

"Bringing Exchange Traded Commodities to the World's Stock Exchanges"

ETFS Hedged Commodity Securities Limited

*(Incorporated and registered in Jersey under the Companies
(Jersey) Law 1991 (as amended) with registered number 109413)*

Prospectus for the issue of

Currency-Hedged Commodity Securities

comprising:

Australian Dollar Classic Currency-Hedged Commodity Securities
Euro Classic Currency-Hedged Commodity Securities
Sterling Classic Currency-Hedged Commodity Securities
Australian Dollar Longer Dated Currency-Hedged Commodity Securities
Euro Longer Dated Currency-Hedged Commodity Securities
and
Sterling Longer Dated Currency-Hedged Commodity Securities

Currency-Hedged Commodity Securities are complex, structured products involving a significant degree of risk and may not be suitable or appropriate for all types of investor. It is advisable that any person wishing to invest seeks appropriate financial, tax and other advice from an independent financial advisor with appropriate regulatory authorisation and qualifications and an investment in Currency-Hedged Commodity Securities is only suitable for persons who understand the economic risk of an investment in Currency-Hedged Commodity Securities and are able to bear the risk for an indefinite period of time. A prospective investor should be aware that their entire investment in Currency-Hedged Commodity Securities may be lost.

The Issuer is currently making available for issue 105 separate classes of Classic Commodity Security (comprising 35 separate classes of Australian Dollar Classic Security, 35 separate classes of Euro Classic Security and 35 separate classes of Sterling Classic Security) and 105 separate classes of Longer Dated Commodity Security (comprising 35 separate classes of Australian Dollar Longer Dated Security, 35 separate classes of Euro Longer Dated Security and 35 separate classes of Sterling Longer Dated Security). Currency-Hedged Commodity Securities will track the daily change in the levels of Currency-Hedged Commodity Indices reflecting the US Dollar price of an individual commodity (in the case of the Individual Securities) or a basket of commodities (in the case of the Index Securities) hedged daily against exchange rate movements between the US Dollar and the Australian Dollar, Euro or Pound Sterling, in each case before fees and adjustments and in the absence of Market Disruption Events. All Currency-Hedged Commodity Securities provide a "total return", comprising a commodity "excess return" (spot price movement plus the roll yield from backwardation and/or contango in the relevant futures market when rolling) plus a daily adjustment to reflect a hedge against exchange rate movements and a collateral return in the form of a capital enhancement (which may be negative) in the relevant Currency. The collateral return for Currency-Hedged Commodity Securities will accrue daily as a capital adjustment in the relevant Currency which is capitalised into the Price of each relevant Currency-Hedged Commodity Security.

Currency-Hedged Commodity Securities are priced off Currency-Hedged Commodity Indices calculated by CME Group Index Services LLC ("**CME Indexes**") in conjunction with UBS Securities LLC ("**UBS Securities**") and published by CME Indexes.

The Currency-Hedged Commodity Indices are each calculated by reference to an Unhedged Commodity Index, calculated by reference to specific commodity futures contracts, with a hedge into the Currency of the relevant Currency-Hedged Commodity Index which is rebalanced on a daily basis. Currency-Hedged Commodity Indices are denominated in a number of currencies including Australian Dollars, Euro and Pound Sterling.

Each Currency-Hedged Commodity Security is backed by equivalent Commodity Contracts created under a Facility Agreement between a Commodity Contract Counterparty and the Issuer, currently being a Facility Agreement with UBS AG, London Branch ("**UBS**") and a Facility Agreement with Merrill

Lynch International (“**MLI**”). All Commodity Contracts are paid for in full by the Issuer and there is no management of any cash or futures positions required of the Issuer. The Issuer is a special purpose entity owned by ETFS Holdings (Jersey) Limited, a wholly owned subsidiary of ETF Securities Limited.

In order to provide liquidity and ensure minimal tracking error, Currency-Hedged Commodity Securities can be applied for or redeemed at any time by Authorised Participants (subject to Minimum Creation Amounts and Creation Limits and Redemption Limits). However all other investors must buy and sell Currency-Hedged Commodity Securities through trading on the London Stock Exchange (or other exchanges if Currency-Hedged Commodity Securities are listed or traded thereon).

Programme for the issue of

Currency-Hedged Commodity Securities

Terms used in this Prospectus have the meanings given to them under the heading “Definitions and Interpretation — Definitions”.

ETFS Hedged Commodity Securities Limited (the “**Issuer**”) has established a programme under which Currency-Hedged Commodity Securities may be issued from time to time. The classes of Currency-Hedged Commodity Securities which are initially being made available under the Programme are set out under the heading “Classes of Currency-Hedged Commodity Securities” on pages 36 and 37. The Issuer reserves the right to increase the number of Currency-Hedged Commodity Securities that may be issued, to issue Currency-Hedged Commodity Securities with different currencies of denomination or relating to different currency-hedged commodity indices and to issue Currency-Hedged Commodity Securities as Australian Dollar Classic Securities, Euro Classic Securities, Sterling Classic Securities, Australian Dollar Longer Dated Securities, Euro Longer Dated Securities or Sterling Longer Dated Securities, in any proportions. The Issuer has arrangements in place to enable it to issue new Currency-Hedged Commodity Securities provided that the Aggregate Outstanding Contracts Price is not greater than US\$2,500,000,000 (US\$2.5 billion) (this amount may be increased by agreement between the Issuer and one or more Commodity Contract Counterparties). Whenever any Currency-Hedged Commodity Securities are issued, notice of the number and class of such Currency-Hedged Commodity Securities will be specified in Final Terms which will be delivered to the UK Listing Authority before such Currency-Hedged Commodity Securities are issued.

None of the Currency-Hedged Commodity Securities confer any rights to any physical commodities.

The Currency-Hedged Commodity Securities are constituted by a Trust Instrument entered into between the Issuer and The Law Debenture Trust Corporation p.l.c. as trustee for the Security Holders of each class.

The only assets available to the Issuer to enable it to meet its liabilities to Security Holders upon redemption of the Currency-Hedged Commodity Securities of each class are the UBS Facility Agreement and Commodity Contracts with UBS and the UBS Security Agreement and the MLI Facility Agreement and Commodity Contracts with MLI, the MLI Security Agreement and the BAC Guarantee (together, if there are any other Commodity Contract Counterparties, with any Facility Agreements and Commodity Contracts with such other Commodity Contract Counterparties and any related credit support) in each case insofar as they relate to the Currency-Hedged Commodity Securities of that class.

Although Currency-Hedged Commodity Securities are backed by the assets referred to above, Currency-Hedged Commodity Securities themselves are limited recourse obligations of the Issuer alone and are not obligations of Dow Jones, CME Indexes, UBS Securities, UBS, any other member of the UBS Group, MLI, BAC or any other member of the BAC Group. The obligations of the Issuer to Security Holders are not guaranteed by Dow Jones, CME Indexes, UBS Securities, UBS, any other member of the UBS Group, MLI, BAC or any other member of the BAC Group.

The assets of the Issuer relating to each separate class of Currency-Hedged Commodity Securities are pooled, so that all assets relating to a particular class of Currency-Hedged Commodity Securities are available to secure all liabilities relating to that class. If the net proceeds from the enforcement of the relevant Secured Property for a Pool pursuant to the Security Deed as it relates to that class are not sufficient to make all payments then due in respect of that Pool, the obligations of the Issuer will be limited to such net proceeds, and the other assets of the Issuer will not be available to meet any shortfall. The Issuer will not be obliged to make any payment in excess of such net proceeds and no debt shall be owed by the Issuer in respect of such shortfall.

Under the Security Deed between the Trustee and the Issuer, the Issuer has with respect to each Pool granted to the Trustee, as trustee for the holders of the relevant class of Currency-Hedged Commodity Securities, security over all the assets attributable to the relevant Pool including rights under each Facility Agreement, all Commodity Contracts for the relevant class created pursuant to the Facility

Agreements and the rights of the Issuer under the Security Agreements and the Control Agreements, in each case insofar as it relates to the relevant Pool. For this purpose Collateral posted in a Collateral Account relating to one Currency will be used to satisfy the relevant Counterparty's obligations in respect of its Commodity Contracts denominated in that Currency and any surplus thereafter used to satisfy any balance of its obligations in respect of its other Commodity Contracts.

A copy of this document, which comprises a base prospectus relating to the Currency-Hedged Commodity Securities of each class and any further individual securities or index securities that may be created and made available for issue as referred to in paragraph 5 of Part 11 (*Additional Information*) in compliance with Article 3 of Directive 2003/71/EC and the Prospectus Rules made under sections 73A and 84 of the Financial Services and Markets Act 2000, has been filed with the FSA and made available to the public at the registered office of the Issuer in accordance with Article 14 of Directive 2003/71/EC. Currency-Hedged Commodity Securities will be available to be issued on a continuous basis during the period of 12 months from the date of this document.

Application has been made to the UK Listing Authority for all Currency-Hedged Commodity Securities issued within 12 months of the date of this document to be admitted to the Official List and to the London Stock Exchange, which operates a Regulated Market, for all such Currency-Hedged Commodity Securities to be admitted to trading on the Main Market of the London Stock Exchange, which is part of its Regulated Market for listed securities (being securities admitted to the Official List). The Regulated Market is regulated for the purposes of Directive 2004/39/EC (the Markets in Financial Instruments Directive).

The Issuer also intends to make application for certain of the Currency-Hedged Commodity Securities to be listed or traded on certain other markets — see “Passporting” in Part 5 (*The Programme*).

Applications for new Currency-Hedged Commodity Securities may only be made by Authorised Participants. Currency-Hedged Commodity Securities may only be redeemed by Authorised Participants, except where there are no Authorised Participants or as otherwise announced by the Issuer. All other investors must buy and sell Currency-Hedged Commodity Securities on the London Stock Exchange or any other exchange or market on which they are listed or traded. The procedures for applying for and redeeming Currency-Hedged Commodity Securities are set out in this document.

An investment in Currency-Hedged Commodity Securities involves a significant degree of risk. In addition to the other information contained in this document, the risk factors set out in the section headed “Risk Factors” herein should be carefully considered by prospective investors before deciding whether to invest in Currency-Hedged Commodity Securities. It should be remembered that the value of Currency-Hedged Commodity Securities can go down as well as up.

The Issuer accepts responsibility for the information contained in this document. To the best of the knowledge and belief of the Issuer, which has taken all reasonable care to ensure that such is the case, the information contained in this document is in accordance with the facts and does not omit anything likely to affect the import of such information.

Since the Currency-Hedged Commodity Securities are secured on assets which constitute obligations of five or fewer obligors, the Issuer is required under the Prospectus Rules to include in this Prospectus so far as it is aware or is able to ascertain from information published by UBS, BAC and MLI, such information relating to UBS, and BAC and MLI, respectively as is required by Annex VIII of the Prospectus Regulation (Regulation Number 809/2004/EC). The Issuer has included the information in Part 10 (*Particulars of the Commodity Contract Counterparties*) based upon information made available to it by UBS and MLI. The Issuer confirms that such information has been accurately reproduced and that as far as the Issuer is aware and is able to ascertain from information published by UBS, BAC or MLI (as the case may be), no facts have been omitted which would render the reproduced information inaccurate or misleading. The Issuer has not made any independent verification of information contained in this Prospectus relating to the business and financial standing of UBS or any other member of the UBS Group or relating to the business and financial standing of MLI, BAC or any other member of the BAC Group. Save to the extent information is provided to the Issuer by UBS or MLI (as the case may be), the Issuer may not be in a position to update such information and accordingly does not represent that the information contained in this Prospectus relating to UBS, and BAC and MLI, respectively is accurate as of any date subsequent to the date hereof. None of UBS, BAC and MLI

accepts any responsibility or liability to investors (a) for the information contained in this Prospectus or (b) for updating such information or makes any representation, warranty or undertaking, express or implied, with respect to such information.

No member of the UBS Group or the BAC Group or any other person has guaranteed the performance of the Issuer's obligations, and no Security Holder has any direct rights of enforcement against any such person. However, the Trustee on behalf of the Security Holders may enforce the rights of the Issuer under the Commodity Contracts, the Facility Agreements, the Security Agreements and the Control Agreements.

Currency-Hedged Commodity Securities have not been and will not be registered under the United States Securities Act of 1933 as amended (the "**Securities Act**"), or under the securities laws of any states of the United States. Currency-Hedged Commodity Securities may not be directly or indirectly offered, sold, taken up, delivered or transferred in or into the United States or to any US person (as defined in Regulation S under the Securities Act) (a "**US Person**"). The Issuer has not registered, and does not intend to register, as an investment company under the United States Investment Company Act of 1940, as amended (the "**Investment Company Act**"). Accordingly, Currency-Hedged Commodity Securities may not be offered, sold, pledged or otherwise transferred or delivered within the United States or to, or for the account or benefit of, any US Person. Currency-Hedged Commodity Securities offered and sold outside the United States may be offered to persons who are not US Persons in reliance upon Regulation S under the Securities Act. Each of the Authorised Participants has, pursuant to its Authorised Participant Agreement with the Issuer, undertaken not to offer or sell the Currency-Hedged Commodity Securities within the United States or to any US Person, nor will it engage in any "directed selling efforts" (as such term is defined by Regulation S under the Securities Act) with respect to the Currency-Hedged Commodity Securities.

Prohibited US Persons and Prohibited Benefit Plan Investors who notwithstanding the foregoing acquire Currency-Hedged Commodity Securities should note the provisions in the Conditions under the heading "Compulsory Redemption by the Issuer or Trustee" (Condition 8) in Part 6 (*Trust Instrument and Currency-Hedged Commodity Securities*).

This prospectus is prepared, and a copy of it has been sent to the Jersey Financial Services Commission, in accordance with the Collective Investment Funds (Certified Funds–Prospectuses) (Jersey) Order 2012.

The Jersey Financial Services Commission does not take any responsibility for the financial soundness of the Issuer or for the correctness of any statements made or expressed in this Prospectus.

Nothing in this document or anything communicated to holders or potential holders of Currency-Hedged Commodity Securities or other obligations by the Issuer is intended to constitute or should be construed as advice on the merits of the purchase of or subscription for Currency-Hedged Commodity Securities or the exercise of any rights attached thereto for the purposes of the Jersey Financial Services (Jersey) Law 1998, as amended.

If at any time the Issuer is required to prepare a supplementary prospectus pursuant to section 87G of the Financial Services and Markets Act 2000, the Issuer will either prepare and make available an appropriate amendment or supplement to this document which will constitute a supplementary prospectus as required by section 87G of the Financial Services and Markets Act 2000 or prepare and make available a further base prospectus in compliance with Article 3 of Directive 2003/71/EC and the Prospectus Rules made under sections 73A and 84 of the Financial Services and Markets Act 2000. Subject to the terms of the Currency-Hedged Commodity Securities, the Issuer may issue other securities which if offered to the public, or admitted to trading on any market, in any jurisdiction may be the subject of a separate prospectus or listing particulars or other offering document.

SUMMARY

ETFS Hedged Commodity Securities Limited

Prospectus Summary

Base Prospectus (the “Prospectus”) dated 14 February 2013 for the Issue of Currency-Hedged Commodity Securities

Summaries are made up of disclosure requirements known as ‘Elements’. These elements are numbered in Sections A – E (A.1 – E.7).

This summary contains all the Elements required to be included in a summary for this type of securities and Issuer. Because some Elements are not required to be addressed, there may be gaps in the numbering sequence of the Elements.

Even though an Element may be required to be inserted into the summary because of the type of securities and issuer, it is possible that no relevant information can be given regarding the Element. In this case a short description of the Element is included in the summary with the mention of ‘not applicable’.

Section A – Introduction and Warnings		
A.1	Standard warning disclosure	<ul style="list-style-type: none">• This summary should be read as an introduction to the base prospectus.• Any decision to invest in the Currency-Hedged Commodity Securities should be based on consideration of the Prospectus as a whole by the investor.• Where a claim relating to the information contained in the Prospectus is brought before a court, the plaintiff investor might, under the national legislation of the Member States, have to bear the costs of translating the Prospectus before the legal proceedings are initiated.• Civil liability attaches only to those persons who have tabled the summary including any translation thereof, but only if the summary is misleading, inaccurate or inconsistent when read together with the other parts of the Prospectus or it does not provide, when read together with the other parts of the Prospectus, key information in order to aid investors when considering whether to invest in the Currency-Hedged Commodity Securities.
A.2	Disclosure of consent for use of the Prospectus for subsequent resale or final placement of securities by financial intermediaries	The Issuer has consented to the use of the Prospectus, and has accepted responsibility for the content of the Prospectus, with respect to subsequent resale or final placement by way of public offer of the Currency-Hedged Commodity Securities in any of Austria, Denmark, Finland, France, Germany, Ireland, Italy, Portugal, the Netherlands, Norway, Spain, Sweden and the United Kingdom by any financial intermediary which is an investment firm within the meaning of MiFID and which is authorised in accordance with MiFID in any member state. Such consent applies to any such resale or final placement by way of public offer during the period of 12 months from the date of the Prospectus, unless such consent is withdrawn prior to that date by notice published on the Issuer’s website. Other than the right of the Issuer to withdraw the consent, no other conditions are attached to the consent described in this paragraph.

		In the event of an offer being made by a financial intermediary, this financial intermediary will provide information to investors on the terms and conditions of the offer at the time the offer is made. Any financial intermediary using the Prospectus for the purpose of any offering must state on its website that it uses the Prospectus in accordance with the consent given and the conditions attached thereto.
Section B – Issuer		
B.1	Legal and commercial name	ETFS Hedged Commodity Securities Limited (the “ Issuer ”).
B.2	Domicile/Legal form/Legislation/Country of incorporation	The Issuer is a public company incorporated and registered in Jersey under the Companies (Jersey) Law 1991 (as amended) with registered number 109413.
B.16	Direct/indirect control of the Issuer	The shares in the Issuer are held entirely by ETFS Holdings (Jersey) Limited (“ HoldCo ”), a holding company incorporated in Jersey. The shares in HoldCo are directly owned by ETF Securities Limited (“ ETFSL ”) which is also incorporated in Jersey. The Issuer is neither directly or indirectly owned or controlled by any other party to the programme.
B.20	Special purpose vehicle	The Issuer has been established as a special purpose vehicle for the purpose of issuing the Currency-Hedged Commodity Securities as asset-backed securities in the form of individual or index securities (the “ Currency-Hedged Commodity Securities ”).
B.21	Principal activities and overview of the parties	<p>The principal activity of the Issuer is issuing several classes of Currency-Hedged Commodity Securities which are backed by derivative contracts (the “Commodity Contracts”) which provide exposure to movements in indices (the “DJ-UBS Commodity Indices”) calculated and published by CME Group Index Services LLC (“CME Indices”) in conjunction with UBS Securities LLC (“UBS Securities”) which indices track movements in the price of individual commodity futures contracts or baskets of commodity futures contracts and for which the effects of foreign exchange risk are hedged. The Issuer has established a programme under which different classes of Currency-Hedged Commodity Securities may be issued from time to time. Currency-Hedged Commodity Securities are designed to give Australian Dollar, Euro and Pound Sterling investors exposure to the performance of various individual commodity futures contracts and baskets of commodity futures contracts priced in US Dollars and to hedge such exposure against exchange rate movements between the US Dollar and the Australian Dollar, Euro or Pound Sterling respectively.</p> <p>The DJ-UBS Commodity Indices form part of the basis of the pricing of the Currency-Hedged Commodity Securities (which are priced according to the Formula).</p> <p>Currency-Hedged Commodity Securities can be issued and redeemed on a daily basis by financial institutions (“Authorised Participants”) who (i) have entered into an agreement entitled “Authorised Participant Agreement” with the Issuer; (ii) have certified to the Issuer as to their status under the Financial Services and Markets Act 2000 (“FSMA”); and (iii) (except in the case of a Commodity Contract Counterparty which has entered</p>

		<p>into an Authorised Participant Agreement with the Issuer) has entered into a corresponding agreement entitled “Direct Agreement” with at least one Commodity Contract Counterparty and which has not been notified by that Commodity Contract Counterparty that it is not an unacceptable authorised participant in respect of that Commodity Contract Counterparty. Other holders of Currency-Hedged Commodity Securities may also redeem Currency-Hedged Commodity Securities if there are no Authorised Participants or if the Issuer otherwise announces. All other parties may buy and sell Currency-Hedged Commodity Securities through trading on an exchange or market on which the Currency-Hedged Commodity Securities are admitted to trading.</p> <p>The Issuer achieves a return based on the movements of the relevant DJ-UBS Commodity Indices by holding corresponding Commodity Contracts purchased from UBS AG, London Branch (“UBS”) and Merrill Lynch International (“MLI”) (together the current “Commodity Contract Counterparties”). The terms of the Commodity Contracts purchased or to be purchased by the Issuer are governed by (i) an agreement entitled “UBS Facility Agreement” between the Issuer and UBS dated 23 February 2012; and (ii) an agreement entitled “MLI Facility Agreement” between the Issuer and MLI dated 23 February 2012 (each a “Facility Agreement” and together the “Facility Agreements”). The payment obligations of MLI under its Facility Agreement are supported by a guarantee (the “BAC Guarantee”) from Bank of America Corporation (“BAC”) granted in favour of the Issuer.</p> <p>The obligations of the Commodity Contract Counterparties to the Issuer under Commodity Contracts are secured by collateral provided by the Commodity Contract Counterparties and held in accounts in the names of the Commodity Contract Counterparties at Bank of New York Mellon (“BNYM”). Pursuant to (i) agreements entitled “UBS Security Agreement” between UBS and the Issuer and “UBS Control Agreement” between BNYM, UBS and the Issuer each dated 23 February 2012; and (ii) agreements entitled “MLI Security Agreement” between the MLI and the Issuer and “MLI Control Agreement” between BNYM, MLI and the Issuer each dated 23 February 2012, UBS and MLI are required to transfer to a collateral account, securities and obligations to the value of the Issuer’s total exposure under the Commodity Contracts to UBS or MLI (as applicable). The collateral held is adjusted daily to reflect the value of the relevant Commodity Contracts.</p> <p>Currency-Hedged Commodity Securities are constituted under an agreement entitled the “Trust Instrument” between the Issuer and The Law Debenture Trust Corporation p.l.c. as trustee (the “Trustee”) of all rights and entitlements under the Trust Instrument for any person identified on the registers as holding the Currency-Hedged Commodity Securities (the “Security Holders”).</p> <p>The Issuer and the Trustee have entered into a document entitled “Security Deed” which covers each pool of Commodity Contracts attributable to any class of Currency-Hedged Commodity Securities (each a “Pool”) and the rights and entitlements held by the Trustee under the Security Deed are</p>
--	--	--

		<p>held by the Trustee on trust for the Security Holders of the relevant class of Currency-Hedged Commodity Security.</p> <p>The Issuer is a special purpose company whose only assets attributable to the Currency-Hedged Commodity Securities are the Commodity Contracts and related contractual rights and so the ability of the Issuer to meet its obligations in relation to Currency-Hedged Commodity Securities will be wholly dependent on its receipt of payments under the Commodity Contracts from UBS and MLI and its ability to realise the collateral under the UBS Security Agreement, UBS Control Agreement, MLI Security Agreement and MLI Control Agreement.</p> <p>ETFS Management Company (Jersey) Limited (“ManJer”), a company which is wholly-owned by ETFSL, supplies, or will arrange the supply of, all management and administration services to the Issuer and pays all the management and administration costs of the Issuer in return for a fee payable by the Issuer.</p>

B.24	Material adverse change	Not applicable; there has been no material adverse change in the prospects of the Issuer since the date of its last published audited financial statements as at 31 December 2012.																																				

B.25	Underlying assets	<p>The underlying for the Currency-Hedged Commodity Securities of each class, on which they are secured, is the Commodity Contracts of the same class, the Facility Agreements (to the extent attributable to that class) and the UBS Security Agreement, the UBS Control Agreement and/or the MLI Security Agreement and the MLI Control Agreement in favour of the Issuer in respect of such Commodity Contract Counterparties' obligations to the Issuer under the Facility Agreements in respect of that class. The Currency-Hedged Commodity Securities are backed by Commodity Contracts of equivalent value.</p> <p>The securitised assets backing the issue, being the Commodity Contracts, Facility Agreements, the BAC Guarantee, the UBS Security Agreement, the UBS Control Agreement, the MLI Security Agreement and the MLI Control Agreement, have characteristics that demonstrate capacity to produce funds to service any payments due and payable on the Currency-Hedged Commodity Securities. Currency-Hedged Commodity Securities of each class are backed by Commodity Contracts with corresponding terms and each time a Currency-Hedged Commodity Security is created or redeemed a matching amount of Commodity Contracts are purchased or cancelled by the Issuer. Commodity Contracts will be purchased from one or more Commodity Contract Counterparties.</p> <p>The Issuer will decline applications for Currency-Hedged Commodity Securities if it cannot for any reason create corresponding Commodity Contracts with a Commodity Contract Counterparty.</p> <p>At the date of this Prospectus, the Issuer has entered into arrangements with two Commodity Contract Counterparties – UBS and MLI.</p> <p>Under the Facility Agreements there are limits, both daily and in aggregate, on the number of Commodity Contracts that can be created or cancelled at any time. Creations and redemptions of Currency-Hedged Commodity Securities are subject to both daily limits and total aggregate limits, to match the limits on Commodity Contracts.</p> <p>UBS is a corporation domiciled in Basel, Switzerland, operating in the United Kingdom under branch registration number BR004507, acting through its London branch at 1 Finsbury Avenue, London, EC2M 2PP, England. The addresses of UBS AG's two registered offices and principal places of business are Bahnhofstrasse 45, CH-80001 Zurich, Switzerland and Aeschenvorstadt 1, CH-4051 Basel, Switzerland. The principal activity of UBS is the provision of financial services to private, institutional and corporate clients.</p> <p>MLI is a company incorporated and registered in England and Wales with number 2312079 whose registered office is at 2 King Edward Street, London EC1A 1HQ, United Kingdom. The principal activities of MLI are to provide a wide range of financial services globally for business originated in Europe, the Middle East and Africa, Asia Pacific and the Americas, to act as broker and dealer in financial instruments and to provide corporate finance services.</p>
------	-------------------	--

		<p>BAC is a bank holding company and a financial holding company incorporated in the State of Delaware, United States, in 1998. Through BAC's banking and various non-banking subsidiaries throughout the U.S. and in international markets, BAC provides a diversified range of banking and non-banking financial services and products. BAC's headquarters and principal executive offices are located at 100 North Tryon Street, Charlotte, NC 28255, United States. BAC acquired Merrill Lynch & Co. Inc. and its subsidiaries (including MLI) on 1 January 2009.</p>
B.26	Investment management	Not applicable; there is no active management of the assets of the Issuer.
B.27	Further securities backed by the same assets	<p>Further Currency-Hedged Commodity Securities of any class may be issued but each time a Currency-Hedged Commodity Security of any class is issued corresponding Commodity Contracts of the same class will be created and will form part of the corresponding "Secured Assets". Such newly issued Currency-Hedged Commodity Securities will be fungible with all existing Currency-Hedged Commodity Securities of the same class and will be backed by the assets of the same Secured Assets.</p>
B.28	Structure of the transaction	<p>Currency-Hedged Commodity Securities are constituted by the Trust Instrument. Under the terms of the Trust Instrument, the Trustee acts as Trustee for the Security Holders of each class of Currency-Hedged Commodity Security.</p> <p>The obligations of the Issuer in respect of each class of Currency-Hedged Commodity Security are secured by a charge over the equivalent class of Commodity Contracts under the Facility Agreements and related contracts.</p> <p>A diagrammatic representation of the principal aspects of the structure as currently in place appears below:</p>
B.29	Description of the flow of funds	<p>Authorised Participants will approach the Issuer with requests to issue or redeem Currency-Hedged Commodity Securities at the price calculated on the relevant day in accordance with the Formula. The Issuer will then create or cancel the equivalent number of Commodity Contracts with the Commodity Contract Counterparties, as applicable.</p> <p>Application moneys for all Currency-Hedged Commodity Securities must be paid by Authorised Participants directly to the</p>

		<p>relevant Commodity Contract Counterparty, via CREST. Legal title is transferred by means of the CREST system and evidenced by an entry on the register of Security Holders maintained by the Issuer's registrar – Computershare Investor Services (Jersey) Limited. If an Authorised Participant does not make payment for the full amount of Currency-Hedged Commodity Securities applied for on the due date for payment or the following business day, the Issuer may elect by notice to the Authorised Participant to cancel the application.</p> <p>A Security Holder who is also an Authorised Participant may, at any time, by lodging a redemption request (in such form as the Issuer will determine from time to time) with the Issuer, require the redemption of all or any of its Currency-Hedged Commodity Securities at the price on the day such redemption request is submitted. A Security Holder who is not also an Authorised Participant may only require the redemption of any of its Currency-Hedged Commodity Securities if, at the time, there are no Authorised Participants or the Issuer otherwise announces and the Security Holder submits a valid redemption request on such day. Payment on the redemption of a Currency-Hedged Commodity Security will be made by the Commodity Contract Counterparty directly to the relevant Authorised Participant redeeming the Currency-Hedged Commodity Security, via CREST.</p>
B.30	Originators of the securitised assets	<p>The Commodity Contracts are and will be with the Commodity Contract Counterparties.</p> <p>At the date of the Prospectus, the Issuer has entered into agreements with UBS and MLI to act as Commodity Contract Counterparties.</p> <p>The Prospectus will be updated should an additional Commodity Contract Counterparty be appointed.</p> <p>UBS is a corporation domiciled in Basel, Switzerland, operating in the United Kingdom under branch registration number BR004507, acting through its London branch at 1 Finsbury Avenue, London, EC2M 2PP, England. The addresses of UBS AG's two registered offices and principal places of business are Bahnhofstrasse 45, CH-80001 Zurich, Switzerland and Aeschenvorstadt 1, CH-4051 Basel, Switzerland. The principal activity of UBS is the provision of financial services to private, institutional and corporate clients.</p> <p>MLI is a company incorporated and registered in England and Wales with number 2312079 whose registered office is at 2 King Edward Street, London EC1A 1HQ, United Kingdom. The principal activities of MLI are to provide a wide range of financial services globally for business originated in Europe, the Middle East and Africa, Asia Pacific and the Americas, to act as broker and dealer in financial instruments and to provide corporate finance services.</p>
Section C – Securities		
C.1	Type and class of securities being offered	<p>The Issuer has created and made available for issue four families of Currency-Hedged Commodity Securities ("Classic Individual Currency-Hedged Commodity Securities", "Classic Index Currency-Hedged Commodity Securities", "Longer Dated Individual Currency-Hedged Commodity Securities" and "Longer</p>

		<p>Dated Index Currency-Hedged Commodity Securities”) each of which has been issued in multiple classes. Each class of Currency-Hedged Commodity Securities give investors exposure to the performance of various individual commodity futures contracts and baskets of commodity futures contracts by tracking the DJ-UBS Commodity Indices.</p> <p>The return on the Currency-Hedged Commodity Securities is linked in each case to the performance of the related DJ-UBS Commodity Indices as follows:</p> <ul style="list-style-type: none"> • Classic Individual Currency-Hedged Commodity Securities track DJ-UBS Commodity Indices which provide exposure to movements in the value of futures contracts in one type of commodity due for delivery within a range of one to three months and hedged against the effects of foreign exchange risk between the US Dollar and the relevant currency; • Classic Index Currency-Hedged Commodity Securities track DJ-UBS Commodity Indices which provide exposure to movements in the value of futures contracts in a number of different commodities due for delivery within a range of one to three months and hedged against the effects of foreign exchange risk between the US Dollar and the relevant currency; • Longer Dated Individual Currency-Hedged Commodity Securities track DJ-UBS Commodity Indices which provide exposure to movements in the value of futures contracts in one type of commodity due for delivery within a range of four to six months and hedged against the effects of foreign exchange risk between the US Dollar and the relevant currency; and • Longer Dated Index Currency-Hedged Commodity Securities track DJ-UBS Commodity Indices which provide exposure to movements in the value of futures contracts in a number of different commodities due for delivery within a range of four to six months and hedged against the effects of foreign exchange risk between the US Dollar and the relevant currency, <p>in each case plus an adjustment for the risk free interest rate which accrues to a fully collateralised position in the relevant underlying futures contracts.</p> <p>Currency-Hedged Commodity Securities are designed to give investors a “total return” similar to that which could be achieved from managing a long fully cash collateralised unleveraged position in futures contracts of specific maturities, less applicable fees. Unlike managing futures positions, Currency-Hedged Commodity Securities involve no rolling, margin calls, expiry or futures brokerage.</p>

Section D – Risks		
D.2	Key risks of Issuer	<p>The following are the key risks of the Issuer:</p> <p>The Issuer has been established as a special purpose vehicle for the purpose of issuing the Currency-Hedged Commodity Securities as asset-backed securities.</p>

		<p>Although Currency-Hedged Commodity Securities are secured by Commodity Contracts and collateral, the value of such Currency-Hedged Commodity Securities and the ability of the Issuer to pay any redemption amounts remains partly dependent on the receipt of amounts due from UBS and MLI under the Facility Agreements, the Security Agreements and the Control Agreements or, as the case may be, on the receipt of amounts due from BAC in respect of the obligations and liabilities of MLI pursuant to the BAC Guarantee. No holder has any direct rights of enforcement against any such person.</p> <p>There can be no assurance UBS, MLI or any other entity will be able to fulfil their payment obligations under the relevant Commodity Contracts, Facility Agreement, BAC Guarantee, Security Agreement or Control Agreement. Consequently, there can be no assurance that the Issuer will be able to redeem Currency-Hedged Commodity Securities at their redemption price.</p>
D.6	Key risks of securities	<p>The following are the key risks of securities:</p> <ul style="list-style-type: none"> • Investors in Currency-Hedged Commodity Securities may lose the value of their entire investment or part of it. • The Commodity Indices incorporate a daily adjustment to reflect movements in the exchange rate between the US Dollar and the relevant currency which is made by rebalancing the hedge position on a daily basis. Such adjustment does not reflect a pure currency hedge as investors will still be exposed to exchange rate movements that on intra-day change in the value of the corresponding unhedged commodity index. • There are certain circumstances in which an early redemption of Currency-Hedged Commodity Securities may be imposed on investors, which may result in an investment in Currency-Hedged Commodity Securities being redeemed earlier than desired. • The ability of the Issuer to pay on redemption of Currency-Hedged Commodity Securities is wholly dependent on it receiving payment from a Commodity Contract Counterparty. No Commodity Contract Counterparty has guaranteed the performance of the Issuer's obligations and no holder has any direct rights of enforcement against any such person. • In the event of realisation of collateral from a Commodity Contract Counterparty, the value of the assets realised may be less than required to meet the redemption amount due to Security Holders and any realisation of the collateral may take time. • An investor's potential loss is limited to the amount of the investor's investment.
Section E – Offer		
E.2b	Offer and use of proceeds	Not applicable; the reasons for the offer and use of proceeds are not different from making profit and/or hedging.

E.3	Terms and conditions of the offer	<p>The Currency-Hedged Commodity Securities are being made available by the Issuer for subscription only to Authorised Participants who have submitted a valid application and will only be issued once the subscription price has been paid to the relevant Commodity Contract Counterparty. An Authorised Participant must also pay the Issuer a creation fee of £500. Any applications for Currency-Hedged Commodity Securities made by 2.30 p.m. London time on a business day will generally enable the Authorised Participant to be registered as the holder of Currency-Hedged Commodity Securities within three business days.</p>
E.4	Material or conflicting interests	<p>Mr Tuckwell and Mr Ross (who are directors of the Issuer) are also directors of ManJer and each of the Directors of the Issuer are also directors of HoldCo – the sole shareholder of the Issuer. While these roles could potentially lead to conflicts of interest, the Directors do not believe that there are any conflicts of interest between the duties which the directors and/or members of the administrative, management and supervisory bodies of the Issuer owe to the Issuer, and the private interests and/or other duties that they have.</p> <p>The Directors of the Issuer also hold directorships of other issuers of exchange traded commodities also owned by HoldCo.</p>
E.7	Expenses	<p>The Issuer charges the following costs to investors:</p> <ul style="list-style-type: none"> • £500 per application or redemption carried out directly with the Issuer; and • a management fee of 0.49 per cent. per annum based on the value of all Euro and Sterling denominated Currency-Hedged Commodity Securities outstanding by way of application of the Capital Adjustment and a management fee of 0.69 per cent. per annum based on the value of all Australian Dollar denominated Currency-Hedged Commodity Securities outstanding by way of application of the Capital Adjustment; • a licence allowance of 0.05 per cent. per annum (based on the aggregate daily price of all fully paid Commodity Contracts outstanding at that time) to be used to pay the fee of CME Indexes by way of application of the Capital Adjustment. <p>No other costs will be charged to investors by the Issuer.</p> <p>The Issuer estimates that the expenses charged by an authorised offeror in connection with the sale of Currency-Hedged Commodity Securities to an investor will be 0.15 per cent. of the value of the Currency-Hedged Commodity Securities sold to such investor.</p> <p><i>Issue specific summary:</i></p> <p>The management fee applicable to the Currency-Hedged Commodity Securities being issued pursuant to the Final Terms is [•].</p>

RISK FACTORS

An investment in Currency-Hedged Commodity Securities involves a significant degree of risk. Prior to making an investment decision, prospective purchasers should carefully read the entire Prospectus. In addition to the other information contained in this document, the following risk factors, which constitute all of the principal risks known to the Issuer, should be carefully considered by prospective investors before deciding whether to invest in Currency-Hedged Commodity Securities. A Security Holder may lose some or all of their investment in Currency-Hedged Commodity Securities for reasons other than those set out below (for example, reasons not currently considered by the Issuer to be material or based on circumstances or facts of which the Issuer is not currently aware).

Currency-Hedged Commodity Security Risk Factors

Commodity Prices

The value of Currency-Hedged Commodity Securities will be affected by movements in commodity prices generally and by the way in which those prices and other factors affect the prices of the Designated Contracts (and hence of the Commodity Indices).

Commodity prices generally may fluctuate widely and may be affected by numerous factors, including:

- global or regional political, economic or financial events and situations, particularly war, terrorism, expropriation and other activities which might lead to disruptions to supply from countries that are major commodity producers;
- investment trading, hedging or other activities conducted by large trading houses, producers, users, hedge funds, commodities funds, governments or other speculators which could impact global supply or demand;
- the weather, which can affect short-term demand or supply for some commodities;
- the future rates of economic activity and inflation, particularly in countries which are major consumers of commodities;
- major discoveries of sources of commodities; and
- disruptions to the infrastructure or means by which commodities are produced, distributed and stored, which are capable of causing substantial price movements in a short period of time.

Prices of the Designated Month Contracts may fluctuate widely and may be affected by:

- commodity prices generally;
- trading activities on the Relevant Exchange, which might be impacted by the liquidity in the futures contracts; and
- trading activity specific to particular futures contract(s) and maturities.

Currency Hedging

Currency-Hedged Commodity Securities are priced off Commodity Indices which are intended as benchmarks for Australian Dollar, Euro and Pound Sterling investors wishing to invest in the DJ-UBS CISM or DJ-UBS CI-F3SM (which are calculated in US Dollars) for which the effects of foreign exchange risk are hedged.

Each Commodity Index is calculated by reference to the Corresponding Unhedged Commodity Index and provides a hedge against movements in the exchange rate between the US Dollar and the Currency of denomination of that Commodity Index which is rebalanced on a daily basis. Such adjustment is made by rebalancing the notional futures hedge position for that Commodity Index on each Pricing Day to reflect the effect of foreign exchange rate movements on the Corresponding Unhedged Commodity Index since the immediately preceding Pricing Day. Such adjustment does not reflect a pure currency hedge or “quanto” (in which the value in the relevant currency would rise or fall in direct proportion to rises and falls in the value in US Dollars of an unhedged investment) as investors

will remain exposed to the effect of foreign exchange rate movements on any subsequent intra-day change in the value of the Corresponding Unhedged Commodity Index until the next rebalancing.

As the Commodity Indices are calculated by reference to Unhedged Commodity Indices the risks related to such Unhedged Commodity Indices will equally apply to an investment in Currency-Hedged Commodity Securities.

Roll-Yield

Each Unhedged Individual Commodity Index is priced off a futures contract of specific maturity which, as it nears expiry, needs to be “rolled” to a later dated contract. As the exchange-traded futures contracts that comprise the Unhedged Individual Commodity Index approach expiration, they are replaced by similar contracts that have a later expiration. Thus, for example, a futures contract purchased and held in August may specify an October expiration. As time passes, the contract expiring in October may be replaced by a contract for delivery in December. This process is referred to as “rolling”. If the market for these contracts is (putting aside other considerations) in “backwardation”, which means that the prices are lower in the distant delivery months than in the nearer delivery months, the sale of the October contract would take place at a price that is higher than the price of the December contract, thereby creating a “roll yield” which tends to be positive for the relevant Unhedged Individual Commodity Index. While some of the contracts included in the DJ-UBS CISM have historically exhibited consistent periods of backwardation, backwardation may not exist at all times.

Moreover, certain of the commodities reflected in the DJ-UBS CISM, such as gold, have historically traded in “contango” markets. A “contango” market means that the prices are higher in the distant delivery months than in the nearer delivery months, the sale of the October contract would take place at a price that is lower than the price for the December contract, thereby creating a negative “roll yield” which tends to be negative for the relevant Unhedged Individual Commodity Index. However, the existence of contango (or backwardation) in a particular commodity market does not automatically result in negative (or positive) “roll yields”. The actual realisation of a potential roll yield will be dependent upon the shape of the futures curve where if the relevant part of the commodity futures curve is in backwardation — a downward sloping futures curve — then, all other factors being equal, the relevant index will tend to rise over time as lower futures prices converge to higher spot prices. The opposite effect would occur for contango.

The existence of contango in particular commodity markets could result in negative “roll yields”, which could adversely affect the value of the Unhedged Commodity Indices and decrease the value of Currency-Hedged Commodity Securities. Each Unhedged Composite Commodity Index is made up of two or more Designated Contracts. The extent to which an Unhedged Composite Commodity Index is affected by backwardation or contango will depend on whether the relevant Designated Contracts are in backwardation or contango and the relative weight of each Designated Contract included in such Unhedged Composite Commodity Index.

Longer Dated Commodity Securities

The Longer Dated Commodity Securities are designed to track currency-hedged versions of the DJ-UBS CI-F3SM or one of its sub-indices and not currency-hedged versions of the DJ-UBS CISM or one of its sub-indices. The DJ-UBS CI-F3SM is determined as of a certain date by reference to futures contracts for the same commodities as the DJ-UBS CISM but for the DJ-UBS CI-F3SM, the contracts that would be the Lead Future and Next Future for the DJ-UBS CISM in three calendar months are instead the Lead Future and Next Future in the current calendar month for the DJ-UBS CI-F3SM. This may result in different sensitivities to changes in the commodity price and/or any backwardation or contango affecting the two indices. The difference in the expiry dates of the futures contracts which comprise the DJ-UBS CI-F3SM may result in the DJ-UBS CI-F3SM having significantly better or worse performance and greater or lesser volatility than that for the DJ-UBS CISM. Consequently, any return a Security Holder receives from an investment in the Longer Dated Commodity Securities may be lesser or greater than that they would have received if the securities were linked to currency-hedged versions of the DJ-UBS CISM.

Change of Commodity Index

The Facility Agreements allow for a change in the Commodity Index used to price the Currency-Hedged Commodity Securities. The Commodity Contract Counterparties and the Issuer may agree to use a

different commodity index provided that at the time of the substitution of the index there is no change to the aggregate Price (or, if the currency of denomination of the relevant Currency-Hedged Commodity Securities is changed, the equivalent of such Price in such other currency) of the Commodity Contracts of the class or classes which are the subject of the substitution. Any such substitution shall not take effect until at least 30 days' notice has been given to the Security Holders in an RIS announcement.

Tracking Error and Liquidity Risk

At any time, the price at which Currency-Hedged Commodity Securities trade on the London Stock Exchange (or any other exchange or market on which they may be quoted or traded) may not reflect accurately the Price of the relevant Currency-Hedged Commodity Securities. The application and redemption procedures for Currency-Hedged Commodity Securities and the role of certain Authorised Participants as market-makers are intended to minimise this potential difference or "tracking error". However, the market price of Currency-Hedged Commodity Securities will be a function of supply and demand amongst investors wishing to buy and sell Currency-Hedged Commodity Securities and the bid/offer spread that market-makers are willing to quote for Currency-Hedged Commodity Securities.

Although UBS and MLI have agreed to supply Commodity Contracts up to an Aggregate Outstanding Contracts Price of US\$1,000,000,000 and US\$1,500,000,000, respectively, if demand for Currency-Hedged Commodity Securities exceeds these amounts and the Issuer is not able to create more Commodity Contracts, or if the demand for issue of Currency-Hedged Commodity Securities exceeds the daily restrictions, then Currency-Hedged Commodity Securities may trade at a premium to their underlying value (the Price). Investors who pay a premium risk losing the premium if demand for Currency-Hedged Commodity Securities abates or the Issuer is able to source more Commodity Contracts. Currency-Hedged Commodity Securities could trade at a discount to the Price if the Issuer has received redemption requests in excess of the Redemption Limit (which is a daily limit).

The Currency-Hedged Commodity Securities of each type were first issued on various dates commencing in February 2012. There can be no assurance as to the depth of the secondary market (if any) in Currency-Hedged Commodity Securities, which will affect their liquidity and market price.

See also "Operational Risk Factors — Market Disruption" below.

Operational Risk Factors

Currency

The Price of Currency-Hedged Commodity Securities of each class will be set in a specific currency. However, Redemption Amounts will be payable in US Dollars by way of a conversion from that specific currency into US Dollars at the relevant foreign exchange rate on the applicable Pricing Date. To the extent that a Security Holder values Currency-Hedged Commodity Securities in a currency other than that specific currency, that value will be affected by changes in the exchange rate between the specific currency applicable to that class and such other currency. Also, as Redemption Amounts will be payable in US Dollars, an Authorised Participant whose Currency-Hedged Commodity Securities are being redeemed may be adversely affected by movements in the exchange rate of that specific currency against the US Dollar between the date a redemption was accepted and the date of payment (and beyond).

Exchange Limits

U.S. futures exchanges and some other exchanges have regulations that limit the amount of fluctuation in some futures contract prices that may occur during a single business day. These limits are generally referred to as "daily price fluctuation limits" and the maximum or minimum price of a contract on any given day as a result of these limits is referred to as a "limit price". Once the limit price has been reached in a particular contract, no trades may be made at a price beyond the limit, or trading may be limited for a set time period. Limit prices have the effect of precluding trading in a particular contract or forcing the liquidation of contracts at potentially disadvantageous times or prices. These circumstances could adversely affect the value of any and all Unhedged Commodity Indices and, therefore, the market value of the Currency-Hedged Commodity Securities and could disrupt applications for and redemptions of Currency-Hedged Commodity Securities and the pricing thereof.

Similarly, there may be an adverse effect on the ability to apply for Currency-Hedged Commodity Securities if regulations impose limits on the amount of positions in futures contracts (or if an exemption from such limits is reduced or revoked). Once a position limit has been reached, no trades may be made

or trading may be limited. Position limits have the effect of precluding the trading of futures and may therefore affect a Commodity Contract Counterparty's ability to create Commodity Contracts (due to an inability to hedge its position).

UBS and an Affiliate of MLI are each parties to facility agreements with ETFS Commodity Securities Limited, an Affiliate of the Issuer, in relation to securities tracking Unhedged Commodity Indices and their exposures under those and any other similar agreements, and their hedging activities in connection with those exposures, may affect their abilities to create Commodity Contracts under the Facility Agreements.

There may also be a risk of future regulations which may affect the Issuer or a Commodity Contract Counterparty. Such new regulation may include, but is not limited to, the Issuer being subject to registration with and regulation by the Commodity Futures Trading Commission if it is deemed a market participant in the futures market and the Issuer may accordingly be subject to limits on such futures. This may result in the inability to apply for and redeem Currency-Hedged Commodity Securities and/or disruption to the pricing thereof.

Counterparty Credit Risk and Default

The value of Currency-Hedged Commodity Securities and the ability of the Issuer to pay the Redemption Amount is dependent on the receipt of such amount from a Commodity Contract Counterparty, and may be affected by the deterioration of the credit and/or a downgrade in the credit rating of the Commodity Contract Counterparties (or any of them). Such deterioration/downgrade in the credit or credit rating of the Commodity Contract Counterparties (or any of them) could cause Currency-Hedged Commodity Securities to trade at a discount to the Price.

The Commodity Contracts issued by UBS are not guaranteed by any person. The Commodity Contracts issued by MLI are guaranteed by BAC, but are not guaranteed by any other entity within the BAC Group or by any other person. There can be no assurance that any Commodity Contract Counterparty or Guarantor will be able to fulfil its respective payment obligations under the relevant Commodity Contracts and Facility Agreement or Guarantee (as the case may be).

The Issuer will not operate any risk-spreading policies and has Facility Agreements only with UBS and MLI. The Issuer may, but is not required to, enter into other Facility Agreements with other Commodity Contract Counterparties, but it will not be the Issuer's intention to enter into other Facility Agreements for the purposes of spreading counterparty risk.

If at any given time there are two or more Commodity Contract Counterparties and one of them, the Lower Credit, has its credit rating downgraded or has defaulted on its obligations to redeem Commodity Contracts, then, under the Pool splitting mechanism discussed under the heading "Consolidation and Division of Currency-Hedged Commodity Securities" in Part 3 (*Description of Currency-Hedged Commodity Securities*), the Issuer can separate out the Lower Credit by issuing to the relevant Security Holders new Currency-Hedged Commodity Securities supported only by the Commodity Contracts of the Lower Credit. There can be no assurance that the Issuer will be able to redeem such new Currency-Hedged Commodity Securities at their Price or even at all, and such new Currency-Hedged Commodity Securities may not be admitted to trading on any exchange. If the Issuer is considering exercising its power to implement a Pool split it will not be required to have regard to any proposed but not yet implemented Pool split when allocating Commodity Contracts to one or more of the Counterparties. Accordingly, shortly after receiving its Currency-Hedged Commodity Securities a Security Holder could be treated as owning Currency-Hedged Commodity Securities attributable to the Lower Credit which may affect the ability of such Security Holder to redeem those Currency-Hedged Commodity Securities. In circumstances where the Issuer is considering exercising its power to implement a Pool split in respect of a particular Pool it may, upon notice to Security Holders, suspend the right to Redeem the Currency-Hedged Commodity Securities of the class or classes attributable to such Pool.

In the event that the Issuer determines to divide a Pool as referred to above and in accordance with Condition 18.3, the Conditions provide that outstanding valid Redemption Forms given (save in the case where notice of a Compulsory Redemption Date was given prior to the division becoming effective in which case certain other timings may apply) prior to the division becoming effective will be treated as having been given in respect of the Pool to which following the division are attributable Commodity Contracts with the Commodity Contract Counterparty to which the corresponding Commodity Contract

Termination had been allocated. This may have the effect that a Security Holder which has lodged a valid Redemption Form prior to a division becoming effective will be treated following the division as owning only Currency-Hedged Commodity Securities attributable to a single Pool rather than both Pools as described under the heading “Consolidation and Division of Currency-Hedged Commodity Securities” in Part 3 (*Description of Currency-Hedged Commodity Securities*), and this could be the Pool to which Commodity Contracts with the Lower Credit are transferred.

Realisation of Collateral

In the event that the Issuer enforces its rights under a Security Agreement and Control Agreement to take control of the Collateral Accounts of any Commodity Contract Counterparty, the Collateral in those Collateral Accounts may not be of sufficient value to cover all Redemption Amounts payable to investors because: (i) enforcement of its rights by the Issuer may have resulted from the Commodity Contract Counterparty failing to post Collateral to the Collateral Accounts to the aggregate value of the Collateral Exposure; (ii) the Collateral Accounts are only required to contain assets to the value of the Collateral Exposure as at the close of the immediately preceding Business Day on which the calculations and valuations are made and there may be a number of days between such valuations occurring and the date on which the Issuer takes control of the Collateral Accounts, during which time a significant difference between the value of the Collateral in the Collateral Accounts and the Collateral Exposure could arise; (iii) the value of the assets in the Collateral Accounts is not correlated to the Collateral Exposure and may fall due to market conditions; (iv) the assets in each Collateral Account are not required to be denominated in the Relevant Currency and the value of such assets may fall due to exchange rate movements against the Relevant Currency; (v) the Collateral Exposure could rise due to market conditions; (vi) the Collateral Exposure as reported for the purposes of the Commodity Contract Counterparty’s obligation to post Collateral when such Collateral was last posted may be less than the aggregate amounts due to Security Holders and others out of the proceeds realised from such Collateral; (vii) the Issuer (or the Trustee) may not be able to realise some or all of the assets in the Collateral Accounts at the prices at which they were valued, even after allowing for the application of valuation percentages; (viii) payment in respect of Redemption Amounts are required to be made in US Dollars and there may be costs involved in converting the proceeds of realisation of the Collateral into US Dollars or the Issuer may otherwise be unable to convert such proceeds into US Dollars; or (ix) there may be certain costs associated with the Issuer’s realisation of the assets in the Collateral Accounts. In addition there can be no certainty as to the timeliness of any such enforcement.

Prior Security and Subordination Covenant

A Commodity Contract Counterparty may have given, or may in the future give, security to the Securities Intermediary for the purposes of its business generally to secure all amounts owed by the Commodity Contract Counterparty to the Securities Intermediary on any account whatsoever, or for other purposes. Such security may be expressed to cover all accounts of the Commodity Contract Counterparty with the Securities Intermediary, and thus extend to the Collateral Accounts and the collateral placed within them. In the absence of any other agreement, such security would rank ahead of that granted to the Issuer.

Under each Control Agreement, the Securities Intermediary has agreed that any security interest in or lien on or right of set-off with respect to any of the Collateral that the Securities Intermediary now or in the future may have is subordinated to the security interest granted in favour of the Issuer by the Commodity Contract Counterparty under the Security Agreement, except to the extent of any fees, charges, expenses and other amounts owed to the Securities Intermediary and incurred in connection with the performance of its duties under the Control Agreement and the maintenance and operation of the Collateral Accounts, for which the Securities Intermediary will have a prior claim to the Collateral in the Collateral Accounts to the extent of the fees, charges, expenses and other amounts owed to the Securities Intermediary and so incurred in respect of the Collateral Accounts. In addition to the matters referred to under the heading “Realisation of Collateral” above, realisation of assets in the Collateral Accounts in order to meet Redemption Amounts will be dependent on the Securities Intermediary complying with its obligations under the Control Agreements, including the agreement referred to in the previous sentence. If the Securities Intermediary, or an insolvency officer of the Securities Intermediary, were to enforce its security and take the proceeds, in breach of the provisions of the Control Agreement, the Issuer might be left with only an unsecured claim against the Securities Intermediary. In addition the fact of the existence of any such security may complicate or postpone any realisation notwithstanding the provisions of the Control Agreement.

There can be no assurance that other entities may not have, or may not claim to have, security over, or other property rights to, the Collateral Accounts and any property in them.

Enforcement by the Trustee

If the Trustee enforces its security, and takes control of a Collateral Account, the factors referred to in “Realisation of Collateral” and “Prior Security and Subordination Covenant” above will also apply. In addition, the Trustee is dependent upon the Issuer to make or cause to be made and publish its calculations of the Price of the Currency-Hedged Commodity Securities and consequently of any Redemption Amount as referred to in Condition 5.10. If the Issuer is insolvent, or for other reasons, the Issuer may not make and publish such calculations. In such circumstances, there can be no assurance that the Trustee will be able to perform such calculations, or to find a third party able and willing to perform such calculations for it. The Prices of all classes of Currency-Hedged Commodity Securities are determined in accordance with a formula and (save in respect of certain specific elements or in the case of market disruptions) there is no provision for a calculation agent to make a conclusive determination of the Price. There can therefore also be no assurance that any Price or Redemption Amount which is calculated by or on behalf of the Issuer or the Trustee will accord with that calculated by a Commodity Contract Counterparty, or (in the event of a Compulsory Redemption) that the day upon which the Price payable by the Commodity Contract Counterparty to the Issuer is calculated under the relevant Facility Agreement will be the same as the day on which the Price or Redemption Amount payable on the Currency-Hedged Commodity Securities will be calculated (so that there may be a mismatch).

Commodity Contract Counterparty Withholding

In certain circumstances where a Commodity Contract Counterparty considers that an amount payable by it in respect of a Commodity Contract Termination is, may be or may be about to be required by any applicable law of the United States to be paid subject to any withholding or deduction for, or on account of, any present or future taxes, duties, assessments or governmental charges of whatever nature imposed, levied, collected, withheld or assessed by or on behalf of any relevant jurisdiction or any political sub-division thereof or any authority thereof having power to tax, by law (as modified by the practice of any relevant governmental revenue authority) then in effect, then it may give 30 days’ notice to the Issuer under the Facility Agreement and until the expiry of such notice it will be obliged to “gross-up” the amounts so payable by it subject (in the case where the beneficial holder of the relevant Currency-Hedged Commodity Securities being redeemed is not an Authorised Participant) to provision to the Commodity Contract Counterparty of certain beneficial owner certifications to allow the Commodity Contract Counterparty (if possible) to pay the relevant amount without any such deduction or withholding, or with such deduction or withholding at a reduced rate. Payment on redemption to persons who are not Authorised Participants may in these circumstances be subject to their giving to the Issuer and the Commodity Contract Counterparty such beneficial owner certifications. Following the expiry of such 30 days’ notice, the Commodity Contract Counterparty will not be obliged to “gross-up” any amounts payable by it and if the Issuer makes payment on Redemption only of the net amount so paid, that shall not be a Defaulted Obligation.

Activities of CME Indexes, Commodity Contract Counterparties and Authorised Participants

The Commodity Contract Counterparties and their affiliates are active traders in commodities markets, including in the physical markets for commodities, in the futures markets (on each of the Exchanges and on other commodity exchanges) and the over-the-counter markets, including trading of commodity swaps, options and other derivatives. These trading activities may present a conflict between the interests of holders of the Currency-Hedged Commodity Securities and the interests that the Commodity Contract Counterparties and their affiliates will have in their proprietary accounts, in facilitating transactions, including options and other derivatives transactions, for their customers and in accounts under their management. These trading activities, if they influence the value of the Unhedged Commodity Indices or any Commodity Index, could be adverse to the interests of the holders of the Currency-Hedged Commodity Securities. Moreover, the Commodity Contract Counterparties or their affiliates have published and in the future expect to publish research reports with respect to some or all of the Commodity Indices or Unhedged Commodity Indices or components and physical commodities generally. This research is modified from time to time without notice and may express opinions or provide recommendations that are inconsistent with purchasing or holding the Currency-Hedged Commodity Securities. The research should not be viewed as a recommendation or endorsement of the

Currency-Hedged Commodity Securities in any way and investors must make their own independent investigation of the merits of this investment. Any of these activities by the Commodity Contract Counterparties or their affiliates may affect the market price of the Commodity Indices or Unhedged Commodity Indices or components and the value of the Commodity Indices or Unhedged Commodity Indices and, therefore, the market value of the Currency-Hedged Commodity Securities. In addition, the Commodity Contract Counterparties and their affiliates may underwrite or issue other securities or financial instruments indexed to the Commodity Indices or Unhedged Commodity Indices and related indices and/or CME Indexes and UBS Securities may licence the Commodity Indices or Unhedged Commodity Indices or related indices for publication or for use by unaffiliated third parties. Further, the Authorised Participants or their affiliates also trade in various sectors of the commodities markets.

These activities could give rise to conflicts of interest which are adverse to the interests of Security Holders and could change the Price of Currency-Hedged Commodity Securities. For example, a market maker in a financial instrument linked to the performance of the DJ-UBS CISM or related indices may expect to hedge some or all of its position in that financial instrument. Purchase (or selling) activity in the underlying Unhedged Commodity Indices components in order to hedge the market maker's position in the financial instrument may affect the market price of the futures contracts upon which the Unhedged Commodity Indices are based, which in turn would affect the value of those indices, the Commodity Indices and thus the Currency-Hedged Commodity Securities.

With respect to any of the activities described above, none of UBS, UBS Securities, CME Indexes, Dow Jones, the Commodity Contract Counterparties, BAC, the Authorised Participants or their respective affiliates has any obligation to the Issuer to take the needs of any buyers, sellers or holders of Currency-Hedged Commodity Securities into consideration at any time.

