Each of Standard & Poor’s, Moody’s and Fitch is established in the UK and is registered in accordance with Regulation (EC) No. 1060/2009 as it forms part of UK domestic law by virtue of the EUWA (the **UK CRA Regulation**). Each of Standard & Poor’s, Moody’s and Fitch is not established in the European Economic Area (**EEA**) and has not applied for registration under Regulation (EC) No. 1060/2009 (as amended, the **CRA Regulation**). Certain Series of Notes to be issued under this Programme may be rated or unrated. Where a Tranche (as defined under “*Terms and Conditions of the Notes*”) of Notes is rated, such rating will not necessarily be the same as the ratings specified above and will be specified in the relevant final terms document (the **Final Terms**). The distribution of this Prospectus and the offer or sale of Notes may be restricted by law in certain jurisdictions. The Issuer, the Guarantor, the Dealer and the Trustee do not represent that this Prospectus may be lawfully distributed, or that any Notes may be lawfully offered, in compliance with any applicable registration or other requirements in any such jurisdiction, or pursuant to an exemption available thereunder, or assume any responsibility for facilitating any such distribution or offering. In particular, no action has been taken by the Issuer, the Guarantor, the Dealer or the Trustee which is intended to permit a public offering of any Notes or distribution of this Prospectus in any jurisdiction where action for that purpose is required. STABILISATION

In connection with the issue of any Tranche (as defined under “*Terms and Conditions of the Notes*”) of Notes, any Dealer or Dealers acting as the Stabilisation Manager(s) (or persons acting on behalf of any Stabilisation Manager(s)) may over-allot Notes or effect transactions with a view to supporting the market price of the Notes at a level higher than that which might otherwise prevail. However, stabilisation may not necessarily occur. Any stabilisation action may begin on or after the date on which adequate public disclosure of the terms of the offer of the relevant Tranche of Notes is made and, if begun, may cease at any time, but it must end no later than the earlier of 30 days after the issue date of the relevant Tranche of Notes and 60 days after the date of the allotment of the relevant Tranche of Notes. Any stabilisation action or over-allotment must be conducted by the Stabilisation Manager(s) (or persons acting on behalf of any Stabilisation Manager(s)) in accordance with all applicable laws and rules.

MiFID II PRODUCT GOVERNANCE / TARGET MARKET

The applicable Final Terms in respect of any Notes will include a legend entitled “*MiFID II Product Governance*” which will outline the target market assessment in respect of the Notes and which channels for distribution of the Notes are appropriate. Any person subsequently offering, selling or recommending the Notes (a *distributor*) should take into consideration the target market assessment; however, a distributor subject to Directive 2014/65/EU (as amended, *MiFID II*) is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

A determination will be made in relation to each issue about whether, for the purpose of the Product Governance Rules under EU Delegated Directive 2017/593 (the *MiFID Product Governance Rules*), any Dealer subscribing for any Notes is a manufacturer in respect of such Notes, but otherwise neither the Dealer nor any of its respective affiliates will be a manufacturer for the purpose of the MiFID Product Governance Rules.

UK MiFIR PRODUCT GOVERNANCE / TARGET MARKET

The applicable Final Terms in respect of any Notes will include a legend entitled “*UK MiFIR Product Governance*” which will outline the target market assessment in respect of the Notes and which channels for distribution of the Notes are appropriate. Any person subsequently offering, selling or recommending the Notes (a *UK distributor*) should take into consideration the target market assessment; however, a UK distributor subject to the FCA Handbook Product Intervention and Product Governance Sourcebook (the *UK MiFIR Product Governance Rules*) is responsible for undertaking its own target market assessment in respect of the

Notes (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

A determination will be made in relation to each issue about whether, for the purpose of the UK MiFIR Product Governance Rules, any Dealer subscribing for any Notes is a manufacturer in respect of such Notes, but otherwise neither the Dealer nor any of its respective affiliates will be a manufacturer for the purpose of the UK MiFIR Product Governance Rules.

PROHIBITION OF SALES TO EEA RETAIL INVESTORS

The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the EEA. For these purposes, a *retail investor* means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of MiFID II; or (ii) a customer within the meaning of Directive (EU) 2016/97 (as amended), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in Article 2 of the Prospectus Regulation. Consequently, no key information document required by Regulation (EU) No 1286/2014 (as amended, the *PRIIPs Regulation*) for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

PROHIBITION OF SALES TO UK RETAIL INVESTORS

The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the UK. For these purposes a *retail investor* means a person who is one (or more) of: (i) a retail client as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of UK domestic law by virtue of the EUWA; or (ii) a customer within the meaning of the provisions of the Financial Services and Markets Act 2000 (the *FSMA*) and any rules or regulations made under the FSMA to implement Directive (EU) 2016/97, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of UK domestic law by virtue of the EUWA; or (iii) not a qualified investor as defined in Article 2 of Regulation (EU) 2017/1129 as it forms part of UK domestic law by virtue of the EUWA. Consequently, no key information document required by Regulation (EU) No 1286/2014 as it forms part of UK domestic law by virtue of the EUWA (the *UK PRIIPs Regulation*) for offering or selling the Notes or otherwise making them available to retail investors in the UK has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.

SINGAPORE SFA PRODUCT CLASSIFICATION

In connection with Section 309B of the Securities and Futures Act (Chapter 289) of Singapore (the *SFA*) and the Securities and Futures (Capital Markets Products) Regulations 2018 of Singapore (the *CMP Regulations 2018*), unless otherwise specified before an offer of Notes, the Issuer has determined, and hereby notifies all relevant persons (as defined in Section 309A(1) of the SFA), that the Notes are 'prescribed capital markets products' (as defined in the *CMP Regulations 2018*) and Excluded Investment Products (as defined in MAS Notice SFA 04-N12: Notice on the Sale of Investment Products and MAS Notice FAA-N16: Notice on Recommendations on Investment Products).

BENCHMARKS REGULATION

Amounts payable on Floating Rate Notes to be issued under the Programme may be calculated by reference to certain reference rates such as the London Interbank Offered Rate (LIBOR) or the Euro Interbank Offered Rate (EURIBOR) as specified in the applicable Final Terms. Any such reference rate may constitute a benchmark for the purposes of Regulation (EU) 2016/1011 (the *EU Benchmarks Regulation*) and/or Regulation (EU) No 2016/1011 as it forms part of UK domestic law by virtue of the EUWA (the *UK Benchmarks Regulation*). If any such reference rate does constitute such a benchmark, the applicable Final Terms will indicate whether or not the benchmark is provided by an administrator included in the register of administrators and benchmarks established and maintained by the European Securities and Markets Authority (*ESMA*) and/or the FCA pursuant to Article 36 (*Register of administrators and benchmarks*) of the EU Benchmarks Regulation and/or Article 36 (*Register of administrators and benchmarks*) of the UK Benchmarks Regulation, respectively. The registration status of any administrator under the EU Benchmarks Regulation and the UK Benchmarks Regulation is a matter of public record and, save where required by applicable law, the Issuer does not intend to update any applicable Final Terms to reflect any change in the registration status of the administrator.

Each of the Issuer and the Guarantor believes that the following factors are specific to the Issuer and the Guarantor and/or to the Notes and are material for taking an informed assessment decision as these risks may affect the ability of the Issuer and the Guarantor to fulfil its obligations under Notes issued under the Programme. Most of these factors are contingencies which may or may not occur. If any of these risks occur, the business, financial condition and performance of each of the Issuer and the Guarantor could suffer and the trading price and liquidity of the Notes could decline.

Each of the Issuer and the Guarantor believes that the factors described below represent the material risks inherent in investing in Notes issued under the Programme, but the inability of the Issuer or the Guarantor to pay interest, principal or other amounts on or in connection with any Notes may occur for other reasons and neither the Issuer nor the Guarantor represents that the statements below regarding the risks of holding any Notes are exhaustive.

Factors that may affect (i) the Issuer's ability to fulfil its obligations under Notes issued under the Programme and (ii) the Guarantor's ability to fulfil its obligations with respect to the Notes under the Deed of Guarantee

STRATEGIC RISKS

The Group faces an uncertain economic outlook, strong competition in highly competitive markets and rapid technology developments which could negatively affect the Group's growth prospects

The Group's strategy and business model could be disrupted if the Group fails to respond effectively to an uncertain economic outlook, intensifying competition and rapid technology developments or if it fails to develop products and services in line with changing market dynamics or customer expectations. Potential challenges include the emergence of competitors enabled by new disruptive technologies which substitute the Group's products and over-the-top content services providers joining the fixed broadband and/or mobile connectivity markets.

Increased competition might challenge the Group's market share, revenue or profit, or it could make it more difficult for the Group to increase the value of its business. There is a risk of stronger competition in the converged telecommunications market, increasing competitive intensity and a shrinking global economy as a result of the Covid-19 pandemic.

Technology development is a key characteristic of the telecoms sector. The Group has to be able to identify emerging technologies, assess how customers will adopt these technologies and invest accordingly, frequently a long time before the demand materialises, in order to compete effectively. The Group also needs to respond to changes in use of existing technology, such as the exponential growth the sector has seen in data consumption and network capacity requirements and upgrade its older services and technologies.

New technology developments can lead to accelerated shifts that affect the Group's current product propositions, changes in customer behaviours, increased investment requirements, new sources of competition and/or the deterioration of its competitive position. This in turn can result in lower volumes and prices, stranded assets and higher costs. A failure to invest optimally in technology at the right time can have implications for the Group's market position and ability to generate future revenue and/or profit.

Furthermore, major economic uncertainty could significantly impact the Group's customers leading to weaker demand, customers being less willing to pay for premium services and an increase in the risk of bad debts, which could each result in a reduction in the Group's revenue and/or profit.

The Group may fail to manage its stakeholders properly which could affect the Group's business, financial condition, results of operations and prospects, as well as exacerbating the adverse effects of other risks to its business

In the UK, information and communication technology is increasingly seen as an essential part of people's lives. As a result, debate continues to focus on network coverage, quality and speed of service as well as broader issues of online safety and security, the digital divide between individuals, households, businesses and geographic areas and their access to information and communication technologies as well as climate change policy. As well as providing a critical element of the UK's national infrastructure, both fixed and wireless, the Group is also engaged in supporting high

profile programmes such as the Broadband Delivery UK regional fibre deployment programme and the Emergency Services Network (ESN). The pace and scale of the Group's network investments, most notably in fibre to the premises (FTTP), where the Group intends to increase and accelerate its total FTTP build from 20 million to 25 million premises by December 2026, as well as 5G, and the assumptions underlying the Group's FTTP rollout may also be influenced by government decisions and the Group's rollout of 5G may be affected by misinformation about health concerns.

In July 2020 the UK Government announced a revised set of proposals to remove Huawei equipment from 5G communication networks in the UK by the end of 2027. The Group currently estimates that full compliance with these proposals would require additional activity, both in removing and replacing Huawei equipment from the Group's existing mobile network, and in excluding Huawei from the 5G network that the Group continues to build. However, there is a risk that unforeseen difficulties with the very complex implementation process and/or further political and geopolitical developments concerning Huawei could lead to additional costs. The Group will continue to work with relevant authorities on the future procurement strategy for fixed and mobile networks.

If the Group does not manage the expectations of its stakeholders effectively, for example, those around buying, using, selling or developing new or emerging technology responsibly or those of its pension scheme trustees, regulators (such as Ofcom and the Pensions Regulator), government partners, investors, bondholders and/or recognised trade unions, or if the Group fails to anticipate the potential effects of risks on the communities that the Group services, this could lead to business disruption and/or trust in the Group might be damaged. Failure by the Group to manage its stakeholders responsibly could affect the Group's performance and its licence to operate and might also limit new growth opportunities. Future strategy and growth plans could be undermined and there might be legal liabilities for the Group or individual employees.

The impacts of the UK leaving the European Union (**Brexit**) are still uncertain and disruptive trade policies such as the evolving trade tensions between the United States and China as well as climate change policy agenda and perceptions of the telecommunications sector's role in carbon emissions are emerging risks for the Group's business and stakeholder management, in addition to the potential for misuse of the Group's products or technologies in the context of the Group's commitment to human rights.

FINANCIAL RISKS

The Group has a significant funding obligation in relation to its defined benefit pension schemes. Low investment returns, high inflation, longer life expectancy and regulatory changes may result in the cost of funding the Group's main defined benefit pension scheme, the BT Pension Scheme ("BTPS"), becoming a significant burden on the Group's financial resources

The BTPS, which represents over 97 per cent. of the Group's pension obligations, faces similar risks to other defined benefit schemes in the UK. Future low investment returns, changes in inflation expectations, longer life expectancy, a more prudent approach being taken (for example, if the financial strength of the Group is viewed as having worsened), and/or regulatory changes may all result in the cost of funding the BTPS becoming a more significant burden on the Group's financial resources.

The 30 June 2020 actuarial valuation of the BTPS was announced in May 2021 and showed a decrease in pension liability compared to the previous valuation in 2017 (broadly in line with the projected position from 30 June 2017). The valuation outcome provides greater certainty as to the level of cash contributions required until the next triennial valuation, due to be as at June 2023.

When an actuarial valuation of the BTPS is calculated, the funding position is affected by the financial market conditions at the valuation date. When determining expected future returns on the assets of the BTPS, different factors are taken into account, including yields (or returns) on government bonds. If the returns on the assets are lower than expected over the period to the next valuation, or a lower future investment return assumption is adopted at the next valuation, the deficit would likely increase, potentially leading to a higher level of future contributions for the BTPS. An increase in cash contributions to the BTPS could reduce the Group's ability to invest in its business and/or pay dividends. An increase in the BTPS deficit could negatively affect the Group's share price and/or credit rating. Any deterioration in the Group's credit rating would increase the cost of borrowing and may limit the availability or flexibility of future funding for the Group. Pension Regulator review of funding regulations could result in bigger pension liabilities or less time to make payments to reduce the deficit.

The Group faces a variety of financial risks which could adversely affect profitability, liquidity and reputation

As a business with global operations, the Group is exposed to a variety of financial risks, including funding and liquidity risks (including those arising from the Group's underlying business operations) and also financial risks such as foreign exchange and counterparty risk, interest rate risk, credit risk, liquidity risk. A failure to properly anticipate future tax changes and/or comply with the tax rules of the countries in which the Group operates could expose it to poor business decisions (for example, under-pricing contract bids), financial penalties and reputational damage.

Funding and liquidity risk could impact the viability of the Group's business and its ability to continue as a going concern, including a downturn in its business operations because of the economic downturn resulting from the Covid-19 pandemic. A deterioration in liquidity could adversely impact the Group's assessment of going concern, particularly if combined with an inability to refinance maturing debt. There is an emerging risk that future debt capital markets might not be suitable for all the Group's debt requirements.

An adverse movement in foreign exchange and/or interest rates could negatively impact the Group's profitability, cash flow and balance sheet. In addition, unfavourable economic conditions may arise which could impact the Group's ability to generate sufficient cash flow or to access capital markets to enable the Group to service or repay its indebtedness or to fund its other liquidity requirements on commercially reasonable terms. If economic conditions worsen, the Group may find that its financial performance could be impacted by delays in its customers making purchasing decisions, reductions in customers' use of the Group's services, default of customers, counterparties and suppliers, or the redenomination of their contractual payment obligations.

The failure of the Group's treasury counterparties to honour financial obligations could also have an adverse impact on the Group's liquidity (for example, from the loss of cash deposits) and its profitability (for example, from increased finance expenses).

In addition, lack of adequate tax planning reflecting current and future tax consequences could result in deficient strategies resulting in financial losses and potentially financial misstatements, as well as reputational damage.

Failures in the Group's financial control framework can result in financial misstatement and financial loss

Financial controls, and the assurance that exists over them, are an important part of the Group's ability to prevent and detect inappropriate behaviour and financial errors. Failures in the Group's financial control framework in how it is designed and operated could result in financial misstatement, improper accounting practices, financial loss including a failure to prevent fraud, breaches of anti-corruption, bribery or sanctions legislation, or key decisions being taken based on incorrect information, leading to dissatisfied stakeholders, breaches and associated penalties, legal action and damage to the Group's reputation. However, because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Therefore, even those systems determined to be effective can provide only reasonable assurance with respect to financial statement preparation and presentation.

There is also the risk that the Group may fail to modernise its business and financial processes by simplifying and automating controls which could make it more difficult for the Group to be agile, proactive and customer focussed.

In addition to failing to simplify and modernise its finance processes, there is the risk that the Group's internal controls will be adversely impacted by the Group's complex legacy systems or that the Group is unable to maintain effective internal controls. There is also the risk that any changes to the requirements of the Group's control framework resulting from changes to applicable laws and regulations in the future may impact the Group's business.

Notwithstanding anything stated in this risk factor, this risk factor should not be taken as implying that the Issuer or the Guarantor will be unable to comply with its obligations as a company with securities admitted to the Official List.

COMPLIANCE RISKS

Failure to comply with legal requirements and ethical standards can have a significant impact and lead to damage to the brand and a loss of reputation

The Group is committed to maintaining high ethical standards, and has a zero tolerance approach to fraud, bribery, any form of corruption or any illegal or unethical activity. The Group has to comply with a wide range of local and international laws, including anti-corruption and bribery laws. The UK Bribery Act and the United States Foreign Corrupt Practices Act have extraterritorial reach and thereby cover the Group's global operations. The Group also has to ensure compliance with trade sanctions as well as import and export controls. The Group complies with the UK Modern

Slavery Act and follows international standards on human rights, such as the International Labour Organisation's Principles and the United Nations Guiding Principles on Business and Human Rights.

The Group also faces the risks associated with inappropriate and unethical behaviour in local and other markets by its workforce or associates, such as suppliers or agents, which can be difficult to detect. For instance, there is a risk of failing to foster a culture where the Group's workforce recognise and promptly report wrongdoing by the Group's workforce or those working for the Group or on its behalf. This includes a failure to comply with the Group's internal policies and procedures or the laws to which the Group is subject, such as anti-bribery and corruption, trade sanctions and human rights. There is also the risk that the Group's controls, which are designed to prevent, detect and correct such behaviour may be circumvented. Controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving their objectives and there can be no assurance that any design will succeed in achieving its stated goals under all potential conditions, regardless of how remote.

Failure by the Group's workforce, or associated persons such as suppliers or agents, to comply with anti-corruption, bribery, sanctions or other legislation could result in significant penalties, criminal prosecution, damage to the Group's brand and reputation and loss of customers and revenue. This could in turn impact the Group's future revenue and cash flow, the extent of which would depend on the nature of the breach, the legislation concerned and any penalties. Allegations of corruption, bribery, abuse of human rights or violation of sanctions regulations or other laws and regulations could also lead to reputational damage with investors, regulators, civil society and customers.

