1. Nature of operations and going concern

Orosur Mining Inc. ("Orosur" or "the Company") is a minerals explorer and developer with operations in Colombia, Argentina, Brazil and Nigeria.

Orosur was incorporated and is domiciled in Canada and is governed by the corporate laws of the Yukon Territory, Canada. The Company's shares are listed on the TSX Venture Exchange (TSXV) in Canada and the Alternative Investment Market (AIM) of the London Stock Exchange in the United Kingdom. The Company's registered office is 200-204 Lambert Street, Whitehorse, YT, Y1A 1Z4, and principal place of business is Suite 200, 82 Richmond Street East, Toronto, ON, M5C 1P1.

Orosur operates in Canada, Colombia, Argentina, Brazil and Nigeria and has discontinued operations in Uruguay and Chile.

Going concern uncertainty

These unaudited condensed interim consolidated financial statements were prepared on a going concern basis under the historical cost method except for certain financial assets and liabilities that are accounted as assets and liabilities held for sale. Assets held for sale are measured at the lower of cost or recoverable amount. This accounting treatment is applied to the activities in Uruguay. In line with negotiations and the final agreement (the "Agreement") as of December 17, 2018 with creditors in Uruguay (see note 4), the Company's Uruguayan subsidiary Loryser S.A. ("Loryser") is required to realize its assets and liquidate its liabilities and commitments in other than the normal course of business based on the payment plan agreed. The Agreement contemplates those net proceeds from the sale of Loryser's assets in Uruguay together with the issuance of 10 million common shares of Orosur (see note 13) shall satisfy all amounts owing to Loryser's creditors as well as provide funds for Loryser to conduct this process. Accordingly, the activities of Uruguay are consolidated in the financial statements as assets and liabilities held for sale and profit or loss from discontinuing operations. The Agreement was ratified by the Court in September 2019, which makes it legally binding on all trade creditors and the Intervenor's control over Loryser ceased. On December 6, 2019, 10,000,000 common shares were issued to a trust for the benefit of Loryser's creditors. As at November 30, 2023, Loryser had agreed and paid for the settlements with all of its former employees. It had finalised the reclamation and remediation works on the tailings dam and sold all of its remaining assets, including its plant and equipment, and is distributing the proceeds on a pro rata basis, to Loryser's trade creditors via a Court approved paying agent.

As at November 30, 2023, the Company had cash of \$2,104 (May 31, 2023 - \$3,748) and a net working capital deficiency of \$11,536 (May 31, 2023 - \$10,118). As at six months ended November 30, 2023, the Company carried an accumulated deficit of \$84,686 (May 31, 2023 - \$83,816).

The Company's continuance as a going concern is dependent on its ability to obtain adequate financing. There is a material uncertainty related to the foregoing conditions that may cast significant doubt on the Company's ability to continue as a going concern and therefore the Company may be unable to realize its assets and discharge its liabilities in the normal course of business. Although the Company has been successful in the past in obtaining financing, with the private placement in December 2020, which raised gross proceeds of £4 million (\$5,372), and was successful in reaching a payment plan agreement with creditors in Uruguay in December 2018, (Court approval received September 13, 2019), there is no assurance on how the agreement with creditors in Uruguay will develop, or that the Company will be able to obtain adequate financing in the future on terms advantageous to the Company.

The unaudited condensed interim consolidated financial statements do not reflect the adjustments to carrying values of assets and liabilities and the reported expenses and consolidated statements of financial position classifications that would be necessary if the going concern assumption was no longer applicable. These adjustments could be material.

2. Significant accounting policies

Statement of compliance

The Company applies International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and interpretations issued by the International Financial Reporting Interpretations Committee ("IFRIC"). These unaudited condensed interim consolidated financial statements have been prepared in accordance with International Accounting Standard 34, Interim Financial Reporting. Accordingly, they do not include all of the information required for full annual financial statements required by IFRS as issued by IASB and interpretations issued by IFRIC.

The policies applied in these unaudited condensed interim consolidated financial statements are based on IFRSs issued and outstanding as of January 25, 2024, the date the Board of Directors approved the statements. The same accounting policies and methods of computation are followed in these unaudited condensed interim consolidated financial statements as were followed in the most recent annual financial statements as at and for the year ended May 31, 2023. Any subsequent changes to IFRS that are given effect in the Company's annual financial statements for the year ending May 31, 2024 could result in restatement of these unaudited condensed interim consolidated financial statements.

Functional and presentation currency

The functional and presentation currency of the Company is the United States dollar.