Commodity Market Disruption

Futures exchanges have the potential to suffer from market disruption, due to trading failures at the exchange or the imposition of volume or price restrictions. Such events could cause a Trading Day to be classified as a Commodity Market Disruption Day, resulting in it not being possible to price one or more classes of Commodity Securities that day. If a Commodity Index is not published for five or more consecutive General Trading Days by reason of those General Trading Days being Commodity Market Disruption Days in relation to that Commodity Index then the Calculation Agent is required to calculate and provide to the Issuer a substitute value for that Commodity Index on each subsequent General Trading Day for as long as the Commodity Market Disruption Event continues. On each General Trading Day in respect of which a substitute value for that Commodity Index is provided, that day will not be a Commodity Market Disruption Day. However, there can be no guarantee that the Calculation Agent will calculate and provide such substitute value. The occurrence of a Commodity Market Disruption Event may therefore cause a delay in the application or redemption process (where settlement pricing is being used) which could adversely affect potential or existing Security Holders. In addition, where a Commodity Market Disruption Event occurs, the change in Price of a Currency-Hedged Commodity Security may not track precisely (before fees and adjustments) the daily change in the level of the relevant Commodity Index.

Management Experience

The Issuer was incorporated in 2011. The directors and management of ManJer and the Issuer have had experience in establishing and operating companies providing similar types of exchange-traded products since December 2003 including securities issued by ETFS Commodity Securities Limited (which are based on the DJ-UBS CISM and other Unhedged Commodity Indices) and securities issued by Gold Bullion Securities Limited, ETFS Oil Securities Limited, ETFS Metal Securities Limited, ETFS Metal Securities Australia Limited, Swiss Commodity Securities Limited, ETFS Foreign Exchange Limited, ETFS Industrial Metal Securities Limited and ETFS Commodity Securities Australia Limited. If it transpires that the experience of ManJer, the Issuer and their respective management is neither adequate nor suitable to manage the Issuer, then the operations of the Issuer may be adversely affected.

Only Authorised Participants May Apply for or Redeem Currency-Hedged Commodity Securities

Generally only Authorised Participants may deal with the Issuer in applying for or redeeming Currency-Hedged Commodity Securities, save in relation to redemptions where at any time there are no Authorised Participants or in other circumstances announced by the Issuer. The Issuer has agreed

to use reasonable endeavours to ensure that at all times after the date three months following Listing there are at least two Authorised Participants and until then at least one Authorised Participant. There can, however, be no assurance that there will at all times be an Authorised Participant to deal with the Issuer in applying for or redeeming Currency-Hedged Commodity Securities.

Under the Facility Agreements each Commodity Contract Counterparty has the right to give notice (with immediate or delayed effect) that an Authorised Participant has ceased to be acceptable to it in certain circumstances, including if the Commodity Contract Counterparty deems such person to be unacceptable to it as an Authorised Participant for credit, compliance, general business policy or reputational reasons. As a result of any exercises of such right there could at any time be no Authorised Participants, with the result that no Currency-Hedged Commodity Securities could be created. In such event it may also be difficult or impossible to sell Currency-Hedged Commodity Securities on the London Stock Exchange or other exchanges at a price close to the Price therefor or within a reasonable time period, although Security Holders will be entitled to redeem their Currency-Hedged Commodity Securities.

Early Redemption of Currency-Hedged Commodity Securities

The Issuer may, at any time, upon not less than 30 days' notice (or seven days' notice in the event that the Facility Agreement is terminated) by RIS announcement to the Security Holders, redeem all Currency-Hedged Commodity Securities of a particular class. The Trustee may, at any time, where an Issuer Insolvency Event or Counterparty Event of Default has occurred and is continuing, upon 20 Business Days' notice to the Issuer, require the Issuer to redeem all Currency-Hedged Commodity Securities.

CME Indexes may cease to publish a Commodity Index. If so, all Currency-Hedged Commodity Securities of the class relating to that Commodity Index will be redeemed.

The Conditions provide that the amount payable upon a Redemption of a Currency-Hedged Commodity Security of a particular class under Settlement Pricing will be the higher of the Principal Amount for that class and the Price of such Currency-Hedged Commodity Security on the applicable Pricing Day, in each case converted into US Dollars at the relevant Settlement Foreign Exchange Rate. As each class of Currency-Hedged Commodity Security is a limited recourse security as described in Condition 3.2, it is in the interests of the Security Holders of each class to ensure that the Price for each relevant class of Currency-Hedged Commodity Securities does not fall below its Principal Amount. The Issuer will aim to avoid the Price of a class of Currency-Hedged Commodity Security falling below its Principal Amount by the following measures: the Issuer may (i) where necessary, seek the sanction of Security Holders by Extraordinary Resolution to reduce the Principal Amount of a class of Currency-Hedged Commodity Security to a level less than its Price; and/or (ii) if on any Pricing Day the Price of any class of Currency-Hedged Commodity Security falls to 2.5 times the Principal Amount of such Currency-Hedged Commodity Security or below, the Issuer may, at any time for so long as the Price remains below such amount and during the period 60 days thereafter, upon not less than two days' notice by RIS announcement elect to redeem the Currency-Hedged Commodity Securities of that class. The right pursuant to (ii) above will cease once an Extraordinary Resolution is passed to reduce the Principal Amount such that the Price is more than 2.5 times the Principal Amount, subject to any further fall in the Price of any class of Currency-Hedged Commodity Securities to 2.5 times the Principal Amount or below.

Under the Facility Agreements, each Commodity Contract Counterparty has the right to terminate some or all of the Commodity Contracts of a particular class if for any reason it is unable to maintain the hedging positions which (acting reasonably) it attributes to the hedging of its obligations in connection with the Facility Agreement or Commodity Contracts of one or more classes. In such a case, the Issuer has, and will exercise, the right to redeem some or all of the Currency-Hedged Commodity Securities of that class.

The Issuer may, at any time by not less than seven nor more than 14 Trading Days' written notice, redeem any Currency-Hedged Commodity Securities held by Prohibited US Persons or Prohibited Benefit Plan Investors, held by Security Holders who have not provided appropriate certifications as to their status in accordance with the Conditions or in certain other circumstances specified in the Conditions.

UBS and MLI have only agreed to provide Commodity Contracts to the Issuer for ten years from 23 February 2012 (although each Commodity Contract Counterparty may terminate its Facility Agreement on three months' notice). If the relevant Commodity Contract Counterparty does not agree to provide Commodity Contracts beyond such date or if either or both Commodity Contract Counterparties chooses to terminate its Facility Agreement earlier, then the Commodity Contracts with it will expire and unless they are replaced by Commodity Contracts with another Commodity Contract Counterparty the Issuer will elect to redeem some or all of the outstanding Currency-Hedged Commodity Securities.

Consequently, an investment in Currency-Hedged Commodity Securities may be redeemed earlier than desired by a Security Holder.

General Market Risk

General movements in local and international markets and factors that affect the investment climate and investor sentiment could all affect the level of trading and, therefore, the market price of Currency-Hedged Commodity Securities. These risks are generally applicable to any investment in listed securities. Investors should note that general movements in markets and factors that affect the investor climate and investor sentiment may have different effects on each of the classes of Currency-Hedged Commodity Securities. Investors should be aware that any and all Currency-Hedged Commodity Securities can go down in price as well as up.

Exchange Rate Risk

Governments have imposed from time to time, and may in the future impose, exchange controls that could also affect the availability of a specified currency. Even if there are no actual exchange controls, it is possible that a currency may become unavailable. Governments may also issue a new currency to replace an existing currency or alter the exchange rate or relative exchange characteristics by a devaluation or revaluation of a currency. Such actions or events may have an adverse effect on the performance of Commodity Indices that reflect a currency hedge referable to the Relevant Currency and, consequently, on the Price or availability of Currency-Hedged Commodity Securities.

If the availability on any Trading Day of a market for converting currencies is adversely affected as a result of events and circumstances such as market illiquidity, imposition of foreign exchange rate controls or changes in regulation, such Trading Day may be classified as a FX Market Disruption Day, resulting in the inability to create or cancel Commodity Contracts. If a FX Market Disruption Event occurs and five or more General Trading Days are FX Market Disruption Days then the Calculation Agent is required to calculate and provide to the Issuer a substitute Foreign Exchange Rate in respect of each Currency on each subsequent General Trading Day for as long as the FX Market Disruption Event continues. On each General Trading Day in respect of which a substitute Foreign Exchange Rate is provided, that day will not be a FX Market Disruption Day. However, there can be no guarantee that the Calculation Agent will calculate and provide such substitute Foreign Exchange Rate.

It is also possible that as a result of restrictions on holding or exchanging currencies a Commodity Contract Counterparty may be unable to create or cancel Commodity Contracts resulting in such an event being classified as a FX Restriction Event.

In the event of a FX Market Disruption Event, unless and until a substitute foreign exchange rate is provided as referred to above, or the event of a FX Restriction Event and for so long as the FX Restriction Event is occurring, the Commodity Contract Counterparties will not be obliged to create or cancel Commodity Contracts, in which case the Issuer will be unable to issue or Redeem Currency-Hedged Commodity Securities.

No Recourse Except to the Issuer and the Secured Property

Currency-Hedged Commodity Securities will be obligations solely of the Issuer. In particular, Currency-Hedged Commodity Securities will not be obligations or responsibilities of, or guaranteed by, the Trustee, the Registrar, Dow Jones, CME Indexes, any member of the UBS Group, MLI or any other member of the BAC Group, any direct or indirect shareholder of the Issuer or any of the Authorised Participants. The Issuer is a special purpose company established for the purpose of issuing exchange traded commodities (ETCs) as asset-backed securities.

If the net proceeds of realisation of the Secured Property in respect of a particular Pool, following enforcement of the Security Deed applicable to that Pool, are less than the aggregate amount payable in such circumstances by the Issuer in respect of Currency-Hedged Commodity Securities of that class, the obligations of the Issuer in respect of such Currency-Hedged Commodity Securities will be limited to the net proceeds of realisation of that Secured Property. In such circumstances the assets (if any) of the Issuer other than those attributable to the relevant Pool will not be available for payment of such shortfall, the rights of the relevant Security Holders to receive any further amounts in respect of such obligations shall be extinguished and none of the Security Holders or the Trustee may take any further action to recover such amounts. For this purpose Collateral posted in a Collateral Account relating to one Currency will be used to satisfy the relevant Counterparty's obligations in respect of its Commodity Contracts denominated in that Currency and any surplus thereafter used to satisfy any balance of its obligations in respect of its other Commodity Contracts.

Any claims made against the Issuer will be satisfied in order of the priority of payments in accordance with the Trust Instrument, further details of which are set out in Condition 16 (*Application of Moneys*) in Part 6 (*Trust Instrument and Currency-Hedged Commodity Securities*).

Limited Enforcement Rights

The Trustee may enforce the Security at its discretion but is only required to enforce the Security on behalf of a Security Holder if it is directed to do so:

- (a) by a Security Holder to whom a Defaulted Obligation is owed; or
- (b) if an Issuer Insolvency Event or Counterparty Event of Default has occurred and is continuing,
 - (i) in writing by Security Holders holding not less than 25 per cent. by Price (as at the date of the last signature) of the Currency-Hedged Commodity Securities (as a whole) then outstanding, or
 - (ii) by an Extraordinary Resolution,

in each case provided that the Trustee is indemnified and/or secured to its satisfaction.

Recognition of Security in other Jurisdictions

The laws of certain jurisdictions may affect some or all of the assets comprising the Secured Property in relation to any Pool. In the event that the laws of a jurisdiction do not recognise the security granted by the Security Deed, such security may not be effective in relation to assets deemed located in that jurisdiction and/or such assets may be subject to claims which would otherwise rank after claims secured by the Security Deed.

The Issuer has taken the following steps to perfect the security granted under the Security Deed relating to the Security Agreements: (a) the Issuer has notified the Securities Intermediary of the security so granted in writing and the Securities Intermediary has in writing acknowledged to the Issuer and the Trustee such notification; and (b) the Issuer's grant of the security interest is expressly acknowledged in the Control Agreements with provision made under the Control Agreements for the Securities Intermediary to act on the instructions of the Security Trustee enforcing the security.

The Issuer may take further steps if required in order to perfect such security under English law. However the security so granted may not be recognised or perfected under the laws of other jurisdictions in which some or all of the assets comprising the Secured Property in relation to any Pool may be deemed to be located.

Index Calculations by CME Indexes and UBS Securities

The Issuer is not affiliated with CME Indexes, Dow Jones or UBS Securities in any way (except for the agreements and licensing arrangements described in this Prospectus) and has no ability to control or predict their actions, including any errors in or discontinuation of disclosure regarding its methods or policies relating to the calculation of the DJ-UBS CISM or related indices (including the Commodity Indices). The policies of UBS Securities and CME Indexes concerning the calculation of the level of the DJ-UBS CISM or related indices (including the Commodity Indices), additions, deletions or substitutions of DJ-UBS CISM components and the manner in which changes affecting the DJ-UBS CISM components are reflected in the DJ-UBS CISM and related indices (including the Commodity Indices) could adversely affect the value of the DJ-UBS CISM or related indices (including the Commodity Indices) and, therefore, the market value of the Currency-Hedged Commodity Securities.

Additional commodity futures contracts may satisfy the eligibility criteria for inclusion on the DJ-UBS CISM, and commodity futures contracts currently included in the DJ-UBS CISM may fail to satisfy such criteria. The weighting factors applied to each included futures contract may change annually, based on changes in commodity production and volume statistics. In addition, UBS Securities and CME Indexes may modify the methodology for determining the composition and weighting of the DJ-UBS CISM and related indices, for calculating their respective values in order to assure that the DJ-UBS CISM and related indices represent an adequate measure of market performance or for other reasons, or for calculating the values of the DJ-UBS CISM and related indices (including the Commodity Indexes). Any such changes could adversely affect the market value of the Currency-Hedged Commodity Securities.

Under the UBS Facility Agreement and the Calculation Agency Agreement, UBS has agreed that in the event CME Indexes and UBS Securities as co-sponsors of the DJ-UBS CISM cease to calculate and publish any Commodity Index, UBS as Calculation Agent will use its reasonable endeavours to calculate settlement values of such Commodity Indexes for each Pricing Day using the same methodology and processes for each individual commodity as are used from time to time for the calculation of the DJ-UBS CISM and the Dow Jones — UBS Commodity IndexesSM Currency-Hedged Versions but there is no assurance that those indices will continue to be published. If the Commodity Indexes or any of them cease to be published, the Issuer will endeavour to ensure that replacement indices are published, but there is no assurance that this will be achieved. In that event some or all of the Currency-Hedged Commodity Securities may be redeemed.

In certain circumstances under the Facility Agreements and the Calculation Agency Agreement, including where a Market Disruption Event in respect of a Commodity Index occurs on five or more consecutive Trading Days (irrespective of whether a Commodity Index is published for those Trading Days), the Calculation Agent is required to calculate a substitute value for each Trading Day thereafter while that circumstance persists. While the Calculation Agent is required to act in good faith and in a commercially reasonable manner (i) it owes no duty to any Security Holder or the Trustee in respect of any determination made by it and (ii) any such substitute value may differ from the Commodity Index.

From time to time commodities presently represented in the DJ-UBS CISM may cease to be included therein. In that event, an Individual Commodity Index in respect of that commodity may cease to be published. If this occurs, all Individual Securities of that class will be redeemed.

Calculation Agent Conflicts of Interest

In addition to being the obligor under the UBS Facility Agreement, UBS is also the Calculation Agent under both the UBS Facility Agreement and the MLI Facility Agreement (but not for the purposes of the Conditions, the Currency-Hedged Commodity Securities or the Trust Instrument). In acting as Calculation Agent, UBS is obliged to act in good faith and in a commercially reasonable manner, but otherwise its calculations are binding in the absence of manifest error. The role of UBS as Calculation Agent may give rise to conflicts of interest which are adverse to the interests of Security Holders.

Change to Designated Contracts and/or Roll Period

The choice of Designated Contracts, Designated Month Contracts and the Roll Period used to price each Individual Commodity Index is determined by CME Indexes in conjunction with UBS Securities and may be changed from time to time upon approval by the Supervisory Committee of the DJ-UBS CISM. The termination or replacement of any Designated Contract or Designated Month Contract and/or the change to a Roll Period may have an adverse impact on the value of an Individual Commodity Index.

Changes to Pricing Provisions

Where Settlement Pricing is to be used for a Redemption, a Price in the Relevant Currency will be determined for each class relevant to such Redemption on the day the Redemption Form is lodged or deemed lodged if it is a Pricing Day for that class; if it is not then (unless withdrawn where permitted under the Conditions) the Conditions (and the Facility Agreements in respect of the corresponding Commodity Contracts) contain provisions designed to determine a Price based on the value of equivalent underlying futures contract positions for days following the day the Redemption Form is lodged or deemed lodged until values can be determined for all equivalent underlying futures contract positions. Under the Conditions, the Issuer may amend these provisions (and corresponding changes

to the Facility Agreements) without the consent of the Trustee if the Issuer certifies to the Trustee that the Issuer and the Commodity Contract Counterparties consider that such provisions (and the corresponding provisions in the Facility Agreements) do not operate or have the effect in relation to days that are or follow a Market Disruption Day they intended.

PART 1

GENERAL

Introduction

The Issuer has created and is currently making available for issue 210 different classes of Currency-Hedged Commodity Securities denominated in Australian Dollars, Euro or Pounds Sterling. There are two kinds of Currency-Hedged Commodity Securities:

- Individual Securities, the Prices of which will track the daily change in the level of a Commodity Index which tracks the price of a single commodity; and
- Index Securities, the Prices of which will track the daily change in the level of a Commodity Index which tracks the prices of a group of commodities.

In each case Currency-Hedged Commodity Securities track the daily change in the level of the relevant Commodity Index before fees and adjustments and in the absence of Market Disruption Events.

All classes of Currency-Hedged Commodity Securities will also reflect a daily hedge against movements in the exchange rate between the US Dollar and the currency of denomination of that class of Currency-Hedged Commodity Security, which is included in the calculation of the relevant Commodity Index.

These comprise 150 different classes of Individual Securities (representing 25 different commodities, two different maturities and three different currencies of denomination) and 60 different classes of Index Securities (representing ten different combinations of commodities, two different maturities and three different currencies of denomination).

The Classic Commodity Securities are priced by reference to the DJ-UBS ADSM, the DJ-UBS EDSM or the DJ-UBS PDSM (as appropriate) and their various sub-indices which are calculated by reference to the US Dollar version of the DJ-UBS CISM. The Longer Dated Commodity Securities are priced by reference to the DJ-UBS AD-F3SM, the DJ-UBS ED-F3SM or the DJ-UBS PD-F3SM (as appropriate) and their various sub-indices which are calculated by reference to the DJ-UBS CI-F3SM (which tracks the same commodities as the DJ-UBS CISM but for the DJ-UBS CI-F3SM, the contracts that would be the Lead Future and Next Future for the DJ-UBS CISM in three calendar months are instead the Lead Future and Next Future in the current calendar month for the DJ-UBS CI-F3SM). Since the indices tracked by the Classic Commodity Securities and the Longer Dated Commodity Securities are exposed to different parts (maturities) of the futures curve, Classic Commodity Securities and Longer Dated Commodity Securities based on the same individual commodities or group of commodities will provide investors with different investment returns depending on the relevant Commodity Index's sensitivity to changes in the commodity price and rate of any backwardation or contango.

The pricing of all Currency-Hedged Commodity Securities will be based on Commodity Indices published by CME Indexes and calculated in accordance with the Dow Jones — UBS Commodity IndexSM Handbook (the “**DJ-UBS CISM Handbook**”). A copy of the DJ-UBS CISM Handbook can be downloaded from the following internet address: <http://www.djindexes.com/commodity/>.

The Commodity Indices are calculated by reference to the corresponding Unhedged Commodity Indices and provide a hedge against movements in the exchange rate between the US Dollar and the Currency of denomination of that Commodity Index which is rebalanced on a daily basis. The Unhedged Commodity Indices are widely followed indices which in the case of the DJ-UBS CISM has been published since 1998, with simulated historical data calculated back to January 1991 and in the case of the DJ-UBS CI-F3SM has been published since July 2006, with simulated historical data calculated back to 1991. Further information on the Commodity Indices and the Unhedged Commodity Indices is set out in Part 2 (*Dow Jones — UBS Commodity Indices*).

The Facility Agreements allow for a change in the Commodity Index used to Price the Currency-Hedged Commodity Securities. The Commodity Contract Counterparties and the Issuer may agree to use a different commodity index calculated by UBS or UBS Securities in conjunction with CME Indexes in accordance with the Handbook and published by CME Indexes provided that Security Holders are given a minimum of 30 days' notice of the intended change.

The following table shows, in each box, the different classes of Currency-Hedged Commodity Security that are currently available for issue for the Australian Dollar-denominated, Euro-denominated and Pound Sterling-denominated Commodity Securities. The table also shows the commodities included in each class of Index Securities:

Currency-Hedged Commodity Securities may also be issued under this Prospectus in respect of any other currency-hedged commodity index calculated by CME Indexes in conjunction with UBS Securities in accordance with the Handbook and published by CME Indexes and denominated in any currency, provided that the Issuer can create matching Commodity Contracts under a Facility Agreement. To the extent that this Prospectus does not provide full details of such class or classes of Currency-Hedged Commodity Securities, such additional details (including the name, ISIN number and Principal Amount

thereof and details of the relevant currency-hedged commodity index) will be specified in the applicable Final Terms or a supplementary prospectus supplemental hereto.

General Description of Currency-Hedged Commodity Securities

Currency-Hedged Commodity Securities have been designed to enable investors to gain exposure to movements in commodity prices without needing to purchase or take physical delivery of those commodities or to trade in futures contracts, and to buy and sell the exposure through the trading of a security on the London Stock Exchange or other exchanges.

Currency-Hedged Commodity Securities give investors a long exposure which is similar to that which an investor could achieve by managing a fully-collateralised unleveraged long position in the futures market, without the need to manage any such futures position. Currency-Hedged Commodity Securities involve no margin calls and no requirement to roll from one futures contract to the next, and no brokerage or other fees are incurred when rolling. All of the exposure is obtained through the terms of Currency-Hedged Commodity Securities, which (unlike futures contracts) do not expire.

Currency-Hedged Commodity Securities also aim to minimise the impact of exchange rate movements on an Australian Dollar, Euro or Pound Sterling investor's return by hedging on a daily basis the exposure to commodity futures against exchange rate movements between the US Dollar and the Australian Dollar, Euro or Pound Sterling, respectively. Currency-Hedged Commodity Securities do not provide a pure currency hedge or "quanto" (in which the value in the relevant currency would rise or fall in direct proportion to rises and falls in the value in US Dollars of an unhedged investment) as investors will remain exposed to the effect of foreign exchange rate movements on any intra-day change in the value of commodity futures between each rebalancing of the currency hedge.

The Issuer achieves a matching exposure by holding corresponding Commodity Contracts from one or more Commodity Contract Counterparties, which also do not require any management by the Issuer of futures positions.

Currency-Hedged Commodity Securities give investors the following:

- exposure to the prices of individual commodities or groups of commodities, using the particular futures market contracts and roll periods determined by one of the world's leading providers of commodity indices;
- a choice of "long" exposure of two different parts of the commodities futures curve;
- a daily adjustment to reflect a hedge against exchange rate movements between the US Dollar and the Relevant Currency; plus
- exposure to a "total return", comprising:
 - a commodity "excess return" (spot price movement plus a positive (negative) roll yield from backwardation (contango) in the relevant futures market when rolling); and
 - a collateral return (equivalent to an interest return net of all fees), at a rate announced each week in advance, in the form of a capital enhancement (which may be negative if the interest return element is less than the fees element) in the relevant Currency;
- exposure which is unleveraged and which changes with changes in the price(s) of the different parts of the commodity futures curve, both up and down;
- pricing which is transparent, based on indices published by CME Indexes at the end of each Pricing Day (and which in turn are based on end-of-day Settlement Prices for designated futures contracts on specified futures exchanges and foreign exchange rates sourced from the WM Company); and
- securities traded on the London Stock Exchange and/or certain other stock exchanges.

Currency-Hedged Commodity Securities confer no right to receive physical commodities. Rather, they are purely financial instruments.

Pricing and Trading of Currency-Hedged Commodity Securities

The Price of each class of Currency-Hedged Commodity Security will be calculated daily to reflect the daily movement in the level of the relevant Commodity Index on each Pricing Day and a daily Capital Adjustment as follows:

$$P_{i,t} = P_{i,t-1} \times \left(\frac{I_{i,t}}{I_{i,t-1}} + CA_{i,t} \right)$$

where:

$P_{i,t}$ is the Price of a Commodity Security of class i for day t;

$P_{i,t-1}$ is the Price of a Commodity Security of class i for day t-1;

i refers to the relevant class of Commodity Security;

t refers to the applicable calendar day;

$t-1$ refers to the calendar day prior to day t;

$I_{i,t}$ is the Closing Settlement Price Level of the Commodity Index to which Commodity Securities of class i relate for day t, *provided that* if day t is not a Pricing Day for Commodity Securities of class i, then $I_{i,t}$ will be the same as $I_{i,t-1}$;

$I_{i,t-1}$ is the Closing Settlement Price Level of the Commodity Index to which Commodity Securities of class i relate for day t-1; and

$CA_{i,t}$ is the Capital Adjustment applicable to Commodity Securities of class i and for day t, expressed as a decimal.

The Commodity Indices will be as published by CME Indexes.

No Price will be calculated for a class of Currency-Hedged Commodity Security for a Market Disruption Day or in certain other circumstances as specified in the Conditions and on any day when, in accordance with the Conditions, a Price is not calculated, the Conditions provide for an Indicative Price to be calculated instead, and once a Price can again be calculated it will be based on the preceding day's Indicative Price.

The rate of the Capital Adjustment for each class of Currency-Hedged Commodity Security is that agreed from time to time by the Commodity Contract Counterparties and the Issuer and is currently the three month U.S. Treasury Bill rate plus an implied foreign exchange hedging cost which is expected to reflect an interest rate differential between the US Dollar interbank interest rate and the interbank benchmark interest rate for the Relevant Currency less the Management Fee of 0.49 per cent. per annum in respect of the Euro Commodity Securities and the Sterling Commodity Securities and 0.69 per cent. per annum in respect of the Australian Dollar Commodity Securities, the Licence Allowance of 0.05 per cent. per annum and a Spread relating to the relevant class of Commodity Security. The Spread for each class of Commodity Security is currently equal to the sum of the Commodity Hedging Cost and the FX Daily Hedging Cost in respect of that class, as specified below:

	Commodity Hedging Cost (per cent. per annum)	FX Daily Hedging Cost (per cent. per annum)
Australian Dollar Classic Securities	0.45	0.28
Australian Dollar Longer Dated Securities	0.60	0.28
Euro Classic Securities	0.45	0.22
Euro Longer Dated Securities	0.60	0.22
Sterling Classic Securities	0.45	0.20
Sterling Longer Dated Securities	0.60	0.20

The rate of the Capital Adjustment for any day can only be calculated at the end of that day (because it depends on exchange rates for that day), but the Issuer will publish on its website weekly in advance the relevant three month U.S. Treasury Bill rate and will give at least 30 days' notice by a RIS

announcement of any change in the method of calculation of the Capital Adjustment or of any change in the spread.

Publication of Pricing Information

The Capital Adjustments and the Prices for all classes of Currency-Hedged Commodity Securities will be calculated by or on behalf of the Issuer as at the end of each Pricing Day (after the Commodity Indices have been published for that day) and prior to trading commencing on the following Pricing Day.

The Issuer's calculations of the Capital Adjustments and all Prices (and any Indicative Prices) will be posted on the Issuer's website at <http://www.ETFSecurities.com/hcsl>.

Listing and Trading

All Currency-Hedged Commodity Securities are fully transferable. The Issuer has applied to the UK Listing Authority for all of the Currency-Hedged Commodity Securities to be issued within 12 months from the date of this document to be admitted to the Official List and to the London Stock Exchange for all of such Currency-Hedged Commodity Securities to be admitted to trading on its Main Market. However, an active secondary market on the Main Market may not develop in respect of all classes of Currency-Hedged Commodity Securities.

In order to provide liquidity to investors and to minimise any tracking error, the Issuer hopes at all times after the date three months following Listing to have at least two Authorised Participants, and until then at least one Authorised Participant, making a market on the London Stock Exchange in some or all of the Currency-Hedged Commodity Securities (or on other exchanges if the Issuer decides to apply for listing of Currency-Hedged Commodity Securities on such exchanges). Authorised Participants will have the right to effect applications or redemptions — see below under “Applications and Redemptions” and Part 3 (*Description of Currency-Hedged Commodity Securities*) under the heading “Applications and Redemptions” for further details.

Each class of Currency-Hedged Commodity Securities traded on the London Stock Exchange may have different market makers, bid/offer spreads and depth of liquidity and may be traded using different platforms. The Issuer hopes that some of the more liquid Currency-Hedged Commodity Securities will be traded on the Sets-MM platform but can give no assurance as to which Currency-Hedged Commodity Securities might attract the most and the least amount of trading activity.

Commodity Contracts and Facility Agreements

The liability of the Issuer to Security Holders upon redemption of Currency-Hedged Commodity Securities will be backed by Commodity Contracts with corresponding terms. Each time Currency-Hedged Commodity Securities are issued or redeemed by the Issuer, corresponding Commodity Contracts will be created or terminated by the Issuer under a Facility Agreement.

All Commodity Contracts of a particular class will be attributable to the same Pool as the existing Commodity Contracts of that class and newly issued Currency-Hedged Commodity Securities will be backed by the same assets (including the newly created and existing Commodity Contracts of that class) as the existing Currency-Hedged Commodity Securities of that class.

The Issuer has entered into Facility Agreements with UBS and with MLI (UBS and MLI respectively as the counterparty to the Commodity Contracts). The Issuer has also entered into Security Agreements with UBS and MLI and Control Agreements with UBS and The Bank of New York Mellon (as Securities Intermediary) and with MLI and The Bank of New York Mellon, the terms of which are described below. Information relating to UBS and MLI is set out in Part 10 (*Particulars of the Commodity Contract Counterparties*).

Under the terms of the Facility Agreements, the Issuer can create and terminate Commodity Contracts on a continuous basis, subject to the Creation Limits and the Redemption Limit (and days not being Market Disruption Days) and certain other conditions. Further information on the Creation Limits and the Redemption Limit is set out below.

The Issuer is only permitted to issue new Currency-Hedged Commodity Securities if it can create corresponding Commodity Contracts under a Facility Agreement.

Further information on Commodity Contracts, the Facility Agreements, the Security Agreements and the Control Agreements is set out in Part 4 (*Description of Facility Agreements and Commodity Contracts*).

Provision of Collateral by the Commodity Contract Counterparties

Security Agreements and Control Agreements

The Issuer has entered into the UBS Security Agreement (which was entered into in relation to and supplements the UBS Facility Agreement) and the MLI Security Agreement (which was entered into in relation to and supplements the MLI Facility Agreement) under which UBS and MLI (respectively) have agreed to provide Collateral in respect of their Collateral Exposure at any time. The Collateral Exposure applicable to each Commodity Contract Counterparty and Currency is calculated each Business Day by both the Issuer and that Commodity Contract Counterparty and is verified between the parties each Business Day.

The Issuer has also entered into the UBS Control Agreement with UBS and The Bank of New York Mellon (as Securities Intermediary) and the MLI Control Agreement with MLI and The Bank of New York Mellon (as Securities Intermediary). Under the terms of each Security Agreement and Control Agreement, the relevant Commodity Contract Counterparty is required to post the Collateral relating to Commodity Contracts denominated in each Currency to the Collateral Account relating to that Currency in its name at The Bank of New York Mellon.

Under the terms of each Control Agreement, the Bank of New York Mellon (as Securities Intermediary) may utilise depositories, banks or other financial institutions in connection with the custody of the Collateral.

Each Business Day in respect of each Commodity Contract Counterparty and Currency, the Securities Intermediary is required to calculate the value (in accordance with the valuation provisions in the Control Agreement described in more detail below) of the Collateral in the relevant Collateral Account as at the close of business (New York time) on the previous Business Day and each Commodity Contract Counterparty must report the Collateral Exposure in respect of such Currency calculated as at close of business on the immediately preceding Business Day. Under the Security Agreements and Control Agreements, UBS and MLI (respectively) are required to transfer to its Collateral Account relating to that Currency, securities and obligations to the value (taking into account the value of Eligible Collateral already credited to such account) of the Issuer's total exposure to UBS or MLI (as applicable) under (*inter alia*) the fully paid Commodity Contracts denominated in such Currency between the Issuer and that Commodity Contract Counterparty at the close of business on the immediately preceding Business Day. If on any Business Day the aggregate value of the Collateral in the relevant Collateral Account is greater than such exposure, then the relevant Commodity Contract Counterparty may request that the Securities Intermediary transfers Collateral from such Collateral Account to another account of the relevant Commodity Contract Counterparty's choosing and such transferred Collateral will no longer form part of the Collateral for the purposes of the relevant Security Agreement. The Securities Intermediary may not permit a Commodity Contract Counterparty to transfer assets out of a Collateral Account (i) such that the total value of Collateral in such Collateral Account would equal less than such exposure, or (ii) without the Issuer's consent. For these purposes references to the "value" of the Collateral constitute references to the value thereof determined by the Securities Intermediary in accordance with the valuation provisions in the Control Agreements described in more detail below.

Under the terms of the Security Agreements and the Control Agreements, the Issuer may take control of the Collateral Accounts and any Collateral in the Collateral Accounts in certain circumstances including, *inter alia*: (i) the occurrence of a Counterparty Event of Default in respect of the relevant Commodity Contract Counterparty that was not caused by a breach by the Issuer of its obligations under the relevant Facility Agreement or by any Authorised Participant under the relevant Authorised Participant Agreement and, after giving effect to any applicable notice requirement or grace period, there occurs under the Facility Agreement a liquidation of, or an acceleration of all of the obligations of the relevant Commodity Contract Counterparty under the relevant Facility Agreement; (ii) failure by the relevant Commodity Contract Counterparty to transfer Collateral to the relevant Collateral Account when due and such failure continues for two Business Days; (iii) failure by the relevant Commodity Contract Counterparty to comply with or perform any other provisions of or obligations under the relevant Security Agreement (other than as set out in (ii)) and such failure continues for 30 days after receipt by the relevant Commodity Contract Counterparty of notice of such failure; or (iv) the relevant Commodity Contract Counterparty (a) is dissolved (other than pursuant to a consolidation,

amalgamation or merger); (b) becomes insolvent or is unable to pay its debts or fails or admits in writing its inability generally to pay its debts as they become due; (c) makes a general assignment, arrangement or composition with or for the benefit of its creditors; (d) institutes or has instituted against it a proceeding seeking a judgment of insolvency or bankruptcy or any other relief under any bankruptcy or insolvency law or other similar law affecting creditors' rights, or a petition is presented for its winding-up or liquidation, and, in the case of any such proceeding or petition instituted or presented against it, such proceeding or petition (X) results in a judgment of insolvency or bankruptcy or the entry of an order for relief or the making of an order for its winding-up or liquidation or (Y) is not dismissed, discharged, stayed or restrained in each case within 60 days of the institution or presentation thereof; (e) has a resolution passed for its winding-up, official management or liquidation (other than pursuant to a consolidation, amalgamation or merger); (f) seeks or becomes subject to the appointment of an administrator, provisional liquidator, conservator, receiver, trustee, custodian or other similar official for it or for all or substantially all its assets; (g) has a secured party take possession of all or substantially all its assets or has a distress, execution, attachment, sequestration or other legal process levied, enforced or sued on or against all or substantially all its assets and such secured party maintains possession, or any such process is not dismissed, discharged, stayed or restrained, in each case within 60 days thereafter; (h) causes or is subject to any event with respect to it which, under the applicable laws of any jurisdiction, has an analogous effect to any of the events specified in clauses (a) to (g) (inclusive); or (i) takes any action in furtherance of, or indicating its consent to, approval of, or acquiescence in, any of the foregoing acts. An event of default by UBS under a Classic and Longer Dated Facility Agreement or Short and Leveraged Facility Agreement will constitute an event of default under the UBS Facility Agreement.

Description of Collateral

Under the terms of the Security Agreements, each Commodity Contract Counterparty may only transfer "Eligible Collateral" into its Collateral Account. For these purposes, Eligible Collateral means:

- (A) cash denominated in US Dollars or the Relevant Currency or in any other currency that may from time to time be agreed between the Issuer and a Commodity Contract Counterparty provided that it is invested in AAA rated, government or treasury money market funds;
- (B) debt securities or obligations issued by the United States Government;
- (C) (1) non-U.S. debt securities or obligations issued by (a) any of the governments of Belgium, Canada, France, Germany, Italy, Japan, The Netherlands, Sweden, Switzerland or the United Kingdom, or (b) any of the governments of Austria, Australia, Denmark, Finland, Luxembourg, New Zealand, Norway, Portugal or Spain where such government has a long-term issuer rating of not lower than "AA" by Standard & Poor's Rating Services or "Aa2" by Moody's Investors Inc. or "AA" by Fitch Ratings Limited;
- (2) supranational bonds issued by the International Bank for Reconstruction and Development, the European Investment Bank, the Council of Europe, the Asian Development Bank or the Inter-American Development Bank with a long term issuer rating not lower than "AAA" by Standard & Poor's Rating Services or "Aaa" by Moody's Investors Inc. or "AAA" by Fitch Ratings Limited; and
- (D) Eligible Equities (which in the case of MLI includes common or preferred shares that are constituents only of specified non-U.S. indices),

provided that, *inter alia*:

- (i) none of the foregoing securities or obligations is a security or obligation of ETFSL, the Issuer, the relevant Commodity Contract Counterparty or any affiliated entities;
- (ii) securities meeting the criteria in (C)(1), (C)(2) and (D) above shall only constitute Eligible Collateral to the extent that the value of such securities does not exceed the relevant jurisdiction limit (as set out below) applicable to the jurisdiction of the relevant issuer or issuers, as the case may be; and

- (iii) securities comprising Eligible Equities shall only constitute Eligible Collateral to the extent that the value of such securities does not exceed any applicable issuer concentration limit (as set out below).

The following concentration limits apply to each type of Eligible Collateral which may be contained in the Collateral Account:

- (i) in the case of any collateral falling within paragraph (C)(1) above in the definition of “Eligible Collateral”, the Securities Intermediary will exclude from its calculation of the value of the collateral in the Collateral Account any such securities or obligations in the Collateral Account to the extent that the total value of all such securities or obligations (i) of any of the governments of the United Kingdom, Japan, Germany or France exceeds 50 per cent. of the value of the collateral in the Collateral Account or (ii) of any of the governments of the other countries listed in C(1) above exceeds 25 per cent. of the total value of the collateral in the Collateral Account;
- (ii) in the case of any Collateral falling within paragraph (C)(2) above in the definition of “Eligible Collateral”, the Securities Intermediary will exclude from its calculation of the value of the Collateral in the Collateral Account any such securities or obligations in the Collateral Account to the extent that the total value of all such securities or obligations issued by any issuer listed in paragraph (C)(2) above exceeds 25 per cent. of the total value of the Collateral in the Collateral Account;
- (iii) in the case of any Collateral falling within paragraph (D) above in the definition of “Eligible Collateral”, the Securities Intermediary will exclude from its calculation of the value of the Collateral in the Collateral Account any such Eligible Equities to the extent that (a) the total value of any Eligible Equities in the Collateral Account issued by one issuer represents: (i) 3.3 per cent. of the value of the collateral in the Collateral Account; (ii) (when taken with all other Collateral Accounts of the relevant Commodity Contract Counterparty) 2.5 per cent. of the aggregate issued and outstanding share capital of that issuer; or (iii) (when taken with all other Collateral Accounts of the relevant Commodity Contract Counterparty) 100 per cent. of the 30 day average daily volume of such Eligible Equities as determined by the Securities Intermediary; (b) (in the case of UBS) the value of all Eligible Equities issued by issuers from the United States exceeds 75 per cent. of the value of the Collateral in the Collateral Account; (c) the value of all Eligible Equities in the Collateral Account issued by issuers from each of the United Kingdom, Japan, Germany or France exceeds 25 per cent. of the value of the Collateral in the Collateral Account; and (d) the value of all Eligible Equities in the Collateral Account issued by issuers from a country other than the United States, the United Kingdom, Japan, German and France or issued by any authority or agency exceeds 10 per cent. of the value of the Collateral in the Collateral Account; and
- (iv) so long as the Issuer has not taken control of the Collateral Account in accordance with the terms of the Control Agreement and the Commodity Contract Counterparty has fulfilled all of its obligations to transfer collateral under the Security Agreement, the Commodity Contract Counterparty will be entitled to instruct the Securities Intermediary to return to it any Collateral that has been excluded from the Security Intermediary’s calculations by virtue of these concentration limits.

For the purpose of valuing the collateral in the Collateral Account the Securities Intermediary will divide the sum of the values of what it determines to be the market value of each asset of a particular type by the following percentages:

- (i) for Cash invested in money market funds described in clause (A) of the definition of “Eligible Collateral”, 100 per cent.;
- (ii) for any security or obligation falling within clauses (B) and (C) of the definition of “Eligible Collateral”, a percentage determined by the Securities Intermediary based on the remaining time to stated maturity of such security or obligation as follows:
 - (A) less than five years, 100 per cent.;

- (B) greater than or equal to five years and less than 10 years, 101 per cent.;
- (C) 10 years or greater, 102 per cent.; and
- (iii) for any security eligible under clause (D) of the definition of “Eligible Collateral” either 105 per cent. or 110 per cent., depending on the particular index to which such Eligible Equity belongs.

The Issuer will arrange for a breakdown of the Collateral posted by the Commodity Contract Counterparties (which will not be broken down by Account or by Commodity Contract Counterparty) to be made available at http://www.etfsecurities.com/en/securities/etfs_collateral.asp.

BAC Guarantee

MLI is required under the terms of the MLI Facility Agreement to ensure that its obligations thereunder and any Commodity Contracts issued pursuant to the MLI Facility Agreement have the benefit of credit support provided by BAC. In fulfillment of that requirement, BAC has entered into the BAC Guarantee. The principal provisions of the BAC Guarantee are as follows:

- BAC unconditionally guarantees to the Issuer the prompt payment of any and all obligations and liabilities of MLI under the terms of the MLI Facility Agreement, the MLI Security Agreement and the MLI Control Agreement including, in case of default, interest on any amount due, when and as the same shall become due and payable, whether on the scheduled payment dates, at maturity, upon declaration of termination or otherwise, after giving effect to any applicable notice requirement or grace period and, at all times, in accordance with the terms of that Agreement.
- In the event that MLI fails to make any payment under such Agreements when due after giving effect to any applicable notice requirement and grace period, BAC agrees to make such payment, or cause any such payment to be made, promptly upon receipt of written demand from the Issuer to BAC; provided that delay by the Issuer in giving such demand shall in no event affect BAC's obligations under the BAC Guarantee.
- BAC agrees that its obligations under the BAC Guarantee will be unconditional, irrespective of (i) the validity, regularity or enforceability (except as may result from any applicable statute of limitations) of the MLI Facility Agreement, MLI Security Agreement and MLI Control Agreement, (ii) the absence of any action to enforce the same, (iii) any waiver or consent by the Issuer concerning any provisions thereof, (iv) the rendering of any judgment against MLI or any action to enforce the same or (v) any other circumstances that might otherwise constitute a legal or equitable discharge of a guarantor or a defense of a guarantor, other than defense of payment.
- BAC agrees that the BAC Guarantee will not be discharged except by complete payment of the amounts payable under the MLI Facility Agreement, MLI Security Agreement and MLI Control Agreement.
- BAC shall not be required to pay, or otherwise be liable to, the Issuer for any consequential, indirect or punitive damages (including, but not limited to, opportunity costs or lost profits).
- The BAC Guarantee is governed by and construed in accordance with the internal laws of the State of New York as applicable to contracts or instruments made and to be performed therein.

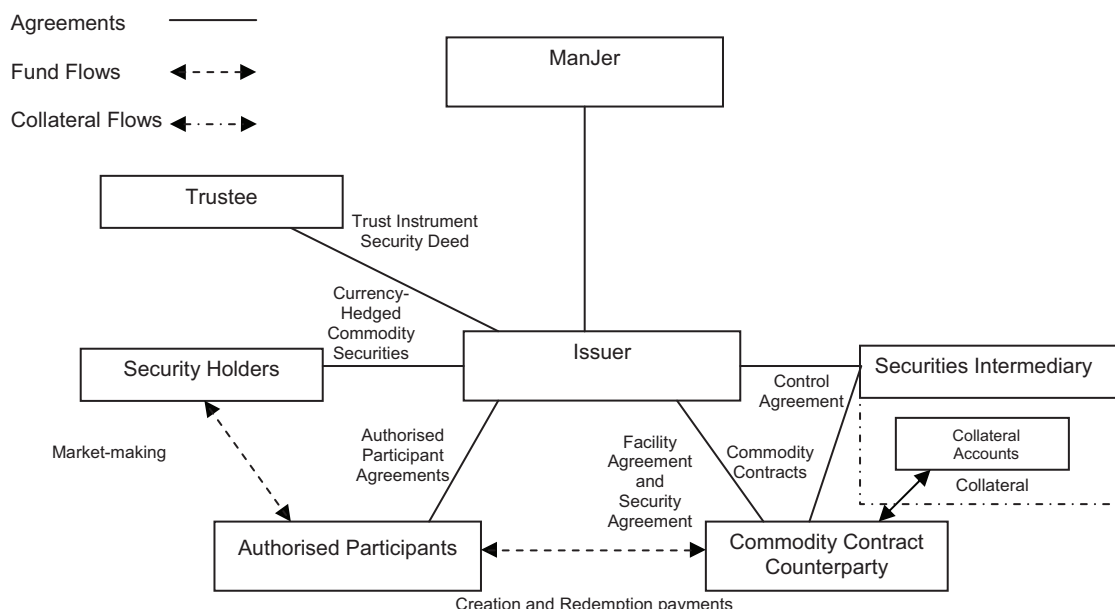

The BAC Guarantee may be terminated by BAC at any time by written notice to the Issuer by BAC, effective immediately following receipt of such written notice by the Issuer or at such later date as may be specified in such written notice, but will continue in full force and effect with respect to any obligation of MLI under the MLI Facility Agreement, MLI Security Agreement and MLI Control Agreement entered into prior to the effectiveness of such written notice of termination.

Contract Structure for Currency-Hedged Commodity Securities

Currency-Hedged Commodity Securities are constituted by the Trust Instrument. Under the terms of the Trust Instrument, the Trustee acts as trustee for the Security Holders of each type of Currency-Hedged Commodity Securities.

The obligations of the Issuer in respect of each class of Currency-Hedged Commodity Securities will be secured by a charge over the equivalent class of Commodity Contracts held by the Issuer and over the rights of the Issuer in respect of those Commodity Contracts under the Facility Agreements, the Security Agreements and the Control Agreements.

A diagrammatic representation of the principal aspects of the structure as currently in place appears below (for simplicity only one Commodity Contract Counterparty and Collateral Account is illustrated and the BAC Guarantee is omitted):

Applications and Redemptions

Currency-Hedged Commodity Securities can be issued or redeemed at any time, subject to conditions (including not exceeding the Creation Limits and Redemption Limit), by Authorised Participants. The issue and redemption mechanism is intended to ensure that Currency-Hedged Commodity Securities have sufficient liquidity and that the price at which they trade on the London Stock Exchange or other exchanges tracks the relevant Price formula. Only an Authorised Participant may apply for or (unless there are at any given time no Authorised Participants or as otherwise announced by the Issuer) redeem Currency-Hedged Commodity Securities — all other persons must buy and sell Currency-Hedged Commodity Securities through trading on the London Stock Exchange or other relevant exchanges on which the Currency-Hedged Commodity Securities are admitted to trading.

Currency-Hedged Commodity Securities can only be issued or redeemed if corresponding Commodity Contracts can be created or terminated. There are limits on the creation and termination of Commodity Contracts, which means that there are corresponding limits on the issue and redemption of Currency-Hedged Commodity Securities.

Creation and Redemption Limits

There are two separate Creation Limits, one a total limit and the other a daily limit. Unless otherwise agreed by a Commodity Contract Counterparty, the total limit for MLI is that Commodity Contracts cannot be created under the MLI Facility Agreement to the extent that the Aggregate Outstanding Contracts Price would exceed US\$1.5 billion (US\$1,500,000,000) and the total limit for UBS is that Commodity Contracts cannot be created under the UBS Facility Agreement to the extent that the Aggregate Outstanding Contract Price would exceed US\$1 billion (US\$1,000,000,000).

The daily limit is class-specific. Unless otherwise agreed by a Commodity Contract Counterparty, Commodity Contracts of a particular class may not be created under the Facility Agreement with it on a day to the extent that the aggregate Exposure to any Relevant Commodity relating to such class of all Commodity Contracts of any class which are created under that Facility Agreement on that day less the aggregate Exposure to such Relevant Commodity of all Commodity Contracts which are cancelled under that Facility Agreement on that day would exceed an amount equal to the higher of US\$7.5 million and the product of US\$250 million and the CIP, if any, of the Relevant Commodity on that day.

The Redemption Limit is also a daily limit, and also class-specific. It is the same amount per class as the daily Creation Limit (unless the Commodity Contract Counterparty otherwise agrees).

For the purposes of the Creation and Redemption Limits, Application and Redemption Forms are dealt with in strict time priority by reference to the date and time of their receipt.

The Creation Limits and Redemption Limits in a Facility Agreement may be amended by written agreement of the Issuer and the relevant Commodity Contract Counterparty. If they are amended, the Issuer will make an announcement by RIS.

Authorised Participants

The Issuer has agreed to use reasonable endeavours to ensure that at all times there are at least two Authorised Participants. However, if at any given time there are no Authorised Participants, Security Holders are permitted to redeem Currency-Hedged Commodity Securities held by them.

As at the date of this document ABN AMRO Clearing Bank N.V., Merrill Lynch International, Susquehanna International Securities Limited, Susquehanna Ireland Limited Virtu Financial Ireland Limited and UBS AG, London Branch are Authorised Participants. Additional Authorised Participants may be introduced in due course.

Payments for Applications and Redemptions

Payment for the issue of Currency-Hedged Commodity Securities (and the corresponding creation of Commodity Contracts) will be made in US Dollars (based on the Settlement Foreign Exchange Rate for the Relevant Currency on the applicable Pricing Date) directly from the relevant Authorised Participant(s) to the relevant Commodity Contract Counterparty, and payment upon redemption of Currency-Hedged Commodity Securities (and termination of the corresponding Commodity Contracts) will (save where there are no Authorised Participants, in the case of compulsory redemptions or if the Issuer has announced that redemptions may be made by Security Holders in accordance with the Conditions) be made in US Dollars (based on the Settlement Foreign Exchange Rate for the Relevant Currency on the applicable Pricing Date) directly from the relevant Commodity Contract Counterparty to the relevant Authorised Participant(s). Payments from or to Authorised Participants in respect of Currency-Hedged Commodity Securities will be made via the CREST system on a delivery versus payment basis. In the cases of compulsory redemptions, redemptions where there are no Authorised Participants or other redemptions by Security Holders, the relevant Commodity Contract Counterparty will make payment in US Dollars to accounts of the Issuer secured for the benefit of the Security Holders of the relevant classes or to the Trustee for the benefit of such Security Holders.

Further details of the application and redemption process are set out in Part 3 (*Description of Currency-Hedged Commodity Securities*) under the heading "Applications and Redemptions".

Security Structure

A security structure has been established to provide security for the payment obligations of the Issuer to Security Holders upon redemption of Currency-Hedged Commodity Securities.

The Issuer has been established as an "umbrella" or "multi-class" company with separate Pools of assets so that the Issuer can issue separate classes of securities, based on different prices, different currencies of denomination or having some other different characteristics, but on terms that each such separate class of securities would have recourse only to the Pool attributable to that class and not to the assets attributable to any other class. The assets and liabilities attributable to each class of Currency-Hedged Commodity Securities will represent the Pool for that class.

Thus there are 210 separate Pools currently applicable to Currency-Hedged Commodity Securities. A single Pool secures all Currency-Hedged Commodity Securities of a single class.

Currency-Hedged Commodity Securities are constituted under the Trust Instrument. The Trustee holds all rights and entitlements under the Trust Instrument on trust for the Security Holders.

In addition, the Issuer and the Trustee have entered into a single Security Deed in respect of all the Pools. The rights and entitlements held by the Trustee under the Security Deed in respect of any particular Pool are held by the Trustee on trust for the Security Holders of that particular class of Currency-Hedged Commodity Securities.

Under the terms of the Security Deed, the Issuer has in respect of each Pool assigned to the Trustee by way of security the contractual rights of the Issuer relating to such class under each Facility

Agreement, and granted a first-ranking floating charge in favour of the Trustee over all of the Issuer's rights in relation to the Secured Property attributable to the applicable Pool, including but not limited to its rights under each Facility Agreement, all Commodity Contracts for the relevant class created pursuant to each Facility Agreement, the BAC Guarantee and the rights of the Issuer under each Security Agreement and each Control Agreement, in each case insofar as it relates to the relevant Pool.

If the amounts received from the relevant Secured Property are insufficient to make payment of all amounts due in respect of the relevant Pool, no other assets of the Issuer shall be available to meet that shortfall and all further claims of the holders in respect of such class of Currency-Hedged Commodity Securities will be extinguished.

The Commodity Contracts, the UBS Facility Agreements, the UBS Security Agreement, The UBS Control Agreement, the MLI Facility Agreement, the MLI Security Agreement and the MLI Control Agreement have the characteristics that demonstrate capacity to produce funds to service any payments due and payable on Commodity Securities.

Under the terms of the Trust Instrument, it is agreed that the Security Holders, or the Trustee on their behalf, will not, in relation to Currency-Hedged Commodity Securities, institute against, or join any person in instituting against, the Issuer any bankruptcy, suspension of payments, moratorium of any indebtedness, winding-up, re-organisation, arrangement, insolvency or liquidation proceeding or other proceeding under any similar law (except for the appointment of a receiver and manager pursuant to the relevant Security Deed) in relation to the Issuer for two years (or, if later, the longest suspense period, preference period or similar period (howsoever described) ending with the onset of insolvency in respect of which transactions entered into by the Issuer within such period may be subject to challenge under applicable insolvency or other proceeding) plus one day after the date on which all amounts payable for all outstanding Currency-Hedged Commodity Securities issued by the Issuer are repaid.

Further details of the Trust Instrument are set out in Part 6 (*Trust Instrument and Currency-Hedged Commodity Securities*). Further details of the Security Deed are set out in Part 7 (*Particulars of the Security Deed*).

The Issuer

The Issuer is a public company incorporated in Jersey on 11 November 2011 for the purpose of issuing debt securities the price of which is related to commodities or commodity indices and entering into the Documents and agreements relating to other classes or classes of commodity securities.

The shares in the Issuer are all held by HoldCo, a company incorporated in Jersey which is wholly-owned by ETFSL, and ManJer acts as the manager of the Issuer. The Issuer is neither directly or indirectly owned or controlled by any other party to the Programme. The Issuer is dependent upon ManJer to provide management and administration services to it, as further described below under the heading "Administration". ManJer intends to promote and to provide management and other services to both the Issuer and other companies issuing asset-backed securities and currently also provides such services to ETFS Commodity Securities Limited, ETFS Metal Securities Limited, ETFS Metal Securities Australia Limited, ETFS Oil Securities Limited, Gold Bullion Securities Limited, ETFS Foreign Exchange Limited, ETFS Industrial Metal Securities Limited, ETFS Commodity Securities Australia Limited and Swiss Commodity Securities Limited.

The Issuer is a special purpose company whose only assets attributable to Currency-Hedged Commodity Securities of each class are the Commodity Contracts of each class and rights under the Facility Agreements, the Security Agreements and the BAC Guarantee (together, if there are any other Commodity Contract Counterparties, with any Facility Agreements and Commodity Contracts with such other Commodity Contract Counterparties and any related credit support) to the extent attributable to that class. The Issuer's obligations are primarily its obligations under the Currency-Hedged Commodity Securities.

Administration

ManJer will, pursuant to the Services Agreement, supply, or arrange the supply of, all management and administration services for the Issuer and will pay all the management and administration costs of the Issuer.

ManJer may engage third parties to provide some or all of these services. In particular, ManJer has entered into a corporate administration agreement with R&H Fund Services (Jersey) Limited (the "**Secretary**") whereby the Secretary will perform certain administration duties for the Issuer and

Computershare Investor Services (Jersey) Limited has been appointed to provide services as Registrar, and will maintain the Registers in Jersey.

The Service Agreement may be terminated by ManJer at any time on three months' notice or earlier in the event of certain breaches or the insolvency of either party.

ManJer is a company incorporated in Jersey under the Companies (Jersey) Law 1991. It was incorporated on 16 November 2010, its registered office is Ordnance House, 31 Pier Road, St. Helier, Jersey JE4 8PW, Channel Islands and it is a wholly-owned subsidiary of ETFSL.

Management Fee and Licence Allowance

In return for ManJer supplying to the Issuer, or arranging the supply to the Issuer of, all management and administration services, the Issuer is liable under the Services Agreement to pay ManJer a fee equal to the Management Fee paid to the Issuer by the Commodity Contract Counterparties under the Capital Adjustment Agreements. The Management Fee, as at the date of this Prospectus, is 0.49 per cent. per annum of the aggregate Price on that day of all Euro Commodity Securities and all Sterling Commodity Securities outstanding and 0.69 per cent. per annum of the aggregate Price on that day of all Australian Dollar Commodity Securities outstanding. The fee rate may be varied by the Issuer from time to time.

The Commodity Contract Counterparties will pay to the Issuer in respect of the Commodity Contracts to which each is party amounts equal to the Management Fee and a Licence Allowance, which will be used to pay licence fees to CME Indexes due under the Licence Agreement (with any difference being payable to/by ManJer). The Licence Allowance payable by each Commodity Contract Counterparty is currently 0.05 per cent. per annum of the aggregate daily Price of all fully paid Commodity Contracts outstanding with that Commodity Contract Counterparty.

The Issuer will only be liable to pay the fees to ManJer upon receipt of the relevant amounts from the Commodity Contract Counterparties.

ManJer will pay the Licence Allowance to ETFSL to enable ETFSL to pay any fees due under the Licence Agreement.

The rate of the Management Fee and Licence Allowance will be reflected in the adjustments to the Capital Adjustment each day, commencing upon the relevant Currency-Hedged Commodity Securities first being issued.

If the Management Fee or the Licence Allowance is amended, such amendment will be notified through an RIS, and will not take effect for at least 30 days following the publication of the RIS.

Commodity Contract Counterparty fees

The Commodity Contract Counterparties do not charge any fees or expenses to the Issuer, ManJer or ETFSL in relation to the Facility Agreements, the Security Agreements or the Control Agreements. However the Commodity Contract Counterparties will have the use of the funds in each Relevant Currency paid to them for the creation of Commodity Contracts (net of redemptions) and the amount they pay for this benefit will be reflected in the rate of the Capital Adjustment, which rate will be agreed from time to time by the Commodity Contract Counterparties and the Issuer. The rate of the Capital Adjustment for each class of Currency-Hedged Commodity Security is currently the three month U.S. Treasury Bill rate plus an implied foreign exchange hedging cost which is expected to reflect an interest rate differential between the US Dollar interbank interest rate and the interbank benchmark interest rate for the Relevant Currency less the Management Fee of 0.49 per cent. per annum in respect of the Euro Commodity Securities and the Sterling Commodity Securities and 0.69 per cent. per annum in respect of the Australian Dollar Commodity Securities, the Licence Allowance of 0.05 per cent. per annum and a Spread relating to the relevant class of Commodity Security. The Spread for each class of Commodity

Security is currently equal to the sum of the Commodity Hedging Cost and the FX Daily Hedging Cost in respect of that class, as specified below:

	Commodity Hedging Cost (per cent. per annum)	FX Daily Hedging Cost (per cent. per annum)
Australian Dollar Classic Securities	0.45	0.28
Australian Dollar Longer Dated Securities	0.60	0.28
Euro Classic Securities	0.45	0.22
Euro Longer Dated Securities	0.60	0.22
Sterling Classic Securities	0.45	0.20
Sterling Longer Dated Securities	0.60	0.20

Each Commodity Contract Counterparty is responsible for all costs associated with it hedging its exposures and managing the cash arising from the Issuer purchasing and terminating Commodity Contracts with it at any time. To the extent that the cost to a Commodity Contract Counterparty of the Capital Adjustment (before deduction of the Management Fee and the Licence Allowance) differs from the value to it of managing the exposures and having the use of cash, such Commodity Contract Counterparty will make a profit or loss from the transaction.