Serious breaches of laws and regulations applicable to the Group could lead to prosecution, litigation or to intervention by the Group's regulator, Ofcom, leading to fines or adversely affecting the Group's ability to operate. Further, if fraud is committed, there is a risk of financial misstatement which if undetected can have a material financial impact and potential litigation and regulatory consequences.

Changes to laws and regulations applicable to the Group as a result of Brexit may also adversely impact the Group. There is also an emerging risk of the Group's increased reliance on third parties following the divestment of assets as well the geopolitical risk for further sanctions applying in high-risk territories.

Failure to comply with relevant data protection and privacy laws could adversely affect the Group

As a major data controller and processor of customer information around the world, the Group recognises the importance of adhering to data privacy laws. The Group wants individuals and businesses to be confident that when they give their data to the Group they can trust the Group to do the right thing with that data. This includes properly securing customer data, keeping it protected against both internal and external threats (such as cyber-attacks), preserving the integrity of the personal data processed, only keeping the data required to provide customers with the services for which they have signed up. It also includes ensuring transparency around how the Group uses and shares that data, ensuring personal data is processed in a way that is legal, fair and in line with customers' rights and wishes as well as ensuring that the Group fulfils its legal obligations when customers want to exercise their rights under data legislation. The ability to use data in a compliant manner is therefore critical to the future success of the Group.

Today the need to protect the privacy rights of the individual is reflected in data privacy laws in force in over 100 countries. The Group, and other multinational companies, are increasingly having to evidence that personal data is being handled in accordance with a complex matrix of national data laws and societal ethical expectations and, in the case of a personal data security breach, the Group will have varying reporting obligations (for instance, in the UK, the Group is required to report any such security breaches to the Information Commissioner's Office and also report to the affected individuals as quickly as possible if the incident is likely to have an impact on them). Furthermore, the General Data Protection Regulation (**GDPR**) created a range of new compliance obligations, increased financial penalties for non-compliance and extended the scope of the European Union's and the UK's data protection laws.

Changes to data protection laws and regulations that apply to the Group wherever it operates, including the UK losing data adequacy status from the European Union, could also adversely affect the Group's business. In addition, complying with new and changing data protection laws and regulations, while seeking innovative uses for data and preventing data loss in remote working environments are also risks for the Group's business.

Failure to comply with data protection and privacy laws and regulations applicable to the Group wherever it operates may result in regulatory enforcement action, significant fines, legal action (class-action or breach of contract), criminal sanctions (including prison sentences), significant reputational damage, customer churn and the Guarantor's shareholder divestment and financial loss. The sanctions for breaching the GDPR are significantly higher than under the previous regime, which could result in a substantial fine in the event of a breach.

Some of the Group's activities continue to be subject to significant price and other regulatory controls, which may affect the Group's market share, competitive position and future profitability

Communications industry regulation impacts the Group's activities across all jurisdictions. In the UK, Ofcom (the independent regulator for the UK communications industries) can identify competition concerns in the communications markets and it is able to change the way the Group operates and competes, both at a wholesale and retail level. This includes powers to set the prices the Group can charge in certain markets and to set service standards. Ofcom reviews markets regularly and can introduce, extend, relax or remove rules as a result of its findings in a market review. Ofcom has powers to conduct specific investigations about market behaviour, including price levels. In addition, Ofcom can set out rules for spectrum auctions and acts to promote consumer protection in the sector.

Ofcom will investigate the Group's compliance with regulatory requirements and can impose fines and restitution on the Group for non-compliance.

Ofcom also has powers to regulate the terms on which the Group is supplied with certain services by others — for example, mobile call termination from other suppliers - and can resolve disputes between the Group and other communications providers about the terms on which services are supplied. Appeals of regulatory decisions can also give rise to risks as well as opportunities.

Outside the UK, regulation defines where and how the Group is able to compete through licensing rules and defining the terms on which it is able to access networks of incumbent operators.

Ofcom has found the Group to have significant market power in certain markets and has therefore implemented price controls for the Group's services. Ofcom can also adjust historic prices and require the Group to make repayments to wholesale customers. In addition to regulating the Group's prices, Ofcom has the ability to make the Group provide additional services and/or regulate how the Group structures its business.

Outside the UK overly-restrictive licensing requirements or ineffective regulation of access to other networks means the Group might not be able to compete with other networks on fair terms. Regulation can also define and control the terms of access to necessary regulated inputs, which raises the Group's costs.

An overly-restrictive or inflexible regulatory environment may make it more difficult for the Group to innovate and develop new products and services.

Lack of supportive regulation, or disruptive regulation, could impact the Group's ability to invest at pace and scale in ultrafast networks and converged connectivity and financial services and could reduce its ability to innovate in building these systems – for example the uncertainty around the broadband Universal Service Obligation. An unclear or unpredictable environment could make it more difficult for the Group to meet the expectations of customers and society at the same time as increasing the value of the Group's business.

Furthermore, failure to comply with regulations applicable to the Group could lead to regulatory action that might damage the Group's reputation and its ability to influence regulatory and governmental policy development which could adversely affect the Group's business. Increased regulation for new technologies may affect the Group's customer experience and new or extended customer fairness regulations may adversely affect the Group's business. Shutting down the Group's legacy networks as required may also adversely affect the Group's business.

OPERATIONAL RISKS

Failure to prevent or respond to interruptions to the Group's services could adversely affect the Group's reputation and market share as well as resulting in financial loss

The security and resilience of the Group's services are critical factors in its commercial success. There is a risk that the Group is unable to protect the customer experience through the continuity of end-to-end customer services including network connectivity, network performance, IT systems and service platforms. This could be caused by failing to prevent or respond to incidents caused by natural perils, pandemics (as demonstrated by the impact of the global Covid-19 pandemic), network and system faults, malicious acts, supply chain restrictions (whether in the UK or elsewhere) and/or failure, software or infrastructure outages. An increase in the frequency and severity of extreme weather events which might lead to service interruptions is an emerging risk for the Group's business as is the ability of the Group to be able to transform its business and its technology without service interruptions.

The consequences of service interruptions affect the Group's customers directly and could result in regulatory breaches, financial penalties, reduced productivity and potential harm to individuals. Service interruptions could also make it

more difficult for the Group to deliver critical services and damage the Group's reputation and its ability to retain and grow its customer base. Regulatory sanctions, fines and contract penalties might be applied, contracts might be terminated and costly concessions might be required, together with unplanned and rapid improvements to retain business and rebuild trust. The Group might also miss opportunities to grow revenue and launch new services before its competitors. There is a risk that the Group may be unable to remove high-risk vendors from the Group's network in the required timescales which could result in business disruption, regulatory fines and/or brand damage and there is a risk the Group becomes overly reliant on the performance of its remaining suppliers.

Failure to manage cyber and information security threats

The Group's networks and systems are exposed to a number of security threats, including cyber-attacks. Cyber security risks could arise from people inside the Group or from external sources including hacktivists, criminals, terrorists and/or nation states, attempting to disrupt service availability through the use of hacking tools, phishing scams and disruptive malware.

Any failure to effectively manage cyber risk presents a material threat to the Group's reputation as a leader in cyber-security. The Group strives to, as far as possible, detect, prevent, limit the impact of, and respond to, any cyber-attacks that could threaten its operations, to keep the likelihood of any 'successful' attack to an absolute minimum, but complete protection can never be guaranteed.

The Group is also exposed to suppliers with cyber-security vulnerabilities and it relies on externally hosted cloud services. AI (Artificial Intelligence) and machine learning being weaponised as security threats and the growing numbers of connected home devices requiring more attention to protect customers are emerging risks for the Group's business.

A failure of the Group's protective measures to prevent or contain a major security incident or business interruption or data being compromised, at a time when communications are vital to the global response to the Covid-19 pandemic and where there has been increased levels of remote working which may continue after the Covid-19 pandemic, could result in major financial loss, long-term reputational damage and loss of market share. Regulatory sanctions, fines and contract penalties might be applied, contracts might be terminated and costly concessions might be needed, together with unplanned and rapid improvements to retain business and rebuild trust.

Failure to successfully implement its wide-ranging transformation programme could create risks for the Group's business

The Group is implementing a wide-ranging transformation programme across the entire organisation. The Group is moving into the next phase of its transformation programme that will transform the experience of the Group's customers and that of the workforce through the simplification of the Group's products, processes, IT systems and networks. The next phase of transformation has required the Group to adapt the way in which it executes change management through a new set of capabilities and enablers.

Failure to realise the benefits of the Group's transformation programme and to manage the impacts of the Covid-19 pandemic could result in poorer customer experiences and the Group may not be able to achieve the efficient processes, cost savings or differentiated products and services as intended, and which may negatively impact the Group's ability to make future investments. If the Group does not have the appropriate processes, tools and techniques to implement the transformation programme, the Group may be unable to realise the benefits, such as improving the Group's productivity through simplification. Migrating to digital platforms and allocation of the appropriate resources, capabilities and organisational design to maximise the creation of value to the Group are risks for the Group's business. Delays to the Group's ability to build its fibre network might make it more difficult for the Group to simplify its portfolio. The ability to switch off the public switch telephone network – PSTN in December 2025, having migrated customers to a fully digital network, is also an emerging risk for the Group's business. There is a risk that BT's wide-ranging transformation programme is disrupted by industrial action as recently threatened by the Communication Workers Union.

Failure to recruit, retain and engage a talented workforce could impact the Group's ability to successfully deliver services and products to its customers

The Group's people are central to its business and a vital part of its ambition to deliver a positive customer experience and sustainable, profitable growth. Attracting and retaining a talented workforce in critical roles or with critical skills in the current pandemic and post-Brexit employment environment and fostering a positive workforce engagement is necessary to ensure the Group meets its strategic aims. The Group is transforming its business and at the same time continuing to recruit, retain and engage its workforce to deliver a positive customer experience and grow the business.

A less diverse workforce could lead to poorer decision-making and could impact the Group's ability to attract and retain key staff resulting in a loss of critical skills. Poor engagement could also reduce productivity, hinder innovation and slow the change agenda and/or raise the risk of general industrial unrest and action, which in turn could cause disruption to the Group's operations and services that the Group provides to its customers. Furthermore, reduced staff attendance, employee engagement and discretionary effort could have an impact on the Group's customer experience if the Group fails to support its employees from the effects of the Covid-19 pandemic. There is a risk of social disruption and challenges around the post-pandemic return to the workplace. Growing activism among the workforce on social or environmental topics is also an emerging risk for the Group.

Failure to comply with health and safety legislation could adversely affect the Group

The Group, and in particular its UK engineering workforce, undertakes activities that involve risk of injury or illness. Many of the Group's workforce, especially its UK engineers, often work in community settings where the Group has limited control over the working environment. Much of the network is carried above ground level and temporary work at height is a major risk for the Group.

A failure to promote and maintain a culture of continual improvement could lead to the Group being unable to build a safe and compliant business that protects the workforce which would affect workforce morale and make the Group a less attractive place to work. A failure to maintain effective health safety and wellbeing management could generate significant human and financial costs as a result of injury to the Group's workforce or members of the public, financial penalties, hindered or stopped operations and/or reputational damage.

All of the Group's staff work in a fast-paced and highly competitive sector where change is constant and psychological pressures are significant. Managing physical and mental wellbeing is therefore complex.

There is a risk the Group may fail to look after the health, safety and wellbeing of its workforce or members of the public, in breach of health and safety laws and regulations. Any health and safety failure could result in injury to members of the public or the Group's workforce, financial penalties, disruption of the Group's operations and/or reputational damage. There is an emerging risk for the Group from the long-term physical and mental health effects of lengthy periods of social restriction and limited mobility.

The Group's business may be adversely affected if it fails to perform on major contracts

The Group has a number of complex and high-value national and multinational customer contracts. The revenue arising from, and the profitability of, these contracts is affected by a number of factors including: variation in the Group's cost of performing the contracts; achievement of cost reductions anticipated in the contract pricing (both in terms of scale and time); delays in the achievement of agreed milestones owing to factors either within or outside the Group's control; changes in customers' needs, their budgets, strategies or businesses; and the performance of the Group's suppliers. Any of these factors could make a contract less profitable or even loss-making.

The degree of risk varies in proportion to the scope and life of the contract and is typically higher in the early stages of the contract. Some customer contracts require investment in the early stages, which is expected to be recovered over the life of the contract.

Major contracts often involve the implementation of new systems and communications networks, transformation of legacy networks, management of customer networks and the development of new technologies. The recoverability of these upfront costs may be impacted by delays or failure to meet milestones. Substantial performance risk exists in some of these highly complex contracts.

Covid-19 related challenges, including staff absenteeism, supplier disruption and changing customer demands, may also impact the Group's ability to deliver on all aspects of its major contracts such as contract delivery timescales and service levels. Additionally, the Group's customers may experience shrinkage, consolidation or failure as a result of the Covid-19 pandemic, which could have a negative impact on profits.

Failure by the Group to manage and meet its commitments under these contracts, as well as changes in customers' requirements, their budgets, strategies or businesses, may lead to a reduction in the Group's expected future revenue, profitability and cash generation. Unexpectedly high costs associated with the fulfilment of particular transformational contracts could also impact profitability negatively. The Group's brand and reputation may be damaged by service failures, particularly those associated with critical infrastructure contracts and security and data protection services.

One of the Group's highest profile contracts is providing a key element of the UK Emergency Services Network (ESN), which is being delivered on its EE mobile network. The complexities described above will apply to this contract. The service is delivered alongside several partners and is managed by the UK Home Office. Furthermore, the criticality of this service increases the Group's risk exposure, and given the network provides emergency services communications for the UK, any in-life network performance issues could have reputational consequences for the Group.

In addition, the Group continues to deliver a number of contracts with UK local authorities through regional fibre deployment programmes including the Building Digital UK programme. As with the Group's other major contracts, failure to deliver either of these contracts successfully may lead to a reduction in the Group's expected future revenue, profitability and cash generation. These contracts are high-profile and therefore carry a higher reputational risk, and they present specific risks around deployment, delivery and the Group's ability to recover public funding. The Group also has an obligation to potentially either re-invest or repay grant funding depending on a number of factors, including the level of customer take-up achieved.

Fast-changing customer requirements in a post-Brexit business environment and as a result of changed working patterns during the Covid-19 pandemic, together with changes to the geopolitical landscape affecting growth prospects for the Group in certain regions is an emerging risk for the Group.

The Group's customer experience may not be brand enhancing nor drive sustainable profitable growth

Failure of the Group to deliver customers the positive experience they expect with respect to modern, competitive products and solutions combined with outstanding customer service, may cause customers to leave BT for a competitor and damage the Group's brand and reputation. Failure to transform the customer experience could negatively impact customer satisfaction and retention, resulting in a reduction in revenue and damage to the Group's brand and reputation. Service levels may decrease as a result of the reduced retail presence or as a result of migrating to new service platforms. Failure to meet regulatory commitments could result in financial penalties. Any such failure could impact the experience of employees as well, including their pride and advocacy in working for the Group. Perceptions around poor customer experience also have the potential to influence political and regulatory discussions and interventions, which can in turn impact the Group's business. Long-term changes in customer behaviour, requirements and expectations is therefore an emerging risk for the Group.

The integrity and continuity of the Group's supply chain is critical to its operations

The Group operates in a global supply market, and its supply chains range from simple to very complex. There are often several links in the 'chain' of supply of a product or service to the Group. Guaranteeing the integrity and continuity of those links in the supply chain is critical to the Group's operations, and therefore a significant risk to its business.

A global supply market brings better sourcing opportunities, but also brings its own challenges if suppliers become more geographically and culturally remote from the Group's customers, or if governments put barriers in the way of doing business to protect national or regional economic interests.

The Group is committed to ensuring that all dealings with its suppliers, from selection and consultation through to contracting and payment, are in accordance with its trading and ethical policies. A failure in the supplier selection process or in the ongoing management of any of the Group's suppliers could result in disruption to the Group's business, for example, disruption due to worldwide shortages of critical supplies as a result of the Covid-19 pandemic (or other potential future health crises). The Group's business might also be impacted by supplier-related cyber and data security threats.

The speed and scale of the impact from a supply chain failure can vary. The Group must determine the potential damage to the customer experience, the likelihood of higher costs and the potential damage to its brand. Selecting the wrong suppliers for the Group's requirements or over-dependence on certain suppliers could result in poor commercial terms, leading to a detrimental impact on the Group's strategic, market and competitive position.

Failure by the Group to effectively manage its suppliers and sub-suppliers, including their compliance with ethical business practices, could result in business disruption, regulatory fines and/or brand damage, for example, if suppliers fail to meet key regulatory obligations such as the European Union's General Data Protection Regulation 2018 and/or human rights laws and policies.

Emerging risks for the Group include political tensions in regions where the Group has a high concentration of suppliers, reliance on single-source vendors' delivery performance and driver shortages which affect the Group's suppliers' delivery models and consequently may adversely impact the Group's business.

Factors which are material for the purpose of assessing the market risks associated with Notes issued under the Programme

Risks related to the structure of a particular issue of Notes

A wide range of Notes may be issued under the Programme. A number of these Notes may have features which contain particular risks for potential investors. Set out below is a description of the most common such features:

If the Issuer has the right to redeem any Notes at its option, this may limit the market value of the Notes concerned and an investor may not be able to reinvest the redemption proceeds in a manner which achieves a similar effective return

An optional redemption feature of Notes is likely to limit their market value and secondary market of the Notes. During any period when the Issuer may elect to redeem Notes, the market value of those Notes generally will not rise substantially above the price at which they can be redeemed. This also may be true prior to any redemption period.

The Issuer may be expected to redeem Notes when its cost of borrowing is lower than the interest rate on the Notes. At those times, an investor generally would not be able to reinvest the redemption proceeds at an effective interest rate as high as the interest rate on the Notes being redeemed and may only be able to do so at a significantly lower rate. Potential investors should consider reinvestment risk in light of other investments available at that time.

If the Notes include a feature to convert the interest basis from a fixed rate to a floating rate, or vice versa, this may affect the secondary market and the market value of the Notes concerned

Fixed/Floating Rate Notes bear interest at a rate that converts from a fixed rate to a floating rate, or from a floating rate to a fixed rate. Such a feature to convert the interest basis, and any conversion of the interest basis, may affect the secondary market and the market value of such Notes as the change of interest basis may result in a lower interest return for Noteholders. Where the Notes convert from a fixed rate to a floating rate, the spread on the Fixed/Floating Rate Notes may be less favourable than then prevailing spreads on comparable Floating Rate Notes tied to the same reference rate. In addition, the new floating rate at any time may be lower than the prevailing rates on Fixed Rate Notes or the rates on other Notes. Where the Notes convert from a floating rate to a fixed rate, the fixed rate may be lower than then prevailing interest rates and could affect the market value of an investment in the relevant Notes.