All of the Company's entities have the United States dollar as the functional currency, except for Waymar Resources Ltd., Cordillera Holdings International Ltd., Minera Anzá S.A., Fortune Valley Resources Inc. and Fortune Valley Resources Inc. BVI, whose functional currency is the Canadian dollar and Minera Anzá S.A. (Colombia branch), whose functional currency is the Colombian pesos.

The results of operations and financial position of all the Company's entities that have a functional currency different from the presentation currency (United States dollar) are translated into the presentation currency as follows:

- a) Assets and liabilities for each balance sheet presented are translated at the closing rate at the date of that balance sheet;
- b) Income and expenses for each income statement are translated at average exchange rates (unless this average is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the rate on the dates of the transactions); and
- c) All resulting exchange differences are recognized in other comprehensive income under the caption "Currency translation reserve".

New standards adopted

Certain pronouncements were issued by the IASB or the IFRIC that are mandatory for accounting periods commencing on or after June 1, 2023. These are either not applicable to the Company or do not have a material impact to the Company and have been excluded.

New and revised standards and interpretations issued but not yet effective

The Company has performed an assessment of new and revised standards issued by the IASB that are not yet effective. The Company has assessed that the impact of adopting these accounting standards on its consolidated financial statements would not be material.

3. Critical accounting estimates, judgments and assumptions

The preparation of the Company's unaudited condensed interim consolidated financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the reported amounts of assets and liabilities and the reported amounts of expenses, gains and losses during the reporting period. Estimates and assumptions are continually evaluated and are based on management's experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. By definition, estimates and assumptions seldom equal actual results and may lead to material adjustments to the carrying amounts of assets and liabilities. The areas that require management to make significant judgments, estimates and assumptions are discussed below.

Consolidation

The unaudited condensed interim consolidated financial statements include the accounts of Orosur and its subsidiaries (collectively "the Group"). Subsidiaries are entities controlled directly or indirectly by Orosur. Control is the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities. The Company's list of subsidiaries is included in note 16, including percentage owned by Orosur and includes the Company's subsidiaries in Canada, Brazil, Uruguay, Chile, Nigeria and Colombia. In each case the management has deemed that Orosur has control over these and all other subsidiaries on the measures set out above.

Discontinued operations

The Company is accounting for its activities in Chile and Uruguay as discontinued. Chile was recognized as a discontinued operation after all of its mining assets were sold or returned. In Uruguay, the operations have been closed and all assets have been sold by the Company's subsidiary, Loryser S.A. which is well advanced in the liquidation of its liabilities and commitments in other than the normal course of business.

Exploration and evaluation expenditure

The recoverability of amounts shown for capitalized exploration and evaluation costs is dependent upon the discovery of economically recoverable reserves. Management reviews the carrying amount of capitalized exploration and evaluation costs disclose significant judgments relation to the intention for development at least annually. The review is based on the Company's intention for development of the underlying asset.

Environmental rehabilitation provisions

The rehabilitation provision is determined according to the net present value of estimated future costs based on feasibility and engineering studies on a site by site basis. While care was taken to estimate the rehabilitation provision, these amounts are estimates of expenditures that are not due until future years; the Company assesses its provision on an ongoing basis or when new material information becomes available.

4. Discontinued operations

Uruguay

On June 14, 2018, Loryser (the Company's operating subsidiary in Uruguay) applied to commence reorganization proceedings under Uruguayan legislation (Act N°18.387) (the "Loryser Reorganization Proceedings"). To have continued with the San Gregorio mine plan, a swift and timely transition from San Gregorio Underground to the Veta A Underground project would have been required, which itself would have required external financing plus an environmental permit for Veta A, both of which were not available at the time. As a result of those circumstances, the Board of Directors actively explored a number of alternatives for Orosur and its subsidiaries. The decision to apply for the Loryser Reorganization Proceedings and creditor protection was made in consultation with the Company's legal and financial advisors and the Company's management believed it to be in the best interests of Loryser, the Company and their stakeholders.

In December 2018, Loryser reached a payment plan agreement with creditors in Uruguay ("Agreement"). In May 2019, the Court approved the final list of creditors and Loryser's independent asset valuation. In August 2019, the Intervenor filed a report informing the Court that it had verified that 71.48% of the trade creditors by value had adhered to the Agreement. Consequently, the Intervenor informed that majorities legally required were reached and the Court gave public notice of the Agreement.

The Agreement was approved by the Reorganization court in Montevideo and the Court decree was publicly posted on September 12, 2019 and became final and binding for all trade creditors on September 20, 2019.