If the Issuer has Commodity Contracts outstanding with more than one Commodity Contract Counterparty in relation to any Pool, the Capital Adjustment for that Pool (and the Currency-Hedged Commodity Securities of that class) will be the weighted average of the daily adjustment on all Commodity Contracts attributable to that Pool.

The Capital Adjustment may or may not be less than the rate of interest which an investor could earn by depositing funds in money markets at overnight rates, or by fully collateralising an investment in futures contracts. As at 31 January 2013, the rate of the Capital Adjustment is as follows:

	Daily†	Annual*
Australian Dollar Classic Securities	0.0045%	1.66%
Euro Classic Securities	−0.0037%	−1.37%
Sterling Classic Securities	−0.0024%	−0.88%
Australian Dollar Longer Dated Securities	0.0041%	1.51%
Euro Longer Dated Securities	−0.0042%	−1.51%
Sterling Longer Dated Securities	−0.0028%	−1.03%

† as of 31 January 2013 (rate changes weekly)

• is the Daily rate compounded over 365 days

Calculation Agent

UBS is required to act as Calculation Agent under and solely for the purposes of the UBS Facility Agreement, the MLI Facility Agreement and any other Facility Agreement that may be entered into with other Commodity Contract Counterparties.

More information on the role of UBS as Calculation Agent is set out in Part 4 (*Description of Facility Agreements and Commodity Contracts*) under the headings “Calculation Agency Agreement” and “Calculation Agent”.

Directors and Secretary of the Issuer

The Directors and the secretary of the Issuer (and of HoldCo) at the date of this document are:

Graham Tuckwell — Chairman

Mr Tuckwell is the founder and chairman of ETF Securities Limited, ManJer, HoldCo and the Issuer and of nine other companies issuing exchange-traded products: Gold Bullion Securities Limited in Jersey, ETFS Metal Securities Australia Limited in Australia (which two companies obtained the world’s first listings of an exchange traded commodity on a stock exchange), ETFS Commodity Securities Limited, ETFS Metal Securities Limited, ETFS Oil Securities Limited, ETFS Foreign Exchange Limited, ETFS Industrial Metal Securities Limited, ETFS Commodity Securities Australia Limited and Swiss

Commodity Securities Limited. Mr Roxburgh is a Chartered Accountant (ACA) and a member of the Association of Corporate Treasurers (AMCT). He holds an Executive MBA from University of Bristol/Ecole Nationale des Ponts et Chausses and a BSc in Physics from the University of Manchester.

Graeme Ross — Non-Executive Director

Mr Ross graduated from Abertay University in 1980 and joined Arthur Young McClelland Moores in Perth, Scotland. He qualified as a chartered accountant in 1984 and joined KPMG Peat Marwick's practice in Jersey shortly afterwards. Mr Ross joined the Jersey practice of Rawlinson & Hunter in 1986 as a manager in the fund administration division. In 1994 he was admitted to the Jersey partnership. Mr Ross has been the managing director of R&H Fund Services (Jersey) Limited since 1996 and has in-depth knowledge and experience of the fund management industry and in particular retail funds. He has worked in the offshore fund management industry for 28 years and also served as a committee member of the Jersey Fund Managers Association for three years. As a director of R&H Fund Services (Jersey) Limited, Mr Ross maintains the day-to-day operations in Jersey of the Issuer and those of Gold Bullion Securities Limited, ETFS Commodity Securities Limited, ETFS Metal Securities, ETFS Oil Securities Limited, ETFS Foreign Exchange Limited, ETFS Industrial Metal Securities Limited, ETFS Commodity Securities Australia Limited and Swiss Commodity Securities Limited (he is a non-executive director of each of those companies and of ManJer and HoldCo).

Craig Stewart — Non-Executive Director

Mr Stewart graduated from Edinburgh University in 1987 with a degree in Politics and worked in commercial roles for two blue chip companies headquartered in London. In 1993, he joined Arthur Andersen's Audit and Business Advisory practice in Jersey and qualified as a chartered accountant in 1997. He has specialised in the investment fund sector and been particularly involved with retail, institutional and private equity funds. In 1997, he was promoted to manager with sole responsibility for Andersen's asset management clients in European offshore jurisdictions. In April 2000, he joined Rawlinson & Hunter's fund administration division and in January 2001 he was promoted to Director of R&H Fund Services (Jersey) Limited. He was admitted to the partnership of Rawlinson & Hunter, Jersey, in 2003. Mr Stewart has worked in the offshore fund management industry for almost 20 years and also served as a committee member of the Jersey Fund Managers Association for three years. Mr Stewart is also a non-executive director of HoldCo, Gold Bullion Securities Limited, ETFS Commodity Securities Limited, ETFS Metal Securities Limited, ETFS Oil Securities Limited, ETFS Foreign Exchange Limited, ETFS Industrial Metal Securities Limited, ETFS Commodity Securities Australia Limited and Swiss Commodity Securities Limited.

It is not involved in any other business activities other than that of acting as manager and administrator of collective investment schemes and is a wholly owned subsidiary of Rawlinson & Hunter in Jersey. The directors of R&H Fund Services (Jersey) Limited are:

Graeme David Ross
Craig Andrew Stewart
Hilary Patricia Jones

Directors and Secretary of ManJer

The directors of ManJer at the date of this Prospectus are Graham Tuckwell, Tim Armour, Graham Birch, Ben Cukier, Vince Fitzgerald and Graeme Ross. The secretary of ManJer at the date of this document is R&H Fund Services (Jersey) Limited. The biographies of Mr Tuckwell and Mr Ross are set out under the heading “Directors and Secretary of the Issuer” above. The biographies of the other directors are as follows:

Timothy K. Armour

Mr Armour has been a member of the board of directors of ManJer and ETFSL since March 2011. Mr Armour has been a director of Janus Capital Group since April 2008. He serves as a director of AARP Services Inc. (a non-profit organization for retired persons) and as chairman of the trustees of AQR Mutual Funds (a mutual fund investment trust). He was managing director of Morningstar Inc., a public company traded on NASDAQ, from 2000 until his retirement in March 2008. Mr Armour was Morningstar Inc.’s president from 1999 to 2000 and its chief operating officer from 1998 to 1999. Morningstar provides investment research, including stock and fund analysis, reports and tools, as well as company, investing, and financial news. From 1992 to 1998, he served as president of the Mutual Funds Division of Stein Roe & Farnham, Inc. Mr Armour received his B.A. from Gettysburg College and his M.B.A. from Columbia University Graduate School of Business.

Dr Graham Birch

Dr Birch has been a member of the board of directors of ManJer and ETFSL since March 2011. Dr Birch served as a Managing Director of BlackRock, where he was also the head of BlackRock’s natural resources team, from 2006 until his retirement in February 2010. During Dr Birch’s tenure as head of the natural resources team assets under management grew to a peak of US\$50 billion. Dr Birch has won numerous awards as the lead fund manager of the BlackRock World Mining Trust, the BlackRock Gold and General Fund and the BlackRock Agriculture Fund. He also comanaged the BlackRock Natural Resources Hedge Fund. Beginning in 1993, Dr Birch worked at Mercury Asset Management where he was subsequently appointed head of natural resources investment and which was acquired by Merrill Lynch Investment Managers in 1997 and which was itself acquired by BlackRock in 2006. Between 1984 and 1993, Dr Birch worked as a metals, mining and natural resources equity analyst with Panmure Gordon, Kleinwort Benson Securities and Ord Minnett. At each of these firms, Dr Birch was responsible for the launch of funds aimed at broadening the depth and range of the natural resources product offering. Dr Birch is Vice Chairman of Rothamsted Research, a leading agricultural research laboratory in the United Kingdom. In addition, Dr Birch serves as senior non-executive director of Petropavlovsk, a publicly traded gold mining company listed on the London Stock Exchange with assets in Russia and as a nonexecutive director of Hochschild Mining, a London listed precious metals mining company with operations in Peru, Argentina, Mexico and Chile. He holds a Bachelor of Science and Ph.D. in mining geology from Imperial College, London.

Benjamin M. Cukier

Mr Cukier has been a member of our board of directors since December 2006. Mr Cukier is a partner at FTV Capital, which he joined in 1999. Mr Cukier leads investments in asset management, lending and banking for FTV. He led FTV’s investment into and sat on the boards of PowerShares, LLC and ETF Securities. He also sits on the board of Velocity Shares, LLC, Aspire, LLC and Financial Development Corp, LLC. Mr Cukier was previously with the Telecommunications and Media Team at Madison Dearborn Partners in Chicago. Prior to joining Madison Dearborn Partners, Mr Cukier was with

McKinsey & Co. in New York, where he consulted to clients in the telecommunications, Internet, and healthcare industries. Mr Cukier received a B.S. and B.A. from the University of Pennsylvania and an M.B.A. from Stanford University.

Dr Vince FitzGerald

Dr FitzGerald has been a member of our board of directors since February 2005. In addition, Dr FitzGerald was a founding board member of Gold Bullion Securities and has served on its board since 2003. Dr FitzGerald is a director (formerly chairman) of The Allen Consulting Group Pty Ltd, an Australian consulting company in the fields of economics, public policy and economic and financial regulation, and has been a director there since 1989, soon after its foundation. Prior to that, he was a senior government official in Canberra, with assignments in the Departments of the Treasury, Prime Minister and Cabinet, Finance (Deputy Secretary), Trade (Secretary) and Employment, Education and Training (Secretary). From 1994 to 2004, he was a director of ING Australia Holdings Ltd and its subsidiaries, and was chairman of its audit and risk management committees. Dr FitzGerald has been involved in the superannuation (pension fund) industry in Australia, and is a fund trustee. He is president of the Victorian Division of the Australian Institute of Company Directors and a member of its national board. He is also a member of the governing council of the Australian National University. He holds a Bachelor of Economics (First class Honours in Econometrics) from the University of Queensland and a Ph.D. in Economics from Harvard University.

Conflicts of Interest

Mr Tuckwell and Mr Ross are also directors of ManJer, a provider of services to the Issuer and all of the Directors are also directors of HoldCo, the sole shareholder of the Issuer. Mr Ross and Mr Stewart are also directors of R&H Fund Services (Jersey) Limited, the secretary of the Issuer. Mr Tuckwell is also a director of and a shareholder in ETFSL. While these roles could potentially lead to conflicts of interest, the Directors do not believe there are any actual or potential conflicts of interest between the duties which the directors and/or members of the administrative, management and supervisory bodies of the Issuer owe to the Issuer, and the private interests and/or other duties which they have.

Save as specifically stated herein, none of the principal activities performed by the Directors outside the Issuer are significant with respect to the Issuer and they have no interests that are material to the Programme.

Further Information

Information regarding taxation in the United Kingdom, Jersey, Austria, Denmark, Finland, France, Germany, Ireland, Italy, the Netherlands, Norway, Portugal, Spain and Sweden in respect of the Programme and Currency-Hedged Commodity Securities is set out in Part 11 (*Additional Information*). If an investor is in any doubt about the tax position, it should consult a professional adviser.

Your attention is drawn to the remainder of this document which contains further information relating to the Programme and Currency-Hedged Commodity Securities.

PART 2

DOW JONES — UBS COMMODITY INDICES

Dow Jones — UBS Commodity Index — Daily Currency Hedged Versions and Sub-Indices

All Currency-Hedged Commodity Securities will be priced by reference to daily changes in the levels of Currency-Hedged Commodity Indices published by CME Indexes. These indices are constructed and published pursuant to a joint arrangement between UBS Securities and CME Indexes. The DJ-UBS Commodity Indices — Daily Currency Hedged Versions and their sub-indices (including the Individual Commodity Indices and the other Composite Commodity Indices) are published on CME Indexes' website at <http://www.djindexes.com/commodity/>.

The website provides simulated historical values of each of the indices on a daily basis from the beginning of 1991. The data file is updated each day and is provided in Excel format, enabling users to calculate historic performance and volatility.

The methodology used to calculate these indices is set out in the DJ-UBS CISM Handbook, which at the date of this Prospectus is available at the above website and also at: <http://www.djindexes.com/commodity/>.

The DJ-UBS Commodity Indices — Daily Currency Hedged Versions are intended as benchmarks for non-US Dollar investors wishing to invest in the DJ-UBS CISM and sub-indices and the DJ-UBS CI-F3SM and sub-indices, which are calculated in US Dollars, for which the effects of foreign exchange risk are hedged. The DJ-UBS Commodity Indices — Daily Currency Hedged Versions are denominated in the following currencies, amongst others: Australian Dollar, Euro and Pound Sterling. Each such index is calculated by reference to the DJ-UBS CISM or the DJ-UBS CI-F3SM (which are calculated in US Dollars) and reflects a hedge into the Currency of denomination of the relevant Currency-Hedged Commodity Index which is rebalanced on a daily basis.

The Unhedged Commodity Indices are widely followed indices which in the case of the DJ-UBS CISM, and the Unhedged Classic Individual Commodity Indices for the commodities included therein (other than Brent Crude), has been published since 1998, with simulated historical data calculated back to January 1991 and in the case of the DJ-UBS CI-F3SM, and the Unhedged Longer Dated Individual Commodity Indices for the commodities included therein, has been published since July 2006, with simulated historical data calculated back to 1991. The Cocoa Unhedged Individual Commodity Index has been published since February 2006 with simulated historical data calculated back to 1991, the Lead, Platinum and Tin Unhedged Individual Commodity Indices have been published since March 2008 with simulated historical data calculated back to 1991 and the Brent Crude and Gas Oil Unhedged Individual Commodity Indices have been published since December 2011, with simulated historical data calculated back to 1991. At the beginning of 1991 each index started at 100 and is increased or decreased each day pursuant to the calculation methodology set out in the DJ-UBS CISM Handbook by reference to prices of the relevant constituent futures contracts. Consequently the Unhedged Commodity Indices and the Commodity Indices are excess return indices.

The same input components used for Unhedged Commodity Indices are also used by UBS Securities and CME Indexes to construct indices representing smaller groups of commodities and Unhedged Individual Commodity Indices. Cocoa, Lead, Platinum, Tin and Gas Oil are not currently included in the DJ-UBS Commodity Indices.

A Supervisory Committee reviews and approves (in consultation with an Advisory Committee comprising persons drawn from the financial and academic communities) amendments to the DJ-UBS CISM Handbook, which sets out the procedures for determining, amongst other things:

- the commodities to be included in the DJ-UBS CISM;
- the Exchanges and the Designated Contracts to be used to price each Unhedged Individual Commodity Index;
- the Roll Period for each Designated Contract;
- the weighting of each commodity in the DJ-UBS CISM;

- determining when a Market Disruption Event occurs and the consequences of such;
- determining whether to apply different methodologies or make other changes to the calculations of the Currency-Hedged Commodity Indices in the event that a currency control mechanism is implemented or other material disruptions occur in the relevant foreign exchange markets;
- the formulae to calculate each index; and
- changes to any of the above.

Any changes implemented by the Supervisory Committee which are reflected in the DJ-UBS CISM Handbook and which affect the Commodity Indices will be notified to Security Holders through an RIS made as soon as practical after the change is notified to the Issuer.

Composition and Weightings

The weightings of the components in the DJ-UBS CISM, and hence in the other Unhedged Composite Commodity Indices, are subject to change periodically. Apart from changes to the weightings, there can be changes to the actual commodities and Designated Contracts included in the DJ-UBS CISM. At present there are 24 commodities eligible for inclusion in the DJ-UBS CISM but four of those commodities (cocoa, lead, platinum and tin) are currently not included in the DJ-UBS CISM. CME Indexes in conjunction with Dow Jones also calculates and CME Indexes publishes Unhedged Individual Commodity Indexes and Individual Commodity Indexes for four other commodities (gas oil, soybean meal, orange juice and feeder cattle) not currently eligible for inclusion in the DJ-UBS CISM. The same commodities and unit weightings as are used in the DJ-UBS CISM are also used in the DJ-UBS CI-F3SM and hence in the composite 3-month forward sub-indices.

A complete description of the procedures involved in recalculating the composition of the DJ-UBS Commodity Indices each year is set out in the Handbook and the appendices thereto. As part of those procedures, the following diversification rules are applied in determining the Commodity Index Percentages (CIPs), i.e. the weights, in the DJ-UBS CISM:

- no single commodity may constitute less than 2 per cent. or more than 15 per cent. of the Index;
- no single commodity, together with its derivatives (e.g., crude oil, together with heating oil and gasoline), may constitute more than 25 per cent. of the Index; and
- no related group of commodities (e.g., energy, precious metals, livestock or grains) may constitute more than 33 per cent. of the Index.

The DJ-UBS Commodity Indices are re-balanced annually on a price percentage basis, within the confines of the above parameters, and each sub-index is rebalanced proportionally (without any further limitations on the weights). Once approved by the Supervisory Committee, the target composition of the revised Index is announced in July and takes effect the following January. At the time of a rebalancing of the DJ-UBS CISM, it is possible that additional commodities not presently represented in the DJ-UBS CISM will be added, or that one or more commodities presently represented will be removed.

Designated Contracts

For each commodity included in the DJ-UBS CISM a particular futures contract on a futures exchange is selected and for that contract, certain designated contract months are selected. For most of the commodities the Designated Contract is a futures contract traded on various exchanges in the United States, with the balance being futures contracts traded on the LME in London. Within each Designated Contract, there are a number of futures contracts for delivery in different months. Not all of them are used for the calculation of the DJ-UBS CISM. Rather, a number of Designated Month Contracts are selected, and intermediate futures contracts are ignored for the purposes of this calculation. This reduces the number of Roll Periods required for each commodity while still enabling pricing to be based on one of the more liquid near month contracts.

The Designated Contracts, and Designated Month Contracts, for each of the 27 commodities currently eligible for inclusion in the DJ-UBS CISM, and for gas oil, are currently as follows:

Table 2a — Designated Contracts and Designated Month Contracts

For the DJ-UBS CI-F3SM the designated month contracts are exactly the same as for the DJ-UBS CISM save that for the DJ-UBS CI-F3SM, the contracts that would be the Lead Future and Next Future for the DJ-UBS CISM in three calendar months are instead the Lead Future and Next Future in the current calendar month for the DJ-UBS CI-F3SM. The current Lead Future contracts for the DJ-UBS CISM are shown in Table 2(b). For each month of the year, a Designated Contract is used as the Lead Contract in calculating the various DJ-UBS Commodity IndicesSM. The month of the year is shown across the top row. The relevant Unhedged Classic Individual Commodity Index is shown along the left hand side. The months in the body of the table indicate the specific Lead Contract to apply in each month labelled at the top of each column. If today is 2 April 2012, then the Lead Contract for the DJ-UBS CI Natural Gas IndexSM is the Natural Gas contract for delivery in May 2012. The Lead Contract for the DJ-UBS CI Natural Gas 3 Months Forward IndexSM is therefore the Lead Contract which will be the Lead Contract for the DJ-UBS CI Natural Gas IndexSM in July 2012, which is the Natural Gas contract for delivery in September 2012.

The termination or replacement of a futures contract on an established exchange occurs infrequently. If a Designated Contract were to be terminated or replaced, a comparable futures contract would be selected, if available, to replace that Designated Contract.

Roll Process

The DJ-UBS Commodity Indices and the other Unhedged Commodity Indices are calculated each General Trading Day, using the Settlement Prices of near dated futures contracts.

Because futures contracts expire periodically, the index calculations must change from using one futures contract (the “**Lead Future**”) to using a subsequent futures contract (the “**Next Future**”). This process is called “rolling”, and normally happens proportionally over a five day period (the “**Roll Period**”), on the sixth, seventh, eighth, ninth and tenth General Trading Days of a month but only if that day and the prior General Trading Day is a Pricing Day for the relevant commodity. If not, the change for the relevant commodity is deferred until the next following Pricing Day, and implemented in addition to the change which would otherwise be implemented on that day.

The current Designated Month Contracts are listed above in the far right column of Table 2a.

For the DJ-UBS CISM, a contract is the Lead Future in the month prior to its named month (so that for Natural Gas, the January contract is the Lead Future in December) and in any earlier months, as required (so that the January contract is also the Lead Future for Natural Gas in November). Pricing is rolled from the Lead Future to the Next Future in the month prior to its named month (so that pricing for Natural Gas rolls in early December from the January contract to the March contract).

For the DJ-UBS CI-F3SM the process is similar save that the contracts that would be the Lead Future and Next Future for the DJ-UBS CISM in three calendar months are instead the Lead Future and Next Future in the current calendar month for the DJ-UBS CI-F3SM.

As can be seen in Table 2(a) and 2(b), not all commodities have the same named months or number of Designated Month Contracts. Consequently, the commodities to be rolled each month will vary from month to month.

Market Disruption Days

If a Commodity Market Disruption Day occurs in the Relevant Market for an Individual Commodity Index on a General Trading Day, that Individual Commodity Index may or may not be calculated and published by CME Indexes on that day. Irrespective of whether an Individual Commodity Index is so published by CME Indexes, that day will not (unless a substitute value for the relevant Commodity Index is provided as described below) be a Pricing Day for the relevant class of Currency-Hedged Commodity Security. If a Commodity Market Disruption Event occurs in the Relevant Market for one or more futures contracts by reference to which an Unhedged Composite Commodity Index is calculated on a General Trading Day, the Composite Commodity Index corresponding to such Unhedged Commodity Index may or may not be calculated and published by CME Indexes on that day. Irrespective of whether a Composite Commodity Index is published, that day will not (unless a substitute value for the relevant Commodity Index is provided as described below) be a Pricing Day for the purposes of pricing the relevant class of Currency-Hedged Commodity Security.

If an Individual Commodity Index or a Composite Commodity Index is not published for five or more consecutive General Trading Days by reason of those General Trading Days being Commodity Market Disruption Days in respect of that Individual Commodity Index or in relation to any commodity the Settlement Price of which is used to determine the Unhedged Commodity Index corresponding to that Composite Commodity Index, then in each case the Calculation Agent is required to calculate and provide to the Issuer a substitute value for that Individual Commodity Index and/or Composite Commodity Index on each subsequent General Trading Day for as long as the Commodity Market Disruption Event continues, in which case those days will not be Commodity Market Disruption Days. If the relevant disruption is continuing after 30 days, the Issuer and the Calculation Agent will negotiate to agree a replacement for that Commodity Index. Failing agreement within a further period of 30 days, the Issuer may exercise its right to redeem the relevant Currency-Hedged Commodity Securities.

If a FX Market Disruption Day occurs in respect of a class of Commodity Contracts on a General Trading Day which is a Pricing Day, the Calculation Agent may not be able to source the Foreign Exchange Rate from the WM Company (or such other person or entity from time to time fulfilling the functions presently provided by it under the Handbook) and no creations or cancellations of a particular class of Commodity Contract may occur.

If there are five or more consecutive FX Market Disruption Days, then on each subsequent General Trading Day for as long as the FX Market Disruption Event continues the Calculation Agent will calculate and provide a substitute Foreign Exchange Rate in respect of any Commodity Index the Relevant Currency of which is the subject of an FX Market Disruption Event. If the Calculation Agent does so provide such a substitute Foreign Exchange Rate, such General Trading Day will not be a FX Market Disruption Day.

Daily Currency Hedged Versions

The Currency-Hedged Commodity Indices are denominated in Australian Dollar, Euro and Pound Sterling and each index aims to replicate the performance of the DJ-UBS CISM (denominated in US Dollars), save that foreign exchange rate exposures affecting the index principal are hedged against the index's currency of denomination. Like the DJ-UBS CISM and the DJ-UBS CI-F3SM, the Currency-Hedged Commodity Indices are excess return indices.

Hedging for the Currency-Hedged Commodity Indices is implemented against the previous day's level of each Currency-Hedged Commodity Index (i.e. the principal), which means that the current day's variation of the corresponding Unhedged Commodity Index is not included in the hedge for that day. For this reason, the daily percentage change generated on each Currency-Hedged Commodity Index may differ from the daily percentage change of the corresponding Unhedged Commodity Index denominated in US Dollars. Any difference in performance between the two types of indices may be positive or negative. Hedging against both the principal level of the index and the daily variation would require entering into a currency forward with a variable notional amount; such strategy is generally referred to as a "*quanto*".

Effect of the Currency-Hedged Commodity Indices

Generally, on a day when there is a positive correlation between the relevant foreign exchange rate (expressed in US Dollars) and the relevant Unhedged Commodity Index (i.e. they both move in the

same direction) then the Currency-Hedged Commodity Index will underperform the corresponding Unhedged Commodity Index on such day. The hypothetical examples in Table 3 demonstrate the difference in performance between a Currency-Hedged Commodity Index and the corresponding Unhedged Commodity Index when both the index (in this case the DJ-UBS CISM) and the foreign exchange rate (in this case the Euro to US Dollar foreign exchange rate) move in the same direction. The example also compares the performance of the Currency-Hedged Commodity Index with the return if a pure *quanto* hedging strategy were used.

Table 3

Scenario A: Both the Foreign Exchange Rate and the Index Level Increase

	EUR/USD FX Rate	DJ-UBS CI SM	DJ-UBS ED SM	Quanto Euro Hedged Index
<i>Level at close Day t-1</i>	1.1000	200.000	100.00	100.000
<i>Level at close Day t</i>	1.2000	220.000	109.1667 ⁽¹⁾	110.000 ⁽²⁾
<i>% Change</i>	+9.09	+10.00	+9.17	+10.00

Scenario B: Both the Foreign Exchange Rate and the Index Level Decrease

	EUR/USD FX Rate	DJ-UBS CI SM	DJ-UBS ED SM	Quanto Euro Hedged Index
<i>Level at close Day t-1</i>	1.1000	200.000	100.00	100.000
<i>Level at close Day t</i>	1.0000	180.000	89.000 ⁽¹⁾	90.000 ⁽²⁾
<i>% Change</i>	-9.09	-10.00	-11.00	-10.00

(1) For more details on the calculation please refer to the Handbook

(2) Performance of the quanto strategy is equal to the performance of the DJ-UBS CISM

In each of the scenarios above the Currency-Hedged Commodity Index would have underperformed a quanto strategy, which over that same period should generate a performance equal to that of the Unhedged Commodity Index (i.e. a 10 per cent. increase or a 10 per cent. decrease).

Generally, on a day when there is a negative correlation between the relevant foreign exchange rate (expressed in US Dollars) and the relevant Unhedged Commodity Index (i.e., they move in opposing directions) the Currency-Hedged Commodity Index will outperform the corresponding Unhedged Commodity Index on such day. The hypothetical examples in Table 4 demonstrate the difference in performance between the Currency-Hedged Commodity Index and the corresponding Unhedged Commodity Index when the index (in this case the DJ-UBS CISM) and the foreign exchange rate (in this case the Euro to US Dollar foreign exchange rate) move in opposite directions. The example also compares the performance of the Currency-Hedged Commodity Index with the return if a pure *quanto* hedging strategy were used.

Table 4

Scenario C: The Foreign Exchange Rate Decreases and the Index Level Increase

	EUR/USD FX Rate	DJ-UBS CI SM	DJ-UBS ED SM	Quanto Euro Hedged Index
<i>Level at close Day t-1</i>	1.1000	200.000	100.000	100.000
<i>Level at close Day t</i>	1.0000	220.000	111.0000 ⁽¹⁾	110.000 ⁽²⁾
<i>% Change</i>	-9.09	+10.00	+11.00	+10.00

Scenario D: The Foreign Exchange Rate Increases and the Index Level Decreases

	EUR/USD FX Rate	DJ-UBS CI SM	DJ-UBS ED SM	Quanto Euro Hedged Index
<i>Level at close Day t-1</i>	1.1000	200.000	100.00	100.000
<i>Level at close Day t</i>	1.2000	180.000	90.8333 ⁽¹⁾	90.000 ⁽²⁾
<i>% Change</i>	+9.09	-10.00	-9.17	-10.00

(1) For more details on the calculation please refer to the Handbook

(2) Performance of the quanto strategy is equal to the performance of the DJ-UBS CISM

In both Scenarios C and D the Currency-Hedged Commodity Index would have out-performed a *quanto* strategy which over that same period should generate a performance equal that of the Unhedged Commodity Index (i.e. a 10 per cent. increase or a 10 per cent. decrease).

Historical correlation coefficients

As can be seen above, the correlation between the performance of the Australian Dollar against the US Dollar and the performance of the Unhedged Commodity Index has generally been relatively high which implies that over the periods above Australian Dollar-denominated Currency-Hedged Commodity

Indices would have been expected to underperform the corresponding Unhedged Commodity Index on a particular day.

Table 6 shows (based on back tested data) the impact of daily variations in the Australian Dollar foreign exchange rates against the US Dollar upon the difference in performance of the relevant currency-hedged version of the DJ-UBS CISM and the DJ-UBS CISM itself (denominated in US Dollars) between April 2001 to June 2011.

PART 3

DESCRIPTION OF CURRENCY-HEDGED COMMODITY SECURITIES

The following is a description of the rights attaching to Currency-Hedged Commodity Securities. The legally binding Conditions of Currency-Hedged Commodity Securities are set out in Part 6 (Trust Instrument and Currency-Hedged Commodity Securities) of this Prospectus. Copies of the Trust Instrument, by which Currency-Hedged Commodity Securities are constituted, are available for inspection as set out in paragraph 22 of Part 11 (Additional Information) under the heading "Documents Available for Inspection".

Pricing of Currency-Hedged Commodity Securities

A Currency-Hedged Commodity Security entitles an Authorised Participant (subject to certain conditions) to require the redemption of the Currency-Hedged Commodity Security at the Price of that Currency-Hedged Commodity Security calculated on the relevant Pricing Day (day T) and to receive such amount, converted from the Relevant Currency (being Australian Dollars, Euro or Pounds Sterling) into US Dollars at the Settlement Foreign Exchange Rate for that Currency and the applicable Pricing Date, on the Redemption Payment Date (normally day T+3).

Currency-Hedged Commodity Securities will generally be priced on each calendar day and such price will reflect the daily movement in the relevant Commodity Index published by CME Indexes on any Pricing Day and a daily Capital Adjustment, provided that an Indicative Price will generally be calculated in accordance with the Conditions on any day which is a Market Disruption Day in respect of a class of Currency-Hedged Commodity Security (which will not be a Pricing Day for such class) and an Indicative Price will continue to be calculated on each calendar day thereafter until (but not including) the next Pricing Day for such class. Therefore no Price will be published on that day and the change (if any) in the relevant Commodity Index on that day will be reflected cumulatively in the Price of the Currency-Hedged Commodity Security on the next following Pricing Day. In the event that a Settlement Redemption Form in respect of a class of Currency-Hedged Commodity Security is received by the Issuer on a day on which an Indicative Price is calculated for that class of Currency-Hedged Commodity Security then the Price for such application will be determined in accordance with Condition 7.11. Applications and Redemption Forms received (or deemed to be received) on a day which is a FX Market Disruption Day or on which a FX Restriction Event is continuing will not be valid.

Not all classes of Currency-Hedged Commodity Security have the same Pricing Days (because the Exchanges used in calculating the Commodity Indices are different). Consequently there will be days on which Prices are calculated and published for some classes of Currency-Hedged Commodity Security but not others.

Prices for all types of Currency-Hedged Commodity Security are calculated as at the end of each Pricing Day for each type of Commodity Security, any Indicative Prices are calculated as at the end of each day when required under the Conditions and such Prices and any Indicative Prices will be posted on the Issuer's website at <http://www.etfsecurities.com/hcsl>.

In certain circumstances the Calculation Agent may declare a day to be a Market Disruption Day for one or more Commodity Indices under the Facility Agreements and, if so, the mechanism described in the heading "Market Disruption Days" in Part 2 (*Dow Jones — UBS Commodity Indices*) and under the headings "Applications and Redemptions — Settlement Pricing" and "Applications and Redemptions — Redemption Processes" below will operate.

150 classes of Individual Securities and 60 classes of Index Securities are currently available for issue under this programme: 25 classes of Classic Individual Securities in each of the three Currencies, 25 classes of Longer Dated Individual Securities in each of the three Currencies, 10 classes of Classic Index Securities in each of the three Currencies and 10 classes of Longer Dated Index Securities in each of the three Currencies. These are shown in the tables under the heading "Classes of Currency-Hedged Commodity Securities" on pages 36 and 37.

A Currency-Hedged Commodity Security is an undated limited recourse secured debt security of the Issuer to be issued pursuant to, and constituted by, the Trust Instrument.

Currency-Hedged Commodity Securities will be priced in the Relevant Currency and settled in US Dollars. The Commodity Indices will be those calculated by CME Indexes in conjunction with UBS Securities and published by CME Indexes for that Pricing Day. The Indices are currently published to seven significant figures. The Price will be calculated in the case of all Commodity Securities to seven places of decimals with 0.00000005 rounded upwards.

The Price for each class of Currency-Hedged Commodity Security, for each Pricing Day for that class, will be calculated daily to reflect the daily movement in the level of the relevant Commodity Index on each Pricing Day and a daily adjustment as follows:

$$P_{i,t} = P_{i,t-1} \times \left(\frac{I_{i,t}}{I_{i,t-1}} + CA_{i,t} \right)$$

where:

$P_{i,t}$ is the Price of a Commodity Security of class i for day t;

$P_{i,t-1}$ is the Price of a Commodity Security of class i for day t-1;

i refers to the relevant class of Commodity Security;

t refers to the applicable calendar day;

$t-1$ refers to the calendar day prior to day t;

$I_{i,t}$ is the Closing Settlement Price Level of the Commodity Index to which Commodity Securities of class i relate for day t, *provided that* if day t is not a Pricing Day for Commodity Securities of class i, then $I_{i,t}$ will be the same as $I_{i,t-1}$;

$I_{i,t-1}$ is the Closing Settlement Price Level of the Commodity Index to which Commodity Securities of class i relate for day t-1; and

$CA_{i,t}$ is the Capital Adjustment applicable to Commodity Securities of class i and for day t, expressed as a decimal.

No Price will be calculated for a class of Currency-Hedged Commodity Security for a Market Disruption Day or in certain other circumstances as specified in the Conditions and on any day when, in accordance with the Conditions, a Price is not calculated, the Conditions provide for an Indicative Price to be calculated instead, and once a Price can again be calculated it will be based on the preceding day's Indicative Price.

The Conditions provide that the amount payable upon Redemption of a Currency-Hedged Commodity Security of a particular class under Settlement Pricing will be the higher of the Principal Amount for that class and the Price of such Currency-Hedged Commodity Security on the applicable Pricing Day, in each case converted into US Dollars at the relevant Settlement Foreign Exchange Rate. As each class of Currency-Hedged Commodity Security is a limited recourse security as described in Condition 3.2, it is in the interests of the Security Holders of each class to ensure that the Price for each relevant class of Currency-Hedged Commodity Securities does not fall below its Principal Amount. The Issuer will aim to avoid the Price of a class of Currency-Hedged Commodity Security falling below its Principal Amount by the following measures: the Issuer may (i) where necessary, seek the sanction of Security Holders by Extraordinary Resolution to reduce the Principal Amount of a class of Currency-Hedged Commodity Security to a level less than its Price; and/or (ii) if on any Pricing Day the Price of any class of Currency-Hedged Commodity Security falls to 2.5 times the Principal Amount of such Currency-Hedged Commodity Security or below, the Issuer may, at any time for so long as the Price remains below such amount and during the period 60 days thereafter, upon not less than two days' notice by RIS announcement elect to redeem the Currency-Hedged Commodity Securities of that class. The right pursuant to (ii) above will cease once an Extraordinary Resolution is passed to reduce the Principal Amount such that the Price is more than 2.5 times the Principal Amount, subject to any further fall in the Price of any class of Currency-Hedged Commodity Securities to 2.5 times the Principal Amount or below.

Capital Adjustment

The Capital Adjustment is a daily rate expressed as a percentage, which will be as agreed from time to time by each Commodity Contract Counterparty and the Issuer. The Capital Adjustment reflects the benefit to the Commodity Contract Counterparty of selling the relevant Commodity Contracts to the Issuer, less the Management Fee and Licence Allowance.

The Capital Adjustment and the Collateral Yield applying to each type of Currency-Hedged Commodity Security on each day will be posted by the Issuer on its website, at <http://www.etfsecurities.com/hcsl>.

As at the date of this Prospectus, the rate of the Capital Adjustment and the Collateral Yield is as follows:

	Capital Adjustment†	Collateral Yield*
Australian Dollar Classic Securities	0.0045%	2.20%
Euro Classic Securities	-0.0037%	-0.83%
Sterling Classic Securities	-0.0024%	-0.34%
Australian Dollar Longer Dated Securities	0.0041%	2.05%
Euro Longer Dated Securities	-0.0042%	-0.97%
Sterling Longer Dated Securities	-0.0028%	-0.49%

† as of 31 January 2013 (rate changes weekly)

- is the Capital Adjustment plus the daily Management Fee and License Allowance expressed as a percentage rate per annum over 365 days

Consolidation and Division of Currency-Hedged Commodity Securities

Circumstances may arise where the Issuer might wish to effect a consolidation or division of a particular class of Currency-Hedged Commodity Security.

For example, if a class of Currency-Hedged Commodity Security was secured on corresponding Commodity Contracts from two or more different Commodity Contract Counterparties and one of them (the “**Lower Credit**”) had, for example, a significant credit rating downgrade, it may be necessary or desirable, in order to ensure that the value of the Currency-Hedged Commodity Securities reflects the value of the relevant commodity futures contracts, for the Commodity Contracts from the Lower Credit to be excluded from that class. This could be effected by the Commodity Contracts from the Lower Credit being transferred into a new Pool and the Issuer creating and issuing new Currency-Hedged Commodity Securities secured by that new Pool on a one-for-one basis with the Price for both classes being adjusted accordingly. Investors of the affected class would then hold two Currency-Hedged Commodity Securities for each one they held previously and the Price would be split between the two. For example, if the Commodity Contracts from the Lower Credit comprised 30 per cent. of the aggregate number of Commodity Contracts in the Pool, then the Price following the division would be 70 per cent. of the Price prior to the division for the old class and 30 per cent. for the new class.

The Issuer has the right under the Trust Instrument at any time to effect either a consolidation or division and to allocate Commodity Contracts into a new Pool representing a new class of Currency-Hedged Commodity Securities, and need not obtain Listing for any such new classes of Currency-Hedged Commodity Securities. The Issuer will only take such action if it believes it is in the interest of the affected Security Holders to do so.

Authorised Participants

Only Authorised Participants may deal with the Issuer in applying for or redeeming Currency-Hedged Commodity Securities, save where, as noted elsewhere in this document, on the date on which a Redemption Form is lodged there are no Authorised Participants or the Issuer has announced that redemptions by Security Holders will be permitted and the Security Holder submits a notice of redemption in the form prescribed for such circumstances by the Issuer. A person can only be an Authorised Participant if it is: (a) a securities house or other market professional approved by the Issuer (in its absolute discretion); and (b) an Authorised Person, an Exempt Person or an Overseas Person. An Authorised Participant must also have entered into: (a) an Authorised Participant Agreement with the Issuer dealing with, amongst other things, the rights and obligations of the Authorised Participant in

relation to applying for and redeeming Currency-Hedged Commodity Securities and (b) a Direct Agreement with UBS and/or MLI and/or another Commodity Contract Counterparty, under which, amongst other things, the Authorised Participant and UBS or MLI (or other Commodity Contract Counterparty) provide undertakings to each other regarding the settlement of moneys payable for applications and redemptions.

Authorised Participant Agreements have been entered into with ABN AMRO Clearing Bank N.V., Merrill Lynch International, Susquehanna International Securities Limited, Susquehanna Ireland Limited Virtu Financial Ireland Limited and UBS AG, London Branch, the terms of which are summarised in paragraph 3 of Part 11 (*Additional Information*).

Under the Facility Agreements, each Commodity Contract Counterparty has the right to give notice (with immediate effect) that an Authorised Participant has ceased to be acceptable to it in certain circumstances, including if it deems such person to be unacceptable to it as an Authorised Participant for credit, compliance, general business policy or reputational reasons. As a result of any exercises of such right there could at any time be no Authorised Participants.

The Issuer will use its reasonable endeavours to ensure that at all times for the duration of the Programme after the date three months following Listing there are at least two Authorised Participants and until then at least one Authorised Participant. In the event that at any time there are no Authorised Participants, Security Holders will be permitted to redeem Currency-Hedged Commodity Securities respectively held by them directly from the Issuer.

Applications and Redemptions

All applications for and redemptions of Currency-Hedged Commodity Securities, and the matching creation and termination of Commodity Contracts, may be effected using the pricing formulae described above ("Settlement Pricing") which is based on Commodity Indices calculated using end of day settlement pricing for the various Designated Contracts and foreign exchange rates using the 4.00 p.m. London fix rate.

However, to enable Authorised Participants and Commodity Contract Counterparties to have the flexibility to agree, between themselves, intra-day or other pricing for Currency-Hedged Commodity Securities ("Agreed Pricing") and hence for matching Commodity Contracts, issues and redemptions may be effected at any price and in any amount agreed between an Authorised Participant and a Commodity Contract Counterparty and notified to the Issuer. The rights of all other security holders to receive Settlement Pricing for a redemption of their Currency-Hedged Commodity Securities will not be impacted by any Agreed Pricing.

The application and redemption procedures to be followed by Authorised Participants, the Issuer and the Commodity Contract Counterparties are set out in the Authorised Participant Agreements and the Facility Agreement and are summarised below. These procedures may be amended at any time by agreement between the relevant parties.

Application Processes

Currency-Hedged Commodity Securities may be issued on the Application of an Authorised Participant during the period of 12 months from the date of this document. There is no minimum number of Currency-Hedged Commodity Securities that must be applied for (but there is a Minimum Creation Amount for the creation of Commodity Contracts on any Pricing Day, and if that Minimum Creation Amount is not achieved through applications for corresponding Currency-Hedged Commodity Securities by all Authorised Participants, the Commodity Contract Counterparty may elect that no creations of Commodity Contracts of that class will occur, in which case no Currency-Hedged Commodity Securities of that class will be issued). The Issuer will decline Applications if it cannot for any reason create corresponding Commodity Contracts under a Facility Agreement.

The Minimum Creation Amount is as follows:

- (a) for the Creation of Commodity Contracts in relation to the issue of Australian Dollar Commodity Securities, A\$50,000 per class of Australian Dollar Commodity Security;
- (b) for the Creation of Commodity Contracts in relation to the issue of Euro Commodity Securities, €50,000 per class of Euro Commodity Security; or

- (c) for the Creation of Commodity Contracts in relation to the issue of Sterling Commodity Securities, £50,000 per class of Sterling Commodity Security.

An Authorised Participant may subscribe for Currency-Hedged Commodity Securities using Settlement Pricing or, if agreed with a Commodity Contract Counterparty, using Agreed Pricing. In either case, Currency-Hedged Commodity Securities will only be issued if corresponding Commodity Contracts can be created by the Issuer for the same amount.

Application moneys for all Currency-Hedged Commodity Securities must be paid by Applicants in US Dollars. The amount due in US Dollars will be calculated by applying the Settlement Foreign Exchange Rate to the Relevant Currency. Payments must be made directly to the relevant Commodity Contract Counterparty by the Authorised Participant making the Application, via the CREST system on a delivery versus payment basis. Legal title to Currency-Hedged Commodity Securities will be transferred by means of the CREST system and evidenced by an entry on the Register.

Settlement of Currency-Hedged Commodity Securities on issue will only be made against payment in CREST and only after:

- (a) (subject as set out under “The System” below) receipt by the Issuer of a valid Application Form;
- (b) the creation of matching Commodity Contracts; and
- (c) Listing in respect of such Currency-Hedged Commodity Securities having become effective.

If an Applicant does not make payment for the full amount of the Currency-Hedged Commodity Securities to be issued on the due date for payment or the following Business Day, the Issuer may elect by notice to the Applicant to cancel the Application. Alternatively the Issuer may elect to enforce against the relevant Applicant the obligation of that Applicant to pay for the Currency-Hedged Commodity Securities applied for.

The procedures required to be followed when making an Application depend on whether Agreed Pricing or Settlement Pricing is being used.

Agreed Pricing

There are no restrictions on the number of Currency-Hedged Commodity Securities that can be applied for, the time for lodging the Application or the settlement date, other than the requirement for the Issuer to receive the requisite signed documents from both the Authorised Participant and the relevant Commodity Contract Counterparty not later than two London Business Days prior to the proposed settlement date.

Settlement Pricing

The following procedures apply when Settlement Pricing is used in an Application:

- an Application for Currency-Hedged Commodity Securities using Settlement Pricing may only be made on an Issuer Business Day (a day which is both a London Business Day and a General Trading Day);
- a Price in the Relevant Currency will be determined for each class relevant to a valid Application on the day of Application if it is a Pricing Day for that class; if it is not then (unless withdrawn where permitted under the Authorised Participant Agreements) the Authorised Participant Agreements (and the Facility Agreements in respect of the corresponding Commodity Contracts) contain provisions designed to determine a Price based on the value of equivalent underlying futures contract positions for days following the day of the Application until values can be determined for all equivalent underlying futures contract positions;
- an Application received by the Issuer after 2.30 p.m. (or, if earlier, 30 minutes prior to the applicable Notice Deadline) but before 6.30 p.m. on an Issuer Business Day will be valid, but will be treated as having been received at 8.00 a.m. on the next following Issuer Business Day (unless the relevant Commodity Contract Counterparty agrees otherwise, in which case it will be treated as having been received prior to 2.30 p.m. on that Issuer Business Day);

- an Application received by the Issuer prior to 8.00 a.m. or after 6.30 p.m. on an Issuer Business Day, or on a day which is not an Issuer Business Day, will only be valid if the relevant Commodity Contract Counterparty confirms to the Issuer that corresponding Commodity Contracts will be created notwithstanding the time of submission of the Application;
- upon receipt and confirmation of a valid Application, the Issuer will send a Creation Notice to the relevant Commodity Contract Counterparty creating such number of Commodity Contracts as correspond to the Application, and will confirm its receipt of such Creation Notice; and
- following publication by CME Indexes of the relevant Commodity Indices, the Issuer will calculate the Price in the Relevant Currency of all Currency-Hedged Commodity Securities to be issued to each Applicant and will confirm such Price with each Applicant and the relevant Commodity Contract Counterparty by the following Business Day.

Under each Facility Agreement, the relevant Commodity Contract Counterparty is bound by the creation of Commodity Contracts by the Issuer on any Pricing Day for components of Currency-Hedged Commodity Securities corresponding to those Commodity Contracts, provided that the applicable Creation Notice is lodged with the relevant Commodity Contract Counterparty by 2.30 p.m. (or, if earlier, 30 minutes prior to the applicable Notice Deadline) on an Issuer Business Day, save that a Creation Notice will not be valid if the Calculation Agent notifies the Issuer and each Authorised Participant specifying the day on which it is received or deemed received to be a FX Market Disruption Day in respect of the relevant Commodity Index no later than 4.30 p.m. on that day.

Allocation of Commodity Contracts

Under the Trust Instrument there are no restrictions on the Commodity Contract Counterparty with which Commodity Contracts should be created when Currency-Hedged Commodity Securities are issued, nor are there any restrictions on the Commodity Contract Counterparty with which Commodity Contracts should be terminated. Subject as may otherwise be agreed from time to time between the Issuer and Commodity Contract Counterparties, under the Facility Agreements and for so long as they remain in force and no notices (such as those referred to under the heading “Compulsory Redemptions” below) have been given thereunder, there are no restrictions (other than Creation Limits and any limits imposed by any Commodity Contract Counterparty in relation to any particular Authorised Participant) on the Commodity Contract Counterparty with which Commodity Contracts should be created when Currency-Hedged Commodity Securities are issued, nor are there any restrictions (other than Redemption Limits and any limits imposed by any Commodity Contract Counterparty in relation to any particular Authorised Participant) on the Commodity Contract Counterparty with which Commodity Contracts should be terminated. Except in the case of Agreed Pricing, the Issuer may determine in each case the relevant Commodity Contract Counterparty.

The Issuer has implemented procedures which (subject to applicable Creation Limits and Redemption Limits, availability of Commodity Contracts and any limits imposed by any Commodity Contract Counterparty in relation to any particular Authorised Participant) are intended to have the following effects:

- in a case where an application is made for Currency-Hedged Commodity Securities by an Authorised Participant which is, or an affiliate of which is, a Commodity Contract Counterparty, the equivalent Commodity Contracts should be entered into with that Commodity Contract Counterparty (and referred to as its “Firm Contracts”); and
- other applications will result in the creation of “Pool Contracts” and will generally be allocated by the Issuer to one or other Commodity Contract Counterparty in accordance with policies and procedures agreed from time to time between them.

The Issuer reserves the right to allocate creations or terminations of Commodity Contracts amongst Commodity Contract Counterparties in a manner other than as described above on a case by case or on a more general basis. If further additional Commodity Contract Counterparties are appointed then they may be appointed on a basis that they are allocated creations (and terminations) relating either to Firm Contracts only, or both Pool Contracts and Firm Contracts.

In the event that the Issuer determines to divide a Pool as described under the heading “Consolidation and Division of Currency-Hedged Commodity Securities” above and in accordance with Condition 18.3,

the Conditions provide that outstanding valid Redemption Forms given (save in the case where notice of a Compulsory Redemption Date was given prior to the division becoming effective in which case certain other timings may apply) prior to the division becoming effective will be treated as having been given in respect of the Pool to which following any division the attributable Commodity Contracts had been allocated. This may have the effect that a Security Holder which has lodged a valid Redemption Form prior to a division becoming effective will be treated following the division as owning only Currency-Hedged Commodity Securities attributable to a single Pool rather than both Pools as described under the heading “Consolidation and Division of Currency-Hedged Commodity Securities” above, and this could be the Pool to which Commodity Contracts with the Lower Credit (as defined under the heading “Consolidation and Division of Currency-Hedged Commodity Securities” above) are transferred.

Redemption Processes

A Security Holder who is an Authorised Participant may require the redemption of all or any of its Currency-Hedged Commodity Securities using Settlement Pricing or, if agreed with a Commodity Contract Counterparty, using Agreed Pricing.

A Security Holder who is not an Authorised Participant may only require the redemption of any of its Currency-Hedged Commodity Securities using Settlement Pricing and only if, on an Issuer Business Day, there are no Authorised Participants and the Security Holder submits a valid Redemption Form on such day or the Issuer has announced that redemptions by Security Holders will be permitted and the Security Holder submits a notice of redemption in the form prescribed for such circumstances by the Issuer. Payment on redemption to persons who are not Authorised Participants may be subject to their giving to the Issuer and the relevant Commodity Contract Counterparty certain beneficial owner certifications to assess whether such payments should be subject to withholding or deduction for taxes.

Payment of the Redemption Amount will be made by the relevant Commodity Contract Counterparty, in respect of the termination of corresponding Commodity Contract from the Issuer, directly to the relevant Authorised Participant redeeming the Currency-Hedged Commodity Securities in US Dollars via the CREST system on a delivery versus payment basis.

The procedures required to be followed when lodging a Redemption Form are the same as for making an Application, other than for the following procedures used for Settlement Pricing:

- if a valid Redemption Form requesting Settlement Pricing is lodged with the Issuer after 8.00 a.m. and before 2.30 p.m. (or, if earlier, 30 minutes prior to the applicable Notice Deadline) on an Issuer Business Day and that day is a Pricing Day for the class of Currency-Hedged Commodity Securities which are the subject of the Redemption Form, the applicable Redemption Payment Date (on which the redemption will be settled) will be three London Business Days following that Pricing Day or, if such day is not a New York Business Day, the next day which is a Business Day; and
- when Currency-Hedged Commodity Securities are to be redeemed, the Issuer will terminate an Equivalent Number of Commodity Contracts, subject to the Issuer’s discretion to elect to satisfy Redemption Forms by transfer of the appropriate number of Currency-Hedged Commodity Securities to one or more Applicants from Security Holders seeking redemption.

Further details of the procedure relating to Redemptions are set out in the Conditions in Part 6 (*Trust Investment and Currency-Hedged Commodity Securities*) below.

If a Counterparty Event of Default is subsisting, then Security Holders who are not Authorised Participants will not have a right to redeem, however the Trustee may, at its discretion and shall if so directed in writing by Security Holders holding not less than 25 per cent. by Price (as at the date of the last signature (or if no Price was determined on that date, the most recently determined Price)) of all Currency-Hedged Commodity Securities then outstanding or pursuant to an Extraordinary Resolution passed at a duly called meeting of the Security Holders (as a single class), the Trustee having first been indemnified to its satisfaction, take such proceedings and/or other action as it may think fit against or in relation to the Issuer to enforce any obligations of the Issuer under the Trust Instrument and the security constituted by the Security Deed in respect of all Currency-Hedged Commodity Securities.

The System

The Issuer has implemented a system (the “**System**”) for enabling Authorised Participants to make Applications and request Redemptions by means of a secure website and has agreed provisions with the Commodity Contract Counterparties and the Authorised Participants to enable use of such system in substitution for the lodging of the forms otherwise required by the Facility Agreements, the Authorised Participant Agreements and the Conditions for the purposes of such Applications and Redemptions.

It is expected that all Applications will be made and all Redemptions will be requested using the System. In the event of a failure in the System, Applications may be made and Redemptions may be requested using the forms and notices described under the headings “Applications and Redemptions — Application Processes”, “Applications and Redemptions — Settlement Pricing” and “Applications and Redemptions — Redemption Processes” above and under the heading “Commodity Contracts” in Part 4 (*Description of Facility Agreements and Commodity Contracts*).

Creation Limits and Redemption Limit

There are limits on the number of Commodity Contracts which can be created or terminated at any time under each Facility Agreement (and therefore on the issue or redemption of corresponding Currency-Hedged Commodity Securities). Details of these limits are set out under the heading “Applications and Redemptions — Creation and Redemption Limits” in Part 1 (*General*). The Issuer will reject Application Forms or Redemption Forms to the extent that the acceptance of such would cause the Creation Limits or Redemption Limit to be exceeded, unless a Commodity Contract Counterparty agrees with the Issuer that corresponding Commodity Contracts will be created or terminated notwithstanding that the Creation Limits or Redemption Limit would be exceeded.

Compulsory Redemptions

There are circumstances in which Currency-Hedged Commodity Securities can be compulsorily redeemed by the Issuer, either in whole or in part, as set out fully in the Conditions.

The Issuer may, at any time, upon not less than 30 days’ notice (or seven days’ notice in the event that a Facility Agreement is terminated) by RIS announcement to the Security Holders, redeem all Currency-Hedged Commodity Securities of a particular class. The Trustee may, at any time, where an Issuer Insolvency Event or a Counterparty Event of Default has occurred and is continuing, upon 20 Business Days’ notice to the Issuer, require the Issuer to redeem all Currency-Hedged Commodity Securities, whereupon the Issuer will exercise its right to redeem such Currency-Hedged Commodity Securities.

CME Indexes may cease to publish a Commodity Index. If so, the Issuer has and may exercise the right to redeem all Currency-Hedged Commodity Securities of the class relating to that Commodity Index.

The Conditions provide that the amount payable upon a Redemption of a Currency-Hedged Commodity Security of a particular class under Settlement Pricing will be the higher of the Principal Amount for that class and the Price of such Currency-Hedged Commodity Security on the applicable Pricing Day, in each case converted into US Dollars at the relevant Settlement Foreign Exchange Rate. As each class of Currency-Hedged Commodity Security is a limited recourse security as described in Condition 3.2, it is in the interests of the Security Holders of each type to ensure that the Price for each relevant class of Currency-Hedged Commodity Securities does not fall below its Principal Amount. The Issuer will aim to avoid the Price of a class of Currency-Hedged Commodity Security falling below its Principal Amount by the following measures: the Issuer may (i) where necessary, seek the sanction of Security Holders by Extraordinary Resolution to reduce the Principal Amount of a class of Currency-Hedged Commodity Security to a level less than its Price; and/or (ii) if on any Pricing Day the Price of any class of Currency-Hedged Commodity Security falls to 2.5 times the Principal Amount of such Currency-Hedged Commodity Security or below, the Issuer may, at any time for so long as the Price remains below such amount and during the period 60 days thereafter, upon not less than two days’ notice by RIS announcement elect to redeem the Currency-Hedged Commodity Securities of that class. The right pursuant to (ii) above will cease once an Extraordinary Resolution is passed to reduce the Principal Amount such that the Price is more than 2.5 times the Principal Amount, subject to any further fall in the Price of any class of Currency-Hedged Commodity Securities to 2.5 times the Principal Amount or below.

If the Price of a class of Currency-Hedged Commodity Security falls below its Principal Amount, the Issuer may suspend Redemptions of that class of Currency-Hedged Commodity Security and may terminate any such suspension (giving notice in each case via RIS announcement) for a period of 30 days, and thereafter provided that notice of a meeting has been issued convening a meeting for a date not more than 30 days after the date of the notice for the purpose of considering an Extraordinary Resolution which will have the effect of reducing the Principal Amount to a level less than the Price, the suspension to expire when the meeting (or any adjournment thereof) concludes or, if the Extraordinary Resolution is passed and makes alternative provision, in accordance with the Extraordinary Resolution. Any suspension will not affect any Redemption the Pricing Date for which had passed before the suspension commenced, but any Settlement Redemption Form lodged on an Issuer Business Day when the right to Redeem Currency-Hedged Commodity Securities of that class is suspended will be invalid.

Under each Facility Agreement, each Commodity Contract Counterparty has the right to terminate some or all of the Commodity Contracts of a particular class if as a consequence of a Hedging Disruption Event it is unable to maintain the hedging positions which (acting reasonably) it attributes to the hedging of its obligations in connection with the Facility Agreement or Commodity Contracts of one or more classes. In such a case, the Issuer has and will exercise the right to redeem the Currency-Hedged Commodity Securities of that class corresponding to such Commodity Contracts. Where less than all of the Currency-Hedged Commodity Securities of a particular class are to be redeemed, the redemptions will apply to all Security Holders holding Currency-Hedged Commodity Securities of that class, *pro rata* to their holdings.

The Issuer may, at any time by not less than seven nor more than 14 Trading Days' written notice, redeem any Currency-Hedged Commodity Securities held by Prohibited US Persons or Prohibited Benefit Plan Investors, held by Security Holders who have not provided appropriate certifications as to their status in accordance with the conditions or in certain other circumstances specified in the Conditions.

UBS and MLI have only agreed to supply Commodity Contracts to the Issuer for ten years from 23 February 2012 (although each Commodity Contract Counterparty may terminate its Facility Agreement on three months' notice). If the relevant Commodity Contract Counterparty does not agree to provide Commodity Contracts beyond such date or if either or both Commodity Contract Counterparties chooses to terminate its Facility Agreement earlier, then the Commodity Contracts with it will expire and unless they are replaced by Commodity Contracts with another Commodity Contract Counterparty the Issuer will elect to redeem some or all of the outstanding Currency-Hedged Commodity Securities.

Where a compulsory redemption occurs, the Currency-Hedged Commodity Securities to be redeemed will be priced in the normal way as set out under the headings "Pricing of Currency-Hedged Commodity Securities" and "Applications and Redemptions" above and will include an adjustment for interest as more fully described in the Conditions, but depending on the number of Currency-Hedged Commodity Securities to be redeemed this pricing may occur over a period of more than one day. Details of the circumstances in which this could occur are set out in the Conditions.

If at that time Security Holders other than Authorised Participants hold the Currency-Hedged Commodity Securities being redeemed, the Redemption Amount payable to those Security Holders will be paid by the Commodity Contract Counterparties either to accounts of the Issuer secured for the benefit of the Security Holders of the relevant classes or to the Trustee for the benefit of such Security Holders, and will be paid to those Security Holders by the Issuer or the Trustee.

Application Fees and Redemption Fees

Application Fees and Redemption Fees will only be payable on the issue and redemption of Currency-Hedged Commodity Securities and not by investors who buy and sell Currency-Hedged Commodity Securities on the secondary market, including the London Stock Exchange.

The Issuer will charge Authorised Participants an Application Fee of £500 (including any applicable VAT) (or such other amount as may be accepted by the Issuer, either generally or on any particular occasion) for each Application, regardless of the number of Currency-Hedged Commodity Securities being issued or the currency of denomination of such Currency-Hedged Commodity Securities.

The Issuer will also charge Authorised Participants a Redemption Fee of £500 (including any applicable VAT) (or such other amount as may be accepted by the Issuer, either generally or on any particular occasion) for each Redemption Form, regardless of the number of Currency-Hedged Commodity Securities being redeemed or the currency of denomination of such Currency-Hedged Commodity Securities. In the event of a compulsory redemption or a Security Holder who is not an Authorised Participant submitting a Redemption Form in circumstances where there is no Authorised Participant, as described above, the Issuer will reduce the Redemption Fee to an amount equal to the Issuer's cost in satisfying such Redemption Form, including costs of enquiries under Condition 13 (*Enquiries as to status of Security Holders*) and of giving the redemption notice (but not exceeding £500), and that amount will be charged by the Issuer by way of a deduction from the redemption proceeds due to such Security Holder.