The regulation and reform of “benchmarks” may adversely affect the value of, and return on, any Notes linked to or referencing such “benchmarks” and the trading market for such Notes

Interest rates and indices which are deemed “benchmarks” (including, among others, LIBOR and EURIBOR) are the subject of national, international and other regulatory guidance and proposals for reform. These reforms may cause such benchmarks to perform differently than in the past, to disappear entirely, or have other consequences which cannot be predicted. Any such consequence could have an adverse effect on any Notes referencing such a benchmark.

The EU Benchmarks Regulation applies, subject to certain transitional provisions, to the provision of benchmarks, the contribution of input data to a benchmark and the use of a benchmark within the European Union (EU). Among other things, it (i) requires benchmark administrators to be authorised or registered (or, if non-EU-based, to be subject to an equivalent regime or otherwise recognised or endorsed) and (ii) prevents certain uses by EU supervised entities of benchmarks of administrators that are not authorised or registered (or, if non-EU based, not deemed equivalent or recognised or endorsed). The UK Benchmarks Regulation, among other things, applies to the provision of benchmarks and the use of a benchmark in the UK. Similarly, it prohibits the use in the UK by UK supervised entities of benchmarks of administrators that are not authorised by the FCA or registered on the FCA register (or, if non-UK based, not deemed equivalent or recognised or endorsed).

The EU Benchmarks Regulation and/or the UK Benchmarks Regulation, as applicable, could have a material impact on any Notes linked to or referencing a benchmark, in particular, if the methodology or other terms of the benchmark are changed in order to comply with the requirements of the EU Benchmarks Regulation and/or the UK Benchmarks Regulation, as applicable. Such changes could, amongst other things, have the effect of reducing, increasing or otherwise affecting the volatility of the published rate or level of the relevant benchmark. In addition, the EU Benchmarks Regulation stipulates that each administrator of a benchmark regulated thereunder must be licensed by the competent authority of the Member State where such administrator is located. There is a risk that administrators of certain benchmarks will fail to obtain a necessary licence, preventing them from continuing to provide such benchmarks. Other administrators may cease to administer certain benchmarks because of the additional costs of compliance with the EU Benchmarks Regulation or the UK Benchmarks Regulation and other applicable regulations, and the risks associated therewith.

More broadly, any of the international, national or other proposals for reform, or the general increased regulatory scrutiny of benchmarks, could increase the costs and risks of administering or otherwise participating in the setting of a benchmark and complying with any such regulations or requirements. Such factors may have (without limitation) the following effects on certain benchmarks: (i) discouraging market participants from continuing to administer or contribute to a benchmark, (ii) triggering changes in the rules or methodologies used in a benchmark, and/or (iii) leading to the disappearance of a benchmark. Uncertainty about the future of benchmarks, any of the above changes or any other consequential changes as a result of international or national reforms or any other initiatives or investigations, could have a material adverse effect on the value of, and return on, any Notes linked to, referencing or otherwise dependent (in whole or part) upon a benchmark and the trading market for such Notes.

Specifically, the sustainability of LIBOR has been questioned as a result of the absence of relevant active underlying markets and possible disincentives (including possibly as a result of benchmark reforms) for market participants to continue contributing to such benchmarks. The FCA has indicated through a series of announcements that the continuation of LIBOR on the current basis cannot and will not be guaranteed after 2021. On 5 March 2021, ICE Benchmark Administration Limited (**IBA**), the administrator of LIBOR, published a statement confirming its intention to cease publication of all LIBOR settings, together with the dates on which this will occur, subject to the FCA exercising its powers to require IBA to continue publishing such LIBOR settings using a changed methodology (the **IBA announcement**). Concurrently, the FCA published a statement on the future cessation and loss of representativeness of all LIBOR currencies and tenors, following the dates on which IBA has indicated it will cease publication (the **FCA announcement**). Permanent cessation will occur immediately after 31 December 2021 for all Euro and Swiss Franc LIBOR tenors and certain Sterling, Japanese Yen and US Dollar LIBOR settings and immediately after 30 June 2023 for certain other USD LIBOR settings. In relation to the remaining LIBOR settings (1-month, 3-month and 6-month Sterling, US Dollar and Japanese Yen LIBOR settings), the FCA will consult on, or continue to consider the case for, using its powers to require IBA to continue their publication under a changed methodology for a further period after end-2021 (end-June 2023 in the case of US Dollar LIBOR). The FCA announcement states that consequently, these LIBOR settings will no longer be representative of the underlying market that such settings are intended to measure immediately after 31 December 2021, in the case of the Sterling and Japanese Yen LIBOR settings and immediately after 30 June 2023, in the case of the USD LIBOR settings. Any continued publication of the Japanese Yen LIBOR settings will also cease permanently at the end of 2022.

Separately, the euro risk free-rate working group for the euro area has published a set of guiding principles and high level recommendations for fallback provisions in, amongst other things, new euro denominated cash products (including bonds) referencing EURIBOR. The guiding principles indicate, amongst other things, that continuing to reference EURIBOR in relevant contracts (without robust fallback provisions) may increase the risk to the euro area financial system. On 11 May 2021, the euro risk-free rate working group published its recommendations on EURIBOR fallback trigger events and fallback rates.

The “*Terms and Conditions of the Notes*” provide for certain fallback arrangements in the event that an Original Reference Rate and/or any page on which an Original Reference Rate may be published (or any other successor service) becomes unavailable or a Benchmark Event otherwise occurs. Each of the IBA announcement and the FCA announcement referred to above constitute such a Benchmark Event and, accordingly, a Benchmark Event would occur immediately upon issuance of any applicable Floating Rate Notes that are issued on or after the date of this Prospectus. The fallback arrangements include the possibility that the Rate of Interest could be set by reference to a Successor Rate or an Alternative Rate, with or without the application of an adjustment spread and may include amendments to the Terms and Conditions of the Notes to ensure the proper operation of the successor or replacement benchmark, all as determined by the Issuer (acting in good faith and in consultation with an Independent Adviser). An adjustment spread, if applied could be positive or negative and would be applied with a view to reducing or eliminating, to the fullest extent reasonably practicable in the circumstances, any economic prejudice or benefit (as applicable) to investors arising out of the replacement of an Original Reference Rate. However, it may not be possible to determine or apply an adjustment spread and even if an adjustment is applied, such adjustment spread may not be effective to reduce or eliminate economic prejudice to investors. If no adjustment spread can be determined, a Successor Rate or Alternative Rate may nonetheless be used to determine the Rate of Interest. The use of a Successor Rate or Alternative Rate (including with the application of an adjustment spread) will still result in any Notes linked to or referencing an Original Reference Rate performing differently (which may include payment of a lower Rate of Interest) than they would if the Original Reference Rate were to continue to apply in its current form.

If, following the occurrence of a Benchmark Event, no Successor Rate or Alternative Rate is determined, the ultimate fallback for the purposes of calculation of the Rate of Interest for a particular Interest Period may result in the Rate of Interest for the last preceding Interest Period being used. This may result in the effective application of a fixed rate for Floating Rate Notes based on the rate which was last observed on the Relevant Screen Page. Due to the uncertainty concerning the availability of Successor Rates and Alternative Rates, the involvement of an Independent Adviser and

the potential for further regulatory developments there is a risk that the relevant fallback provisions may not operate as intended at the relevant time.

Investors should consult their own independent advisers and make their own assessment about the potential risks imposed by the EU Benchmarks Regulation and/or the UK Benchmarks Regulation, as applicable, or any of the international or national reforms and the possible application of the benchmark replacement provisions of Notes in making any investment decision with respect to any Notes referencing a benchmark.

Notes which are issued at a substantial discount or premium may experience price volatility in response to general changes in interest rates

The market values of securities issued at a substantial discount (such as Zero Coupon Notes) or premium from their principal amount tend to fluctuate more in relation to general changes in interest rates than do prices for conventional interest-bearing securities. Generally, the longer the remaining term of the securities, the greater the price volatility as compared to conventional interest-bearing securities with comparable maturities.

Risks related to Notes generally

Set out below is a brief description of certain risks relating to the Notes generally:

The Terms and Conditions of the Notes contain provisions which may permit their modification without the consent of all investors and confer significant discretions on the Trustee which may be exercised without the consent of the Noteholders and without regard to the individual interests of particular Noteholders

The conditions of the Notes contain provisions for calling meetings of Noteholders to consider matters affecting their interests generally. These provisions permit defined majorities to bind all Noteholders including Noteholders who did not attend and vote at the relevant meeting and Noteholders who voted in a manner contrary to the majority.

The conditions of the Notes also provide that the Trustee (as defined under “*Terms and Conditions of the Notes*”) may, without the consent of Noteholders and without regard to the interests of particular Noteholders, agree to (i) any modification of, or to the waiver or authorisation of any breach or proposed breach of, any of the provisions of the Notes or the Trust Deed (as defined under “*Terms and Conditions of the Notes*”), or determine that any Event of Default (as defined under “*Terms and Conditions of the Notes*”) or potential Event of Default shall not be treated as such, where in any such case it is not, in the opinion of the Trustee, materially prejudicial to the interests of the Noteholders or (ii) any modification which is of a formal or minor or technical nature or is made to correct a manifest error or (iii) the substitution of another company as principal debtor under any Notes in place of the Issuer, in the circumstances described in Condition 14 of the conditions of the Notes.

Investors who hold less than the minimum Specified Denomination may be unable to sell their Notes and may be adversely affected if definitive Notes are subsequently required to be issued

In relation to any issue of Notes which have denominations consisting of a minimum Specified Denomination plus one or more higher integral multiples of another smaller amount, it is possible that such Notes may be traded in amounts that are not integral multiples of such minimum Specified Denomination. In such a case a holder who, as a result of trading such amounts, holds an amount which is less than the minimum Specified Denomination in his account with the relevant clearing system would not be able to sell the remainder of such holding without first purchasing a principal amount of Notes at or in excess of the minimum Specified Denomination such that its holding amounts to a Specified Denomination. Further, a holder who, as a result of trading such amounts, holds an amount which is less than the minimum Specified Denomination in his account with the relevant clearing system at the relevant time may not receive a definitive Note in respect of such holding (should definitive Notes be printed) and would need to purchase a nominal amount of Notes at or in excess of the minimum Specified Denomination such that its holding amounts to the Specified Denomination.

If definitive Notes are issued, holders should be aware that definitive Notes which have a denomination that is not an integral multiple of the minimum Specified Denomination may be illiquid and difficult to trade.

The value of the Notes could be adversely affected by a change in English law or administrative practice

The conditions of the Notes are based on English law in effect as at the date of issue of the relevant Notes. No assurance can be given as to the impact of any possible judicial decision or change to English law or any administrative practice after the date of issue of the relevant Notes and any such change could materially adversely impact the value of any Notes affected by it.

Risks related to the market generally

Set out below is a brief description of the principal market risks, including liquidity risk, exchange rate risk, interest rate risk and credit risk:

An active secondary market in respect of the Notes may never be established or it may be illiquid and this would adversely affect the value at which an investor could sell his Notes

Notes may have no established trading market when issued, and one may never develop. If a market does develop, it may not be very liquid. Therefore, investors may not be able to sell their Notes easily or at prices that will provide them with a yield comparable to similar investments that have a developed secondary market. This is particularly the case for Notes that are especially sensitive to interest rate, currency or market risks, are designed for specific investment objectives or strategies or have been structured to meet the investment requirements of limited categories of investors. These types of Notes generally would have a more limited secondary market and more price volatility than conventional debt securities. Illiquidity may have a severely adverse effect on the market value of Notes.

If the level of global credit market conditions experienced during 2008 were to recur at the same level or worsen, whereby there is a general lack of liquidity in the secondary market for instruments similar to the Notes, such lack of liquidity may result in investors suffering losses on the Notes in secondary resales even if there is no decline in the performance of the assets of the Issuer.

If an investor holds Notes which are not denominated in the investor's home currency, he will be exposed to movements in exchange rates adversely affecting the value of his holding. In addition, the imposition of exchange controls in relation to any Notes could result in an investor not receiving payments on those Notes

The Issuer will pay principal and interest on the Notes and the Guarantor will make any payments under the Deed of Guarantee in the Specified Currency. This presents certain risks relating to currency conversions if an investor's financial activities are denominated principally in a currency or currency unit (the **Investor's Currency**) other than the Specified Currency. These include the risk that exchange rates may significantly change (including changes due to devaluation of the Specified Currency or revaluation of the Investor's Currency) and the risk that authorities with jurisdiction over the Investor's Currency may impose or modify exchange controls. An appreciation in the value of the Investor's Currency relative to the Specified Currency would decrease (1) the Investor's Currency-equivalent yield on the Notes, (2) the Investor's Currency-equivalent value of the principal payable on the Notes and (3) the Investor's Currency-equivalent market value of the Notes.

Government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable exchange rate or the ability of the Issuer or the Guarantor to make payments in respect of the Notes. As a result, investors may receive less interest or principal than expected, or no interest or principal.

The value of Fixed Rate Notes may be adversely affected by movements in market interest rates

Investment in Fixed Rate Notes involves the risk that if market interest rates subsequently increase above the rate paid on the Fixed Rate Notes, this will adversely affect the value of the Fixed Rate Notes.

Credit ratings assigned to the Issuer or any Notes may not reflect all risks associated with an investment in those Notes

As described on the front page of this Prospectus, certain credit rating agencies have assigned credit ratings to the Issuer's senior long term debt obligations and one or more independent credit rating agencies may assign credit ratings to the Notes. The ratings may not reflect the potential impact of all risks related to structure, market, additional factors discussed above, and other factors that may affect the value of the Notes. A credit rating is not a recommendation to buy, sell or hold securities and may be revised, suspended or withdrawn by the rating agency at any time.

In general, European regulated investors are restricted under the CRA Regulation from using credit ratings for regulatory purposes in the EEA, unless such ratings are issued by a credit rating agency established in the EEA and

registered under the CRA Regulation (and such registration has not been withdrawn or suspended), subject to transitional provisions that apply in certain circumstances whilst the registration application is pending. Such general restriction will also apply in the case of credit ratings issued by third country non-EEA credit rating agencies, unless the relevant credit ratings are endorsed by an EEA-registered credit rating agency or the relevant third country rating agency is certified in accordance with the CRA Regulation (and such endorsement action or certification, as the case may be, has not been withdrawn or suspended, subject to transitional provisions that apply in certain circumstances). The list of registered and certified rating agencies published by ESMA on its website in accordance with the CRA Regulation is not conclusive evidence of the status of the relevant rating agency included in such list, as there may be delays between certain supervisory measures being taken against a relevant rating agency and the publication on the ESMA list.

Investors regulated in the UK are subject to similar restrictions under the UK CRA Regulation. As such, UK regulated investors are required to use for UK regulatory purposes ratings issued by a credit rating agency established in the UK and registered under the UK CRA Regulation. In the case of ratings issued by third country non-UK credit rating agencies, third country credit ratings can either be: (a) endorsed by a UK-registered credit rating agency; or (b) issued by a third country credit rating agency that is certified in accordance with the UK CRA Regulation. Note this is subject, in each case, to (a) the relevant UK registration, certification or endorsement, as the case may be, not having been withdrawn or suspended, and (b) transitional provisions that apply in certain circumstances.

If the status of the rating agency rating the Notes changes, for the purposes of the CRA Regulation or the UK CRA Regulation, relevant regulated investors may no longer be able to use the rating for regulatory purposes in the EEA or the UK, as applicable, and the Notes may have a different regulatory treatment. This may result in relevant regulated investors selling the Notes which may impact the value of the Notes and any secondary market. Where a Tranche of Notes is rated, such rating will be specified in the applicable Final Terms and certain information with respect to the credit rating agencies will be disclosed in the applicable Final Terms.

Notes issued with a specific use of proceeds, such as specified green projects, may not be suitable for the specific investment criteria of an investor

The Final Terms relating to any specific Tranche of Notes may provide that it will be the Issuer's intention to apply an amount equal to the net proceeds of the issue of such Notes to specified projects and activities that promote sustainability, climate-friendly and other environmental purposes (**Green Projects**), in accordance with certain prescribed eligibility criteria. The Dealer is not responsible for assessing or verifying whether or not the specified green projects meet the prescribed eligibility criteria or for the monitoring of the use of proceeds. Prospective investors should have regard to the information set out in the applicable Final Terms regarding such use of proceeds and must determine for themselves the relevance of such information for the purpose of any investment in such Notes together with any other investigation such investor deems necessary. In particular, no assurance is given by the Issuer or the Dealer that the use of such proceeds for any Green Projects will satisfy, whether in whole or in part, any present or future investor expectations or requirements as regards any investment criteria or guidelines with which such investor or its investments are required to comply, whether by any present or future applicable law or regulations or by its own by-laws or other governing rules or investment portfolio mandates, in particular with regard to any direct or indirect environmental, sustainability or social impact of any projects or uses, the subject of or related to, any Green Projects. Furthermore, there is currently no clear definition (legal, regulatory or otherwise) of, nor market consensus as to which precise attributes are required for a particular project to be defined as "green" or "sustainable" or an equivalently-labelled project, and therefore no assurance can be provided to potential investors that the use of proceeds specified in the applicable Final Terms will meet an investor's expectations regarding environmental performance and/or sustainability performance and/or equivalently-labelled performance objectives or continue to meet the relevant eligibility criteria or that any adverse environmental, social and/or other impacts will not occur during the implementation of any projects or uses the subject of, or related to, any Green Projects.

No assurance or representation is given as to the suitability or reliability for any purpose whatsoever of any opinion or certification of any third party (whether or not solicited by the Issuer) which may be made available in connection with the issue of any Notes and, in particular, with any Green Projects to fulfil any environmental, sustainability, social and/or other criteria. For the avoidance of doubt, any such opinion or certification is not, nor shall be deemed to be, incorporated in and/or form part of this Prospectus or the applicable Final Terms. Any such opinion or certification is not, nor should be deemed to be, a recommendation by the Issuer or any other person to buy, sell or hold any such Notes. Any such opinion or certification is only current as of the date that opinion was initially issued. Prospective investors must determine for themselves the relevance of any such opinion or certification and/or the information contained therein and/or the provider of such opinion or certification for the purpose of any investment in such Notes. Currently, the providers of such opinions and certifications are not subject to any specific regulatory or other regime or oversight.