On December 6, 2019, 10,000,000 common shares of Orosur were issued to a trust for the benefit of Loryser's creditors as contemplated in the Court Agreement (note 13).

In line with negotiations and the Agreement with creditors in Uruguay, Loryser S.A. is required to realize its assets and liquidate its liabilities and commitments in other than the normal course of business based on the payment plan agreed. The Agreement contemplates that the net proceeds from the sale of Loryser's assets in Uruguay together with the sale of the issued 10 million common shares of Orosur shall satisfy all amounts owing to Loryser's creditors, as well as provide funds for Loryser to pay its former employees and to conduct this process and close the operation responsibly.

During the previous financial year, Loryser agreed and paid for the settlements with all of its former employees, with the proceeds received from the sale of certain of its assets including the 10 million common shares issued to the trust. The Company has finalized the reclamation and remediation works on the tailings dam and has successfully concluded a one-year post-closure control phase. In addition, Loryser has sold all of its remaining assets included in the Agreement, including its plant and equipment, in accordance with the Creditors Agreement, expects to distribute the proceeds, on a pro rata basis, to Loryser's trade creditors in accordance with the Creditors' Agreement, via a court approved paying agent.

Chile

In October 2009, Fortune Valley Resources Chile S.A. ("FVRC"), a wholly owned subsidiary of the Company, entered into an option agreement with Anglo American Norte S.A ("Anglo"), a subsidiary of Anglo American plc, for the Pantanillo gold exploration project.

In May 2018, the Company terminated the option agreement.

Following the relinquishment by FVRC of the Pantanillo project, Anglo sought the payment of minimum royalties and requested arbitration. On March 28, 2019, the Arbitral Tribunal rendered its decision, ruling that FVRC is required to pay Anglo approximately US\$1,600 plus interest at Chile's current interest rate calculated from December 2015 until its effective payment. The Tribunal's decision is exclusively against FVRC. Orosur was not named in the decision from the Tribunal nor was Orosur a party to the relevant agreements. The Company has made a provision of \$2,291 (\$1,900 plus interest) in relation to this decision as at November 30, 2023 for FVRC (May 31, 2023 - \$2,204 (\$1,900 plus interest)).

Anzá Project

On September 10, 2018, the Company completed an agreement with Newmont Colombia S.A.S. ("Newmont"), a wholly-owned subsidiary of Newmont Corporation for the Anzá project. The agreement includes a three-phase earn-in structure allowing Newmont to earn up to a 75% ownership interest in the Anzá Project by spending a minimum of \$30 million in qualifying expenditures over twelve years, completing an NI 43-101 compliant feasibility study and making cash payments to Orosur equalling a total of \$4 million over Phases 1 and 2. In Phase 1, Newmont may earn a 51% ownership interest by spending \$10 million in qualifying expenditures over four years and making cash payments to Orosur equalling a total of \$2million during the first two years of the Phase 1 earn-in period. Upon Newmont's completion of Phase 1, it may elect, in its sole discretion, to exercise its option to form a joint venture with Orosur. In Phase 2, Newmont may elect to earn an additional 14% ownership interest in the Anzá Project by sole funding \$20 million in qualifying expenditures within four years, completing an NI 43-101 compliant pre-feasibility study and making cash payments to Orosur equalling a total of \$2 million. In Phase 3, Newmont may elect to earn an additional 10% ownership interest in the Anzá Project by completing an NI 43-101 compliant feasibility study within four years. During the year ended May 31, 2021, Newmont Corporation entered into a Joint Venture Agreement with Agnico Eagle Mines Limited ("Agnico"), with Agnico operator of the Joint Venture. The Joint venture is, owned 50:50 by Newmont and Agnico and is named Minera Monte Aguila SAS ("MMA").

On September 8, 2022, MMA provided the Company with a Phase 1 Earn-In Notice, having completed all of the Phase 1 obligations, including investing \$10 million in the Project. During year ended May 31, 2023, MMA announced it would advance into Phase 2 of the project and it made the \$2 million Phase 2 payment.

Lithium West Project ("Project")

On October 16, 2023, the Company entered in a Joint Venture agreement ("JV agreement") with Jurassic Mines Ltd. ("Jurassic"), whereby the Company, via Lithium Holdings Limited ("Lithium Holdings") a new 100% owned BVI subsidiary may earn up to 70% equity in the Project. The JV agreement includes a two phases earn-in structure allowing Lithium West to earn up to 70% ownership interest in the Project by spending a minimum of \$3 million over three years for phase 1 and additional \$2 million over the maximum of two years for phase 2. As of November 31, 2023, the JV agreement is owned 51:49 by Lithium Holdings and Mineral Alliance Ltd.