No additional amounts will be charged by the Issuer to an Applicant or a Security Holder in respect of VAT payable in connection with Application Fees or Redemption Fees.

The Issuer may vary the Application Fees and Redemption Fees at any time after giving 30 days' written notice to Authorised Participants and through a RIS.

Right to Satisfy Applications and Redemptions by Transfer

Notwithstanding the provisions above, the Issuer may, in its discretion, elect to satisfy Application Forms and Redemption Forms by transfer of the appropriate number of Currency-Hedged Commodity Securities to one or more Applicants from the Security Holder(s) seeking redemption. For this purpose, a Security Holder seeking redemption will be deemed to have authorised the Issuer to transfer such Security Holder's Currency-Hedged Commodity Securities as are the subject of the Redemption Form to a third party, on such Security Holder's behalf, provided that the amount payable by the Authorised Participant shall still be an amount equal to the relevant Price in the Relevant Currency on the applicable Pricing Day (plus the Application Fee) and the amount receivable by the Security Holder shall still be the relevant Price on the applicable Pricing Day (less the Redemption Fee), and the relevant Redemption Payment Date will be the date of the transfer.

Security

All rights of the Issuer in relation to the Facility Agreements, the Commodity Contracts, the BAC Guarantee, the Security Agreements and the Control Agreements, to the extent applicable to each Pool will be the subject of a first-ranking floating charge in favour of the Trustee under the applicable Security Deed to secure the obligations owed by the Issuer to the Trustee and the Security Holders in respect of Currency-Hedged Commodity Securities of the relevant class.

Accounts

The Issuer's financial statements will be presented in US Dollars. The value of any assets and liabilities denominated in currencies other than US Dollars is converted into US Dollars at rates quoted by independent sources.

The valuation of the assets and liabilities of the Issuer attributable to any Pool is determined under the supervision of the Board.

The Commodity Contracts constitute an asset of the Issuer. For the purposes of the valuation of the Issuer's assets, the Commodity Contracts are valued at the Price as at the date of valuation.

PART 4

DESCRIPTION OF FACILITY AGREEMENTS AND COMMODITY CONTRACTS

All Currency-Hedged Commodity Securities will be backed by corresponding Commodity Contracts with corresponding terms and the same currency of denomination. Each class of Currency-Hedged Commodity Securities has a corresponding class of Commodity Contract. Each time Currency-Hedged Commodity Securities are issued or redeemed the Issuer will create or terminate corresponding Commodity Contracts, exactly matching the number and classes of Currency-Hedged Commodity Securities in question. Commodity Contracts will be created and terminated by the Issuer under the UBS Facility Agreement, the MLI Facility Agreement or a Facility Agreement with another Commodity Contract Counterparty.

As the Issuer is a special purpose company, whose only assets attributable to Currency-Hedged Commodity Securities will be rights under the Facility Agreements, Commodity Contracts, Security Agreements and the BAC Guarantee, the ability of the Issuer to meet its obligations upon redemption of Currency-Hedged Commodity Securities will be wholly dependent on its ability to receive payment on termination of Commodity Contracts from UBS or the realisation of Collateral provided by UBS under the UBS Security Agreement and the UBS Control Agreement and to receive payment on termination of Commodity Contracts from MLI or from BAC under the BAC Guarantee or the realisation of Collateral provided by MLI under the MLI Security Agreement and the MLI Control Agreement. The Facility Agreements, the Commodity Contracts provided thereunder, the Security Agreements and the BAC Guarantee have characteristics that demonstrate capacity to produce funds to service any payments due and payable on the Currency-Hedged Commodity Securities. The Facility Agreements and the Commodity Contracts provided thereunder are governed by English law, while the BAC Guarantee and the Security Agreements are governed by New York law.

Facility Agreements

The Issuer has entered into the Facility Agreements with UBS and with MLI under which the Issuer can create and terminate on a continuous basis, subject to the Creation Limits and the Redemption Limit and certain other conditions, any combination of classes of Commodity Contracts. The Facility Agreements each run until at least 23 February 2022, subject to earlier termination in accordance therewith, and as more fully described below. The Issuer hopes to procure an increase in the total number of Commodity Contracts available from the Commodity Contract Counterparties in the event that demand for Currency-Hedged Commodity Securities necessitates such additional capacity.

The Facility Agreements may each be terminated by the Commodity Contract Counterparty on three months' notice or by not less than two Business Days' notice following the occurrence of an event of default in respect of the Issuer, provided that the event of default was not caused by a breach by the Commodity Contract Counterparty of its obligations under the relevant Facility Agreement. Other termination rights in favour of the Commodity Contract Counterparties include on the occurrence of a material adverse change (which itself includes a change in tax law).

Each of the Facility Agreements may be terminated by the Issuer by not less than two Business Days' notice following the occurrence of a Counterparty Event of Default in respect of the relevant Commodity Contract Counterparty, provided that the same was not caused by a breach by the Issuer of its obligations under the Facility Agreement or by any Authorised Participant under the relevant Authorised Participant Agreement, on not less than 30 days' notice if the Commodity Contract Counterparty gives a notice that a withholding or deduction is or may be required from payments to be made by it or any Guarantor under United States law, by not less than two days' notice in respect of the applicable classes of Commodity Contracts if all Commodity Securities of any class are to be redeemed pursuant to Condition 8.7 of the Conditions or upon 30 days' notice (in the case of the UBS Facility Agreement) or two Business Days' notice (in the case of the MLI Facility Agreement) in respect of any one or more classes of Commodity Contracts if all Currency-Hedged Commodity Securities of such classes are to be redeemed. The Issuer may also terminate a Facility Agreement at any time upon giving not less than three months' notice.

Each of the Commodity Contract Counterparties may elect to amend its Facility Agreement if the Issuer enters into a Facility Agreement with another Commodity Contract Counterparty to substantially conform its Facility Agreement to that new Facility Agreement and for this purpose the consent of the Trustee will not be required.

Under the Facility Agreements the Issuer may appoint Commodity Contract Counterparties in its sole discretion, save that if any then existing Commodity Contract Counterparty considers in its reasonable belief and acting in good faith that such proposed new Commodity Contract Counterparty should not be appointed for credit, operational, reputational or any other reasonable reasons (other than on grounds of competition) and so notifies the Issuer giving reasons within ten Business Days, such appointments may not become effective.

The MLI Facility Agreement is substantially on the same terms as the UBS Facility Agreement, save that:

- the right of the Issuer to terminate the Facility Agreement in respect of any one or more classes of Commodity Contracts if all Currency-Hedged Commodity Securities of such classes are to be redeemed is on two Business Days' notice rather than 30 days' notice. However the Issuer has agreed with MLI that it will only exercise such right on less than 30 days' notice in the event of a payment default by BAC under either of the guarantees given by it to support the payment obligations of MLCI under the MLCI Classic and Longer Dated Facility Agreement and the MLCI Short and Leveraged Facility Agreement or in the event of the termination of either of such guarantees without the prior written consent of the Issuer on less than five days' notice (other than where a replacement guarantee or other form of credit support acceptable to the Issuer is provided to the Issuer). In such event the matching Currency-Hedged Commodity Securities need not be Redeemed provided that the Issuer can procure equivalent Commodity Contracts from another Commodity Contract Counterparty;
- UBS will act as Calculation Agent as referred to under the headings "Calculation Agency Agreement" and "Calculation Agent" below for the purposes of the MLI Facility Agreement, as well as under the UBS Facility Agreement;
- in the event that UBS ceases to be the Calculation Agent under the Calculation Agency Agreement, a new Calculation Agent, which is or will be a Commodity Contract Counterparty selected by the Issuer, shall be appointed to act as Calculation Agent for the purposes of the MLI Facility Agreement; and
- in the event that UBS ceases to be the Calculation Agent under the Calculation Agency Agreement following an Insolvency Event in relation to UBS or certain breaches thereof, UBS shall cease to act as Calculation Agent under the UBS Facility Agreement and the Calculation Agent appointed for the purposes of the MLI Facility Agreement shall be appointed to act as Calculation Agent for the purposes of the UBS Facility Agreement.

The Issuer may, but is not required to, enter into other Facility Agreements with other Commodity Contract Counterparties. UBS will (save as described under the heading "MLI Facility Agreement" above and under the heading "Calculation Agency Agreement" below) act as Calculation Agent under any other such Facility Agreement. **Other Facility Agreements may not be on the same terms as the UBS Facility Agreement or the MLI Facility Agreement.** It is not the Issuer's intention to enter into Facility Agreements for the purpose of spreading counterparty risk. In the event that the Issuer enters into a Facility Agreement with a new Commodity Contract Counterparty, the Issuer will include in a supplementary prospectus such information relating to that new Commodity Contract Counterparty of which it is aware or is able to ascertain from information published by such new Commodity Contract Counterparty, as is required by Annex VIII of the Prospectus Regulation (Regulation Number 809/2004/EC).

Calculation Agency Agreement

The Issuer, UBS, UBS Securities and MLI have entered into the Calculation Agency Agreement pursuant to which UBS will act as Calculation Agent for the purposes of the MLI Facility Agreement. The Calculation Agency Agreement contains customary exculpatory terms including provisions that neither the Trustee nor any holder or potential holder of Currency-Hedged Commodity Securities will be entitled to rely as against the Calculation Agent upon any determination of the Calculation Agent and that no duty will be owed by the Calculation Agent to the Trustee or any holder or potential holder of Currency-Hedged Commodity Securities in connection with any such determination.

The Calculation Agency Agreement will terminate automatically on the termination of either the MLI Facility Agreement or the UBS Facility Agreement and upon the occurrence of an Insolvency Event with respect to UBS. The Issuer and MLI may together terminate UBS' appointment as calculation agent upon not less than 45 days' written notice and either may do so earlier on certain breach events. UBS

will be entitled to resign as calculation agent upon not less than 45 days' written notice if at the time of giving such notice there are no and have not for 30 days been any Commodity Contracts outstanding under the UBS Facility Agreement, any commodity contracts outstanding under the UBS Classic and Longer Dated Facility Agreement or any commodity contracts outstanding under the UBS Short and Leveraged Facility Agreement. If UBS' role as calculation agent is terminated (other than by the Issuer and MLI together absent such breach events) its role as calculation agent under the UBS Facility Agreement will also terminate. Where UBS' role as calculation agent is terminated, the Issuer must identify and appoint a replacement calculation agent (being a Commodity Contract Counterparty).

Security Agreements and Control Agreements

The Issuer has entered into the UBS Security Agreement (which was entered into in relation to and supplements the UBS Facility Agreement) and the MLI Security Agreement (which was entered into in relation to and supplements the MLI Facility Agreement) under which UBS and MLI (respectively) have agreed to provide Collateral in respect of their Collateral Exposure in respect of each Currency at any time. The Collateral Exposure applicable to a Commodity Contract Counterparty and a Currency is calculated each Business Day by both the Issuer and that Commodity Contract Counterparty and is verified between the parties each Business Day.

The Issuer has also entered into the UBS Control Agreement with UBS and The Bank of New York Mellon (as Securities Intermediary) and the MLI Control Agreement with MLI and The Bank of New York Mellon (as Securities Intermediary). Under the terms of the Security Agreements and the Control Agreements, each Commodity Contract Counterparty is required to post the Collateral relating to Commodity Contracts denominated in each Currency to a Collateral Account relating to that Currency in its name at the Securities Intermediary.

The Securities Intermediary is not liable for any costs, expenses, damages, liabilities or claims, including attorneys' fees ("**Losses**") incurred by or inserted against MLI, UBS or the Issuer, except those Losses arising out of the negligence or wilful misconduct of the Securities Intermediary or any office, branch or subsidiary of The Bank of New York Mellon. Securities Intermediary shall have no liability whatsoever for the action or inaction of any Treasury/Reserve Automated Debt Entry System maintained at The Federal Reserve Bank of New York for receiving and delivering securities, The Depository Trust Company, Euroclear, Clearstream Banking S.A. and any other clearing corporation within the meaning of Section 8-102 of the Uniform Commercial Code as in effect in the State of New York or otherwise authorised to act as a securities depository or clearing agency, and their respective successors and nominees and identified to the Issuer and UBS or MLI from time to time.

A description of the arrangements for the provision of Collateral by each Commodity Contract Counterparty under its respective Security Agreement and Control Agreement is set out under the heading "Provision of Collateral by the Commodity Contract Counterparties – Security Agreements and Control Agreements" in Part 1 (*General*).

Commodity Contracts

210 classes of Commodity Contracts are currently available under the Facility Agreements to be created by the Issuer, corresponding to the 210 classes of Currency-Hedged Commodity Securities. Where an Authorised Participant has agreed with a Commodity Contract Counterparty the pricing for the issue or redemption of Currency-Hedged Commodity Securities and the creation or termination of the corresponding Commodity Contracts ("**Agreed Pricing**") the Issuer will create or terminate Commodity Contracts at that pricing, but otherwise the creation or termination price per Commodity Contract will be the Price in the Relevant Currency of the corresponding Currency-Hedged Commodity Security on the applicable Pricing Day ("**Settlement Pricing**"). Payments due on the creation or termination of Commodity Contracts will be made in US Dollars by applying the Settlement Foreign Exchange Rate to the Relevant Currency.

Whenever Settlement Pricing is used:

- upon receipt by the Issuer of a valid Application Form or Redemption Form, the Issuer will send to the relevant Commodity Contract Counterparty a Creation Notice or Cancellation Notice (together with a copy of the applicable Application Form or Redemption Form, as the case may be) creating or terminating, as the case may be, an Equivalent Number of Commodity Contracts corresponding to the Currency-Hedged Commodity Securities which are the subject of the Application Form or Redemption Form; and

- within 30 minutes of the Notice Deadline (or, if later, within 30 minutes of any Creation Notice or Cancellation Notice having been sent by the Issuer to the relevant Commodity Contract Counterparty), the Issuer will contact the relevant Commodity Contract Counterparty by telephone to seek confirmation of acceptance by it of such Creation Notice or Cancellation Notice. The relevant Commodity Contract Counterparty will confirm such Creation Notice or Cancellation Notice provided that it complies with certain formalities (set out in the Facility Agreement) as to form, quantum, procedure, timing and substance.

As referred to under the heading “Applications and Redemptions — The System” in Part 3 (*Description of Currency-Hedged Commodity Securities*), the Issuer has implemented the System for enabling Authorised Participants to make Applications and request Redemptions by means of a secure website and has agreed provisions with the Commodity Contract Counterparties and the Authorised Participants to enable use of such system in substitution for the lodging of the forms otherwise required by the Facility Agreements, the Authorised Participant Agreements and the Conditions for the purposes of such Applications and Redemptions. It is expected that all Applications will be made and all Redemptions will be requested using the System.

Separate Pools

All Currency-Hedged Commodity Securities of the same class will have recourse only to the Secured Property of the Pool attributable to that class and not to the Secured Property of any Pool attributable to any other class. The principal assets to be included in each Pool are the Commodity Contracts of that class with UBS and MLI, the rights of the Issuer under the Facility Agreements for that class, and the rights in respect of that class of Commodity Contracts under the Security Agreements, the Control Agreements and the BAC Guarantee. The Issuer may issue other classes of Currency-Hedged Commodity Securities, based on different prices, different currencies of denomination or having some other different characteristics, but any such securities will have recourse only to the Secured Property of the Pool attributable to such new type and not to the assets attributable to any other type.

Corresponding Terms of Commodity Contracts with Currency-Hedged Commodity Securities

Whenever Currency-Hedged Commodity Securities are issued or redeemed, the Issuer will always create or terminate corresponding Commodity Contracts of the corresponding class as those Currency-Hedged Commodity Securities. Consequently the sum of the exposures of the Commodity Contract Counterparties in respect of Commodity Contracts of each class at any time will always exactly match the exposure of the Issuer in respect of Currency-Hedged Commodity Securities of the corresponding class at that time.

Payment for the issue of Currency-Hedged Commodity Securities and for the creation of Commodity Contracts will be made, in US Dollars, by an Authorised Participant directly to the relevant Commodity Contract Counterparty. The amount due in US Dollars will be calculated by applying the Settlement Foreign Exchange Rate to the Relevant Currency. Payment on the redemption of Currency-Hedged Commodity Securities will be made, in US Dollars, by the relevant Commodity Contract Counterparty, in respect of the termination of the corresponding Commodity Contracts by the Issuer, directly to the Authorised Participant redeeming the Currency-Hedged Commodity Securities, subject to certain set-off arrangements in respect of creation amounts due and unpaid by the Authorised Participant in relation to the issue of Currency-Hedged Commodity Securities. Payments from or to Authorised Participants in respect of Applications for or Redemptions of Currency-Hedged Commodity Securities will be made via the CREST system on a delivery versus payment basis.

Unless Agreed Pricing is used, the amount payable upon creation or termination of Commodity Contracts is always determined in the same manner as the Price on the applicable Pricing Day for the corresponding Currency-Hedged Commodity Securities which are applied for or redeemed. Under the Facility Agreements, a Market Disruption Day is determined in the same manner as the determination of a Market Disruption Day under the Programme. Accordingly, any day that is a Market Disruption Day for the purposes of a Facility Agreement is also a Market Disruption Day for the purposes of the Programme. Commodity Contracts have no equivalent of a Principal Amount.

If Agreed Pricing is used to determine the amount payable upon creation or termination of Commodity Contracts, the same Agreed Pricing applies to the corresponding Currency-Hedged Commodity Securities which are applied for or redeemed.

Consequently, save in the event of a compulsory redemption in the circumstances described in the risk factors entitled “Realisation of Collateral” and “Enforcement by the Trustee” above, the amounts payable between Authorised Participants and the Issuer on the issue or redemption of Currency-Hedged Commodity Securities (other than Application Fees and Redemption Fees which are payable by Authorised Participants to the Issuer in Sterling (and save where the Principal Amount of a Currency-Hedged Commodity Security exceeds its Price)) will always be identical to the amounts payable between the Issuer and a Commodity Contract Counterparty on the creation and termination of the corresponding Commodity Contracts.

Elections

Upon an Application Form being lodged for new Currency-Hedged Commodity Securities:

- the Issuer will only issue new Currency-Hedged Commodity Securities if it can create corresponding Commodity Contracts under a Facility Agreement; and
- the Issuer may in its absolute discretion elect to satisfy such Application by the transfer of the appropriate number and type of Currency-Hedged Commodity Securities from one or more Security Holders seeking redemption. In that event, to the extent of the number and type of Currency-Hedged Commodity Securities transferred, no new Commodity Contracts will be created.

Management Fee

The Management Fee, together with the Licence Allowance, will be reflected in the daily adjustments to the Capital Adjustment for the applicable class of Currency-Hedged Commodity Securities. The Management Fee and the Licence Allowance will be paid by the Commodity Contract Counterparties to the Issuer.

No other cash payments are settled between the Commodity Contract Counterparties and the Issuer. The net amounts payable on creation or termination of Commodity Contracts are paid directly between the relevant Commodity Contract Counterparty and the Authorised Participant which is applying for or redeeming the Currency-Hedged Commodity Securities, via CREST.

Calculation Agent

UBS is required to act as Calculation Agent under and solely for the purposes of the UBS Facility Agreement, the MLI Facility Agreement and each other Facility Agreement that may be entered into with other Commodity Contract Counterparties.

UBS has two separate roles as Calculation Agent, as follows:

- (a) UBS will determine the existence of a Market Disruption Event in respect of an Individual Commodity Index; and
- (b) if a Commodity Index is not calculated and/or published and a substitute value is required to be calculated and published pursuant to the Facility Agreement, or if a Market Disruption Event occurs in respect of any Commodity Index on five or more consecutive General Trading Days (irrespective of whether a Commodity Index is published for those General Trading Days), UBS will calculate a substitute value for that Commodity Index in accordance with the Facility Agreement.

In acting as Calculation Agent, UBS is required under the terms of the UBS Facility Agreement and the Calculation Agency Agreement to act in good faith and in a commercially reasonable manner, and in accordance with its obligations under the UBS Facility Agreement and the Calculation Agency Agreement. Subject to those requirements, the calculations of the Calculation Agent are final and conclusive in the absence of manifest error.

The Issuer may provide copies of determinations notified to the Issuer by the Calculation Agent under a Facility Agreement to the Trustee (but no other person) and/or notify the Trustee (and any other persons) of such determinations by the Calculation Agent, but in each case on the express basis that they are for information purposes only; neither the Trustee nor any actual or potential Security Holder can rely as against the Calculation Agent upon any determination of the Calculation Agent; and no duty is owed by the Calculation Agent to the Trustee or any actual or potential Security Holder.

PART 5

THE PROGRAMME

Overview of the Programme

Currency-Hedged Commodity Securities are being made available by the Issuer for subscription only to Authorised Participants. Only Authorised Participants may apply for and/or redeem Currency-Hedged Commodity Securities (except that a Security Holder who is not an Authorised Participant may request redemption of Currency-Hedged Commodity Securities which it holds in the event that on any given Issuer Business Day there are no Authorised Participants or as may be announced by the Issuer from time to time in accordance with the Conditions and such Security Holder submits a valid Redemption Form on such day).

Currency-Hedged Commodity Securities are available to be issued in Certificated Form or in Uncertificated Form in the CREST System. Persons who apply for Currency-Hedged Commodity Securities and wish to hold their Currency-Hedged Commodity Securities in Uncertificated Form should so signify on the Application Form and complete the relevant sections of that form in accordance with the instructions thereon. See “CREST” below.

Passporting

The Issuer has requested the FSA to provide the competent authority in Austria, the *Österreichische Finanzmarktaufsicht* (Austrian Financial Market Authority), the competent authority in Denmark, the *Finanstilsynet* (Financial Supervisory Authority), the competent authority in Finland, the *Finanssivalvonta* (Finnish Financial Supervisory Authority), the competent authority in France, the *Autorité des Marchés Financiers* (Authority for the Financial Markets), the competent authority in Germany, the *Bundesanstalt für Finanzdienstleistungsaufsicht* (the Federal Financial Supervisory Authority), the competent authority in Ireland, the Central Bank of Ireland, the competent authority in Italy, the *Commissione Nazionale per le Società e la Borsa* (CONSOB), the competent authority in the Netherlands, the *Autoriteit Financiële Markten* (Authority for the Financial Markets), the competent authority in Norway the *Kreditttilsynet* (Norwegian Financial Supervision Authority), the competent authority in Portugal, the *Comissão do Mercado de Valores Mobiliários* (Portuguese Securities Market Commission), the competent authority in Spain, the *Comisión Nacional del Mercado de Valores* (Securities Market Commission) and the competent authority in Sweden, *Finansinspektionen* (Financial Supervisory Authority) with certificates of approval attesting that this Prospectus has been drawn up in accordance with Directive 2003/71/EC.

The Issuer may request the FSA to provide competent authorities in other EEA Member States with such certificates whether for the purposes of making a public offer in such Member States or for admission to trading of all or any Currency-Hedged Commodity Securities on a regulated market therein or both.

The Currency-Hedged Commodity Securities specified in paragraph 21(d) of Part 11 (*Additional Information*) have been admitted to listing on the Regulated Market (General Standard) (*Regulierter Markt [General Standard]*) of the Frankfurt Stock Exchange (*Frankfurter Wertpapierbörse*) since 15 March 2012.

The Currency-Hedged Commodity Securities specified in paragraph 21(d) of Part 11 (*Additional Information*) have been admitted to listing on the ETFplus market of the Borsa Italiana since 7 June 2012.

Procedure for Application

Only Authorised Participants may make an Application. An Authorised Participant who wishes to apply for Currency-Hedged Commodity Securities should complete the Application Form in accordance with the instructions thereon and send it to the Issuer.

As described under the heading “Applications and Redemptions — The System” in Part 3 (*Description of Currency-Hedged Commodity Securities*), the Issuer has implemented the System for enabling Authorised Participants to make Applications and request Redemptions by means of a secure website in substitution for the lodging of the forms otherwise required by the Facility Agreements, the Authorised

Participant Agreements and the Conditions for the purposes of such Applications and Redemptions. It is expected that all Applications will be made and all Redemptions will be requested using the System.

For those Applicants who wish to hold their Currency-Hedged Commodity Securities in Certificated Form, certificates in respect of the Currency-Hedged Commodity Securities will be dispatched within 10 Business Days of the Currency-Hedged Commodity Securities being issued. For those Applicants who desire to hold their Currency-Hedged Commodity Securities in Uncertificated Form, the relevant CREST account will be credited on the day on which the Currency-Hedged Commodity Securities are issued against payment. The Issuer considers it preferable that Currency-Hedged Commodity Securities be held in Uncertificated Form. Notwithstanding any other provision in this document, the Issuer reserves the right to issue any Currency-Hedged Commodity Securities in Certificated Form. In normal circumstances this right is only likely to be exercised in the event of any interruption, failure or breakdown of CREST (or any part of CREST), or on the part of the facilities and/or systems operated by the Registrar in connection with CREST. This right may also be exercised if the correct details (such as participant ID and member account details) are not provided as requested on the Application Form. No temporary documents of title will be issued and, pending despatch of security certificates, transfers will be certified against the register.

By completing and delivering an Application Form or lodging an Application order through the System, the Applicant confirms and agrees that:

- (a) it is not relying on any information or representation other than such as may be contained in this document;
- (b) no person responsible solely or jointly for this document or any part of it shall have any liability for any information or representation not contained in this document;
- (c) it is an Authorised Person, an Exempt Person or an Overseas Person;
- (d) it understands that Currency-Hedged Commodity Securities are direct, limited recourse obligations of the Issuer alone; and
- (e) it understands that the obligations of the Issuer under Currency-Hedged Commodity Securities are not guaranteed by UBS or any member of the UBS Group, MLI, BAC or any other member of the BAC Group or any other Commodity Contract Counterparty or Guarantor.

Further details on new issues are set out in Part 3 (*Description of Currency-Hedged Commodity Securities*).

Subscription for Currency-Hedged Commodity Securities

All Application Moneys for Currency-Hedged Commodity Securities must be paid through CREST in accordance with the procedures set out in the Application Form in US Dollars.

Currency-Hedged Commodity Securities in respect of which the Application has been made will not be issued unless the Commodity Contracts created and to be paid for with the Application Moneys for that Application are in force.

Settlement

CREST

The Issuer is a participating issuer in, and the Currency-Hedged Commodity Securities are participating securities in, CREST, a paperless multi-currency electronic settlement procedure enabling securities (including debt securities) to be evidenced otherwise than by written instrument, and transferring such securities electronically with effective delivery versus payment. Accordingly, to the extent that the Currency-Hedged Commodity Securities are issued in Uncertificated Form, settlement of transactions in the Currency-Hedged Commodity Securities will take place within the CREST system.

Settlement and Delivery on the Frankfurt Stock Exchange

For the purpose of good delivery of the Currency-Hedged Commodity Securities on the Frankfurt Stock Exchange, Clearstream Banking Aktiengesellschaft ("**Clearstream**") will issue, for each series and the relevant number of Currency-Hedged Commodity Securities, a Global Bearer Certificate (each a

“**Global Bearer Certificate**”) in the German language created under German law (“**Collective Safe Custody**”). Global Bearer Certificates have been issued in respect of the Classic Commodity Securities. The Global Bearer Certificates have the following German ISIN Codes:

Type of Global Bearer Certificate	ISIN Code
ETFS EUR Daily Hedged Agriculture DJ-UBS ED SM	DE000A1NZLJ4
ETFS EUR Daily Hedged All Commodities DJ-UBS ED SM	DE000A1NZLK2
ETFS EUR Daily Hedged Brent Crude	DE000A1N3G19
ETFS EUR Daily Hedged Copper	DE000A1NZLL0
ETFS EUR Daily Hedged Gold	DE000A1NZLN6
ETFS EUR Daily Hedged Natural Gas	DE000A1NZLP1
ETFS EUR Daily Hedged Precious Metals DJ-UBS ED SM	DE000A1NZLQ9
ETFS EUR Daily Hedged Silver	DE000A1NZLR7
ETFS EUR Daily Hedged Wheat	DE000A1NZLS5
ETFS EUR Daily Hedged WTI Crude Oil	DE000A1NZLM8

A non-binding English language translation of the conditions of the Global Bearer Certificates is set out in Part 9 (*Global Bearer Certificates*) and the definitive German language text is annexed hereto in Annexes 1 and 2.

For each Global Bearer Certificate, the relevant number and type of Currency-Hedged Commodity Securities will be registered in the name of Vidacos Nominees Limited, London, England (the “**Nominee**”) in the relevant Register of Security Holders and credited to a separate safe custody account of Clearstream with Citibank N.A., London, England (the “**Custodian**”). The safe custody accounts assigned to the Currency-Hedged Commodity Securities (the “**Safe Custody Account**”) will be designated “Clearstream Banking Aktiengesellschaft (Clearstream) — Special Safe Custody Account for ETFS Currency-Hedged Commodity Securities Global Bearer Certificate” followed by the name and type of Currency-Hedged Commodity Security concerned.

In accordance with the conditions governing each Global Bearer Certificate:

- each co-owner thereof will be entitled, at his expense, to demand at any time that Clearstream arrange for the registration of the co-owner or a third party designated by him, in the relevant Register of Security Holders of the number and type of Currency-Hedged Commodity Securities corresponding to his co-ownership share or any portion thereof in the Global Bearer Certificate of the same class; and
- any registered holder of Currency-Hedged Commodity Securities of any relevant class will be entitled, at his expense, to have his Currency-Hedged Commodity Securities delivered to the Custodian for crediting to the Safe Custody Account against a corresponding co-ownership share in the Global Bearer Certificate of the relevant class.

Whenever the number of Currency-Hedged Commodity Securities represented by the Global Bearer Certificate of any class changes (as a result, for example, of deliveries to the Safe Custody Account, withdrawals from the Safe Custody Account or issues or redemptions of Currency-Hedged Commodity Securities), Clearstream will amend the relevant Global Bearer Certificate accordingly.

Unless otherwise agreed, the Issuer will treat the Nominee as one single security holder so far as fractional rights and entitlements are concerned.

Cash Payments and Exercise of Subscription Rights and Other Rights: Cash payments are credited to Clearstream’s cash account with the Custodian and paid by Clearstream to the respective co-owners. Any subscription rights or other rights and any fractional rights relating to the Currency-Hedged Commodity Securities in the Safe Custody Account will be held by Clearstream at the disposal of HSBC Trinkaus & Burkhardt AG (the “**Bank**”) of Königsallee 21/23, 40212 Düsseldorf, Federal Republic of Germany. Upon the request of the Bank, Clearstream will give instructions to the Custodian for the exercise, purchase or sale of such subscription rights, other rights or fractional rights. In case of any flow of cash amounts resulting out of such transactions, Clearstream will without delay inform the Bank by fax of the net proceeds or the net costs, respectively, and the related value date. The net proceeds or the net costs, respectively, must be credited or debited to the Bank’s cash account with Clearstream or as otherwise agreed between Clearstream and the Bank.

Clearstream Banking AG: Clearstream is a company that was incorporated on 12 July 1949 in Frankfurt under the laws of the Federal Republic of Germany.

Clearstream is a regulated credit institution under the German Banking Act and licensed as the German Central Securities Depository pursuant to the German Securities Deposit Act, i.e. a professional depository that holds securities for its customers and facilitates the clearance and settlement of securities transactions among them through electronic book-entry transfers between their accounts, thereby eliminating the need for physical movement of the securities. Clearstream also provides other services to its customers, including safekeeping, administration, clearance and settlement of internationally-traded securities and securities lending and borrowing. Clearstream's customers are worldwide financial institutions, including underwriters, securities brokers and dealers, banks, trust companies and clearing corporations.

Clearstream conducts its business in the legal form of a German stock corporation (*Aktiengesellschaft*), registered in the commercial register at the local court in Frankfurt under number HRB 7500, and with registered office at Neue Börsenstraße 1, D60487 Frankfurt am Main, Federal Republic of Germany.

Supply and Inspection of Documents in Germany

For the duration of the Programme or so long as any Currency-Hedged Commodity Securities remain outstanding, copies of this Prospectus (or any replacement prospectus), the German translation of the summary thereto and all financial information as well as the contracts required to be disclosed by the Issuer pursuant to the applicable rules will be available for inspection during normal business hours on any weekday (Saturdays, Sundays and public holidays excepted) at the registered office of the Bank, and a copy of the documents referred above may be requested by contacting the Bank.

Settlement and Delivery on the ETFplus Market of the Borsa Italiana

All Currency-Hedged Commodity Securities traded on Borsa Italiana S.p.A. will be recorded in the Register in the name of Monte Titoli S.p.A. and held beneficially for persons who have bought through Borsa Italiana S.p.A. For those persons Monte Titoli S.p.A. will maintain its own record of holders ("**Italian sub-register**"). All Currency-Hedged Commodity Securities traded on the Borsa Italiana S.p.A. are eligible for settlement through the normal Monte Titoli S.p.A. settlement systems on the deposit accounts opened with Monte Titoli S.p.A. Marketmakers and other account holders at Monte Titoli S.p.A. will be permitted to transfer securities between the Register and the Italian sub-register and any other sub-registers applicable to other markets to which the Currency-Hedged Commodity Securities may be admitted to trading, and thereby be able to move securities between the London Stock Exchange, such other markets and Monte Titoli S.p.A.

For the purposes of discharging any obligations under the Currency-Hedged Commodity Securities held through Monte Titoli S.p.A., the Issuer will treat Monte Titoli S.p.A. as the single security holder of such Currency-Hedged Commodity Securities and the holders recorded in the Italian sub-register must look to Monte Titoli S.p.A. to receive any and all entitlements under such Currency-Hedged Commodity Securities.

Registers

The Registrar will maintain the Registers in Jersey.

UCITS and CIS

United Kingdom

The Issuer has been advised that:

- (a) the Currency-Hedged Commodity Securities do not constitute units in a collective investment scheme; and
- (b) the Currency-Hedged Commodity Securities are capable of constituting transferable securities.

Prospective investing UCITS Schemes would need to satisfy themselves that an investment in the Currency-Hedged Commodity Securities in their own circumstances would be in line with their investment objectives and comply with the relevant parts of the FSA Handbook.

Money Laundering Regulations

The verification of identity requirements of Jersey's anti-money laundering laws and regulations and/or any subsequent equivalent legislation will apply to the Programme and verification of the identity of the Authorised Participants for Currency-Hedged Commodity Securities may be required. The anti-money laundering laws and regulations of other jurisdictions may also apply to the Programme and verification of the identity of the Authorised Participants.

By lodging an Application Form or lodging an Application order through the System, each Authorised Participant confirms that it is subject to the Money Laundering (Jersey) Order 2008 (as amended from time to time) (in relation to Jersey), the Money Laundering Regulations 2007 (in relation to the UK) and/or any other applicable anti-money laundering laws and regulations and/or undertakes to provide such other evidence of identity as is required by the Issuer at the time of lodging the Application Form or order, or, at the absolute discretion of the Issuer, at such specified time thereafter as may be requested to ensure compliance with the Money Laundering (Jersey) Order 2008, the Money Laundering Regulations 2007 and/or any other applicable legislation.

The secretary is entitled, in its absolute discretion, to determine whether the verification of identity requirements apply to any Authorised Participant and whether such requirements have been satisfied. Neither the Issuer nor the Registrar shall be responsible or liable to any person for any loss or damage suffered as a result of the exercise of their discretion hereunder.

No Application will be accepted by the Issuer unless evidence of such Authorised Participant's identity satisfactory to the Issuer and its agents is provided.

PART 6

TRUST INSTRUMENT AND CURRENCY-HEDGED COMMODITY SECURITIES

The issue of up to 1,000,000,000 Currency-Hedged Commodity Securities of each class of the Issuer (each having the Principal Amount stated in paragraph 5 of Part 11 (*Additional Information*)) was authorised pursuant to a resolution of the Board passed on 8 December 2011. The Currency-Hedged Commodity Securities are constituted by a trust instrument dated 23 February 2012 as amended by a supplemental trust instrument dated 14 February 2013 (as so amended, the “**Trust Instrument**” which expression includes further deeds or documents supplemented thereto from time to time), governed by Jersey law between the Issuer and The Law Debenture Trust Corporation p.l.c (the “**Trustee**”) (as amended) and secured by a security deed governed by English law dated 23 February 2012 between the Issuer and the Trustee, as amended. Under the terms of the Trust Instrument the Trustee may delegate all or any of its rights, powers, authorities, duties and discretions in respect of the Currency-Hedged Commodity Securities upon such terms and subject to such conditions and regulations as the Trustee may in the interests of the Security Holders think fit.

The Trustee, The Law Debenture Trust Corporation p.l.c., is a public limited company registered in England with number 1675231 whose registered office is at Fifth Floor, 100 Wood Street, London EC2V 7EX and which was incorporated on 2 November 1982.

Save in the case of fraud, wilful misconduct or gross negligence, the Trustee has no liability under the Trust Instrument for a breach of trust and save in such circumstances, the Trustee is not liable for any loss arising by reason of any mistake or omission by it or by reason of any other matter or thing including fraud, wilful misconduct, gross negligence or default of another director, officer or employee or Trustee.

The Trustee is not liable for any Liability which may result from the exercise or non-exercise of its trusts, rights, powers, authorities, duties and discretions under the Documents.

The following are the conditions applicable to the Currency-Hedged Commodity Securities.

“The Conditions

The Commodity Securities are undated, limited recourse, secured debt securities of ETFS Hedged Commodity Securities Limited and are constituted by, are issued subject to and have the benefit of, a trust instrument dated 23 February 2012 between the Issuer and The Law Debenture Trust Corporation p.l.c. as trustee for the holders of Commodity Securities, as amended by a supplemental trust instrument dated 14 February 2013, governed by Jersey law.

The Security Holders (as defined below) are entitled to the benefit of, are bound by and are deemed to have notice of, all the provisions of the Trust Instrument and the Security Deed (each as defined below) and the Conditions set out below.

1. DEFINED TERMS AND INTERPRETATION

1.1 In these Conditions, the following words and expressions have the following meanings:

“**Acceptable Credit Rating**” means a long term senior debt credit rating of at least BBB+ from Standard & Poor’s Rating Services, a division of the McGraw-Hill Companies Inc. (or any successor to the ratings business thereof), and of at least Baa1 from Moody’s Investors Service Inc. (or any successor to the ratings business thereof);

“**Affiliate**” means, in relation to any person, any entity controlled, directly or indirectly, by that person, any entity that controls, directly or indirectly, that person, or any entity directly or indirectly under common control with that person; and for this purpose, “**control**” of any entity or person means ownership of a majority of the voting power of the entity or person;

“**Agreed Pricing**” has the meaning given in Condition 7.1(b);

2. STATUS OF COMMODITY SECURITIES

Commodity Securities constitute undated limited recourse secured debt obligations of the Issuer secured as set out in Condition 3. The Commodity Securities of each class rank *pari passu* among themselves.

3. SECURITY AND LIMITED RECOURSE

- 3.1 The obligations of the Issuer in respect of each class of Commodity Securities are secured pursuant to the Security Deed by a first ranking floating charge in favour of the Trustee for the Security Holders over, and by an assignment by way of security of, all the Issuer's rights in relation to the Secured Property of that class.
- 3.2 The Trustee and the Security Holders of any class of Commodity Securities shall have recourse only to sums derived from the Secured Property relating to the relevant Pool. If, the Trustee (or any other secured party) having realised the same, the net proceeds are insufficient for the Issuer to make all payments which, but for the effect of this Condition, would then be due, the obligations of the Issuer will be limited to such net proceeds of realisation, neither the Trustee nor any person acting on its behalf shall be entitled to take any further steps against the Issuer to recover any further sums and no debt shall be owed by the Issuer to any such person in respect of any such further sum. In particular, neither the Trustee nor any Security Holder shall be entitled to institute, nor join with any other person in bringing, instituting or joining, any bankruptcy, suspension of payments, moratorium of any indebtedness, winding-up, re-organisation, arrangement, insolvency or liquidation proceeding or other proceeding under any similar law (whether court based or otherwise) in relation to the Issuer (except for the appointment of a receiver and manager pursuant to the Security Deed) for two years (or, if later, the longest suspense period, preference period or similar period (howsoever described) ending with the onset of insolvency in respect of which transactions entered into by the Issuer within such period may be subject to challenge under applicable insolvency or other proceeding) plus one day after the date on which all amounts payable under the last outstanding security of any class issued by the Issuer and constituted by the Trust Instrument are repaid, nor shall they have any claim in respect of any sum arising in respect of the Secured Property for any other Pool or any other assets of the Issuer.

4. FORM AND TRANSFER

- 4.1 Commodity Securities are in registered form and are individually transferable.
- 4.2 Commodity Securities may be held and transferred in Uncertificated Form by means of CREST in accordance with the Regulations. The Trustee may, without the consent of Security Holders, concur with the Issuer in making modifications to the provisions of the Trust Instrument in order to reflect changes in the Regulations or in the applicable law and practice relating to the holding or transfer of Commodity Securities in Uncertificated Form. A Security Holder may request that

his Commodity Securities be held in Certificated Form, in which case such Commodity Securities shall be removed from CREST.

- 4.3 The Issuer shall at all times keep at its registered office, or at such other place in Jersey as the Trustee may agree, Registers showing the date of issue and all subsequent transfers and changes of ownership of all outstanding Commodity Securities and the names and addresses of the Security Holders and the persons deriving title under them. The Trustee and the Security Holders or any of them and any person authorised by any such person shall be at liberty at all reasonable times during office hours to inspect the Registers and to take (free of charge) copies of, or extracts from, the same or any part thereof. In the event of the Trustee requiring to convene a meeting of or to give any notice to, the Security Holders the Issuer shall furnish the Trustee (free of charge) with such copies of, or extracts from, the Registers as it shall require. The Registers may be closed by the Issuer for such periods and at such times (not exceeding in the whole 30 days in any one year) as it may think fit.
- 4.4 The Issuer, the Trustee and, to the extent relevant, each Security Holder, by accepting a Commodity Security, agrees to treat the Commodity Securities as equity interests in the Issuer for all U.S. federal tax purposes.

5. PRICE OF COMMODITY SECURITIES

- 5.1 The Price for the first Commodity Security of a particular class to be issued (which shall be treated as being the Price for the day on which the Creation Notice (as defined in the Facility Agreement) for the corresponding Commodity Contract is received or deemed received by the Commodity Contract Counterparty pursuant to the Facility Agreement) shall be:
- (a) in the case of Australian Dollar Commodity Securities, A\$10.0000000;
 - (b) in the case of Euro Commodity Securities, €10.0000000; and
 - (c) in the case of Sterling Commodity Securities, £10.0000000.
- 5.2 Subject to Condition 5.1, the Price for a Commodity Security of each class shall be calculated on each calendar day in accordance with Condition 5.3 below, save that:
- (a) an Indicative Price for a Commodity Security of any class shall be calculated in accordance with Condition 5.5 for any calendar day which is (i) a Commodity Market Disruption Day for Commodity Securities of that class; (ii) a day (not being a Pricing Day for that class) where the preceding day, which is both a General Trading Day and a Trading Day for the Commodity Index applicable to that class, was a Market Disruption Day for Commodity Securities of that class; or (iii) a FX Market Disruption Day for Commodity Securities of that class, and, subject to paragraph (c) below, on each such day no Price shall be calculated for the Commodity Securities of that class;
 - (b) in relation to a Commodity Security of any class, for a Pricing Day for that class where the preceding day which is both a General Trading Day and a Trading Day for the Commodity Index applicable to that class was a Market Disruption Day for Commodity Securities of that class, the Price for such day shall be calculated in accordance with Condition 5.6 below;
 - (c) upon a Settlement Redemption Form being deemed received in relation to a class of Commodity Security on a Trading Day for the Commodity Index applicable to that class which is a General Trading Day but not a Pricing Day or a FX Market Disruption Day for such class then a Price shall be determined for that class in accordance with Condition 5.8 solely for the purposes of the Redemption pursuant to that Settlement Redemption Form (and, for the avoidance of doubt, that Price shall not be considered a Price for any other purpose under this Condition 5).

Pricing

- 5.3 Subject to Condition 5.1, Condition 5.2 and 5.4, the Price of a Commodity Security of a particular class for each calendar day will be an amount (which may not be negative) expressed in the

Relevant Currency and determined using the relevant Commodity Index for that class by the following formula (calculated to seven places of decimals with 0.00000005 rounded upwards):

$$P_{i,t} = P_{i,t-1} \times \left(\frac{I_{i,t}}{I_{i,t-1}} + CA_{i,t} \right)$$

where:

$P_{i,t}$ is the Price of a Commodity Security of class i for day t;

$P_{i,t-1}$ is the Price of a Commodity Security of class i for day t-1;

i refers to the relevant class of Commodity Security;

t refers to the applicable calendar day;

$t-1$ refers to the calendar day prior to day t;

$I_{i,t}$ is the Closing Settlement Price Level of the Commodity Index to which Commodity Securities of class i relate for day t, *provided that* if day t is not a Pricing Day for Commodity Securities of class i, then $I_{i,t}$ will be the same as $I_{i,t-1}$;

$I_{i,t-1}$ is the Closing Settlement Price Level of the Commodity Index to which Commodity Securities of class i relate for day t-1; and

$CA_{i,t}$ is the Capital Adjustment applicable to Commodity Securities of class i and for day t, expressed as a decimal.

- 5.4 For any class of Commodity Securities, if day t-1 is not a Pricing Day for that class and was not a Market Disruption Day in respect of that class then $I_{i,t-1}$ shall be the Closing Settlement Price Level of the Commodity Index applicable to a Commodity Security of class i on the last day preceding day t-1 which is both a General Trading Day and a Trading Day for that Commodity Index.

Indicative Pricing during Market Disruptions

- 5.5 For a Commodity Security of any class, if day t is a day which is either (a) a Commodity Market Disruption Day for that class; (b) a calendar day (not being a Pricing Day for that class) and the day, which is both a General Trading Day and a Trading Day for the Commodity Index applicable to a Commodity Security of that class, preceding day t was a Market Disruption Day for that class; or (c) a FX Market Disruption Day for that class, then the Indicative Price of such Commodity Security shall be as follows:

Calculation of Indicative Price on an initial Market Disruption Day that is a Commodity Market Disruption Day

- (a) on a day which is not a FX Market Disruption Day in respect of that class but which is a Commodity Market Disruption Day for the Commodity Index applicable to that class and where the preceding day which is both a General Trading Day and a Trading Day for that Commodity Index was also a Pricing Day for that class (such Commodity Market Disruption Day being “**Commodity Market Disruption Day 1**”), the Indicative Price of a Commodity Security of such class shall be determined in accordance with the following formula (calculated to seven places of decimals with 0.00000005 rounded upwards):

$$IP_{i,t} = P_{i,t-1} \times \left(\frac{I_{i,t}}{I_{i,t-1}} + CA_{i,t} \right)$$

where:

$IP_{i,t}$ is the Indicative Price of a Commodity Security of class i for day t;

$P_{i,t-1}$ is the Price of a Commodity Security of class i for day t-1;

i refers to the relevant class of Commodity Security;

- t refers to the applicable calendar day ($t=1$ being Commodity Market Disruption Day 1);
- $t-1$ refers to the calendar day prior to day t ;
- $I_{i,t}$ is the Closing Settlement Price Level of the Commodity Index applicable to Commodity Securities of class i for day t , *provided that* if no Closing Settlement Price Level is published in respect of day t , then $I_{i,t}$ will be the same as $I_{i,t-1}$;
- $I_{i,t-1}$ is the Closing Settlement Price Level of the Commodity Index to which Commodity Securities of class i relate for day $t-1$, *provided that* if day $t-1$ is not a Pricing Day for Commodity Securities of class i , then $I_{i,t-1}$ shall be the Closing Settlement Price Level of the Commodity Index to which Commodity Securities of class i relate on the immediately preceding Pricing Day; and
- $CA_{i,t}$ is the Capital Adjustment applicable to Commodity Securities of class i and for day t , expressed as a decimal;

Calculation of Indicative Price on any other calendar day that is not a FX Market Disruption Day

- (b) on any calendar day (other than a FX Market Disruption Day in respect of the relevant class of Commodity Security) not falling within sub-paragraph (a) above for which an Indicative Price in respect of a class of Commodity Securities is required to be calculated hereunder, the Indicative Price of a Commodity Security of that class shall be determined in accordance with the following formula (calculated to seven places of decimals with 0.00000005 rounded upwards):

$$IP_{i,t} = IP_{i,t-1} \times (1 + CA_{i,t}) + \left(\sum_{u=1}^{NC} \sum_{j=1}^2 HP_{i,t-1,j}^u \times \left(\frac{WAV_{t,j}^u}{CIM_{t,j}^u} - \frac{WAV_{t-1,j}^u}{CIM_{t-1,j}^u} \right) \times \frac{1}{FX_{i,t}} \right)$$

where:

- $IP_{i,t}$ is the Indicative Price of a Commodity Security of class i for day t ;
- $IP_{i,t-1}$ is the Indicative Price of a Commodity Security of class i for day $t-1$ (calculated for $t-1$ in the same manner as for day t in accordance with sub-paragraph (a) or this sub-paragraph (b));
- i refers to the relevant class of Commodity Security;
- t refers to the applicable calendar day;
- $t-1$ refers to the calendar day prior to t , *provided that* if the preceding General Trading Day which is a Trading Day for the Commodity Index to which Commodity Securities of class i relate was a FX Market Disruption Day in respect of Commodity Securities of class i , then $t-1$ means *nfm*;
- nfm* means the immediately preceding General Trading Day which is a Trading Day for the Commodity Index to which Commodity Securities of class i relate that was not a FX Market Disruption Day in respect of Commodity Securities of class i ;
- $CA_{i,t}$ is the Capital Adjustment applicable to Commodity Securities of class i on day t , *provided that* if the preceding General Trading Day which is a Trading Day for the Commodity Index to which Commodity Securities of class i relate was a FX Market Disruption Day in respect of Commodity Securities of class i , then $CA_{i,t}$ shall mean:

$$\sum_{r=nfm+1}^t CA_{i,r}$$

where:

$CA_{i,\Gamma}$ is the Capital Adjustment applicable to a Commodity Security of class i for day Γ ;

Γ (*Gamma*) represents each calendar day from but excluding nfm until and including t ;

NC means the total number of commodities in the Unhedged Commodity Index corresponding to the Commodity Index to which Commodity Securities of class i relate;

u is a commodity the Settlement Price of a futures contract relating to which is used in calculating the Unhedged Commodity Index corresponding to the Commodity Index to which Commodity Securities of class i relate;

j in relation to a commodity u , is either a Lead Future or a Next Future and where $j=1$ it is a Lead Future and where $j=2$ it is a Next Future;

$HP_{i,t-1,j}^u$ is the Theoretical Hedge Position for futures contract j of commodity u in respect of Commodity Securities of class i on day $t-1$ calculated in accordance with Condition 5.7, *provided that* where day $t-1$ is not both a Trading Day for the Commodity Index to which Commodity Securities of class i relate and a General Trading Day, then it shall be the Theoretical Hedge Position for such futures contract on the first day preceding day $t-1$ which is both a Trading Day for such Commodity Index and a General Trading Day;

$WAV_{t,j}^u$ means the weighted value for futures contract j of commodity u on day t used for calculating the Unhedged Commodity Index corresponding to the Commodity Index to which Commodity Securities of class i relate, calculated in accordance with the Handbook, *provided that* where day t is not both a Trading Day for that Commodity Index and a General Trading Day, then it shall be equal to $WAV_{t-1,j}^u$;

$WAV_{t-1,j}^u$ means the weighted value for futures contract j of commodity u on day $t-1$ used for calculating the Unhedged Commodity Index corresponding to the Commodity Index to which Commodity Securities of class i relate, calculated in accordance with the Handbook, *provided that* (i) where day $t-1$ is not both a Trading Day for that Commodity Index and a General Trading Day, then it shall be the weighted value for such futures contract on the first day preceding day $t-1$ which is both a Trading Day for that Commodity Index and a General Trading Day; or (ii) where day $t-1$ is a day falling within the definition of Commodity Market Disruption Day 1 in Condition 5.5(a) and on which no Closing Settlement Price Level is published for that Commodity Index, then it shall be the weighted value for such futures contract on the first day prior to day $t-1$ on which a Closing Settlement Price Level is published for that Commodity Index;

$CIM_{t,j}^u$ means the Commodity Index Multiplier (as defined in the Handbook from time to time) on day t for futures contract j of commodity u , *provided that* where day t is not both a Trading Day for the Commodity Index to which Commodity Securities of class i relate and a General Trading Day, then it shall be equal to $CIM_{t-1,j}^u$;

$CIM_{t-1,j}^u$ means the Commodity Index Multiplier (as defined in the Handbook from time to time) on day $t-1$ for futures contract j of commodity u , *provided that* where day $t-1$ is not both a Trading Day for the Commodity Index to which Commodity Securities of class i relate and a General Trading Day, then it shall be equal to the Commodity Index Multiplier (as so defined) for such futures contract on the first day preceding day $t-1$ which is both a Trading Day for that Commodity Index and a General Trading Day; and

$FX_{i,t}$ means the Foreign Exchange Rate for the Commodity Index to which Commodity Securities of class i relate on day t ;

Calculation of Indicative Price on a FX Market Disruption Day

- (c) on a day which is a FX Market Disruption Day in respect of a class of Commodity Securities, then the Indicative Price of any Commodity Security of such class on day t shall be equal to the Price or Indicative Price (whichever is the most recent) calculated in respect of such class on the immediately preceding day that was not a FX Market Disruption Day in respect of such class of Commodity Securities; and

Cessation of calculation of Indicative Price

- (d) the Indicative Price of a Commodity Security of any class shall cease to be calculated pursuant to paragraphs (a) to (c) above on the first day following the occurrence of the relevant Market Disruption Event(s) which both (i) is not a Market Disruption Day in respect of such class, and (ii) is a Pricing Day for that class, and the Price on such Pricing Day shall be calculated in accordance with Condition 5.6.

Pricing after Market Disruption Events

- 5.6 For a Commodity Security of any class, if day t is a Pricing Day in respect of such class and the preceding General Trading Day which is a Trading Day for the Commodity Index applicable to that class was a Market Disruption Day in respect of such class, then the Price of such Commodity Security shall be determined in accordance with the following formula (calculated to seven places of decimals with 0.00000005 rounded upwards):

$$P_{i,t} = IP_{i,t-1} \times (1 + CA_{i,t}) + \left(\sum_{u=1}^{NC} \sum_{j=1}^2 HP_{i,t-1,j}^u \times \left(\frac{WAV_{t,j}^u}{CIM_{t,j}^u} - \frac{WAV_{t-1,j}^u}{CIM_{t-1,j}^u} \right) \times \frac{1}{FX_{i,t}} \right)$$

where:

- $P_{i,t}$ is the Price of a Commodity Security of class i for day t;
- $IP_{i,t-1}$ is the Indicative Price of a Commodity Security of class i for day t-1;
- i refers to the relevant class of Commodity Security;
- t refers to the applicable calendar day;
- $t-1$ refers to the calendar day prior to day t, *provided that* if the preceding General Trading Day which is a Trading Day for the Commodity Index to which Commodity Securities of class i relate was a FX Market Disruption Day in respect of Commodity Securities of class i, then t-1 means *nfm*;
- nfm* means the immediately preceding General Trading Day which is a Trading Day for the Commodity Index to which Commodity Securities of class i relate that was not a FX Market Disruption Day in respect of Commodity Securities of class i;
- $CA_{i,t}$ is the Capital Adjustment applicable to Commodity Securities of class i on day t, *provided that* if the preceding General Trading Day which is a Trading Day for the Commodity Index to which Commodity Securities of class i relate was a FX Market Disruption Day in respect of Commodity Securities of class i, then $CA_{i,t}$ shall mean:

$$\sum_{\Gamma=nfm+1}^t CA_{i,\Gamma}$$

where:

- $CA_{i,\Gamma}$ is the Capital Adjustment applicable to a Commodity Security of class i for day Γ ;
- Γ (*Gamma*) represents each calendar day from but excluding *nfm* until and including t;

NC	means the total number of commodities in the Unhedged Commodity Index corresponding to the Commodity Index to which Commodity Securities of class i relate;
$HP_{i,t-1,j}^u$	means the Theoretical Hedge Position for futures contract j of commodity u in respect of Commodity Securities of class i on day t-1 calculated in accordance with Condition 5.7, <i>provided that</i> , where day t-1 is not both a Trading Day for the Commodity Index to which Commodity Securities of class i relate and a General Trading Day, then it shall be the Theoretical Hedge Position for such futures contract on the first day preceding day t-1 which is both a Trading Day for the relevant Commodity Index and a General Trading Day;
u	is a commodity the Settlement Price of a futures contract relating to which is used in calculating the Unhedged Commodity Index corresponding to the Commodity Index to which Commodity Securities of class i relates;
j	in relation to a commodity u, is either a Lead Future or a Next Future and where j=1 it is a Lead Future and where j=2 it is a Next Future;
$WAV_{t,j}^u$	means the weighted value for futures contract j of commodity u on day t used for calculating the Unhedged Commodity Index corresponding to the Commodity Index to which Commodity Securities of class i relate, calculated in accordance with the Handbook;
$WAV_{t-1,j}^u$	means the weighted value for futures contract j of commodity u on day t-1 used for calculating the Unhedged Commodity Index corresponding to the Commodity Index to which Commodity Securities of class i relate, calculated in accordance with the Handbook, <i>provided that</i> (i) where day t-1 is not both a Trading Day for that Commodity Index and a General Trading Day, then it shall be the weighted value for such futures contract on the first day preceding day t-1 which is both a Trading Day for that Commodity Index and a General Trading Day; or (ii) where day t-1 is a day falling within the definition of Commodity Market Disruption Day 1 in Condition 5.5(a) and on which no Closing Settlement Price Level is published for that Commodity Index, then it shall be the weighted value for such futures contract on the first day prior to day t-1 on which a Closing Settlement Price Level is published for that Commodity Index;
$CIM_{t,j}^u$	means the Commodity Index Multiplier (as defined in the Handbook from time to time) on day t for futures contract j of commodity u;
$CIM_{t-1,j}^u$	means the Commodity Index Multiplier (as defined in the Handbook from time to time) on day t-1 for futures contract j of commodity u, <i>provided that</i> , where day t-1 is not a Trading Day for the Commodity Index to which Commodity Securities of class i relate but where day t-1 is a General Trading Day then it shall be equal to the Commodity Index Multiplier (as so defined) for such futures contract on the first day preceding day t-1 which is both a Trading Day for that Commodity Index and a General Trading Day; and
$FX_{i,t}$	means the Foreign Exchange Rate for the Commodity Index to which Commodity Securities of class i relate on day t.