In the event that any such Notes are listed or admitted to trading on any dedicated “green”, “environmental”, “sustainable” or other equivalently-labelled segment of any stock exchange or securities market (whether or not regulated), or are included in any dedicated “green”, “environmental”, “sustainable” or other equivalently-labelled index or indices, no representation or assurance is given by the Issuer, the Dealer or any other person that such listing or admission, or inclusion in such index or indices, satisfies, whether in whole or in part, any present or future investor expectations or requirements as regards any investment criteria or guidelines with which such investor or its investments are required to comply, whether by any present or future applicable law or regulations or by its own by-laws or other governing rules or investment portfolio mandates, in particular with regard to any direct or indirect environmental, sustainability or social impact of any projects or uses, the subject of or related to, any Green Projects. Furthermore, it should be noted that the criteria for any such listings or admission to trading may vary from one stock exchange or securities market to another and also the criteria for inclusion in such index or indices may vary from one index to another. Nor is any representation or assurance given or made by the Issuer, the Dealer or any other person that any such listing or admission to trading, or inclusion in any such index or indices, will be obtained in respect of any such Notes or, if obtained, that any such listing or admission to trading, or inclusion in such index or indices, will be maintained during the life of the Notes.

While it is the intention of the Issuer to apply the proceeds of any Notes so specified for Green Projects in, or substantially in, the manner described in the applicable Final Terms, there can be no assurance that the relevant project(s) or use(s) the subject of, or related to, any Green Projects will be capable of being implemented in, or substantially in, such manner and/or in accordance with any timing schedule and that accordingly such proceeds will be totally or partially disbursed for such Green Projects. Nor can there be any assurance that such Green Projects will be completed within any specified period or at all or with the results or outcome (whether or not related to the environment) as originally expected or anticipated by the Issuer.

Any such event or failure to apply the proceeds of any issue of Notes for any Green Projects as aforesaid and/or withdrawal of any such opinion or certification or any such opinion or certification attesting that the Issuer is not complying in whole or in part with any matters for which such opinion or certification is opining or certifying on and/or any such Notes no longer being listed or admitted to trading on any stock exchange or securities market or inclusion in such index or indices as aforesaid may have a material adverse effect on the value of such Notes and also potentially the value of any other Notes which are intended to finance Green Projects and/or result in adverse consequences for certain investors with portfolio mandates to invest in securities to be used for a particular purpose.

FORM OF THE NOTES

Each Tranche of Notes will be in bearer form and will initially be issued in the form of a temporary global note (a **Temporary Global Note**) or, if so specified in the applicable Final Terms, a permanent global note (a **Permanent Global Note** and, together with a Temporary Global Note, the **Global Notes**) which, in the case of either Global Note, will:

- (i) if it is intended to be issued in NGN form, as stated in the applicable Final Terms, be delivered on or prior to the original issue date of the Tranche to the Common Safekeeper for Euroclear and Clearstream, Luxembourg; and
- (ii) if it is not intended to be issued in NGN form, be delivered on or prior to the original issue date of the Tranche to the Common Depository for Euroclear and Clearstream, Luxembourg.

Where the Global Notes issued in respect of any Tranche are in NGN form, the applicable Final Terms will indicate whether or not such Global Notes are intended to be held in a manner which would allow Eurosystem eligibility. Any indication that the Global Notes are to be so held does not necessarily mean that the Notes of the relevant Tranche will be recognised as eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem either upon issue or at any times during their life as such recognition depends upon satisfaction of the Eurosystem eligibility criteria.

Whilst any Note is represented by a Temporary Global Note, payments of principal, interest (if any) and any other amount payable in respect of the Notes due prior to the Exchange Date (as defined below) will be made (against presentation of the Temporary Global Note if the Temporary Global Note is not intended to be issued in NGN form) only to the extent that certification (in a form to be provided) to the effect that the beneficial owners of interests in such Note are not U.S. persons or persons who have purchased for resale to any U.S. person, as required by U.S. Treasury regulations, has been received by Euroclear and/or Clearstream, Luxembourg and Euroclear and/or Clearstream, Luxembourg, as applicable, has given a like certification (based on the certifications it has received) to the Agent.

On and after the date (the **Exchange Date**) which is 40 days after a Temporary Global Note is issued, interests in such Temporary Global Note will be exchangeable (free of charge) upon a request as described therein either for (a) interests in a Permanent Global Note of the same Series or (b) definitive Notes of the same Series with, where applicable, interest coupons and talons attached (as indicated in the applicable Final Terms and subject, in the case of definitive Notes, to such notice period as is specified in the applicable Final Terms), in each case against certification of non-U.S. beneficial ownership as described above unless such certification has already been given. The holder of a Temporary Global Note will not be entitled to collect any payment of interest, principal or other amount due on or after the Exchange Date unless, upon due certification, exchange of the Temporary Global Note for an interest in a Permanent Global Note or for definitive Notes is improperly withheld or refused.

Payments of principal, interest (if any) or any other amounts on a Permanent Global Note will be made through Euroclear and/or Clearstream, Luxembourg (against presentation or surrender (as the case may be) of the Permanent Global Note if the Permanent Global Note is not intended to be issued in NGN form) without any requirement for certification.

If a Global Note is a NGN, the Issuer shall procure that details of payment of principal, interest (if any) or any other amounts payable in respect of such Global Note, shall be entered *pro rata* in the records of the relevant clearing system and in the case of payments of principal, the nominal amount of the Notes recorded in the records of the relevant clearing system and represented by such Global Note will be reduced accordingly. Payments under the NGN will be made to its holder. Each payment so made will discharge the Issuer's obligations in respect thereof. Any failure to make the entries in the records of the relevant clearing system shall not affect such discharge.

The applicable Final Terms will specify that a Permanent Global Note will be exchangeable (free of charge), in whole but not in part, for definitive Notes with, where applicable, interest coupons and talons attached upon either (a) not less than 60 days' written notice from Euroclear and/or Clearstream, Luxembourg (acting on the instructions of any holder of an interest in such Permanent Global Note) to the Agent as described therein or (b) only upon the occurrence of an Exchange Event. For these purposes, **Exchange Event** means that the Issuer has been notified that both Euroclear and Clearstream, Luxembourg have been closed for business for a continuous period of 14 days (other than by reason of holiday, statutory or otherwise) or have announced an intention permanently to cease business or have in fact done so and no successor clearing system satisfactory to the Trustee is available. The Issuer will promptly give notice to Noteholders in accordance with Condition 13 if an Exchange Event occurs. In the event of the occurrence of an Exchange Event, Euroclear and/or Clearstream, Luxembourg (acting on the instructions of any holder of an interest in

such Permanent Global Note) or the Trustee may give notice to the Agent requesting exchange. Any such exchange shall occur not later than 45 days after the date of receipt of the first relevant notice by the Agent.

The applicable Final Terms will specify whether the Notes will be represented upon issue by:

- (i) a Temporary Global Note exchangeable for a Permanent Global Note which is exchangeable for definitive Notes only upon an Exchange Event; or
- (ii) a Temporary Global Note exchangeable for definitive Notes on and after the Exchange Date; or
- (iii) a Permanent Global Note exchangeable for definitive Notes only upon an Exchange Event.

The exchange of a Permanent Global Note for definitive Notes upon notice from Euroclear and/or Clearstream, Luxembourg (acting on the instructions of any holder) or at any time at the request of the Issuer should not be expressed to be applicable in the applicable Final Terms if the Notes are issued with a minimum Specified Denomination such as €100,000 (or its equivalent in another currency) plus one or more higher integral multiples of another smaller amount such as €1,000 (or its equivalent in another currency). Furthermore, such Specified Denomination construction is not permitted in relation to any issue of Notes which is to be represented on issue by a Temporary Global Note exchangeable for definitive Notes.

The applicable Final Terms will specify whether or not talons for future interest coupons are to be attached to definitive Notes where the Notes have more than 27 coupon payments, as talons may be required if, on exchange of such Notes into definitive form, more than 27 coupon payments remain to be made.

The following legend will appear on all Notes which have an original maturity of more than one year and on all interest coupons relating to such Notes:

“ANY UNITED STATES PERSON WHO HOLDS THIS OBLIGATION WILL BE SUBJECT TO LIMITATIONS UNDER THE UNITED STATES INCOME TAX LAWS, INCLUDING THE LIMITATIONS PROVIDED IN SECTIONS 165(j) AND 1287(a) OF THE INTERNAL REVENUE CODE.”

The sections referred to provide that United States holders, with certain exceptions, will not be entitled to deduct any loss on Notes or interest coupons and will not be entitled to capital gains treatment in respect of any gain on any sale, disposition, redemption or payment of principal in respect of such Notes or interest coupons.

Notes which are represented by a Global Note will only be transferable in accordance with the rules and procedures for the time being of Euroclear or Clearstream, Luxembourg, as the case may be.

Pursuant to the Agency Agreement (as defined under “*Terms and Conditions of the Notes*”), the Agent shall arrange that, where a further Tranche of Notes is issued which is intended to form a single Series with an existing Tranche of Notes at a point after the Issue Date of the further Tranche, the Notes of such further Tranche shall be assigned a common code and ISIN which are different from the common code and ISIN assigned to Notes of any other Tranche of the same Series until such time as the Tranches are consolidated and form a single Series, which shall not be prior to the expiry of the distribution compliance period (as defined in Regulation S under the Securities Act) applicable to the Notes of such Tranche.

Any reference herein to Euroclear and/or Clearstream, Luxembourg shall, whenever the context so permits (but not in the case of any NGN), be deemed to include a reference to any additional or alternative clearing system specified in the applicable Final Terms.

No Noteholder or Couponholder shall be entitled to proceed directly against the Issuer or the Guarantor unless the Trustee, having become bound so to proceed, fails so to do within a reasonable period and the failure shall be continuing.

Consequently, no key information document required by Regulation (EU) No 1286/2014 as it forms part of UK domestic law by virtue of the EUWA (the **UK PRIIPs Regulation**) for offering or selling the Notes or otherwise making them available to retail investors in the UK has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.

The applicable Final Terms (or the relevant provisions thereof) will be endorsed upon, or attached to, each Global Note and definitive Note.

This Note is one of a Series (as defined below) of Notes issued by British Telecommunications public limited company (the **Issuer**) constituted by a Trust Deed dated 12 December 1997 (such Trust Deed as modified and/or supplemented and/or restated from time to time, the **Trust Deed**) made between the Issuer and The Law Debenture Trust Corporation p.l.c. (the **Trustee**, which expression shall include any successor as Trustee).

References herein to the **Notes** shall be references to the Notes of this Series and shall mean:

Interest bearing definitive Notes have interest coupons (**Coupons**) and, if indicated in the applicable Final Terms, talons for further Coupons (**Talons**) attached on issue. Any reference herein to Coupons or coupons shall, unless the context otherwise requires, be deemed to include a reference to Talons or talons. Global Notes do not have Coupons or Talons attached on issue.

The final terms for this Note (or the relevant provisions thereof) are set out in Part A of the Final Terms attached to or endorsed on this Note which supplement these Terms and Conditions (the **Conditions**). References to the **applicable Final Terms** are to the Final Terms (or the relevant provisions thereof) attached to or endorsed on this Note.

The Trustee acts for the benefit of the holders for the time being of the Notes (the **Noteholders**, which expression shall, in relation to any Notes represented by a Global Note, be construed as provided below) and the holders of the Coupons (the **Couponholders**, which expression shall, unless the context otherwise requires, include the holders of the Talons), in accordance with the provisions of the Trust Deed.

As used herein, **Tranche** means Notes which are identical in all respects (including as to admission to trading) and **Series** means a Tranche of Notes together with any further Tranche or Tranches of Notes which are (a) expressed to be consolidated and form a single series and (b) identical in all respects (including as to admission to trading) except for their respective Issue Dates, Interest Commencement Dates and/or Issue Prices.

Copies of the Trust Deed and the Agency Agreement are available for inspection during normal business hours at the registered office for the time being of the Trustee being at Fifth Floor, 100 Wood Street, London EC2V 7EX and at the specified office of each of the Paying Agents. The statements in the Conditions include summaries of, and are subject to, the detailed provisions of the Trust Deed and the Agency Agreement.

Words and expressions defined in the Trust Deed, the Agency Agreement or used in the applicable Final Terms shall have the same meanings where used in the Conditions unless the context otherwise requires or unless otherwise stated and provided that, in the event of inconsistency between the Trust Deed and the Agency Agreement, the Trust Deed will

prevail and, in the event of inconsistency between the Trust Deed or the Agency Agreement and the applicable Final Terms, the applicable Final Terms will prevail.

In the Conditions, **euro** means the currency introduced at the start of the third stage of European economic and monetary union pursuant to the Treaty on the Functioning of the European Union, as amended.

1. FORM, DENOMINATION AND TITLE

The Notes are in bearer form and, in the case of definitive Notes, serially numbered, in the currency (the **Specified Currency**) and the denomination(s) (the **Specified Denomination(s)**) specified in the applicable Final Terms. Notes of one Specified Denomination may not be exchanged for Notes of another Specified Denomination.

Notes issued under this Programme which require the publication of a prospectus under the Prospectus Directive 2003/71/EC (as amended or superseded), and any relevant implementing measure in the relevant Member State of the European Economic Area, are required to have a minimum Specified Denomination of €100,000 (or its equivalent in any other currency as at the date of issue of the relevant Notes).

This Note may be a Note bearing interest on a fixed rate basis (**Fixed Rate Note**), a Note bearing interest on a floating rate basis (**Floating Rate Note**), a Note issued on a non-interest bearing basis (**Zero Coupon Note**) or a combination of any of the foregoing, depending upon the interest basis specified in the applicable Final Terms.

Definitive Notes are issued with Coupons attached, unless they are Zero Coupon Notes in which case references to Coupons and Couponholders in the Conditions are not applicable.

Subject as set out below, title to the Notes and Coupons will pass by delivery. The Issuer, the Paying Agents and the Trustee will (except as otherwise required by law) deem and treat the bearer of any Note or Coupon as the absolute owner thereof (whether or not overdue and notwithstanding any notice of ownership or writing thereon or notice of any previous loss or theft thereof) for all purposes but, in the case of any Global Note, without prejudice to the provisions set out in the next succeeding paragraph.

For so long as any of the Notes are represented by a Global Note held on behalf of Euroclear Bank SA/NV (**Euroclear**) and/or Clearstream Banking S.A. (**Clearstream, Luxembourg**), each person (other than Euroclear or Clearstream, Luxembourg) who is for the time being shown in the records of Euroclear or of Clearstream, Luxembourg as the holder of a particular nominal amount of such Notes (in which regard any certificate or other document issued by Euroclear or Clearstream, Luxembourg as to the nominal amount of such Notes standing to the account of any person shall be conclusive and binding for all purposes save in the case of manifest error) shall be treated by the Issuer, the Paying Agents and the Trustee as the holder of such nominal amount of such Notes for all purposes other than with respect to the payment of principal or interest on such nominal amount of such Notes, for which purpose the bearer of the relevant Global Note shall be treated by the Issuer, any Paying Agent and the Trustee as the holder of such nominal amount of such Notes in accordance with and subject to the terms of the relevant Global Note and the expressions **Noteholder** and **holder of Notes** and related expressions shall be construed accordingly. In determining whether a particular person is entitled to a particular nominal amount of Notes as aforesaid, the Trustee may rely on such evidence and/or information and/or certification as it shall, in its absolute discretion, think fit and, if it does so rely, such evidence and/or information and/or certification shall, in the absence of manifest error, be conclusive and binding on all concerned.

Notes which are represented by a Global Note will be transferable only in accordance with the rules and procedures for the time being of Euroclear and Clearstream, Luxembourg, as the case may be. References to Euroclear and/or Clearstream, Luxembourg shall, whenever the context so permits, be deemed to include a reference to any additional or alternative clearing system specified in the applicable Final Terms.

2. STATUS OF THE NOTES

The Notes and any relative Coupons are direct, unconditional, unsubordinated and (subject to the provisions of Condition 3) unsecured obligations of the Issuer and rank *pari passu* among themselves and (save for certain obligations required to be preferred by law) equally with all other unsecured obligations (other than subordinated obligations, if any) of the Issuer, from time to time outstanding.

3. **NEGATIVE PLEDGE**

If Negative Pledge is specified in the applicable Final Terms, then so long as any of the Notes is outstanding (as defined in the Trust Deed), the Issuer shall not, and shall cause the Subsidiaries not to, directly or indirectly, create, assume or incur or permit to be created, assumed or incurred, any Lien on or with respect to any of the assets of the Issuer or any of the Subsidiaries whether now or hereafter owned, to secure any present or future Capital Markets Indebtedness issued or guaranteed by the Issuer or any other Person without at the same time according to the Notes, to the satisfaction of the Trustee, the same security or such other arrangement (whether or not comprising security) as the Trustee shall, in its absolute discretion, deem not materially less beneficial to the Noteholders, or as shall have been approved by an Extraordinary Resolution (as defined in the Trust Deed) of the Noteholders.

Lien means any mortgage, pledge, hypothecation, charge, assignment, deposit arrangement, encumbrance, security interest, lien (statutory or otherwise), or preference, priority or other security or similar agreement or preferential arrangement of any kind or nature whatsoever (including, without limitation, any agreement to give or grant a Lien or any lease, conditional sale or other title retention agreement having substantially the same economic effect as any of the foregoing);

Person means any individual, corporation, partnership, joint venture, trust, unincorporated organisation or government or any agency or political subdivision thereof; and

Subsidiary means, for the purpose of this Condition 3 only, (i) a corporation more than 50 per cent. of the outstanding voting shares of which is owned, directly or indirectly, by the Issuer, or by one or more other Subsidiaries of the Issuer, or by the Issuer and one or more other Subsidiaries of the Issuer; (ii) any general partnership, joint venture or similar entity, at least 50 per cent. of the outstanding partnership or similar interest of which is owned, directly or indirectly, by the Issuer, or by one or more other Subsidiaries of the Issuer, or by the Issuer and one or more other Subsidiaries of the Issuer; and (iii) any limited partnership of which the Issuer or any other Subsidiary of the Issuer is a general partner.

4. **INTEREST**

4.1 **Interest on Fixed Rate Notes**

Each Fixed Rate Note bears interest from (and including) the Interest Commencement Date at the rate(s) per annum equal to the Rate(s) of Interest. Interest will be payable in arrear on the Interest Payment Date(s) in each year up to (and including) the Maturity Date.

If the Notes are in definitive form, except as provided in the applicable Final Terms, or if the applicable Final Terms specify that a Fixed Coupon Amount or Broken Amount(s) applies in the case of Notes represented by a Global Note, the amount of interest payable on each Interest Payment Date in respect of the Fixed Interest Period ending on (but excluding) such date will amount to the Fixed Coupon Amount. Payments of interest on any Interest Payment Date will, if so specified in the applicable Final Terms, amount to the Broken Amount so specified.

As used in the Conditions, **Fixed Interest Period** means the period from (and including) an Interest Payment Date (or the Interest Commencement Date) to (but excluding) the next (or first) Interest Payment Date.

