ADCB's Tier I regulatory capital notes with a principal amount of AED 4 billion (the "Notes").

The Notes are non-voting, non-cumulative perpetual securities for which there is no fixed redemption date. Redemption is only at the option of the Bank. The Notes are direct, unsecured, subordinated obligations of the Bank and rank pari passu without any preference among themselves and the rights and claims of the Note holders will be subordinated to the claims of Senior Creditors. The Notes bear interest at the rate of 6% per annum payable semi-annually until February 2014, and a floating interest rate of 6 month EIBOR plus 2.3% per annum thereafter. However the Bank may at its sole discretion elect not to make a coupon payment. The Note holders do not have a right to claim the coupon and an election by the Bank not to service the coupon is not considered an event of default. In addition, there are certain circumstances under which the Bank is prohibited from making a coupon payment on a relevant coupon payment date ("Non-Payment Event").

If the Bank makes a non-payment election or a non-payment event occurs, then the Bank will not (a) declare or pay any distribution or dividend or (b) redeem, purchase, cancel, reduce or otherwise acquire any of the share capital or any securities of the Bank ranking pari passu with or junior to the Notes except securities, the term of which stipulate a mandatory redemption or conversion into equity, in each case unless or until two consecutive coupon payments have been paid in full.

**26 Earnings per share (unaudited)**
**Basic and diluted earnings per share**

The calculation of basic earnings per share is based on the net profit attributable to equity holders of the Bank and the weighted average number of equity shares outstanding. Diluted earnings per share is calculated by adjusting the weighted average number of equity shares outstanding for the dilutive effects of potential equity shares held on account of employees' incentive plan and treasury shares arising on consolidation of fund subsidiaries.

**28 Operating Segments**

The Bank has four reportable segments, as described below, which are the Bank's strategic divisions. The strategic divisions offer different products and services, and are managed separately based on the Bank's management and internal reporting structure. For each of the strategic divisions, the Bank's Management Executive Committee reviews internal management reports on at least a quarterly basis.

The following summary describes the operations in each of the Bank's reportable segments;

Consumer banking -	comprises of retail, wealth management and Islamic financing. It includes loans, deposits and other transactions and balances with retail customers and corporate and private accounts of high net worth individuals and funds management activities.
Wholesale banking -	comprises of business banking, cash management, trade finance, corporate finance, investment banking, Indian operations, Islamic financing, infrastructure and strategic client operations. It includes loans, deposits and other transactions and balances with corporate customers.
Investments and treasury -	comprises of central treasury operations, management of the Bank's investment portfolio and interest rate, currency and commodity derivative portfolio and Islamic financing. Investments and treasury undertakes the Bank's funding and centralized risk management activities through borrowings, issues of debt securities, use of derivatives for risk management and investing in liquid assets such as short-term placements and corporate and government debt securities and trading and corporate finance activities.
Property management -	comprises of real estate management and engineering service operations of subsidiaries - Abu Dhabi Commercial Properties L.L.C. and Abu Dhabi Commercial Engineering Services L.L.C., and rental income of ADCB.

**Notes to the condensed consolidated interim financial information  
for the nine month period ended September 30, 2013 (continued)**
**28 Operating segments (continued)**

Information regarding the results of each reportable segment is included below. Performance is measured based on segment profit before income tax, as included in the internal management reports that are reviewed by the Management Executive Committee. Segment profit is used to measure performance as management believes that such information is the most relevant in evaluating the results of certain segments relative to other entities that operate within these industries. Inter-segment pricing is determined on an arm's length basis.

The following is an analysis of the Bank's revenue and results by operating segment for the nine month period ended September 30, 2013 (unaudited):

**Notes to the condensed consolidated interim financial information  
for the nine month period ended September 30, 2013 (continued)**

**29 Capital adequacy and capital management**

The ratio calculated in accordance with Basel II is as follows:

	<b>Basel II</b>	
	<b>As at September 30 2013 (unaudited) AED'000</b>	<b>As at December 31 2012 (audited) AED'000</b>
<b>Tier 1 capital</b>		
Share capital (Note 16)	5,595,597	5,595,597
Share premium	3,848,286	3,848,286
Other reserves, net of treasury shares (Note 17)	4,234,803	5,871,743
Retained earnings	5,476,934	4,537,315
Non-controlling interests in equity of subsidiaries	568,436	437,800
Capital notes (Note 18)	4,000,000	4,000,000
Less: Intangible assets	(68,481)	(92,126)
Less: Securitisation exposures	-	(27,547)
	<b>23,655,575</b>	<b>24,171,068</b>
<b>Tier 2 capital</b>		
Collective impairment allowance on loans and advances, net	1,643,346	1,601,418
Cumulative changes in fair value (Note 17)	146,906	187,582
Tier 2 loan (Note 14)	-	5,293,965
Subordinated notes (Note 14)	4,898,686	670,286
Less: Securitisation exposures	-	(27,547)
	<b>6,688,938</b>	<b>7,725,704</b>
<b>Total regulatory capital</b>	<b>30,344,513</b>	<b>31,896,772</b>
<b>Risk-weighted assets:</b>		
Credit risk	131,467,664	128,113,458
Market risk	4,838,938	3,749,544
Operational risk	7,216,753	6,526,611
<b>Total risk-weighted assets</b>	<b>143,523,355</b>	<b>138,389,613</b>
<b>Total Capital adequacy ratio</b>	<b>21.14%</b>	<b>23.05%</b>
<b>Tier 1 ratio</b>	<b>16.48%</b>	<b>17.47%</b>
<b>Tier 2 ratio</b>	<b>4.66%</b>	<b>5.58%</b>