Theoretical Hedge Position

- 5.7 In these Conditions, the “**Theoretical Hedge Position**” in respect of a particular futures contract and commodity shall be as follows:

Theoretical Hedge Position for a particular futures contract and commodity on a Pricing Day

- (a) the Theoretical Hedge Position for futures contract j of commodity u in respect of a Commodity Security of class i on day t on any day which is a Pricing Day for Commodity Securities of such class (or, for the purposes of paragraph (b)(ii), on any other calendar day in respect of which it is required to be calculated for such purposes) shall be the number determined in accordance with the following formula:

$$HP_{i,t,j}^u = P_{i,t} \times FX_{i,t} \times \frac{CIM_{t,j}^u \times RW_{t,j}^u}{\sum_{v=1}^{NC} \sum_{k=1}^2 WAV_{t,k}^v \times RW_{t,k}^v}$$

where:

- $HP_{i,t,j}^u$ means the theoretical Hedge Position for futures contract j of commodity u in respect of a Commodity Security of class i on day t;
- i refers to the relevant class of Commodity Security;
- t refers to the applicable calendar day;
- j means in relation to commodity u, is either a Lead Future or a Next Future and where j=1 it is a Lead Future and j=2 it is Next Future;
- u is a commodity, the Settlement Price of a futures contract relating to which is used in calculating the Unhedged Commodity Index corresponding to the Commodity Index to which Commodity Securities of class i relate;
- $P_{i,t}$ is the Price of a Commodity Security of class i on day t;
- $FX_{i,t}$ means the Foreign Exchange Rate for the Commodity Index to which Commodity Securities of class i relate on day t;
- $CIM_{t,j}^u$ means the Commodity Index Multiplier (as defined in the Handbook from time to time) on day t for futures contract j of commodity u;
- $RW_{t,j}^u$ means the roll weight applicable to futures contract j on day t in respect of commodity u, being a value of either 0, 0.2, 0.4, 0.6, 0.8 or 1 as determined in accordance with the Handbook, to be used in the calculation of the Unhedged Commodity Index corresponding to the Commodity Index to which Commodity Securities of class i relate on the following Trading Day for the relevant Commodity Index;
- $RW_{t,k}^v$ means the roll weight applicable to futures contract k on day t in respect of commodity v, being a value of either 0, 0.2, 0.4, 0.6, 0.8 or 1 as determined in accordance with the Handbook, to be used in the calculation of the Unhedged Commodity Index corresponding to the Commodity Index to which Commodity Securities of class i relate on the following Trading Day for the relevant Commodity Index;
- NC means the total number of commodities in the Unhedged Commodity Index corresponding to the Commodity Index applicable to Commodity Securities of class i;
- v means each commodity in the Unhedged Commodity Index corresponding to the Commodity Index to which Commodity Securities of class i relate;
- k means in relation to commodity v, is either a Lead Future or a Next Future and where k=1 it is a Lead Future and k=2 it is a Next Future; and
- $WAV_{t,k}^v$ means the weighted value for futures contract k of commodity v on day t used for calculating the Unhedged Commodity Index corresponding to the Commodity Index to which Commodity Securities of class i relate; and

Theoretical Hedge Position on a Commodity Market Disruption Day

- (b) the Theoretical Hedge Position for futures contract j of commodity u in respect of a Commodity Security of class i on day t on any day which is a Commodity Market Disruption Day in respect of such class of Commodity Securities:
- (i) (in the case of a class of Commodity Securities to which a Composite Commodity Index applies) for those commodities for which such day is not a Commodity Market Disruption Day, shall be the number calculated using the formula set out in paragraph (a) above, *save that* the value $P_{i,t}$ shall be replaced with the value of $IP_{i,t}$ being the Indicative Price of a Commodity Security of class i for day t calculated in accordance with Condition 5.5 above; and
- (ii) for those commodities for which such day is a Commodity Market Disruption Day shall be the number determined in accordance with the following formula:

$$HP_{i,t,j}^u = HP_{i,t-1,j}^u$$

where:

$HP_{i,t,j}^u$ means the Theoretical Hedge Position for futures contract j of commodity u in respect of a Commodity Security of class i on day t; and

$HP_{i,t-1,j}^u$ means the Theoretical Hedge Position for futures contract j of commodity u in respect of a Commodity Security of class i on day t-1, *save that* when day t-1 is not both a Trading Day for the Commodity Index to which Commodity Securities of class i relate and a General Trading Day, then it shall be the Theoretical Hedge Position for such futures contract on the first day preceding day t-1 which is both a Trading Day for the relevant Commodity Index and a General Trading Day.

Redemptions during Market Disruption Days

- 5.8 If day t is a Commodity Market Disruption Day but not a FX Market Disruption Day for the Commodity Index relating to a Commodity Security of any class, then paragraphs (b) and (c) of Condition 7.11 shall apply in respect of the Redemption of a Commodity Security of that class.
- 5.9 No Redemptions of a particular class of Commodity Securities may occur on day t if day t is a FX Market Disruption Day in respect of such class of Commodity Securities.

Publication of Prices

- 5.10 The Issuer has undertaken in the Trust Instrument to use its reasonable endeavours to procure that the Prices for all types of Currency-Hedged Commodity Securities are calculated as at the end of each Pricing Day for each type of Commodity Securities, to procure that any Indicative Prices are calculated as at the end of each day when required hereunder and to post its calculations of such Prices and any Indicative Prices on the Issuer's website at <http://www.etfsecurities.com/hcsl>.

6. CAPITAL ADJUSTMENT

The calculation of the Price at which Commodity Securities may be Redeemed includes the Capital Adjustment for each day on which the Price is calculated. The Capital Adjustment in respect of each class of Commodity Security shall be as agreed from time to time between the Commodity Contract Counterparties and the Issuer.

7. REDEMPTION OF COMMODITY SECURITIES BY SECURITY HOLDERS

Redemption Entitlement

- 7.1 Each Commodity Security of a particular class carries the right on Redemption to payment of either:
- (a) the higher of (i) the Principal Amount for that class, and (ii) the Price of that Commodity Security on the applicable Pricing Day determined in accordance with Condition 5 (“**Settlement Pricing**”); or
 - (b) where applicable, an amount determined by agreement between a Commodity Contract Counterparty and a Security Holder which is an Authorised Participant in accordance with Condition 7.15 (“**Agreed Pricing**”).

Redemption by Authorised Participants

- 7.2 A Security Holder who is also an Authorised Participant may (subject as provided herein) require the Issuer to Redeem all or part of its holding of Commodity Securities by lodging with the Issuer a Redemption Form specifying either Settlement Pricing or Agreed Pricing *provided that* if at any time a Redemption Amount is due to be paid by the Issuer in respect of a Redemption to a particular Authorised Participant, the amount payable by the Issuer may be discharged in whole or in part pursuant to the set-off provisions set out in the Authorised Participant Agreement. A Settlement Redemption Form may in addition be deemed to have been lodged by an Authorised Participant with the Issuer on a Listing Failure Date in the circumstances further described in the applicable Authorised Participant Agreement.

Redemption by Other Security Holders

- 7.3 A Security Holder which is not also an Authorised Participant may only require the Issuer to Redeem all or any part of its holding of Commodity Securities if either:
- (a) on any Issuer Business Day, there are no Authorised Participants, and the Security Holder submits on such day a valid Settlement Redemption Form; or
 - (b) the Issuer has announced by an RIS in respect of any Issuer Business Day, or until further announcement or generally, that Redemptions by Security Holders who are not Authorised Participants will be permitted and the Security Holder submits on an Issuer Business Day a valid notice in the form prescribed for the purpose by the Issuer requesting Redemption of such Commodity Securities using Settlement Pricing. Any such announcement may be general or subject to conditions, and any notice requesting any Redemption which is not in accordance with any such conditions shall not be valid.

Redemption Amount

- 7.4 The Redemption Amount with respect to a Redemption shall be the amount (expressed in US Dollars) determined as follows:
- (a) if the Redemption is effected using Settlement Pricing, an amount equal to the sum of the amounts determined in accordance with Condition 7.1 in respect of all of the Commodity Securities thereby Redeemed multiplied by the Settlement Foreign Exchange Rate for that class and the Pricing Date in respect of that Redemption; or
 - (b) if the Redemption is pursuant to an Agreed Redemption Form in which an amount expressed in US Dollars is specified as the Redemption Amount, such amount; or
 - (c) if the Redemption is pursuant to an Agreed Redemption Form in which an amount in the Relevant Currency is specified, an amount in US Dollars determined in the same manner (*mutatis mutandis*) as in paragraph (a) save substituting such amount in the Relevant Currency for the sum of the amounts determined in accordance with Condition 7.1(a) in respect of all the Commodity Securities thereby Redeemed.

- 7.5 The Issuer shall on the Redemption Payment Date in respect of any Redemption pay (or procure the payment of) the Redemption Amount in respect of that Redemption into the applicable Redemption Account.

Redemption Limits

- 7.6 Commodity Securities of a particular class or classes may not be Redeemed on a day pursuant to a Settlement Redemption Form:
- (a) submitted by any Security Holder (including any Authorised Participant), to the extent that the cancellation of Commodity Contracts corresponding to the Redemption of all Commodity Securities of that class or those classes which are Redeemed on that day would exceed the sum of the Commodity Contract Counterparty Redemption Limits applicable to such cancellation on that day (such limit being the “**Redemption Limit**” for that class or those classes of Commodity Securities); or
 - (b) submitted by any Authorised Participant, to the extent that the cancellation of Commodity Contracts corresponding to the Redemption of all Commodity Securities which are Redeemed on that day pursuant to Settlement Redemption Forms submitted by that Authorised Participant would exceed the sum of the Commodity Contract Counterparty Redemption Limits applicable to such cancellation on that day in respect only of those Commodity Contract Counterparties for which that Authorised Participant is an Authorised Participant (such limit being the “**Authorised Participant Redemption Limit**” for that class of Commodity Securities and that Authorised Participant).

For the purposes of this Condition, the “**Commodity Contract Counterparty Redemption Limit**” with respect to a class or classes of Commodity Securities (or in relation to any class or classes of Commodity Securities any commodities the Settlement Price of futures contracts relating to which are included in the calculation of the Corresponding Unhedged Commodity Index relating to that class or those classes of Commodity Securities) and a Commodity Contract Counterparty is the amount expressed in US Dollars agreed between the Issuer and that Commodity Contract Counterparty as the redemption limit in respect of the corresponding class or classes of Commodity Contracts (or the commodities the Settlement Price of futures contracts relating to which are included in the calculation of the Corresponding Unhedged Commodity Index relating to that class or those classes of Commodity Contracts).

- 7.7 For the purposes of the Redemption Limits, Redemption Forms will be dealt with in order of their actual receipt by the Issuer and, for the purpose of this Condition, Condition 7.12 shall be disregarded.

Settlement Pricing

- 7.8 A Settlement Redemption Form shall be invalid:
- (a) if it does not specify a number and class of Commodity Securities to be Redeemed;
 - (b) *[not used]*;
 - (c) for a Settlement Redemption Form lodged by an Authorised Participant, if it is received by the Issuer at any time other than between 8.00 a.m. and 6.30 p.m. on an Issuer Business Day;
 - (d) if it does not specify the Redemption Account into which the Redemption Amount shall be payable;
 - (e) to the extent that the number of Commodity Securities of that class or in aggregate to be Redeemed would result in a Redemption Limit being exceeded, and the relevant Commodity Contract Counterparty does (or Commodity Contract Counterparties do) not agree or has (or have) not agreed (generally or in the particular case) to that Redemption Limit being exceeded (in which event such Settlement Redemption Form will not be capable of being invalidated under this Condition 7.8(e) in respect of the greatest number of Commodity Securities of the relevant class or classes that would not result in the Redemption Limit being exceeded);

- (f) if the Settlement Redemption Form is submitted by an Authorised Participant, and the number of Commodity Securities of that class or in aggregate to be Redeemed would result in an Authorised Participant Redemption Limit being exceeded (in which event such Settlement Redemption Form shall not be capable of being invalidated under this Condition 7.8(f) in respect of the greatest number of Commodity Securities of the relevant class that would not result in the Authorised Participant Redemption Limit being exceeded);
- (g) where notice of a Compulsory Redemption Date has been given, if the Settlement Redemption Form is received or deemed received on or after:
 - (i) where notice has been given under Condition 8.2 or (either following the giving of notice by the Issuer to nominate a compulsory pricing date under a Facility Agreement following a Counterparty Event of Default or the giving of notice by a Commodity Contract Counterparty to nominate a compulsory pricing date under its Facility Agreement as a result of a Guarantor Tax Event (as defined in any applicable Guarantee)) under Condition 8.1(a), the date on which notice of the Compulsory Redemption Date was given; or
 - (ii) in any other case, the Compulsory Redemption Date;
- (h) if it is received or deemed received on or after the Compulsory Redemption Date in respect of any class of Commodity Securities, in respect of which notice has been given in accordance with Condition 8.5;
- (i) if it relates to the Redemption of Commodity Securities that are the subject of a Listing Failure; or
- (j) if it is invalid pursuant to Condition 7.19(c) or Condition 7.20(c); or
- (k) if a FX Restriction Event has occurred and is continuing and any Commodity Contract Counterparty has, by 8.00 a.m. on the relevant Issuer Business Day, given notice of that FX Restriction Event to the Issuer and each Authorised Participant and has not given notice of its cessation, in each case in accordance with the relevant Facility Agreement; or
- (l) if the day that such Settlement Redemption Form is received (or deemed received pursuant to Condition 7.12) is a FX Market Disruption Day in respect of such class of Commodity Securities,

and, save as provided in Condition 7.8(f), no Commodity Securities of the relevant class shall be Redeemed in respect of or under that Settlement Redemption Form.

- 7.9 If the Issuer considers that a purported Settlement Redemption Form is invalid, it shall notify the Security Holder giving that Settlement Redemption Form of that fact as soon as reasonably possible. The Issuer shall not be obliged to Redeem pursuant to a Settlement Redemption Form any Commodity Securities where the relevant Commodity Contract Counterparty has not confirmed a corresponding Commodity Contract Termination in accordance with the provisions of the relevant Facility Agreement.
- 7.10 If the Issuer in its absolute discretion considers it necessary or desirable to do so in relation to any Settlement Redemption Form for the purpose of arranging (in aggregate) corresponding Commodity Contract Terminations in accordance with two or more Facility Agreements or to enable such Settlement Redemption Form to be settled in part in accordance with Condition 12 (*Satisfaction of Redemption Forms by Transfer*), or both, the Issuer may determine that the Settlement Redemption Form be deemed to comprise two or more deemed Settlement Redemption Forms, such deemed Settlement Redemption Forms relating to, in aggregate, the same numbers and class of Commodity Securities as those to which the original Settlement Redemption Form related; and these Conditions shall apply to such deemed Settlement Redemption Forms accordingly. If the Issuer determines to exercise its right to deem a Settlement Redemption Form to comprise two or more deemed Settlement Redemption Forms it shall notify the Security Holder giving that Settlement Redemption Form of that fact as soon as reasonably possible.

7.11 If a Settlement Redemption Form in relation to a class of Commodity Securities is deemed received by the Issuer prior to the Notice Deadline on an Issuer Business Day (“**Day 1**”):

- (a) if Day 1 is a Pricing Day for the class of Commodity Securities to be Redeemed pursuant to that Settlement Redemption Form, all those Commodity Securities will be Priced on Day 1 (and that day shall be the Pricing Date for such class of Commodity Securities);
- (b) if Day 1 is for a particular class of Commodity Securities neither a Pricing Day for such class of Commodity Securities nor a Trading Day for any of the commodities by reference to the Settlement Prices for which the Corresponding Unhedged Commodity Index relating to the class of Commodity Securities to which the Settlement Redemption Form relates is calculated, then:
 - (i) the Security Holder may by written notice to the Issuer, sent before the Notice Deadline on the next succeeding Issuer Business Day, cancel the Settlement Redemption Form, and where such a Withdrawal Notice is given no Commodity Securities shall be Redeemed in respect of or under that Settlement Redemption Form; and
 - (ii) if no notice is issued under Condition 7.11(b)(i) then such Commodity Securities shall be Priced in accordance with Condition 7.11(c);
- (c) if Day 1 is a Pricing Day for one or more but not all futures contracts by reference to the Settlement Price for which the Unhedged Commodity Index corresponding to the Commodity Index relating to a Commodity Security of class i relates is calculated (in whole or in part) then that Commodity Security will not be Priced until the next General Trading Day on which each such futures contract has had one or more Pricing Days (which are not FX Market Disruption Days in respect of the Relevant Currency in relation to Commodity Securities of class i). In such circumstances or if this Condition 7.11(c) applies pursuant to Condition 7.11(b)(ii), the Price of a Commodity Security of that class for a Settlement Redemption Form deemed received on Day 1 will be an amount (which may not be negative) expressed in the Relevant Currency calculated (to seven places of decimals with 0.00000005 rounded upwards) in accordance with the following formula:

$$P_{i,t} = IP_{i,t} \times \left(1 + \sum_{\Gamma=t}^{IPD-1} CA_{i,\Gamma+1} \right) + \sum_{w=1}^{ND} \sum_{\tau=t}^{CPD^{w-1}2} \sum_{j=1} HP_{i,\tau,j}^w \times \left(\frac{WAV_{\tau+1,j}^w}{CIM_{\tau+1,j}^w} - \frac{WAV_{\tau,j}^w}{CIM_{\tau,j}^w} \right) \times \frac{1}{FX_{i,\tau+1}}$$

where:

- $P_{i,t}$ is the Price of a Commodity Security of class i for day t ;
- $IP_{i,t}$ is the Indicative Price (determined in accordance with Condition 5.5) of a Commodity Security of class i for day t ;
- i refers to the relevant class of Commodity Security;
- t refers to the applicable calendar day (Day 1);
- IPD represents the ‘Index Pricing Day’, which is defined as the day upon which the relevant Commodity Security is Priced, being the General Trading Day on which each futures contract by reference to the Settlement Price for which the relevant Unhedged Commodity Index corresponding to the Commodity Index to which Commodity Securities of class i is calculated has had at least one Pricing Day (which is not a FX Market Disruption Day in respect of the Relevant Currency in relation to Commodity Securities of class i) from and including day t ;
- $IPD-1$ refers to the calendar day prior to IPD ;
- $CA_{i,\Gamma+1}$ is the Capital Adjustment applicable to Commodity Securities of class i on day $\Gamma+1$;

- Γ (*Gamma*) represents each calendar day from and including t until and including IPD-1;
- τ (*Tau*) means each calendar day from and including t until and including CPD^{w-1} ;
- ND means the 'Number of Disrupted commodities', being defined as the number of commodities represented in the Unhedged Commodity Index corresponding to the Commodity Index to which Commodity Securities of class i relate which are the subject of a Commodity Market Disruption Event on Day 1;
- w is a commodity the settlement price of a futures contract relating to which is used in calculating the Unhedged Commodity Index corresponding to the Commodity Index to which Commodity Securities of class i relate which is subject to a Commodity Market Disruption Event on Day 1;
- CPD^w represents the 'Commodity Pricing Day' which is defined as the first calendar day following Day 1 which is a Pricing Day (but not a FX Market Disruption Day in respect of the Relevant Currency in relation to Commodity Securities of class i) for commodity w ;
- CPD^{w-1} refers to the calendar day prior to CPD^w ;
- j in relation to a commodity w , is either a Lead Future or a Next Future and where $j=1$ it is a Lead Future and where $j=2$ it is a Next Future;
- $HP_{i,\tau,j}^w$ means the Theoretical Hedge Position (determined in accordance with Condition 5.7) for futures contract j of commodity w in respect of Commodity Securities of class i on day τ ;
- $WAV_{\tau+1,j}^w$ means the weighted value for futures contract j of commodity w on day $\tau+1$ used for calculating the Unhedged Commodity Index corresponding to the Commodity Index to which Commodity Securities of class i relate, calculated in accordance with the Handbook, *provided that* where day $\tau+1$ is not a General Trading Day or where day $\tau+1$ is a FX Market Disruption Day, then it shall be equal to $WAV_{\tau,j}^w$;
- $WAV_{\tau,j}^w$ means the weighted value for futures contract j of commodity w on day τ used for calculating the Unhedged Commodity Index corresponding to the Commodity Index to which Commodity Securities of class i relate, calculated in accordance with the Handbook, *provided that* where day τ is not a General Trading Day or where day τ is a FX Market Disruption Day, then it shall be the weighted value for such futures contract on the General Trading Day preceding day τ ;
- $CIM_{\tau,j}^w$ means the Commodity Index Multiplier (as defined in the Handbook from time to time) on day τ for futures contract j of commodity w , *provided that* where day τ is not a General Trading Day or where day τ is a FX Market Disruption Day, then it shall be equal to the Commodity Index Multiplier (as so defined) for such futures contract on the first General Trading Day prior to day τ ;
- $CIM_{\tau+1,j}^w$ means the Commodity Index Multiplier (as defined in the Handbook from time to time) on day $\tau+1$ for futures contract j of commodity w , *provided that* where day $\tau+1$ is not a General Trading Day or where day $\tau+1$ is a FX Market Disruption Day, then it shall be equal to $CIM_{\tau,j}^w$; and
- $FX_{i,\tau+1}$ means the Foreign Exchange Rate for the Commodity Index to which Commodity Securities of class i relate on day $\tau+1$, *provided that* where day $\tau+1$ is a FX Market Disruption Day then $FX_{i,\tau+1}$ shall be equal to 1;
- (d) where Condition 7.11(c) applies, the Pricing Date in respect of the Settlement Redemption Form relating to the Commodity Securities concerned will be the next General Trading Day after Day 1 on which each futures contract by reference to the Settlement Price for which the relevant Unhedged Commodity Index corresponding to the Commodity Index to which Commodity Securities of the relevant class relate is calculated has had one or more

Pricing Days (which are not FX Market Disruption Days in respect of the Relevant Currency in relation to Commodity Securities of class i);

(e) where Condition 7.11(c) applies:

- (i) in relation to a Settlement Redemption Form delivered by an Authorised Participant, at any time prior to a Pricing being completed in accordance with Condition 7.11(c) the relevant Commodity Contract Counterparty and the relevant Authorised Participant may agree a Price and applicable Pricing Date in lieu of that which would be determined in accordance with Condition 7.11(c) and notify that Price and applicable Pricing Date jointly to the Issuer in such form as the Issuer may reasonably require. Such joint notification shall be conclusive evidence that the relevant Commodity Contract Counterparty and the relevant Authorised Participant have agreed a Price and applicable Pricing Date which shall apply in lieu of that which would be determined in accordance with Condition 7.11(c);
- (ii) if a Price has not been determined in accordance with Condition 7.11(c) or sub-paragraph (i) by the end of the fourth General Trading Day following Day 1 then, either the relevant Authorised Participant or the Issuer, by notice to the other given in the same manner as for a Pricing Notice, may elect that the Price should instead be determined in the manner provided in the following sub-paragraphs. Any such notice must, to be valid, be given between 8.00 a.m. and 6.30 p.m. (in the case of notice given by the relevant Authorised Participant) or 7.00 p.m. (in the case of notice given by the Issuer) on an Issuer Business Day. Any such notice which is received by the Issuer or the relevant Authorised Participant on an Issuer Business Day after the Notice Deadline but prior to 6.30 p.m. (in the case of notice given by the relevant Authorised Participant) or 7.00 p.m. (in the case of notice given by the Issuer) shall be deemed to be received by the Issuer or the relevant Authorised Participant (as the case may be) at 8.00 a.m. on the following Issuer Business Day, unless the Issuer or the relevant Authorised Participant (as the case may be) agrees to treat that Settlement Redemption Form as having been received prior to the Notice Deadline in which case it shall be deemed to have been received by the Issuer or the relevant Authorised Participant (as the case may be) prior to the Notice Deadline. The giving of any notice pursuant to this sub-paragraph (ii) shall not prevent the relevant Commodity Contract Counterparty and the relevant Authorised Participant from agreeing a Price and Pricing Date in accordance with sub-paragraph (i) above in which case such Price and applicable Pricing Date shall apply in lieu of that which would be determined in accordance with the following sub-paragraphs;
- (iii) if a notice is given pursuant to sub-paragraph (ii) above the Calculation Agent shall calculate in good faith and in a commercially reasonable manner a Price as at the close of business on the Issuer Business Day on which such notice was deemed given using the formula set out in Condition 7.11(c) and, for each relevant futures contract for which a Commodity Market Disruption Event would (but for this paragraph (e)) have prevented the determination of the Price hereunder, a fair market value for such futures contract determined using the principles set out in Condition 14.3 and shall notify the same to the Issuer, the relevant Authorised Participant and the relevant Commodity Contract Counterparty; and
- (iv) if by 6.30 p.m. on the Issuer Business Day following notification by the Calculation Agent to the Issuer and the relevant Authorised Participant of any determination made by the Calculation Agent pursuant to sub-paragraph (iii) above either the Issuer or the relevant Authorised Participant notifies the relevant Commodity Contract Counterparty that it requires the appointment of a leading dealer in commodity derivatives as substitute calculation agent (a “**Substitute Calculation Agent**”) to determine the fair market values for any futures contract for which a Commodity Market Disruption Event would (but for this paragraph (e)) have prevented the determination of the Price hereunder in accordance with this paragraph and the Price, then (unless agreement is reached otherwise in accordance with sub-paragraph (i) above) each of the Issuer, the relevant Authorised Participant and the relevant Commodity Contract Counterparty shall, in

the absence of manifest error, be bound by a determination made by the Substitute Calculation Agent of such fair market values and Price. Any Substitute Calculation Agent shall be appointed jointly by relevant Authorised Participant and the relevant Commodity Contract Counterparty or, at the request of either, by the Issuer. Any Substitute Calculation Agent, if it is an Authorised Participant, shall be independent of the Creation concerned and shall itself have no similar transactions with the Issuer awaiting Pricing in accordance with provisions of its Authorised Participant Agreement analogous to Condition 7.11(c). The Issuer shall not be obliged to appoint any Substitute Calculation Agent hereunder unless it is indemnified and/or secured to its reasonable satisfaction against any Liabilities to which it may thereby render itself liable. In performing its duties under this paragraph any Substitute Calculation Agent shall calculate such fair market values and Price in good faith and in a commercially reasonable manner and shall calculate such Price as at the close of business on the Issuer Business Day on which the notice under sub-paragraph (ii) above was deemed given using the formula set out in Condition 7.11(c) and, for each relevant futures contract for which a Commodity Market Disruption Event would (but for this paragraph (e)) have prevented the determination of the Price hereunder, a fair market value for such futures contract using the principles set out in Condition 14.3 and the applicable reported settlement prices for all other relevant futures contracts. The Substitute Calculation Agent shall assume, without enquiry, that any determination by the original Calculation Agent as to whether a Commodity Market Disruption Event in relation to any futures contract has occurred is correct and shall be bound by any such determination. Accordingly the role of the Substitute Calculation Agent shall be limited to the determination of the relevant fair market values and the Price consequent upon such determinations. The Substitute Calculation Agent shall have no liability or responsibility to the parties for any error or omission in making any determination in connection with this paragraph.

- 7.12 A Settlement Redemption Form which is received by the Issuer on an Issuer Business Day after the Notice Deadline but prior to 6.30 p.m. shall be deemed to be received by the Issuer at 8.00 a.m. on the following Issuer Business Day, unless the Issuer agrees to treat that Settlement Redemption Form as having been received prior to the Notice Deadline in which case it shall be deemed to have been received by the Issuer prior to the Notice Deadline.
- 7.13 Within one Issuer Business Day after the last Pricing Date in respect of any Settlement Redemption Form, the Issuer shall notify the relevant Security Holder of the Redemption Amount payable in respect of that Settlement Redemption Form, determined as provided above.
- 7.14 The Issuer may change or vary the procedures for the lodgement of Settlement Pricing Forms and these Conditions shall be modified in respect of Redemptions using Settlement Pricing to the extent of any such change or variation.

Agreed Pricing

- 7.15 A Commodity Contract Counterparty and an Authorised Participant may submit an Agreed Redemption Form to the Issuer (either jointly, or in separate notices). An Agreed Redemption Form is conclusive evidence that the Commodity Contract Counterparty and the Authorised Participant have agreed upon:
 - (a) the Redemption by the Issuer of a number and class of Commodity Securities specified in the notice(s); and
 - (b) either:
 - (i) the amount expressed in US Dollars which is the Redemption Amount for those Commodity Securities; or
 - (ii) an amount expressed in the Relevant Currency which when expressed in US Dollars in accordance with paragraph (c) of Condition 7.4 will be the Redemption Amount for those Commodity Securities.

- 7.16 If a Commodity Contract Counterparty and an Authorised Participant purport to send an Agreed Redemption Form by separate notices:
- (a) which are inconsistent with one another in relation to any of the items referred to in Condition 7.18(a), 7.18(b) or 7.18(c); or
 - (b) one of which is invalid under Condition 7.18,
- those notices shall not constitute a valid Agreed Redemption Form and the Issuer shall reject the notices and advise that Commodity Contract Counterparty and that Authorised Participant accordingly.
- 7.17 Where an Agreed Redemption Form is submitted by separate notices from the Authorised Participant and a Commodity Contract Counterparty, the Issuer shall be deemed to have received the Agreed Redemption Form at the time that it is deemed to receive the second of the two notices.
- 7.18 An Agreed Redemption Form shall be invalid in the circumstances specified in Condition 7.20(c) or if it does not set out:
- (a) the number and class of Commodity Securities to be Redeemed;
 - (b) an amount as specified in paragraph (b) of Condition 7.15(b); and
 - (c) the Redemption Payment Date for that Redemption, which shall be not earlier than two London Business Days following the day on which the Agreed Redemption Form is deemed received by the Issuer.

Suspension of Redemptions

- 7.19 If the Price of a class of Commodity Security falls below its Principal Amount, the Issuer may at any time and from time to time while the Price in relation to such class is below such Principal Amount determine to suspend the right to Redeem the Commodity Securities of that class pursuant to Condition 7.1(a) and, subject as provided in this Condition 7.19, may terminate any such suspension. The following provisions shall apply where the Issuer determines to exercise its powers under this Condition:
- (a) the Issuer shall give notice of such suspension and of the termination of any such suspension via an RIS as soon as practicable, but failure to give such notices shall not prevent the exercise of such powers;
 - (b) any such suspension may continue in the discretion of the Issuer for a period of up to 30 days, and may continue thereafter provided that notice of a meeting has been issued convening a meeting for a date not more than 30 days after the date of the notice for the purpose of considering an Extraordinary Resolution which will have the effect of reducing the Principal Amount to a level less than the Price, in which event the suspension will cease when the meeting (or any adjournment thereof) concludes or, if the Extraordinary Resolution is passed and makes alternative provision, in accordance with the Extraordinary Resolution;
 - (c) any suspension shall not affect any Redemption the Pricing Date for which had passed before the suspension commenced, but any Settlement Redemption Form lodged or deemed received on an Issuer Business Day when the right to Redeem Commodity Securities of that class pursuant to Condition 7.1(a) is suspended pursuant to this Condition shall be invalid; and
 - (d) if the right to Redeem Commodity Securities of that class pursuant to Condition 7.1(a) is suspended pursuant to this Condition as at 6.30 p.m. on the second Issuer Business Day prior to a Compulsory Redemption Date for that class pursuant to Condition 8.6, then notwithstanding that a number of Commodity Securities of that class may have been specified pursuant to that Condition which is not all of those Commodity Securities, such Compulsory Redemption Date shall be a Compulsory Redemption Date for all of the Commodity Securities of that class.

7.20 If the Issuer is considering exercising its power under Condition 18.3 to divide any Pool, or has determined to exercise such power, it may determine to suspend the right to Redeem the Commodity Securities of the class attributable to such Pool under Condition 7.1(a) and Condition 7.1(b) and, subject as provided in this Condition 7.20, may terminate any such suspension. The following provisions shall apply where the Issuer determines to exercise its powers under this Condition:

- (a) the Issuer shall give notice of such suspension and of the termination of any such suspension via an RIS as soon as practicable, but failure to give such notices shall not prevent the exercise of such powers;
- (b) any such suspension may continue in the discretion of the Issuer for a period of up to 30 days but (without prejudice to Condition 8.4) shall terminate when either the Issuer has determined to divide such Pool and such division has become effective or the Issuer has announced via an RIS that it has determined not to divide such Pool; and
- (c) any suspension shall not affect any Redemption the Pricing Date for which had passed before the suspension commenced, but any Settlement Redemption Form or Agreed Redemption Form lodged or deemed received on an Issuer Business Day when the right to Redeem Commodity Securities of that class is suspended pursuant to this Condition shall be invalid.

8. COMPULSORY REDEMPTION BY THE ISSUER OR TRUSTEE

Compulsory Redemption on Termination

8.1 The Issuer may at any time (upon not less than seven days' notice in the case of (a) below and upon not less than thirty days' notice in the case of (b) below) by RIS announcement nominate an Issuer Business Day to be a Compulsory Redemption Date for all Commodity Securities, or all Commodity Securities of any one or more class, if:

- (a) notice is given by either party thereto terminating a Facility Agreement or nominating a compulsory pricing date thereunder in respect of all Commodity Contracts created thereunder; or
- (b) the Issuer elects to Redeem all Commodity Securities, or all Commodity Securities of any one or more class,

provided that a notice given under paragraph (b) may be withdrawn until the date not later than seven days prior to the date nominated to be the Compulsory Redemption Date so long as there remains in effect at least one Facility Agreement pursuant to which subsequent to that date Commodity Contracts of the same class as such Commodity Securities may be created.

8.2 If a Counterparty Event of Default or an Issuer Insolvency Event has occurred and is continuing, the Trustee may at any time, at its discretion, and shall if so directed in writing by Security Holders holding not less than 25 per cent. by Price (as at the date of the last signature) of the affected Commodity Securities (as a whole) then outstanding or by an Extraordinary Resolution of the Security Holders holding affected Commodity Securities (as a single class), the Trustee having first been indemnified and/or secured and/or funded to its satisfaction, give notice to the Issuer that all the affected Commodity Securities outstanding are required to be Redeemed and nominating an Issuer Business Day falling not less than 20 London Business Days (or two London Business Days in the case of an Issuer Insolvency Event) from the giving of such notice to be a Compulsory Redemption Date, and for this purpose "affected Commodity Securities" means, in the context of an Issuer Insolvency Event, all of them, and, in the context of a Counterparty Event of Default, those Commodity Securities that are attributable to the Pool or Pools which include rights against that particular Commodity Contract Counterparty.

8.3 If a Compulsory Redemption Date is nominated by the Issuer pursuant to Condition 8.1(a) in relation to any Commodity Securities following notice having been given by the Issuer to terminate a Facility Agreement or to nominate a compulsory pricing date thereunder by reason

of a Counterparty Event of Default and, prior to the Compulsory Redemption Date, the Issuer has either:

- (a) determined to divide a Pool to which outstanding Commodity Contracts created under that Facility Agreement are attributable by allocating all such Commodity Contracts to the New Pool in accordance with Condition 18.3; or
- (b) announced by an RIS its intention to do so or that it is considering doing so,

the Issuer may determine that the Redemption pursuant to Condition 8.1(a) shall not apply to the Commodity Securities attributable to that Pool but shall apply (*mutatis mutandis*) to the New Commodity Securities attributable to such new Pool and otherwise on the basis of this Condition 8. If in the case of paragraph (b) such division shall not have become effective within 30 days of such announcement, this Condition shall cease to have effect. The Issuer shall give notice of any determination made pursuant to this Condition 8.3 via an RIS as soon as practicable, but failure to give any such notice shall not prevent the exercise of its powers hereunder.

8.4 If a Facility Agreement has been terminated, or notice of a compulsory pricing date thereunder by reason of a Counterparty Event of Default has been given, then no further Redemption Forms in respect of Commodity Securities attributable to a Pool to which outstanding Commodity Contracts created under that Facility Agreement are attributable, given on or after the date of such termination or given or deemed given after the date of such notice shall be effective unless and until whichever occurs earlier of:

- (a) the Issuer has determined to divide such Pool as referred to in Condition 8.3 and such division has become effective; and
- (b) if the Issuer has announced by an RIS that Redemption Forms given after, or on or after, the date specified in such announcement will be effective, the date determined in accordance with such announcement. Any such announcement may be general or subject to conditions and any Redemption Form which would not be effective in the absence of such announcement shall not be effective if it is not in accordance with such conditions.

Compulsory Redemption due to Index Disruption

8.5 The Issuer may at any time (upon not less than thirty days' notice) by RIS announcement nominate an Issuer Business Day to be a Compulsory Redemption Date for all Commodity Securities of a particular class if:

- (a) a Commodity Index which relates to that class of Commodity Securities is no longer calculated and published in accordance with the Handbook and the Calculation Agent gives notice to the Issuer under a Facility Agreement of its intent to discontinue calculation and notification of that Commodity Index to the Issuer under that Facility Agreement; or
- (b) non-calculation or non-publication of a Commodity Index which relates to that class of Commodity Securities for any reason continues for a continuous period of thirty days, and a Commodity Contract Counterparty and the Issuer are unable to reach agreement on a permanent replacement mechanism or amendments to the relevant Facility Agreement to give effect to that mechanism.

Compulsory Redemption due to Hedging Disruption

8.6 The Issuer may at any time (upon not less than thirty days' notice) by RIS announcement nominate an Issuer Business Day to be a Compulsory Redemption Date for a particular class of Commodity Securities, if as a consequence of a Hedging Disruption Event a Commodity Contract Counterparty or any of its Affiliates is required by law or by the order of a regulatory authority having jurisdiction to close or reduce hedging positions (if any) which a Commodity Contract Counterparty (acting reasonably) attributes to the hedging of its obligations in connection with the relevant Facility Agreement or Commodity Contracts of the same class. Any such notice may specify a number of Commodity Securities (which may not be all of those Commodity Securities) to be redeemed in consequence of such notice and if in relation to any particular class of Commodity Securities the Issuer does not redeem all the outstanding Commodity Securities they will be redeemed in accordance with Condition 8.12 *pro rata* to holdings on the relevant Register

as at the Compulsory Redemption Date. Any nomination of a Compulsory Redemption Date by the Issuer under this Condition 8.6 in relation to less than all of the Commodity Securities of a particular class is subject to Condition 7.19.

Compulsory Redemption on a fall in the Price relative to the Principal Amount

- 8.7 If on any Pricing Day the Price of any class of Commodity Security falls to 2.5 times the Principal Amount of such Commodity Security or below, the Issuer may at any time, for so long as the Price continues to be less than 2.5 times the Principal Amount of such Commodity Security and during the period 60 days thereafter, upon not less than 2 days' notice by RIS announcement nominate an Issuer Business Day to be a Compulsory Redemption Date in respect of that class of Commodity Security and subject to Condition 3.2 investors will receive a sum on such Compulsory Redemption calculated in accordance with Condition 8.12. The right to nominate an Issuer Business Day to be a Compulsory Redemption Date to this Condition 8.7 shall cease if an Extraordinary Resolution is passed which has the effect of reducing the Principal Amount to a level less than two-fifths of the Price, but this is without prejudice to any subsequent nomination pursuant to this Condition if on any Pricing Day the Price of that class of Commodity Security falls to 2.5 times the Principal Amount (as so reduced) of such Commodity Security or below.

Compulsory Redemption for cause

- 8.8 The Issuer may, in its absolute discretion, at any time by written notice to a Security Holder nominate an Issuer Business Day (being not less than seven General Trading Days and not more than fourteen General Trading Days following the date of the notice) to be a Compulsory Redemption Date in respect of Commodity Securities held by that Security Holder, if:
- (a) the Issuer required the Security Holder in accordance with Condition 13 to certify whether or not it is a Prohibited Benefit Plan Investor and (i) the Security Holder did not by the date specified in the notice given under Condition 13 provide such a certification to the Issuer in the form and executed in the manner required or (ii) the Security Holder certified that it is a Prohibited Benefit Plan Investor; or
 - (b) the Issuer required the Security Holder in accordance with Condition 13 to certify whether or not it is a Prohibited US Person and the (i) Security Holder did not by the date specified in the notice given under Condition 13 provide such a certification to the Issuer in the form and executed in the manner required or (ii) the Security Holder certified that it is a Prohibited US Person; or
 - (c) the Issuer considers (in its sole discretion) (i) that such Commodity Securities are or may be owned or held directly or beneficially by any person in breach of any law or requirement of any country or by virtue of which such person is not qualified to own those Commodity Securities, or (ii) that the ownership or holding or continued ownership or holding of those Commodity Securities (whether on its own or in conjunction with any other circumstance appearing to the Issuer to be relevant) would, in the reasonable opinion of the Issuer, cause a pecuniary or tax disadvantage to the Issuer or any other Security Holders which it or they might not otherwise have suffered or incurred,

provided that if the relevant Security Holder in the case of sub-paragraph (a)(i) or (b)(i) so failed to provide such a certification, or in the case of sub-paragraph (a)(ii) or (b)(ii) certified that it is a Prohibited Benefit Plan Investor or a Prohibited US Person, in each case in respect of some only of the Commodity Securities held by it, a notice given by the Issuer under this Condition shall relate only to those Commodity Securities (and not any other Commodity Securities held by that Security Holder).

- 8.9 If a Security Holder which is the subject of a notice under Condition 8.8 provides to the Issuer prior to the Notice Deadline proof required by the Issuer that its Commodity Securities have been transferred to a person that is not a Prohibited Benefit Plan Investor or a Prohibited US Person, then the Commodity Securities referred to in that notice shall not be redeemed under these Conditions.

- 8.10 If a Security Holder which is the subject of a notice under Condition 8.8 does not provide to the Issuer prior to the Notice Deadline proof required by the Issuer that its Commodity Securities have been transferred to a person that is not a Prohibited Benefit Plan Investor or a Prohibited US Person, then the Commodity Securities referred to in that notice shall not be capable of being transferred by that Security Holder and the Issuer shall not be required to register any purported transfer of those Commodity Securities.
- 8.11 The Issuer shall not be required to give any reasons for any decision, determination or declaration taken or made in accordance with this Condition 8. The exercise of the powers conferred by this Condition 8 shall not be questioned or invalidated in any case on the grounds that there was insufficient evidence of direct or beneficial ownership or holding of the Commodity Securities, or any other grounds save that such powers shall have been exercised in good faith.

Compulsory Redemptions

- 8.12 Where a Compulsory Redemption Date is notified in accordance with these Conditions other than pursuant to Condition 8.8, in respect thereof:
- (a) the Issuer shall, no later than 8.00 a.m. on the Compulsory Redemption Date, by RIS announcement publish the Compulsory Daily Pricing Number of Commodity Securities of each relevant class to be priced on successive Pricing Days for each class commencing on the Compulsory Redemption Date;
 - (b) on the Compulsory Redemption Date and on any required succeeding Pricing Day the applicable Compulsory Number Priced for each class of Commodity Securities to which the Compulsory Redemption Date relates shall be priced until Commodity Securities of that class (including, in the case of a Compulsory Redemption Date notified in accordance with Condition 8.6, all those Commodity Securities that have previously been deducted from the Compulsory Daily Pricing Number for that class pursuant to the proviso contained in the definition of "Compulsory Number Priced" in connection with that Compulsory Pricing Date) in a number equal to the Compulsory Redemption Number for that class have been priced;
 - (c) on the Redemption Payment Date for such Compulsory Redemption the Issuer shall (subject to the Security Holder depositing the Commodity Securities in question into an appropriate CREST account or otherwise delivering such Commodity Securities to the Issuer by agreement with the Issuer) pay into the appropriate Redemption Account(s)
 - (i) the aggregate amount being the sum, for each of the Compulsory Pricing Date and any such required successive Pricing Day for each relevant class, of the Prices or, if higher in each case but not in aggregate (but subject to Condition 3.2), the Principal Amounts of all Commodity Securities of that class thereby priced on such day multiplied by the Settlement Foreign Exchange Rate for Commodity Securities of that class and that day together with
 - (ii) an amount equivalent to interest thereon calculated at the rate of the Capital Adjustment then prevailing, in each case from the third London Business Day following the Pricing Day on which that Price was determined (*provided that* if that day is not a New York Business Day then on the next following day that is Business Day) until and including the Redemption Payment Date;
 - (d) each Redemption Account shall be credited with the relevant Security Holder's *pro rata* share of the aggregate amount in (i) of Condition 8.12(c) (and the Issuer shall be under no obligation to make payment of the amount so priced until that amount shall have been determined); and
 - (e) upon payment in full of that amount all such Commodity Securities which were so priced shall be cancelled.
- 8.13 Where a Compulsory Redemption Date is notified to a Security Holder in accordance with Condition 8.8:
- (a) the Redemption Amount with respect to such Redemption shall be the amount equal to the sum, for each of the Compulsory Redemption Date and any required successive Pricing Day as provided in paragraph (b), of the Prices for the relevant Commodity Securities multiplied by the Settlement Foreign Exchange Rate for Commodity Securities of the relevant class and that day, determined in accordance with paragraph (b);

- (b) on the Compulsory Redemption Date and on any required succeeding Pricing Day the applicable Compulsory Number Priced of each class of Commodity Securities shall be priced until Commodity Securities of that class in a number equal to the Compulsory Redemption Number for that class have been priced; and
- (c) within three Business Days of the Redemption Payment Date for such Compulsory Redemption the Issuer shall (subject to the Security Holder depositing the Commodity Securities in question into an appropriate CREST account or otherwise delivering such Commodity Securities to the Issuer in such manner as may be agreed by the Issuer or otherwise all such Commodity securities being cancelled to the satisfaction of the Issuer) pay into the appropriate Redemption Account(s) the Redemption Amount.

9. SETTLEMENT OF REDEMPTION AMOUNTS

- 9.1 Where a Redemption Form has been given for the Redemption of Commodity Securities, the Security Holder which holds those Commodity Securities which are the subject of that Redemption must deposit the Commodity Securities in question into an appropriate CREST account and give correct delivery versus payment instructions in accordance with the Redemption Notice if they were in Uncertificated Form, or otherwise deliver the Commodity Securities to be Redeemed and any certificates representing them to the Issuer in such manner as the Issuer may agree if they are in Certificated Form. Once a valid Redemption Form is given in respect of Commodity Securities, unless the Redemption Form is validly withdrawn (in accordance with Condition 7.11(b)(i)) the Commodity Securities in respect of which it was given may not be transferred by the Security Holder (except to the Issuer), and the Issuer may refuse to recognise any subsequent transfer of any of those Commodity Securities.
- 9.2 Failure by a Security Holder to deposit those Commodity Securities into an appropriate CREST account and give correct delivery versus payment instructions shall not invalidate the Redemption of those Commodity Securities. Where settlement of a Redemption of Commodity Securities is delayed due to the failure of the Security Holder to deposit the Commodity Securities in question into an appropriate CREST account or give correct delivery versus payment instructions or otherwise deliver such Commodity Securities and any certificates representing them in a manner agreed by the Issuer, the Security Holder shall not be entitled to any interest on the Redemption Amount after the Redemption Payment Date. If the Security Holder fails to deliver such Commodity Securities to the Issuer (via the CREST system or another method agreed with the Issuer), the Issuer shall be entitled to pay the Redemption Amount in respect thereof into the Trustee's Redemption Account (to be held on trust for the Security Holder), and to cancel the entry in the Register in respect of those Commodity Securities.
- 9.3 Where Commodity Securities are Redeemed in accordance with Condition 8, the Issuer shall be entitled, upon payment of the Redemption Amount (less the Redemption Fee, if applicable) into the applicable Redemption Account to cancel the entry in the Register in respect of those Commodity Securities being Redeemed.
- 9.4 Save to the extent that the proviso to Condition 7.2 applies, payment of the Redemption Amount (less any applicable Redemption Fee deducted under Condition 10) into the applicable Redemption Account on the Redemption Payment Date is in full satisfaction of all liability which the Issuer has to Security Holders in respect of the Commodity Securities which have been Redeemed.
- 9.5 The Issuer may, at any time, notify a Security Holder that a Commodity Contract Counterparty may have to withhold or deduct from a payment for a Commodity Contract Termination that corresponds to any Redemption by that Security Holder an amount for or on account of, any present or future taxes, duties assessments or governmental charges of whatever nature imposed, levied, collected, withheld or assessed by or on behalf of any relevant jurisdiction or any political sub-division thereof or any authority thereof having power to tax, as required by law (as modified by the practice of any relevant governmental revenue authority) then in effect and such notice shall specify any form or document to be delivered by beneficial owners of Commodity Securities that may allow the Commodity Contract Counterparty to make such payment without any such withholding or deduction or with such withholding or deduction at a reduced rate. If such forms or documents are not provided to the Issuer and the relevant Commodity Contract

Counterparty by the relevant Security Holder or, if it is not the beneficial owner of Commodity Securities held by such Security Holder and which are to be redeemed, by such beneficial owner, then any such payment will be reduced (and the matching obligation of the Issuer to pay any Redemption Amount to that Security Holder will also be reduced) by the amount of the withholding or deduction. If there is more than one Commodity Contract Counterparty, the Issuer shall not be under any obligation to select the Commodity Contract Counterparty to whom the Commodity Contract Termination relates with a view to minimising or avoiding any such withholding or deduction or otherwise and shall have no liability to Security Holders in respect of any such selection or otherwise in relation to any such withholding or deduction.

- 9.6 The Redemption of Commodity Securities by the Issuer pursuant to the occurrence of a Listing Failure, and delivery of Commodity Securities by an Authorised Participant in connection therewith, shall be effected in accordance with the procedures set out in the applicable Authorised Participant Agreement.
- 9.7 The Issuer may give such directions to the Security Holder as appear to the Issuer to be necessary to enable the settlement of any payment or delivery to be made by it pursuant to this Condition.

10. REDEMPTION FEE

- 10.1 Subject as provided below, it is a condition to the performance by the Issuer of the obligation to Redeem Commodity Securities that the Issuer may deduct the Redemption Fee from the Redemption Amount and that if it does not the Security Holder of such Commodity Securities shall pay to the Issuer the Redemption Fee in respect of such Redemption in accordance with this Condition 10. The Issuer may offset the amount of the Redemption Fee payable hereunder against the Redemption Amount payable to the Security Holder.
- 10.2 On a Redemption of Commodity Securities at the request of an Authorised Participant, the Redemption Fee shall be the amount agreed in the relevant Authorised Participant Agreement to be payable, or such other amount as may be agreed by the Issuer and that Authorised Participant at the time of the Redemption, regardless of the number of Commodity Securities being redeemed.
- 10.3 On a Redemption of Commodity Securities at the request of a Security Holder who is not an Authorised Participant (where there are no Authorised Participants), the Redemption Fee shall be an amount equal to the cost to the Issuer of satisfying such Redemption request, which shall be notified to the Security Holder at the time of the Redemption being not greater than £500 or such other amount as may be notified through a RIS.
- 10.4 On a Compulsory Redemption of Commodity Securities by the Issuer or at the request of the Trustee, the Redemption Fee shall be an amount equal to the cost to the Issuer incurred in relation to the Redemption, including the costs of enquiries under Condition 13 and the cost of giving notices under Condition 8 being not greater than £500 or such other amount as may be notified through a RIS. The Issuer shall notify Security Holders whose Commodity Securities are subject to Compulsory Redemption of the amount of those costs, and their allocation to particular Security Holders, at the time of the Redemption.
- 10.5 The Issuer may set off any amount payable to the Issuer in accordance with this Condition 10 by the holder of Commodity Securities in respect of the Redemption Fee against the Redemption Amount payable by the Issuer to such holder.

11. INTEREST ON SETTLEMENT FAILURE

Following the occurrence of a Settlement Failure, interest shall accrue on any balance of the Redemption Amount not paid or otherwise discharged by or on behalf of the Issuer from the Settlement Failure Date. Such interest shall:

- (a) accrue at the Funding Rate from and including the Settlement Failure Date to but excluding the date falling three Business Days after the Settlement Failure Date, and thereafter at the Default Rate; and
- (b) cease to accrue on the date on which such balance is paid into the relevant Redemption Account.

12. SATISFACTION OF REDEMPTION FORMS BY TRANSFER

The Issuer may in its absolute discretion elect to satisfy Redemption Forms by transfer of the appropriate number of Commodity Securities to one or more Authorised Participant(s) from Security Holder(s) seeking Redemption, and for that purpose the Issuer may authorise any person on behalf of the Security Holder to execute one or more instruments of transfer in respect of the relevant number(s) of Commodity Securities, *provided that* the amount payable to the Security Holder shall still be an amount equal to the relevant Redemption Amount (less the Redemption Fee) and the relevant Redemption Payment Day will be the date of the transfer(s).

13. ENQUIRIES AS TO STATUS OF SECURITY HOLDERS

- 13.1 The Issuer may at any time, without any requirement to state a reason, give notice to a Security Holder requiring that Security Holder:
- (a) to certify, no later than the date (the “**Investor Notice Expiry Date**”) falling fifteen London Business Days following the date on which the Issuer sends or transmits such requirement to that Security Holder whether that Security Holder is a Prohibited US Person or a Prohibited Benefit Plan Investor (and if that Security Holder is a Prohibited Benefit Plan Investor or Prohibited US Person, to notify the Issuer of the number and class of Commodity Securities in respect of which it is a Prohibited Benefit Plan Investor or Prohibited US Person); and
 - (b) if that Security Holder asserts that it is not a Prohibited US Person or not a Prohibited Benefit Plan Investor (or not a Prohibited Benefit Plan Investor or not a Prohibited US Person in respect of all Commodity Securities held by it), to provide to the Issuer by the Investor Notice Expiry Date a certificate in the form and executed in the manner determined by the Issuer that the Security Holder is not a Prohibited US Person or not a Prohibited Benefit Plan Investor (or not a Prohibited Benefit Plan Investor or not a Prohibited US Person in respect of certain Commodity Securities held by it, specifying the number and class of Commodity Securities in respect of which it is, and is not, a Prohibited Benefit Plan Investor or is, and is not, a Prohibited US Person).
- 13.2 The Issuer may provide to any Commodity Contract Counterparty copies of any enquiries made by it under this Condition 13 and any responses received from the Security Holder.
- 13.3 The Issuer shall be entitled, save to the extent that it has made enquiry under this Condition 13, to assume that none of the Commodity Securities are held by Prohibited US Persons or Prohibited Benefit Plan Investors.

14. CALCULATION AGENT

- 14.1 The Calculation Agent is appointed by the Issuer and each Commodity Contract Counterparty for the purposes of the relevant Facility Agreement (but not for the purposes of these Conditions, the Commodity Securities or the Trust Instrument):
- (a) to determine whether a Commodity Market Disruption Event or a FX Market Disruption Event exists;
 - (b) to source the Foreign Exchange Rate for every day which is a Trading Day for any commodity, whether or not such day is also a General Trading Day, from the WM Company (or such other person or entity from time to time fulfilling the functions provided by it as at the date of the Trust Instrument under the Handbook) and notify the Issuer thereof;
 - (c) if for any reason the WM/Reuters Rate for any day and Currency is not available, to determine a substitute Settlement Foreign Exchange Rate using so far as practicable the methodology used by the WM Company in producing the WM/Reuters Rate for that Currency and to provide such substitute Settlement Foreign Exchange Rate to the Issuer by 9.00 p.m. on each relevant day;
 - (d) if an Individual Commodity Index is not published for five or more consecutive General Trading Days by reason of those General Trading Days being Market Disruption Days in respect of that Individual Commodity Index or any Composite Commodity Index is not published for five or more consecutive General Trading Days by reason of those General

Trading Days being Market Disruption Days in relation to any commodity the Settlement Price of which is used to determine the Unhedged Commodity Index corresponding to that Composite Commodity Index, to calculate and provide to the Issuer in each case a substitute value for that Commodity Index on each subsequent General Trading Day for as long as the Market Disruption Event continues;

- (e) if a Commodity Index is not published on a General Trading Day for any reason other than that General Trading Day being a Market Disruption Day in respect of that Commodity Index, to calculate and provide to the Issuer a substitute value for that Commodity Index for that General Trading Day and for each subsequent General Trading Day for as long as the non-publication continues;
 - (f) if a FX Market Disruption Event occurs and five or more consecutive General Trading Days are FX Market Disruption Days, to calculate and provide a substitute Foreign Exchange Rate in respect of each Currency that is the subject of such FX Market Disruption Event on each subsequent General Trading Day for as long as the FX Market Disruption Event continues;
 - (g) to make the determinations and calculations provided for in Condition 7.11(e)(iii); and
 - (h) for every day (a “**Relevant Day**”) in respect of which the Calculation Agent is required to provide a substitute value of any Commodity Index as referred to in Conditions 14.1(d) and 14.1(e), the Calculation Agent will also be required to provide substitute values of (a) such futures contracts in respect of such commodities on such days; (b) the Commodity Index Multiplier (as defined in the Handbook from time to time) for such futures contracts in respect of such commodities on such days; and (c) the Foreign Exchange Rate for such Commodity Index on such days, as are in each case required for any calculations of Price and/or Indicative Price and/or Theoretical Hedge Position as referred to in these Conditions in respect of such Relevant Day.
- 14.2 The Calculation Agent is or will be required under each relevant Facility Agreement (or any calculation agency agreement entered into by it in connection therewith) to act in good faith and in a commercially reasonable manner and in accordance with its obligations set out in that Facility Agreement (or such calculation agency agreement). Subject thereto, in the absence of manifest error and subject to the terms of the Facility Agreement (or such calculation agency agreement) the determinations of the Calculation Agent are final and conclusive.
- 14.3 Where for the purposes of each Facility Agreement the Calculation Agent calculates a substitute value for a Commodity Index or any weighted value or Commodity Index Multiplier (as defined in the Handbook from time to time) for futures contracts it is or will be required to adopt and follow the following principles in making that calculation:
- (a) the substitute value shall be based on the Calculation Agent’s determination of the fair market value at such time of the futures contracts underlying the Commodity Index based on factors the Calculation Agent deems relevant, including, but not limited to, prices in other commodity markets, any available electronic or after hours trading prices, related over-the-counter or other non-exchange based prices, implied prices that may be derived from other exchange traded instruments, and estimated fair values based on fundamental market information and on the applicable changes in the relevant Foreign Exchange Rate; and
 - (b) in determining the substitute value, the Calculation Agent shall have regard to relative movements in prices in other commodity futures markets for the same or similar commodities which were not affected by the Market Disruption Event or other event.
- 14.4 Where for the purposes of each Facility Agreement a substitute value for a Commodity Index is calculated by the Calculation Agent for a General Trading Day, that substitute value shall be used in the calculation of the Price of Commodity Securities to which that Commodity Index is applicable for that General Trading Day, in lieu of the Commodity Index.

14.5 If the Issuer provides copies to the Trustee of determinations notified to the Issuer by the Calculation Agent and/or notifies the Trustee (or any other person) of determinations made by the Calculation Agent, it shall do so on the express basis that:

- (a) such copies and notifications are provided to the Trustee for information purposes only;
- (b) neither the Trustee nor any holder or potential holder of Commodity Securities shall be entitled to rely as against the Calculation Agent upon any determination of the Calculation Agent; and
- (c) no duty shall be owed by the Calculation Agent to the Trustee or any holder or potential holder of Commodity Securities in connection with any such determination.

15. ENFORCEMENT

15.1 In addition to any of the powers conferred on the Trustee pursuant to the Security Deed with respect to the Secured Property, the Trustee may at any time:

- (a) after the occurrence of a Defaulted Obligation, at its discretion, and shall, if so directed in writing by the Security Holder to whom such Defaulted Obligation is owed, the Trustee having first been indemnified and/or secured and/or funded to its satisfaction against all Liabilities to which it may thereby render itself liable or which it may incur by so doing, take such proceedings and/or other action as it may think fit against or in relation to the Issuer to enforce any such obligation of the Issuer under the Trust Instrument and the security constituted by the Security Deed(s) in respect of the relevant Commodity Securities to which such Defaulted Obligation relates; and
- (b) if a Counterparty Event of Default and/or an Issuer Insolvency Event has occurred and is continuing, at its discretion, and shall if so directed in writing by Security Holders holding not less than 25 per cent. by Price (as at the date of the last signature or, if no Price was determined on such date, the most recently determined Price) of the affected Commodity Securities (as a whole) then outstanding or by an Extraordinary Resolution of the Security Holders holding affected Commodity Securities (as a single class), the Trustee having first been indemnified and/or secured and/or funded to its satisfaction against all Liabilities to which it may thereby render itself liable or which it may incur by so doing, take such proceedings and/or other action as it may think fit against or in relation to the Issuer to enforce any obligations of the Issuer under the Trust Instrument and the security constituted by the Security Deed(s) in respect of all affected and outstanding Commodity Securities and for this purpose (and Condition 15.4) “**affected Commodity Securities**” means, in the context of an Issuer Insolvency Event, all of them, and, in the context of a Counterparty Event of Default, those Commodity Securities that are attributable to the Pool or Pools which include rights against that particular Commodity Contract Counterparty.

15.2 If the Trustee considers that the Issuer is in material breach of any of the covenants, undertakings and obligations (other than payment obligations) in the Trust Instrument and has not remedied the same within 30 calendar days of being required to do so by the Trustee, the Trustee may, but shall not be obliged to, give notice to all Security Holders of that fact. Prior to giving any such notice, the Trustee shall provide a copy of the proposed notice to the Issuer and shall include with the notice any statement of not more than 1,000 words prepared by the Issuer and provided to the Trustee for the purpose within 7 calendar days of receipt of the copy of the proposed notice referred to herein. In any such notice the Trustee may designate a Period (the “**Breach Redemption Period**”) commencing on any Issuer Business Day until the date one month from such Issuer Business Day (inclusive) during which each Security Holder will be entitled to redeem all (but not some only) of the Commodity Securities held by it in the same manner as though there were no Authorised Participants. After the expiry of the Breach Redemption Period, the relevant breach shall be deemed waived without prejudice to the right of the Trustee to take action in the event of any subsequent such breach.

15.3 In the event that at any time during the Breach Redemption Period the right to Redeem Commodity Securities of any class pursuant to Condition 7.1(a) is suspended pursuant to Condition 7.19 or the right to Redeem Commodity Securities of any class is suspended pursuant to Condition 7.20, then the right to Redeem Commodity Securities of that class pursuant to

Condition 15.2 shall be suspended in like manner and the provisions of Condition 7.19(c) or Condition 7.20(c) (as the case may be) shall apply *mutatis mutandis*. Upon the suspension ceasing under Condition 7.19 or Condition 7.20 (as the case may be), the right to Redeem Commodity Securities of that class pursuant to Condition 15.2 shall resume and the Breach Redemption Period in respect of that class shall continue until the date one month from the date on which the suspension so ceased.