Unless specified otherwise in the applicable Final Terms, the **Following Business Day Convention** will apply to the payment of all Fixed Rate Notes, meaning that if the Interest Payment Date or Maturity Date would otherwise fall on a day which is not a Business Day (as defined in Condition 4.2(a) below), the related payment of principal or interest will be made on the next succeeding Business Day as if made on the date such payment was due. If the **Modified Following Business Day Convention** is specified in the applicable Final Terms for any Fixed Rate Note, it shall mean that if the Interest Payment Date or Maturity Date would otherwise fall on a day which is not a Business Day (as defined in Condition 4.2(a) below), the related

payment of principal or interest will be made on the next succeeding Business Day as if made on the date such payment was due unless it would thereby fall into the next calendar month in which event the full amount of payment shall be made on the immediately preceding Business Day as if made on the day such payment was due. Unless specified otherwise in the applicable Final Terms, the amount of interest due shall not be changed if payment is made on a day other than an Interest Payment Date or the Maturity Date as a result of the application of a Business Day Convention specified above or other Business Day Convention specified in the applicable Final Terms.

Except in the case of Notes in definitive form where an applicable Fixed Coupon Amount or Broken Amount is specified in the applicable Final Terms, interest shall be calculated in respect of any period by applying the Rate of Interest to:

- (a) in the case of Fixed Rate Notes which are represented by a Global Note, the aggregate outstanding nominal amount of the Fixed Rate Notes represented by such Global Note; or
- (b) in the case of Fixed Rate Notes in definitive form, the Calculation Amount,

and, in each case, multiplying such sum by the applicable Day Count Fraction, and rounding the resultant figure to the nearest sub-unit of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention. Where the Specified Denomination of a Fixed Rate Note in definitive form is a multiple of the Calculation Amount, the amount of interest payable in respect of such Fixed Rate Note shall be the product of the amount (determined in the manner provided above) for the Calculation Amount and the amount by which the Calculation Amount is multiplied to reach the Specified Denomination, without any further rounding.

Day Count Fraction means, in respect of the calculation of an amount of interest in accordance with this Condition 4.1:

- (a) if “Actual/Actual (ICMA)” is specified in the applicable Final Terms:
 - (i) in the case of Notes where the number of days in the relevant period from (and including) the most recent Interest Payment Date (or, if none, the Interest Commencement Date) to (but excluding) the relevant payment date (the **Accrual Period**) is equal to or shorter than the Determination Period during which the Accrual Period ends, the number of days in such Accrual Period divided by the product of (I) the number of days in such Determination Period and (II) the number of Determination Dates (as specified in the applicable Final Terms) that would occur in one calendar year; or
 - (ii) in the case of Notes where the Accrual Period is longer than the Determination Period during which the Accrual Period ends, the sum of:
 - (A) the number of days in such Accrual Period falling in the Determination Period in which the Accrual Period begins divided by the product of (x) the number of days in such Determination Period and (y) the number of Determination Dates that would occur in one calendar year; and
 - (B) the number of days in such Accrual Period falling in the next Determination Period divided by the product of (x) the number of days in such Determination Period and (y) the number of Determination Dates that would occur in one calendar year; and
- (b) if “30/360” is specified in the applicable Final Terms, the number of days in the period from (and including) the most recent Interest Payment Date (or, if none, the Interest Commencement Date) to (but excluding) the relevant payment date (such number of days being calculated on the basis of a year of 360 days with 12 30-day months) divided by 360.

In the Conditions:

Determination Period means each period from (and including) a Determination Date to (but excluding) the next Determination Date (including, where either the Interest Commencement Date or the final Interest Payment Date is not a Determination Date, the period commencing on the first Determination Date prior to, and ending on the first Determination Date falling after, such date); and

sub-unit means, with respect to any currency other than euro, the lowest amount of such currency that is available as legal tender in the country of such currency and, with respect to euro, one cent.

4.2 Interest on Floating Rate Notes

(a) Interest Payment Dates

Each Floating Rate Note bears interest from (and including) the Interest Commencement Date and such interest will be payable in arrear on either:

- (i) the Specified Interest Payment Date(s) in each year specified in the applicable Final Terms; or
- (ii) if no Specified Interest Payment Date(s) is/are specified in the applicable Final Terms, each date (each such date, together with each Specified Interest Payment Date, an **Interest Payment Date**) which falls the number of months or other period specified as the Specified Period in the applicable Final Terms after the preceding Interest Payment Date or, in the case of the first Interest Payment Date, after the Interest Commencement Date.

Such interest will be payable in respect of each Interest Period. In the Conditions, **Interest Period** means the period from (and including) an Interest Payment Date (or the Interest Commencement Date) to (but excluding) the next (or first) Interest Payment Date.

If a Business Day Convention is specified in the applicable Final Terms and (x) if there is no numerically corresponding day in the calendar month in which an Interest Payment Date should occur or (y) if any Interest Payment Date would otherwise fall on a day which is not a Business Day, then, if the Business Day Convention specified is:

- (A) in any case where Specified Periods are specified in accordance with Condition 4.2(a)(ii) above, the Floating Rate Convention, such Interest Payment Date (a) in the case of (x) above, shall be the last day that is a Business Day in the relevant month and the provisions of (ii) below shall apply mutatis mutandis or (b) in the case of (y) above, shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event (i) such Interest Payment Date shall be brought forward to the immediately preceding Business Day and (ii) each subsequent Interest Payment Date shall be the last Business Day in the month which falls the Specified Period after the preceding applicable Interest Payment Date occurred; or
- (B) the Following Business Day Convention, such Interest Payment Date shall be postponed to the next day which is a Business Day; or
- (C) the Modified Following Business Day Convention, such Interest Payment Date shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event such Interest Payment Date shall be brought forward to the immediately preceding Business Day; or
- (D) the Preceding Business Day Convention, such Interest Payment Date shall be brought forward to the immediately preceding Business Day.

In the Conditions, **Business Day** means a day which is both:

- (a) a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in London and any Additional Business Centre specified in the applicable Final Terms; and
- (b) either (i) in relation to any sum payable in a Specified Currency other than euro, a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in the principal financial centre of the country of the relevant Specified Currency (which if the Specified Currency is Australian dollars or New Zealand dollars shall be Sydney and Auckland, respectively) or (ii) in relation to any sum payable in euro, a day on which the Trans-European Automated Real-Time Gross Settlement Express Transfer (TARGET2) System (the **TARGET2 System**) is open.

(b) Rate of Interest

The Rate of Interest payable from time to time in respect of Floating Rate Notes will be determined in the manner specified in the applicable Final Terms.

(i) ISDA Determination for Floating Rate Notes

Where ISDA Determination is specified in the applicable Final Terms as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Period will be the relevant ISDA Rate plus or minus (as indicated in the applicable Final Terms) the Margin (if any). For the purposes of this subparagraph (i), **ISDA Rate** for an Interest Period means a rate equal to the Floating Rate that would be determined by the Agent under an interest rate swap transaction if the Agent were acting as Calculation Agent for that swap transaction under the terms of an agreement incorporating the 2006 ISDA Definitions, as published by the International Swaps and Derivatives Association, Inc. and as amended and updated as at the Issue Date of the first Tranche of the Notes (the **ISDA Definitions**) and under which:

- (A) the Floating Rate Option is as specified in the applicable Final Terms;
- (B) the Designated Maturity is a period specified in the applicable Final Terms; and
- (C) the relevant Reset Date is the day specified in the applicable Final Terms.

For the purposes of this subparagraph (i), **Floating Rate, Calculation Agent, Floating Rate Option, Designated Maturity** and **Reset Date** have the meanings given to those terms in the ISDA Definitions.

Unless otherwise stated in the applicable Final Terms the Minimum Rate of Interest shall be deemed to be zero.

(ii) Screen Rate Determination for Floating Rate Notes

Where Screen Rate Determination is specified in the applicable Final Terms as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Period will, subject as provided below, be either:

- (A) the rate or offered quotation (if there is only one rate or offered quotation on the Relevant Screen Page); or
- (B) the arithmetic mean (rounded if necessary to the fifth decimal place, with 0.000005 being rounded upwards) of the rates or offered quotations,

(expressed as a percentage rate per annum) for the Reference Rate (being either LIBOR or EURIBOR, as specified in the applicable Final Terms) for deposits in the Specified Currency for that Interest Period which appears or appear, as the case may be, on the Relevant Screen Page (or such replacement page on that service which displays the information) as at 11.00 a.m. (London time in the case of LIBOR, or Brussels time, in the case of EURIBOR) on the Interest Determination Date in question plus or minus (as indicated in the applicable Final Terms) the Margin (if any). If, in the case of (B) above, five or more of such rates or offered quotations are available on the Relevant Screen Page, the highest (or, if there is more than one such highest rate or offered quotation, one only of such rates or offered quotations) and the lowest (or, if there is more than one such lowest rate or offered quotation, one only of such rates or offered quotations) shall be disregarded by the Agent for the purpose of determining the arithmetic mean (rounded as provided above) of such rates or offered quotations.

If the Relevant Screen Page is not available or if, in the case of (A) above, no such rate or offered quotation appears or, in the case of (B) above, fewer than three of such rates or offered quotations appear, in each case as at the time specified in the preceding paragraph, the Agent shall request the principal London office of each of the Reference Banks to provide the Agent with its rate or offered quotation (expressed as a percentage rate per annum) for the Reference Rate (being either LIBOR or EURIBOR, as specified in the applicable Final Terms) for deposits in the Specified Currency for that

Interest Period, at approximately the Specified Time, on the Interest Determination Date in question. If two or more of the Reference Banks provide the Agent with such rates or offered quotations, the Rate of Interest for such Interest Period shall be the arithmetic mean (rounded if necessary to the fifth decimal place with 0.000005 being rounded upwards) of such rates or offered quotations plus or minus (as appropriate) the Margin (if any), all as determined by the Agent.

If on any Interest Determination Date one only or none of the Reference Banks provides the Agent with such rates or offered quotations as provided in the preceding paragraph, the Rate of Interest for the relevant Interest Period shall be the rate per annum which the Agent determines as being the arithmetic mean (rounded if necessary to the fifth decimal place, with 0.000005 being rounded upwards) of the rates or quotations, as communicated to (and at the request of) the Agent by the Reference Banks or any two or more of them, at which such banks were offered, at approximately the Specified Time, on the relevant Interest Determination Date, deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate by leading banks in, if the Reference Rate is LIBOR, the London inter-bank market or, if the Reference Rate is EURIBOR, the Euro-zone inter-bank market, as the case may be, plus or minus (as appropriate) the Margin (if any) or, if fewer than two of the Reference Banks provide the Agent with such rates or offered quotations, the rate or quotation offered for deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate, or the arithmetic mean (rounded as provided above) of the rates or offered quotations for deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate, which, at approximately the Specified Time, on the relevant Interest Determination Date, any one or more banks (which bank or banks is or are in the opinion of the Issuer suitable for such purpose) informs the Agent it is quoting to leading banks in, if the Reference Rate is LIBOR, the London inter-bank market or, if the Reference Rate is EURIBOR, the Euro-zone inter-bank market, as the case may be, plus or minus (as appropriate) the Margin (if any), provided that, if the Rate of Interest cannot be determined in accordance with the foregoing provisions of this paragraph, the Rate of Interest shall be that determined as at the Interest Determination Date for the last preceding Interest Period (though substituting, where a different Margin is to be applied to the relevant Interest Period from that which applied to the last preceding Interest Period, the Margin relating to the relevant Interest Period, in place of the Margin relating to that last preceding Interest Period).

As used in this Condition 4.2(b)(ii)(B):

Reference Banks means, in the case of a determination of LIBOR, the principal London office of four major banks in the London inter-bank market and, in the case of a determination of EURIBOR, the principal Euro-zone office of four major banks in the Euro-zone inter-bank market, in each case selected by the Issuer and/or Agent or as specified in the applicable Final Terms; and

Specified Time means 11.00 a.m. (London time, in the case of a determination of LIBOR, or Brussels time, in the case of a determination of EURIBOR).

(c) **Minimum Rate of Interest and/or Maximum Rate of Interest**

If the applicable Final Terms specifies a Minimum Rate of Interest for any Interest Period, then, in the event that the Rate of Interest in respect of such Interest Period determined in accordance with the provisions of paragraph (b) above is less than such Minimum Rate of Interest, the Rate of Interest for such Interest Period shall be such Minimum Rate of Interest.

If the applicable Final Terms specifies a Maximum Rate of Interest for any Interest Period, then, in the event that the Rate of Interest in respect of such Interest Period determined in accordance with the provisions of paragraph (b) above is greater than such Maximum Rate of Interest, the Rate of Interest for such Interest Period shall be such Maximum Rate of Interest.

(d) **Determination of Rate of Interest and calculation of Interest Amounts**

The Agent will at or as soon as practicable after each time at which the Rate of Interest is to be determined, determine the Rate of Interest for the relevant Interest Period.

The Agent will calculate the amount of interest (the **Interest Amount**) payable on the Floating Rate Notes for the relevant Interest Period by applying the Rate of Interest to:

- (A) in the case of Floating Rate Notes which are represented by a Global Note, the aggregate outstanding nominal amount of the Notes represented by such Global Note; or
- (B) in the case of Floating Rate Notes in definitive form, the Calculation Amount,

and, in each case, multiplying such sum by the applicable Day Count Fraction, and rounding the resultant figure to the nearest sub-unit of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention. Where the Specified Denomination of a Floating Rate Note in definitive form is a multiple of the Calculation Amount, the Interest Amount payable in respect of such Note shall be the product of the amount (determined in the manner provided above) for the Calculation Amount and the amount by which the Calculation Amount is multiplied to reach the Specified Denomination, without any further rounding.

Day Count Fraction means, in respect of the calculation of an amount of interest in accordance with this Condition 4.2:

- (i) if “Actual/Actual (ISDA)” or “Actual/Actual” is specified in the applicable Final Terms, the actual number of days in the Interest Period divided by 365 (or, if any portion of that Interest Period falls in a leap year, the sum of (I) the actual number of days in that portion of the Interest Period falling in a leap year divided by 366 and (II) the actual number of days in that portion of the Interest Period falling in a non-leap year divided by 365);
- (ii) if “Actual/365 (Fixed)” is specified in the applicable Final Terms, the actual number of days in the Interest Period divided by 365;
- (iii) if “Actual/365 (Sterling)” is specified in the applicable Final Terms, the actual number of days in the Interest Period divided by 365 or, in the case of an Interest Payment Date falling in a leap year, 366;
- (iv) if “Actual/360” is specified in the applicable Final Terms, the actual number of days in the Interest Period divided by 360;
- (v) if “30/360”, “360/360” or “Bond Basis” is specified in the applicable Final Terms, the number of days in the Interest Period divided by 360, calculated on a formula basis as follows:

$$\text{Day Count Fraction} = \frac{[360 \times (Y_2 - Y_1)] + [30 \times (M_2 - M_1)] + (D_2 - D_1)}{360}$$

where:

“Y₁” is the year, expressed as a number, in which the first day of the Interest Period falls;

“Y₂” is the year, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

“M₁” is the calendar month, expressed as a number, in which the first day of the Interest Period falls;

“M₂” is the calendar month, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

“D₁” is the first calendar day, expressed as a number, of the Interest Period, unless such number is 31, in which case D₁ will be 30; and

“D₂” is the calendar day, expressed as a number, immediately following the last day included in the Interest Period, unless such number would be 31 and D₁ is greater than 29, in which case D₂ will be 30;

- (vi) if “30E/360” or “Eurobond Basis” is specified in the applicable Final Terms, the number of days in the Interest Period divided by 360, calculated on a formula basis as follows:

$$\text{Day Count Fraction} = \frac{[360 \times (Y_2 - Y_1)] + [30 \times (M_2 - M_1)] + (D_2 - D_1)}{360}$$

where:

“Y₁” is the year, expressed as a number, in which the first day of the Interest Period falls;

“Y₂” is the year, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

“M₁” is the calendar month, expressed as a number, in which the first day of the Interest Period falls;

“M₂” is the calendar month, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

“D₁” is the first calendar day, expressed as a number, of the Interest Period, unless such number would be 31, in which case D₁ will be 30; and

“D₂” is the calendar day, expressed as a number, immediately following the last day included in the Interest Period, unless such number would be 31, in which case D₂ will be 30;

- (vii) if “30E/360 (ISDA)” is specified in the applicable Final Terms, the number of days in the Interest Period divided by 360, calculated on a formula basis as follows:

$$\text{Day Count Fraction} = \frac{[360 \times (Y_2 - Y_1)] + [30 \times (M_2 - M_1)] + (D_2 - D_1)}{360}$$

where:

“Y₁” is the year, expressed as a number, in which the first day of the Interest Period falls;

“Y₂” is the year, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

“M₁” is the calendar month, expressed as a number, in which the first day of the Interest Period falls;

“M₂” is the calendar month, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

“D₁” is the first calendar day, expressed as a number, of the Interest Period, unless (i) that day is the last day of February or (ii) such number would be 31, in which case D₁ will be 30; and

“D₂” is the calendar day, expressed as a number, immediately following the last day included in the Interest Period, unless (i) that day is the last day of February but not the Maturity Date or (ii) such number would be 31, in which case D₂ will be 30.

(e) Linear Interpolation

Where Linear Interpolation is specified as applicable in respect of an Interest Period or Specified Period in the applicable Final Terms, the Rate of Interest for such Interest Period or Specified Period shall be calculated by the Agent (or if the Agent is not the Calculation Agent, the Calculation Agent specified in the applicable Final Terms) by straight line linear interpolation by reference to two rates based on the relevant Reference Rate (where Screen Rate Determination is specified as applicable in the applicable Final Terms) or the relevant Floating Rate Option (where ISDA Determination is specified as applicable in the applicable Final Terms), one of which shall be determined as if the Designated Maturity (as defined below) were the period of time for which rates are available next shorter than the length of the relevant Interest Period or Specified Period and the other of which shall be determined as if the Designated Maturity were the period of time for which rates are available next longer than the length of the relevant Interest Period or Specified Period, provided however, that if there is no rate available for a period of time next shorter or, as the case may be, next longer, then the Agent (or if the Agent is not the Calculation Agent, the Calculation Agent specified in the applicable Final Terms)

shall determine such rate at such time and by reference to such sources as the Issuer shall determine as appropriate for such purposes. For the purposes of this paragraph, the expression **Designated Maturity** means, in relation to Screen Rate Determination, the period of time designated in the Reference Rate.