The Project at inception comprised four exploration licences macros Nigeria's primary pegmatite belt, covering a total of circa 322Km².

As at November 30, 2023, no indicators of impairment were noted on the Company's exploration and evaluation projects.

11. Environmental rehabilitation provision

The Company's environmental rehabilitation provision relates to the retirement and remediation of the San Gregorio operation in Uruguay. The environmental rehabilitation provision has been determined by calculating the net present value of estimated future costs.

The following table summarizes the movements in the environmental rehabilitation provision for the six months ended November 30, 2023 and year ended May 31, 2023:

Environmental rehabilitation provision discontinued operations (Uruguay)

	November 30, 2023	May 31, 2023
Balance, beginning of period	\$ 164	\$ 1,275
Accretion expense	-	(1,111)
Balance at end of period	\$ 164	\$ 164
Less: current portion	(164)	(164)
Balance, end of period	\$ -	\$ -

Loryser has a legal and constructive obligation to restore the San Gregorio operation. This estimate is revised annually. The Company advances rehabilitation work in accordance with DINACEA (formerly DINAMA) the Uruguayan environmental agency.

Uruguayan mining and environmental legislation requires environmental obligations to be supported by guarantees. As a result, rehabilitation guarantee letters of credit with a total amount of \$1,326 (May 31, 2023 - \$1,326) had been provided by local Uruguayan insurance companies and financial institutions. Pursuant to a Settlement Agreement with DINACEA, Loryser continued with the reclamation of the tailings dam and DINACEA will pay \$1,326 (from third-party guarantee proceeds in instalments on completion of a six-phased closure plan. The first payment by DINACEA of \$150 under the plan was received by the Company in May 2020, a second payment of \$269 was received in December 2020; two more payments totalling \$538 were received in January 2021; and, one payment of \$269 was received in October 2022.

12. Share capital

a) Authorized share capital

The authorized share capital consists of an unlimited number of common shares. The common shares do not have a par value. All issued shares are fully paid.

13. Shares held by Trust and Restricted Cash

In December 2018, Loryser reached an agreement with the majority of its creditors (the "Agreement"), achieving a support level of approximately 72% of creditors by value, comprising 67 different creditors. The Agreement was ratified by the Court in September 2019. The ratification by the Court means that the Agreement is legally binding on all trade creditors and that Intervenor's control over Loryser ceases. In December 2019, as part of the consideration to be applied to the creditors' liabilities, Orosur issued 10,000,000 common shares of Orosur to the San Gregorio Trust. The Trust is an independent legal body established by Orosur (the "Settlor") with an independent Trustee whose sole purpose it is to sell the shares at the best possible price and pay that money to Loryser's creditors who are the Beneficiaries of the Trust pursuant to the Agreement. The Trustee was appointed in the Trust Deed and the Settlor cannot remove the Trustee. The Trustee is not an employee nor a director of Orosur or any of its subsidiaries and does not receive instructions from Orosur.

The Restricted Cash is related to the funds net of costs raised by the Trust from the sale of the common shares held by the Trust. All of the 10,000,000 common shares have been sold for the benefit of Loryser's creditors as contemplated in the Court-approved Creditors Agreement. During the year ended May 31, 2023, the Trustee disposed of 4,355,500 common shares to the market, raising proceeds of \$1,228 and \$2,150 had been released to Loryser. During the six months ended November 30, 2023, \$nil had been released to Loryser to be applied in accordance with the Court ratified Creditors Agreement.

As of November 30, 2023, the remaining restricted cash balance was \$12 (May 31, 2023 - \$12).

14. Share-based payments

The Company has an option plan (the "Plan") for the officers, directors, employees and consultants of the Company and its subsidiaries. Options under the Plan are typically granted in numbers that reflect the responsibility of the particular optionee and his or her contribution to the business and activities of the Company. Options granted under the Plan have a term between 5 and 10 years. Except in specified circumstances, options are not assignable and terminate on the optionee ceasing to be employed by or associated with the Company. The terms of the Plan further provide that the price at which shares may be issued under the Plan cannot be less than the market price (net of permissible discounts) of the shares when the relevant options were granted.

The following table summarizes information regarding the Company's outstanding options at November 30, 2023:

	Number of stock options ('000)	Weighted average exercise price (CDN \$)
Balance, May 31, 2022 and November 30, 2022	11,540	\$ 0.26