- 15.4 If a Counterparty Event of Default and/or an Issuer Insolvency Event is occurring at the same time as a Defaulted Obligation, a Security Holder holding affected Commodity Securities to whom a Defaulted Obligation is owed will not be entitled to require the Trustee to take action in accordance with Condition 15.1(a) until the expiry of 30 calendar days from the occurrence of the Counterparty Event of Default and/or Issuer Insolvency Event, nor shall he be so entitled if, during such period of 30 calendar days, the Trustee has elected, or been required, to take action in accordance with Condition 15.1(b).
- 15.5 Subject to Condition 15.7, only the Trustee may enforce the provisions of the Trust Instrument or the Security Deed. Where the Trustee has elected or been directed to enforce the Issuer's obligations under the Trust Instrument and the security constituted by the Security Deed, the right of Security Holders to lodge a Redemption Form with the Issuer shall cease. Valid Redemption Forms lodged before the date the Trustee announces its intention to enforce the security (the "**Election Date**") will be Redeemed in the normal manner. The Price for all Commodity Securities of a particular class outstanding at the Election Date will be the average Redemption Amount of the remaining Commodity Securities of that class.
- 15.6 If the Trustee takes any action pursuant to Condition 15.1 with respect to any Commodity Securities to which a Defaulted Obligation relates, it shall give notice to the Issuer that such Commodity Securities in respect of which such action is taken are, and they shall become, due and payable at their Redemption Amount, calculated in accordance with Condition 7.1.
- 15.7 No Security Holder will be entitled to proceed directly against the Issuer unless the Trustee, having become bound so to proceed, fails to do so within a reasonable period and such failure is continuing, in which case any such Security Holder will have only such rights against the Issuer as those which the Trustee is entitled to exercise against or in relation to the Issuer.

16. APPLICATION OF MONEYS

All moneys received by the Trustee pursuant to the realisation of Secured Property in respect of a particular class of Commodity Securities shall be held by the Trustee upon trust, to apply them:

- (a) FIRST in payment or satisfaction of all amounts then due to the Trustee and unpaid (including to its attorneys, managers, agents, delegates or other person appointed by the Trustee) under terms of the Trust Instrument, and to payment of any remuneration and expenses of any receiver and the costs of realisation of the security constituted by the Security Deed;
- (b) SECONDLY in or towards payment or performance *pari passu* and rateably of all amounts then due and unpaid and all obligations due to be performed and unperformed in respect of Commodity Securities of that class; and
- (c) THIRDLY in payment of the balance (if any) to the Issuer (without prejudice to, or liability in respect of, any question as to how such payment to the Issuer shall be dealt with as between the Issuer and any other person).

17. RESTRICTIONS

So long as any Commodity Securities of a particular class are outstanding, the Issuer covenants in the Trust Instrument, *inter alia*:

- (a) not to incur or permit to subsist in respect of any Pool any indebtedness for borrowed money other than Commodity Securities or Further Securities, and not to give any guarantee or indemnity in respect of indebtedness of any person, save in each case with the prior written consent of the Trustee;

- (b) other than as permitted under the Security Deed or with the prior written consent of the Trustee, not to dispose of any of the Secured Property or any interest therein, or to create any mortgage, pledge, charge, lien, or other form of encumbrance or security interest or right of recourse in respect thereof in favour of any person;
- (c) not to undertake any business save for the issue and redemption of Commodity Securities and the acquisition and disposal of Commodity Contracts and entering into the necessary documents and performing its obligations and exercising its rights thereunder;
- (d) to use reasonable endeavours to ensure that at all times after the date three months following Listing there are at least two Authorised Participants and until then there is at least one Authorised Participant;
- (e) not to issue any Commodity Securities of any class unless it has purchased Commodity Contracts with corresponding terms and in an aggregate matching Redemption Amount;
- (f) not to maintain an office or other fixed place of business, nor to establish any permanent establishment, nor be or become tax resident, in any jurisdiction other than Jersey;
- (g) not to make any election under U.S. federal income tax laws to be treated otherwise than as an association taxable as a corporation for U.S. federal income tax purposes;
- (h) to undertake any business so as to seek to minimise the impact of taxation;
- (i) to procure that the Pools are at all times maintained in a manner so that they are readily distinguishable from each other and from any other pool to which any other class of securities of the Issuer is attributable; and
- (j) to exercise its rights in respect of any Collateral in any circumstance where such rights become exercisable and there are amounts due from the relevant Commodity Contract Counterparty and unpaid.

18. FURTHER SECURITIES; OTHER POOLS; TRANSFERS TO NEW POOLS; CONSOLIDATION AND DIVISION

- 18.1 Subject to its ability to create corresponding Commodity Contracts, the Issuer may (without the consent of the Security Holders) create and issue additional classes of undated limited recourse secured debt securities constituted by an instrument or deed supplemental to this Trust Instrument and may establish additional pools for the purposes of such securities and the Trustee shall join in such instrument or deed and thereupon such pool shall be a "Pool" for the purposes of the Trust Instrument and such securities shall be Commodity Securities for such purposes. Any such additional classes of Commodity Securities shall have recourse only to the Pool attributable to the relevant class and not to any other Pool. Other such securities created and issued by the Issuer under this Condition 18.1 may relate to different commodities than those in respect of which Individual Securities are initially issued, or involve the same commodities but different commodity indices, or be Index Securities involving different composite commodity indices, or be denominated in a different currency. Other such securities created by the Issuer under this Condition 18.1 may be created and issued subject to different terms and conditions in lieu of the Trust Instrument (including but not limited to different pricing mechanisms), to be determined by the Issuer. If other securities issued by the Issuer under this Condition 18.1 are subject to different terms and conditions in lieu of the Trust Instrument the Issuer shall publish those new conditions in its RIS announcement or in a prospectus or listing particulars or supplementary prospectus or supplementary listing particulars and on the Issuer's Website.
- 18.2 The Issuer shall not accept Applications for, or issue, Commodity Securities of a new class under Condition 18.1 unless it has first (a) created corresponding Commodity Contracts under the terms of a Facility Agreement and (b) executed and delivered to the Trustee an instrument amending the Security Deed assigning by way of security, for the benefit of the Trustee and the relevant Security Holders, the contractual rights of the Issuer under each commodity contract of the relevant class and creating a first floating charge, for the benefit of the Trustee and the relevant Security Holders, over the rights of the Issuer under that facility agreement (to the extent that it relates to such class), commodity contracts of that class created under it and any Guarantee supporting the obligations of the relevant Commodity Contract Counterparty to the

Issuer to the extent that they apply to payments due in respect of that new class, for the benefit of the Trustee and the relevant Security Holders.

18.3 The Issuer may at any time (without the consent of the Security Holders and without giving prior notice) determine to divide any Pool (the “**Existing Pool**”) by allocating some of the Secured Property attributable to that existing Pool to a new Pool (the “**New Pool**”). If it determines to do so, the following shall apply:

- (a) the Issuer may only transfer all (and not merely some) of the Commodity Contracts with any one Commodity Contract Counterparty attributable to that Pool;
- (b) prior to or on the transfer becoming effective, the Issuer shall create undated limited recourse secured securities (“**New Commodity Securities**”) of a new class referable to the same Commodity Index and otherwise on the same terms as the Commodity Securities attributable to the Existing Pool (the “**Existing Commodity Securities**”), each having a principal amount and Price determined in accordance with Condition 18.3(c) constituted by an instrument or deed on the same terms (*mutatis mutandis*) as the Trust Instrument (save that there shall be no obligation to procure Listing of the New Commodity Securities) and on terms that such New Commodity Securities shall have recourse only to the assets attributable to the New Pool, and (subject as provided in paragraph (e)) shall issue such New Commodity Securities to the Security Holders of the Existing Commodity Securities outstanding immediately prior to the transfer becoming effective on the basis of one New Commodity Security for each Existing Commodity Security then held. For this purpose (but subject as provided in paragraph (e)) any Commodity Security in respect of which a Defaulted Obligation has occurred and is continuing shall be treated as outstanding;
- (c) the principal amount and Price of each New Commodity Security shall (subject as provided in paragraph (e)) be the proportion of the principal amount and Price respectively, of each Existing Commodity Security outstanding immediately prior to the transfer becoming effective (including any calculation of the Price for that day in accordance with Condition 5) that the aggregate Price of the Commodity Contracts to be transferred bears to the aggregate Price of the Commodity Contracts attributable to the Existing Pool, and on the creation and issue of the New Commodity Securities becoming effective the principal amount and Price of each Existing Commodity Security shall be reduced accordingly;
- (d) the Issuer shall enter into a deed with the Trustee amending the Security Deed with the Trustee in relation to the assets attributable to the New Pool to secure the New Commodity Securities in the same manner (*mutatis mutandis*) as under the Security Deed in relation to the Existing Pool, and the Trustee shall release the property to be transferred from the Existing Pool to the New Pool; and
- (e) any valid Redemption Form received or deemed received prior to (and being in respect of Commodity Securities which have not by then been Redeemed and in respect of which the Redemption Amount has not been paid in accordance with Condition 9):
 - (i) in a case where in respect of the Existing Commodity Securities notice of a Compulsory Redemption Date has been given under Condition 8.2 prior to such division becoming effective, the date on which such notice of a Compulsory Redemption Date was given;
 - (ii) in a case where in respect of the relevant Existing Commodity Securities notice of a Compulsory Redemption Date has been given (either following the giving of notice by the Issuer to nominate a compulsory pricing date under a Facility Agreement following a Counterparty Event of Default or the giving of notice by a Commodity Contract Counterparty to nominate a compulsory pricing date under its Facility Agreement as a result of a Guarantor Tax Event (as defined in any applicable Guarantee)) under Condition 8.1(a) prior to such division becoming effective, the date on which notice of the Compulsory Redemption Date was given;
 - (iii) in any other case where in respect of the relevant Existing Commodity Securities, notice of a Compulsory Redemption Date has been given prior to such division becoming effective, the Compulsory Redemption Date; and

(iv) in any other case, the date on which such division becomes effective,

and in each case being valid notwithstanding Condition 7.8(g) and Condition 8.4, shall have effect as if given in respect either of the Existing Commodity Securities or of the New Commodity Securities dependent upon the Commodity Contract Counterparty (the “**Relevant Counterparty**”) to whom a Cancellation Notice (as defined in the Facility Agreement) (the “**Relevant Cancellation Notice**”) had been delivered under a Facility Agreement for the purposes of the Redemption intended to be effected pursuant to such Redemption Form as determined in its absolute discretion by the Issuer. Accordingly:

- (i) for the purposes of the calculations to be made in accordance with paragraph (c), Commodity Contracts the subject of all Relevant Cancellation Notices shall be excluded, and the principal amounts and Prices referred to therein shall be calculated as though all such Commodity Contracts had been terminated;
- (ii) for the purposes of the calculations to be made in accordance with paragraph (c), Commodity Contracts that have been created for the purposes of an Application that has not been completed by the issue of Commodity Securities shall be excluded, and the principal amounts and Prices referred to therein shall be calculated as though all such Commodity Contracts had not been created; and
- (iii) each Security Holder from whom such a Redemption Form in respect of Existing Commodity Securities was received or deemed received shall not be issued New Commodity Securities as provided in paragraph (b) and instead each of the Existing Commodity Securities to which such Redemption Form relates shall be divided into Existing Commodity Securities or New Commodity Securities as are attributable to the Pool to which Commodity Contracts with the Relevant Counterparty are attributable immediately following the transfer becoming effective, each such Existing Commodity Security ranking *pari passu* with and having the same principal amount and Price as the other Existing Commodity Securities of that class as reduced in accordance with paragraph (c) and each such New Commodity Security ranking *pari passu* with and having the same principal amount and Price as the other New Commodity Securities of that class, and each such Security Holder shall hold upon such division becoming effective such number as nearly as practicable (rounded down to the nearest whole number) of Existing Commodity Securities or New Commodity Securities (as the case may be) as has the same aggregate principal amount as had the Existing Commodity Securities in respect of which the Redemption Form related immediately prior to the division becoming effective.

18.4 Without prejudice to the foregoing, the Issuer may consolidate or divide all of the Commodity Securities of any class into Commodity Securities of the same class but with a proportionately larger or smaller Principal Amount and Price. Such consolidation or division shall be effected by deed or instrument supplemental to the Trust Instrument.

18.5 Whenever as a result of consolidation of Commodity Securities a Security Holder would become entitled to a fraction of a Commodity Security the Issuer will Redeem such fraction of a Commodity Security.

19. ISSUER'S ABILITY TO PURCHASE COMMODITY SECURITIES

There is no restriction on the ability of the Issuer or any of its Affiliates to purchase or repurchase Commodity Securities.

20. LISTING

The Issuer covenants in the Trust Instrument to use its best endeavours to obtain and, so long as any of the Commodity Securities remain outstanding, maintain a Listing for the Commodity Securities or, if it is unable to do so having used such best endeavours or if the maintenance of such listing is agreed by the Trustee to be unduly onerous, use its best endeavours to obtain and maintain the quotation or listing of the Commodity Securities on such other stock exchange as it may (with the prior written approval of the Trustee) decide.

21. WAIVER, AUTHORISATION AND DETERMINATION; MEETINGS OF SECURITY HOLDERS

21.1 The Trustee may, without prejudice to its rights in respect of any subsequent breach, but only if and in so far as, in its opinion, the interests of the Security Holders shall not be materially prejudiced thereby, waive or authorise any breach or proposed breach by the Issuer of any of the covenants or provisions contained in these Trust Instruments or the Security Deed, or determine that any Defaulted Obligation, Issuer Insolvency Event or Counterparty Event of Default shall not be treated as such *provided that* the Trustee shall not exercise any powers conferred on it by this Condition:

- (a) with respect to a Defaulted Obligation, in contravention of any express direction given by the Security Holder to whom such Defaulted Obligation is owed or
- (b) with respect to an Issuer Insolvency Event or any Counterparty Event of Default or any other breach or proposed breach by the Issuer of any of the covenants or provisions contained in the Trust Instrument, in contravention of any express direction given by Security Holders holding not less than 25 per cent. by Price (as at the date of the last signature) of the Commodity Securities (as a whole) then outstanding or an Extraordinary Resolution of the Security Holders (as a single class),

but so that no such direction shall affect any waiver, authorisation or determination previously given or made. Any such waiver, authorisation or determination may be given or made on such terms and subject to such conditions (if any) as the Trustee may determine, shall be binding on the Security Holders and, if, but only if, the Trustee, shall so require, shall be notified by the Issuer to the Security Holders as soon as practicable thereafter.

21.2 Security Holders in respect of any class or classes of Commodity Securities have power by Extraordinary Resolution, *inter alia*, to sanction the release of the Issuer from the payment of moneys payable pursuant to the Trust Instrument, to sanction any modification, abrogation or compromise of, or arrangement in respect of, their rights against the Issuer, to assent to any modification or abrogation of the covenants or provisions contained in the Trust Instrument proposed or agreed to by the Issuer and also to sanction other matters as provided therein. The Trust Instrument contains provisions relating to the convening of meetings by the Issuer or the Trustee and provides that, except in the case of an adjourned meeting, at least fourteen calendar days' notice (exclusive of the day on which the notice is served or deemed to be served and of the day for which the notice is given) of every meeting, including any meeting which is being convened for the purpose of passing an Extraordinary Resolution, shall be given to the Security Holders of the relevant class or classes. In the case of a meeting adjourned through want of a quorum, other than one convened at the requisition of Security Holders, at least seven calendar days' notice (exclusive as aforesaid) should be given unless the day, time and place for the adjourned meeting is specified in the notice convening the original meeting.

22. EXERCISE OF DISCRETIONS

The Trustee may exercise its discretions under the Trust Instrument separately in respect of each class of Commodity Securities, and any Further Securities in issue from time to time, and shall incur no liability for so doing.

23. PRESCRIPTION

The Trust Instrument does not provide for any prescription periods.

24. REMOVAL, RETIREMENT OR REPLACEMENT OF TRUSTEE

24.1 The Trustee may retire at any time without assigning any reason upon giving not less than three months' prior written notice to the Issuer and without being responsible for any Liabilities incurred by reason of such retirement. The Security Holders may by Extraordinary Resolution of the Security Holders (as a single class) appoint or remove any trustee or trustees for the time being of the Trust Instrument.

24.2 The Issuer will use its reasonable endeavours to appoint a new Trustee as soon as reasonably practicable after the Trustee gives notice to its retirement or being removed by Extraordinary Resolution. The retirement or removal of any Trustee shall not become effective until a successor trustee is appointed.

25. GOVERNING LAW AND JURISDICTION

The Conditions, the Commodity Securities and the Trust Instrument are governed by the laws of Jersey. The Security Deed is governed by the laws of England. Notwithstanding the submission to the jurisdiction of the English courts contained in the Security Deed, nothing prevents the Trustee from commencing proceedings in any other competent jurisdiction.

26. TRUSTEE'S LIABILITY

Save in the case of fraud, wilful misconduct or gross negligence, the Trustee (or any director, officer or employee of the Trustee) shall have no liability under the Trust Instrument for a breach of trust and save in such circumstances, no Trustee (and no director, officer or employee of the Trustee) in execution of the trusts and powers under the Trust Instrument, shall be liable for any loss arising by reason of any mistake or omission by him or by reason of any other matter or thing including fraud, wilful misconduct, gross negligence or default of another director, officer or employee or Trustee.

27. AMENDMENTS TO CONDITIONS

These Conditions may be amended as set out herein or by written agreement between the Issuer and the Trustee. Any amendment to these Conditions will, subject to Condition 28.7, be notified to Security Holders through an RIS announcement, and unless otherwise agreed by the Trustee shall not take effect until at least 30 calendar days following such announcement.

28. AMENDMENTS TO DOCUMENTS

28.1 Pursuant to the Trust Instrument, the Issuer covenants that it will not amend, vary, modify or supplement any of the Trustee Consent Documents without the prior written consent of the Trustee save where, in respect of a Facility Agreement, that amendment is at the election of the relevant Commodity Contract Counterparty to amend the terms of the Facility Agreement to substantially conform that Facility Agreement to another Facility Agreement entered into between the Issuer and another Commodity Contract Counterparty.

28.2 The Issuer may, without prejudice to Condition 28.4, by supplemental agreement or supplemental instrument or deed, as applicable, amend these Conditions, the Trust Instrument, any Security Deed(s) or any of the Trustee Consent Documents (in respect of paragraphs (a), (d), (e), (f), (g) and (h) below without the consent of the Trustee) and the Trustee agrees in the Trust Instrument to join in a supplemental agreement or supplemental instrument or deed as applicable accordingly, if one or more of the following applies:

- (a) if the amendment is to substitute as debtor under a Facility Agreement or a Guarantee another person having an Acceptable Credit Rating;
- (b) in the opinion of the Issuer and the Trustee the amendment is necessary or desirable and is not materially prejudicial to the rights of Security Holders;
- (c) in the opinion of the Trustee, the amendment is of a formal, minor or technical nature or to correct a manifest or proven error;
- (d) the amendment is to substitute a different commodity index for one or more of the Commodity Indices and consequential changes *provided that*:
 - (i) corresponding adjustments have been agreed with each of the Commodity Contract Counterparties that have Commodity Contracts outstanding that refer to the relevant Commodity Index or Commodity Indices;
 - (ii) the adjustments so agreed have the consequence that at the time of the substitution of the index there is no change to the aggregate Price of the Commodity Securities of that class or classes which are the subject of the substitution, or, if any such consequential changes include a change to the currency of denomination of the Commodity Securities of that class or classes, that at the time of the substitution of the index the aggregate Price of the Commodity Securities of that class or classes is equal to the equivalent in such other currency of the aggregate Price of the

Commodity Securities of that class or classes (rounded down for each of the Commodity Securities of that class or classes to seven decimal places); and

- (iii) the adjustments do not take effect until at least 30 calendar days have elapsed after they are announced to Security Holders in an RIS announcement;
 - (e) the amendment is to substitute a different foreign exchange rate or a rate produced by a different provider for the WM/Reuters Closing Spot Rate for any one or more Currencies and consequential changes *provided that* the substitution and consequential changes do not take effect until at least ten calendar days have elapsed after they are announced to Security Holders in an RIS announcement;
 - (f) the amendment is to substitute a new formula or mechanism in place of the provisions of Condition 7.11(b) to 7.11(d) (inclusive) and corresponding changes to the Facility Agreements where the Issuer certifies to the Trustee that the Issuer and the Commodity Contract Counterparties consider that the provisions of Condition 7.11(b) to 7.11(d) (inclusive) (and the corresponding provisions in the Facility Agreements) do not operate or have the effect in relation to days that are or follow a Market Disruption Day they intended;
 - (g) the Issuer or the Trustee determines in its discretion that the amendment would affect the holders of different classes of Commodity Securities differently and the terms of the amendment are authorised by separate Extraordinary Resolutions of the holders of each class of Commodity Security affected passed in accordance with the Trust Instrument;
 - (h) Paragraph (g) above does not apply to the amendment and the terms of the amendment are authorised by an Extraordinary Resolution of the Security Holders (as a single class) passed in accordance with the Trust Instrument; or
 - (i) the terms of the amendment are necessary or desirable in the opinion of the Issuer and the Trustee to comply with any statutory or other requirement of law (including as modified or applied in any respect to the Commodity Securities) or any Listing Rules or to rectify any inconsistency, technical defect, manifest error or ambiguity in the terms of the Trust Instrument or such Conditions, Security Deed or Trustee Consent Document.
- 28.3 In the case of an amendment to a Facility Agreement or an Authorised Participant Agreement, the amendment may not take effect for at least 30 calendar days (or five London Business Days if the amendment is to be made pursuant to an obligation in the Facility Agreement to negotiate in good faith following notice being given by either party thereto of the occurrence of a Material Adverse Change (as defined therein)), following publication of a notice thereof through a RIS and the Issuer shall not agree to any such amendment unless it does not take effect until such period has elapsed.
- 28.4 Condition 28.2 and Condition 28.3 shall not apply to any amendment to the terms of a Facility Agreement which, under the terms thereof, is automatic or at the election of the relevant Commodity Contract Counterparty in the circumstances described in Condition 28.1.
- 28.5 The Issuer shall notify all Security Holders of a proposed amendment as referred to in Condition 28.2(a) by publishing a notice on a RIS at least 30 calendar days' prior to such amendment becoming effective.
- 28.6 The Issuer shall notify all Security Holders of a proposed amendment as referred to in Condition 28.2(g) and Condition 28.2(h) by publishing a notice on a RIS as soon as practicable after such amendment is proposed and in any event, upon such amendment becoming effective.
- 28.7 No notice need be given of any amendment as referred to in Condition 28.2(b), Condition 28.2(c), Condition 28.2(i) or Condition 28.4 unless the Trustee otherwise requires.

29. NOTICES

- 29.1 Except as provided below, all notices required or permitted to be given to Security Holders, the Issuer or the Registrar under the Trust Instrument or pursuant to any other Document must be in writing in English.

- 29.2 All notices required or permitted to be given to a Security Holder under the Trust Instrument or pursuant to any other Trustee Consent Document shall be made by publication through a RIS where required under the terms of such document, but otherwise may be given by publication on the Issuer's Website.
- 29.3 All notices required to be given by the Issuer to Security Holders under the Trust Instrument or otherwise shall be given in writing, except to the extent that the notice relates to a meeting of Security Holders where, in relation to any Commodity Securities which are held in Uncertificated Form, the directors may from time to time permit notices of Security Holder meetings to be made by means of an electronic communication in the form of an Uncertificated Notice of Meeting in such form and subject to such terms and conditions as may from time to time be prescribed by the directors (subject always to facilities and requirements of CREST) and may in similar manner permit supplements, or amendments, to any such Uncertificated Notice of Meeting to be made by like means.
- 29.4 Any Pricing Notice shall be sent by fax to the Issuer's primary fax number, as follows:
 Fax: +44 1534 825 335
 or such other fax number as may be published on the Issuer's Website, and confirmed by email to the following email address:
 Email: info@etfsecurities.com.
- 29.5 Any Pricing Notice shall be deemed to have been received upon sending, subject to confirmation of uninterrupted and error-free transmission by a transmission report.
- 29.6 Any General Notice to be given to the Issuer shall be sent to the Issuer's primary fax number set out above or delivered by hand, sent by prepaid recorded delivery or registered post (or registered airmail in the case of an address outside the United Kingdom), to the following address:
 Name: ETFS Hedged Commodity Securities Limited
 Address: Ordnance House, 31 Pier Road
 St. Helier, Jersey JE4 8PW
 Channel Islands
 Attention: Graeme Ross/Craig Stewart
 Fax number: +44 1534 825 335
 or such other address as may be published for the Issuer on the Issuer's Website.
- 29.7 Any General Notice shall, in the absence of earlier receipt, be deemed to have been received as follows:
 (a) if delivered by hand, at the time of actual delivery; or
 (b) if sent by prepaid recorded delivery or registered post (or registered airmail in the case of an address outside the United Kingdom), on the date it is delivered or its delivery is attempted.

30. PAYMENT PROVISIONS

- 30.1 All monies payable by the Issuer in respect of Commodity Securities shall be paid in US Dollars in full cleared and immediately available funds.
- 30.2 All monies payable by the Issuer on the Redemption of any Commodity Securities (including, without limitation, any interest payable under Condition 8.12 or Condition 11) shall be paid in full, free and clear of and without any withholding or deduction for or on account of, any present or future taxes, duties, assessments or governmental charges of whatever nature imposed, levied, collected, withheld or assessed by or on behalf of any relevant jurisdiction or any political sub-division thereof or any authority thereof having power to tax, unless such deduction or withholding is required by law to which the person making the payment is subject.
- 30.3 Where a day on which a payment would otherwise be due and payable is not a New York Business Day, such payment shall be due and payable by the payer on the next following Business Day."

PART 7

PARTICULARS OF THE SECURITY DEED

The Issuer and the Trustee have entered into the Security Deed, creating first-ranking floating charges over the Secured Property attributable to each class of Currency-Hedged Commodity Securities for the benefit of the Trustee and the Security Holders of the Currency-Hedged Commodity Securities of that class.

The Security Deed contains, *inter alia*, provisions to the following effect:

1. Charge

- (a) **Charge:** The Issuer, as continuing security for the payment or discharge of all sums owing by the Issuer to the Trustee or the Security Holders from time to time under the applicable class of Currency-Hedged Commodity Securities, the Trust Instrument or the Security Deed (the “**Secured Liabilities**”), grants a first ranking floating charge to the Trustee for the benefit of itself and the Security Holders of that class of Currency-Hedged Commodity Securities over all the Issuer’s rights, title and interest, present and future, in and to the relevant Secured Property.
- (b) **Assignment by way of Security:** The Issuer, as further security for the Secured Liabilities, assigns absolutely to the Trustee all of its present and future rights, title and interest in the Facility Agreement, the Security Agreement and the Control Agreement in so far as it pertains to the relevant Pool.

2. Enforcement

- (a) The Security created by the Security Deed shall become enforceable if (and only if) (a) a Defaulted Obligation has occurred and is continuing, or (b) an Issuer Insolvency Event has occurred and is continuing, or (c) a Counterparty Event of Default has occurred and is continuing.
- (b) In addition to any of the powers conferred on the Trustee pursuant to the Trust Instrument with respect to the Secured Property the Trustee may at any time:
 - (i) after the occurrence of a Defaulted Obligation, at its discretion, and shall, if so directed in writing by the Relevant Security Holder to whom such Defaulted Obligation is owed, the Trustee having first been indemnified and/or secured and/or funded to its satisfaction against all Liabilities to which it may thereby render itself liable or which it may incur by so doing, take such proceedings and/or other action as it may think fit against or in relation to the Issuer to enforce any such obligation of the Issuer under the Trust Instrument and the security constituted by this Deed in respect of the Relevant Securities to which such Defaulted Obligation relates; and
 - (ii) if a Counterparty Event of Default and/or an Issuer Insolvency Event has occurred and is continuing, at its discretion, and shall if so directed in writing by Security Holders holding not less than 25 per cent. by Price (as at the date of the last signature or, if no Price was determined on such date the most recently determined Price) of the affected Currency-Hedged Commodity Securities (as a whole) then outstanding or an Extraordinary Resolution of the Security Holders holding affected Currency-Hedged Commodity Securities (as a single class), the Trustee having first been indemnified and/or secured and/or funded to its satisfaction against all Liabilities to which it may thereby render itself liable or which it may incur by so doing, take such proceedings and/or other action as it may think fit against or in relation to the Issuer to enforce any obligations of the Issuer under the Trust Instrument and the security constituted by this Deed in respect of all outstanding affected Relevant Securities and for this purpose and paragraph (c) “affected” Currency-Hedged Commodity Securities or “affected” Relevant Securities means, in the context of an Issuer Insolvency Event, all of them, and in the context of a Counterparty Event of Default or (in paragraph (c)) a Counterparty Insolvency Event, those Currency-Hedged Commodity Securities (or Relevant Securities, if any) that are attributable to the Pool or Pools which include rights against that particular Commodity Contract Counterparty.

The Security Deed relates separately to each Pool and accordingly the Trustee may exercise its powers referred to above in respect of one or more Pools and need not do so, or do so simultaneously, in respect of all Pools.

- (c) Where a Counterparty Event of Default and/or an Issuer Insolvency Event is occurring at the same time as a Defaulted Obligation, a holder of affected Relevant Securities to whom a Defaulted Obligation is owed will not be entitled to require the Trustee to take action as described in paragraph (b)(i) until the expiry of 30 days from the occurrence of the Counterparty Event of Default and/or Issuer Insolvency Event, nor shall he be so entitled if, during such period of 30 days, the Trustee has elected, or been required, to take action as described in paragraph (b)(ii).

3. Governing Law

The Security Deed is governed by the laws of England. Notwithstanding the submission to the jurisdiction of the English courts contained in the Security Deed, nothing prevents the Trustee from commencing proceedings in any other court of competent jurisdiction.

PART 8

COMMODITIES, COMMODITY AND FUTURES MARKETS, AND EXCHANGES

Commodities Overview

The websites referred to in this “Commodities Overview” section do not form part of the Prospectus.

Aluminium

Aluminium is the third most abundant element in the Earth's crust, and weighs about one-third as much as steel or copper. It is malleable, ductile, easily machined and cast, and has excellent corrosion resistance and durability. Aluminium is used in transportation (automobiles, airplanes, trucks, railcars, marine vessels), packaging (cans, foil), construction (windows, doors, siding), consumer durables (appliances, cooking utensils), electrical transmission lines, and machinery. The primary raw material used for aluminium production is aluminium ore, most commonly known as bauxite. Bauxite, which occurs mainly in tropical areas, is refined into alumina and then electrolytically reduced into aluminium metal. Two to three metric tons of bauxite is required to produce one metric ton of alumina; two metric tons of alumina are required to produce one metric ton of aluminium metal.

A more detailed description including historical data of the aluminium industry can be found at <http://www.daff.gov.au/abares>, which is updated from time to time by the Australian Bureau of Agriculture and Resources Economics and Sciences.

Brent Crude

Brent crude is one of the varieties of crude oil, as described under the heading “WTI Crude Oil” below, and is sourced in the North Sea. Brent crude production has been in decline since 1999, and in order to avoid pricing distortions regarding quality and quantity of production for the benchmark, energy consultant Platts began to combine Brent Crude with other varieties of crude oil. The Brent crude oil benchmark is currently a blend of Brent Crude, Forties, Ecofisk, and Oseberg (BFOE) varieties of crude oil that are produced in the North Sea.

Cocoa

Cocoa grows on cocoa trees, which are generally found in rainforests and in countries near the Equator. Hot and humid conditions are essential for the development of cocoa trees. There are two kinds of cocoa beans “fine” or “flavour” beans, and “bulk” or “ordinary” beans. The latter has dominated most of the world's cocoa production over the past five decades. Historically, cocoa is regarded as a stimulant due to its high calorific content. More recently, it has been found that cocoa contains a high level of flavonoid which is beneficial to cardiovascular health. Asides from human consumption, cocoa has also been used in the manufacture of pet food since the mid-2000s. Subsequent to cocoa being exported outside South America in the 16th century, it has gained more importance globally as 50 million people depend on cocoa for their livelihood. 70 per cent. of cocoa is produced in West Africa and more than 70 per cent. of the global cocoa supply is provided by small farm owners. Due to the complex processing chain and the production structure, farmers usually only receive 5 per cent. of the retail value.

A more detailed description including historical data of the cocoa industry can be found at <http://www.icco.org>, which is updated from time to time by the International Cocoa Organization.

Coffee

The coffee plant produces its first full crop of beans at about 5 years old and then is productive for about 15 years. Coffee is generally classified into two types of beans — arabica and robusta. The most widely produced coffee is arabica, which is typically grown at high altitudes and makes up approximately 70 per cent. of world production. Brazil and Colombia are the largest producers of Arabica coffee. Robusta coffee, the stronger of the two types, is typically grown at lower altitudes in West and Central Africa, South-East Asia and partly Brazil. About 12-20 kg of export ready coffee is produced from every 100 kg of coffee beans harvested. Seasonal factors have a significant influence on coffee prices, which are often subject to upward spikes in June, July and August due to freeze scares in Brazil during the winter months in the Southern Hemisphere.

A more detailed description including historical data of the coffee industry is updated from time to time by the United States Department of Agriculture (<http://www.usda.gov>) and the International Coffee Organization (<http://www.ico.org>).

Copper

Copper is one of the most widely used industrial metals because it is an excellent conductor of electricity, has strong corrosion-resistance properties, and is very ductile. It is also used to produce the alloys of brass (a copper-zinc alloy) and bronze (a copper-tin alloy), both of which are far harder and stronger than pure copper. Electrical uses of copper including power transmission and generation, and electrical equipment account for about 65 per cent. of total copper usage. Copper is biostatic, meaning that bacteria will not grow on its surface, and is therefore used in air-conditioning systems, food processing surfaces, and doorknobs to prevent the spread of disease. Building construction is the single largest market for copper, followed by industrial applications, power utility, diverse, consumer and general products and automotive.

A more detailed description including historical data of the copper industry can be found at <http://www.icsg.org>, which is updated from time to time by the International Copper Study Group.

Corn

Corn is a hardy plant that grows in many different areas of the world, and is a native grain of the American continents. Corn is used primarily as livestock feed; it is also used in alcohol additives for gasoline, adhesives, corn oil for cooking and margarine, sweeteners, and as a food for humans.

A more detailed description including historical data of the corn industry can be found at <http://www.usda.gov>, which is updated from time to time by the United States Department of Agriculture.

Cotton

Cotton accounts for over 40 per cent. of total world fibre production. It is used in a wide range of products from clothing to home furnishings to medical products. The weight of cotton is typically measured in terms of a "bale", which is deemed to weigh 480 pounds. The value of cotton is determined according to the staple, grade, and character of each bale. Staple refers to short, medium, long, or extra-long fibre length, with medium staple accounting for about 70 per cent. of all U.S. cotton. Grade refers to the colour, brightness, and amount of foreign matter. Character refers to the fibre's diameter, strength, body, maturity (ratio of mature to immature fibres), uniformity, and smoothness.

A more detailed description including historical data of the cotton industry can be found at <http://www.usda.gov>, which is updated from time to time by the United States Department of Agriculture.

Gas Oil

Gas oil is also known as diesel distillate or red diesel and is closely related to heating oil. Heating oil and diesel are both distillates, the difference being that heating oil is permitted to contain more sulphur than diesel fuel. Gas oil is primarily used as a fuel for land and marine transport and in industrial and domestic heating applications. Around 25 per cent. of the yield of a barrel of oil is made up of distillate, with that being broadly divided 80:20 between diesel fuel and heating oil. See also the description under the heading "Heating Oil" below.

Gasoline

Gasoline is primarily used as a fuel for internal-combustion engines. Crude oil is the most economical source of gasoline, and refineries turn more than half of every barrel of crude oil into gasoline. The three basic steps to all refining operations are the separation process (separating crude oil into various chemical components), conversion process (breaking the chemicals down into molecules called hydrocarbons), and treatment process (transforming and combining hydrocarbon molecules and other additives). Octane is a measure of a gasoline's ability to resist pinging or knocking noise from the engine. Additional refining steps are needed to increase the octane level, which increases the retail price.

A more detailed description including historical data of the gasoline industry is updated from time to time on the BP Statistical Review of World Energy published on BP website (<http://www.bp.com>), and the

Gold

Three factors set gold apart as an investment from most other commodities: it is indestructible; it is fungible; and the inventory of above-ground stocks is enormous relative to the supply flow. These attributes mean that a sudden surge in gold demand can be met quickly and easily through sales of existing holdings of gold. Additionally, gold's liquidity and responsiveness to price changes differentiates it from other commodities. Gold trading on the global market consists of transactions in spot, forwards, and options and other derivatives on the over-the-counter (OTC) market, together with exchange-traded futures and options. The OTC market trades on a 24-hour per day continuous basis and accounts for most global gold trading.

A more detailed description including historical data of the gold industry can be found at <http://www.gold.org>, which is updated from time to time by the World Gold Council.

Heating Oil

Heating oil is a heavy fuel oil that accounts for approximately 25 per cent. of the yield from a barrel of crude oil, the second largest cut after gasoline. Heating oil prices are highly correlated with crude oil prices, which make up 42 per cent. of the total cost of heating oil, although heating oil prices are also subject to swift supply and demand shifts due to weather changes or refinery shutdowns. However, the primary use for heating oil is residential space heating.

A more detailed description including historical data of the heating oil industry is updated from time to time on the BP Statistical Review of World Energy published on BP website (<http://www.bp.com>) and the International Energy Outlook published by the Energy Information Administration (<http://www.eia.doe.gov>).

Kansas Wheat

Kansas wheat refers to the hard red winter variety whose futures are traded on the Kansas City Board of Trade. Hard red winter wheat is primarily used for bread making and accounts for about 40 per cent. of US wheat production. Winter wheat is planted in the winter. Hard red winter wheat is grown predominantly in Kansas, Nebraska, Oklahoma, and the Texas panhandle. The cold, sub zero winters and the general lack of precipitation make these regions of the country ideal for hard red winter wheat production.

A more detailed description including historical data of the wheat industry can be found at <http://www.ers.usda.gov/topics/crops/wheat.aspx>, which is updated by the United States Department of Agriculture. A more detailed description of Kansas wheat futures contracts can be found at http://www.kcbt.com/contract_wheat.html, which is updated by the Kansas City Board of Trade.

Lead

Lead is soft, ductile, and highly resistant to corrosion. It has been used for more than 7,000 years and is easy to extract, usually being found in ore with zinc, silver, and copper. Lead's high corrosion resistance makes it ideal for buildings; the high density makes it an effective barrier to radiation in hospitals and helps reduce noise in factories as well as in ships. 80 per cent. of lead's end use is for leadacid batteries to provide power in vehicles and emergency power. At least three-quarters of all lead used goes into products which are suitable for recycling and the recovery of lead from scrap requires much less energy than extracting from ore, which is why lead has the highest recycling rate of all the common non-ferrous metals. Over 50 per cent. of lead consumed is derived from recycled or re-used material.

A more detailed description including historical data of the lead industry is updated from time to time on the International Lead and Zinc Study Group website (<http://www.ilzsg.org>), and the Australian Bureau of Agriculture and Resources Economics and Sciences website (<http://www.daff.gov.au/abares>).

Lean Hogs

Hogs are generally bred twice a year in a continuous cycle designed to provide a steady flow of production. The time from birth to slaughter is typically six months. Hogs are ready for slaughter at about 254 pounds, producing an average of 89 pounds of lean meat. The lean meat consists of 21 per cent. ham, 20 per cent. loin, 14 per cent. belly, 3 per cent. spareribs, 7 per cent. butt roast and blade steaks, and 10 per cent. picnic, with the remaining 25 per cent. going into miscellaneous cuts and trimmings. Hogs are produced in three types of operations: feeder pig producers raise pigs from birth to about 10-60 pounds, and feeder pig finishers grow them to slaughter weight; alternatively, farrow-to-finish operations raise hogs from birth to slaughter weight.

A more detailed description including historical data of the lean hog industry can be found at <http://www.usda.gov>, which is updated from time to time by the United States Department of Agriculture.

Live Cattle

The cattle and beef industry is divided into two production sectors: cow-calf operations and cattle feeding.

Cow-calf operations — The cattle and beef industry begins with the cow-calf operation, which breeds the new calves. Cow-calf operations are typically located on land not suited or needed for crop production. These operations are dependent upon range and pasture forage conditions, which are in turn dependent upon variations in the average level of rainfall and temperature for the area. Herds of cows are bred in the summer, thus producing the new crop of calves in spring. Calves are weaned from the mother after 6-8 months; they spend the next 6-10 months in a “stocker” operation where they grow to 600-800 pounds or near full-size, after which point they are sent to a feedlot and become “feeder cattle”.

Cattle feedlots — Cattle feedlots produce high-quality beef by feeding grain and other concentrates for about five months. The animal is considered “finished” when it reaches full weight and is ready for slaughter, typically around 1,200 pounds, and then is sold for slaughter to a meat packing plant.

A more detailed description including historical data of the live cattle industry can be found at <http://www.usda.gov>, which is updated from time to time by the United States Department of Agriculture.

Natural Gas

Natural gas is a fossil fuel in gaseous form that is colourless, shapeless, and odourless in its pure form. It is a mixture of hydrocarbon gases formed primarily of methane; it is combustible, clean burning, and gives off a great deal of energy. Natural gas is produced from wells around the world and it is normally transported via pipeline. When pipeline transport is not feasible (e.g. over long distances), the natural gas is turned into a liquid (also called “Liquefied Natural Gas” or LNG) by super-cooling and transported as a liquid on tankers before being warmed up and turned into a gas upon arrival at the delivery port. Natural gas is used primarily for heating and generating electricity by industries such as pulp and paper, metals, chemicals, petroleum refining, stone, clay and glass, plastic, and food processing.

A more detailed description including historical data of the natural gas industry is updated from time to time on the BP Statistical Review of World Energy published on BP website (<http://www.bp.com>) and the International Energy Outlook published by the Energy Information Administration (<http://www.eia.doe.gov>).

Nickel

Nickel is a hard, malleable, ductile metal that can take on a high polish. Nickel is also a fair conductor of heat and electricity. Approximately 65 per cent. of nickel is used to manufacture stainless steel and 20 per cent. in other steel and non-ferrous (including “super”) alloys, often for highly specialised industrial, aerospace and military applications. About 9 per cent. is used in plating, and 6 per cent. in other uses including coins and a variety of nickel chemicals (e.g. rechargeable batteries). Nickel plating techniques are employed in applications such as turbine blades, helicopter rotors, extrusion dies, and rolled steel strip.

A more detailed description including historical data of the nickel industry can be found at <http://www.daff.gov.au/abares>, which is updated from time to time by the Australian Bureau of Agriculture and Resources Economics and Sciences.

Platinum

Platinum is soft, with a high resistance to corrosion and a high melting point, and is the most dense metal known. It is also a good oxidation catalyst, conductive and oxidation resistant. Traditionally, platinum is mainly used for jewellery, industrial usage, and autocatalysts. Recently, investment demand for platinum has increased due to the creation of physical platinum backed exchange traded funds. Platinum together with palladium are the major metals used in gasoline and diesel autocatalysts. Other industrial demands include chemical, electrical, petroleum, glass, and dental uses.

A more detailed description including historical data of the platinum industry can be found at <http://www.platinum.matthey.com>, which is updated from time to time by Johnson Matthey.

Silver

Silver has been used for thousands of years in ornaments and utensils, for trade, and as the basis for many monetary systems. It is the most malleable and ductile of all metals with the exception of gold, and conducts heat and electricity better than any other metal. It is not very chemically active, although tarnishing occurs when sulphur and sulphides attack silver. Because silver is too soft in its pure form, a hardening agent, usually copper, is mixed into the silver. Most silver emerges as a by-product from mining; only 30 per cent. of output comes from mines where the main source of revenue is silver (primary silver mine). The term "sterling silver" means silver that contains at least 925 parts of silver per thousand (92.5 per cent.) to 75 parts of copper (7.5 per cent.). Silver is used for jewellery, photography, electrical appliances, glass, and as an antibacterial agent for the health industry. Silver has never really enjoyed the safe haven status that gold possesses. However, its link to gold and the base metals meant that silver was often attractive for speculators, since it was perceived to behave in a similar way to these other markets.

Soybean Meal

Soybean meal is a by-product of soybean processing. Soybean meal is the most valuable component obtained from processing the soybean, ranging from 50 per cent. to 75 per cent. of its value. Livestock feeds account for 98 per cent. of soybean meal consumption, with the remainder used in human foods such as bakery ingredients and meat substitutes.

A more detailed description including historical data of the soybean industry can be found at <http://www.ers.usda.gov/topics/crops/soybeans-oil-crops/background.aspx>, which is updated by the United States Department of Agriculture. A more detailed description of Chicago Board of Trade soybean meal futures contracts can be found at http://www.cmegroup.com/trading/agricultural/grain-and-oilseed/soybean-meal_contract_specifications.html, which is updated by the Chicago Board of Trade.

Soybean Oil

Soybean oil is the natural oil extracted from whole soybeans; approximately 19 per cent. of a soybean's weight can be extracted as crude soybean oil. It is mainly used in salad and cooking oil, bakery shortening, and margarine, as well as in a number of industrial applications, primarily because soy oil is cholesterol-free and high in polyunsaturated fat. Soybean oil is also used to produce inedible products such as paints, varnish, resins, and plastics. Worldwide, soybean oil is still the largest source of vegetable oil.

A more detailed description including historical data of the soybean oil industry can be found at <http://www.usda.gov>, which is updated from time to time by the United States Department of Agriculture.

Soybeans

Soybeans are used to produce a wide variety of food products because of their high protein content without many of the negative factors of animal meat. Processed soybeans are the largest source of protein feed and vegetable oil in the world. Popular soy-based food products include whole soybeans, soy oil for cooking and baking, soy flour, protein concentrates, isolated soy protein, soy milk and baby formula, soy yogurt, soy cheese, soy nut butter, soy sprouts, tofu and tofu products, soy sauce, and meat alternatives.

A more detailed description including historical data of the soybean industry can be found at <http://www.usda.gov>, which is updated from time to time by the United States Department of Agriculture.

Sugar

Sugar, also known as sucrose, is a member of the larger group of compounds called carbohydrates, and is characterised by a sweet taste. Sucrose occurs in the highest concentration in sugar cane and sugar beets, which are produced in over 100 countries around the world. About 75 per cent. of all sugar produced is processed from sugar cane, and the remainder from sugar beets. Raw sugar and refined sugar are two different products that are both traded internationally. Sugar beet producing countries export refined sugar, while sugar cane producing countries export either raw or refined sugar.

A more detailed description including historical data of the sugar industry can be found at <http://www.usda.gov>, which is updated from time to time by the United States Department of Agriculture.

Tin

Tin has been used in the production of bronze for at least 5,500 years. Tin is soft, pliable, resistant to corrosion and does not easily oxidise in the air. Therefore, it is widely used to coat other metals. The other important properties of tin are its low melting point, attractive appearance and the ability to readily form alloys with most other metals to create useful materials. Because of the softness of tin, it is seldom used in its pure form and is mainly combined with other metals. The end uses of tin are metal containers (19 per cent.), solders (16 per cent.) transportation (16 per cent.), construction (11 per cent.) and other applications (38 per cent.).

A more detailed description including historical data of the tin industry is updated from time to time on the United States Geological Survey (<http://www.usgs.gov>), the ITRI website (<http://www.itri.co.uk/default.asp>) and the Australian Bureau of Agriculture and Resources Economics and Sciences website (<http://www.daff.gov.au/abares>).

Wheat

Wheat is a cereal grass that has been grown in temperate regions and cultivated for food since prehistoric times; it is currently widely produced across the world. Wheat is used mainly as a human food and supplies about 20 per cent. of the food calories for the world's population. The primary use for wheat is flour, but it is also used in brewing and distilling, and to make oil, gluten, straw for livestock bedding, livestock feed, hay or silage, newsprint, and other products.

Wheat here refers to the soft red winter variety whose futures are traded on the Chicago Board of Trade. Soft red winter wheat futures are the most actively traded wheat futures contract. Soft red winter wheat is used for cakes, cookies and crackers and accounts for 15 per cent. to 20 per cent. of US wheat production.

A more detailed description including historical data of the wheat industry can be found at <http://www.ers.usda.gov/topics/crops/wheat.aspx>, which is updated by the United States Department of Agriculture. A more detailed description of Chicago Board of Trade wheat futures contracts can be found at http://www.cmegroup.com/trading/agricultural/grain-and-oilseed/wheat_contract_specifications.html, which is updated by the Chicago Board of Trade.

WTI Crude Oil

According to the Energy Information Administration (EIA), over the past several decades oil has been the world's foremost source of primary energy consumption. Many varieties of crude oil are produced around the world, each with their own price; the characteristics of each variety depend largely on the particular crude oil's geological history. Because there are so many varieties, crude oils are priced and traded relative to well known benchmarks (called markers). Two of these benchmarks dominate world crude oil futures trading, namely Brent Crude, futures contracts for which are traded in London on the ICE Futures Market, and West Texas Intermediate (WTI) Light Sweet Crude, futures contracts for which are traded on NYMEX. Crude oil prices are influenced by a complex interaction of underlying supply and demand factors, political dynamics and increasingly developed spot, term and futures trading. Therefore these prices tend to be highly volatile. The behaviour of the Organization of the Petroleum Exporting Countries (OPEC) is often the key to price developments in the world crude oil market.

A more detailed description including historical data of the crude oil industry is updated from time to time on the BP Statistical Review of World Energy published on BP website (<http://www.bp.com>) and the International Energy Outlook published by the Energy Information Administration (<http://www.eia.doe.gov>).

Zinc

Zinc is the 24th most abundant element in the earth's crust. Zinc is never found in its pure state, but is rather produced from ores (primary zinc), or from scrap and residues (secondary zinc). Approximately three quarters of all zinc is consumed as metal, mainly as a coating to protect iron and steel from corrosion (galvanised metal), as alloying metal to make bronze and brass, as zinc-based die casting alloy, and as rolled zinc. The remaining quarter is consumed as zinc compounds mainly in the negative electrode in dry cell (flashlight) batteries, in the zinc-mercuric-oxide battery cell typically used in watches, cameras, and other electronic devices, and as an antiseptic ointment in medicine. Zinc is also a necessary element for proper growth and development of humans, animals, and plants; it is the second most common trace metal, after iron, found naturally in the human body.

A more detailed description including historical data of the zinc industry is updated from time to time on the International Lead and Zinc Study Group website (<http://www.ilzsg.org>) and the Australian Bureau of Agriculture and Resources Economics website (<http://www.abareconomics.com>).

Futures Markets

Futures contracts are typically traded on organised exchanges in a wide variety of physical commodities (including petroleum products, metals, and grains) and financial instruments (such as stocks, bonds, and currencies). They are traded in two ways: either in an open outcry environment or through an electronic trading platform.

Futures contracts have standardised terms that are determined by the exchange, rather than by market participants. Standardised terms include: the amount of the commodity to be delivered (the contract size), delivery months, the last trading day, the delivery location or locations, and acceptable qualities or grades of the commodity. This standardisation enhances liquidity, by making it possible for large numbers of market participants to trade the same instrument. Most futures contracts (by volume) are liquidated prior to expiry to avoid physical delivery. The purpose of the physical delivery provision is to ensure convergence between the futures price and the cash market price (however some futures are only cash settled).

Futures trades that are made on an exchange are cleared through a clearing organisation (clearing house), which acts as the buyer to all sellers and the seller to all buyers. When an investor buys or sells a futures contract, they are technically buying from, or selling to, the clearing organisation rather than the party with whom they executed the transaction on the trading floor or through an electronic trading platform.

Futures traders are not required to put up the entire value of a contract. Rather, they are required to post a margin that is typically between 2 per cent. and 10 per cent. of the total value of the contract. Thereafter, the position is "marked to the market" daily. If the futures position loses value, the amount of money in the margin account will decline accordingly. If the amount of money in the margin account falls below the specified maintenance margin, the futures trader will be required to post additional margin to bring the account up the initial margin level. On the other hand, if the futures position is profitable, the profits will be added to the margin account. Because only a margin is required, this is known as an uncollateralised position. If 100 per cent. margin is deposited (earning interest), then this is known as a fully collateralised position and the return is known as a Total Return.

Futures exchanges and clearing houses in the United States are subject to regulation by the Commodity Futures Trading Commission (CFTC). Exchanges may adopt rules and take other actions that affect trading, including imposing speculative position limits, maximum price fluctuations and trading halts and suspensions, and requiring liquidation of contracts in certain circumstances.

Futures markets outside the United States are generally subject to regulation by comparable regulatory authorities. The structure and nature of trading on non-U.S. exchanges, however, may differ from this description.

Exchanges

CBOT (Chicago Board of Trade, now merged with CME)

CBOT is a leading futures and futures-options exchange located in Chicago. In its early history, the CBOT traded only agricultural commodities such as corn, wheat, oats and soybeans. Futures contracts at the Exchange evolved over the years to include non-storable agricultural commodities and non-agricultural products, including U.S. Treasury bonds and notes, 30-Day Federal Funds, stock indexes, and swaps. In 2007, CBOT merged with the Chicago Mercantile Exchange ("CME"), becoming the world's largest financial exchange market.

CME (Chicago Mercantile Exchange)

CME is the largest futures exchange in the United States, and also owns and operates the largest futures clearing house in the world. CME products fall into five major areas: interest rates, equities, foreign exchange, agricultural commodities and alternative investments. Two forums are available for trading CME products: the long-standing open outcry trading floors and an electronic trading platform. The CME Clearing House guarantees, clears and settles every contract traded through the CME. In 2007, the CME merged with the Chicago Board of Trade ("CBOT"), becoming the world's largest financial exchange market.

KCBT (Kansas City Board of Trade)

The Kansas City Board of Trade was founded in 1856 by a group of Kansas City merchants. It served a function similar to a Chamber of Commerce. Early trading at the exchange was primarily in cash grains. Today, hard red winter wheat futures are the mainstay of the Kansas City Board of Trade. Options on wheat futures were introduced in 1984. In 2012 KCBT became part of the CME Group.

LME (London Metal Exchange)

LME is the world's largest futures exchange for base and other metals. LME allows for cash trading, and offers hedging, worldwide reference pricing and storage for physical delivery of trades. Eleven companies have exclusive rights to trade by open outcry, and approximately 100 companies trade inter-office through the London Clearing House, which also clears London Stock Exchange trading. Trades are in futures, options and TAPOs (traded average price contracts, a form of Asian option). Commodities traded on LME include aluminium, copper, zinc, lead, nickel, tin, and aluminium alloy.

In 2012, LME was bought by The Hong Kong Exchange and Clearing Limited (HKEX).

ICE Futures U.S.

ICE Futures U.S., formerly the New York Board of Trade ("NYBOT"), is a physical commodity futures exchange located in New York City. Its two principle divisions are the New York Coffee Sugar and Cocoa Exchange ("CSCE") and the New York Cotton Exchange ("NYCE"). In January 2007, NYBOT was acquired by ICE and renamed ICE Futures U.S.

NYMEX (The New York Mercantile Exchange, Inc.)

NYMEX, or The New York Mercantile Exchange, Inc., is the world's largest physical commodity futures exchange located in New York City. The exchange handles billions of dollars worth of energy products, metals, and other commodities being traded by open auction and electronically. Trading is conducted through two divisions, the NYMEX Division, home to the energy, platinum, and palladium markets; and the COMEX Division, on which all other metals trade. In 2008, NYMEX merged with CME Group becoming the world's largest financial exchange market.

GLOBAL BEARER CERTIFICATES

The following is a non-binding English language translation of the form of Global Bearer Certificates. The definitive German language text, of which the following is a direct and accurate translation, of the form of the Global Bearer Certificates and the Conditions of the Global Bearer Certificates is set out in Annexes 1 and 2 of this document. In the event of any inconsistency between the definitive German language text of the form of the Global Bearer Certificates and the English translation below, the former shall always prevail.

Model Form of Global Bearer Certificate (non-binding translation)

Global Bearer Certificate for

• registered [see Annex 1] [class of •] Securities

of

ETFS Hedged Commodity Securities Limited

Ordnance House, 31 Pier Road, St Helier, Jersey, Channel Islands, JE4 8PW

divided into securities with a principal amount of • [see Annex 1] each

As underlying stock for this Global Bearer Certificate the Clearstream Banking Aktiengesellschaft, Frankfurt am Main, Federal Republic of Germany (hereinafter referred to as "Clearstream"), is holding • [see Annex 1] [class of •] Securities (hereinafter referred to as "Notes") of ETFS Hedged Commodity Securities Limited, Jersey, Channel Islands (hereinafter referred to as the "Company") constituted by a Trust Instrument dated 23 February 2012 between the Company and The Law Debenture Trust Corporation p.l.c. as amended / supplemented from time to time (hereinafter referred to as the "Trust Instrument") and secured as described therein and divided into securities with a principal amount of • [see Annex 1] each, registered in the name of Vidacos Nominees Limited, London, England, and held in a special Safe Custody Account with Citibank N.A., London, England. Each co-owner of this Global Bearer Certificate is entitled to demand at any time from Clearstream to arrange for the delivery and registration in the relevant Register of Security Holders of the Company, in his name or in the name of a third party designated by him of such number of Notes as corresponds to his share in this Global Bearer Certificate.

In respect of all further matters, the Conditions attached to this Global Bearer Certificate and forming an essential part thereof shall apply.

Frankfurt am Main.

**CLEARSTREAM BANKING
AKTIENGESELLSCHAFT**

**Text of the Conditions of the Global Bearer Certificates
(non-binding translation)**

Conditions of the Certificate

(non-binding translation)

1. This Global Bearer Certificate bears the signature of two managing directors, or one managing director and one holder of procuration, of the Clearstream Banking Aktiengesellschaft, Frankfurt am Main, Federal Republic of Germany (hereinafter referred to as "Clearstream").
2. Each co-owner of this Global Bearer Certificate is entitled to demand at any time from Clearstream the delivery and the registration in the relevant Register of Security Holders, in his name or in the name of a third party designated by him of such number of registered • [see Annex 1] [class •] Securities (hereinafter referred to as "Notes") of ETFS Hedged Commodity Securities Limited, Jersey, Channel Islands, (hereinafter referred to as the "Company") constituted by a Trust Instrument dated 23 February 2012 between the Company and The Law Debenture Trust Corporation p.l.c. as amended / supplemented from time to time (hereinafter referred to as the "Trust Instrument") and secured as described therein and divided into securities with a principal amount of • [see Annex 1] each, as corresponds to his co-ownership share in this Global Bearer Certificate. Such demand shall be made by the co-owner through his depositary bank to Clearstream, stating to whom the Notes shall be delivered, respectively, the address to which the certificate evidencing the registration shall be mailed by the Registrar.

In addition to the delivery, respectively, transfer fee determined by Clearstream pursuant to § 315 of German Civil Code, the co-owner shall bear any expenses, taxes, fees or duties arising from such delivery resp. transfer and registration.

The co-owners of this Global Bearer Certificate are not entitled to demand delivery of individual bearer certificates out of this Global Bearer Certificate.
3. As a rule, Clearstream shall convey to the co-owner, through his depositary bank and in proportion to his share in the Global Bearer Certificate, all rights arising from the Notes under the laws of England and Jersey, Channel Islands.

Payments of capital, interests and/or other amounts due will be passed on by Clearstream to the co-owner. Furthermore, any terms and conditions announced by Clearstream shall apply.

All payments to the co-owner shall be made in EURO, in accordance with the foreign exchange control regulations prevailing at the time, unless the co-owner has in time before the due date demanded payment in USD (United States Dollars).
4. As a rule, Clearstream shall not exercise voting rights arising in a noteholder meeting. On demand it shall cause a voting proxy to be issued to the co-owner or a third party indicated by him.

The Company has undertaken to publish the agenda of any noteholder meeting as well as the conditions for participating in the meeting and exercising the voting rights before each meeting.
5. Should the issuance of the Global Bearer Certificate be subject at any time to any taxes, fees or duties in the Federal Republic of Germany or in Jersey, Channel Islands, the co-owners shall bear such taxes, fees or duties in proportion to their shares in the Global Bearer Certificate.