(f) Notification of Rate of Interest and Interest Amounts

The Agent will cause the Rate of Interest and each Interest Amount for each Interest Period or Specified Period and the relevant Interest Payment Date to be notified to the Issuer, the Trustee and the London Stock Exchange on which the relevant Floating Rate Notes are for the time being admitted to trading and notice thereof to be published in accordance with Condition 13 as soon as possible after their determination but in no event later than the fourth London Business Day thereafter. Each Interest Amount and Interest Payment Date so notified may subsequently be amended (or appropriate alternative arrangements made by way of adjustment) without prior notice in the event of an extension or shortening of the Interest Period or Specified Period. Any such amendment will promptly be notified to the London Stock Exchange on which the relevant Floating Rate Notes are for the time being admitted to trading and to the Noteholders in accordance with Condition 13. For the purposes of this paragraph, the expression **London Business Day** means a day (other than a Saturday or a Sunday) on which banks and foreign exchange markets are open for general business in London.

(g) Determination or Calculation by Calculation Agent

If for any reason at any relevant time the Agent defaults in its obligation to determine the Rate of Interest or to calculate any Interest Amount in accordance with subparagraph (b)(i) or subparagraph (b)(ii) above as the case may be, and in each case in accordance with paragraph (d) and/or (e) above, the Issuer shall appoint a calculation agent (which shall be an investment bank or other suitable financial services entity of international repute, and any fees, costs and expenses in relation thereto shall be met by the Issuer) to determine such Rate of Interest at such rate as, in the calculation agent's absolute discretion (having such regard as it shall think fit to the foregoing provisions of this Condition, but subject always to any Minimum Rate of Interest or Maximum Rate of Interest specified in the applicable Final Terms), it shall deem fair and reasonable in all the circumstances or, as the case may be, the calculation agent shall calculate the Interest Amount(s) in such manner as the calculation agent shall deem fair and reasonable in all the circumstances and each such determination or calculation shall be deemed to have been made by the Agent.

(h) Certificates to be final

All certificates, communications, opinions, determinations, calculations, quotations and decisions given, expressed, made or obtained for the purposes of the provisions of this Condition 4.2, whether by the Agent (or if the Agent is not the Calculation Agent, the Calculation Agent specified in the applicable Final Terms) shall (in the absence of wilful default, bad faith or manifest error) be binding on the Issuer, the Agent or such other Calculation Agent, the other Paying Agents, the Trustee, the Noteholders and the Couponholders and (in the absence as aforesaid) no liability to the Issuer, the Trustee, the Noteholders or the Couponholders shall attach to the Agent or such other Calculation Agent in connection with the exercise or non-exercise by it of its powers, duties and discretions pursuant to such provisions.

4.3 Benchmark Discontinuation

Notwithstanding the provisions in Condition 4.2 above, if the Issuer, in consultation with the Agent, determines that a Benchmark Event has occurred in relation to an Original Reference Rate when any Rate of Interest (or any component part thereof) remains to be determined by reference to that Original Reference Rate, then the following provisions of this Condition 4.3 shall apply.

(a) Successor Rate or Alternative Rate

If there is a Successor Rate, then the Issuer shall promptly notify the Agent (or such other Calculation Agent specified in the applicable Final Terms), the Trustee and, in accordance with Condition 13, the Noteholders of such Successor Rate and that Successor Rate shall (subject to adjustment as provided in Condition 4.3(b)) subsequently be used by the Agent (or such other Calculation Agent specified in the applicable Final Terms) in place of the Original Reference Rate to determine the relevant Rate(s) of Interest (or the relevant component part(s) thereof) for all relevant future payments of interest on the Notes (subject to the further operation of this Condition 4.3).

If there is no Successor Rate but the Issuer, acting in good faith, in a commercially reasonable manner and by reference to such sources as it deems appropriate, which may include consultation with an Independent Adviser, determines that there is an Alternative Rate, then the Issuer shall promptly notify the Agent (or such

other Calculation Agent specified in the applicable Final Terms), the Trustee and, in accordance with Condition 13, the Noteholders of such Alternative Rate and that Alternative Rate shall (subject to adjustment as provided in Condition 4.3(b)) subsequently be used in place of the Original Reference Rate to determine the relevant Rate(s) of Interest (or the relevant component part(s) thereof) for all relevant future payments of interest on the Notes (subject to the further operation of this Condition 4.3).

(b) Adjustment Spread

If, in the case of a Successor Rate, an Adjustment Spread is formally recommended, or formally provided as an option by any Relevant Nominating Body to adopt, in relation to the replacement of the Original Reference Rate with the Successor Rate by any Relevant Nominating Body, then the Issuer shall promptly notify the Agent (or such other Calculation Agent specified in the applicable Final Terms), the Trustee and, in accordance with Condition 13, the Noteholders of such Adjustment Spread and the Agent (or such other Calculation Agent specified in the applicable Final Terms) shall apply such Adjustment Spread to the Successor Rate for each subsequent determination of a relevant Rate of Interest (or a component part thereof) by reference to such Successor Rate.

If, in the case of a Successor Rate where no such Adjustment Spread is formally recommended or formally provided as an option by any Relevant Nominating Body to adopt, or in the case of an Alternative Rate, the Issuer, acting in good faith, in a commercially reasonable manner and by reference to such sources as it deems appropriate, which may include consultation with an Independent Adviser, determines that there is an Adjustment Spread in customary market usage in the international debt capital markets for transactions which reference the Original Reference Rate, where such rate has been replaced by the Successor Rate or the Alternative Rate (as the case may be), then the Issuer shall promptly notify the Agent (or such other Calculation Agent specified in the applicable Final Terms), the Trustee and, in accordance with Condition 13, the Noteholders of such Adjustment Spread and the Agent (or such other Calculation Agent specified in the applicable Final Terms) shall apply such Adjustment Spread to the Successor Rate and the Alternative Rate (as the case may be) for each subsequent determination of a relevant Rate of Interest (or any component part(s) thereof) by reference to such Successor Rate or Alternative Rate (as applicable).

If no such recommendation or option has been made (or made available) by any Relevant Nominating Body, or the Issuer so determines that there is no such Adjustment Spread in customary market usage in the international debt capital markets and the Issuer further determines, acting in good faith, in a commercially reasonable manner and following consultation with an Independent Adviser, that an Adjustment Spread is required to be applied to the Successor Rate or the Alternative Rate (as the case may be), then the Adjustment Spread shall be:

- (i) the Adjustment Spread determined by the Issuer, acting in good faith, in a commercially reasonable manner and following consultation with an Independent Adviser, as being the Adjustment Spread recognised or acknowledged as being the industry standard for over-the-counter derivative transactions which reference the Original Reference Rate, where such rate has been replaced by the Successor Rate or the Alternative Rate (as the case may be); or
- (ii) if there is no such industry standard recognised or acknowledged, such Adjustment Spread as the Issuer, acting in good faith, in a commercially reasonable manner and following consultation with an Independent Adviser, determines to be appropriate.

Following any such determination of the Adjustment Spread, the Issuer shall promptly notify the Agent (or such other Calculation Agent specified in the applicable Final Terms), the Trustee and, in accordance with Condition 13, the Noteholders of such Adjustment Spread and the Agent (or such other Calculation Agent specified in the applicable Final Terms) shall apply such Adjustment Spread to the Successor Rate or the Alternative Rate (as the case may be) for each subsequent determination of a relevant Rate of Interest (or any component part(s) thereof) by reference to such Successor Rate or Alternative Rate (as applicable).

(c) Benchmark Amendments

If any Successor Rate, Alternative Rate or Adjustment Spread is determined in accordance with this Condition 4.3 and the Issuer, acting in good faith, in a commercially reasonable manner and by reference to such sources as it deems appropriate, which may include consultation with an Independent Adviser, determines in its discretion (A) that amendments to these Terms and Conditions are necessary to ensure the proper operation of such Successor Rate, Alternative Rate and/or Adjustment Spread (such amendments, the "Benchmark Amendments") and (B) the terms of the Benchmark Amendments, then the Issuer shall, subject to the Issuer having to give notice thereof to the Trustee and the Noteholders in accordance with Condition 13, without any requirement for the consent or approval of Noteholders or the Couponholders, modify these Terms and

Conditions and/or the Trust Deed and/or the Agency Agreement to give effect to such Benchmark Amendments with effect from the date specified in such notice.

Prior to any such Benchmark Amendments taking effect, the Issuer shall provide a certificate signed by two Directors to the Trustee confirming, in the Issuer's reasonable opinion (following consultation with the Independent Adviser), (i) that a Benchmark Event has occurred, (ii) the Successor Rate or Alternative Reference Rate (as applicable), (iii) where applicable, any Adjustment Spread and (iv) where applicable, the terms of any Benchmark Amendments in each case determined in accordance with this Condition 4 that such Benchmark Amendments are necessary to give effect to any application of this Condition 4 and the Trustee shall be entitled to rely on such certificate without further enquiry or liability to any person. For the avoidance of doubt, the Trustee shall not be liable to the Noteholders, the Couponholders or any other person for so acting or relying on such certificate, irrespective of whether any such modification is or may be materially prejudicial to the interests of any such person. The Successor Rate or Alternative Reference Rate (as applicable) or where applicable, any Adjustment Spread and any Benchmark Amendments and without prejudice to the Trustee's ability to rely on such certificate (as aforesaid) will be binding on the Issuer, the Trustee, the Agent (or such other Calculation Agent specified in the applicable Final Terms) the other Paying Agents, the Noteholders and the Couponholders.

For the avoidance of doubt, no Noteholder or Couponholder consent shall be required in connection with effecting the Benchmark Amendments or such other changes, including for the execution of any documents, amendments or other steps by the Issuer or the Trustee (if required).

In connection with any such modifications in accordance with this Condition 4.3(c), the Issuer shall comply with the rules of any stock exchange on which the Notes are for the time being listed or admitted to trading.

Any Benchmark Amendments determined under this Condition 4.3(c) shall be notified promptly by the Issuer to the Agent (or such other Calculation Agent specified in the applicable Final Terms), the Trustee and, in accordance with Condition 13, the Noteholders. Such notice shall be irrevocable and shall specify the effective date of such Benchmark Amendments.

In the event the Issuer is to consult with an Independent Adviser in connection with any determination to be made by the Issuer pursuant to this Condition 4.3, the Issuer shall use its reasonable endeavours to appoint an Independent Adviser, as soon as reasonably practicable, for the purposes of any such consultation.

An Independent Adviser appointed pursuant to this Condition 4.3 shall act in good faith, in a commercially reasonable manner and (in the absence of fraud or wilful default) shall have no liability whatsoever to the Issuer or the Noteholders for any determination made by it or for any advice given to the Issuer in connection with any determination made by the Issuer pursuant to this Condition 4.3 or otherwise in connection with the Notes.

If the Issuer is in any doubt as to whether there is an Alternative Rate and/or any Adjustment Spread is required to be applied and/or in relation to the quantum of, or any formula or methodology for determining such Adjustment Spread and/or whether any Benchmark Amendments are necessary and/or in relation to the terms of any such Benchmark Amendments, a written determination of an Independent Adviser in respect thereof shall be conclusive and binding on all parties, save in the case of manifest error, and (in the absence of fraud or wilful default) the Issuer shall have no liability whatsoever to the Noteholders in respect of anything done, or omitted to be done, in relation to that matter in accordance with any such written determination.

No Independent Adviser appointed in connection with the Notes (acting in such capacity), shall have any relationship of agency or trust with the Noteholders.

(e) Survival of Original Reference Rate Provisions

Without prejudice to the obligations of the Issuer under this Condition 4.3, the Original Reference Rate and the fallback provisions provided for in Condition 4.2 and the applicable Final Terms will continue to apply unless

Subject as provided below:

- (a) payments in a Specified Currency other than euro will be made by credit or transfer to an account in the relevant Specified Currency maintained by the payee with, or, at the option of the payee, by a cheque in such Specified Currency drawn on, a bank in the principal financial centre of the country of such Specified Currency (which, if the Specified Currency is Australian dollars or New Zealand dollars, shall be Sydney and Auckland, respectively); and
- (b) payments in euro will be made by credit or transfer to a euro account (or any other account to which euro may be credited or transferred) specified by the payee or, at the option of the payee, by a euro cheque.

Payments will be subject in all cases to any fiscal or other laws and regulations applicable thereto in the place of payment, but without prejudice to the provisions of Condition 7.

5.2 Presentation of definitive Notes and Coupons

Payments of principal in respect of definitive Notes will (subject as provided below) be made in the manner provided in Condition 5.1 above only against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of definitive Notes, and payments of interest in respect of definitive Notes will (subject as provided below) be made as aforesaid only against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of Coupons, in each case at the specified office of any Paying Agent outside the United States (which expression, as used herein, means the United States of America (including the States and the District of Columbia and its possessions)).

Fixed Rate Notes in definitive form (other than Long Maturity Notes (as defined below)) should be presented for payment together with all unmaturing Coupons appertaining thereto (which expression shall for this purpose include Coupons falling to be issued on exchange of matured Talons), failing which the amount of any missing unmaturing Coupon (or, in the case of payment not being made in full, the same proportion of the amount of such missing unmaturing Coupon as the sum so paid bears to the sum due) will be deducted from the sum due for payment. Each amount of principal so deducted will be paid in the manner mentioned above against surrender of the relative missing Coupon at any time before the expiry of 10 years after the Relevant Date (as defined in Condition 7) in respect of such principal (whether or not such Coupon would otherwise have

become void under Condition 8) or, if later, five years from the date on which such Coupon would otherwise have become due, but in no event thereafter.

Upon any Fixed Rate Note in definitive form becoming due and repayable prior to its Maturity Date, all unmatured Talons (if any) appertaining thereto will become void and no further Coupons will be issued in respect thereof.

Upon the date on which any Floating Rate Note or Long Maturity Note in definitive form becomes due and repayable, unmatured Coupons and Talons (if any) relating thereto (whether or not attached) shall become void and no payment or, as the case may be, exchange for further Coupons shall be made in respect thereof. A **Long Maturity Note** is a Fixed Rate Note (other than a Fixed Rate Note which on issue had a Talon attached) whose nominal amount on issue is less than the aggregate interest payable thereon provided that such Note shall cease to be a Long Maturity Note on the Interest Payment Date on which the aggregate amount of interest remaining to be paid after that date is less than the nominal amount of such Note.

If the due date for redemption of any definitive Note is not an Interest Payment Date, interest (if any) accrued in respect of such Note from (and including) the preceding Interest Payment Date or, as the case may be, the Interest Commencement Date shall be payable only against surrender of the relevant definitive Note.

5.3 Payments in respect of Global Notes

Payments of principal and interest (if any) in respect of Notes represented by any Global Note will (subject as provided below) be made in the manner specified above in relation to definitive Notes and otherwise in the manner specified in the relevant Global Note against presentation or surrender, as the case may be, of such Global Note at the specified office of any Paying Agent outside the United States.

Except in the case of a New Global Note, a record of each payment made against presentation or surrender of any Global Note, distinguishing between any payment of principal and any payment of interest, will be made on such Global Note by the Paying Agent to which it was presented and such record shall be *prima facie* evidence that the payment in question has been made.

In the case of a New Global Note, the Issuer shall procure that details of payment of principal and interest (if any) in respect of any Global Note, shall be entered *pro rata* in the records of the relevant clearing system and in the case of payments of principal, the nominal amount of the Notes recorded in the records of the relevant clearing system and represented by such Global Note will be reduced accordingly. Payments under the NGN will be made to its holder. Each payment so made will discharge the Issuer's obligations in respect thereof. Any failure to make the entries in the records of the relevant clearing system shall not affect such discharge.

5.4 General provisions applicable to payments

The holder of a Global Note shall be the only person entitled to receive payments in respect of Notes represented by such Global Note and the Issuer will be discharged by payment to, or to the order of, the holder of such Global Note in respect of each amount so paid. Each of the persons shown in the records of Euroclear or Clearstream, Luxembourg as the beneficial holder of a particular nominal amount of Notes represented by such Global Note must look solely to Euroclear or Clearstream, Luxembourg, as the case may be, for his share of each payment so made by the Issuer to, or to the order of, the holder of such Global Note.

Notwithstanding the foregoing provisions of this Condition, if any amount of principal and/or interest in respect of Notes is payable in U.S. dollars, such U.S. dollar payments of principal and/or interest in respect of such Notes will be made at the specified office of a Paying Agent in the United States if:

- (a) the Issuer has appointed Paying Agents with specified offices outside the United States with the reasonable expectation that such Paying Agents would be able to make payment in U.S. dollars at such specified offices outside the United States of the full amount of principal and interest on the Notes in the manner provided above when due;
- (b) payment of the full amount of such principal and interest at all such specified offices outside the United States is illegal or effectively precluded by exchange controls or other similar restrictions on the full payment or receipt of principal and interest in U.S. dollars; and

- (c) such payment is then permitted under United States law without involving, in the opinion of the Issuer, adverse tax consequences to the Issuer.

5.5 Payment Day

If the date for payment of any amount in respect of any Note or Coupon is not a Payment Day, the holder thereof shall not be entitled to payment until the next following Payment Day in the relevant place and shall not be entitled to further interest or other payment in respect of such delay. For these purposes, **Payment Day** means any day which (subject to Condition 8) is:

- (d) the Optional Redemption Amount(s) (if any) of the Notes;
- (e) in relation to Zero Coupon Notes, the Amortised Face Amount (as defined in Condition 6.6); and
- (f) any premium and any other amounts (other than interest) which may be payable by the Issuer under or in respect of the Notes.

Any reference in the Conditions to interest in respect of the Notes shall be deemed to include, as applicable, any additional amounts which may be payable with respect to interest under Condition 7 or under any undertaking or covenant given in addition thereto, or in substitution therefor, pursuant to the Trust Deed.

6. REDEMPTION AND PURCHASE

Unless previously redeemed or purchased and cancelled as specified below, each Note will be redeemed by the Issuer at its Final Redemption Amount specified in the applicable Final Terms in the relevant Specified Currency on the Maturity Date, each as specified in the applicable Final Terms.

6.2 Redemption for tax reasons

Subject to Condition 6.6, the Notes may be redeemed at the option of the Issuer in whole, but not in part, at any time (if this Note is not a Floating Rate Note) or on any Interest Payment Date (if this Note is a Floating Rate Note), on giving not less than 30 nor more than 60 days' notice to the Trustee and the Agent and, in accordance with Condition 13, the Noteholders (which notice shall be irrevocable), if the Issuer satisfies the Trustee immediately before the giving of such notice that:

- (a) on the occasion of the next payment due under the Notes, the Issuer has or will become obliged to pay additional amounts as provided or referred to in Condition 7 as a result of any change in, or amendment to, the laws or regulations of a Tax Jurisdiction (as defined in Condition 7) or any change in the application or interpretation of such laws or regulations, which change or amendment becomes effective on or after the date on which agreement is reached to issue the first Tranche of the Notes; and
- (b) such obligation cannot be avoided by the Issuer taking reasonable measures available to it,

provided that no such notice of redemption shall be given earlier than 90 days prior to the earliest date on which the Issuer would be obliged to pay such additional amounts were a payment in respect of the Notes then due.