The capital adequacy ratio was above the minimum requirement of 12% for September 30, 2013 (December 31, 2012 – 12%) stipulated by the Central Bank of the U.A.E.

**Notes to the condensed consolidated interim financial information  
for the nine month period ended September 30, 2013 (continued)****30 Fair value hierarchy**

The fair value measurements are categorised into different levels in the fair value hierarchy based on the inputs to valuation techniques used. The different levels are defined as follows:

**Quoted market prices – Level 1**

Financial instruments are classified as Level 1 if their values are observable in an active market. Such instruments are valued by reference to unadjusted quoted prices for identical assets or liabilities in active markets where the quoted price is readily available, and the price represents actual and regularly occurring market transactions.

**Valuation techniques using observable inputs – Level 2**

Financial instruments and investment properties classified as Level 2 have been valued using models whose inputs are observable in an active market. Valuation based on observable inputs include financial instruments such as swaps and forwards which are valued using market standard pricing techniques and options that are commonly traded in markets where all the inputs to the market standard pricing models are observable.

The category includes derivative financial instrument such certain OTC derivatives, commodity derivatives, foreign exchange spot and forward contracts and non derivative financial instruments such as investment properties.

These instruments are valued using the inputs observable in an active market. Valuation of the derivative financial instruments is made through discounted cash flow method using the applicable yield curve for the duration of the instruments for non optional derivatives and standard option pricing models for optional derivatives.

Level 2 investment properties include buildings completed and under development. Refer Note 9 in respect of the valuation technique used.

**Valuation techniques using significant unobservable inputs – Level 3**

Financial instruments are classified as Level 3 if their valuation incorporates significant inputs that are not based on observable market data (unobservable inputs). A valuation input is considered observable if it can be directly observed from transaction in active market.

Unobservable input levels are generally determined based on observable inputs of a similar nature, historical observations or other analytical techniques.

The category includes certain equity instruments and mutual funds.

**Notes to the condensed consolidated interim financial information  
for the nine month period ended September 30, 2013 (continued)**

**30 Fair value hierarchy (continued)**

This hierarchy requires the use of observable market data when available. The Bank considers relevant and observable market prices in its valuations where possible. The table below analyses recurring fair value measurements for assets and liabilities.

September 30, 2013 (unaudited)		Quoted market prices (Level 1) AED'000	Observable inputs (Level 2) AED'000	Significant Unobservable inputs (Level 3) AED'000	Total AED'000

<b>Total liabilities at fair value</b>		<b>-</b>	<b>4,768,338</b>	<b>-</b>	<b>4,768,338</b>

There is no significant transfer between Level 1 and Level 2 during the period.

**Notes to the condensed consolidated interim financial information  
for the nine month period ended September 30, 2013 (continued)**

**30 Fair value hierarchy (continued)**

**Level 3 movement analysis**

Reconciliation showing the movement in fair values of Level 3 balances during the period is as follows:

	<b>As at September 30 2013 (unaudited) AED'000</b>	<b>As at December 31 2012 (audited) AED'000</b>
Opening balance	278,436	263,022
Acquisitions	7,009	17,245
Matured/sales during the period/year	(4,178)	(4,593)
Adjustment through comprehensive income	9,898	10,648
Transfer from Level 1 securities	-	2,057
Impairment loss	-	(9,943)
Closing balance	<u>291,165</u>	<u>278,436</u>

Net loss of AED 295 thousand on disposal were included in net (losses)/gains on sale of investment securities under other operating income in the consolidated interim income statement.

The Bank's policy is to recognise transfers into and transfers out of fair value hierarchy levels as of the date of the event or change in circumstances that caused the transfer.

There is no change in valuation techniques during the period.

**31 Legal proceedings**

The Bank is involved in various legal proceedings and claims arising in the ordinary course of business. While the outcome of these matters cannot be predicted with certainty, management does not believe that these matters will have a material adverse effect on the Bank's condensed consolidated interim financial information if disposed unfavorably.