Clearstream is entitled to divide among all co-owners in proportion to their co-ownership shares in the Global Bearer Certificate all taxes, fees and duties to which it may at any time be subject in the Federal Republic of Germany or in Jersey, Channel Islands, by the mere fact that it is holding the Notes.
6. If for any reason the Notes should be replaced by other notes or some other valuable, the co-owner's right to the Notes shall convert into a right to the relevant substitutes. In such event these Conditions shall apply *mutatis mutandis*.

7. Clearstream is entitled to substitute another entity for Citibank N.A., London, England, (hereinafter referred to as "Custodian") in its function as Custodian or Vidacos Nominees Limited, London, England, (hereinafter referred to as "Nominee") in its function as Nominee. In such event, Clearstream shall not be responsible for more than careful selection. This does not affect Clearstream's right to assume itself the functions of the Custodian or the Nominee. In the case where the Custodian or the Nominee are replaced, any reference to the Custodian or the Nominee in these Conditions shall be deemed to refer to the new Custodian or Nominee.
8. Should the Notes become good delivery on German stock exchanges in a way which would not require Clearstream's assistance in the present form or should the admission of the Notes in the form of co-ownership shares in the Global Bearer Certificate to trading and official quotation on German stock exchanges be withdrawn, Clearstream shall request from the co-owners instructions as provided for in Clause 2. paragraph 1 above. Should such instructions not be given within 3 months from the publication of the relevant request, Clearstream shall be entitled at its discretion to arrange for registration of the Notes in the name of the co-owner or a third party designated in its request and to deposit the relevant Notes at the co-owner's risk and expense with a depositary designated in its request. All obligations of Clearstream arising from the Global Bearer Certificate shall cease therewith.
9. All notices concerning the Global Bearer Certificate shall be published in at least one supranational newspaper designated by the German stock exchanges to publish obligatory notices of each German stock exchange on which the Notes in form of co-ownership shares in the Global Bearer Certificate are traded and officially quoted.
10. The co-owners shall bear proportionately any prejudice or damage, whether economic or legal, which may affect the Notes held as underlying stock for the Global Bearer Certificate in consequence of *force majeure*, governmental decrees, war, riots, official action at home or abroad or any other circumstances beyond Clearstream's or the Custodian's control.

Clearstream shall perform all its obligations arising from the Global Bearer Certificate with the due care of a proper merchant. If by reason of *force majeure*, governmental decrees, war, riots, official action at home or abroad or by any other circumstances beyond its control it is prevented from performing its obligations, it shall not be responsible.

The Custodian and the Nominee are responsible towards Clearstream for the due performance of their functions. Any claims against the Custodian or the Nominee shall be pursued by Clearstream on the co-owners' behalf. Beyond that Clearstream shall only be responsible for careful selection of the Custodian and the Nominee.
11. Should any of these conditions be or become fully or partly invalid or impracticable, the other conditions shall remain unaffected. Any such invalid or impracticable condition shall be replaced in accordance with the intent and purpose of this contractual agreement.
12. All legal relations between the co-owner and Clearstream shall be governed by the laws of the Federal Republic of Germany. The exclusive court of venue shall be Frankfurt am Main.
13. Except where required by law, an alteration of these Conditions shall be permitted only insofar as it does not impair the rights of the co-owners.

PART 10

PARTICULARS OF THE COMMODITY CONTRACT COUNTERPARTIES

A Particulars of UBS

UBS AG with its subsidiaries ("**UBS Group**") draws on its 150-year heritage to serve private, institutional and corporate clients worldwide, as well as retail clients in Switzerland. UBS's business strategy is centered on its global wealth management businesses and its universal bank in Switzerland. In the opinion of the UBS Group, these businesses, together with a client-focused Investment Bank and a strong, well-diversified Global Asset Management business, will enable UBS to expand its wealth management franchise and drive further growth across the Group. Headquartered in Zurich and Basel, Switzerland, UBS Group has offices in more than 50 countries, including all major financial centres. UBS AG is incorporated and domiciled in Switzerland and operates under Swiss Code of Obligations and Swiss Federal Banking Law as an *Aktiengesellschaft*, a corporation that has issued shares of common stock to investors. UBS AG shares are listed on the SIX Swiss Exchange and the New York Stock Exchange. UBS has issued various series of notes under its Euro Note Programme which have been admitted to trading on the regulated market of the Irish Stock Exchange Limited.

The addresses and telephone numbers of UBS AG's two registered offices and principal places of business are: Bahnhofstrasse 45, CH-80001 Zurich, Switzerland, telephone +41 44 234 11 11; and Aeschenvorstadt 1, CH-4051 Basel, Switzerland, telephone +41 61 288 20 20. The address of UBS AG, London branch is 1 Finsbury Avenue, London EC2M 2PP.

B Particulars of MLI and BAC

MLI is a company incorporated in England and Wales and is authorised and regulated by the FSA under FSMA. MLI is a company unlimited with shares. MLI was established on 2 November 1988 under the UK Companies Act 1985 as Mobilemanor Limited changing its name to Merrill Lynch International Limited on 8 March 1989 and re-registering as an unlimited company on 29 March 1996. The registered address of MLI is 2 King Edward Street, London, EC1A 1HQ, United Kingdom.

The principal activities of MLI are to provide a wide range of financial services globally for business originated in Europe, the Middle East and Africa, Asia Pacific and the Americas, to act as a broker and dealer in financial instruments and to provide corporate finance services.

The payment obligations of MLI under the MLI Facility Agreement, the MLI Security Agreement and the MLI Control Agreement shall be guaranteed by BAC.

BAC is a bank holding company and a financial holding company incorporated in the State of Delaware, United States, in 1998. Through BAC's banking and various non-banking subsidiaries throughout the U.S. and in international markets, BAC provides a diversified range of banking and non-banking financial services and products.

BAC's headquarters and principal executive offices are located at 100 North Tryon Street, Charlotte, NC 28255, United States. BAC's common stock is listed on the New York Stock Exchange. BAC has securities admitted to trading on the regulated market of the London Stock Exchange, including various series of notes issued under its US\$65,000,000,000 Euro Medium-Term Note Programme.

BAC acquired Merrill Lynch & Co. Inc. and its subsidiaries (including MLI) on 1 January 2009.

For the avoidance of doubt, the Currency-Hedged Commodity Securities issued under this Programme do not represent an obligation of, nor will they be insured or guaranteed by, BAC or any of its subsidiaries (including, but without limitation, MLI).

 - (iv) Security Assignment dated 23 February 2012 between the Issuer and UBS pertaining to the Authorised Participant Agreement between the Issuer and Susquehanna Ireland Limited; and
 - (v) Security Assignment dated 5 November 2012 between the Issuer and UBS pertaining to the Authorised Participant Agreement between the Issuer and Virtu Financial Ireland Limited.
- (n) the following Security Assignments between MLI and the Issuer securing to MLI the Secured Obligations of the Issuer in relation to the Authorised Participant Agreement to which it pertains:
- (i) Security Assignment dated 23 February 2012 between the Issuer and MLI pertaining to the Authorised Participant Agreement between the Issuer and ABN AMRO Clearing Bank N.V.;
 - (ii) Security Assignment dated 23 February 2012 between the Issuer and MLI pertaining to the Authorised Participant Agreement between the Issuer and Susquehanna International Securities Limited;
 - (iii) Security Assignment dated 23 February 2012 between the Issuer and MLI pertaining to the Authorised Participant Agreement between the Issuer and Susquehanna Ireland Limited;
 - (iv) Security Assignment dated 23 February 2012 between the Issuer and MLI pertaining to the Authorised Participant Agreement between the Issuer and UBS AG, London branch; and
 - (v) Security Assignment dated 9 November 2012 between the Issuer and MLI pertaining to the Authorised Participant Agreement between the Issuer and Virtu Financial Ireland Limited.
- (o) the Services Agreement dated 23 February 2012 whereby ManJer is responsible for supplying or procuring the supply of all management and administration services for the Issuer and for paying all the management and administration costs of the Issuer (including the fees and expenses of the Registrar and any administrator and the fees and expenses of the Trustee in relation to its role under the Trust Instrument) and the Issuer agrees to pay to ManJer the Management Fee, the Licence Allowance and a processing fee representing the Application Fees and Redemption Fees which the Issuer has received (including by way of set-off). ManJer may delegate to other entities certain of its duties and functions under the Services Agreement;
- (p) the Administration Agreement dated 23 February 2012 whereby R&H Fund Services (Jersey) Limited is responsible for supplying or procuring the supply of certain administrative, company secretarial and registrar services to the Issuer as set out in schedule 1 of the Administration Agreement and for which the Issuer agrees to pay R&H Fund Services (Jersey) Limited a fee. R&H Fund Services (Jersey) Limited may delegate in whole or in part the discharge of any of its duties or functions and the exercise of any powers and discretion under the Administration Agreement.
- R&H Fund Services (Jersey) Limited is not liable to the Issuer for any error of judgement or for any loss suffered by the Issuer in connection with the subject of the Administration Agreement unless such loss arises from fraud, bad faith, wilful default or negligence in the performance or non-performance by R&H Fund Services (Jersey) Limited or persons designated by it of its obligations or duties and in particular (but without limitation) will not be liable as a result of any loss, delay, mis-delivery or error in transmission of any cable or telegraphic communication or as a result of acting upon any forged transfer or request for redemption of any securities in the Issuer; and
- (q) the Registrar Agreement dated 23 February 2012 whereby Computershare Investor Services (Jersey) Limited is responsible for supplying or procuring the supply of certain registrar services, including the provision of a registration and transfer office, to the Issuer as set out in schedule 1 of the Registrar Agreement and for which the Issuer agrees to pay Computershare Investor Services (Jersey) Limited a fee. Computershare Investor Services (Jersey) Limited may delegate certain of its duties or functions under the Registrar Agreement.

The Registrar and its officers and employees will not be liable to the Issuer for any direct damages, loss, costs, claims or expenses ("**Loss**") sustained by the Issuer or in respect of any matter relating to the Registers as a result of loss, delay, misdelivery or error in transmission of any cable, telex, telefax or telegraphic communication, or if any document accepted by the Registrar shall later be proved to be forged or otherwise defective or erroneous (except in respect of any Loss incurred by the Issuer as a result of the fraud, wilful default, bad faith or negligence of the Registrar).

The Registrar will not be liable to the Issuer in respect of any loss, liability, claim, cost, expense (including legal expenses) or damage suffered or incurred by the Issuer as a result of the discharge of its duties and obligations under the Registrar's Agreement, save where such loss, liability, claim, cost, expense or damage is suffered or incurred as a result of its fraud, wilful default, bad faith or negligence.

The aggregate liability of the Registrar to the Issuer over any 12 month period, howsoever any such liability arises, shall in no circumstances whatsoever exceed twice the amount of the fees payable by the Issuer to the Registrar in any 12 month period.

The Registrar is not liable to the Issuer for any Loss suffered or incurred by the Issuer as a result of the operation, failure, interruption or suspension of or changes to all or any part of the CREST Service (as defined in the Registrar's Agreement) by Euroclear UK & Ireland Limited or as a result of any timetable changes in connection with the provision of the CREST Service by Euroclear UK & Ireland Limited. The Registrar is not liable to the Issuer for any Loss suffered or incurred by the Issuer as a result of any acts or omissions of the Registrar that the Registrar reasonably considers are required in order for it to comply with the CREST Requirements (as defined in the Registrar's Agreement).

3. Authorised Participant Agreements

The Authorised Participants as at the date of this document are the persons who have entered into an Authorised Participant Agreement with the Issuer as described in paragraph 2(l) above.

Pursuant to the terms of the Authorised Participant Agreements, each Authorised Participant represents, warrants and undertakes to the Issuer that:

- (a) in relation to each Member State of the European Economic Area which has implemented the Prospectus Directive (each, a "**Relevant Member State**"), with effect from and including the date on which the Prospectus Directive is implemented in that Relevant Member State (the "**Relevant Implementation Date**"), it has not made and will not make an offer of Currency-Hedged Commodity Securities to the public in that Relevant Member State, except that it may, with effect from and including the Relevant Implementation Date, make an offer of Currency-Hedged Commodity Securities to the public in that Relevant Member State:
 - (i) in the period beginning on the date of publication of a prospectus in relation to those Currency-Hedged Commodity Securities which has been approved by the competent authority in that Relevant Member State in accordance with the Prospectus Directive or, where appropriate, published in another Member State and notified to the competent authority in that Relevant Member State in accordance with Article 18 of the Prospectus Directive and ending on the date which is 12 months after the date of such publication;
 - (ii) at any time to legal entities which are authorised or regulated to operate in the financial markets or, if not so authorised or regulated, whose corporate purpose is solely to invest in securities;
 - (iii) at any time to any legal entity which has two or more of (1) an average of at least 250 employees during the last financial year; (2) a total balance sheet of more than €43,000,000, and (3) an annual turnover of more than €50,000,000, each, as shown in its last annual or consolidated accounts; or
 - (iv) at any time in any other circumstances which do not require the publication by the Issuer of a prospectus pursuant to Article 3 of the Prospectus Directive.

For the purposes of this provision, the expression an "**offer of Currency-Hedged Commodity Securities to the public**" in relation to any Currency-Hedged Commodity Securities in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the Currency-Hedged Commodity Securities to be

offered so as to enable an investor to decide to purchase or subscribe for the Currency-Hedged Commodity Securities, as the same may be varied in that Relevant Member State by any measure implementing the Prospectus Directive in that Relevant Member State, the expression “**Prospectus Directive**” means Directive 2003/71/EC (and amendments thereto including the 2010 PD Amending Directive, to the extent implemented in the Relevant Member State) and includes any relevant implementing measure in each Relevant Member State and the expression “**2010 PD Amending Directive**” means Directive 2010/73/EU;

- (b) it has only communicated or caused to be communicated, and will only communicate or cause to be communicated, any invitation or inducement to engage in investment activity (within the meaning of section 21 of the FSMA) received by it in connection with the issue or sale of any Currency-Hedged Commodity Securities in circumstances in which section 21(1) of the FSMA does not apply to the Issuer or any Affiliate of the Issuer;
- (c) it has complied and will comply with all applicable provisions of the FSMA and the United Kingdom financial services regime (including, without limitation, the obligation to treat customers fairly) with respect to anything done by it in relation to any Currency-Hedged Commodity Securities in, from or otherwise involving the United Kingdom;
- (d) that neither it nor any of its Affiliates (including any person acting on behalf of it or any of its Affiliates):
 - (i) has knowingly offered or sold or will knowingly offer or sell Currency-Hedged Commodity Securities within the United States or to U.S. Persons, whether before, on or after the relevant Application Date;
 - (ii) has knowingly offered or sold or will knowingly offer or sell Currency-Hedged Commodity Securities to a Prohibited US Person or a Prohibited Benefit Plan Investor, whether before, on or after the relevant Application Date; or
 - (iii) has engaged or will engage in any “directed selling efforts” with respect to Currency-Hedged Commodity Securities.

Terms used in this paragraph 3(d) have the meanings given to them by Regulation S under the Securities Act of 1933 of the United States.

- (e) that it will not permit Currency-Hedged Commodity Securities to be offered to, sold to, or purchased by persons resident for income tax purposes in Jersey (other than financial institutions in the normal course of business).

Further restrictions on offers and sales of Currency-Hedged Commodity Securities and on the distribution of this Prospectus are set out in paragraph 24 of Part 11 (*Additional Information*).

The Authorised Participant Agreements may be terminated by either party thereto at any time upon thirty days’ prior written notice to the other parties.

The Issuer may enter into agreements with institutions to act as Authorised Participants and/or market-makers which may include commitments to make markets on varying terms, but which may include commitments to maintain particular maximum spreads and minimum lot sizes.

4. Licence Agreement

ETFSL has entered into an amended and restated licence agreement with UBS Securities and CME Indexes (as successor to Dow Jones & Company Inc.) (the “**Licence Agreement**”) dated as of 22 December 2011 pursuant to which ETFSL has been granted the right to use the DJ-UBS Commodity Indices and sub-indices thereof including the Commodity Indices for the issuance and trading of, *inter alia*, the Currency-Hedged Commodity Securities and the right to use and refer to the trademarks of UBS Securities, CME Indexes and Dow Jones associated with the Commodity Indices for certain purposes in connection with the issuance, distribution, marketing and promotion of, *inter alia*, the Currency-Hedged Commodity Securities. The Licence Agreement also permits ETFSL to post on its website delayed intra-day and settlement pricing for such Commodity Indices. A fee is payable by ETFSL to CME Indexes under the Licence Agreement. The Licence Agreement is in full force and effect until 31 August 2015 but may be terminated earlier for non-payment of the fee or other breaches of the agreement by ETFSL.

ManJer will, out of the Licence Allowance, pay ETFSL such amounts as ETFSL requires to pay such fees as are due under the Licence Agreement from time to time.

The Issuer has the right to use the DJ-UBS CISM and the DJ-UBS CI-F3SM and sub-indices thereof including the Commodity Indices and the trademarks of UBS Securities, CME Indexes and Dow Jones in connection with the issuance, marketing and promotion of the Currency-Hedged Commodity Securities, provided it agrees to be bound by all the provisions of the Licence Agreement as if it were the licensee thereunder including, without limitation, those provisions imposing any obligations on ETFSL.

6. UK Taxation

(a) General

The following paragraphs summarise certain limited aspects of the UK taxation treatment of holding Currency-Hedged Commodity Securities. They are based on current UK law and HM Revenue & Customs practice, both of which are subject to change, possibly with retrospective effect. The following paragraphs relate to Security Holders who are within the charge to UK corporation tax, are UK resident individuals or which are UK open-ended investment companies or authorised unit trust schemes unless otherwise stated. The statements in this summary are intended only as a general guide, and should be treated with appropriate caution. Any person who is contemplating acquiring Currency-Hedged Commodity Securities (whether or not pursuant to the Programme), particularly if that person is subject to taxation in any jurisdiction other than the UK, is strongly recommended to consult their independent professional advisers immediately.

(b) The Issuer

The Directors intend that the affairs of the Issuer should be managed and conducted so that it should not become resident in the UK for UK taxation purposes. Accordingly, and provided that the Issuer does not carry on a trade in the UK through a permanent establishment situated therein for UK corporation tax purposes or through a branch or agency situated in the UK which would bring the Issuer within the charge to UK income tax, the Issuer will not be subject to UK corporation tax or income tax on income and capital gains arising to it. The Directors intend that the affairs of the Issuer are conducted so that no such permanent establishment, branch or agency will arise insofar as this is within their control, but it cannot be guaranteed that the conditions necessary to prevent any such permanent establishment, branch or agency coming into being will at all times be satisfied.

(c) **Withholding Tax**

No payments made by the Issuer to Security Holders are required to be made under deduction or withholding for or on account of UK tax.

(d) **Corporation Tax on income and gains**

In general, a Security Holder which is subject to UK corporation tax will be treated for tax purposes as realising profits, gains or losses in respect of Currency-Hedged Commodity Securities on a basis reflecting the treatment in its statutory accounts, calculated in accordance with the Security Holder's authorised accounting method. These profits, gains or losses, (which will include any profits, gains or losses on a disposal or redemption of Currency-Hedged Commodity Securities and which may include fluctuations in value relating to foreign exchange gains and losses) will be treated as income profits or losses for the purposes of a Security Holder's corporation tax computation.

(e) **Capital Gains Tax (Individuals)**

Provided the Currency-Hedged Commodity Securities are not treated as "deeply discounted securities" for UK tax purposes, any transfer or redemption of a Currency-Hedged Commodity Security by a Security Holder who is a UK individual will, subject to the offshore fund rules mentioned below, be a disposal of that Currency-Hedged Commodity Security for UK capital gains tax purposes which may, subject to any available exemption or relief, give rise to a chargeable gain or allowance loss for those purposes.

Subject to this, it is expected that the Currency-Hedged Commodity Securities will not be treated as "deeply discounted securities" for UK tax purposes, however, investors are advised to consult their own tax advisers in this connection.

The Issuer may be treated as an "offshore fund" for UK tax purposes, and accordingly, Currency-Hedged Commodity Securities may be treated as investments in an "offshore fund" for UK tax purposes.

If this is the case, and the Currency-Hedged Commodity Securities are not treated as "deeply discounted securities" and no other exemption applies, any gain accruing to an investor upon the sale, redemption or other disposal of Currency-Hedged Commodity Securities will be taxed as income and not as a capital gain, unless the Issuer achieves certification as a "reporting fund". The Issuer has obtained notification from HM Revenue & Customs that all classes of Currency-Hedged Commodity Securities that have been issued have been accepted for entry into the "reporting fund" regime with effect first issue, and it will apply for such notification for all classes of Currency-Hedged Commodity Securities that are issued in the future. Whilst it is expected that certification as a "reporting fund" will be received and will be maintained for all periods this cannot be guaranteed.

Note that under the reporting fund rules the Issuer is required to report to investors 100 per cent. of the net income attributable to the relevant class of Currency-Hedged Commodity Securities. It is not expected that any such reportable income will arise in respect of any of the Currency-Hedged Commodity Securities.

A copy of the annual report required to be made to investors under the reporting fund rules will be provided on the following website: http://etfsecurities.com/en/document/etfs_document.asp.

(f) **Income Tax (Individuals)**

If the Currency-Hedged Commodity Securities are treated as "deeply discounted securities" for UK tax purposes, and do not qualify as "excluded indexed securities" for those purposes, any profit arising to a Security Holder who is a UK individual on transfer or redemption of Currency-Hedged Commodity Securities will be subject to UK income tax and not to UK capital gains tax.

(g) **UK Open-Ended Investment Companies and Authorised Unit Trust Schemes**

Whilst UK open-ended investment companies and authorised unit trust schemes are generally subject to UK corporation tax (currently at the rate of 20 per cent.) they are exempt from tax on

capital gains. Part 2 of The Authorised Investment Funds (Tax) Regulations 2006 (S.I. No. 2006/964) provides an exemption for capital profits, gains or losses accruing to UK open-ended investment companies and authorised unit trust schemes on creditor loan relationships and derivative contracts. In this respect capital profits, gains or losses are those which, in accordance with UK generally accepted accounting practice, fall to be dealt with in the statement of total return (under the heading of “net capital gains/losses” or “other gains/losses”) in accordance with the relevant Statement of Recommended Practice. These provisions do not however apply to a qualified investor scheme which does not meet the genuine diversity of ownership condition. In addition Part 2B of the Regulations treats all capital profits, gains and losses (determined in accordance with UK generally accepted accounting practice, as described above) arising to a UK open-ended investment company or authorised unit trust, which meets the genuine diversity of ownership condition, from an “investment transaction” (which includes loan relationships and derivative contracts) as a non-trading transaction and thus not taxable as income. These Parts of the Regulations will determine whether any profits, gains or losses arising to a Security Holder which is a UK open-ended investment company or authorised unit trust scheme in respect of Currency-Hedged Commodity Securities will be exempt from tax.

(h) **Stamp Duty and Stamp Duty Reserve Tax (‘SDRT’)**

Provided the Register is not kept by or on behalf of the Issuer in the UK, neither stamp duty nor SDRT will be payable on the issue or the subsequent transfer of, or agreement to transfer, Currency-Hedged Commodity Securities in Uncertificated Form.

In the case of Currency-Hedged Commodity Securities held in Certificated Form, provided (i) the Register is not kept by or on behalf of the Issuer in the UK; (ii) any instrument of transfer is not executed in the UK; and (iii) any instrument of transfer does not relate to anything to be done in the UK, neither stamp duty nor SDRT will be payable on the issue or subsequent transfer of Currency-Hedged Commodity Securities.

The redemption of Currency-Hedged Commodity Securities will not give rise to stamp duty or SDRT.

(i) **The European Savings Directive**

EU Council Directive 2003/48/EC on the taxation of savings income (the “**Directive**”) came into force on 1 July 2005. The Directive applies, amongst other matters, to payments of interest or other income on debt claims of every kind made by a paying agent in an EU Member State for the benefit of individual investors resident in another EU Member State. In circumstances where the Directive applies, such a paying agent would be under an obligation to provide information to the tax authorities of the EU Member States in which individual investors reside. A paying agent for these purposes is any economic operator who pays interest to, or secures interest for, the beneficial owner, and could include a UK broker effecting the sale of Currency-Hedged Commodity Securities.

Currency-Hedged Commodity Securities are undated secured limited recourse debt obligations of the Issuer. However, as no return in respect of Currency-Hedged Commodity Securities (whether in the form of cash on redemption, or as a result of trading on the London Stock Exchange) should constitute a payment of interest for the purposes of the Directive, it is not envisaged that Security Holders or their paying agents will be within the scope of the Directive.

7. **Jersey Taxation**

The following paragraphs summarise certain aspects of Jersey taxation treatment of holding Currency-Hedged Commodity Securities. The statements are intended only as a general guide.

(a) **General**

Under the Income Tax (Jersey) Law 1961 (the “**Jersey Income Tax Law**”), the Issuer will be regarded as resident in Jersey but (being neither a financial services company nor a specified utility company under the Jersey Income Tax Law at the date hereof) will (except as noted below) be subject to Jersey income tax at a rate of 0 per cent.

The Issuer will not be required to make any deduction or withholding for, or on account of, Jersey income tax from any payments in respect of the Currency-Hedged Commodity Securities. Holders of the Currency-Hedged Commodity Securities (other than residents of Jersey) should not be subject to any tax in Jersey in respect of the holding, sale, redemption or other disposition of its Currency-Hedged Commodity Securities. Redemption payments (other than to residents of Jersey) will not be subject to withholding for or on account of Jersey tax.

(b) **Stamp duty**

Under current Jersey law, there are no death or estate duties, capital gains, gift, wealth, inheritance or capital transfer taxes. No stamp duty is levied in Jersey on the issue, transfer, acquisition, ownership, redemption, sale or other disposal of Currency-Hedged Commodity Securities. In the event of the death of an individual sole holder of Currency-Hedged Commodity Securities, duty at rates of up to 0.75 per cent. of the value of the Currency-Hedged Commodity Securities held may be payable on registration of Jersey probate or letters of administration which may be required in order to transfer or otherwise deal with Currency-Hedged Commodity Securities held by the deceased individual sole holder thereof.

(c) **Goods and services tax**

The Issuer is an “international services entity” for the purposes of the Goods and Services Tax (Jersey) Law 2007 (the “**GST Law**”). Consequently, the Issuer is not required to:

- (i) register as a taxable person pursuant to the GST Law;
- (ii) charge goods and services tax in Jersey in respect of any supply made by it; or
- (iii) (subject to limited exceptions that are not expected to apply to the Issuer) pay goods and services tax in Jersey in respect of any supply made to it.

(d) **The European Savings Directive**

As part of an agreement reached in connection with the European Union directive on the taxation of savings income in the form of interest payments, and in line with steps taken by other relevant third countries, Jersey introduced with effect from 1 July 2005 a retention tax system in respect of payments of interest, or other similar income, made to an individual beneficial owner resident in an EU Member State by a paying agent established in Jersey. The retention tax system applies for a transitional period prior to the implementation of a system of automatic communication to EU Member States of information regarding such payments. During this transitional period, such an individual beneficial owner resident in an EU Member State will be entitled to request a paying agent not to retain tax from such payments but instead to apply a system by which the details of such payments are communicated to the tax authorities of the EU Member State in which the beneficial owner is resident.

The retention tax system in Jersey is implemented by means of bilateral agreements with each of the EU Member States, the Taxation (Agreements with European Union Member States) (Jersey) Regulations 2005 and Guidance Notes issued by the Policy & Resources Committee of the States of Jersey. Based on these provisions and the Issuer’s understanding of the current practice of the Jersey tax authorities (and subject to the transitional arrangements described above), the Issuer would not be obliged to levy retention tax in Jersey under these provisions in respect of redemption payments made by it to a paying agent established outside Jersey.

8. Taxation in Austria

(a) **General**

The following is a brief summary of some principles of Austrian tax law that may be of relevance for Austrian resident holders of the Currency-Hedged Commodity Securities. It does not claim to fully describe all Austrian tax consequences of the acquisition, ownership, disposition or redemption of the Currency-Hedged Commodity Securities. This summary does not take into account or discuss the tax laws of any country other than Austria nor does it take into account the investors’ individual circumstances.

Prospective investors are advised to consult their own professional advisors to obtain further information about the tax consequences of the acquisition, ownership, disposition, redemption, exercise or settlement of the Instruments. Only personal advisors are in a position to adequately take into account special tax aspects of the particular instruments in question as well as the investor's personal circumstances and any special tax treatment applicable to the investor.

This summary is based on Austrian law as in force when drawing up this Prospectus. The laws and their interpretation by the tax authorities may change and such changes may also have retroactive effect.

(b) **Taxation of capital gains or redemption gains upon disposal or redemption of the Currency-Hedged Commodity Securities**

Individual Investors

Under the tax regime that applies to most types of investment income (*Einkünfte aus Kapitalvermögen*) including income derived from the Currency-Hedged Commodity Securities, capital gains upon the disposal or redemption of Currency-Hedged Commodity Securities are subject to a 25 per cent. flat tax rate. If Currency-Hedged Commodity Securities are deposited with an Austrian custodian bank, the bank will, in most circumstances, withhold the 25 per cent. capital gains tax and forward it to the tax authorities. If for an individual investor the 25 per cent. flat rate is higher than the rate which would be applicable under the regular progressive tax rate (0 per cent. — 50 per cent. depending on the individual's total annual income) applicable for this individual, the individual can apply for a tax refund in his or her annual tax return.

For Currency-Hedged Commodity Securities acquired and sold or redeemed before 31 March 2012, capital gains might have been subject to the full progressive tax rate of up to 50 per cent. This applied in any event when the holding period did not exceed one year.

Capital gains realised upon Currency-Hedged Commodity Securities acquired and sold or redeemed after 31 March 2012 are always taxable at 25 per cent. regardless of the holding period.

Corporate Investors

Corporate entities are in general subject to a 25 per cent. flat corporate income tax rate. Capital gains incurred upon disposal or redemption of the Currency-Hedged Commodity Securities are subject to this general 25 per cent. taxation.

(c) **Other taxes**

Transfer Taxes

There are no transfer taxes, registration taxes or similar taxes payable in Austria as a consequence of the acquisition, ownership, disposition or redemption of the Currency-Hedged Commodity Securities.

Inheritance or Gift Taxes

The Austrian inheritance and gift tax (*Erbschafts-und Schenkungssteuer*) was abolished with effect as of 1 August 2008.

VAT

The acquisition or disposal of the Currency-Hedged Commodity Securities is not subject to Austrian VAT.

Application of the Austrian Investment Fund Act

There is a risk that Currency-Hedged Commodity Securities whose underlying assets are composed of a variety of classes of metals (in order to achieve an effect of risk diversification) could be treated as investments in a foreign investment fund according to section 188 of the Austrian Investment Fund Act. The consequence of such treatment could be a taxation of the investment regardless of actual disposals, redemptions or distributions. Please discuss this issue

with your personal tax advisor if you are considering investing in Currency-Hedged Commodity Securities whose underlying assets are composed of a variety of classes of metals.

(d) **The European Savings Directive**

The rules implementing Directive 2003/48/EC in Austrian national law, provide that interest payments (including payments of certain types of capital gains incurred from the disposal or redemption of a security) made by an Austrian paying agent to EU resident beneficial owners of securities are subject to a EU-withholding tax. The applicable tax rate is 35 per cent.

No EU-withholding tax is levied if the beneficial owner presents to his paying institution a certificate as provided for under Article 10 of the EU-Withholding Tax Act issued by the competent authority of his EU member state of residence for tax purposes.

9. Taxation in Denmark

(a) **General**

The following is a brief summary of some important principles of Danish tax law that may be of relevance for Danish holders of Currency-Hedged Commodity Securities. The summary does not fully cover all aspects of Danish tax law that may be of relevance to holders. The summary is based on Danish tax law as of January 2013. The summary deals only with taxation in Denmark and not with foreign tax rules.

It should also be noted that the taxation of Currency-Hedged Commodity Securities may change at any time as a result of new legislation, court practice or decrees issued by the relevant taxation authorities, potentially with retroactive effect. Investors interested in acquiring Currency-Hedged Commodity Securities should consult their tax advisors with regard to any tax consequences that may be involved in acquiring, holding, redeeming, selling or gratuitously transferring the Currency-Hedged Commodity Securities.

Only a tax advisor is able to adequately assess the individual tax situation of a specific investor.

Under Danish Law, financial instruments including Currency-Hedged Commodity Securities are governed by special provisions in the Shares, Transfers and Capital Gains Taxation Act. Basically, this means that gains and losses on Currency-Hedged Commodity Securities are taxed separately from the underlying assets applying a mark-to-market principle.

(b) **Security Holders liable to corporate tax**

Under Danish law, share certificates including Currency-Hedged Commodity Securities are governed by special provisions in the Shares, Transfers and Capital Gains Taxation Act. Basically, this means that gains and losses on the financial instruments are taxed separately from the underlying assets, applying a mark-to-market principle. Both losses and gains are included in the taxable income.

Net gains are taxed at a flat rate of 25 per cent. The ability to utilise net losses is limited. Basically, the utilisation requires that a previous gain has been realised.

(c) **Individual holding Currency-Hedged Commodity Securities**

Under Danish law, Instruments including Currency-Hedged Commodity Securities are governed by the Shares, Transfers and Capital Gains Taxation Act. Basically, this means that gains and losses on the instruments are taxed separately from the underlying assets, applying a mark-to-market principle. Both losses and gains are included in the taxable income. Net gains exceeding DKK 40.000 and DKK 80.000 for married couples corresponding to approximately €5,383/€10,766 are taxed as capital income at a marginal tax rate of 43.5 per cent. for an individual (42 per cent. in 2014). The ability to utilise net losses is limited. Basically, the utilisation requires that a previous gain has been realised.

(d) **Investors holding Currency-Hedged Commodity Securities via a pension scheme**

The investor will be taxed according to the mark-to-market principle. The Danish individual investor will be taxed at a rate of 15.3 per cent. on the return pursuant to section 2 of the Pension Returns Tax Act.

(e) **Individual covered by the corporate tax regime (“Virksomhedsskatteordningen”)**

It is possible for an individual to hold Currency-Hedged Commodity Securities through the corporate tax regime (*Virksomhedsskatteordningen*).

(f) **Withholding Taxes**

Generally, no withholding tax is levied on outbound interest payments. However, as of 2 April 2004, Denmark has introduced taxation on inter-group interest payments from a Danish company to a controlling foreign company. However, in substance, this will only apply if the foreign company is a financial company situated in (i) a tax haven, or (ii) a jurisdiction with which Denmark does not have a double taxation treaty. Anti-avoidance provisions have been introduced which exclude the possibility of using back-to-back loan structures to avoid the withholding tax. The interest payments are in these cases subject to a final tax of 25 per cent.

Generally, no withholding tax is levied on outbound debt claims. However, Denmark has introduced taxation on intergroup debt claims payments from a Danish company to a controlling foreign company. However, in substance, this will only apply if the foreign company is a financial company situated in (i) a tax haven, or (ii) a jurisdiction with which Denmark does not have a double taxation treaty. The debt claims payments are in these cases subject to a final tax of 25 per cent.

(g) **VAT**

No Danish value added tax applies.

(h) **Inheritance/Gift tax**

Upon inheritance a tax must be paid if the deceased person's home is within Danish jurisdiction or if real estate is situated in Denmark. The tax calculation basis is the estate value exceeding, in 2013, DKK 2,595,100 (corresponding to approximately €349,080). The tax rate for children and others is 15 per cent. and for other beneficiaries 36.25 per cent., calculated on the basis of inheritance exceeding, in 2013, DKK 264,100 (corresponding to approximately €35,525). A non-separated spouse is not taxed on the inheritance.

Gifts are as a starting point taxed the same way as proceeds from inheritance. Gifts to a spouse are tax free. Gifts exceeding, in the year 2013, DKK 58,700 per year (corresponding to approximately €7,896) to children and certain others are taxed at rate of 15 per cent. whilst gifts to grandparents are taxed at 36.25 per cent. Gifts to other beneficiaries are taxed as personal income at a rate up to 51.7 per cent. (2013). The receiver or the donor must be a Danish tax subject in order for these thresholds/amounts to apply.

(i) **The European Savings Directive**

EU Council Directive 2003/48/EC on the taxation of savings income applies amongst other matters, to payments of income on debt claims of every kind made by a paying agent in an EU member state for the benefit of individual investors resident in another Member State in the EU. In circumstances where the Directive applies, such a paying agent would be under an obligation to provide information to the tax authorities of the EU Member States in which individual investors reside to operate a withholding system in relation to such payments. A paying agent for these purposes is any economic operator who pays interest or other similar income to, or secures interest or other similar income for the beneficial owner, and could in relation to Currency-Hedged Commodity Securities include a Danish broker effecting the sale of Currency-Hedged Commodity Securities.

10. Taxation in Finland

(a) General

The following is a brief summary of some important principles of Finnish tax law that may be of relevance for Finnish resident investors acquiring, holding, redeeming or selling Currency-Hedged Commodity Securities. The summary does not fully cover all aspects of Finnish tax law that may be of relevance to the Currency-Hedged Commodity Securities. The summary is based on Finnish tax law as of the date of this Prospectus (rates as at 1 January 2013).

It should also be noted that the taxation of investors may change at any time as a result of new legislation, court practice or decrees issued by the relevant taxation authorities, potentially with retroactive effect. Investors interested in acquiring the Currency-Hedged Commodity Securities should consult their tax advisors with regard to any tax consequences that may be involved in acquiring, holding, redeeming, selling or gratuitously transferring the Currency-Hedged Commodity Securities. Only a tax advisor is able to adequately assess the individual tax situation of a specific investor.

(b) Tax on income and capital gains

Resident individuals

Individuals and death estates who sell their Currency-Hedged Commodity Securities, are subject to capital gains taxation at the rate of 30 per cent. and 32 per cent. for taxable income exceeding €50,000. The taxable capital gain on disposal of Currency-Hedged Commodity Securities is calculated by deducting the acquisition costs and sales costs from the sales price. Alternatively, the taxable capital gain can be calculated by deducting from the sales price as a deemed acquisition cost 20 per cent. of the sales price (40 per cent. for Currency-Hedged Commodity Securities held for at least 10 years). According to the Finnish Income Tax Act, capital losses can be deducted from capital gains (but not from other capital income) arising during the year of disposal and the five following years. A capital gain is tax exempt if the aggregate income derived from disposals of assets during the tax year is less than €1,000.

Resident companies

Resident companies are taxable on their worldwide income at the general corporate income tax rate of 24.5 per cent. This applies to both business income and other income.

Any capital gain or income from the Currency-Hedged Commodity Securities relating to the business operations is regarded as taxable business income and the tax assessment is made according to the Business Income Tax Act. Generally, expenses incurred in acquiring or maintaining taxable business income are deductible. Tax losses can generally be carried forward for ten years.

Where the investment in the Currency-Hedged Commodity Securities does not form part of business assets, tax assessment is made according to the Income Tax Act. Capital gains and income on the Currency-Hedged Commodity Securities are then taxed as other income of the company. Capital losses from the disposal and/or redemption of the Currency-Hedged Commodity Securities can be deducted from capital gains arising during the year of disposal and the following five years. Losses in the company's business income source cannot be deducted from the company's other income source or *vice versa*.

(c) Withholding tax

No deduction or withholding for or on account of Finnish tax is required to be made on payments directly from the Issuer to Security Holders on Redemption of Currency-Hedged Commodity Securities.

(d) Inheritance and gift taxes

A transfer of the Currency-Hedged Commodity Securities by way of gift or on death will be subject to Finnish inheritance or gift tax if the Security Holder, or heir, donee or other beneficiary, is a Finnish tax resident.

(e) **Value added tax**

No Finnish value added tax will be payable by a Security Holder in consideration for the issue of Currency-Hedged Commodity Securities.

(f) **Other taxes or duties**

No Finnish registration tax, customs duty, transfer tax, stamp duty or any other similar tax or duty will be payable in Finland by a holder of Currency-Hedged Commodity Securities.

(g) **The European Savings Directive**

EU Council Directive 2003/48/EC on the taxation of savings income applies amongst other matters, to payments of income on debt claims of every kind made by a paying agent in an EU member state for the benefit of individual investors resident in another Member State in the EU. In circumstances where the Directive applies, such a paying agent would be under an obligation to provide information to the tax authorities of the EU Member States in which individual investors reside. A paying agent for these purposes is any economic operator who pays interest or other similar income to, or secures interest or other similar income for the beneficial owner, and could in relation to Currency-Hedged Commodity Securities include a Finnish broker effecting the sale of Currency-Hedged Commodity Securities.

11. Taxation in France

(a) **General**

The following summary describes the principal French tax treatment applicable to the holding of the Currency-Hedged Commodity Securities by a French investor residing in France or outside of France following an offer of the Currency-Hedged Commodity Securities in France.

This information is of a general nature and does not purport to be a comprehensive description of all French tax considerations that may be relevant to a decision to acquire, hold or dispose of the Currency-Hedged Commodity Securities. In some cases, different rules may be applicable. Furthermore, the tax rules may be amended in future (possibly implemented with retroactive effect), and the interpretation of the tax rules may change.

This summary is based on French tax legislation, treaties, rules, administrative interpretations and similar documentation in force as of the date of this Prospectus, and on the legal qualification of the Currency-Hedged Commodity Securities as bond instruments, without prejudice to any amendments introduced at a later date, even if implemented with retroactive effect.

Any persons interested in acquiring the Currency-Hedged Commodity Securities should consult their tax advisers with regard to any tax consequences that may be involved in acquiring, holding, redeeming, selling or gratuitously transferring the Currency-Hedged Commodity Securities. Only a tax adviser is able to adequately assess the individual tax situation of a specific investor.

(b) **Investors residing in France**

Taxation of individuals

Taxation of capital gains

Capital gains derived from the disposal of the Currency-Hedged Commodity Securities are taxed at the standard progressive income tax schedule, whose top rate is currently 45 per cent.. In addition, 15.5 per cent. social contributions are due.

If a French investor disposes of the Currency-Hedged Commodity Securities at a loss, such loss may be offset against capital gains of the same nature made during the year of the loss or the following ten years, subject to filing obligations.

Taxation of bond redemption premium (Prime de remboursement)

Bond redemption payments made to an individual residing in France are taxed according to the standard progressive income tax schedule, whose top rate is currently 45 per cent.. Income tax

is payable in two steps, in principle. A 24 per cent. tax is paid when the premium is received, such payment being made by the individual or by the paying agent if the latter is established in France. Then, it gives rise to a tax credit which may be set off against income tax due the year after and calculated by applying the standard progressive income tax schedule. The excess tax credit, if any, may be refunded.

As an exception to the above, when interest income — which definition includes redemption premium — received during the calendar year by the individual and her/his spouse or partner does not exceed EUR 2,000, the above 24 per cent. tax is a final levy (i.e. no additional income tax may be due at a later stage).

The above mentioned social contributions of 15.5 per cent. are also applicable.

Taxation of companies subject to French corporate income tax

Taxation of capital gains

Capital gains from the disposal of the Currency-Hedged Commodity Securities are subject to corporate income tax at the standard rate of 33⅓ per cent., (or to a reduced rate applicable to small companies where the relevant conditions are met), increased to 34.43 per cent., 35 per cent. or 36.1 per cent. in certain circumstances. Capital losses are, in principle, treated as ordinary losses which may be set off against operational profits and any remaining balance carried forward in accordance with standard rules (i.e. unlimited carry forward save in specific circumstances).

Taxation of bond redemption premium (Prime de remboursement)

Bond redemption premiums are taxed at the above-mentioned standard corporate income tax rate (or at a reduced rate applicable to small companies where the relevant conditions are met). Furthermore, Article 238 septies E of the French general tax code (FGTC) may possibly apply. According to the provisions of Article 238 septies E, if the estimated value of the redemption premium exceeds the purchase value by 10 per cent. and the issue price is less than 90 per cent. of the estimated redemption value, such premium due to indexation of the principal is partially taxed before maturity on an annual basis, even though this premium is only collected on disposal or redemption on maturity.

(c) Investors residing outside of France

Taxation of capital gains

In principle, capital gains realised by investors residing outside of France upon the sale or disposal of Currency-Hedged Commodity Securities are not subject to capital gains tax in France. The same applies to companies, provided that the Currency-Hedged Commodity Securities are not based in a permanent establishment or fixed base in France.

(d) The European Savings Directive

The EU Council Directive 2003/48/EC on the taxation of savings income (the “**Directive**”) applies, amongst other matters, to payments of interest on debt claims of every kind made by a paying agent in an EU Member State for the benefit of individual investors resident in another Member State in the EU. In circumstances where the Directive applies, such a paying agent would be under an obligation to provide information to the tax authorities of the EU Member States in which individual investors reside (although for a transitional period Luxembourg and Austria are instead required (unless during that period they elect otherwise) to operate a withholding system in relation to such payments (the ending of such transitional period being dependent upon the conclusion of certain other agreements relating to information exchange with certain other countries and territories). A paying agent for these purposes is an economic operator who pays interest or other similar income to, or secures interest for the beneficial owner, and could in relation to the Currency-Hedged Commodity Securities include a French broker effecting the sale of Currency-Hedged Commodity Securities on a stock market. A number of non-EU countries and territories including Switzerland have agreed to adopt similar measures (a withholding system in the case of Switzerland).

12. Taxation in Germany

(a) General

The following is a brief summary of some important principles of German tax law that may be of relevance for German investors acquiring, holding, redeeming or selling Currency-Hedged Commodity Securities. The summary does not fully cover all aspects of German tax law that may be of relevance to the Currency-Hedged Commodity Securities. The summary is based on German tax law as of the date of this Prospectus. It should also be noted that the taxation of investors may change at any time as a result of new legislation, court practice or decrees issued by the relevant taxation authorities, potentially with retroactive effect.

Investors interested in acquiring the Currency-Hedged Commodity Securities should consult their tax advisors with regard to any tax consequences that may be involved in acquiring, holding, redeeming, selling or gratuitously transferring the Currency-Hedged Commodity Securities. Only a tax advisor is able to adequately assess the individual tax situation of a specific investor.

(b) Taxation of capital gains

The German Ministry of Finance on 22 December 2009 has issued a tax circular regarding the taxation of capital income in Germany and the new German flat income tax (*Abgeltungsteuer*) (circular no. IV C 1 – S 2252/08/10004), as amended on 9 October 2012, (the “Tax Circular”). Pursuant to this Tax Circular gains or losses from a note instrument, eligible for listings on stock exchanges, which neither provide for the payment of interest payments, nor for a guaranteed repayment of principal as of maturity, would be treated by the German tax authorities as gains or losses from a debt instrument in the form of a speculative certificate (*Risikozertifikat*) and thus, be subject to German income taxation.

As a consequence of the court case of the German Federal Tax Court (BFH) dated 24 April 2012 structured financial instruments which mirror the performance of an underlying investment without any additional embedded leverage (“Delta 1-instrument”) should not qualify as a so-called “Derivative Instrument” (*Termingeschäft*) but rather as a “other financial instrument” (*Sonstige Kapitalforderung*). Securities which provide for a short exposure or an embedded leverage may therefore qualify as a Derivative Instrument (*Termingeschäft*).

As a consequence, German individual investors and German corporate investors are subject to German personal or corporate income tax and solidarity surcharge on any capital gains from the sale or the redemption of the Currency-Hedged Commodity Securities.

The tax rate in respect of capital gains for German individual investors who hold the Currency-Hedged Commodity Securities as private assets (*Privatvermögen*) is 25 per cent. (plus 5.5 per cent. solidarity surcharge thereon and, if applicable, church tax). However, taxpayers are entitled to apply for a tax assessment on the basis of their net taxable income. In this case the personal income tax will be levied on the gross income. No expenses related to the capital gains except for a lump-sum tax allowance of €801 for individuals and €1602 for married couples subject to German joint taxation will be deductible. If the Currency-Hedged Commodity Securities are held in custody with a German credit institution or financial service institution (including a German permanent establishment of a foreign institution) as disbursing agent (*inländische auszahlende Stelle*), a flat withholding tax (*Abgeltungsteuer*) at a rate of 25 per cent. (plus 5.5 per cent. solidarity surcharge thereon and, if applicable, church tax) is deducted. Payment of the flat withholding tax satisfies any income tax liability of the investor in respect of such income (unless the investor elects to have the tax assessment of such income). Losses from the sale or redemption of the Currency-Hedged Commodity Securities can be set off only against other capital income (*Einkünfte aus Kapitalvermögen*) of the investor.

If the Currency-Hedged Commodity Securities are held as business assets, all capital gains from the sale or redemption of the Currency-Hedged Commodity Securities by German investors will be subject to German personal or corporate income tax and solidarity surcharge thereon based on the applicable tax rate for the investor. In such cases, gains will also be subject to German trade tax. Withholding tax on such gains is deducted at the rates mentioned above but does not satisfy any income tax liability of the investor in respect of such gains.

(c) **Applicability of the Investment Tax Act (*Investmentsteuergesetz*)**

The Issuer believes that good arguments exist that investors in Currency-Hedged Commodity Securities will not be subject to the German Investment Tax Act. This should also apply under the contemplated draft (dated 30 January 2013) of the AIFM Tax-Admendment Act (AIFM-St-AnpG). Since Currency-Hedged Commodity Securities do not, among others, provide for regular redemptions for investors in the Currency-Hedged Commodity Securities, they should not constitute a participation of an investor in a foreign investment fund or a foreign unit of foreign investment funds.

(d) **Gift or inheritance tax**

A transfer of the Currency-Hedged Commodity Securities by way of gift or on death will be subject to German inheritance or gift tax if the investor, or their heir, donee or other beneficiary, is a German resident for German gift or inheritance tax purposes according to the specific rules of the German Gift and Inheritance Tax Act. This may in particular be the case if the investor, heir, donee or other beneficiary is:

- (i) an individual having at the time of the donation or death his or her residence or habitual abode in Germany or if the individual is a German citizen who has not been living abroad for more than 5 years without having a residence in Germany; or
- (ii) a corporation having its seat or central place of management in Germany, or the Currency-Hedged Commodity Securities constitute business assets attributable to a permanent establishment or a permanent representative in Germany.

(e) **Other taxes**

No stamp, issue, registration or similar direct or indirect taxes or duties will be payable in Germany in connection with the issue, delivery or execution of the Currency-Hedged Commodity Securities, the Global Bearer Certificates or any interest therein. No net asset tax is currently levied in Germany.

(f) **The European Savings Directive**

On 3 June 2003, the Council of the European Union adopted directive 2003/48/EC on the taxation of savings income in the form of interest payments. Under this Directive, Germany is, as of 1 July 2005, required to provide the tax authorities of other member states with details of certain payments of interest paid or secured by a paying agent established in Germany to or for the benefit of an individual resident in that other member state. These details include but are not limited to details of the respective person considered the beneficial owner.

Currency-Hedged Commodity Securities are undated secured limited recourse debt obligations of the Issuer. However, as no return in respect of Currency-Hedged Commodity Securities (whether in the form of cash on redemption, or as a result of trading on the London Stock Exchange) should constitute a payment of interest for the purposes of the Directive, the Issuer believes that investors in Currency-Hedged Commodity Securities or their paying agents will not be within the scope of the directive.

The EU Council has published a proposal for amending the directive 2003/48/EC dated 13 November 2008, which may expand the scope of such directive.

13. Taxation in Ireland

(a) **General**

The following summary outlines certain aspects of Irish tax law and practice regarding the ownership and disposition of Currency-Hedged Commodity Securities. This summary deals only with Currency Hedged Commodity Securities held beneficially as capital assets and does not address special classes of Security Holders such as dealers in securities. This summary is not exhaustive and Security Holders are advised to consult their own tax advisors with respect to the taxation consequences of their ownership or disposition. The comments are made on the assumption that the Issuer is not resident in Ireland for Irish tax purposes. The summary is based on current Irish taxation legislation and practice of the Irish Revenue Commissioners.

(b) **Irish Withholding Tax**

Under Irish tax law there is no obligation on the Issuer to operate any withholding tax on a payment in respect of the Currency-Hedged Commodity Securities except where such payment has an Irish source. The payment is only likely to be considered to have an Irish source, if, for example, the payment constitutes yearly interest and such interest was paid out of funds maintained in Ireland or where the Currency-Hedged Commodity Securities were secured on Irish situated assets which it is understood will not be the case. The mere offering of the Currency-Hedged Commodity Securities to Irish investors will not cause such a payment to have an Irish source. In certain circumstances collection agents and other persons receiving interest on the Currency-Hedged Commodity Securities in Ireland on behalf of a Security Holder, will be obliged to operate a withholding tax.

(c) **Taxation of Income**

Unless exempted, an Irish resident or ordinarily resident Security Holder and a non-resident Security Holder holding Currency-Hedged Commodity Securities through an Irish branch or agency will be liable to Irish tax on the amount of any interest or other income, including potentially any premium on redemption, received from the Issuer. Individual Security Holders would also potentially be liable to pay related social insurance (PRSI) and the universal social charge. Credit against Irish tax on the interest received may be available in respect of any foreign withholding tax deducted by the Issuer.

(d) **Taxation of Capital Gains**

Irish resident or ordinarily resident Security Holders and non-resident Security Holders holding Currency-Hedged Commodity Securities through an Irish branch or agency would potentially be liable to Irish tax on capital gains on any gains arising on a disposal of Currency-Hedged Commodity Securities. Reliefs and allowances may be available in computing the Security Holder's liability.

(e) **Stamp Duty**

Transfers of Currency-Hedged Commodity Securities should not be subject to Irish stamp duty, provided the transfers do not relate to Irish land or buildings or securities of an Irish registered company.

(f) **Capital Acquisitions Tax**

A gift or inheritance comprising of Currency-Hedged Commodity Securities will be within the charge to capital acquisitions tax if either (i) the disponer or the donee/successor in relation to the gift or inheritance is resident or ordinarily resident in Ireland (or, in certain circumstances, if the disponer is domiciled in Ireland irrespective of his residence or that of the donee/successor) or (ii) if the Currency-Hedged Commodity Securities are regarded as property situated in Ireland. The Currency-Hedged Commodity Securities could only be considered property situated in Ireland if the register of Currency-Hedged Commodity Security Holders was maintained in Ireland or, to the extent that certificates are issued in bearer form, the Bearer Certificates were located in Ireland.

(g) **Provision of Information**

Generally Security Holders should be aware that where any interest or other payment on Currency-Hedged Commodity Securities is paid to them by or through an Irish paying agent or collection agent then the relevant person may be required to supply the Irish Revenue Commissioners with details of the payment and certain details relating to the Security Holder. Where the Security Holder is not Irish resident, the details provided to the Irish Revenue Commissioners may, in certain cases, be passed by them to the tax authorities of the jurisdiction in which the Security Holder is resident for taxation purposes.

(h) **EU Savings Directive**

The Council of the European Union has adopted a directive regarding the taxation of interest income known as the "European Union Directive on the Taxation of Savings Income (Directive

2003/48/EC)". Ireland has implemented the directive into national law. Any Irish paying agent making an interest payment on behalf of the Issuer to an individual, and certain residual entities defined in the Taxes Consolidation Act, 1997 resident in another EU Member State and certain associated and dependent territories of a Member State will have to provide details of the payment to the Irish Revenue Commissioners who in turn will provide such information to the competent authorities of the state or territory of residence of the individual or residual entity concerned.

(i) **Offshore Fund Taxation**

While a holding of a Currency-Hedged Commodity Security could potentially be treated as a material interest in an offshore fund and subject to the more onerous tax provisions applicable to offshore funds the Irish Revenue Commissioners have indicated to ETFSL that exchange traded commodity linked securities in the nature of the Currency-Hedged Commodity Security should not be so treated.

As recommended above, Security Holders should obtain independent tax advice in relation to the tax implications of holding and disposing of Currency-Hedged Commodity Securities.

14. Taxation in Italy

(a) **General**

The information set out below is a summary of certain limited aspects of the Italian tax consequences of the acquisition, ownership and disposition of Currency-Hedged Commodity Securities by a Security Holder and it does not purport to be a comprehensive description of all the tax aspects that may be relevant to a decision to purchase Currency-Hedged Commodity Securities.

This summary does not describe any tax consequences arising under the laws of any state, locality or taxing jurisdiction other than Italy.

This summary is based on the tax laws of Italy as in effect on the date of this Prospectus, as well as regulations, rulings and decisions of its taxing and other authorities available on or before such date and now in effect. All of the foregoing is subject to change, which could apply retroactively and could affect the continued validity of this summary.

Because it is a general summary, holders of Currency-Hedged Commodity Securities should consult their own tax advisors as to the Italian or other tax consequences of the purchase, holding and disposition of Currency-Hedged Commodity Securities including, in particular, the application to their specific situations of the tax issues discussed below, as well as the application of state, local, foreign or other tax laws.

This summary assumes that the Issuer is not a tax resident nor deemed to be a tax resident of Italy.

(b) **Tax on income and capital gains**

Provided the Currency-Hedged Commodity Securities qualify broadly as derivative instruments for the purposes of Italian tax law, which they are expected to do, then the following consequences apply to a Security Holder who is not an Authorised Participant in respect of the periodic measurement of Currency-Hedged Commodity Securities and/or in relation to the net proceeds received from a redemption or sale of the Currency-Hedged Commodity Securities over the sum paid by such a holder on their subscription or purchase:

- (i) proceeds from the sale or redemption of the Currency-Hedged Commodity Securities received by a Security Holder which is (a) an Italian resident corporation or similar commercial entity, (b) an Italian individual engaged in entrepreneurial activities to which the Currency-Hedged Commodity Securities are effectively connected, or (c) a permanent establishment in Italy of a non-Italian resident to which the Currency-Hedged Commodity Securities are effectively connected, as well as unrealised gains reported in the statutory financial statements, may have to be included in the relevant holder's taxable income and

are therefore subject to the general Italian corporate tax regime (corporate income tax, IRES is currently applicable at a rate of 27.5 per cent.), or to personal income taxation (as business income), as the case may be, according to the ordinary rates. In certain cases, depending on the status of the security holder, such proceeds may also have to be included in its taxable base for regional income tax purposes on productive activities (*IRAP*, currently applicable at a rate of 3.9 per cent.; the *IRAP* rate may be increased in certain Italian regions also in accordance with the provisions of Law Decree No. 93 of 27 May 2008, which has been converted into Law No. 126 of 24 July 2008; the *IRAP* rate has also been increased to 4.65 per cent. and 5.9 per cent. by article 23(5) of Law Decree no. 98 of 6 July 2011 for the categories of companies indicated, respectively, under article 6 and article 7 of Legislative Decree no. 446 of 15 December 1997);

- (ii) according to article 5 of Legislative Decree No. 461 of 21 November 1997, capital gains realised by Italian resident individuals, not engaged in entrepreneurial activities to which the Currency-Hedged Commodity Securities are effectively connected, and by certain other non commercial entities upon the sale for consideration or redemption of the Currency-Hedged Commodity Securities are subject to a substitute tax (*imposta sostitutiva*) currently at the rate of 20 per cent.. Under the tax return regime (*regime della dichiarazione*), which is the standard regime for taxation of capital gains realised by Italian resident individuals not engaged in an entrepreneurial activity, *imposta sostitutiva* on capital gains is applicable, on a cumulative basis on all capital gains net of any incurred capital loss, realised in a fiscal year pursuant to all disposals of Currency-Hedged Commodity Securities and other financial instruments triggering a capital gain that is subject to the same tax regime, carried out during any given fiscal year. These individuals and non commercial entities must report the overall capital gains realised in any tax year, net of any relevant incurred capital loss, in the annual income tax return to be filed with the Italian tax authorities for such year and pay *imposta sostitutiva* on such gains. Capital losses in excess of capital gains may be carried forward against capital gains realised in any of the four succeeding tax years;
- (iii) as an alternative to the tax return regime, according to article 6 of Legislative Decree No. 461 of 21 November 1997, Italian resident individuals not engaged in entrepreneurial activities to which the Currency-Hedged Commodity Securities are effectively connected and certain other non commercial entities may elect to pay the *imposta sostitutiva* separately on the capital gains realised upon each sale or redemption of the Currency-Hedged Commodity Securities (under a so called *Risparmio Amministrato* regime, which is managed through the provision of non discretionary asset management services to a taxpayer). Such separate taxation of each capital gain is allowed subject to: (a) the Currency-Hedged Commodity Securities being deposited with an Italian bank, a *Società di Intermediazione Mobiliare* (SIM) or with certain authorised financial intermediaries; (b) each relevant capital gain being realised through such intermediary; and (c) an express election for the *Risparmio Amministrato* regime being timely made in writing by the relevant Currency-Hedged Commodity Securities holder. The financial intermediary, also on the basis of the information provided by the taxpayer, accounts for *imposta sostitutiva* in respect of capital gains realised on each sale or redemption of Currency-Hedged Commodity Securities (as well as in respect of capital gains realised at revocation of its mandate and upon other specific circumstances which are deemed to trigger an assignment under this regime), net of any incurred capital loss, and is required to pay the relevant amount of tax to the Italian fiscal authorities on behalf of the taxpayer, deducting a corresponding amount from proceeds to be credited to the Currency-Hedged Commodity Securities holder. Under the *Risparmio Amministrato* regime, where a sale or redemption of Currency-Hedged Commodity Securities results in a capital loss, such loss may be used to reduce the subsequent capital gains realised in the same tax year and up to the following fourth. All gains that have been subject to the *Risparmio Amministrato* regime do not have to be included in the yearly income tax return of the holder of Currency-Hedged Commodity Securities;
- (iv) also as an alternative to the tax return regime, according to article 7 of Legislative Decree No. 461 of 21 November 1997, the increase or decrease in the fair market value of the Currency-Hedged Commodity Securities, as well as the gains or losses realised upon the

sale for consideration or redemption of the same securities by Italian resident individuals not engaged in entrepreneurial activities to which the Currency-Hedged Commodity Securities are effectively connected, and by certain other non commercial entities, who have elected for the so called *Risparmio Gestito* regime (namely, a regime managed by an intermediary providing discretionary management services), will be included in the computation of the annual increase in value of the managed assets accrued, even if not realised, at year end which is subject to a 20 per cent. *imposta sostitutiva*, applied directly by the authorised asset manager. Under the *Risparmio Gestito* regime, any depreciation of the managed assets accrued at year end may be carried forward and deducted against a future increase in value of the managed assets in the four succeeding years. All gains that have been subject to the *Risparmio Gestito* regime do not have to be included in the yearly income tax return of the holder of Currency-Hedged Commodity Securities;

- (v) the increase or decrease in the fair market value of the Currency-Hedged Commodity Securities, as well as the gains or losses realised upon the sale for consideration or redemption of the same securities by Italian resident collective investment funds and hedge funds, with the exception of Italian real estate investment funds, are not subject to taxation at the fund's level;
- (vi) the increase or decrease in the fair market value of the Currency-Hedged Commodity Securities, as well as the gains or losses realised upon the sale for consideration or redemption of the same securities by Italian resident pension funds (subject to the regime provided for by articles 14, 14-ter and 14-quarter, paragraph 1, of Legislative Decree 21 April 1993, no.124 as further substituted by Legislative Decree no. 252 of 5 December 2005) are included in the determination of the yearly NAV accrued appreciation or depreciation of the assets under management that is subject to a substitute tax (*imposta sostitutiva*) currently at a rate of 11 per cent.; and
- (vii) non-Italian resident Security Holders without a permanent establishment in Italy to which the Currency-Hedged Commodity Securities are effectively connected are not subject to income tax in Italy on the proceeds realised on the sale of the Currency-Hedged Commodity Securities, provided that:
 - the Currency-Hedged Commodity Securities have been deposited in Italy and are traded on a regulated market; or
 - the Currency-Hedged Commodity Securities have been deposited in Italy but are not traded on a regulated market and the beneficial owner of proceeds from the relevant Currency-Hedged Commodity Securities (i) complies with certain filing requirements; and (ii) is a resident of a country which is included in the list of jurisdictions allowing exchange of information with the Italian tax authorities as provided under Ministerial Decree of 4 September 1996 or, starting from the tax period following to the one of enactment of a specific Ministerial Decree to be issued under article 168-bis(1) of Presidential Decree no. 917 of 1986 (Italian Income Tax Code), will be included in the new list of qualifying jurisdictions as specified by the Decree to be enacted; or
 - the Currency-Hedged Commodity Securities have not been deposited in Italy.