Prior to the publication of any notice of redemption pursuant to this Condition, the Issuer shall deliver to the Trustee a certificate signed by two Directors of the Issuer stating that the Issuer is entitled to effect such redemption and setting forth a statement of facts showing that the conditions precedent to the right of the Issuer so to redeem have occurred, and an opinion of independent legal advisers of recognised standing to the effect that the Issuer has or will become obliged to pay such additional amounts as a result of such change or amendment and the Trustee shall be entitled to accept the certificate as sufficient evidence of the satisfaction of the conditions precedent set out above, in which event it shall be conclusive and binding on the Noteholders and the Couponholders.

Notes redeemed pursuant to this Condition 6.2 will be redeemed at their Early Redemption Amount referred to in Condition 6.6 below together (if appropriate) with interest accrued to (but excluding) the date of redemption.

If Make-Whole Amount is specified in the applicable Final Terms as the Optional Redemption Amount, the Optional Redemption Amount shall be an amount calculated by the Calculation Agent equal to the higher of (i) 100 per cent. of the principal amount outstanding of the Notes to be redeemed or (ii) the sum of the present values of the principal amount outstanding of the Notes to be redeemed and the Remaining Term Interest on such Note (exclusive of interest accrued to the date of redemption) discounted to the date of redemption on an annual basis at the Reference Bond Rate, plus the Redemption Margin.

- (b) If Change of Control Investor Put is specified in the applicable Final Terms, the holder of each Note will have the option (a **Put Option**) (unless prior to the giving of the relevant Put Event Notice (as defined below) the Issuer has given notice of redemption under Condition 6.2 or 6.3) to require the Issuer to redeem or, at the Issuer's option, purchase (or procure the purchase of) that Note on the Optional Redemption Date (as defined below) at the Optional Redemption Amount together with interest accrued to (but excluding) the Optional Redemption Date.

Promptly upon the Issuer becoming aware that a Put Event (as defined below) has occurred the Issuer shall, and at any time upon the Trustee becoming similarly so aware the Trustee may, and if so requested by the holders of at least one-quarter in principal amount of the Notes then outstanding or if so directed by an Extraordinary Resolution of the Noteholders, shall, (subject in each case to the

Trustee being indemnified and/or secured and/or pre-funded to its satisfaction) give notice (a **Put Event Notice**) to the Noteholders in accordance with Condition 14 specifying the nature of the Put Event and the procedure for exercising the Put Option.

To exercise the Put Option, the holder of this Note must, if this Note is in definitive form and held outside Euroclear and Clearstream, Luxembourg, deliver, at the specified office of any Paying Agent at any time during normal business hours of such Paying Agent falling within the period of 45 days or such other period as specified in the applicable Final Terms (the **Put Period**) after a Put Event Notice is given, such Note and a duly completed and signed Put Notice (as defined in Condition 6.5(a)) in which the holder must specify a bank account (or, if payment is required to be made by cheque, an address) to which payment is to be made under this Condition accompanied by this Note or evidence satisfactory to the Paying Agent concerned that this Note will, following delivery of the Put Notice, be held to its order or under its control. The Note should be delivered together with all Coupons appertaining thereto maturing after the date which is seven days after the expiration of the Put Period (the **Optional Redemption Date**), failing which the Paying Agent will require payment from or on behalf of the Noteholder of an amount equal to the face value of any such missing Coupon. Any amount so paid will be reimbursed by the Paying Agent to the Noteholder against presentation and surrender of the relevant missing Coupon (or any replacement therefor issued pursuant to Condition 10) at any time after such payment, but before the expiry of the period of ten years from the date on which such Coupon would have become due, but not thereafter.

If this Note is represented by a Global Note or is in definitive form and held through Euroclear or Clearstream, Luxembourg, to exercise the Put Option the holder of this Note must, within the Put Period, give notice to the Agent of such exercise in accordance with the standard procedures of Euroclear and Clearstream, Luxembourg (which may include notice being given on his instruction by Euroclear or Clearstream, Luxembourg or any common depository or common safekeeper, as the case may be, for them to the Agent by electronic means) in a form acceptable to Euroclear and Clearstream, Luxembourg from time to time and, if this Note is represented by a Global Note, at the same time present or procure the presentation of the relevant Global Note to the Agent for notation accordingly.

The Paying Agent to which such Note and Put Notice are delivered will issue to the Noteholder concerned a non-transferable receipt in respect of the Note so delivered or, in the case of a Note held through Euroclear and/or Clearstream, Luxembourg, notice received. Payment in respect of any Note so delivered will be made, if the holder duly specified a bank account in the Put Notice to which payment is to be made, on the Optional Redemption Date by transfer to that bank account and, in every other case, on or after the Optional Redemption Date against presentation and surrender or (as the case may be) endorsement of such receipt at the specified office of any Paying Agent. For the purposes of these Conditions, receipts issued pursuant to this Condition 6.5(b) shall be treated as if they were Notes. The Issuer shall redeem or purchase (or procure the purchase of) the Notes in respect of which the Put Option has been validly exercised in accordance with the provisions of this Condition 6.5(b) on the Optional Redemption Date unless previously redeemed (or purchased) and cancelled.

Any Put Notice or other notice given in accordance with the standard procedures of Euroclear and Clearstream, Luxembourg given by a holder of any Note pursuant to this Condition 6.4(b) shall be irrevocable except where, prior to the Optional Redemption Date, an Event of Default has occurred and the Trustee has declared the Notes to be due and payable pursuant to Condition 9, in which event such holder, at its option, may elect by notice to the Issuer to withdraw the Put Notice given pursuant to this Condition 6.5(b).

If 80 per cent. or more in principal amount of the Notes then outstanding have been redeemed or purchased pursuant to this Condition 6.5(b), the Issuer may, on giving not less than 30 nor more than 60 days' notice to the Noteholders (such notice being given within 30 days after the Optional Redemption Date), redeem or purchase (or procure the purchase of), at its option, all but not some only of the remaining outstanding Notes at their principal amount, together with interest accrued to (but excluding) the date fixed for such redemption or purchase.

If the rating designations employed by any of Moody's, Fitch or Standard & Poor's are changed from those which are described in paragraph (ii) of the definition of "Put Event" below, or if a rating is procured from a Substitute Rating Agency, the Issuer shall determine, with the agreement of the Trustee, the rating designations of Moody's, Fitch or Standard & Poor's or such Substitute Rating

Agency (as appropriate) as are most equivalent to the prior rating designations of Moody's, Fitch or Standard & Poor's and this Condition 6.5(b) shall be construed accordingly.

The Trustee is under no obligation to ascertain whether a Put Event or Change of Control or any event which could lead to the occurrence of or could constitute a Put Event or Change of Control has occurred, or to seek any confirmation from any Rating Agency pursuant to the definition of Negative Rating Event below, and, until it shall have actual knowledge or notice pursuant to the Trust Deed to the contrary, the Trustee may assume that no Put Event or Change of Control or other such event has occurred.

In this Condition:

a **Put Event** will be deemed to occur if a Change of Control has occurred and:

- (i) on the date (the **Relevant Announcement Date**) that is the earlier of (1) the date of the first public announcement of the relevant Change of Control and (2) the date of the earliest Relevant Potential Change of Control Announcement (if any), the Notes carry from any Rating Agency (as defined below):
 - (A) an investment grade credit rating (Baa3/BBB-, or equivalent, or better), and such rating from any Rating Agency is, within the Change of Control Period, either downgraded to a non-investment grade credit rating (Ba1/BB+, or equivalent, or worse) (a **Non-Investment Grade Rating**) or withdrawn and is not, within the Change of Control Period, subsequently (in the case of a downgrade) upgraded or (in the case of a withdrawal) reinstated to an investment grade credit rating by such Rating Agency; or
 - (B) a Non-Investment Grade Rating and such rating from any Rating Agency is, within the Change of Control Period, either downgraded by one or more notches (by way of example, Baal to Baa2 being one notch) or withdrawn and is not, within the Change of Control Period, subsequently (in the case of a downgrade) upgraded or (in the case of a withdrawal) reinstated to its earlier credit rating or better by such Rating Agency; or
 - (C) no credit rating and a Negative Rating Event also occurs within the Change of Control Period,

provided that if at the time of the occurrence of the Change of Control the Notes carry a credit rating from more than one Rating Agency, at least one of which is investment grade, then sub-paragraph (A) will apply; and

- (ii) in making any decision to downgrade or withdraw a credit rating pursuant to paragraphs (A) and (B) above or not to award a credit rating of at least investment grade as described in paragraph (ii) of the definition of Negative Rating Event, the relevant Rating Agency announces publicly or confirms in writing to the Issuer or the Trustee that such decision(s) resulted, in whole or in part, from the occurrence of the Change of Control or the Relevant Potential Change of Control Announcement;

a **Change of Control** will be deemed to have occurred if:

- (i) any person or any persons acting in concert (as defined in the City Code on Takeovers and Mergers), other than a holding company (as defined in Section 1159 of the Companies Act 2006 as amended) whose shareholders are or are to be substantially similar to the pre-existing shareholders of any direct or indirect holding company of the Issuer, shall become interested (within the meaning of Part 22 of the Companies Act 2006) in (A) more than 50 per cent. of the issued or allotted ordinary share capital of the Issuer or (B) shares in the capital of the Issuer carrying more than 50 per cent. of the voting rights normally exercisable at a general meeting of the Issuer; or
- (ii) any person or any persons acting in concert (as defined in the City Code on Takeovers and Mergers), other than a holding company (as defined in Section 1159 of the Companies Act

2006 as amended) whose shareholders are or are to be substantially similar to the pre-existing shareholders of any direct or indirect holding company of the Issuer, shall become interested (within the meaning of Part 22 of the Companies Act 2006) in (A) more than 50 per cent. of the issued or allotted ordinary share capital of any direct or indirect holding company of the Issuer or (B) shares in the capital of any direct or indirect holding company of the Issuer carrying more than 50 per cent. of the voting rights normally exercisable at a general meeting of any such direct or indirect holding company of the Issuer;

Change of Control Period means the period commencing on the Relevant Announcement Date and ending 90 days after the Change of Control (or such longer period for which the Notes are under consideration (such consideration having been announced publicly within the period ending 90 days after the Change of Control) for rating review or, as the case may be, rating by a Rating Agency, such period not to exceed 60 days after the public announcement of such consideration);

a **Negative Rating Event** shall be deemed to have occurred if at such time as there is no rating assigned to the Notes by a Rating Agency (i) the Issuer does not, either prior to, or not later than 21 days after, the occurrence of the Change of Control seek, and thereafter throughout the Change of Control Period use all reasonable endeavours to obtain, a rating of the Notes, or any other unsecured and unsubordinated debt of the Issuer or (ii) if the Issuer does so seek and use such endeavours, it is unable to obtain such a rating of at least investment grade by the end of the Change of Control Period; and

Substitute Rating Agency means any rating agency substituted for any of the Rating Agencies by the Issuer from time to time with the prior written approval of the Trustee; and

Relevant Potential Change of Control Announcement means any public announcement or statement by or on behalf of the Issuer, any actual or potential bidder or any adviser acting on behalf of any actual or potential bidder relating to any potential Change of Control where within 180 days following the date of such announcement or statement, a Change of Control occurs.

6.6 Early Redemption Amounts

For the purpose of Condition 6.2 above and Condition 9, each Note will be redeemed at its Early Redemption Amount calculated as follows:

- (a) in the case of a Note (other than a Zero Coupon Note) with a Final Redemption Amount which is or may be less or greater than the Issue Price or which is payable in a Specified Currency other than that in which the Note is denominated, at the amount specified in, or determined in the manner specified in, the applicable Final Terms or, if no such amount or manner is so specified in the applicable Final Terms, at its nominal amount; or
- (b) in the case of a Zero Coupon Note, at an amount (the **Amortised Face Amount**) calculated in accordance with the following formula:

$$\text{Early Redemption Amount} = \text{RP} \times (1 + \text{AY})^y$$

where:

RP means the Reference Price;

AY means the Accrual Yield expressed as a decimal; and

^y is the Day Count Fraction specified in the applicable Final Terms which will be either (i) 30/360 (in which case the numerator will be equal to the number of days (calculated on the basis of a 360-day year consisting of 12 months of 30 days each) from (and including) the Issue Date of the first Tranche of the Notes to (but excluding) the date fixed for redemption or (as the case may be) the date upon which such Note becomes due and repayable and the denominator of which is 360) or (ii) Actual/360 (in which case the numerator will be equal to the actual number of days from (and including) the Issue Date for the first Tranche of the Notes to (but excluding) the date fixed for redemption or (as the case may be) the date upon which such Note becomes due and repayable and the denominator of which is 360) or (iii)

Actual/365 (in which case the numerator will be equal to the actual number of days from (and including) the Issue Date of the first Tranche of the Notes to (but excluding) the date fixed for redemption or (as the case may be) the date upon which such Note becomes due and repayable and the denominator of which is 365).

6.7 Purchases

The Issuer or any Subsidiary of the Issuer may at any time purchase Notes (provided that, in the case of definitive Notes, all unmatured Coupons and Talons appertaining thereto are purchased therewith) at any price in the open market or otherwise. Such Notes may be held, reissued, resold or, at the option of the Issuer, surrendered to any Paying Agent for cancellation.

6.8 Cancellation

All Notes which are redeemed will forthwith be cancelled (together with all unmatured Coupons and Talons attached thereto or surrendered therewith at the time of redemption). All Notes so cancelled and any Notes purchased and cancelled pursuant to Condition 6.7 above (together with all unmatured Coupons and Talons cancelled therewith) shall be forwarded to the Agent and cannot be reissued or resold.

6.9 Late payment on Zero Coupon Notes

If the amount payable in respect of any Zero Coupon Note upon redemption of such Zero Coupon Note pursuant to Condition 6.1, 6.2, 6.3, 6.4 or 6.5 above or upon its becoming due and repayable as provided in Condition 9 is improperly withheld or refused, the amount due and repayable in respect of such Zero Coupon Note shall be the amount calculated as provided in Condition 6.6(b) above as though the references therein to the date fixed for the redemption or the date upon which such Zero Coupon Note becomes due and payable were replaced by references to the date which is the earlier of:

- (a) the date on which all amounts due in respect of such Zero Coupon Note have been paid; and
- (b) five days after the date on which the full amount of the moneys payable in respect of such Zero Coupon Notes has been received by the Agent or the Trustee and notice to that effect has been given to the Noteholders in accordance with Condition 13.

7. TAXATION

All payments of principal and interest in respect of the Notes and Coupons by the Issuer will be made without withholding or deduction for or on account of any present or future taxes or duties of whatever nature imposed or levied by or on behalf of any Tax Jurisdiction unless such withholding or deduction is required by law. In such event, the Issuer will pay such additional amounts as shall be necessary in order that the net amounts received by the holders of the Notes or Coupons after such withholding or deduction shall equal the respective amounts of principal and interest which would otherwise have been receivable in respect of the Notes or Coupons, as the case may be, in the absence of such withholding or deduction; except that no such additional amounts shall be payable with respect to any Note or Coupon:

- (a) presented for payment by or on behalf of a holder who (i) could avoid such withholding or deduction by complying or procuring that any third party complies with any statutory requirements or by making or procuring that any third party makes a declaration of non-residence or other similar claim for exemption to any tax authority, or (ii) is liable for such taxes or duties in respect of such Note or Coupon by reason of his having some connection with a Tax Jurisdiction other than the mere holding of such Note or Coupon; or
- (b) presented for payment more than 30 days after the Relevant Date (as defined below) except to the extent that the holder thereof would have been entitled to an additional amount on presenting the same for payment on such thirtieth day assuming that day to have been a Payment Day (as defined in Condition 5.5); or
- (c) where such withholding or deduction is required pursuant to an agreement described in section 1471(b) of the Code, or is otherwise imposed pursuant to sections 1471 through 1474 of the Code and any regulations, agreements or undertakings thereunder or official interpretations thereof or similar law implementing an intergovernmental approach thereto.

As used herein:

- (i) **Code** means United States Internal Revenue Code of 1986, as amended;
- (ii) **Tax Jurisdiction** means the United Kingdom or any political subdivision or any authority thereof or therein having power to tax; and
- (iii) the **Relevant Date** means the date on which such payment first becomes due, except that, if the full amount of the moneys payable has not been duly received by the Trustee or the Agent on or prior to such due date, it means the date on which, the full amount of such moneys having been so received, notice to that effect is duly given to the Noteholders in accordance with Condition 13.

8. PRESCRIPTION

The Notes and Coupons will become void unless claims in respect of principal and/or interest are made within a period of 10 years (in the case of principal) and five years (in the case of interest) after the Relevant Date (as defined in Condition 7) therefor.

There shall not be included in any Coupon sheet issued on exchange of a Talon any Coupon the claim for payment in respect of which would be void pursuant to this Condition or Condition 5.2 or any Talon which would be void pursuant to Condition 5.2.

9. EVENTS OF DEFAULT AND ENFORCEMENT

9.1 Events of Default

If any one or more of the following events (each an **Event of Default**) shall occur:

- (a) default is made for a period of 28 days or more in the payment in the Specified Currency of any interest, or for a period of 14 days or more in the payment in the Specified Currency of principal, due in respect of the Notes; or
- (b) there is a failure in the performance of any obligation under the Notes or the Trust Deed other than an obligation to make payment of principal or interest thereunder:
 - (i) which in the opinion of the Trustee is incapable of remedy; or
 - (ii) which, being in the opinion of the Trustee capable of remedy, continues for more than 90 days after written notification requiring such failure to be remedied shall have been given to the Issuer by the Trustee; or
- (c) except for the purpose of a reconstruction or an amalgamation the terms of which have previously been approved in writing by the Trustee or for the purposes of a consolidation or merger or conveyance, transfer or lease permitted by Condition 14, an order is made (and not discharged or stayed within a period of 90 days) or an effective resolution is passed for winding-up the Issuer or an administration order is made in relation to the Issuer; or
- (d) an administrative or other receiver is appointed of the whole or substantially the whole of the assets of the Issuer and is not removed, paid out or discharged within 90 days or, following such 90 day period, the appointment is not being disputed in good faith; or
- (e) the Issuer is unable to pay its debts or makes a general assignment for the benefit of its creditors; or
- (f) any loan or other indebtedness for borrowed money (as defined in the Trust Deed) of the Issuer (if applicable, translated into sterling), amounting in aggregate to not less than the higher of £25,000,000 and one per cent. of the Adjusted Share Capital and Reserves (as defined below), becomes due and repayable prematurely by reason of an event of default (however described) or the Issuer fails to make any payment in respect thereof on the due date for such payment (as extended by any applicable grace period as originally provided) or the security for any such loan or other indebtedness for borrowed money becomes enforceable and steps are taken to enforce the same or default is made by the Issuer in making any payment due (if applicable, translated into sterling), amounting in aggregate to not less

than the higher of £25,000,000 and one per cent. of the Adjusted Share Capital and Reserves, under any guarantee or indemnity given by it in respect of any loan or other indebtedness for borrowed money,

the Trustee may at its discretion, and if so directed by an Extraordinary Resolution (as defined in the Trust Deed) of the Noteholders or in writing by the holders of at least 25 per cent. in nominal amount of the Notes then outstanding shall (subject in each case to being indemnified and/or secured and/or prefunded to its satisfaction), (but in the case of (b), (c), (d), (e) and (f) above only if it certifies that such event is, in its opinion, materially prejudicial to the interests of Noteholders), give notice to the Issuer that the Notes are, and they shall accordingly immediately become, due and repayable each at their Early Redemption Amount (as described in Condition 6.6), plus accrued interest, if any (calculated as provided in the Trust Deed).