The tax treatment of the Currency-Hedged Commodity Securities described above has been confirmed by the Italian tax authority decision No. 72/E of 12 July 2010 dealing with the Italian tax treatment of the investment in secured exchange commodities ("**ETC**"). Nevertheless, should the Italian tax authority and/or tax courts take the view that, regardless of the previous position taken by the Italian tax authority in its decision No. 72/E quoted, the Currency-Hedged Commodity Securities are to be characterised as debt instruments representing so-called "atypical securities" pursuant to Article 8 of Law Decree no. 512 of 30 September 1983, interest and other proceeds deriving from "atypical securities" issued by non-Italian resident issuers will be subject to a 20 per cent. withholding tax applied by the Italian resident intermediary intervening in the payment save where held by a commercial partnership, a commercial private and public institution resident in Italy for tax purposes or by an Italian permanent establishment of a non-Italian resident entity. Instead these entities must include the proceeds in their taxable business income, under the same terms as described under paragraph (b)(i) above.

(c) **Inheritance and Gift Taxes**

Law no. 286 of 24 November 2006, which has converted into law, with amendments, Law Decree no. 262 of 3 October 2006, has introduced inheritance and gift tax to be paid on the transfer of assets (such as the Currency-Hedged Commodity Securities) and rights by reason of death or gift.

As regards the inheritance and gift tax to be paid on the transfer of the Currency-Hedged Commodity Securities by reason of death or gift, the following rates apply:

- (i) transfers in favour of spouses and direct descendants or direct relatives are subject to an inheritance and gift tax of 4 per cent. on the value of the inheritance or the gift exceeding €1,000,000.00 for each beneficiary;
- (ii) transfers in favour of brothers and sisters are subject to an inheritance and gift tax of 6 per cent. on the value of the inheritance or the gift exceeding €100,000.00 for each beneficiary;
- (iii) transfers in favour of relatives up to the fourth degree or relatives-in-law to the third degree, are subject to a registration tax of 6 per cent. on the entire value of the inheritance or the gift;
- (iv) any other transfer is subject to an inheritance and gift tax of 8 per cent. on the entire value of the inheritance or the gift;
- (v) transfers in favour of seriously disabled persons are subject to an inheritance and gift tax at the relevant rate as described above on the value of the inheritance or the gift exceeding €1,500,000.00 for each beneficiary.

Moreover, an anti-avoidance rule is provided by Law No. 383 of 18 October 2001 for any gift of assets (such as the Currency-Hedged Commodity Securities) which, if sold for consideration, would give rise to capital gains subject to the *imposta sostitutiva* provided for by Legislative Decree No. 461 of 21 November 1997. In particular, if the donee sells the Currency-Hedged Commodity Securities for consideration within five years from the receipt thereof as a gift, the donee is required to pay the relevant *imposta sostitutiva* on capital gains as if the gift had never taken place.

(d) **Value Added Tax**

No Italian Value Added Tax will be payable by a holder of Currency-Hedged Commodity Securities in consideration for the issue or transfer of Currency-Hedged Commodity Securities.

(e) **Securities Transfer Tax**

According to Article 37 of Law Decree No. 248 of 31 December 2007, as converted with amendments into Law No. 31 of 28 February 2008, the transfer of the Currency-Hedged Commodity Securities is not subject to Italian transfer tax.

(f) **Stamp duty**

Pursuant to Article 19(1) of Decree No. 201 of 6 December 2011 ("Decree 201"), a proportional stamp duty applies on an annual basis to the periodic reporting communications sent by financial intermediaries to their clients for the Currency-Hedged Commodity Securities deposited therewith. The stamp duty applies at the current rate of 0.15 per cent.; this stamp duty is determined on the basis of the market value or — if no market value figure is available — the nominal value or redemption amount of the Currency-Hedged Commodity Securities held. The stamp duty can be no lower than €34.20.

(g) **Wealth Tax on securities deposited abroad**

Pursuant to Article 19(18) of Decree 201, Italian resident individuals holding the Currency-Hedged Commodity Securities outside the Italian territory are required to pay an additional tax at the current rate of 0.15 per cent.

This tax is calculated on the market value of the Currency-Hedged Commodity Securities at the end of the relevant year or — if no market value figure is available — the nominal value or the redemption value of such financial assets held outside the Italian territory. Taxpayers are entitled to an Italian tax credit equivalent to the amount of wealth taxes paid in the State where the financial assets are held (up to an amount equal to the Italian wealth tax due).

(h) **The European Savings Directive**

The EU Savings Directive (the “**Directive**”) came into force on 1 July 2005. The Directive applies, amongst other matters, to payments of interest on debt claims of every kind made by a paying agent in an EU Member State for the benefit of individual investors resident in the EU. In circumstances where the Directive applies, such a paying agent would be under an obligation to provide information to the tax authorities of the EU Member States in which individual investors reside. A paying agent for these purposes is any economic operator who pays interest to, or secures interest for the beneficial owner, and could in relation to Currency-Hedged Commodity Securities include an Italian broker effecting the sale of Currency-Hedged Commodity Securities.

Currency-Hedged Commodity Securities are undated secured limited recourse debt obligations of the Issuer. However, as no return in respect of Currency-Hedged Commodity Securities (whether in the form of cash on redemption, or as a result of trading on the ETFplus market of *Borsa Italiana S.p.A.* or any other stock exchange) should constitute a payment of interest for the purposes of the Directive, it is not envisaged that holders or their paying agents will be within the scope of the Directive.

15. Netherlands Taxation

(a) **General**

The information set out below is a summary of certain material Dutch tax consequences of the acquisition, ownership and disposition of Currency-Hedged Commodity Securities and it does not purport to be a comprehensive description of all the tax considerations that may be relevant to a decision to purchase Currency-Hedged Commodity Securities. This summary does not describe any tax consequences arising under the laws of any state, locality or taxing jurisdiction other than The Netherlands.

This summary is based on the tax laws of The Netherlands as in effect on the date of this Prospectus, as well as regulations, rulings and decisions of The Netherlands or of its taxing and other authorities available on or before such date and now in effect, and as applied and interpreted by Netherlands courts, without prejudice to any amendments introduced at a later date and implemented with or without retroactive effect. All references in the summary to The Netherlands and Netherlands law are only to the European part of the Kingdom of the Netherlands and its law, respectively. All of the foregoing is subject to change, which change could apply retroactively and could affect the continued validity of this summary.

Because it is a general summary, prospective holders of Currency-Hedged Commodity Securities should consult their own tax advisors as to the Dutch or other tax consequences of the purchase, holding and disposition of Currency-Hedged Commodity Securities including, in particular, the application to their particular situations of the tax considerations discussed below, as well as the application of state, local, foreign or other tax laws.

The Issuer believes that it is not a resident nor that it is deemed to be a resident of The Netherlands nor that it has a presence in the Netherlands for Netherlands tax purposes, and the following summary assumes that the Issuer is not, nor will be treated as a resident or deemed resident of The Netherlands nor that it is, or will be treated as having a presence in The Netherlands for Netherlands tax purposes.

(b) **Withholding tax**

Payments of the Issuer with regard to the Currency-Hedged Commodity Securities will be free from withholding or deduction for any taxes of whatsoever nature imposed, levied, withheld or assessed by The Netherlands or any political subdivision or taxing authority thereof or therein.

(c) **Tax on income and capital gains**

General

The description of taxation set out in this section of this Prospectus is not intended for any holder of Currency-Hedged Commodity Securities, who:

- (i) is an individual and for whom the income or capital gains derived from Currency-Hedged Commodity Securities are attributable to employment activities the income from which is taxable in The Netherlands;
- (ii) is an entity that is a resident or deemed to be a resident of The Netherlands and that is, in whole or in part, not subject to or exempt from Netherlands corporate income tax;
- (iii) is a fiscal investment institution (*fiscale beleggingsinstelling*) or an exempt investment institution (*vrijgestelde beleggingsinstelling*) as defined in Articles 6a and 28 respectively of the Netherlands Corporate Income Tax Act 1969 (*Wet op de vennootschapsbelasting 1969*); or
- (iv) has, directly or indirectly, a substantial interest (*aanmerkelijk belang*) or a deemed substantial interest as defined in the Netherlands Income Tax Act 2001 (*Wet inkomstenbelasting 2001*) in the Issuer.

Residents of The Netherlands

Individuals

An individual who is resident or deemed to be resident in The Netherlands, or who opts to be taxed as a resident of The Netherlands for purposes of Dutch taxation (a “**Dutch Resident Individual**”) and who holds Currency-Hedged Commodity Securities is subject to Netherlands income tax on income and/or capital gains derived from Currency-Hedged Commodity Securities at progressive rates (up to the 52 per cent. rate for 2013) if:

- (i) the holder derives profits from an enterprise or deemed enterprise, whether as an entrepreneur (*ondernemer*) or pursuant to a co-entitlement to the net worth of such enterprise (other than as an entrepreneur or a shareholder), to which enterprise the Currency-Hedged Commodity Securities are attributable; or
- (ii) the holder derives income or capital gains from Currency-Hedged Commodity Securities that are taxable as benefits from “miscellaneous activities” (*resultaat uit overige werkzaamheden*, as defined in the Netherlands Income Tax Act 2001), which include the performance of activities with respect to the Currency-Hedged Commodity Securities that exceed regular, active portfolio management (*normaal, actief vermogensbeheer*).

If conditions (i) and (ii) mentioned above do not apply, any holder of Currency-Hedged Commodity Securities who is a Dutch Resident Individual will be subject to Netherlands income tax on a deemed return regardless of the actual income and/or capital gains derived from Currency-Hedged Commodity Securities. This deemed return has been fixed at a rate of 4 per cent. of the individual's yield basis (*rendementsgrondslag*) insofar as this exceeds a certain threshold (*heffingvrij vermogen*). The individual's yield basis is determined as the fair market value of certain qualifying assets (including, as the case may be, the Currency-Hedged Commodity Securities) held by the Dutch Resident Individual less the fair market value of certain qualifying liabilities, both determined on 1 January of the relevant year. The deemed return of 4 per cent. will be taxed at a rate of 30 per cent. (rate for 2013).

Entities

An entity that is resident or deemed to be resident in The Netherlands (a “**Dutch Resident Entity**”) will generally be subject to Netherlands corporate income tax with respect to income and capital gains derived from Currency-Hedged Commodity Securities. The Netherlands corporate income tax rate is 20 per cent. for the first €200,000 of the taxable amount, and 25 per cent. for the excess of the taxable amount over €200,000 (rates applicable for 2013).

Non-residents of The Netherlands

A person who is neither a Dutch Resident Individual nor Dutch Resident Entity (a “**Non-Dutch Resident**”) and who holds Currency-Hedged Commodity Securities is generally not subject to Netherlands income tax or corporate income tax on income and capital gains derived from Currency-Hedged Commodity Securities, provided that:

- (i) such Non-Dutch Resident does not derive profits from an enterprise or deemed enterprise, whether as an entrepreneur (*ondernemer*) or pursuant to a co-entitlement to the net worth of such enterprise (other than as an entrepreneur or a shareholder) which enterprise is, in whole or in part, carried on through a permanent establishment or a permanent representative in The Netherlands and to which enterprise or part of an enterprise, as the case may be, Currency-Hedged Commodity Securities are attributable or deemed attributable;
- (ii) in the case of a Non-Dutch Resident who is an individual, such individual does not derive income or capital gains from Currency-Hedged Commodity Securities that are taxable as benefits from “miscellaneous activities” performed or deemed to be performed in The Netherlands (*resultaat uit overige werkzaamheden in Nederland*, as defined in the Netherlands Income Tax Act 2001), which include the performance of activities with respect to the Currency-Hedged Commodity Securities that exceed regular, active portfolio management (*normaal, actief vermogensbeheer*);
- (iii) in the case of a Non-Dutch Resident who is not an individual, such Non-Dutch Resident is neither entitled to a share in the profits of an enterprise effectively managed in The Netherlands nor co-entitled to the net worth of such enterprise, other than by way of the holding of securities, to which enterprise the Currency-Hedged Commodity Securities or payments in respect of Currency-Hedged Commodity Securities are attributable; and
- (iv) in the case of a Non-Dutch Resident who is an individual, such individual is not entitled to a share in the profits of an enterprise effectively managed in The Netherlands, other than by way of the holding of securities or through an employment contract, to which enterprise the Currency-Hedged Commodity Securities or payments in respect of Currency-Hedged Commodity Securities are attributable.

A Non-Dutch Resident that falls under any of the exclusions (i) through (iii) mentioned above, may be subject to Netherlands income tax or Netherlands corporate income tax on income and capital gains derived from Currency-Hedged Commodity Securities. In case such holder of a Currency-Hedged Commodity Security is considered to be a resident of Aruba, Curaçao or St. Maarten under the provisions of the Tax Arrangement for the Kingdom of the Netherlands (*Belastingregeling voor het Koninkrijk*), is considered to be a resident of Bonaire, St. Eustatius and Saba under the provisions of the Tax Arrangement for the country of the Netherlands (*Belastingregeling voor het land Nederland*) or; is considered to be a resident of a country other than the Netherlands under the provisions of a double taxation convention the Netherlands has concluded with such country, the following may apply. Such holder of a Currency-Hedged Commodity Security may, depending on the terms of and subject to compliance with the procedures for claiming benefits under the Tax Arrangement for the Kingdom of the Netherlands under the Tax Arrangement for the country of the Netherlands or under such double taxation convention, be eligible for a full or partial exemption from or reduction of Netherlands taxes (if any) on (deemed) income or capital gains in respect of a Currency-Hedged Commodity Security, provided such holder is entitled to the benefits of the Tax Arrangement for the Kingdom of the Netherlands, the Tax Arrangement for the Country of or such double taxation convention.

(d) **Gift or inheritance tax**

No Netherlands gift or inheritance taxes will be levied on the transfer of Currency-Hedged Commodity Securities by way of gift by or on the death of a holder, who is neither a resident nor deemed to be a resident of The Netherlands for the purpose of the relevant provisions, unless:

- (i) the transfer is construed as an inheritance or bequest or as a gift made by or on behalf of a person who, at the time of the gift or death, is or is deemed to be a resident of The Netherlands for the purpose of the relevant provisions;

- (ii) such holder dies while being a resident or deemed resident of the Netherlands within 180 days after the date of a gift of Currency-Hedged Commodity Securities; or
- (iii) the gift is made under a condition precedent and such holder is deemed to be a resident of the Netherlands at the time the condition is fulfilled.

For purposes of Netherlands gift and inheritance tax, an individual who is of Dutch nationality will be deemed to be a resident of The Netherlands if he has been a resident in The Netherlands at any time during the ten years preceding the date of the gift or his death.

For purposes of Netherlands gift tax, an individual will, irrespective of his nationality, be deemed to be resident of The Netherlands if he has been a resident in The Netherlands at any time during the 12 months preceding the date of the gift.

(e) **Value added tax**

No Netherlands value added tax will be payable by a holder of Currency-Hedged Commodity Securities in consideration for the issue of Currency-Hedged Commodity Securities (other than value added taxes on fees payable in respect of services not exempt from Netherlands value added tax).

(f) **Other taxes or duties**

No Netherlands registration tax, custom duty, transfer tax, stamp duty or any other similar tax or duty, other than court fees, will be payable in The Netherlands by a holder of Currency-Hedged Commodity Securities in respect of or in connection with the acquisition, ownership and disposition of the Currency-Hedged Commodity Securities.

(g) **The European Savings Directive**

The EU Council Directive 2003/48/EC on the taxation of savings income (the “**Directive**”) applies, amongst other matters, to payments of interest or other income on debt claims of every kind made by a paying agent in an EU Member State for the benefit of individual investors resident in another EU Member State. In circumstances where the Directive applies, a paying agent would be under an obligation to provide information to the tax authorities of the EU Member States in which individual investors reside. However, for a transitional period, Belgium, Luxembourg and Austria are instead required (unless during that period they elect otherwise) to operate a withholding system in relation to such payments (the ending of such transitional period being dependent upon the conclusion of certain other agreements relating to information exchange with certain other countries and territories). The Belgian Government has elected to end the transitional period applicable to Belgium and therefore operates the information exchange regime with effect from 1 January 2010. A paying agent for these purposes is any economic operator who pays interest or other similar income to, or secures interest or, other similar income for, the beneficial owner, and could in relation to Currency-Hedged Commodity Securities include a Dutch broker effecting the sale of Currency-Hedged Commodity Securities. A number of non-EU countries and territories including Switzerland have agreed to adopt similar measures.

On 15 September 2008 the European Commission issued a report to the Council of the European Union on the operation of the Directive, which included the Commission’s advice on the need for changes to the Directive. On 13 November 2008 the European Commission published a more detailed proposal for amendments to the Directive, which included a number of suggested changes. If any of those proposed changes are made in relation to the Directive, they may amend or broaden the scope of the requirements described above.

16. **Taxation in Norway**

(a) **General**

The following summary of certain tax issues that may arise as a result of holding Currency-Hedged Commodity Securities is based on the Norwegian tax legislation in force as of the date of this Supplementary Prospectus and is intended only as general information for holders of

securities who are resident or domiciled in Norway for tax purposes. The summary does not purport to cover all aspects of Norwegian law that may be of relevance for the Norwegian holders of Currency-Hedged Commodity Securities, nor does it cover the specific rules where Currency-Hedged Commodity Securities are held by a partnership or are held as current assets in a business operation. Special tax consequences that are not described below also may apply for certain categories of taxpayers, including investment companies, mutual funds and persons who are not resident or domiciled in Norway. Furthermore, Norwegian tax legislation may to some extent be amended with retroactive effect. It is recommended that prospective applicants for Currency-Hedged Commodity Securities consult their own tax advisors for information with respect to the special tax consequences that may arise as a result of holding Currency-Hedged Commodity Securities, including the applicability and effect of foreign income tax rules, provisions contained in double taxation treaties and other rules which may be applicable.

(b) Taxation on realisation

Holders of Currency-Hedged Commodity Securities who are Norwegian resident corporations or individuals, and who sell or redeem their Currency-Hedged Commodity Securities are subject to capital gains taxation in Norway. Correspondingly, losses may be deducted. The tax liability applies irrespective of how long the Currency-Hedged Commodity Securities have been owned and the number of Currency-Hedged Commodity Securities realised or redeemed. Gains are taxable as general income in the year of realisation, and losses can be deducted from income from other sources in the year of realisation. The tax rate of general income is currently 28 per cent. The capital gain or loss is calculated per Currency-Hedged Commodity Security and equals the remuneration received in respect of the Currency-Hedged Commodity Security less the purchase price and acquisition and realisation costs for the Currency-Hedged Commodity Security. Income taxes or capital gains taxes payable in other jurisdictions, by Norwegian Security Holders, or withholding tax payable on redemption amounts in respect of the Currency-Hedged Commodity Securities, may be deductible against Norwegian tax payable on the same income. The deduction is limited, however, to the corresponding amount of Norwegian tax applicable. The right for both Norwegian and other jurisdictions to tax Security Holders directly or through the application of withholding taxes may be limited by applicable tax treaty.

(c) Withholding tax

No deduction or withholding for or on account of Norwegian tax is required to be made on payments from the Issuer to the Security Holders on Redemption of Currency-Hedged Commodity Securities.

(d) Net Wealth Tax

Corporate holders are not subject to net wealth taxation in Norway. Individual holders are subject to net wealth taxation in Norway. For any year, the value of the Currency-Hedged Commodity Securities on 1 January in the next year will form part of the taxable base of a holder for the purpose of the net wealth taxation. The maximum aggregated rate of net wealth tax is currently 1.1 per cent.

(e) Stamp duty

There is currently no stamp duty or other charges in Norway on the purchase, sale or realisation of Currency-Hedged Commodity Securities.

(f) Inheritance tax

When Currency-Hedged Commodity Securities are transferred either through inheritance or as a gift, such transfer may give rise to inheritance or gift tax in Norway if the decedent, at the time of death, or the donor, at the time of the gift, is a resident or citizen of Norway, or if the Currency-Hedged Commodity Securities are effectively connected with a business carried out through a permanent establishment in Norway.

- (g) **VAT**
Transactions regarding Currency-Hedged Commodity Securities are exempt from Norwegian value added tax.

17. Taxation in Portugal

(a) General

The following is a summary of the material Portuguese tax issues applicable to the acquisition, holding and disposition of Currency-Hedged Commodity Securities by investors residing for tax purposes in or outside of Portugal pursuant to an offer of the Currency-Hedged Commodity Securities in Portugal.

The Currency-Hedged Commodity Securities are not expressly dealt with in the Portuguese legislation and no express opinion has been issued by the Portuguese tax authorities or courts as to their status for tax purposes.

The Currency-Hedged Commodity Securities should be considered zero-coupon secured debt securities for the purposes of Personal Income Tax ("**PIT**") and Corporate Income Tax ("**CIT**").

However, the Portuguese tax authorities and courts may adopt a different approach and there is no guarantee that the courts or tax authorities will adopt the position described above (for instance, the legal qualification as derivative financial instruments) and this could lead to the application of a tax treatment significantly diverse from that described herein.

This information is of a general nature and does not purport to be a comprehensive description of all Portuguese tax considerations that may be relevant to a decision to acquire, to hold and to dispose of the Currency-Hedged Commodity Securities. Holders of and prospective investors in Currency-Hedged Commodity Securities should consult their own tax advisors as to the Portuguese and any other tax consequences that may be involved in acquiring, holding, redeeming, selling or gratuitously transferring the Currency-Hedged Commodity Securities. Only a tax advisor is able to adequately assess the individual tax situation of a specific investor.

Finally, the tax rules may be amended in the future and the interpretation of the tax rules may change.

(b) Taxation of capital gains arising from the disposal of Currency-Hedged Commodity Securities

Capital gains obtained by Portuguese resident individuals

Capital gains obtained on the disposal of the Currency-Hedged Commodity Securities, by individuals resident for tax purposes in Portugal, are currently subject to tax at a special 28 per cent. rate levied on the positive difference between the capital gains and capital losses of each year, unless an individual chooses to aggregate such capital gains to their taxable income and then be subject to the general progressive PIT rates of up to 48 per cent.

Capital gains obtained by Portuguese corporate entities

Capital gains obtained on the disposal of the Currency-Hedged Commodity Securities, by corporate entities resident for tax purposes in Portugal and by non-Portuguese resident corporate entities with a permanent establishment therein to which the gains are attributable, are included in their taxable income and subject to a 25 per cent. corporate income tax rate, to which may be added a municipal surcharge (*derrama municipal*) of up to 1.5 per cent. of its taxable income as well as a state surcharge, if taxable income exceeds €1,500,000, which is levied over the part of the taxable income exceeding such amount up to €7,500,000, at a 3 per cent. rate or 5 per cent. rate if the taxable income is higher than €7,500,000 (*derrama estadual*).

Capital gains obtained by Non-Portuguese residents

Capital gains obtained on the disposal of Currency-Hedged Commodity Securities by individuals and corporate entities not resident for tax purposes in Portugal and without a permanent establishment therein to which the gains are attributable are not subject to taxation in Portugal.

(c) **Gratuitous Transfers of Currency-Hedged Commodity Securities**

Gratuitous transfers of the Currency-Hedged Commodity Securities to Portuguese resident individuals would not be liable to Portuguese Stamp Duty, as they fall outside the territorial scope of such tax (i.e., no connection with the Portuguese territory exists as the debtor of the patrimonial or credit rights has its domicile, head office, place of effective management or permanent establishment outside the Portuguese territory).

Gratuitous transfers of the Currency-Hedged Commodity Securities in favour of Portuguese corporate entities (or non-Portuguese corporate entities with a permanent establishment located in Portugal to which such transfer is attributable) shall qualify as patrimonial increases, which would be included in their taxable income and subject to a 25 per cent. corporate income tax rate, to which may be added a municipal surcharge (*derrama municipal*) of up to 1.5 per cent. of its taxable income as well as a state surcharge, if taxable income exceeds €1,500,000, which is levied over the part of the taxable income exceeding such amount up to €7,500,000, at a 3 per cent. rate or 5 per cent. rate if the taxable income is higher than €7,500,000 (*derrama estadual*). These patrimonial increases deriving from the gratuitous acquisition of the Currency-Hedged Commodity Securities shall be assessed at the market price of the Currency-Hedged Commodity Securities.

Gratuitous transfer of the Currency-Hedged Commodity Securities, obtained by non-Portuguese investors would not be subject to taxation in Portugal.

(d) **The European Savings Directive**

Under EC Council Directive 2003/48/EC on the taxation of savings income, Portugal is required, from 1 July 2005, to provide to the tax authorities of another Member State details of payments of interest (or similar income) paid by a person within its jurisdiction to an individual resident in that other Member State. However, for a transitional period, Luxembourg and Austria are instead required (unless during that period they elect otherwise) to operate a withholding system in relation to such payments (the ending of such transitional period being dependent upon the conclusion of certain other agreements relating to information exchange with certain other countries). A number of non-EU countries and certain dependent or associated territories of certain Member States have agreed to adopt similar measures (either provision of information or transitional withholding) in relation to payments made by a person within its jurisdiction to, or collected by such a person for, an individual resident in a Member State (Switzerland adopts such a withholding system). In addition, certain Member States have entered into arrangements for reciprocal provision of information and/or transitional withholding arrangements with certain of those dependent or associated territories in relation to payments made by a person in a Member State to, or collected by such a person for, an individual resident in one of those territories.

For these purposes, a paying agent is any economic operator who pays interest or other similar income to the beneficial owner and could in relation to Currency-Hedged Commodity Securities include a Portuguese broker or a financial entity that would intervene in the reimbursement or redemption of Currency-Hedged Commodity Securities.

The Currency-Hedged Commodity Securities should not, from a Portuguese point of view, be affected by the obligations foreseen in the Directive and its corresponding transposition into the Portuguese legislation, as no Portuguese paying agent intervenes in this issue.

(e) **Taxation of income arising from the redemption of Currency-Hedged Commodity Securities**

(Only applicable in cases where Security Holders (other than Authorised Participants) are permitted to redeem the Currency-Hedged Commodity Securities directly with the Issuer, e.g., if there are no Authorised Participants)

As a general rule, the economic advantages arising from the Currency-Hedged Commodity Securities are qualified as investment income for Portuguese tax purposes.

Investment income obtained by Portuguese resident individuals

Investment income derived on the Currency-Hedged Commodity Securities paid to a Security Holder considered to be resident in the Portuguese territory for tax purposes (or to a non-Portuguese resident having a permanent establishment in the Portuguese territory to which such income is attributable), is subject to PIT at a special rate of 35 per cent.

Investment income obtained by Portuguese resident corporate entities

Regarding Security Holders that are corporate entities resident in Portuguese territory (or non-residents having a permanent establishment therein to which income is imputable) investment income is included in their taxable income and is subject to a 25 per cent. corporate income tax rate, to which may be added a municipal surcharge (*derrama municipal*) of up to 1.5 per cent. of its taxable income as well as a state surcharge, if taxable income exceeds €1,500,000, which is levied over the part of the taxable income exceeding such amount up to €7,500,000, at a 3 per cent. rate or a 5 per cent. rate if the taxable income is higher than €7,500,000 (*derrama estadual*).

Investment income obtained by non-Portuguese residents

Investment income derived on the Currency-Hedged Commodity Securities paid to Security Holders non-resident for tax purposes in the Portuguese territory and without having a permanent establishment therein would not be subject to Portuguese taxation.

Common rules

Pension funds and some other exempt entities may not be subject to taxation in Portugal, as specified by current Portuguese tax law.

18. Taxation in Spain

(a) General

A brief summary is provided below of the Spanish tax regime applicable to the investments arising in respect of the Currency-Hedged Commodity Securities, for which purpose only current legislation and general factors which may affect investors have been taken into account. No regional legislation which may be of application to a particular investor is considered.

The Currency-Hedged Commodity Securities are not expressly dealt with in Spanish legislation and no express opinion has been issued by the Spanish tax authorities or courts as to their status for tax purposes.

The Issuer believes that the Currency-Hedged Commodity Securities would be considered interest generating debt securities for the purposes of Personal Income Tax and Corporate Income Tax and that the special tax regime applicable to participants in tax haven Collective Investment Institutions should not apply to the Currency-Hedged Commodity Securities.

Nevertheless, the Spanish tax authorities and courts could adopt a different approach, since it is an uncertain matter and there is no guarantee that such courts or tax authorities will adopt the position of the Issuer. A different position from that of the Issuer, if adopted by the tax authorities or courts (including but not limited to the application of the tax regime to participants in tax haven Collective Investment Institutions), could lead to the application of tax treatment radically different from that described herein.

Holders of and potential investors in Currency-Hedged Commodity Securities should consult their own tax advisors as to the Spanish or other tax consequences of the holding and disposition of Currency-Hedged Commodity Securities including, in particular, the application to their particular situation of the tax considerations discussed below, as well as the application of state, local, foreign or other tax laws, taking into account the arising tax uncertainties.

This summary assumes that all Currency-Hedged Commodity Securities issued as at the date of this Prospectus or to be issued will be admitted to trading on the Main Market of the London Stock Exchange which is part of its Regulated Market for listed securities (being securities admitted to the Official List).

The tax regime in Spain applicable to the Currency-Hedged Commodity Securities may change from time to time.

Finally, it should be pointed out that the tax treatment described here is of a general nature and, therefore, among other aspects, does not describe the tax consequences for certain categories of taxpayers including, but not limited to entities falling under the attribution of income regime, financial institutions, Collective Investment Institutions and Cooperatives, which may be subject to specific rules.

(b) **Taxation of income from Currency-Hedged Commodity Securities**

Natural or legal persons resident in Spain

Personal Income Tax: Natural persons

The income obtained by individual holders of the Currency-Hedged Commodity Securities who have the status of taxpayers for the purposes of Spanish Personal Income Tax, due to the purchase, holding and disposition of such Currency-Hedged Commodity Securities, will be considered income from movable capital obtained due to the supply of funds to third parties upon the terms of Article 25.2 of Law 35/2006, of 28 November 2006, on the Personal Income Tax.

Such income would be included in the savings tax base and, in cases of losses, their integration on the savings tax base and their offsetting will be subject to the rules foreseen in that respect in the Personal Income tax legislation.

From 1 January 2012, pursuant to the Royal Decree Law 20/2011 of 30 December 2011 (hereinafter RD 20/2011), for tax periods 2012 and 2013, any income derived from the purchase, holding and disposition of the Currency-Hedged Commodity Securities will be subject to withholding tax of 21 per cent. on account of the Personal Income Tax of the holder in case there is any person or entity obliged to levy said withholding tax in accordance with the general rules of the levying of withholding taxes.

Also by application of RD 20/2011 for the same reason, for tax periods 2012 and 2013, income included in the savings income tax base will be taxed (i) at a 21 per cent. tax rate (applicable to the first €6,000), (ii) at a 25 per cent. tax rate (applicable to the following €18,000), and (iii) at a 27 per cent. tax rate (applicable to the remainder amounts).

From 1 January 2014 and onwards, in principle, the aforementioned withholding tax will be of 19 per cent. and income included in the savings income taxable base will be taxed at 19 per cent. for amounts up to €6,000 and 21 per cent. for amounts including and in excess of €6,000.01.

Corporate Income Tax: Entities

The tax regime for Spanish-resident entities holders of Currency-Hedged Commodity Securities is included in the Royal Legislative Decree 4/2004, of 5 March 2004, that approves the Revised Text of the Corporate Income Tax Law ("**Royal Legislative Decree 4/2004**") and the Royal Decree 1777/2004, of 30 July 2004, that approves the Corporate Income Tax Ruling ("**Royal Decree 1777/2004**").

According to Article 10.3 of the Royal Legislative Decree 4/2004, the taxable income will be calculated in accordance with the accounting treatment of such income by the relevant entity. The tax adjustments to the accounting treatment which may be of application should be taken into account when calculating the taxable base.

The income obtained from the purchase, holding and disposition of the Currency-Hedged Commodity Securities, by entities which are considered taxable persons for Corporate Income Tax purposes will not be subject to withholding tax on account of Corporate Income Tax, in accordance with the provisions of Article 59.s) of Royal Decree 1777/2004.

Natural or legal persons not resident in Spain

The income obtained from the purchase, holding and disposition by holders of Currency-Hedged Commodity Securities who are taxpayers pursuant to the Spanish Non-Residents Income Tax will

be taxed pursuant to the Refunded Text of the Non-Residents Income Tax Law, passed by Royal Legislative Decree 5/2004, of 5 March 2004 ("**Non-Residents Income Tax Law**").

Income obtained through a permanent establishment

The income from the Currency-Hedged Commodity Securities obtained through a permanent establishment in Spain will be taxed in accordance with the rules of Chapter III of the Non-Residents Income Tax Law, subject to the provisions of any relevant double tax treaties.

Such income will not be subject to withholding tax on account of Non-Residents Income Tax upon the same terms set out above for taxable persons under Spanish Corporate Income Tax (entities resident in Spain).

Income obtained without a permanent establishment

The Issuer believes that income realised by investors residing outside Spain and without a permanent establishment within the Spanish territory (individuals and legal entities) would not be considered as Spanish-source income and, therefore, would not be subject to taxation and withholding tax in Spain under the Non-Residents Income Tax Law.

(c) **Value Added Tax**

The general rules foreseen in the Spanish Value Added Tax legislation would apply to the purchase, holding and disposition of the Currency-Hedged Commodity Securities.

(d) **Transfer Tax**

The purchase, holding and disposition of the Currency-Hedged Commodity Securities would not be taxed under the Spanish Transfer Tax.

(e) **Inheritance and Gift Tax**

The transfer of the Currency-Hedged Commodity Securities as a result of an inheritance or gift situation would be subject to the general rules of the Spanish Inheritance and Gift Tax, subject to the application of any relevant double tax treaties.

If the beneficiary of any inheritance or gift were a Spanish legal entity or a non resident entity with a permanent establishment in Spain, income obtained would be subject to taxation under the Spanish Corporate Income Tax or the Non-resident Income Tax, subject to the application of any relevant double tax treaties.

However, in principle, non-Spanish resident individuals and non-Spanish entities without a permanent establishment in Spanish territory would not be subject to the Spanish Inheritance and Gift tax on the acquisition of the Currency-Hedged Commodity Securities.

(f) **Net Wealth Tax**

The ownership of Currency-Hedged Commodity Securities would be subject to the Net Wealth Tax pursuant to the Royal Decree 13/2011, of 16 September 2011 that has restored temporarily for 2011 and 2012 the Spanish Net Wealth Tax regulated by Law 19/1991, of 6 June 1991 ("**Net Wealth Tax Law**"), subject to the application of any relevant double tax treaties. Pursuant to Law 16/2012, 27 December, this restoration has been extended to the year 2013.

Only natural persons holding Currency-Hedged Commodity Securities would be subject to the Net Wealth Tax.

Ownership of Currency-Hedged Commodity Securities by natural persons resident in Spain

Under article 5 of the Net Wealth Tax Law, the relevant taxpayers will be all those natural persons who have their habitual residence in Spain regardless of the place where their assets or rights are located or could be exercised.

Consequently, the ownership of the Currency-Hedged Commodity Securities by individuals resident for tax purposes in Spain will be subject to taxation under the Net Wealth Tax at a progressive rate scale from 0.2 per cent. to 2.5 per cent.

However, it is necessary to take into account that the power to implement the Net Wealth Tax (including certain tax benefits) has been transferred to the Spanish regions. Therefore, an analysis must be made in each specific case to determine to what extent any regional legislation might be applicable, since there might be differences in respect of the final taxation under Net Wealth Tax depending on the region in which an investor resides.

Ownership of Currency-Hedged Commodity Securities by natural persons not resident in Spain
Non-Spanish residents would not be subject to the Net Wealth Tax on the holding of the Currency-Hedged Commodity Securities.

(g) **The European Savings Directive**

EU Council Directive 2003/48/EC on the taxation of savings income (the “**Directive**”) applies, amongst other matters, to payments of interest or other income on debt claims of every kind made by a paying agent in an EU Member State for the benefit of individual investors resident in another Member State in the EU. In circumstances where the Directive applies, such a paying agent would be under an obligation to provide information to the tax authorities of the EU Member States in which individual investors reside (although, for a transitional period, certain countries (not Spain) are instead required (unless during that period they elect otherwise) to operate a withholding system in relation to such payments (the ending of such transitional period being dependent upon the conclusion of certain other agreements relating to information exchange with certain other countries and territories).

A paying agent for these purposes is any economic operator who pays interest or other similar income to, or secures interest or other similar income for, the beneficial owner, and could in relation to Currency-Hedged Commodity Securities include a Spanish broker or financial entity that would intervene in the sale or reimbursement or redemption of Currency-Hedged Commodity Securities. A number of non-EU countries and territories including Switzerland have agreed to adopt similar measures (a withholding system in the case of Switzerland).

The Issuer believes that the Currency-Hedged Commodity Securities are, from a Spanish point of view, affected by the obligations foreseen in the Directive and its corresponding transposition into the Spanish legislation.

19. Taxation in Sweden

(a) **General**

The following summary of certain tax issues that may arise as a result of holding Currency-Hedged Commodity Securities is based on current Swedish tax legislation and is intended only as general information for Security Holders who are resident or domiciled in Sweden for tax purposes. This description does not deal comprehensively with all tax consequences that may occur for Security Holders, nor does it cover the specific rules where Currency-Hedged Commodity Securities are held by a partnership or are held as current assets in a business operation. The description does not cover the special rules which apply if the Currency-Hedged Commodity Securities are held in an investment savings account (*SW. Investeringssparkonto*). Special tax consequences that are not described below may also apply for certain categories of taxpayers, including investment companies, mutual funds and persons who are not resident or domiciled in Sweden. It is recommended that prospective applicants for Currency-Hedged Commodity Securities consult their own tax advisers for information with respect to the special tax consequences that may arise as a result of holding Currency-Hedged Commodity Securities, including the applicability and effect of foreign income tax rules, provisions contained in double taxation treaties and other rules which may be applicable. Moreover, this summary assumes that the Issuer is not a tax resident nor deemed to be a tax resident of Sweden.

(b) **Taxation of individuals resident in Sweden**

Capital gains and losses

Individuals and the estates of deceased Swedish individuals who sell their Currency-Hedged Commodity Securities are subject to capital gains taxation. The current tax rate is 30 per cent. of the gain. The capital gain or loss is equal to the difference between the sales proceeds after deduction of sales costs and the acquisition cost of the Currency-Hedged Commodity Securities. The acquisition cost is calculated according to the so called average method. This means that the costs of acquiring all Currency-Hedged Commodity Securities of the same type and class are added together and calculated collectively, with respect to changes to the holding.

As a general rule, 70 per cent. of a capital loss is deductible against any other taxable income derived from capital. However, if the Currency-Hedged Commodity Securities should be treated as foreign listed receivables, any capital loss will be fully deductible in the capital income category.

Should the total of "income from capital" be negative, a reduction of the tax on income from employment and from business, as well as the tax on real estate, is allowed. The tax reduction allowed amounts to 30 per cent. of any deficit not exceeding SEK 100,000 and 21 per cent. of any deficit in excess of SEK 100,000. Any deficits may not be carried forward to a subsequent fiscal year.

(c) **Taxation of Swedish legal entities**

Capital gains and losses

Limited liability companies and other legal entities, except for the estates of deceased Swedish individuals, are taxed on all income (including income from the sale of Currency-Hedged Commodity Securities) as income from business activities at a flat rate of 22 per cent. For fiscal years started prior to 1 January 2013, a tax rate of 26.3 per cent. applies. Regarding the calculation of a capital gain or loss and the acquisition cost, see "Taxation of individuals resident in Sweden" above.

Capital loss attributable to Currency-Hedged Commodity Securities is fully deductible against any other taxable income from business activities. Capital losses that are not deducted against taxable income within a certain year may normally be carried forward and offset against taxable income the following fiscal year without any limitation in time.

(d) **Withholding tax**

No deduction or withholding for or on account of Swedish tax is required to be made on payments from the Issuer to Security Holders on Redemption of Currency-Hedged Commodity Securities.

(e) **Inheritance and gift taxes**

No Swedish gift or inheritance tax will be levied on the transfer of Currency-Hedged Commodity Securities by way of gift or on the death of a Security Holder.

(f) **Value added tax**

No Swedish value added tax will be payable by a Security Holder in consideration for the issue of Currency-Hedged Commodity Securities.

(g) **Other taxes or duties**

No Swedish registration tax, custom duty, transfer tax, stamp duty or any other similar tax or duty will be payable in Sweden by a holder of a Currency-Hedged Commodity Security.

(h) **The European Savings Directive**

The EU Savings Directive (the "**Directive**") came into force on 1 July 2005. The Directive applies, amongst other matters, to payments of interest on debt claims of every kind made by a paying agent in an EU Member State for the benefit of individual investors resident in the EU.

In circumstances where the Directive applies, such a paying agent would be under an obligation to provide information to the tax authorities of the EU Member States in which individual investors reside. A paying agent for these purposes is any economic operator who pays interest to, or secures interest for the beneficial owner, and could in relation to Currency-Hedged Commodity Securities include a broker effecting the sale of Currency-Hedged Commodity Securities.

Currency-Hedged Commodity Securities are undated secured limited recourse debt obligations of the Issuer. However, as no return in respect of the Currency-Hedged Commodity Securities (whether in the form of cash on redemption, or as a result of trading on the London Stock Exchange or any other stock exchange or market) should constitute a payment of interest for the purposes of the Directive, it is not envisaged that Security Holders or their paying agents will be within the scope of the Directive.

23. Jersey Law Consents

This Prospectus is prepared, and a copy of it has been sent to the Jersey Financial Services Commission, in accordance with the Collective Investment Funds (Certified Funds – Prospectuses) (Jersey) Order 2012.

The Jersey Financial Services Commission does not take any responsibility for the financial soundness of the fund or the correctness of any statements made or expressed in this Prospectus.

The Issuer has obtained a certificate under the Collective Investment Funds (Jersey) Law, 1988, as amended, (the “**CIF Law**”) to enable it to undertake its functions in relation to Currency-Hedged Commodity Securities. The Jersey Financial Services Commission is protected by the CIF Law against liability arising from the discharge of its functions thereunder.

Each of ManJer, R&H Fund Services (Jersey) Limited and the Registrar is registered under the Financial Services (Jersey) Law, 1998, as amended, (the “**Financial Services Law**”) to enable it to undertake its functions in relation to the Currency-Hedged Commodity Securities. The Jersey Financial Services Commission is protected by the Financial Services Law against liability arising from the discharge of its functions thereunder.

It must be distinctly understood that, in giving these consents, neither the Jersey Registrar of Companies nor the Jersey Financial Services Commission takes any responsibility for the financial soundness of the Issuer or for the correctness of any statements made, or opinions expressed, with regard to it.

24. Selling Restrictions

The Currency-Hedged Commodity Securities are not subject to any restrictions on transferability. The following restrictions on offer and sales apply.

(a) United States

The Issuer has imposed the restrictions described below on the Programme so that the Issuer will not be required to register the offer and sale of Currency-Hedged Commodity Securities under the Securities Act, so that the Issuer will not have an obligation to register as an investment company under the Investment Company Act and related rules and to address certain ERISA, U.S. Internal Revenue Code and other considerations. These restrictions, which will remain in effect until the Issuer determines in its sole discretion to remove them, may adversely affect the ability of holders of Currency-Hedged Commodity Securities to trade them.

Currency-Hedged Commodity Securities have not been and will not be registered under the U.S. Securities Act or any other applicable law of the United States. Currency-Hedged Commodity Securities are being offered and sold only outside the United States to non-US Persons in reliance on the exemption from registration provided by Regulation S of the Securities Act.

The Issuer has not been and does not intend to become registered as an investment company under the Investment Company Act and related rules. Currency-Hedged Commodity Securities and any beneficial interest therein may not be reoffered, resold, pledged or otherwise transferred in the United States or to US Persons. If the Issuer determines that any Security Holder is a

Prohibited US Person (being a US Person who is not a “qualified purchaser” as defined in the Investment Company Act), the Issuer may redeem the Currency-Hedged Commodity Securities held by that Security Holder in accordance with the provisions of the Conditions under the heading “Compulsory Redemption by the Issuer or the Trustee” (Condition 8).

The Currency-Hedged Commodity Securities may not be purchased with plan assets of any “employee benefit plan” within the meaning of section 3(3) of the United States Employee Retirement Income Security Act of 1974, as amended (“**ERISA**”), subject to Part 4. Subtitle B of Title I of ERISA, any “plan” to which section 4975 of the United States Internal Revenue Code of 1986, (the “**Code**”) applies (collectively, “**Plans**”), any entity whose underlying assets include “plan assets” of any of the foregoing Plans within the meaning of 29 C.F.R. Section 2510.3-101 or section 3(42) of ERISA, as they may be modified, by reason of a Plan’s investment in such entity, any governmental or church plan that is subject to any U.S. Federal, state or local law that is similar to the prohibited transaction provisions of ERISA or section 4975 of the Code, or any person who holds Currency-Hedged Commodity Securities on behalf of, for the benefit of or with any assets of any such Plan or entity (a “**Prohibited Benefit Plan Investor**”). If the Issuer determines that any Security Holder is a Prohibited Benefit Plan Investor, the Issuer may redeem the Currency-Hedged Commodity Securities held by that Security Holder in accordance with the provisions of the Conditions under the heading “Compulsory Redemption by the Issuer or the Trustee” (Condition 8).

Further restrictions on offers and sales of Currency-Hedged Commodity Securities and on the distribution of this Prospectus are set out in paragraph 3 of Part 11 (*Additional Information*).

25. Consent to use of Prospectus by Financial Intermediaries in certain Member States

The Issuer has consented to the use of this Prospectus, and has accepted responsibility for the content of this Prospectus, with respect to subsequent resale or final placement by way of public offer of the Commodity Securities by any financial intermediary in any of Austria, Denmark, Finland, France, Germany, Ireland, Italy, Portugal, the Netherlands, Norway, Spain, Sweden and the United Kingdom by any financial intermediary which is an investment firm within the meaning of MiFID and which is authorised in accordance with MiFID in any member state. Such consent applies to any such resale or final placement by way of public offer during the period of 12 months from the date of this Prospectus unless such consent is withdrawn prior to that date by notice published on the Issuer’s website.

In the event of an offer being made by a financial intermediary, this financial intermediary will provide information to investors on the terms and conditions of the offer at the time the offer is made. Any financial intermediary using this Prospectus for the purpose of any offering must state on its website that it uses this Prospectus in accordance with the consent given and the conditions attached thereto.

In the event this Prospectus is used with respect to a subsequent resale or final placement by way of public offer of the Commodity Securities by any financial intermediary in any of the Public Offer Jurisdictions identified above, such Commodity Securities may only be sold: (i) in circumstances in which no obligation arises for the Issuer to publish a prospectus pursuant to Article 3 of the Prospectus Directive or supplement a Prospectus pursuant to Article 16 of the Prospective Directive, in each case, in relation to such offer; or (ii) in those Public Offer Jurisdictions identified in the Final Terms, provided such offer is made during the Offer Period specified in the applicable Final Terms.

In the event of a public offer in one or more Public Offer Jurisdictions, the Commodity Securities may be offered and sold to persons in the relevant Public Offer Jurisdiction who are legally eligible to participate in a public offering of such securities in such jurisdiction under applicable laws and regulations.

Sämtliche Zahlungen an den Miteigentümer erfolgen nach Maßgabe der jeweils geltenden Devisenvorschriften in EURO, es sei denn, dass der Miteigentümer rechtzeitig vor Fälligkeit Zahlung in USD (United States Dollars) verlangt hat.

4. Ein etwaiges Stimmrecht anlässlich einer Gläubigerversammlung wird die Clearstream grundsätzlich nicht ausüben. Sie wird dem Miteigentümer oder einem von diesem benannten Dritten auf Verlangen eine Vollmacht zur Ausübung des Stimmrechts erteilen lassen.

Die Gesellschaft hat sich verpflichtet, die Tagesordnung von Gläubigerversammlungen sowie die Voraussetzungen zur Teilnahme an der Gläubigerversammlung und zur Ausübung des Stimmrechts im Vorfeld einer solchen Gläubigerversammlung bekanntzugeben.

5. Sollte die Ausgabe des Inhaber-Sammelzertifikats zu irgendeinem Zeitpunkt in der Bundesrepublik Deutschland oder auf Jersey, Channel Islands, irgendwelchen Steuern, Gebühren oder Abgaben unterliegen, so haben die Miteigentümer diese Steuern, Gebühren oder Abgaben nach Maßgabe ihrer Anteile am Inhaber-Sammelzertifikat zu tragen. Die Clearstream

ist berechtigt, Steuern, Gebühren oder Abgaben, denen sie zu irgendeinem Zeitpunkt in der Bundesrepublik Deutschland oder auf Jersey, Channel Islands, allein auf Grund der Tatsache unterworfen wird, dass sie die Schuldverschreibungen hält, auf alle Miteigentümer nach Maßgabe ihrer Anteile am Inhaber-Sammelzertifikat umzulegen.

6. Treten aus irgendeinem Grunde an die Stelle der Schuldverschreibungen andere Schuldverschreibungen oder ein sonstiger Vermögenswert, so wandelt sich das Recht der Miteigentümer auf die Schuldverschreibungen in ein Recht auf den Ersatzgegenstand. Die Zertifikatsbedingungen gelten dann sinngemäß.
7. Die Clearstream ist berechtigt, die Citibank N.A., London, England, (im Folgenden "Verwahrer" genannt) in ihrer Funktion als Verwahrer oder die Vidacos Nominees Ltd., London, England, (im Folgenden "Nominee" genannt) in ihrer Funktion als Nominee durch eine andere Person zu ersetzen. Die Haftung der Clearstream beschränkt sich hierbei auf die sorgfältige Auswahl. Unberührt bleibt die Befugnis der Clearstream, die Funktion des Verwahrers oder des Nominees selbst wahrzunehmen. Im Fall der Ersetzung des Verwahrers oder des Nominees gelten alle Bezugnahmen auf den Verwahrer bzw. den Nominee in diesen Bedingungen als Bezugnahmen auf den neuen Verwahrer bzw. Nominee.
8. Werden die Schuldverschreibungen in einer die Mitwirkung der Clearstream in dieser Form nicht mehr erfordernden Weise an deutschen Wertpapierbörsen lieferbar oder wird die Zulassung der Schuldverschreibungen in Form von Miteigentumsanteilen a.m. Inhaber- Sammelzertifikat zum Handel und zur amtlichen Notierung an deutschen Wertpapierbörsen zurückgenommen, so wird die Clearstream die Miteigentümer auffordern, ihr einen Auftrag gemäß Ziffer 2. Abs. 1 zu erteilen. Wird dieser Auftrag nicht innerhalb einer Frist von 3 Monaten seit Veröffentlichung der Aufforderung erteilt, so ist die Clearstream nach ihrem Ermessen berechtigt, die Eintragung der Schuldverschreibungen auf den Namen des Miteigentümers oder eines in der Aufforderung benannten Dritten zu veranlassen und die Schuldverschreibungen bei einer in der Aufforderung angegebenen Stelle für den Miteigentümer auf dessen Kosten und Gefahr zu hinterlegen. Damit erlöschen die Pflichten der Clearstream aus dem Inhaber-Sammelzertifikat.
9. Alle das Inhaber-Sammelzertifikat betreffenden Bekanntmachungen werden in mindestens je einem überregionalen Börsenpflichtblatt der deutschen Wertpapierbörsen veröffentlicht werden, an denen die Schuldverschreibungen in Form von Miteigentumsanteilen am Inhaber-Sammelzertifikat gehandelt und amtlich notiert werden.
10. Die Miteigentümer tragen anteilig alle wirtschaftlichen und rechtlichen Nachteile und Schäden, die den für das Inhaber-Sammelzertifikat als Deckung gehaltenen Bestand an Schuldverschreibungen infolge höherer Gewalt, Regierungserlassen, Krieg, Aufruhr, Verfügungen von hoher Hand im In- oder Ausland oder anderer Umstände treffen sollten, die die Clearstream oder der Verwahrer nicht zu vertreten haben.

Die Clearstream wird alle Verpflichtungen aus dem Inhaber-Sammelzertifikat mit der Sorgfalt eines ordentlichen Kaufmannes erfüllen. Wird sie durch höhere Gewalt, Regierungserlasse, Krieg, Aufruhr, Verfügungen von hoher Hand im In- oder Ausland oder andere Umstände, die sie nicht zu vertreten hat, an der Erfüllung ihrer Verpflichtungen gehindert, so trifft sie keine Verantwortung.

Der Verwahrer und der Nominee sind der Clearstream gegenüber zur ordnungsgemäßen Wahrnehmung der ihnen obliegenden Aufgaben verpflichtet.

Etwaige Ansprüche gegen den Verwahrer oder den Nominee wird die Clearstream zugunsten der Miteigentümer geltend machen. Darüber hinaus haftet die Clearstream nur für die sorgfältige Auswahl des Verwahrers und des Nominees.

Der Verwahrer und der Nominee sind der Clearstream gegenüber zur ordnungsgemäßen Wahrnehmung der ihnen obliegenden Aufgaben verpflichtet.

Etwaige Ansprüche gegen den Verwahrer oder den Nominee wird die Clearstream zugunsten der Miteigentümer geltend machen. Darüber hinaus haftet die Clearstream nur für die sorgfältige Auswahl des Verwahrers und des Nominees.

11. Sollte irgendeine dieser Bestimmungen ganz oder teilweise rechtsunwirksam oder undurchführbar sein oder werden, so bleiben die übrigen Bestimmungen hiervon unberührt. Für unwirksame oder undurchführbare Bestimmungen soll eine dem Sinn und Zweck dieses Vertragsverhältnisses entsprechende Regelung gelten.
12. Alle Rechtsbeziehungen zwischen dem Miteigentümer und der Clearstream unterliegen dem Recht der Bundesrepublik Deutschland. Ausschließlicher Gerichtsstand ist Frankfurt am Main.
13. Eine Änderung dieser Zertifikatsbedingungen ist nur zulässig, soweit durch sie die Rechte der Miteigentümer nicht beeinträchtigt werden, es sei denn, dass sie durch gesetzliche Vorschriften bedingt ist.

ANNEX 4

FORM OF FINAL TERMS – PUBLIC OFFERS

Pro Forma Final Terms for an offer of Currency-Hedged Commodity Securities to the public under the Programme for the Issue of Currency-Hedged Commodity Securities

FINAL TERMS

Dated [•] 201[•]

ETFS HEDGED COMMODITY SECURITIES LIMITED

(Incorporated and registered in Jersey under the Companies (Jersey) Law 1991 (as amended) with registered number 109413)

(the “Issuer”)

Programme for the Issue of Currency-Hedged Commodity Securities

Issue of

[number] [class] [Classic/Longer Dated] [Individual/Index] Securities

(the “Currency-Hedged Commodity Securities”)

These Final Terms (as referred to in the base prospectus (the “**Prospectus**”) dated 14 February 2013 in relation to the above Programme) relate to the issue of the Currency-Hedged Commodity Securities referred to above. The Currency-Hedged Commodity Securities have the terms provided for in the trust instrument dated 23 February 2012 as amended and supplemented by trust instruments supplemental thereto between the Issuer and The Law Debenture Trust Corporation p.l.c. as trustee constituting the Currency-Hedged Commodity Securities. Terms used in these Final Terms bear the same meaning as in the Prospectus.

These Final Terms have been prepared for the purpose of Article 5(4) of Directive 2003/71/EC and must be read in conjunction with the Prospectus and any supplement, which are published in accordance with Article 14 of Directive 2003/71/EC on the website of the Issuer <http://www.etfsecurities.com>. In order to get the full information both the Prospectus (and any supplement) and these Final Terms must be read in conjunction. A summary of the individual issue is annexed to these Final Terms.

The Prospectus referred to below (as completed by these Final Terms) has been prepared on the basis that, except as provided in sub-paragraph (ii) below, any offer of Currency-Hedged Commodity Securities in any Member State of the European Economic Area which has implemented the Prospectus Directive (2003/71/EC) (each, a “**Relevant Member State**”) will be made pursuant to an exemption under the Prospectus Directive, as implemented in that Relevant Member State, from the requirement to publish a prospectus for offers of the Currency-Hedged Commodity Securities. Accordingly any person making or intending to make an offer of the Currency-Hedged Commodity Securities may only do so:

- (i) in circumstances in which no obligation arises for the Issuer to publish a prospectus pursuant to Article 3 of the Prospectus Directive or supplement a prospectus pursuant to Article 16 of the Prospectus Directive, in each case, in relation to such offer; or
- (ii) in those Public Offer Jurisdictions mentioned in the following paragraph, provided such person is a permitted Offeror (as defined in the following paragraph) and that such offer is made during the Offer Period specified for such purpose therein.

An offer of the Currency-Hedged Commodity Securities may be made by the Issuer or by [•] (each a “**Permitted Offeror**”) other than pursuant to Article 3(2) of the Prospectus Directive in [•] (“**Public Offer Jurisdictions**”) during the period from [•] until [•] (the “**Offer Period**”).

The Issuer has not authorised, nor does it authorise, the making of any offer of Currency-Hedged Commodity Securities in any other circumstances.