For the purposes of this Condition 9, **Adjusted Share Capital and Reserves** means at any time the aggregate of:

- (a) the amount paid up or credited as paid up on the share capital of the Issuer; and
- (b) the total of the capital, revaluation and revenue reserves of the Issuer and its Subsidiaries (as defined in the Trust Deed) taken as a whole (the **Group**), including any share premium account, capital redemption reserve and credit balance on the profit and loss account, sums set aside for taxation and amounts attributable to minority interests but deducting any debit balance on the profit and loss account and the cost of any shares of the Issuer held in an employee share ownership trust or otherwise held by a member of the Group,

all as shown in the then latest audited consolidated balance sheet of the Group prepared in accordance with generally accepted accounting principles in the United Kingdom, but adjusted as may be necessary in respect of any variation in the paid up share capital or share premium account of the Issuer since the date of that balance sheet and further adjusted as may be necessary to reflect any change since the date of that balance sheet in the Subsidiaries comprising the Group. A certificate of the Issuer signed by two Directors (as defined in the Trust Deed) of the Issuer as to the amount of the Adjusted Share Capital and Reserves as at any specified date may, in the absence of manifest error, be relied upon by the Trustee and, if so relied upon, shall be conclusive and binding on the Issuer, the Noteholders and the Couponholders.

9.2 Enforcement

The Trustee may at any time, at its discretion and without further notice, take such proceedings against the Issuer as it may think fit to enforce the provisions of the Trust Deed, the Notes and the Coupons, but it shall not be bound to take any such proceedings or any other action in relation to the Trust Deed, the Notes or the Coupons unless (a) it shall have been so directed by an Extraordinary Resolution of the Noteholders or in writing by the holders of at least 25 per cent. in nominal amount of the Notes then outstanding and (b) it shall have been indemnified and/or secured and/or pre-funded to its satisfaction.

No Noteholder or Couponholder shall be entitled to proceed directly against the Issuer, except that if the Trustee, having become bound so to proceed, fails to do so within a reasonable period and such failure shall be continuing, then any such holder may, on giving an indemnity satisfactory to the Trustee, in the name of the Trustee (but not otherwise), himself take proceedings to the same extent (but not further or otherwise) that the Trustee would have been entitled so to do.

10. REPLACEMENT OF NOTES, COUPONS AND TALONS

Should any Note, Coupon or Talon be lost, stolen, mutilated, defaced or destroyed, it may be replaced at the specified office of the Agent upon payment by the claimant of such costs and expenses as may be incurred in connection therewith and on such terms as to evidence and indemnity as the Issuer may reasonably require. Mutilated or defaced Notes, Coupons or Talons must be surrendered before replacements will be issued.

11. PAYING AGENTS

The names of the initial Paying Agents and their initial specified offices are set out below. If any additional Paying Agents are appointed in connection with any Series, the names of such Paying Agents will be specified in the applicable Final Terms.

The Issuer is entitled, with the prior written approval of the Trustee, to vary or terminate the appointment of any Paying Agent and/or appoint additional or other Paying Agents and/or approve any change in the specified office through which any Paying Agent acts, provided that:

- (a) there will at all times be an Agent;
- (b) so long as the Notes are admitted to trading on the regulated market of the London Stock Exchange, there will at all times be a Paying Agent with a specified office in such place as may be required by the rules and regulations of the London Stock Exchange; and
- (c) there will at all times be a Paying Agent in a jurisdiction within Europe, other than the jurisdiction in which the Issuer is incorporated.

In addition, the Issuer shall forthwith appoint a Paying Agent having a specified office in New York City in the circumstances described in Condition 5.4. Any variation, termination, appointment or change shall only take effect (other than in the case of insolvency, when it shall be of immediate effect) after not less than 30 nor more than 45 days' prior notice thereof shall have been given to the Noteholders in accordance with Condition 13.

In acting under the Agency Agreement, the Paying Agents act solely as agents of the Issuer and, in certain circumstances specified therein, of the Trustee and do not assume any obligation to, or relationship of agency or trust with, any Noteholders or Couponholders. The Agency Agreement contains provisions permitting any entity into which any Paying Agent is merged or converted or with which it is consolidated or to which it transfers all or substantially all of its assets to become the successor paying agent.

12. EXCHANGE OF TALONS

On and after the Interest Payment Date on which the final Coupon comprised in any Coupon sheet matures, the Talon (if any) forming part of such Coupon sheet may be surrendered at the specified office of the Agent or any other Paying Agent in exchange for a further Coupon sheet including (if such further Coupon sheet does not include Coupons to (and including) the final date for the payment of interest due in respect of the Note to which it appertains) a further Talon, subject to the provisions of Condition 8.

13. NOTICES

All notices regarding the Notes will be deemed to be validly given if published in a leading English language daily newspaper of general circulation in London. It is expected that such publication will be made in the *Financial Times* in London. The Issuer shall also ensure that notices are duly published in a manner which complies with the rules of the London Stock Exchange or other relevant authority on which the Notes are for the time being admitted. Any such notice will be deemed to have been given on the date of the first publication or, where required to be published in more than one newspaper, on the date of the first publication in all required newspapers. If publication as provided above is not practicable, a notice will be given in such other manner, and will be deemed to have been given on such date, as the Trustee shall approve.

Until such time as any definitive Notes are issued, there may, so long as any Global Notes representing the Notes are held in their entirety on behalf of Euroclear and/or Clearstream, Luxembourg, be substituted for such publication in such newspaper(s) the delivery of the relevant notice to Euroclear and/or Clearstream, Luxembourg for communication by them to the holders of the Notes and, in addition, for so long as any Notes are admitted to trading on the regulated market of the London Stock Exchange and the rules of such stock exchange or relevant authority so require, such notice will be published in a daily newspaper of general circulation in the place or places required by those rules. Any such notice shall be deemed to have been given to the holders of the Notes on the seventh day after the day on which the said notice was given to Euroclear and/or Clearstream, Luxembourg.

Notices to be given by any Noteholder shall be in writing and given by lodging the same, together (in the case of any Note in definitive form) with the relative Note or Notes, with the Agent. Whilst any of the Notes are represented by a Global Note, such notice may be given by any holder of a Note to the Agent through Euroclear and/or Clearstream, Luxembourg, as the case may be, in such manner as the Agent and Euroclear and/or Clearstream, Luxembourg, as the case may be, may approve for this purpose.

14. MEETINGS OF NOTEHOLDERS, MODIFICATION, WAIVER AND SUBSTITUTION

The Trust Deed contains provisions for convening meetings of the Noteholders to consider any matter affecting their interests, including the sanctioning by Extraordinary Resolution of a modification of the Notes, the Coupons or any of the provisions of the Trust Deed. Such a meeting may be convened by the Issuer or the Trustee and shall be convened by the Issuer if required in writing by Noteholders holding not less than five per cent. in nominal amount of the Notes for the time being remaining outstanding. The quorum at any such meeting for passing an Extraordinary Resolution is one or more persons holding or representing not less than 50 per cent. in nominal amount of the Notes for the time being outstanding, or at any adjourned meeting one or more persons being or representing Noteholders whatever the nominal amount of the Notes so held or represented, except that at any meeting the business of which includes the modification of certain provisions of the Notes or the Coupons or the Trust Deed (including modifying the date of maturity of the Notes or any date for payment of interest thereon, reducing or cancelling the amount of principal or the rate of interest payable in respect of the Notes or altering the currency of payment of the Notes or the Coupons), the quorum shall be one or more persons holding or representing not less than two-thirds in nominal amount of the Notes for the time being outstanding, or at any adjourned such meeting one or more persons holding or representing not less than one-third in nominal amount of the Notes for the time being outstanding. An Extraordinary Resolution passed at any meeting of the Noteholders shall be binding on all the Noteholders, whether or not they are present at the meeting, and on all Couponholders.

The Trust Deed provides that a resolution in writing signed by, or on behalf of, the holders of not less than 90 per cent. of the nominal amount of the Notes shall for all purposes be as valid and effective as an Extraordinary Resolution passed at a meeting of the Noteholders duly convened and held.

The Trustee may agree, without the consent of the Noteholders or Couponholders, to any modification of, or to the waiver or authorisation of any breach or proposed breach of, any of the provisions of the Notes or the Trust Deed, or determine, without any such consent as aforesaid, that any Event of Default or potential Event of Default shall not be treated as such, where, in any such case, it is not, in the opinion of the Trustee, materially prejudicial to the interests of the Noteholders so to do or may agree, without any such consent as aforesaid, to any modification which is of a formal, minor or technical nature or to correct a manifest error. In addition, the Trustee shall be obliged to concur with the Issuer in effecting any Benchmark Amendments without the consent of the Noteholders or Couponholders. Any such modification shall (unless the Trustee agrees otherwise) be binding on the Noteholders and the Couponholders and any such modification shall be notified to the Noteholders in accordance with Condition 13 as soon as practicable thereafter.

In connection with the exercise by it of any of its trusts, powers, authorities and discretions (including, without limitation, any modification, waiver, authorisation or determination), the Trustee shall have regard to the general interests of the Noteholders as a class (but shall not have regard to any interests arising from circumstances particular to individual Noteholders or Couponholders whatever their number) and, in particular but without limitation, shall not have regard to the consequences of any such exercise for individual Noteholders or Couponholders (whatever their number) resulting from their being for any purpose domiciled or resident in, or otherwise connected with, or subject to the jurisdiction of, any particular territory or any political sub-division thereof and the Trustee shall not be entitled to require, nor shall any Noteholder or Couponholder be entitled to claim, from the Issuer, the Trustee or any other person any indemnification or payment in respect of any tax consequences of any such exercise upon individual Noteholders or Couponholders except to the extent already provided for in Condition 7 and/or any undertaking or covenant given in addition to, or in substitution for, Condition 7 pursuant to the Trust Deed.

If so requested by the Issuer, the Trustee shall, without the consent of the Noteholders, agree to the substitution in place of the Issuer (or of any previous substitute under this Condition) as the principal debtor under the Notes, the Coupons and the Trust Deed of another company, being a successor in business or a Holding Company (as defined in the Trust Deed) of the Issuer or a Subsidiary (as defined in the Trust Deed) of such Holding Company subject to (a) the Notes being unconditionally and irrevocably guaranteed by the Issuer, (b) certification to the Trustee by two directors of the Issuer that, in the opinion of the Issuer, the substitution will not be materially prejudicial to the interests of the Noteholders and will not have any adverse effect on the payment in a timely manner of all moneys payable under the Conditions and the Trust Deed, (c) confirmations being received by the Trustee from each rating agency which has, at the request of the Issuer, rated the Notes that the substitution will not adversely affect the then current rating of the Notes, (d) an opinion of independent legal advisers of recognised standing being provided to the Trustee as further described in the Trust Deed and (e) certain other conditions set out in the Trust Deed being complied with.

The Trustee may, without the consent of the Noteholders, agree with the Issuer to the substitution in place of the Issuer (or of any previous substitute under this Condition) as the principal debtor under the Notes, Coupons and the Trust Deed of another company, being a successor in business or a Holding Company (as defined in the Trust Deed) of the Issuer or a Subsidiary (as defined in the Trust Deed) of such Holding Company subject to (a) the Notes being unconditionally and irrevocably guaranteed by the Issuer, (b) the Trustee being satisfied that the interests of the Noteholders will not be materially prejudiced by the substitution and (c) certain other conditions set out in the Trust Deed being complied with.

15. INDEMNIFICATION OF THE TRUSTEE AND TRUSTEE CONTRACTING WITH THE ISSUER

The Trust Deed contains provisions for the indemnification of the Trustee and for its relief from responsibility, including provisions relieving it from taking action unless indemnified and/or secured and/or pre-funded to its satisfaction.

In the countries in the European Union, electronic communications networks and services are governed by directives and regulations set by the European Commission. The guarantees of such bonds were implemented by way of a supplemental indenture dated 27 March 2019 entered into by the Guarantor, the Issuer and Delaware Trust Company as the trustee. TAXATION

UNITED KINGDOM

The following applies only to persons who are the beneficial owners of Notes and is a summary of the Issuer's understanding of current UK law (as applied in England and Wales) and published HM Revenue & Customs (HMRC) practice relating only to UK withholding tax on payments of interest in respect of the Notes. It does not deal with any of the other UK tax implications of acquiring, holding or disposing of the Notes. The UK tax treatment of prospective Noteholders depends on their individual circumstances and may be subject to change in the future. Prospective Noteholders who may be subject to tax in a jurisdiction other than the UK or who may be unsure as to their tax position should seek their own professional advice.

Payment of interest on the Notes

There is no UK withholding tax on interest payments made in respect of securities which are issued by a company, carry a right to interest and are and continue to be listed on a "recognised stock exchange", as defined in section 1005 of the Income Tax Act 2007. The London Stock Exchange is a recognised stock exchange for these purposes. Securities will be treated as listed on the London Stock Exchange if they are included in the Official List (within the meaning of and in accordance with the provisions of Part 6 of the FSMA) and are admitted to trading on the London Stock Exchange. Provided, therefore, that the Notes carry a right to interest and are and remain so listed, interest on the Notes will be payable without withholding or deduction for or on account of UK tax.

Interest on the Notes may also be payable without withholding or deduction for or on account of UK tax in cases where the maturity of the Notes is less than 365 days and those Notes do not form part of a scheme or arrangement of borrowing intended to be capable of remaining outstanding for more than 364 days.

In other cases, an amount must generally be withheld from payments of interest on the Notes that has a UK source on account of UK income tax at the basic rate (currently 20 per cent.), subject to any other available exemptions and reliefs. However, where an applicable double tax treaty provides for a lower rate of withholding tax (or for no tax to be withheld) in relation to a Noteholder, HMRC can issue a notice to the Issuer to pay interest to the Noteholder without deduction of tax (or for interest to be paid with tax deducted at the rate provided for in the relevant double tax treaty).

The references to "interest" in this United Kingdom Taxation section means "interest" as that term is understood for UK tax purposes, and in particular any premium element of the redemption amount of any Notes redeemable at a premium may constitute a payment of interest subject to the withholding tax provisions discussed above. In certain cases, the same could be true for amounts of discount where Notes are issued at a discount. The statements above do not take any account of any different definitions of "interest" or "principal" which may prevail under any other law or which may be created by the Terms and Conditions of the Notes or any related documentation.

PROPOSED FINANCIAL TRANSACTION TAX (FTT)

On 14 February 2013, the European Commission published a proposal (the **Commission's Proposal**) for a Directive for a common FTT in Belgium, Germany, Estonia, Greece, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia (each, other than Estonia, a **participating Member State**). However, Estonia has since stated that it will not participate.

The Commission's Proposal has very broad scope and could, if introduced, apply to certain dealings in the Notes (including secondary market transactions) in certain circumstances. Primary market transactions referred to in Article 5(c) of Regulation (EC) No. 1287/2006 are expected to be exempt.

Under the Commission's Proposal the FTT could apply in certain circumstances to persons both within and outside of the participating Member States. Generally, it would apply to certain dealings in the Notes where at least one party is a financial institution, and at least one party is established in a participating Member State. A financial institution may be, or be deemed to be, "established" in a participating Member State in a broad range of circumstances, including (a) by transacting with a person established in a participating Member State or (b) where the financial instrument which is subject to the dealings is issued in a participating Member State.

However, the Commission's Proposal remains subject to negotiation between participating Member States. It may therefore be altered prior to any implementation, the timing of which remains unclear. Additional EU Member States may decide to participate.

Prospective holders of the Notes are advised to seek their own professional advice in relation to the FTT.

SUBSCRIPTION AND SALE

The Issuer has, in a programme agreement (such Programme Agreement as modified and/or amended and restated from time to time the **Programme Agreement**) dated 24 June 2021, agreed a basis upon which Dealers may from time to time agree to purchase Notes. Any such agreement will extend to those matters stated under “*Form of the Notes*” and “*Terms and Conditions of the Notes*”. In the Programme Agreement, the Issuer has agreed to reimburse Dealers for certain expenses in connection with the establishment and any future update of the Programme and the issue of Notes under the Programme and to indemnify Dealers against certain liabilities incurred by them in connection therewith.

United States

The Notes have not been and will not be registered under the Securities Act or with any securities regulatory authority of any state or other jurisdiction of the United States and may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons except in certain transactions exempt from, or not subject to, the registration requirements of the Securities Act. Terms used in this paragraph have the meanings given to them by Regulation S under the Securities Act.

The Notes are subject to U.S. tax law requirements and may not be offered, sold or delivered within the United States or its possessions or to a United States person, except in certain transactions permitted by U.S. Treasury regulations. Terms used in this paragraph have the meanings given to them by the U.S. Internal Revenue Code of 1986, as amended and Treasury regulations promulgated thereunder. The applicable Final Terms will identify whether TEFRA C Rules or TEFRA D Rules apply or whether TEFRA is not applicable.

The Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it will not offer, sell or deliver Notes (a) as part of their distribution at any time or (b) otherwise until 40 days after the completion of the distribution of all Notes of the Tranche of which such Notes are a part, within the United States or to, or for the account or benefit of, U.S. persons. The Dealer has further agreed, and each further Dealer appointed under the Programme will be required to agree, that it will send to each dealer to which it sells any Notes during the distribution compliance period a confirmation or other notice setting forth the restrictions on offers and sales of the Notes within the United States or to, or for the account or benefit of, U.S. persons. Terms used in this paragraph have the meanings given to them by Regulation S under the Securities Act.
